Poſt Meridiem. The Governor by his Secretary ſent down a written Meſſage to the Houſe, which follows in theſe Words, *viz.*

GENTLEMEN,

The Governor's Meſſage. ‘AS it is the Duty of my Station to be at all Times watchful over the Intereſts of the Province under my Government, and as nothing more eſſentially concerns them ‘than the Security of its Trade and Navigation, I think myſelf indiſpenſably obliged to lay ‘hold of the firſt Opportunity of delivering to you my Sentiments upon a very late Inci‘dent; which, as it cannot but have come to your Knowledge, muſt have in ſome De‘gree engaged likewiſe your Thoughts before your meeting together; that is, the take‘ing four Veſſels upon our Coaſt by a *French* Privateer Ship of conſiderable Force, and ‘the Captain's giving the Men Leave to go on Shore, with this contemptuous Circum‘ſtance, that he was too well acquainted with *Philadelphia* to apprehend their ſending out ‘any thing to attack him, and that he therefore deſigned to cruize a Fort'night longer in ‘the ſame Place. If he did not ſtay out that Time, it may be concluded he did his Buſineſs ‘ſooner, and from the Succeſs he met with, that this Ship and the two Privateer Brigan‘tines equipped at *Louiſbourg* at the ſame Time, will ſoon return to an Harveſt plentiful, ‘and to be reaped without Danger.

‘Is it not a Reproach to the Name of *Engliſhmen*, to ſuffer themſelves to be thus in‘ſulted, when they have the Means in their Hands to maintain their ancient Character? ‘For under proper Regulations a Ship might have been equipped in a few Days, capable ‘of driving this Privateer from the Coaſt, or of bringing her in. And will not your ‘Trade be entirely ruin'd, when the Enemy are convinced by Experience, that they ‘may not only cruize upon your Coaſt, but block up your Port with Impunity? The ‘*French* in *America* ſeem'd at firſt unprepar'd for the War, but now they begin to act, ‘and it is highly probable their Privateers will ſwarm upon our Coaſt next Summer, ‘if we do not put ourſelves into a Condition to act againſt them, to convoy our Veſſels ‘off, and to protect them when they come upon our Coaſt. The Governments of *New‘England*, *Rhode-Iſland* and *Connecticut*, enter'd early into this Method of ſecuring their ‘Trade, and *Virginia* has been lately obliged, from the Diſability of the King's Ship ‘upon that Station, to do the ſame.

‘It is not difficult to foreſee the ill Conſequences that will enſue upon a Want of ‘Attention, or an ill-timed Parſimony, in a Matter of this Importance. If the *Britiſh* ‘Merchants, as well as our own, are not as well protected by this as by other Govern‘ments, the Trade of this City will be ſoon at an End; for no Man will carry it on at ‘a certain Loſs. From hence will follow the Loſs of your Shipbuilding; and the Ship‘wright, Smith, Joiner, and all the other Artificers concerned in equipping that noble ‘Machine, muſt ſeek for Employment elſewhere; and when this Trade is once loſt, the ‘Example of a neighbouring City ſhews that it is not eaſily to be recovered. This whole ‘City indeed, in ſome way or other, depends upon the Merchant, and if he cannot trade ‘to Advantage, it will be ſoon very ſenſibly felt by the Whole. Even the Farmer, who ‘is too apt to conſider the Landed and the Trading Intereſt in Oppoſition to each other, ‘muſt confine his Produce to the Conſumption of his own Family, if the Merchant is ‘diſabled from exporting it to foreign Markets.

‘In Oppoſition to the fitting out a Veſſel for the Protection of your Trade, I know it ‘has been ſaid, that it is a needleſs Expence to the Province, ſince the King's Ships, ſta‘tioned at *New-York* and *Virginia*, are ſufficient to clear the Coaſt of the Enemies Priva‘teers. But we are now convinced, from Experience, that the King's Ships have been or‘dered upon other Services, and that what with the Deſertion of their Seamen, and their ‘being out of Repair at their Return to their Stations, the whole Summer has been ‘ſpent before they could put to Sea again.

The Governor by his Secretary sent down a written Message to the House, which was read, and follows in these Words, *viz.*

GENTLEMEN,

'BY the last Vessel from *Bristol*, I received a Letter from the Proprietaries, enclosing a Copy of a Bill brought into the House of Commons last Session, by Sir *John Barnard*, Colonel *Bladen*, and Mr. *Fane*, in Consequence of a Petition signed by Twenty-four Merchants, to prevent the issuing Bills of Credit in the Colonies as a Tender for the Payment of Debts. The Bill was ordered to be printed, that it may be considered next Session. The Gentlemen who brought it in, being of great Figure and Weight in the House, it is concluded that it will be well supported. The Governor's Message

'As the Interest of this Province may be greatly affected by this Bill, I think it highly adviseable, that you immediately prepare a Set of Instructions, and transmit them by the first Opportunity, for obviating any Objections that may be raised against the Paper Currency here. Mr. *Patridge*, as Agent for *Rhode-Island*, has already engaged Mr. *Paris* in Behalf of that Colony.

October 17, 1744. *GEORGE THOMAS.*"

Then the House adjourned to Ten o'Clock To-morrow Morning. Adjournment

1744. *Oct.* 18. therewith laid before the Houſe. The Houſe reſuming the Conſideration of the ſeveral Meſſages received from the Governor,

Reſolved, That *Samuel Levis* and *Abraham Chapman* do wait upon the Governor, and return him the hearty Thanks of the Houſe for the Care he has ſhewn for the Province, particularly reſpecting *Indian* Affairs; and acquaint him, that the Houſe have given Directions to their Committee of Correſpondence to prepare Inſtructions for their Agent, the better to enable him to oppoſe the Bill lately brought into Parliament, of which the Governor was pleaſed to ſend them a Copy: A Bill which, if paſſed into a Law, appears to the Houſe deſtructive of all their Liberties, and likely to be attended with the moſt dangerous Conſequences to all the King's Subjects in *America*. That they have ordered a Sum of Money to be remitted to their Agent, for defraying the Expences which ſhall ariſe on the Oppoſition directed to be given to this Bill. That, as the Governor is in a few Days Time to be at *Newcaſtle*, and it will be inconvenient to divers of the Members to ſtay long at this Seaſon of the Year; and as the Houſe are of Opinion no great Inconvenience can ariſe by their not giving a more particular Anſwer to the Governor's firſt Meſſage, they hope he will not take it amiſs that they chuſe to defer the ſame until the next Sitting of Aſſembly.

GENTLEMEN,

The Governor's Meſſage. 'THE Papers, which I have ordered to be laid before you, will inform you of my 'Reaſon for calling you together before the Time to which you ſtood adjourned. 'The Government of *New-England* requeſts our Aid for the Reduction of *Cape Breton*. 'The Enterprize ſhews a fine Public Spirit in that People; and, if it ſucceeds, will 'be greatly for the Honour of his Majeſty, and the Intereſt of all his Colonies in *North* '*America*. The Conqueſt of *Louiſburg*, which is the only *French* Port of Conſequence, 'in this Part of the World, either for Strength or the Accommodation of large Ships, 'will baniſh all Apprehenſions for the future, of Maritime Attempts upon the Colo-'nies, or their Trade upon this Coaſt; but the Advantages to us, and to our Mother 'Country are ſo many, and ſo evident, that it will be loſing Time to enumerate them. 'Diſpatch, you will ſee, is the Life of the Undertaking: Let me recommend that to 'you, Gentlemen, with regard to a Proviſion of Money: I promiſe you, that the Diſpo-'ſition of it ſhall be diligently and faithfully made; and in ſuch a Manner, as you ſhall 'adviſe may be moſt for the Service it is intended to promote.

February 26, 1744-5. *GEORGE THOMAS.*"

Adjournment. Then the Houſe adjourn'd to Three o'Clock, *P. M.*

Poſt Meridiem. The Governor's Meſſage, with the Papers therein referred to, was again read, and conſidered; and after ſome Time ſpent therein, the farther Conſideration thereof was referred to To-morrow Morning.

A Petition from *Elizabeth Chancellor*, Daughter and Executrix of *William Chancellor*, deceaſed, was preſented to the Houſe and read, ſetting forth, that in Purſuance of an Act of Aſſembly of this Province for ſecuring the City of *Philadelphia* from the Danger of Gunpowder, the Petitioner's ſaid Father did, at a conſiderable Expence, build a ſuitable Powder-Houſe for the Receipt of Gunpowder, at which due Care and Attendance has been hitherto given, to the general Satisfaction of the Merchants. But the Term granted by the ſaid Act being near expired, and little of the Eſtate, beſides the ſaid Powder-Houſe, being left for the Support and Education of the ſaid *William Chancellor's* young Children, the Petitioner prays that the Act may be renew'd, and the Term further continued in their Favour. *Ordered to lie on the Table.*

Adjournment. Then the Houſe adjourned to Ten o'Clock To-morrow Morning.

12*th Mo.* 27. The Houſe reſumed the Conſideration of the Governor's Meſſage,

Ordered, That *Iſaac Norris*, *Iſrael Pemberton*, *John Watſon*, *Joſeph Pennock* and *John Wright* be a Committee to prepare a Draught of an Anſwer to the Governor's Meſſage, and report the ſame to the Houſe.

A Petition from the Overſeers of the Poor of the City of *Philadelphia*, was preſented to the Houſe and read, ſetting forth, that by ſerving in that Office the preſent Year, they have had an Opportunity of ſeeing, that the Laws now in Force for the Relief of the Poor, want Amendment in ſeveral Particulars; that it is become too great a Burden for any three Men to collect the Tax of all *Philadelphia*, and at the ſame Time to take Care of the Poor, which have encreaſed with the City; that a Collector of the Tax appointed for each Ward, would render the Office eaſier, and Perſons qualified for it would not be ſo unwilling to accept of it; that if the Overſeers were to be choſen as the Commiſſioners of the County are, not all at once, and inveſted with Power to inſpect the Circumſtances of Strangers that come to reſide in the City, it would be a Means to make them better acquainted with their Duty, leſſen the Tax, and diminiſh the Number of our Poor; that the County Rate is not an equal or juſt Rule to go by, in taxing the Citizens; and that if the Overſeers were choſen by them, they would have a more equitable Right to aſſeſs them, as well as be better acquainted with their Circumſtances than the County Aſſeſſors generally are; that a Part of the Law exempting Mariners from giving Security, *&c.* wants Explanation; many poor Strangers, frequently gaining Settlements under Pretence of being Sailors, and become a Charge to the Inhabitants; that there is no Law to enable any to ſue for or receive Eſtates or Monies given to the Poor, or to ſettle Ground-rents in their Behalf; all which is humbly ſubmitted to the Conſideration of the Houſe, and Relief prayed therein.

Ordered to lie on the Table.

The Petition of *Elizabeth Chancellor* was again read and conſidered,

Ordered, That Leave be given the Petitioner to bring in a Bill, for the Purpoſes of the Petition, at the next Sitting of this Houſe.

Adjournment. Then the Houſe adjourned to Ten o'Clock To-morrow Morning.

12*th Mo.* 28. The Committee appointed to prepare an Anſwer to the Governor's Meſſage, reported the ſame to the Houſe; and it was read and conſidered, and the further Conſideration thereof adjourned to the Afternoon.

Adjournment. Then the Houſe adjourned to Three o'Clock, *P. M.*

The Answer to the Governor's Message was again read and considered, and ordered to be transcribed that it may be sent up to the Governor.

1744. 12 Mo. 28. Post Meridiem

And the same being accordingly transcribed, follows in these Words, *viz.*

May it please the GOVERNOR,

The Assembly's Answer to the Governor's Message

THE Message we last received, with the Papers to which the Governor was pleased to refer us for the Occasion of our being called together, we have taken into our Consideration, with that Attention and Regard the Importance thereof justly requires.

We are willing to suppose the Expedition intended by the Government of the *Massachusetts* against *Cape Breton*, is, as the Governor is pleased to express it, "the Result of a fine Public Spirit," and we would chuse to avoid any Remarks thereon which can justly give them Umbrage; and yet we cannot but think that if they expected the Assistance of the neighbouring Colonies, it is reasonable they should have consulted them, both as to the Enterprize and the Manner in which it was to be executed, whereas the present Scheme is wholly their own; and if the other Colonies do not accede to it, in the Manner it is now projected, it is too late for Alterations, how advantageous soever they might prove. If the Design succeed, they will be entitled to but small Part of the Honour; if it miscarry, they may indeed be time enough to share a principal Part of the Disgrace.

Permit us to add, that as the Assistance they expect from *Great-Britain*, or the King's Ships, seems to us uncertain; the Aids desired of the neighbouring Colonies, if granted, such as probably must come too late; the Attempt in itself extremely hazardous, the Danger which may arise from a Diversity of Opinions between Officers equal in Authority, independant of each other, without any Commander in Chief to control or direct them, great and unavoidable: In a Word, as there are no Directions from the Crown concerning it; the Sentiments of the Ministry, and how such a Procedure will be relished by our Superiors, unknown; and as it may possibly interfere with or disconcert their Measures; had we not other Reasons to determine us, we should think it not prudent to unite in an Enterprize, where the Expence must be great, perhaps much Blood shed, and the Event very uncertain."

The Message being signed by the Speaker, by Order of the House,

Ordered, That *Oswald Peele* and *Mark Watson* carry up the same to the Governor and acquaint him, that the House is inclin'd to adjourn to the 22d of the next Second Month, the Time of their former Adjournment.

The Petition of the Overseers of the Poor of the City of *Philadelphia*, was again read and considered,

Ordered, That *Thomas Leech*, *Edward Warner*, *James Morris*, *Joseph Trotter* and *Oswald Peele* be a Committee to inspect the Laws relating to the Poor, and report such Amendments as they find necessary to be made thereto.

The Gentlemen return and report, that they waited upon the Governor, and delivered the Message of the House according to Order; and that the Governor was pleased to say he had no Objection to the proposed Time of Adjournment.

And it being moved, that *Peter Lloyd*, one of the Signers of the Paper Money lately printed, is deceased, and that Service not compleated,

Resolved, That *Thomas Lloyd* be a Signer of the Paper Money, in the Room of *Peter Lloyd*, deceased.

It being moved by the Trustees of the Province Island, that there is a Necessity of repairing the old Banks, or making some new ones; and that they cannot, without the Order of the House, make Use of the Money coming into their Hands, for that Purpose,

Ordered, That the said Trustees do make Use of the Money now in their Hands, for repairing the Banks or making new ones, as they shall judge most conducive to the public Benefit.

Then the House adjourned to the 22d of the next Second Month. Adjournment

THE House met pursuant to their Adjournment.

GENTLEMEN,

The Governor's Meſſage. 'SEVERAL of the Inhabitants of the back Parts of *Philadelphia* and *Lancaſter* Counties, having renewed their Petition to me, ſetting forth the Inconveniences they 'labour under, on Account of their great Diſtance from the County Courts, and praying that a new County may be erected, agreeable to the Lines marked in a Map of the 'Province formerly delivered; I repeat to you what I ſaid to a former Aſſembly, that if 'it ſhall be thought likely to conduce to the Security, Eaſe, and good Order of that 'Part of the Government, I ſhall be willing to grant the Prayer of the Petition; and as 'a Proviſion will be beſt made by a Law for the Eſtabliſhment of Courts of Judicature, 'I ſhall be alſo willing to join with you in One for that, or any other neceſſary Purpoſes.

April 25, 1745. *GEORGE THOMAS.*"

GENTLE-

GENTLEMEN,

1745. 2d *Mo.* 25. The Governor's Message

'SINCE your last Meeting, I received a Letter from the Governor of *Virginia*, enclosing the *Catawbaes* Answer to a Message he had sent them, pursuant to the Treaty 'at *Lancaster*, and desiring my Assistance for settling a Peace between them and the *In*-'*dians* of the *Six Nations*. I made no Difficulty of promising my best Offices, to prevent, 'if possible, a further Effusion of those unhappy People's Blood; and immediately en-'gaged *Conrad Weiser* to undertake another Journey to *Onontago*, so soon as the Spring 'should be far enough advanced to afford Grass for his Horses. As the Treachery of the '*Catawbaes* in a former Instance has rendered them justly suspected by the *Six Nations*, 'I despaired of persuading the latter to send Deputies to their Country, and therefore in-'structed *Conrad Weiser* to propose *Williamsburg*, or some other Town in *Virginia*, for 'the Place of holding the Treaty; but in case the *Six Nations* cannot be brought to agree 'to that, to consent to its being held at *Philadelphia*, upon Condition that they limit the 'Number of Deputies to Five on each Side. Notwithstanding Governor *Gooch* has pro-'mised to defray the Expence of this Negotiation, the Charge of an Express or two, or 'perhaps of a few Strowds, for a Present to the *Indians*, will probably fall upon this Pro-'vince, and I doubt not but you will chearfully provide for it.

'I have just received Information, that *Peter Chartier*, after disposing of his Effects in 'this Government, is gone over to the Enemy. His Conduct, for some Years past, has 'rendered him generally suspected; and it seems my reprimanding him for some very 'exceptionable Parts of it, is made use of, amongst other Things, to excuse his Infide-'lity. Had he been punished as he deserved for the villainous Report he spread two 'Years ago amongst the back Inhabitants, in order to spirit them up against such of the '*Six Nations* as should happen to travel through those Parts of the Country, he would 'not have been at this Time with the Enemy; but an Apprehension that the *Shawnese* '(whose perfidious Blood partly runs in *Chartier's* Veins) might resent upon our Traders 'any Severities to him, restrained me from making use of such, and induced me to chuse 'the gentle Method of Reproof, which his brutish Disposition has construed into an 'Affront.

'I am likewise informed, that he has persuaded a considerable Number of the *Shaw*-'*nese* to remove from their old Town, to a greater Distance upon another River, and it 'is not to be doubted but that a Person of his savage Temper will do us all the Mis-'chief he can. If you think it worth while, I will send a special Messenger to persuade 'those *Shawnese* to return to their former Place of Abode, or I will take any other Mea-'sures you shall advise; tho' it is my Opinion, the Advantages of the Trade excepted, 'the further these People remove from our Borders, the better it will be for us. I have 'wrote Letters from Time to Time to the *Shawnese* Chiefs, inviting them down to *Phi*-'*ladelphia*, and particularly a very kind one the last Fall, which *Peter Shaver* tells me he 'delivered; but that I have of late received no Answer, may be imputed to *Chartier's* 'Influence over them; and it is too probable, that he will make use of it to defeat any 'future Attempts we shall make to revive their Friendship with us.

April 25, 1745. *GEORGE THOMAS*."

Several Papers and Petitions referred to in the Governor's Messages, and delivered with them were also read, and the further Consideration thereof adjourned to the Afternoon.

Then the House adjourned to Three o'Clock, *P. M.* Adjournment

The Governor's Message, relating to the *Indians*, was again read and considered, *Post Meridiem.*

Ordered, That *Thomas Leech*, *Abraham Chapman*, *Israel Pemberton*, *Samuel Levis* and *James Mitchel* be a Committee to prepare a Draught of an Answer to the said Message, and report the same to the House.

A Petition from *William Dewees*, jun. was presented to the House and read, setting forth, that by Order of a Magistrate he pursued and apprehended one *Lemuel Washburn*, supposed to be a Counterfeiter of Bills of Credit; that his Expences therein amounted to £3. 15*s.* 0*d.* which the Commissioners of the County refused to pay, alledging it ought to be a Provincial Charge; and praying that this House would order him Payment out of the Public Treasury. *Ordered to lie on the Table.*

Then the House adjourned to Ten o'Clock To-morrow Morning. Adjournment

2d *Mo.* 26. The Gentlemen appointed to prepare a Draught of an Answer to the Governor's Message, reported the same to the House, and it was read, and ordered to be transcribed, that it may be sent up to the Governor.

The Gentlemen to whom the Flour Bill was committed, brought in a Bill, entituled, *A Supplementary Act to the Act for preventing the Exportation of Bread and Flour not merchantable*, which was read, and debated, and the farther Consideration thereof was adjourned to the Afternoon.

Then the House adjourned to Three o'Clock, *P. M.* Adjournment

1745. *2d Mo.* 26. *Poſt Meridiem.*

The Meſſage to the Governor being tranſcribed, was read, and follows in theſe Words, *viz.*

May it pleaſe the GOVERNOR,

The Aſſembly's Meſſage to the Governor.

THE good Offices the Governor hath been pleaſed to undertake, at the Deſire of the Governor of *Virginia*, for ſettling a Peace between the *Indians* of the *Six Nations* and the *Catawbaes*, and for preventing, if poſſible, a farther Effuſion of thoſe unhappy People's Blood, is very agreeable to us; and will, we hope, be attended with the Succeſs deſired. And if, for the Accompliſhing ſo good Purpoſes, it become neceſſary that the Deputies of thoſe Nations ſhould meet at *Philadelphia*, and conſequently occaſion a Charge to this Province; and although it be reaſonable that the Government of *Virginia*, according to their Promiſe, do defray the Expences of that Negotiation; yet as we look upon it at all Times prudent, and more particularly ſo in the preſent critical Juncture of public Affairs, to cultivate a good Underſtanding with the *Indians*, and do not doubt of all the Frugality requiſite; whatever Charges ſhall neceſſarily ariſe for the Expreſſes and Preſents the Governor is pleaſed to mention, we ſhall chearfully provide to pay.

The Infidelity of *Peter Chartier*, in his going over to the Enemy, and his perſuading a conſiderable Number of the *Shawneſe* to remove from their old Town to a greater Diſtance on another River, gives us ſome Concern, as it looks like an Attempt to deſtroy the Friendſhip which hitherto ſubſiſted between thoſe *Indians* and this Government. It is very probable, from the ſame treacherous Principles, *Chartier* may be induced to do us all the Miſchief in his Power amongſt thoſe *Indians*, and if a ſpecial Meſſenger was ſent to them it may be attended with ſome Danger; and, conſidering *Chartier's* Influence, perhaps not be ſufficient to enduce them to return to the Place of their former Abode, were ſuch Return allowed to be of Advantage to this Province. We muſt, however, refer the conducting this Affair to the Governor's Prudence, upon ſuch further Advices as he may hereafter receive; returning him our hearty Thanks for the Care he hath hitherto taken in theſe Affairs, and making no Queſtion, but that, as Occaſion ſhall require, every prudent Meaſure will be taken to defeat *Chartier's* perfidious Deſigns, and preſerve, if poſſible, the *Shawneſe* ſteady in their Friendſhip with this Government."

And the Meſſage being ſigned by the Speaker, by Order of the Houſe,

Ordered, That *George Aſhbridge* and *Arthur Patterſon* wait upon the Governor, and deliver the ſame; and that they acquaint the Governor, that his other Meſſage is under the Conſideration of the Houſe; and that they propoſe to adjourn to the 19th of the next 6th Month, if he hath no Objection to that Time.

A Petition of ſundry Inhabitants of the City of *Philadelphia*, praying, for the Reaſons therein mentioned, that upon the Reſignation of the preſent Exciſe Officer for the County of *Philadelphia*, a Perſon may be appointed to put that Act in Execution whoſe other Buſineſs will not interfere with his Duty to the Public; was preſented to the Houſe and read. *Ordered to lie on the Table.*

The Petition of *William Dewees* was again read and conſidered,

Ordered, That an Order be drawn on the Treaſurer for the Payment of *Three Pounds Fifteen Shillings* to the ſaid *Dewees*, in full Diſcharge of his Account. *Which was done accordingly.*

Ordered, That 17 £. paid to *Francis Sherrard* by the Sheriff of *Lancaſter*, on Account of the Loan Office, and loſt by his Death, be allowed by the Truſtees.

The Petition from ſundry Inhabitants of *Bucks* County, relating to the Votes of the Houſe, was again read, and referred to farther Conſideration.

The Petition for a new County, was again read, and referred to farther Conſideration.

The Gentlemen appointed to wait on the Governor, with the Meſſage of the Houſe, report, that they delivered the ſame according to Order, and that the Governor had made no Objection to the propoſed Time of Adjournment.

Adjournment. Then the Houſe adjourned to the 19th Day of the next 6th Month.

4th Mo. 3. *Poſt Meridiem.*

THE Governor having by his Writs directed the Sheriffs to ſummon the Repreſentatives of their reſpective Counties to meet him this Day in Aſſembly, they were ſummoned, and the Houſe is met accordingly.

Ordered, That *Thomas Leech* and *Oſwald Peele* wait upon the Governor and acquaint him, that the Houſe is met purſuant to his Summons, and ready to receive any Matter he may have to lay before them.

The Gentlemen return and report, that they waited upon the Governor, and delivered the Meſſage of the Houſe according to Order; and that the Governor was pleaſed to ſay, he ſhould ſend a Meſſage to the Houſe To-morrow Morning, together with ſome Letters he had received from Governor *Shirley* and Commodore *Warren*, and deſired the Members would be together pretty early.

Adjournment. Then the Houſe adjourned to Ten o'Clock To-morrow Morning.

The

The Governor by his Secretary sent down a written Message to the House, together with two Letters he had received from Governor *Shirley* and Commodore *Warren*, which were read, and the Message follows in these Words, *viz.* 1745. 4th Mo. 4.

GENTLEMEN,

'THE Secretary is ordered to lay before you two Letters I received on the 25th of the last Month from Governor *Shirley* and Commodore *Warren*, by an Express from *Boston*. The Importance of these Dispatches laid me under an indispensable Obligation to call you together again before the Time to which you stood adjourned; and now you are met, I cannot doubt but your Resolutions will be such as may be for the Advancement of his Majesty's Service, and the common Interests of the Northern Colonies. The Expedition against *Louisburg*, you will observe, is carried on with his Majesty's Approbation, is supported by seven of his Ships of War, and has been hitherto attended with such Success, as renders it highly probable that the King's Forces will become Masters of the Place, if they shall be reinforced in time by the rest of the Colonies. The Governor's Message.

'As the Measures to be taken by the Government of *New-England* will in some Degree depend upon your Resolutions, I hope you will enable me to transmit them by the next Post.

June 4, 1745. *GEORGE THOMAS.*"

Ordered, That the Message be again read and considered in the Afternoon.

The House being informed, that the Collector of the Excise for the County of *Philadelphia* attended, he was called in, and thanking the House for their Favour in appointing him to that Office, he acquainted the House, that it did not suit his Affairs to continue in it, and therefore requested that the House would be pleased to appoint another; and then withdrew.

A Petition from *Thomas Peters*, of the City of *Philadelphia*, was presented to the House and read, praying, that he may be appointed the Officer to execute the Excise Act for the said City and County. *Ordered to lie on the Table.*

1745. attend that Service; and having thanked the Houſe for their Favour in appointing him to it, he withdrew.

4th. Mo. 6. *Reſolved*, That *Joſeph Harvey* be appointed Signer of the Paper Money in the room of *Thomas Lloyd*.

The Meſſage to the Governor being tranſcribed, was read, and follows in theſe Words, *viz.*

May it pleaſe the GOVERNOR,

The Aſſembly's Meſſage to the Governor. WE have maturely conſidered the Governor's Meſſage of the 4th Inſtant, together with the Contents of the Letters which the Secretary was ordered to lay before us. And our Reſult is, that as the Enterprize againſt *Cape Breton*, is a private Undertaking of the Government of *New-England*, in which they did not think fit to conſult the neighbouring Colonies, and wherein, if the Deſign ſucceeds, they themſelves will receive the principal Benefit, and therefore they have no Right to involve us in the Expence.

That the Expedition is ſince carried on "with His Majeſty's Approbation" we do not doubt; but how far it was intended this Government ſhould be burdened with the Expence ariſing from it, will beſt appear when the Letter from the Duke of *Newcaſtle* to the Governor, mentioned by Commodore *Warren*, ſhall be received, until then, we hope, we ſhall be excuſed from coming to any further Reſolutions in an Affair, which, for other Reaſons than we have mentioned, the Governor muſt be ſenſible affords us much Difficulty."

And the ſame being ſigned by the Speaker, by Order of the Houſe,

Ordered, That *Joſeph Trotter* and *James Morris* wait upon the Governor with the Meſſage, and acquaint him, that the Houſe is inclined to adjourn to the Time of their former Adjournment.

The Gentlemen return and report, that they waited upon the Governor, and delivered the Meſſage of the Houſe according to Order, and that the Governor was pleaſed to ſay he had no Objection to the Time propoſed.

Adjournment Then the Houſe adjourned to the 19th of the next 6th Month.

5th. Mo. 22. *Poſt Meridiem.* THE Repreſentatives having been, by Virtue of the Governor's Writs to the Sheriffs of the ſeveral Counties for that Purpoſe directed, again ſummoned to meet him in Aſſembly, the Houſe met this Day accordingly.

Ordered, That *Iſaac Norris* and *Thomas Leech* wait upon the Governor and acquaint him, that in Purſuance of his Summons a Quorum of the Houſe is met, and ready to receive any Thing he may have to lay before them; and deſire a Copy of the Writs by Virtue of which the Houſe was ſummoned.

The Governor by his Secretary ſent down a Meſſage in Writing to the Houſe, together with Letters he had lately received from Governor *Shirley* and Commodore *Warren*, and a Copy of his Majeſty's Inſtructions to the ſeveral Governors of the Colonies in *North America* to aſſiſt Commodore *Warren*, referred to in the ſaid Meſſage, which were read, and the Meſſage and Inſtructions follow in theſe Words, *viz.*

GENTLEMEN,

The Governor's Meſſage ‘MY Duty to his Majeſty, my Regard for the Intereſts of the Colonies, and my Concern for the Reputation of *Pennſylvania*, have all conſpired to my calling you together at this Time; and I do aſſure myſelf, that you will joyfully embrace the Opportunity of giving a public and ſubſtantial Proof of the like Zeal for the King's Service, and the common Good of your Fellow-Subjects. As it has pleaſed the Almighty to grant a Bleſſing on his Majeſty's Arms, and, after an uncommon Courſe of Events, to crown the glorious Enterpriſe of the Government of *New-England* with Succeſs, I conclude, that Arguments to induce you to do your Parts, for preſerving a Conqueſt of ſuch Importance, are altogether unneceſſary; and that on this preſſing Occaſion, your Reſolutions will be ſo ſpeedy, as well as effectual, that I may be enabled to give a ſatisfactory Anſwer, by the next Poſt, to the Letter which I had the Pleaſure to receive by Expreſs from Governor *Shirley*, and which I have now ordered to be laid before you, together with one, ſince come to hand, from Commodore *Warren*, encloſing a Copy of the Signification of his Majeſty's Pleaſure, by his Grace the Duke of *Newcaſtle*, to the ſeveral Governors of the *Britiſh* Colonies in *North America*.

July 23, 1745. *GEORGE THOMAS.*"

A Copy

A Copy of his Majesty's Order signified by the Duke of Newcastle *to the respective Governors of the Colonies in* North America. 1745. 5th Mo. 23.

SIR, *Whitehall, January* 3, 1744-5.

HIS Majesty having thought it necessary, for the Security of the Colonies in *North America*, and particularly of the Province of *Nova Scotia*, (which has been already invaded by the *French*, and upon which there is great Reason to apprehend, that they will early in the Spring renew their Attempts by the Attack of *Annapolis Royal*) to employ such a Strength of Ships of War in those Seas, under the Command of Commodore *Warren*, as may be sufficient to protect the said Province, and the other neighbouring Colonies in *North America*, and the Trade and Fishery of his Majesty's Subjects in those Parts, and may also, as Occasion may offer, attack and distress the Enemy in their Settlements, and annoy their Fishery and Commerce; I have his Majesty's Commands to signify to you his Pleasure, that if Mr. *Warren* shall apply to you for Assistance, either of Men, Provisions or Shipping, to enable him to proceed either to the Relief and Succour of *Annapolis Royal*, or of any other of His Majesty's Forts and Settlements, or for making any Attempts upon the Enemy, you should in all such Cases be aiding and assisting to him, in the most effectual Manner, and according, as, upon Consultation together, shall be judged proper for carrying on his Majesty's Service; and you will be ready to concert and advise with Mr. *Warren* upon all Occasions that may arise, which shall have Relation to the Services on which he is employed; and particularly you will procure and communicate to him, the best Intelligence you shall be able to obtain, of the State and Condition of the Enemy's Settlements, and of the Ships in their Harbours; that he may be enabled to judge, whether it may be practicable and adviseable to make an Attempt upon any of their Ports.

HOLLIS NEWCASTLE."

Then the House adjourned to Three o'Clock, *P. M.* Adjournment

The Governor's Message, with the Papers that accompanied it, was again read, and after some Debate, the farther Consideration thereof was adjourned to To-morrow Morning. *Post Meridiem.*

A Petition from *James Dinnen* and *Peter Tostee*, two *Indian* Traders, was presented to the House and read, setting forth, that as they were on the 18th Day of *April* last returning up the River *Allegheny*, with a considerable Quantity of Furs and Skins, in Canoes, *Peter Chartier*, late an *Indian* Trader, with about 400 *Shawnese Indians*, armed with Guns, Pistols and Cutlasses, suddenly took them Prisoners, having, as he said, a Captain's Commission from the King of *France*; and plundered them of all their Effects, to the Value of *Sixteen Hundred Pounds*, by which they are become entirely ruined, and utterly uncapable to pay their Debts, or carry on any further Trade; and praying that the House would be pleased to take their unhappy Circumstances into Consideration, and afford them such Relief as shall be judged meet. *Ordered to lie on the Table.*

Then the House adjourned to Ten o'Clock To-morrow Morning. Adjournment

The Governor, by his Secretary, sent down to the House a Letter he had received from *Conrad Weiser*, relating to his Negotiations at *Onondago*, with the Council of the *Six Nations*. Also a verbal Message, that some *Indians* now in Town, had made a Present to the Government of Skins to the Value of about 20*l.* and that it was the Opinion of the Governor and Council, that a Present of Goods should be made them of treble the Value. 5th Mo. 24.

Part of *Conrad Weiser's* Letter, relating to the Affair of *Peter Chartier*, follows in these Words, *viz.*

—'As to *Peter Chartier's* robbing the *English* Traders, I laid the whole Affair before 'the Council in the best Manner I could; and added, "That since our Brethren, the "*Six Nations*, had so lately assured us, that they would not suffer the Parties at War "with one another, to commit Hostilities on their Ground; many of the *English* Traders "being present in *Lancaster* last Year at that great Treaty, were thereby encouraged to go "again to *Ohio*, fearing nothing; and as what that Traitor *Chartier* did was an open Breach "of the Treaties of Friendship; I desired the Council to weigh the Matter well, and give "an Answer, after they had well agreed among themselves; be it now, or some Time "hence." To enforce this upon them, I gave them a large Belt of Wampum.

'Their Answer was to this Purpose, *Brother* Onas, *we are sorry to hear what did* 'happen to your Traders at Ohio, *by the treacherous* Peter Chartier; *we go now to* Canada, 'and *shall take this Belt of Wampum with us; we look upon it as an open Breach of the Peace* 'on the French *Side, and the Blow that is given, we receive as if it were given us; depend* 'upon it, *that we will insist upon it, that the* French *shall make Restitution of Men and* 'Goods; *we are very glad that this News reached us before we set out for* Canada. *After our* 'Return, *you will have an Answer in full to this, and no doubt a satisfactory one.*"

The House resumed the Consideration of the Governor's Message, with the Papers that accompanied it, and after some Debate, the farther Consideration thereof was adjourned to the Afternoon.

Then the House adjourned to Three o'Clock, *P. M.* Adjournment

1745. *5th Mo. 24. Poſt Meridiem.* Then the Houſe reſuming the Conſideration of the King's Commands ſignified by the Duke of *Newcaſtle's* Letters to the Governors of the Northern Colonies; and alſo the other Diſpatches, Letters and Papers, laid before it by Order of the Governor,

Reſolved, That the Sum of *Four Thouſand Pounds* be, and hereby is given to the King's Uſe; to be paid into the Hands of *John Pole* and *John Mifflin*, of the City of *Philadelphia*, Merchants; one Half Part thereof by the Truſtees of the General Loan Office; the other Half by the Treaſurer; to be laid out by them, the ſaid *John Pole* and *John Mifflin*, in the Purchaſe of Bread, Beef, Pork, Flour, Wheat or other Grain, or any of them, within this Province; and to be ſhipped from hence for the King's Service, as the Governor ſhall think moſt fit.

And the following Meſſage to the Governor being agreed to by the Houſe, *viz.*

May it pleaſe the GOVERNOR,

The Aſſembly's Meſſage to the Governor. WE think it our indiſpenſable Duty on every Occaſion to ſhew our Loyalty and hearty Affection towards our King and the preſent Government, under whom we not only enjoy our Civil and Religious Liberties in their full Extent, but often meet with peculiar Lenity and Indulgence.

With theſe Sentiments we have taken into Conſideration the King's Commands ſignified by the Duke of *Newcaſtle's* circular Letters to the Governors of the Northern Colonies, and alſo the other Diſpatches, Letters and Papers, which the Governor was pleaſed to direct ſhould be laid before us; and although the peaceable Principles profeſſed by divers Members of the preſent Aſſembly, do not permit them to join in raiſing of Men or providing Arms and Ammunition, yet we have ever held it our Duty to render Tribute to *Cæſar*, and have therefore, on the preſent Occaſion, come to the Reſolution herewith ſent, which we hope will give "Public and ſubſtantial Proof of "our Zeal for the King's Service and the common Good of our Fellow Subjects," as well as evidence our ready Obedience to his Royal Commands, ſo far as we can conſiſtently with our Religious Principles.

Submitted to the Correction of the Houſe, Aug. 20, 1745, *by*

ISAAC NORRIS, EDWARD WARNER, ABRAHAM CHAPMAN."
JAMES MORRIS, JOSEPH HARVEY,

1745. 6th Mo. 23. The Houſe reſuming the Conſideration of the Petition of a Number of the Inhabitants of *Bucks* County, relating to the Dam over *Neſhamineh Creek*, after ſome Debate thereon, referred the further Conſideration thereof to the ſucceeding Aſſembly.

Then the ſeveral Orders on the Treaſurer and Truſtees for the Allowances made for public Services for the current Year, being ſigned by the Speaker, by Order of the Houſe,

Adjournment. The Houſe adjourned to the Thirtieth of *September* next.

Sept. 4. *Poſt Meridiem.* THE Repreſentatives having been again ſummoned to meet the Governor in Aſſembly, the Houſe met accordingly.

Ordered, That *Thomas Leech* and *Edward Warner* wait upon the Governor and acquaint him, that a Quorum of the Houſe is met, purſuant to his Summons, and ready to receive any Thing he may have to lay before them.

The Gentlemen return and report, that they waited upon the Governor, and delivered the Meſſage of the Houſe according to Order; and that the Governor was pleaſed to ſay, he would ſend a Meſſage to the Houſe To-morrow Morning, together with ſundry Papers for their Conſideration.

Adjournment. Then the Houſe adjourned to Ten o'Clock To-morrow Morning.

Sept. 5. The Governor, by his Secretary, ſent down a written Meſſage to the Houſe, with ſundry Papers referred to therein, which were read, and the Meſſage follows in theſe Words, *viz.*

GENTLEMEN,

The Governor's Meſſage. ‘THE Occaſion of my calling you together ſo ſoon after your Adjournment, is ‘a Letter I received laſt Week by Expreſs from Governor CLINTON, informing ‘me of ſome late Tranſactions between the *French* Governor of *Canada* and the United ‘Nations of *Indians*, in their Treaty at *Montreal*, and inviting this Government to ſend ‘Commiſſioners to *Albany*, (where he propoſes to meet the *Indians* on the 4th of the ‘next Month) furniſhed with proper Means for retaining them in their Fidelity to his ‘Majeſty, and their Engagements with the reſpective *Britiſh* Colonies.

‘When I reflect on the long approved Faith of theſe People, their grateful Acknow‘ledgements for the Protection from Time to Time received from the *Engliſh* againſt the ‘Attempts made by the Enemy to enſlave them, and on the ſolemn Aſſurances given to ‘me at the late Treaty of *Lancaſter*, to obſerve a ſtrict Neutrality in the preſent War, ‘and to maintain inviolably their Friendſhip with the *Britiſh* Colonies, I am not eaſy ‘to entertain Suſpicions to their Prejudice; but, upon recollecting what paſſed in a pri‘vate Converſation between one of the moſt politick of their Sachems and our Interpreter, ‘when he was laſt at *Onontago*, I am not without Apprehenſions, that the Succeſs of his ‘Majeſty's Arms at *Cape Breton* may induce them to throw themſelves into the *French* ‘Scale, in order to preſerve the Balance.—For that *Indian* Sage ſaid, “That however “meanly they may be thought of, they were not unacquainted with their own true In“tereſts; and therefore would not join with either Nation in the War, unleſs compelled “to it for their own Preſervation: That hitherto, from their Situation and Alliances, “they had been courted by both; but ſhould either prevail ſo far as to drive the other “out of the Country, they ſhould be no longer conſidered, Preſents would be no longer “made to them, and in the End they ſhould be obliged to ſubmit to ſuch Laws, as the “Conquerors ſhould think fit to impoſe on them.” The *French* Governor has artfully ‘ſuggeſted the ſame Things, and their Acceptance of a Belt of Wampum from him, ‘with the Figure of a Hatchet wrought in it, though it be but to deliberate upon it, is ‘a Mark of ſome Degree of Approbation, and by no Means a good Omen to us. There ‘is but one probable Method of ſecuring them in our Intereſt, and that is, to perſuade ‘them, by outbidding the Enemy, to an open Declaration for us: Money, notwithſtanding their Reaſoning, having always been the prevailing Argument with them. Should ‘the preſent Opportunity be loſt, it is much to be feared, that the Intrigues of the *French* ‘in the enſuing Winter will ſeduce and entirely alienate them from us. But ſuppoſing ‘the beſt of them, that their Inclinations are with us, and that they are ſtill reſolved to ‘obſerve a Neutrality, if their Allies break it, and take up the Hatchet againſt us, they ‘muſt either join them, or fly to us for Protection; which can be no way ſo effectually ‘ſecured to them, as by an Union of all the *Britiſh* Northern Colonies for that Purpoſe.— ‘This is a Matter which very nearly concerns the Quiet and Safety of the People of ‘*Pennſylvania*; and as ſuch I recommend it to your moſt ſerious Conſideration, and have ‘ordered the Letter referred to, with ſome other Papers, to be laid before you for your ‘more particular Information.

‘The Secretary will likewiſe deliver to you another Letter, received ſince the Writs ‘were iſſued, from the Government of the *Maſſachuſetts*, renewing their Application for ‘an Aid of Men, Arms and Ammunition, as abſolutely neceſſary for the Defence of ‘*Louiſburg*, againſt the Attempts, which they apprehend will be made by the Enemy,

‘to

'to recover it. The Mortification must be very great to every Lover of his Country, 'should so noble an Acquisition be wrested out of our Hands, for Want of a small Share 'of that Spirit in the other Colonies to preserve it, which inspired the People of *New-* '*England* to undertake and compleat the Conquest of it. 1745. Sept. 5.

September 5, 1745. GEORGE THOMAS."

The Message was read a second time, and referred to further Consideration in the Afternoon; and then the House adjourned to Three o'Clock, *P. M.* Adjournment *Post Meridiem.*

The Governor, by his Secretary, sent down a verbal Message to the House, recommending to them, that they would resume the Consideration of the Allowances made at their last Sitting, for the Maintenance of Prisoners brought into this Port by the Privateers, the same being lower than the Agreement he had (from the Encouragement given him by the House) made with the People that entertained them, and less than is allowed in a neighbouring Province; and desiring that the Assembly would for the future manage those Affairs by a Committee of their own.

The Governor's Message of the Morning, with the Papers accompanying it, was again read and considered; and the House being willing, before they came to any Result thereon, to know the Governor's Sentiments, whether he would be pleased to attend the Treaty at *Albany*, if the House make the necessary Provision for that Purpose; or, if the Governor shall decline going himself, then to whose Care he proposes to commit the Negotiation; the Speaker was desired to wait on the Governor after the Adjournment this Evening, and learn his Mind therein. And the further Consideration of the Governor's Message was adjourned to To-morrow Morning.

Then the House adjourned to Ten o'Clock To-morrow Morning. Adjournment

The Speaker acquainted the House, that, pursuant to their Order, he had waited upon the Governor, who was pleased to declare, that if he were in good Health he would chearfully attend the Treaty proposed at *Albany*, to do the Province all the Service in his Power; but he was so indisposed, that it might endanger his Life to go thither at this Season of the Year; and therefore, if any Thing were done, it must be by Commissioners; that he thought one of the Council, and one or more Members of the Assembly, might be fitting Persons on the Occasion; and named *Thomas Lawrence* of the Council, *Isaac Norris*, and himself (the Speaker), as Commissioners for the Purpose. *Sept.* 6.

The House resuming the Consideration of the Governor's Message, and the Papers therein referred to,

Ordered, That *Thomas Leech*, *Israel Pemberton*, *Abraham Chapman*, *Samuel Levis* and *James Mitchel* be a Committee to prepare a Draught of an Answer to the Governor's Message, and that they report the same to the House.

Then the House adjourned to Three o'Clock, *P. M.* Adjournment

The Speaker communicated to the House a Letter the Governor had this Day received from *Conrad Weiser*, Interpreter to the Province, with Intelligence that Four Hundred *Indians*, Allies of the *Five Nations*, were gone in Pursuit of the revolted *Shawnese*, intending to cut them off; and that some young Warriors had lately passed by *Shamokin* in their Way to the Southward, against the *Catawbaes*, *&c.* which was read. *Post Meridiem.*

The Committee appointed to prepare a Draught of an Answer to the Governor's Message, reported the same to the House, and it was read, and, with some Amendments, approved of by the House, and ordered to be transcribed, that it may be sent up to the Governor.

Then the House adjourned to Ten o'Clock To-morrow Morning. Adjournment

The Message to the Governor being transcribed, was read, and follows in these Words, *viz.* *Sept.* 7.

May it please the GOVERNOR,

SINCE "some late Transactions between the *French* Governor of *Canada* and the United Nations of *Indians*, in their Treaty at *Montreal*," have given Umbrage to our neighbouring Government, as well as Cause to apprehend the Dangers which may arise from thence, we esteem our being called together on so important an Occasion, as a fresh Instance of the Governor's Care of the Inhabitants of this Province, who are nearly concerned in the Consequences, and may therefore justly expect from us "the serious Consideration" recommended to us. The Assembly's Answer to the Governor's Message.

"The long approved Faith of these People, their grateful Acknowledgments for the Protection from Time to Time received from the *English* against the Attempts made by the Enemy to enslave them; the solemn Assurances lately given the Governor to observe a strict Neutrality in the present War, and to maintain inviolably their Friendship with the *British* Colonies, are good Reasons against the easy entertaining Suspicions to their Prejudice:" And yet, since there is some Cause to apprehend Danger from the Influence of the *French*, we think it highly necessary that prudent Measures be taken "for retaining these *Indians* in their Fidelity to his Majesty, and their Engagements with the respective *British* Colonies."

If

1745. Sept. 7.

If the Governor's Health would permit him to attend at the next Treaty appointed at *Albany*, it would be the moſt agreeable Method to us, as well as, in our Opinion, the moſt effectual. But as we are informed the Governor's Indiſpoſition is likely to deprive us of theſe Advantages, we approve of the Commiſſioners the Governor hath been pleaſed to nominate to negotiate this Affair; and it ſhall be our Care to provide a Sum of Money for defraying their Expences, and for purchaſing ſuch a Quantity of Goods as will, we hope, be ſufficient to preſent to the *Indians* at this Time, expecting it will be neceſſary to make an additional one on their coming hither next Spring.

As to the Application laſt made by the Government of the *Maſſachuſetts*, we think the Sum of Money we lately gave, and which is applied to their Uſe, ſhould excuſe us from any further Proviſion, at leaſt for this Time.

The laſt Letter the Governor gave Directions to be laid before us, gives us freſh Concern; for though the *Shawneſe* are thought perfidious, and not well affected towards the Inhabitants of this Province, yet as the Attempt made by the *Six Nations* to cut them off will introduce War on our Frontiers, it affords but a diſagreeable Proſpect. If the Account of the Warriors of the *Six Nations* going againſt the *Catawbaes* be true, contrary to their late Agreement, perhaps the Government of *Virginia* may juſtly expect Notice ſhould be given them to prevent the *Catawbaes* being deſtroyed by Surpriſe.

The Neceſſity of the Commiſſioners to attend the Treaty at *Albany*, with the Preſent propoſed to be made to the *Indians* of the *Six Nations*, is by this laſt Account rendered more conſpicuous, as it appears requiſite to remove the Prejudices they may have imbibed, and may cultivate a good Underſtanding with them."

And the ſame being ſigned by the Speaker, by Order of the Houſe,

Ordered, That *Thomas Leech* and *James Morris* wait upon the Governor and deliver the ſame, and acquaint him, that the Houſe are diſpoſed to adjourn this Day to the Time of their former Adjournment.

Reſolved, That *Two Hundred and Fifty Pounds* be allowed as a Preſent to the *Indians*, at the Treaty to be held at *Albany*.

Reſolved, That *One Hundred Pounds* be allowed for the Expences of the Commiſſioners, and Interpreter, who are to go to the Treaty at *Albany*.

An Order was accordingly drawn on the Truſtees of the Loan Office for the above Sums, and ſigned by the Clerk, by Order of the Houſe.

The Gentlemen appointed to wait on the Governor with the Meſſage of the Houſe, report, that they delivered the ſame according to Order, and that the Governor made no Objection to the Adjournment propoſed.

The Houſe reſuming the Conſideration of the Governor's verbal Meſſage, relating to the Support of the *French* Priſoners, after ſome Debate thereon,

Reſolved, That though the Houſe is of Opinion that the Charges are too high, and what ought not to be allowed hereafter, yet as the Governor had made the Agreement, the Sum of *Ten Shillings and Six-pence* per Week be allowed for the Board of the better Sort of thoſe Priſoners.

Then Orders for the ſeveral Allowances being drawn, and ſigned by the Speaker, by Order of the Houſe.

Adjournment. The Houſe adjourned to the Thirtieth Inſtant.

The Governor, by his Secretary, sent down a written Message to the House, together with several Letters referred to therein, and a Copy of the late Treaty with the *Indians* at *Albany*, which were read; and the Message follows in these Words, *viz.*

GENTLEMEN,

'I TAKE the first Opportunity, since the Return of the Commissioners from *Albany*, to lay before you my Instructions to them, and their Report of the Treaty held with the *Indians* of the *Six Nations* at that Place; and I make no Doubt but their Conduct will be as satisfactory to you as it is to me. You will observe by the last Article of those Instructions, that had I been at Liberty to follow my own Judgment, and been secured of a Fund for supplying those Nations with Arms, Ammunition, and other Necessaries, for acting offensively against the *French*, I should, in Conjunction with the neighbouring Governments, have urged them to an immediate Declaration of War, as the only Means, in my Opinion, of securing their Fidelity to his Majesty; for as it seems next to impossible for them to maintain their Neutrality much longer, if they are not speedily engaged by his Majesty's Colonies, their own Security will oblige them to join with the Enemy: Besides, it is certainly the Reverse of good Policy to indulge our *Indians* in a Neutrality, after the *French* have compelled theirs to take up the Hatchet; it is giving the Enemy an Advantage, which they have already made use of, and will continue so to do, to the Destruction of the Inhabitants upon the Frontiers of the several Provinces. Before I quit this Subject, I must acquaint you, that by a Letter received, since your last Meeting, from the Governor of *Virginia*, I am informed, that the *Catawbaes* have refused to come to *Philadelphia*, as being too distant from their Country, and have declared, that they will not regard any Propositions made to them by the *Six Nations*, without first receiving a Token from them, attested by the Marks of some of their Sachims; and that from hence it is concluded, any farther Endeavours to reconcile them will be ineffectual. As this Mediation was set on Foot at the Desire of Governor *Gooch*, was to be carried on at the Expence of his Government, and has since been declined by him for the Reasons before mentioned, I forthwith took the propereſt Measures to make the *Six Nations* acquainted with the *Catawbaes* Resolutions, that their Deputies might be prevented from coming hither in the Spring, as well to save them the Trouble of a fruitless Journey, as us the Expence of maintaining them for some Time here, and of making them a Present at their Departure. There will probably be too frequent Occasions, during the Continuance of the War, for Expences of this Kind. The Governor's Message.

'You will observe, from the Information transmitted by the Governor of *New-York*, that Preparations have been making by the *French* and their *Indians*, upon a Branch of the River *Missisippi*, for an Attack upon the back Parts of this and some of the neighbouring Colonies. Although there should be no real Foundation for this Account, it is not improbable that something will be attempted upon us this Winter by the Enemy, since *Chartier* is gone over to them with a considerable Party of the *Shawnese*, who is well acquainted with the back Parts of this Province, knows the defenceless Condition of the Inhabitants, and is of a savage, treacherous Disposition. This, and some other Circumstances, considered, I forthwith dispatched a Messenger with circular Letters to the Officers appointed for a Militia in *Lancaster* County, with Orders to them, to be upon their Guard, and to make the best Preparations they could for their Defence; enjoining them, at the same Time, to be very careful not to do any Injury to the *Indians* in Amity with us, or to molest them in their Hunting. I likewise sent Directions to Mr. *Weiser* to employ some of the *Delaware Indians* at *Shamokin* as Scouts to watch the Enemy's Motions and to engage the whole Body of *Indians* there to harrass them in their March, in case they should attempt any Thing against us, and afterwards to join our remote Inhabitants for their mutual Defence. These Measures appeared to me so absolutely necessary, that I could not doubt of your enabling me to defray any Expence that may attend them.

'The

1745 11th Mo. 8.

'The last Post brought me a Letter from Admiral *Warren*, dated at *Louisburgh*, the 'Twenty-sixth of *November*, in which he advises me, that no Ships were then arrived 'there from *Britain*, and that as it is probable the Regiments expected from *Gibraltar* 'will be forced to the *Leward Islands* by the Severity of the Season, and not arrive at '*Louisburgh* in Time for its Defence against the Preparations which he hears are making 'in *Canada* to attack it early in the Spring, and even then be perhaps extremely weakened 'by Sickness and other Accidents; he calls upon me, agreeable to his Grace the 'Duke of *Newcastle's* Letter, formerly laid before you, to raise a Number of Men for the 'Defence of that important Acquisition, and to send them, with a Quantity of Provisions 'sufficient for their Support there, by the Middle of *March* next. He further informs 'me, that he thinks himself authorized, in Conjunction with Sir *William Pepperill*, to 'draw Bills for defraying the Expence, and has sent me an Extract of the Duke of *New-'castle's* Letter to that Purpose; but as no Bills have been remitted to me for this Ser-'vice, nor Officers sent to raise the Men, I must apply to you, and I doubt not but it 'will be a Service very acceptable to his Majesty, for an Advance of so much of the Pu-'blic Money as will be necessary for paying, victualling and transporting as many Men 'as can be raised in so short a Time; and for rewarding such Officers as shall be com-'missioned to raise and to conduct them to *Louisburgh*; since no Commissions granted by 'me can intitle them to any Command in that Garrison, or elsewhere out of this 'Government.

'I need not tell you, that the last Vessels from *Europe* confirmed the Account, that 'a most unnatural Rebellion had broke out, and was then carrying on in *Scotland*, in Fa-'vour of a Popish Pretender, supported by *France* and *Spain*. At this Distance we can 'only pray that the Great GOD of Battles will grant Success to his Majesty's Arms, and 'that he will confound the Devices of all his and our Enemies, open and concealed. 'I trust that, through the Favour of Heaven, and the Justice of his Majesty's Cause, we 'shall soon have an Opportunity of offering our Congratulations upon an Event so desire-'able by Protestants of all Denominations, as well as by all that are for preserving the 'Freedom and Independency of their Country.

'Having mentioned every Thing to you of a Public Concern that occurred to me, 'I have only to assure you, that whatever shall be laid before me for the Welfare of the 'Province, will meet with a favourable Reception, and as much Dispatch as the Nature 'of the Business will admit of.

January 8, 1745-6. *GEORGE THOMAS.*"

A Petition from a great Number of the Inhabitants of the back Parts of *Lancaster* County, setting forth, that they are settled on the Frontiers of the Province, and thereby subject to the first Attacks of the Enemy, who, as there is Reason to believe from late Informations, design an Attempt on this Province some Time this Winter; that being chiefly new Settlers, they are not able to provide Arms and Ammunition for their Defence, and praying that the House would order them a Supply of both; was presented to the House, and read. *Ordered to lie on the Table.*

Adjournment *Post Meridiem.* Then the House adjourned to Three o'Clock *P. M.*

The Governor's Message was again read and considered, and the further Consideration thereof adjourned to To-morrow Morning.

A Petition from sundry Inhabitants of the Borough of *Lancaster* was presented to the House and read, setting forth, that the Petitioners, being *Lutherans* by Profession, had, with others, at a great Expence, built a Church in the said Borough for the Exercise of their religious Worship; in which they had of late been made uneasy, by their Minister's joining with the *Moravians*, thereby causing a Division in the Church; so that the Petitioners, with many others, must either hear a Doctrine they do not approve of, or leave the Church to him and his Party; and praying that the House would grant such Relief as shall seem meet. *Ordered to lie on the Table.*

Ordered, That *Thomas Leech*, *Oswald Peele*, *Abraham Chapman* and *John Hall* be a Committee to inspect the Laws of this Province, and report which of them are expired, or near expiring, and ought to be re-enacted; with their Opinion what Amendments to them or others may be necessary.

Adjournment Then the House adjourned to Ten o'Clock To-morrow Morning.

11th Mo. 9. The Governor's Message was again read and considered Paragraph by Paragraph,

Adjournment *Post Meridiem.* Then the House adjourned to Three o'Clock, *P. M.*

GENTLEMEN,

'of Arms and Ammunition, and their Inability to purchase any, from their having ex-

'them most, and are most likely to make a right Use of them; they giving a Note of

Adjournment. Then the Houſe adjourned to Ten o'Clock To-morrow Morning.

11th Mo. 15. The Meſſage to the Governor being tranſcribed, was read, and follows in theſe Words, *viz.*

May it pleaſe the GOVERNOR,

The Aſſembly's Anſwer to the Governor's Meſſage. WE have under our Conſideration the Inſtructions the Governor was pleaſed to give to the Commiſſioners appointed to treat with the *Indians* at *Albany*, and their Report concerning that Treaty, laid before us by the Governor's Directions; both are very ſatisfactory to us; the former, as it is a freſh Inſtance of the Governor's Care for the Inhabitants of the Province, and for which we therefore render him our hearty Thanks; and the latter, as it ſhews the *Indians* of the *Six Nations* yet retain their antient Friendſhip towards this and other the King's Colonies in *America*. War, in moſt Caſes, is attended with ſome diſagreeable Conſequences, amongſt *Indians* with many and of the

worſt

worst Kind; for which, and other Reasons, it would have been most agreeable to us, if the Circumstances of public Affairs would admit the *Indians* of the *Six Nations* to remain neutral: And it gives us great Concern, that the pernicious Conduct of the *French* at *Canada*, in setting their *Indians* on destroying the Inhabitants of some of our neighbouring Governments, hath given them so much Cause to think they are put under the Necessity of engaging the *Indians* in Amity with us to declare War against the *French* and their *Indians*, and to avenge themselves of the Injuries done. 1745. 11th Mo. 15.

We could have heartily wished the Mediation which the Governor was pleased to undertake, at the Desire of the Governor of *Virginia*, to obtain a Reconciliation between the *Indians* of the *Six Nations* and the *Catawbaes*, had been effectual; their destroying each other not only weakens the *British* Interest in *America*, but at this Time must be particularly injurious to the *Six Nations*, as they are likely to be engaged by the Government of *New-York* in a War with the *French* and their *Indians*; but if Colonel *Gooch*, at whose Request this Mediation was undertaken, continues to decline it, we know not what further can be done. We think, however, it was prudently done in the Governor to acquaint the *Six Nations* with the Resolutions the *Catawbaes* have taken, as well to save their Deputies the Trouble of a fruitless Journey, as us the Expence it must otherwise have occasioned.

When we consider the Information transmitted to the Governor of *New-York*, now laid before us, touching the Preparations said to be making by the *French* and their *Indians*, upon a Branch of the River *Mississippi*, for an Attack upon the back Parts of this and some of the neighbouring Colonies, in all its Circumstances, it leaves us room to doubt whether it hath a real Foundation. It was, however, discretely done in the Governor to acquaint the People of *Lancaster* County with the Report; and as the employing of some of the *Delaware Indians* to keep Watch, and to give those Inhabitants Notice if any Danger shall approach, may contribute to render them the easier in their present Situation, we approve of the Governor's Conduct therein, and the Expence which shall arise by this Means we are willing to pay.

As to the Letter the Governor is pleased to lay before us, received from Admiral *Warren*, in relation to Cape *Breton*; since we have so lately given a Sum of Money, which was laid out in Provisions, and which the Governor was pleased to apply to the Use of the Garrison on that Island; and as the Admiral thinks himself, in Conjunction with Sir *William Pepperill*, authorized to draw Bills for any Purposes which they shall think necessary to preserve that important Acquisition, we think they can be at no Loss, especially at a Time when Bills of Exchange are in so great Demand, to raise any Sum of Money they may think fitting, without any Assistance of ours.

The unnatural Rebellion which hath broke out, and was lately carrying on in *Scotland*, supported by *France* and *Spain*, gives us great Concern. It is astonishing to us how any of our Fellow-Subjects, who enjoy so many and great Privileges under the present happy Establishment, should be so blinded towards their true Interest, as to countenance a Popish Pretender against our present King; and we heartily join in our Prayers to Almighty God to establish his Throne, protect his Royal Person, and confound the Devices of his Enemies, open and concealed.

We return the Governor hearty Thanks for the Assurance he is pleased to give us, "That whatever shall be laid before him for the Welfare of the Province, will meet "with a favourable Reception." We have divers Things of this Kind now before us, which, in due Time, we shall offer to his Consideration, "not doubting of as much Dis-"patch as the Nature of the Business will admit of."

The Message to the Governor being transcribed, was read, and follows in these Words, *viz.*

May it please the GOVERNOR,

The Assembly's Answer to the Governor's Message.

WE have taken into our Consideration the last Message, with the two Letters which the Governor was pleased to send us; and as to the Proposal made by the Governor of *New-York* for the Appointment of Commissioners from the several Colonies, we think it will be both difficult and unnecessary for us to be particular in our Sentiments concerning it, until we are ascertained how it will be taken by other Colonies; and whether any, and which of them, shall concur in such an Appointment. If such Commissioners shall be thought necessary for securing the *Indians* of the *Six Nations* in the *British* Interest, or for any other Purposes which may appear to us to be for the general Good, we shall chearfully concur in it: And when we are made acquainted that such an Appointment is generally acceded to by other Colonies, and the Time and Place of Meeting be proposed, it will then, we think, be Time enough for us, who are near the Center of these Colonies, and who meet frequently on the Public Affairs of the Province, to deliver our Resolutions thereupon.

As to the Letter from Governor *Shirley*, we observe it was written before the Account of the Arrival of the Regiments sent from *Gibraltar* to the Garrison at *Louisburgh*; and the Proposition he makes, appears to us to be intended principally as an Expedient to have taken Place in Case of their Miscarriage; and as by the Public Accounts there is Reason to believe those Regiments are since arrived, we presume the Necessity of the Application to this Province may be removed.

The Expedition to *Carthagena*, the Manning of divers private Ships of War, and the Numbers which have inlisted in the King's Service, with the recruiting Officers from the Islands of *Jamaica* and *Antigua*, have drained this Province of many of its Inhabitants; and had we no other Objections, we conceive it can hardly be thought reasonable the Province of the *Massachusetts* should have the Assistance required from hence, even though it were necessary, rather than from *Rhode-Island*, *Connecticut* and *New-Hampshire*, whose Situation and Engagements interest them more deeply than us in the Preservation of *Nova Scotia* and *Cape Breton*."

And the Message being signed by the Speaker, by Order of the House;

Ordered, That *Thomas Chandler* and *Samuel Levis* wait upon the Governor with the same, and acquaint him, that the House intends to adjourn this Day to the 24th of the present Month, if he hath no Objection to that Time.

Ordered, That the Superintendants of the State-house provide some Means of breaking the Echo in the Assembly-room, that the Members may better hear one another.

GENTLEMEN,

'YOU will ſee by the Letter and other Papers received from Governor *Clinton* ſince your laſt Meeting, that I am again deſired to appoint Commiſſioners in order to concert Meaſures with thoſe already appointed by him and by Governor *Shirley*, for the Security and Defence of his Majeſty's Colonies during the preſent War; and, that the poſitive Refuſal of the *Six Nations* to join in the War againſt the *French* and the *Indians* in Alliance with them, is urged to ſhew the immediate Neceſſity of ſuch an Appointment. My Anſwer to this Letter was in Subſtance, that I had laid his former Letter on this Subject before you, as I ſhould this at your next Meeting; and I repeated, that you had expreſſed a Readineſs to enter into any reaſonable Meaſures for his Majeſty's Service, and the Welfare of the Colonies; but that you thought it would be time enough to appoint Commiſſioners for this, when you ſhould be made acquainted with the Reſolutions of the neighbouring Governments. I obſerved likewiſe, that thoſe of *Virginia*, *Maryland*, *New-Jerſey* and *Connecticut* were ſtill unknown to us. The Governor's Meſſage.

'As my Sentiments on this Matter have been fully delivered to you already, I ſhall only add, that notwithſtanding the ſeeming Reſolution of the Council of the *Six Nations* to preſerve a Neutrality, it is much to be apprehended that their young Men, who are fond of Military Atchievements, will join the *French Indians* in their barbarous Incurſions upon the *Britiſh* Colonies; and that the old Men, not having Power to reſtrain, will be obliged to wink at them, and perhaps in the End break out into an open Revolt. How fatal ſuch a Procedure will be to this and the *Britiſh* Colonies in general, you will judge; and I truſt that you will not be ſo wanting to yourſelves, as not to take the moſt reaſonable Meaſures to prevent it.

May 20, 1746. *GEORGE THOMAS.*"

Ordered,

1745-6. 3d Mo. 20. *Ordered*, That the Governor's Meſſage be again read, and conſidered in the Afternoon.

The Committee appointed at the laſt Meeting of the Houſe, to view the Dam at *Harvey's* Mill on *Neſhamineh* Creek, made their Report in Writing; which was read, and follows in theſe Words, *viz.*

Report of the Committee for viewing the Dam at *Harvey's* Mill, on *Neſhamineh* Creek.

WE, the Committee appointed by Order of Aſſembly, the 6th of the Firſt Month, 1745-6, to view the Dam over *Neſhamineh* Creek, at *Harvey's* Mill,

Do report, That we have viewed the ſaid Dam, and the upper Part of the Pond, but cannot find that the Water can be taken out of the Creek without a Dam, the Creek lying a great Way level, and a ſtony Bank ſo deſcending into the Water, that a Race cannot be made without great Coſt.

But it is our Opinion, that without any great Charge, a Point of a Hill at the South End of the ſaid Dam may be made lower than the Dam for a conſiderable Space, and the Stones and Gravel taken therefrom may be placed on the lower Side in a gradual Deſcent, whereby the waſte Water that generally runs over the whole Length of the Dam, would be gathered more in a Body in that waſte Place, and deſcend gradually, ſo that therein the Fiſh may be able to aſcend into the Pond above the Dam; by which the Water in the Dam will not be made much lower, nor will there be any Danger of that waſte Place wearing any deeper, it being the Point of a ſtony Hill or Rock, nor will the Mill be injured thereby.

Submitted to the Houſe, by

ABRAHAM CHAPMAN,
MARK WATSON,
MAHLON KIRKBRIDE,
RICHARD MITCHELL,
CEPHAS CHILD."

3d Mo. 21.

The Committee appointed to prepare a Draught of an Anſwer to the Governor's Meſſage, reported the ſame to the Houſe, and it was read, and conſidered, and ordered to be tranſcribed, that it may be ſent up to the Governor.

And the Meſſage being tranſcribed, follows in theſe Words, *viz.*

May it pleaſe the GOVERNOR,

The Aſſembly's Anſwer to the Governor's Meſſage.

WE look upon it as a Matter of great Importance to this and the neighbouring Governments, that the moſt effectual Meaſures be taken, as often as it becomes neceſſary, to ſecure the *Six United Nations*, and the *Indians* in Alliance with them, in their Fidelity to the Crown of *Great Britain*; and to cultivate and maintain that Friendſhip and good Underſtanding which hath ſo long ſubſiſted between us and them. To this End, as the Governor well knows, this Province hath at many Times been at great Expence, as well in Preſents made to thoſe *Indians*, as for carrying on of Treaties with them, ſometimes in Conjunction with other Colonies, ſometimes ſeparately: At all which Treaties, and particularly thoſe lately held, the *Indians* have conſtantly declared themſelves ſteady, unalterable, and determined to continue their ancient Amity with this and the neighbouring Governments; and therefore, we hope, that though they may have refuſed to join in the preſent War againſt the *French* and their *Indians*, they will nevertheleſs remain firm in their Friendſhip to us, and other the *Britiſh* Colonies. However, as the Governor, and the Governor of *New-York*, ſeem to apprehend the Danger of their Revolt, and the Neceſſity of appointing of Commiſſioners from the ſeveral Governments, we continue our former Reſolutions, that if ſuch Commiſſioners ſhall be thought neceſſary, either for ſecuring the *Indians* in the *Britiſh* Intereſt, or for any other Purpoſes which ſhall appear to us to be for the general Good, we ſhall chearfully concur in it. But ſince, as the Governor is pleaſed to obſerve in his Meſſage, the Sentiments of moſt of the other Colonies are unknown to us, and it is uncertain whether they will accede to ſuch Appointments or not: And, as it does not appear to us, that a Meeting of Commiſſioners for *New-York*, the *Maſſachuſetts* and *Pennſylvania* only, would be of any great Service; therefore, as formerly, we think it beſt to poſtpone our particular Reſolutions in the Affair, until the Determination of the other Colonies are made known to us."

And the Meſſage being ſigned by the Speaker, by Order of the Houſe;

Ordered, That *Joſeph Trotter* and *Edward Warner* wait upon the Governor with the ſaid Meſſage, and acquaint him withal, that the Houſe is inclined to adjourn this Day to the Eighteenth of the next Sixth Month, if he hath no Objection to that Time.

The Gentlemen return and report, that they waited upon the Governor and delivered the Meſſage of the Houſe according to Order; and that the Governor was pleaſed to ſay he had no Objection to the Adjournment intended.

Ordered,

Ordered, That the Superintendents of the State-House take Care to prevent, as far as lies in their Power, any Encroachments on the Street oppoſite thereto. 1746.

Ordered, That the Affair of the Dam over *Neſhamineh* be referred to the next Sitting of the Houſe; and that the Clerk ſerve the Owner of the Mill with a Copy of this Order, and of the Report of the Committee, that if he hath any Objection to the Method by them propoſed, he may attend at that Time and be heard. 3d Mo. 21.

Then the Houſe adjourned to the Eighteenth Day of the next Sixth Month. Adjournment

Ordered, That *Thomas Leech* and *Edward Warner* wait upon the Governor, and acquaint him, that the Houſe is met purſuant to his Summons, and ready to receive what he may have to lay before them, and deſire a Copy of the Writs by Virtue of which the Houſe was ſummoned.

The Gentlemen return and report, that they waited upon the Governor and delivered the Meſſage of the Houſe according to Order, and that the Governor was pleaſed to ſay he would ſend a Meſſage to the Houſe To-morrow Morning.

Then the Houſe adjourned to Ten o'Clock To-morrow Morning. Adjournment

The Governor, by his Secretary, ſent down the Writs by Virtue of which the Houſe was ſummoned, with a written Meſſage to the Houſe, and a Letter from the Duke of *Newcaſtle* referred to therein; which were read, and the Meſſage follows in theſe Words, *viz.* 4th Mo. 10.

GENTLEMEN,

'MY calling you together ſo ſuddenly was occaſioned by a Letter I have received 'from his Grace the Duke of *Newcaſtle*, by the *Hinchinbrook* Sloop of War ar- 'rived Expreſs at *Boſton*, ſignifying to me, that his Majeſty has been pleaſed to order 'a conſiderable Body of his Troops from *England*, under Convoy of a ſufficient Squadron 'of Men of War, to *Louiſburgh*, to be employed in the immediate Reduction of *Canada*, 'in Concert with Troops to be raiſed in the Northern Colonies.

'You will obſerve from his Grace's Letter, which I have ordered to be laid before 'you, that I am directed to recommend to you the providing a ſufficient Quantity of 'Proviſions for the Subſiſtence of the Troops which ſhall be raiſed here.

'As it is recommended to me likewiſe, to take Care that the Soldiers may be pro- 'vided with Arms and Cloathing, I muſt apply to you for an Advance of ſo much of 'the Public Money as may be neceſſary for theſe Purpoſes; which Expence Lieute- 'nant General *St. Clair* is authorized and impowered to defray.

'The Shortneſs of the Time requiring the utmoſt Diſpatch, a Bounty for the En- 'couragement of able bodied Men to engage in this Service, will very much expedite 'the Levies.

'Until I ſee what Number of Men can be raiſed, it is not poſſible for me to make 'an Eſtimate of the Sum neceſſary for this Service; but if I may be allowed to form 'a Judgment from the Importance of the Undertaking to this and the reſt of the 'Northern Colonies, the Number will be very conſiderable; for Succeſs in it will not only 'deliver them from their preſent Apprehenſions of a vigilant and enterprizing Enemy, 'but in all human Probability enſure Quiet and Security to them and their Poſterity.— 'And this ſhews what Returns of Duty and Gratitude are due to a King who has medi- 'tated ſuch Bleſſings to his *North American* Subjects.—

4th Mo. 12. Adjournment *Poſt Meridiem.* Then the Houſe adjourned to Three o'Clock, *P. M.*

The Meſſage to the Governor being tranſcribed, was read, and follows in theſe Words, *viz.*

May it pleaſe the GOVERNOR,

The Aſſembly's Anſwer to the Governor's Meſſage. WE are deeply ſenſible of the many and great Bleſſings we enjoy under the Crown, and preſent Government; and in Duty and Gratitude hold ourſelves obliged to yield chearful Obedience to the King's Commands, ſo far as our Religious Perſuaſions permit: Yet, as the Governor well knows, many of us labour under great Difficulties when called upon to be concerned in warlike Enterprizes, ſuch as appear to us inconſiſtent with the peaceable Principles we profeſs. The only Expedient hitherto found to remove theſe Difficulties, hath been, to demonſtrate our Loyalty and hearty Affection to the Crown, by giving a Sum of Money to the King's Uſe. This we are now willing to do; but on Enquiry, are informed, that neither the Treaſury or Loan Office are furniſhed with ſuch a Quantity, beyond what other Exigencies of Government will require, as we are willing to give: Nor do we ſee any other Way by which ſuch a Sum can be ſpeedily raiſed, unleſs it be by ſtriking a further Quantity of Paper Money: And this we hope the Governor will be of Opinion with us may ſo be done, as that the Sum given may be repaid by the Intereſt to ariſe by the Reſidue placed out in like Manner, as are the Bills of Credit current by the Act ſome Time ſince paſt in this Province; and which having had the Royal Approbation, will, we preſume, be liable to few, if any Exceptions; and the Money thus raiſed, leaſt inconvenient to the Inhabitants of the Province.

And the Meſſage being ſigned by the Speaker, by Order of the Houſe,

Ordered, That *Abraham Chapman* and *Owen Evans* wait upon the Governor, and deliver him the ſame.

The Gentlemen return and report, that they had waited upon the Governor, and delivered the Meſſage of the Houſe according to Order.

Adjournment Then the Houſe adjourned to Ten o'Clock To-morrow Morning.

4th Mo. 13. The Governor, by his Secretary, ſent down a written Meſſage to the Houſe, which was read, and follows in theſe Words, *viz.*

GENTLEMEN,

The Governor's Meſſage. ‘I AM very much pleaſed with your Intention to grant a Sum of Money to his Majeſty upon this important Occaſion, and I wiſh it was as much in my Power, as it ‘is in my Inclination, to agree with you in the Method propoſed for raiſing it; but you ‘muſt be ſenſible, from the Royal Inſtruction communicated to a former Aſſembly, and, ‘I ſuppoſe, entered in the Minutes, that I am forbid under Pain of his Majeſty's higheſt ‘Diſpleaſure, from paſſing any Act for ſtriking Bills of Credit, without a Clauſe re‘ſtraining its Operation until the King's Pleaſure ſhall be known. Beſides, an Addition ‘to your Bills of Credit at this Time, I apprehend, would very much leſſen the Value ‘of thoſe already current, as Exchange to *London* is already higher than has ever been ‘known in this Province. I grant, were I at Liberty to paſs ſuch a Bill as you expect, ‘it might be a preſent Convenience, but the future Inconveniences would abundantly ‘outweigh it. The Legiſlature of this Province has hitherto maintained its Reputation ‘in this Point, whilſt others are ſinking under the Load of their numerous Emiſſions. ‘You may unqueſtionably procure any Sum upon Loan, which you ſhall be willing to ‘grant to his Majeſty, upon Security to repay it out of the Exciſe, or the Intereſt of the ‘Bills of Credit already iſſued.

‘What ever you do, Gentlemen, let it be done with Diſpatch, for the Time preſſes, ‘and your Example will have a very conſiderable Influence upon the Spirits of the ‘People.

June 13, 1746. *GEORGE THOMAS.*”

The Conſideration of the Governor's Meſſage was referred to the Afternoon.

A Petition from ſundry Inhabitants of the City of *Philadelphia*, ſetting forth the great Inconveniences People labour under in their Dealings for want of ſmall Change; and praying, that there may be an Emiſſion of ſmall Bills to remove thoſe Inconveniences; was preſented to the Houſe and read, and ordered to lie on the Table.

Adjournment Then the Houſe adjourned to Three o'Clock, *P. M.*

Poſt Meridiem. The Governor's Meſſage was again read, and conſidered, and after ſome Debate thereupon,

Ordered, That *Thomas Leech*, *Oſwald Peele*, *John Hall*, *Thomas Cummings* and *John Wright* be a Committee to prepare a Draught of an Anſwer thereto, and that they report the ſame to the Houſe To-morrow Morning.

Adjournment Then the Houſe adjourned to Ten o'Clock To-morrow Morning.

The

The Committee appointed to prepare a Draught of an Answer to the Governor's Message, reported the same to the House; and it was read, and approved; and ordered to be transcribed; which being done, it was again read, and follows in these Words, *viz.* 1746. 4th Mo. 14.

May it please the GOVERNOR,

IT is very agreeable to us to find our Intentions of giving Money to the King, approved of by the Governor: And we are equally pleased with the kind Inclinations he is pleased to express towards raising the Money in the Method we propose: And we are willing to hope that the Governor, on re-considering the Royal Instruction he is pleased to mention, may think himself at Liberty to give his Assent to a Bill for striking a further Sum of Money in Bills of Credit, when any extraordinary Emergency requires it. The Assembly's Answer to the Governor's Message.

It must be confessed, Exchange hath of late risen amongst us, and is at present high; but we think it clear this Rise is not owing to the Quantity of our Paper Money, but the Exigencies of Trade; since for some Time after the Emission by the last *Eighty Thousand Pound* Act, which is the greatest Sum in Bills of Credit that were ever current at one Time amongst us, Exchange was lower than at any Time before. As therefore the Sum proposed to be emitted, is not so great as can either affect the Credit of former Bills, or raise Exchange, will not only be a present Convenience, but of future Benefit to the Province, we hope the Governor will think it consistent with the Trust reposed in him, to assent to the Method proposed; especially as the Sums of Money which have lately been given to the King's Use, and the contingent Charges of Government, have amounted so high, as neither the Money raised by the Excise Act, nor the Interest of Bills of Credit paid into the Loan Office, have been sufficient to defray; nor does any Method appear to us by which the Money now intended to be given to the King's Use can be raised, but what will be more chargeable, as well as inconvenient."

And the Message being signed by the Speaker, by Order of the House,

Ordered, That *Thomas Leech*, *Edward Warner*, *John Hall* and *Oswald Peele* wait upon the Governor, and deliver the same.

The Gentlemen return and report, that they had waited upon the Governor, and delivered the Message of the House according to Order; and that the Governor was pleased to say he would send an Answer in the Afternoon.

Then the House adjourned to Three o'Clock, *P. M.* Adjournment *Post Meridiem.*

The Governor, by his Secretary, sent down the following Message to the House in Writing; which was read, *viz.*

GENTLEMEN,

'I REALLY do not want Inclination to oblige you in every Thing you can reasonably desire; and therefore the Mortification to me is the greater, to be pressed upon a Point which I am not at Liberty to comply with. The King's Instruction, founded upon the Addresses of the Houses of Lords and Commons, is so positive, that I cannot bring myself to such a Pitch of Boldness as to contravene it. Arguments are not wanting to shew the Mischiefs like to accrue from an Addition to your Paper Currency; but I would give up my own Reason to you upon this pressing Occasion, were that only in the Way. Upon a due Consideration of my being thus circumstanced, I promise myself that you will proceed to some less exceptionable Method of raising the Sum designed to be granted for the King's Use. The Governor's Message.

June 14, 1746. *GEORGE THOMAS.*"

Resolved, That the Sum of *Five Thousand Pounds* in Bills of Credit of this Province be, and hereby is given to the Honourable GEORGE THOMAS, Esq; Lieutenant Governor of this Province, *&c.* for the Use of the King.

Resolved, That the said Sum of *Five Thousand Pounds* be paid to the said GEORGE THOMAS, Esq; by the Trustees of the General Loan Office of this Province, out of the Bills of Credit now remaining in their Hands, by Virtue of former Acts of Assembly, for exchanging torn and ragged Bills.

Resolved, That Bills of Credit of the Value of *Five Thousand Pounds* be forthwith printed, and emitted, under the Care of the Trustees aforesaid, to replace in their Hands instead of the Bills by them so to be paid as aforesaid, to be sunk in yearly Quotas of *Five Hundred Pounds* per Annum, out of the Excise.

Resolved, That the Excise Act now in Force, be continued for the Space of Ten Years.

Resolved, That *Thomas Leech*, *James Morris*, *John Wright* and *James Mitchell* be a Committee to prepare and bring in a Bill for the Purposes aforesaid.

Then the House adjourned to next Fourth Day, at Three o'Clock, *P. M.* Adjournment

The Governor, by his Secretary, ſent down a written Meſſage to the Houſe, with ſeveral Letters and Papers referred to therein, which were read, and the Meſſage follows in theſe Words, *viz.*

GENTLEMEN,

The Governor's Meſſage. 'AS the Neceſſity of ſecuring the *Indians* of the *Six Nations* in their Fidelity to his 'Majeſty, becomes every Day more preſſing and apparent; and I am again ſolicited 'by the Governors of *New-England* and *New-York*, whoſe Letters I have ordered to be 'laid before you, to appoint Commiſſioners for that Purpoſe, I muſt renew my Appli-'cation to you, to enable me to co-operate with the four Northern Governments at the 'Treaty to be held with thoſe Nations on the Twentieth of the next Month, at *Albany*. 'And ſince this is a Meaſure immediately recommended by his Majeſty to the Governor 'of *New-York*, to facilitate the Reduction of *Canada*, it is not to be doubted but the 'two Southern Governments will readily accede to it.

'Since I heard of the Reſolve of your Houſe to grant *Five Thouſand Pounds* for the 'King's Uſe, we have been informed from the public News Papers of the Bounty given 'in ſome other Colonies to encourage able bodied Men to engage in the Service. As 'the like Bounty will be expected here, the Sum voted will not be ſufficient to raiſe and 'victual above three Companies, which will fall very ſhort of the general Expectation, 'from a Colony of ſo much Importance. Let me therefore recommend ſuch an Ad-'dition as may very well comport with the Circumſtances of the Province, and be 'a Proof of your at leaſt equalling your Neighbours, in Duty to his Majeſty, and Zeal 'for the common Intereſt.

June 19, 1746. *GEORGE THOMAS.*"

The Conſideration of the Governor's Meſſage was adjourned to To-morrow Morning.

Adjournment *4th Mo.* 20. Then the Houſe adjourned to Ten o'Clock To-morrow Morning.

The Governor's Meſſage, with the Papers referred to therein, were again read, and conſidered,

Ordered, That *Thomas Leech*, *Oſwald Peele*, *John Hall*, *Thomas Cummings* and *John Wright* be a Committee to prepare a Draught of an Anſwer to the latter Part of the ſaid Meſſage, and report the ſame to the Houſe.

Adjournment *Poſt Meridiem.* Then the Houſe adjourned to Three o'Clock, *P. M.*

The Committee appointed to prepare a Draught of an Anſwer to Part of the Governor's Meſſage of the Morning, reported the ſame to the Houſe, and it was read and approved, and ordered to be tranſcribed; which being done, it was again read, and follows in theſe Words, *viz.*

May it pleaſe the GOVERNOR,

The Aſſembly's Anſwer to the Governor's Meſſage. THE Funds by which this Government is ſupported, and the contingent Charges defrayed, are the Intereſt which ariſes from the Bills of Credit lent out, and the Money paid into the Treaſury by the Exciſe Act; both theſe the laſt Year proved deficient; ſo that the Balance againſt the Province, excluſive of Out-ſtandings, was upwards of *Two Thouſand Pounds*, beſides the like Sum due from the Province on account of the State-houſe: And as the Governor ſeems to be under Difficulties with reſpect to further Emiſſions of Bills of Credit; and as an additional Tax would, we conceive, be attended with many Inconveniences, we therefore reſolved on the Payment of *Five Thouſand Pounds* only, to the King's Uſe: If the Sum to be given, muſt ariſe from the preſent Funds, we do not think it will be fit to add much, if any Thing, to the Sum reſolved on. But if the Governor can think himſelf at Liberty to add a fitting Quantity in Bills of Credit to be emitted amongſt us as uſual, in like Manner as we are informed and believe our Neighbours muſt do, we think it will redound greatly to the Advantage of the Province, be attended with no Inconveniences, and will enable us on the preſent and future Occaſions, to give the Proof the Governor is pleaſed to mention, of having at leaſt equal "Duty to his Majeſty," though we may have different Modes of expreſſing it from our Neighbours. We wait the Governor's Reſult on this Head, before we proceed on the Bill before us; and, in the mean Time, ſhall take into Conſideration the Reſidue of his laſt Meſſage."

And the Meſſage being ſigned by the Speaker, by Order of the Houſe,

Ordered, That *Thomas Leech* and *Edward Warner* carry up the ſame to the Governor.

Ordered, That *Thomas Leech*, *Oſwald Peele*, *John Hall*, *Thomas Cummings* and *John Wright* be a Committee to prepare a Draught of an Anſwer to the other Part of the Governors Meſſage, and report the ſame to the Houſe To-morrow Morning.

The Gentlemen appointed to wait on the Governor with the Meſſage of the Houſe,

House, being returned, report that they delivered the same according to Order, and that the Governor was pleased to say he would send an Answer in the Morning. 1746.

Then the House adjourned to Nine o'Clock To-morrow Morning. 4th Mo. 20. Adjournment

The Governor, by his Secretary, sent down a written Message to the House, which was read, and follows in these Words, *viz.* 4th Mo. 21.

GENTLEMEN,

'IF I could think myself at Liberty to consent to an Act for Striking Bills of Credit in the Manner you propose, the Occasion, as well as my Inclination to render a Grant to his Majesty as little burthensome as possible to the People, would soon determine me in Favour of it, though I cannot but think the present Convenience would be bought too dear; for it is as plain to me, that an Addition to your Currency, to be lent out for a Term of Years upon Interest, would lessen the Value of the Bills already issued, and consequently affect all Contracts now subsisting, as any the most selfevident Proposition. I have not been well informed of what is done, or intended to be done in other Colonies as to this Point; neither would it become me to censure the Conduct of their Governors, should they act a Part different from me. The Circumstances of those Colonies, and their Method of Sinking their Bills of Credit, may be different from this. If I am rightly informed, it has been done at *New-York* by Taxes; and that in *Jersey* so great a Part of their Currency has been sunk, that a new Emission would be no Advance upon what has been usually current there; whereas your's is entire, and to be re-emitted upon Loan for several Years to come. If you will agree to sink any Addition you shall make to the *Five Thousand Pounds* already voted, by a Tax to be levied in any reasonable Time, I will give my Assent to an Act for Striking Bills of Credit for that Sum; and surely, a People who have not paid a Provincial Tax for above Twenty Years past, cannot be uneasy under it, in a Case which so immediately concerns their own Happiness and that of their Posterity. Should you resolve, notwithstanding, to confine yourselves to *Five Thousand Pounds*, which, as I before told you, will not raise and victual above three Companies, even supposing the Men are to subsist upon the King's Pay during their Stay in this Province, I must be obliged to call upon you for an Advance of so much Money as will be necessary to cloath and arm them, in Case General *St. Clair* should not arrive in Time to furnish me with Bills for that Purpose. My own Stock has been already advanced for the King's Service, in purchasing Cloathing for the Troops in Garrison at *Cape Breton*, and for raising the Regiment under the Command of Governor *Shirley*.—— Considering how the Time presses, abundantly too much of it has been already spent; I beseech you therefore to give all the Dispatch possible to this important Business, that I may be enabled so far to answer the King's Expectation as relates to myself.

June 21, 1746. *GEORGE THOMAS.*" The Governor's Message.

The engrossed Bill for granting the Sum of *Five Thousand Pounds* to the King's Use, *&c.* was read a third time;

The Gentlemen return and report, that they had waited upon the Governor, and delivered the Bill according to Order, and that the Governor was pleaſed to ſay he would ſend the Secretary, at Three in the Afternoon, to join with a Member of the Houſe, in comparing the *Five Thouſand Pound* Bill; and hoped that by Five he ſhould be ready to paſs it, together with the Bill now laid before him; which he concurred with, and returned to the Houſe without any Amendment.

Ordered, That *Thomas Leech* and *James Morris* be a Committee for comparing the engroſſed Bill, with that which had paſſed the Houſe.

The Committee to whom the Account of *Conrad Weiſer* was referred, reported, that they had examined the ſame, and were of Opinion, that the Sum of *Sixty-five Pounds* be allowed him, in Diſcharge thereof; and the ſame being agreed to, an Order was drawn on the Treaſurer for the Payment of that Sum, and ſigned by the Speaker, by Order of the Houſe.

The Committee appointed to prepare a Draught of an Anſwer to that Part of the Governor's Meſſage, which related to the *Indians*, reported the ſame to the Houſe, and it was read, and referred to further Conſideration in the Afternoon.

Adjournment *Poſt Meridiem.* Then the Houſe adjourned to Three o'Clock, *P. M.*

The Anſwer to the Governor's Meſſage was again read, and after ſome Amendments, ordered to be tranſcribed;

Which being done, it was again read, and follows in theſe Words, *viz.*

May it pleaſe the GOVERNOR,

The Aſſembly's Anſwer to the Governor's Meſſage. SINCE our laſt Meſſage we have taken into our Conſideration that Part of the Governor's which relates to the *Indians* of the *Six Nations*; and alſo the Letters which the Governor was pleaſed to direct to be laid before us: And by what we gather from thence, the Treaty propoſed to be held at *Albany*, on the Twentieth of next Month, is in Purſuance of ſome Inſtructions the Governor of *New-York* hath received from the Crown, which concern himſelf only, and not the Governors of any other of the Colonies.

It is not improbable, the Purport of theſe Inſtructions is to engage the *Indians* of the *Six Nations* in the War againſt the *French*, and to join in the Expedition againſt *Canada:* If ſo, our uniting with the other Governments, in the Congreſs propoſed, will be of little Uſe, ſince it cannot be doubted, but that Proviſion is made to defray the Expence which ſhall ariſe thereby; and that theſe *Indians* will pay greater Regard to the Directions of the Crown, than to the joint Requeſt of all the Colonies. Beſides, the Governor muſt be ſenſible, that Men of our peaceable Principles, cannot, conſiſtently therewith, join in perſuading the *Indians* to engage in the War. If it be thought there be any real Danger of the *Indians* deſerting the *Britiſh* Intereſt, and going over to the *French*, and that, to preſerve them ſteady in their Friendſhip, further Preſents are neceſſary to ſecure them in their Fidelity to the Crown of *Great-Britain*, and Amity with the Inhabitants of this and the neighbouring Colonies, and the Governor can think his Health and Buſineſs will permit his negotiating this Affair in Perſon, we ſhall be willing to pay the Expence to ariſe by it."

And the Meſſage being ſigned by the Speaker, by Order of the Houſe,

Ordered, That *Francis Yarnal* and *George Aſhbridge* carry up the ſame to the Governor, and deſire to know when he will be pleaſed to receive the Houſe, in order to the paſſing into Laws thoſe Bills that have had his Concurrence.

The Gentlemen return and report, that they had waited upon the Governor, and delivered the Meſſage of the Houſe according to Order, and that the Governor was pleaſed to ſay he was now ready to receive the Houſe.

Then

Then the Speaker, with the whole House, went to wait on the Governor: 1746.

And being returned, the Speaker resumed the Chair, and reported, that the House had waited upon the Governor, and that he had been pleased to give his Assent to the Bills which had been presented to him for that Purpose, by enacting them into Laws with the usual Form, *viz.* *4th Mo.* 24.

A Bill *for granting* Five Thousand Pounds *to the King's Use, out of the Bills of Credit now remaining in the Hands of the Trustees of the General Loan Office, for exchanging torn and ragged Bills; and for Striking the like Sum, to replace in their Hands.* Laws passed.

A Supplement *to the Act, entituled, An Act for imposing a Duty on Persons convicted of heinous Crimes*, &c.

That *Thomas Leech* and *James Morris* were appointed to see the Great Seal affixed to them; and that they be deposited in the Rolls Office. That the Governor being also informed of the Inclination of the House to adjourn to the Time of their former Adjournment, was pleased to make no Objection thereto.

Then the House adjourned to Ten o'Clock To-morrow Morning. Adjournment

The Governor, by his Secretary, sent down a written Message to the House, which was read, and follows in these Words, *viz.* *6th Mo.* 22.

GENTLEMEN,

'THE Money granted at your last Meeting for the King's Use, has, and will be applied by me agreeable to his Majesty's Intentions, and the Directions of General *Gooch*, in raising four Companies of Men, for an Expedition against *Canada*; and in providing Tents, Provisions and other Necessaries for them, as you will see by a Sketch of the Accounts which I have ordered to be laid before you.—After the Bounty, Freight of the Provisions, Carriages for the Soldiers Baggage, and the Expence of their Transportation from *Brunswick* to *Albany*, are discharged, the Account shall be closed and submitted, with Vouchers for every Article, to the Examination of your House. The Governor's Message.

'The Cloathing, Arms and Accoutrements have been procured upon my own Credit, in Expectation of being speedily enabled to pay for them by Remittances from Lieutenant-General *St. Clair*; but as we have yet no Account of his Arrival at *Louisburgh*, and some of the Persons who supplied me with them, grow importunate for their Money, I am obliged to renew my Application to you for a Loan to his Majesty of so much as will be necessary for this Service.—

'But the Difficulty I labour under, with regard to the Subsistence of the Men, is still greater, as they have received no Pay, and are run into an Arrear to the Public Housekeepers for their Quarters from the Time of their Inlistment; and if they have not some Supply soon, it is to be feared they will mutiny or desert; so that the greatest Part of what has been granted by the Assembly, and provided by the King's Orders, will be lost.—In some other Provinces the Soldiers have been allowed *Nine-pence* per *Diem*, or their Victuals, besides the Pay they are to receive from the King; which has preserved the Governors there, and the Officers of those Troops, from the Embarrasments we find ourselves under here, from the Delay of General *St. Clair's* Arrival. The Subsistence of the private Men, exclusive of Officers, amounts to *One Hundred* and *Forty Pounds* per Week, which is too large a Sum to be furnished out of my own private Stock.

'After

1746. 6th Mo. 22.

'After this plain State of the Caſe, I hope I need not be at much Pains to convince 'you of the Neceſſity of ſupplying me with the Sums requiſite, as well for diſcharging 'the Arrears due for the Subſiſtence of the Troops, as for ſupporting them until the 'Fleet ſhall arrive, or proper Directions be given by the King for paying them: And 'I promiſe myſelf the more ready Compliance from you, as it will not be laying any 'additional Burden upon the Province, his Majeſty having engaged both to defray the 'Expence of Cloathing and Arms, and to allow the Men Pay from the Time of their 'Inliſtment: And you may aſſuredly depend, that when Remittances ſhall be made to 'me for theſe Purpoſes, they ſhall be punctually paid into ſuch Hands as your Houſe 'ſhall appoint to receive them.

'The Exactions of the Public Houſekeepers for the Soldiers Quarters, oblige me to 'recommend the preparing a Bill, either to impower the Juſtices to billet them at ſuch 'a Price as they ſhall think reaſonable, or to ſettle it yourſelves in the Bill. *Twelve-* 'pence per Day, which is now demanded, is more than is allowed by the King for 'a Soldier's Subſiſtence, that being but *Six-pence* Sterling, and is twice as much as is 'paid in *England*, though Proviſions are ſaid to be much cheaper here. This, I am 'ſenſible, is a Matter quite new to you; but the Circumſtances of the Times will ne- 'ceſſarily require many Things which the wiſeſt Forecaſt cannot provide for.

Auguſt 22, 1746. *GEORGE THOMAS.*"

The Conſideration of the Governor's Meſſage was referred to the Afternoon.

Thomas Edmiſton's Petition was again read, and conſidered; and ſufficient Reaſon not appearing to the Houſe for making the Allowance deſired, the Petition was diſmiſſed.

The Committee appointed to prepare a Draught of an Addreſs to the King, reported the ſame to the Houſe; and it was read, and referred to further Conſideration in the Afternoon.

Adjournment. Then the Houſe adjourned to Three o'Clock, *P. M.*

Poſt Meridiem. The Governor's Meſſage was again read, and conſidered; and the farther Conſideration thereof adjourned to To-morrow Morning.

The Addreſs to the King was again read, and conſidered; and ordered to be engroſſed.

Ordered, That the Affair of the Dam over *Neſhamineh* Creek be referred to the Conſideration of the next Aſſembly.

Adjournment. Then the Houſe adjourned to Nine o'Clock To-morrow Morning.

6th Mo. 23. The Governor's Meſſage was again read, and conſidered,

Ordered, That *Iſrael Pemberton*, *Robert Jones*, *Mark Watſon*, *Thomas Cummings* and *John Wright* be a Committee to prepare a Draught of an Anſwer to the ſame, and report it to the Houſe.

The Addreſs to the King being engroſſed, was read, and ſigned by the Speaker, by Order of the Houſe.

Ordered, That the Committee of Correſpondence tranſmit it to the Agent, that it may be preſented to the King; and that they ſend Duplicates of it by different Conveyances.

Reſolved, That the Sum of *Five Hundred Pounds* be allowed and paid to the Honourable GEORGE THOMAS, Eſq; Governor of this Province, as the Remainder of his Support for the current Year.

It being moved, that the Members who live at a Diſtance be allowed Mileage for ſix times coming to the Aſſembly this Year; the Queſtion was put, and paſſed in the Negative.

Reſolved, That Mileage be allowed for that Meeting of the Houſe which was by the Governor's Call.

Adjournment. Then the Houſe adjourned to Three o'Clock, *P. M.*

Poſt Meridiem. A Petition from *James Read*, Clerk of the Supreme Court, and of the Court of Oyer and Terminer, was preſented to the Houſe, and read, ſetting forth, that, by Direction of the Judges, he had, at the Court of Oyer and Terminer, and General Goal Delivery in *Lancaſter* County, the Attorney General not being preſent, prepared Bills to lay before the Grand Jury, and proſecuted ſuch of them as were returned *Billa vera*, according to the beſt of his Skill and Ability; and as ſome of the Perſons proſecuted were not able to pay the uſual Fees, he prays the Houſe would allow him ſuch Reward for his Service, as to them ſhall ſeem meet.

The Houſe taking into Conſideration the Prayer of the ſaid Petition, and being informed by the Speaker, that the Juſtices of the Supreme Court were neceſſitated to make an Appointment of the Petitioner to proſecute the Pleas of the Crown at the Court of Oyer and Terminer mentioned in the ſaid Petition, the Attorney General refuſing to attend and do the Service, do therefore allow the Petitioner for his ſaid Service *Ten Pounds*. And are of Opinion, that in Caſe the Attorney General do for the future decline the Diſcharge of his Duty, and thereby render it neceſſary to make an Appointment of a Perſon to proſecute the Pleas of the Crown, the Allowance to be made for that Service be deducted out of the Allowance to be made the Attorney General.

The Committee appointed to prepare a Draught of an Anſwer to the Governor's Meſſage, reported the ſame to the Houſe, and it was read, and approved, and ordered to be tranſcribed;

transcribed. Which being done, it was again read, and follows in these Words, *viz.* 1746. 6th Mo. 23.

May it please the GOVERNOR,

The Assembly's Answer to the Governor's Message.

WE entertained no Doubts but that the *Five Thousand Pounds* given for the King's Use the last Session of Assembly, would be applied agreeable to such Instructions as the Governor should receive to that Purpose; and therefore we neither expected nor desired any Account thereof to be laid before us. Since that Donation, the Public Accounts of the Province have been settled, by which it appears our Treasury is low; that there remains a Sum too small to pay the usual and necessary Charges of Government; and that the Trustees of the General Loan Office are near *Eight Hundred Pounds* in Advance: So that we have no Fund from whence we are enabled to lend to the Crown the Money requested, were we ever so desirous of doing it. Besides, we observe from the State of the Account the Governor was pleased to direct to be laid before us, that Part of the aforesaid *Five Thousand Pounds* as yet remains unexpended; and although this is intended for other Uses, we must submit it to the Governor's Judgment, whether that Money may not be applied to the present Exigencies, and a like Sum replaced out of what General *St. Clair* is to pay on his Arrival.

The Season of the Year is so far advanced, and a new Election for the Choice of Representatives to serve in Assembly so near, that we think it too late to enter into the Consideration of a Bill of such Importance as that for Billeting of Soldiers in any Shape must be.

And the Message being signed by the Speaker, by Order of the House,

Ordered, That *Oswald Peele* and *Edward Warner* carry up the same to the Governor, together with the Order of the House for his Support, and acquaint him, that the House is inclined to adjourn this Day to the Thirtieth of *September*.

The Report of the Committee of Public Accounts, being approved and allowed by the House, was ordered to be inserted in the Minutes, and follows in these Words, *viz.*

The Governor sent a written Message to the House, with several Letters referred to therein; which were read, and the Message follows in these Words, *viz.* *Post Meridiem.*

GENTLEMEN,

'HAD General *St. Clair*, with the Troops from *England*, arrived in the Time we had Reason to expect from his Grace the Duke of *Newcastle's* Letter, the Money granted by the last Assembly, and applied by me to the Service directed by his Majesty, would have been more than sufficient for the Number of Men raised here: But as they received no Subsistence from the King, I have been obliged, agreeable to the Assembly's Answer to my last Message on this Subject, first to furnish each Captain with *One Hundred and Fifty Pounds*, towards the Discharge of his Company's Quarters, and afterwards with the like Sum for their Subsistence in their March to *Albany*; so that I am now £ 413 11 7 in Advance, as will appear by the Accounts, which I have ordered to be laid before you; for every Article of which I am ready to produce Vouchers, to such of the Members of your House as you shall think fit to appoint for the Examination of them.——I need not be at any Pains to convince you, that without this Advance, the Troops could not have marched out of the Province; and consequently, would have been a Burthen upon the Public; or have subsisted by plundering the Inhabitants. You will observe by Governor *Gooch's* and Governor *Shirley's* Letters, in Answer to my Applications to them for the Pay of the Soldiers, to discharge their Quarters, that as those raised in the other Colonies were subsisted by them respectively, I can have no Expectation of being reimbursed by the Crown; nor will it be in my Power to make any Stoppages out of their Pay, since it is now altogether improbable that it will ever come into my Hands; so that my only Resource is to you: And I assure myself, that as I have nothing but my Trouble for my Pains, in this Business, and have acted for the general Ease and Advantage of the Province, you will not allow me to be a Sufferer.

'You will observe likewise from a Letter, which I received last Week from Governor *Clinton*, that the Troops from hence had threatened a general Desertion, if they were not supplied with Blankets, as those from the other Governments had been; and that he had already secured one Hundred and Fifty for them upon the Credit of this Government, but could get no more. I wrote to him in Answer, that the Money granted was all expended; and as Blankets were not allowed by the King, as Part of a Soldier's Cloathing, I knew not how to act in it; but would recommend it to the Consideration of the Assembly.——The Season sufficiently speaks the Necessity of such a Provision, without any Arguments of mine to persuade you to it.

October 15, 1746. *GEORGE THOMAS.*"

The farther Consideration of the Governor's Message is referred to To-morrow Morning.

A Petition from sundry Innholders of the Town of *Germantown*, was presented to the House and read, setting forth, that they had dieted Part of Captain *John Diemer's* Company, raised for the present Expedition against *Canada*, a considerable Time; the Expence of which amounts in the Whole (as appears by the several Accounts settled with the said Captain before he marched) to the Sum of £ 346 7 3; that they expected the same would have been paid by Mr. *Andrew Hamilton*, out of the Money granted by the Government, but are now informed that Money is all expended; and therefore pray the House would take the Premises into Consideration, and grant such Relief as may seem meet. *Ordered to lie on the Table.*

Then the House adjourned to Ten o'Clock To-morrow Morning. Adjournment

Oct. 16.

The Governor's Message, with the Letters therein referred to, was again read, and the farther Consideration thereof referred to the Afternoon.

And the Conſideration of the other Parts of the ſaid Meſſage is referred to the next Sitting of Aſſembly.

Adjournment. Then the Houſe adjourned to Three o'Clock, *P. M.*

Robert Lewis, choſen and returned a Repreſentative for the County of *Cheſter*, appearing in the Houſe, took and ſubſcribed the Qualification by Law appointed to be taken by the Members of Aſſembly.

The Governor, by his Secretary, ſent down a Meſſage to the Houſe in Writing, which was read and follows in theſe Words, *viz.*

GENTLEMEN,

The Governor's Meſſage. 'THE Troops raiſed in this Government, and now in Winter Quarters at *Albany*, having been furniſhed with Proviſions for four Months, by the Direction of Brigadier *Gooch*, commencing from the Day of their Arrival there, and that Time being near expired, it has been recommended by Governor *Clinton*, and Application has been made to me by the Captains of the four Companies, that a timely Supply be forthwith ſent them. As the Seaſon of the Year rendered this impracticable, I thought I might ſave you the Trouble of a Meeting for this Purpoſe only, and left it to the commanding Officer to make a reaſonable Proviſion for them in that Country, until your Houſe, and a Return of favourable Weather, ſhould enable me to ſupply their Wants.

'I have not received any Orders from his Majeſty, relating to the Pay or Subſiſtence of thoſe Troops, ſince your laſt Meeting; nor do I hear that any are come to the other Governors upon the Continent; ſo the Care of the four *Pennſylvania* Companies muſt ſtill lie upon you.

A Petition of a Number of the Inhabitants of the County of *Lancaster*, setting forth, that by their distant Situation from the Market, and other Circumstances, no Part of their Produce was heretofore so much to be depended on for raising Money, as Stocks of Cattle; but that of late great Herds of Cattle are drove into this Province from *Virginia* and other Southern Colonies, where, by reason of the more moderate Winters and great Savannahs, they can be cheaper raised than in this Province, and are here sold at a low Rate, to the great Discouragement of the Petitioners; and praying that a Law may be made effectually to stop the bringing in of such Cattle; and also to set Bounds to the Power of the Rangers in this Province; was presented to the House and read; and ordered to lie on the Table. 11th Mo. 8.

May it pleaſe the GOVERNOR,

The Aſſembly's Anſwer to the Governor's Meſſage. AS the Time propoſed for the Expedition againſt *Canada* is elapſed, and neither Ships of War nor Troops ſent to *America*, nor any Continuance of the Orders to the ſeveral Governors in this Affair, it ſeems not unreaſonable to conjecture the Enterpriſe is laid aſide. And if this be, as probably it is the Caſe, we ſee not why ſo great a Number of Men, eſpecially at the Charge of the Colonies, ſhould be kept together, when the Service originally propoſed by raiſing them, is at an End.

But if the Governor of *New-York*, who, as we are informed, commands in Chief the Troops at *Albany*, from any Inſtructions he hath received, may think he ſhall be juſtified in keeping them together, there is little Reaſon to doubt he will alſo be juſtified in the neceſſary Means of doing it, *viz.* by continuing to draw Bills for their Support and Pay. So great a Burden, we perſuade ourſelves, it is not the King's Intentions his Subjects of theſe Northern Colonies ſhould be loaded with."

Mr. Speaker, and Gentlemen of the Assembly,

The Governor's Speech.

'I AM sorry for the Occasion of condoling with you on the Death of Mr. *John Penn*, late one of your Proprietors. As his Humanity, good Nature and Affability, made 'him much lamented by his private Acquaintance; so his constant Regard for your Li- 'berties and Interests, would render the Loss of him very sensible to the Public, were 'there not still remaining two worthy Branches of the same Family.

'My own Want of Health, and from thence an Inability to discharge the Trust com- 'mitted to me, with that Vigour and Punctuality which the Duty of my Station re- 'quires, has at length determined me to embark, God willing, for *England*; in Hopes 'that a Relaxation from Business, or the Change of Climate, may afford me some 'Relief: And I am therefore glad of this Opportunity of seeing you upon your own

1747. 3d Mo. 5. ‘ Adjournment, as that may be concluded moſt convenient to your private Affairs.—— ‘ If you have any Thing immediately neceſſary for the public Service to lay before me, ‘ you will not fail of receiving a further Proof of my Regard for it: But if the Execu- ‘ tion is to be carried into a diſtant Time, it will better become me to leave it to my ‘ Succeſſor in the Government, as a Means of recommending himſelf to the Good-will ‘ of the People.

‘ It will be to no Purpoſe for me to give a Character of my own Adminiſtration.—— ‘ My Lot has fallen into difficult and tempeſtuous Times; and a greater Variety of Buſi- ‘ neſs has been tranſacted during my nine Years Reſidence here, than in any Time ſince ‘ the Settlement of the Province.—Whether any Degree of Prudence or Skill has ap- ‘ peared in my Conduct, muſt be left to the Judgment of others. I will only venture ‘ to ſay of myſelf, that my Intentions have been good, and my Actions incorrupt: And ‘ that the Service of his Majeſty, and the Honour and Reputation of the Province, have ‘ always had the Preference with me to my own Eaſe or private Intereſt.

‘ As I have received many Marks of the Public Eſteem, it will be readily believed, ‘ that I take my Leave of the Province with Concern. I really do, and very heartily ‘ wiſh it Proſperity. Some Memorials of my paſt Regard will be left with you; and ‘ I ſhall, during my Life, embrace every Occaſion wherein I may be uſeful, of pro- ‘ moting the general Good of *Pennſylvania*.

May 5, 1747. *GEORGE THOMAS.*”

The Addreſs to the Governor being tranſcribed, was again read, and follows in theſe Words, *viz.*

May it pleaſe the GOVERNOR,

The Aſſembly's Addreſs to the Governor's Speech. WE, the Repreſentatives of the Freemen of the Province of *Pennſylvania*, return the Governor our hearty Thanks for his laſt favourable Speech. We ſincerely condole with him on the Loſs the Province hath ſuſtained, by the Death of one of our Proprietors. The Benevolence, Generoſity and public Spirit of our late worthy Proprietary, his Father, are yet freſh in our View. The Regard paid to his Memory, naturally devolved

devolved on his Descendants; who, being educated in like Principles, and under the Influence of so good an Example, gives us Reason to hope for the Continuance of the like Beneficence. 1747. 3d Mo. 7.

As the Governor has long resided amongst us, is perfectly acquainted with our public Affairs, and so good Harmony subsists between the Branches of the Legislature, his Continuance in the Exercise of the Government, if his Health had permitted, would be most agreeable to us; But since the Governor's Indisposition, and his Hopes of Relief by a Relaxation from public Business, or Change of Climate, has determined him to embark for *England*, we acquiesce under the Necessity.

We have had divers Bills under our Consideration, which, when past into Laws, will, we judge, be for the general Good of the Province, but as the Time for the Governor's Departure draws near, to proceed in them at this Juncture, might take up more of his Time than can well be spared, and therefore we have concluded to postpone them until some future Opportunity; such only excepted, if any occur to us, as shall be thought immediately necessary for the public Service: And we return the Governor our grateful Acknowledgments for the Assurance he gives us, that when these are laid before him, we shall not fail of receiving a further Proof of his Regard.

In transacting of public Affairs, it is not to be expected but that there will be a Variety of Sentiments, more especially in such difficult and tempestuous Times (as the Governor is pleased to mention) yet, while both Parts of the Legislature act with Integrity, and consistently with their Judgments, such a Variety must be beneficial to the Public. Nobody, we think, entertains any Doubts of the Governor's Skill or Abilities; and we believe that he hath been regardful both of the King's Service and the Honour and Reputation of the Province.

The Concern the Governor expresses on taking Leave of the Province, his hearty Wishes for its Prosperity, and the Declaration he is pleased to make of embracing every Opportunity wherein he may be useful in promoting the general Good of *Pennsylvania*, as they are Instances of his Regard, are very acceptable to us, and engage our best Wishes for his prosperous Voyage, the Restoration of his Health, and all manner of Happiness."

Ordered, That *Thomas Leech* and *Edward Warner* wait upon the Governor, and desire to know when he will be pleased to receive the House, that they may present their Address.

A Bill for continuing the Act, entituled, *An Act for the better securing the City of* Philadelphia *from the Danger of Gunpowder*, was brought into the House and read the first time, and ordered a second Reading.

The same Bill was again read.

The said Act was also read:

And a former Petition from *Elizabeth Chancellor*, praying a Continuance of the said Act in Favour of the Children of *William Chancellor*, deceased, was again read;

Ordered, That the Bill be engrossed for a third Reading.

An Account from *Marcus Hewlings*, amounting to *Three Pounds Ten Shillings*, expended by him in making two Journeys to *Philadelphia* to interpret for the *Indians*; was laid before the House and read, and referred to further Consideration at the End of the Year.

Then the House adjourned to Ten o'Clock To-morrow Morning. Adjournment

A Petition from sundry Inhabitants of the County of *Lancaster*, complaining of the Conduct of some Magistrates of the same County, was presented to the House and read.

Ordered to lie on the Table.

Notwithſtanding your private Sentiments at this 'Time, more might look like putting yourſelves in the Wrong, conſidering our former 'Diſputes. I can only repeat what I ſaid to you a few Days ago, that I very heartily 'wiſh the Proſperity, and ſhall do every Thing in my Power for the Service of *Penn-* '*ſylvania*."

The Speaker alſo reported, that the Governor had been pleaſed to give his Aſſent to the Bill, entituled, *A Bill for the Continuance of an Act, entituled, An Act for the better ſecuring the City of* Philadelphia *from the Danger of Gunpowder*, by enacting the ſame into a Law, with the uſual Form; and that the Act had been delivered to two Members of the Houſe, who are to ſee the Great Seal affixed to the ſame, and that it be then depoſited in the Rolls Office.

A Meſſage

A Message from the President and Council, by *Robert Strettell* and *Thomas Hopkinson*, Esquires, Members of Council, *viz.*: 1747. 6th Mo. 18,

MR. SPEAKER,

The President and Council desire to speak with the House of Representatives in the Council Chamber.

Whereupon it was

Which having been done, the said Gentlemen were by the Speaker acquainted, that the House would wait upon the President and Council, agreeable to their Request.

The Gentlemen being withdrawn, the Speaker left the Chair, and with the whole House waited upon the President and Council.

And being returned, the Speaker reported, that having waited on the President and Council, the President had made a Speech to the House, a Copy whereof had been given to him, together with several Papers therein referred to, which he delivered in at the Table, where they were read by Order; and the Speech follows in these Words, *viz.*

GENTLEMEN,

The Speech of the President and Council to the Assembly.

'AS upon our late Governor's Departure for *England*, for the Recovery of his Health 'the Administration of the Government (by an Act passed in the 10th Year of 'Queen *Ann*, intituled, *An Act for the further securing the Administration of the Govern-'ment*) devolved upon the Council; we have, pursuant thereto, taken upon us the Exe-'cution of that Trust.

'As this important Charge hath fallen to our Lot in a very tempestuous Season, we 'are sensible of the Trouble and Difficulties that must attend the Execution of it, and 'heartily wish some one Person of known Integrity and Abilities had the Administration: 'But as that (how desirable soever) cannot be immediately accomplished, we shall en-'deavour to supply the Want of it, by a just and impartial Discharge of our Duty, ac-'cording to the best of our Judgments. And when it is considered how closely our seve-'ral Interests are connected with those of the Public; the Obligations we are under by 'the Ties of our Families, Friends and Neighbours; we think none can doubt of our 'Zeal and sincere Intentions for the Welfare of this Province.

'We have published our Proclamation for the continuing all Magistrates and Officers 'in their respective Offices, requiring them to proceed in the Exercise of their respective 'Trusts, to prevent any Failure or Defect that might otherwise arise from this Change 'in the Government.

'Just before the Governor's Departure he received from the Council Office a Re-'peal of an Act of Assembly, passed in the 16th Year of his present Majesty, entituled, 'An Act imposing a Duty on Persons convicted of heinous Crimes, &c. which we have 'ordered to be laid before you.

'We have received a Letter from Governor *Shirley*, informing us, "That divers "Parties of *Indians* were then out, and others daily offering their Service to the *English*; "which is a Matter of great and universal Concern to the Welfare of all his Majesty's "Colonies upon this Continent: And that, if this Spirit, which seemed thoroughly "raised, and had been to that Time kept up, was cherished, and properly managed and "directed, it might, by the Blessing of God, prove of unspeakable Benefit for the Safe-"ty of His Majesty's Colonies in *North America*." We have also received another 'Letter from him, wherein (after representing the Danger which all these Colonies are 'in, of being destroyed by the *French*, and the *Indians* under their Influence, without 'a firm Union between ourselves for our mutual Defence) he acquaints us, "That he "had appointed Commissioners to meet in a Congress, to be held at *New-York*, on the "second of *September* next, with such Commissioners as should be appointed by all "His Majesty's Governments, from *New-Hampshire* to *Virginia*, inclusive; there to "treat and agree upon Measures for encouraging the *Indians* of the *Six Nations* vi-"gorously to prosecute their Incursions on the Enemy; and pressing us to make Provision "for them till the Congress can be held."— Thereupon we dispatched *Conrad Weiser*, 'the Provincial Interpreter, to *Shamokin*, to sound the *Indians*, and get the best Infor-'mation he could of their Sentiments; which he accordingly did, and sent us a Report

1747. 6th Mo. 18.

'of his Proceedings, with his Opinion; which, with Governor *Shirley's* Letters, we 'have ordered to be laid before you, as well deſerving your moſt ſerious Conſideration, 'ſince they contain Matters of very great Importance to the Safety of this as well as 'the reſt of His Majeſty's Colonies on the Continent.—Governor *Shirley* preſſes earneſtly 'for an Anſwer; but as we could not take upon us to enter into Engagements on Be-'half of this Government, without your Concurrence and Aſſurance of enabling us to 'perform them, we deferred it till this Meeting of your Houſe; and deſire your Re-'ſolutions, that we may acquaint him therewith; and how far he may depend on the 'Aſſiſtance of this Government, in concerting and executing ſuch Enterprizes and Plans 'of Operation as the common Intereſt may require.

'The *Indians* ſeated on Lake *Erie*, and on the *Inomoy* Creek, that runs into that 'Lake, being Part of, or in Alliance with, the *Six Nations*, ſaid by the *Indian* Traders 'to be numerous, and People of Conſequence, have ſent Meſſages to this Government, 'which will be delivered for your Peruſal. As they are deſirous to be taken into Friend-'ſhip, and it may be of great Service to encourage ſuch Applications, you will enable 'us to make them proper Preſents.

'You will find, by Mr. *Weiſer's* Report, that ſome Complaints have been made by 'the *Indians*, of ſeveral Injuries done them by white People, which deſerve your par-'ticular Notice; and, if true, require that ſome Reparation ſhould be immediately 'made.

'Some *Indians* are expected to arrive in *Philadelphia* during your Receſs, which will 'Occaſion ſome Expence in their Maintenance and in Preſents: You will therefore give 'Orders to the Treaſurer to pay all ſuch Sums of Money as ſhall be deemed neceſſary 'for thoſe Purpoſes, as well as to defray the Expences the Provincial Interpreter 'has been at in his Negotiations with them, and that a ſuitable Reward be allowed 'him for his Trouble and Service. He attends in Town, by Order of the Council, 'to the End you may be more particularly informed from him of the preſent Situation 'of the *Indians*, and their Affairs.

'The Council apprehending ſome Inconveniencies from our Enemies coming into the 'Port of *Philadelphia*, under the Sanction of Flags of Truce, as they thereby have an Op-'portunity of making themſelves better acquainted with the Bay and River of *Delaware*, 'have publiſhed a Proclamation, prohibiting all Pilots from bringing up any ſuch Veſ-'ſels within the Limits of this Government, without Leave firſt obtained for that Pur-'poſe; and have likewiſe recommended to the Government of the Lower Counties, the 'laying their Pilots under proper Reſtrictions, which was accordingly done. We have 'alſo wrote to the Government of *New-Jerſey*, to the ſame Purpoſe.

'A notorious Inſult hath lately been committed in *Newcaſtle* County, by an inconſi-'derable Party of *French* and *Spaniards*, in Conjunction with ſome *Engliſhmen*, Traitors to 'their King and Country, and who, we are informed, have dwelt in this City, and are 'too well acquainted with the Condition of it. After having the Boldneſs to come up 'the whole Length of the Bay, and Part of the River, even within about 18 Miles of 'the Town of *Newcaſtle*, they there plundered two Plantations, the Owner of one of 'them they bound and abuſed, and dangerouſly wounded his Wife with a Muſket Ball, 'carrying off their Negroes and Effects, to a conſiderable Value. On their Return, they 'met with a valuable Ship in the Bay, bound to this Port from *Antigua*, which they 'likewiſe took and carried off. The Circumſtances of this Affair, you will be more 'particularly informed of, from the Depoſitions and Papers we have ordered to be laid 'before you.

'This Inſtance of the Boldneſs of our Enemies, encreaſed by the Succeſs they met 'with, together with ſome Expreſſions which fell from them, importing a thorough 'Knowledege of our defenceleſs State, and a Deſign of ſhortly paying this City a Viſit, 'muſt afford but a melancholy Proſpect to People in our Circumſtances, and demand 'a very particular Attention. The Length and Difficulty of our Bay and River, ſeem 'now no longer to be depended on for our Security, ſince our Enemies, in all Proba-'bility, are but too well acquainted with both. The Terror and Confuſion, the Ruin 'of vaſt Numbers of Families, the Deſtruction of Trade, the Blood-ſhed, Cruelty, and 'other fatal Conſequences, which muſt unavoidably attend the Plundering or Burning 'this City, are too obvious to need a Deſcription. Is it not then abſolutely neceſſary 'for the Security of this ſo valuable a Part of his Majeſty's Dominions, and the Preſer-'vation of the Lives and Properties of the Inhabitants, that ſome Method ſhould be 'fallen upon, to prevent the Evils which threaten us, and to which we lie expoſed? 'We aſſure you, on our Parts, we ſhall be always ready to concur with you in every 'Meaſure that may tend to the Safety, Peace, and Happineſs of the People of *Penn-'ſylvania*. And as a perfect Harmony among the ſeveral Parts of the Government, muſt 'greatly contribute to theſe Ends, you may depend on our ſincere Endeavours to cul-'tivate and promote it to the utmoſt of our Power."

Ordered, That the Speech of the Preſident and Council be again read and conſidered in the Afternoon.

A Petition

A Petition from ſundry Perſons, Inhabitants of the City of *Philadelphia*, ſetting forth, that they contributed largely according to their reſpective Circumſtances, towards the Building a Houſe in the ſaid City, which was intended to be a Charity School, for the Inſtruction of poor Children *gratis* in the Knowledge of the Chriſtian Religion, and in uſeful Literature, and alſo for a Place of Public Worſhip: But the Truſtees not having executed their Truſt, the principal End for which the Petitioners engaged in the Subſcription, and paid their Money, is not in the leaſt Degree anſwered; and therefore praying, that the ſaid Truſtees may be compelled to refund and pay the Money advanced by the Petitioners, as well as their other juſt Demands; or otherwiſe that Leave may be given to bring in a Bill for the Sale of the ſaid Building for that Purpoſe; was preſented to the Houſe and read, and ordered to lie on the Table. 1747. *6th Mo.* 18.

Adjournment *6th Mo.* 25. The Houſe met, and adjourned to Ten o'Clock To-morrow Morning.

The Anſwer to the Speech of the Preſident and Council being tranſcribed, was again read, and follows in theſe Words, *viz.*

May it pleaſe the PRESIDENT *and* COUNCIL,

The Aſſembly's Anſwer to the Preſident and Council's Speech. AS by the Act of Aſſembly paſſed in the 10th Year of the Reign of the late Queen *Ann*, to which you are pleaſed to refer us, the Powers of Legiſlation neceſſary in every Government, are taken from us during the Abſence of our Governor, we agree with you in Opinion, it were to be wiſhed that "Some one Perſon of known Integrity and Abilities had the Adminiſtration:" But ſince this, as you well obſerve, how deſirable ſoever, is not immediately to be expected, the Declarations you are pleaſed to make of your Zeal and ſincere Intentions for the Welfare of the Province, and of executing the Truſt devolved on you, in a juſt and impartial Manner, are very acceptable to us.

The Proclamation you have been pleaſed to iſſue for the Continuance of all Magiſtrates and Officers within this Government, and your requiring them to proceed in the Exerciſe of their reſpective Truſts, as it hath been uſual on like Occaſions, and may have prevented Doubts that otherwiſe would have ariſen, was, we think, a prudent Step, whether, in Strictneſs of Law, ſuch a Proclamation was abſolutely neceſſary or not.

By the Order of the King in Council, which was directed to be laid before us, we obſerve the Act for impoſing a Duty on Perſons convicted of heinous Crimes, *&c.* laſt paſt, is repealed; and by a Letter from our Honourable Proprietor, *Thomas Penn*, Eſq; we are informed, the Report from the Lords for Trade and Plantations to the King in Council, adviſed the Repeal of all the former Acts paſt on like Occaſions: But this, on the kind Interpoſition of our Proprietors, is for the preſent forborn, and the laſt Act only repealed; by which Means the former Act ſtands revived. But ſince Exceptions have alſo been taken againſt this Act, as not conſiſtent with ſome late Acts of Parliament, it will, we think, be neceſſary on the Arrival of our Governor, to reviſe and amend it, ſo as to make it more conformable to the Sentiments of our Superiors.

The Accounts ſent by Governor *Shirley*, on the Report of the Perſons he employed with the *Indians* of the *Six United Nations*, we obſerve, differ much from thoſe given by our *Indian* Interpreter: From which laſt, and, as we take it, moſt authentic Account, it appears, theſe *Indians* have not hitherto joined in a Declaration of War againſt the *French*. And, as there is Reaſon to believe the Expedition againſt *Canada* is now laid aſide, and that the Forces raiſed to that End will be diſbanded, it is not to be expected the *Indians* of the *Six Nations* will involve themſelves farther in the War; and therefore, had we no other Reaſons to induce us, we are of Opinion the Congreſs propoſed in *September* next at *New-York*, can be of little Avail. It is nevertheleſs our Sentiments, conformable to the Practice of this Government ſince its firſt Eſtabliſhment, that great Care ſhould at all Times be taken to preſerve the Friendſhip and good Correſpondence which at preſent ſubſiſts between us and the *Indians:* That the Injuries of which they complain ſhould be inquired into, and ſpeedily redreſſed; and, as it is highly probable they are at this Time in neceſſitous Circumſtances, we think a Preſent ought now to be made them, and ſhall therefore, before our Riſing, make the Proviſion neceſſary to this End; as we ſhall likewiſe do for the Payment of the Interpreter, and Maintenance of the *Indians* expected here during our Receſs. We are further of Opinion, that if, on Inquiry, the Perſons againſt whom the *Indians* complain, appear to be guilty of the Crimes laid to their Charges, that they ought to be proſecuted and puniſhed as the Law in ſuch Caſes directs, beſides being obliged to make the *Indians* Reſtitution, if they are able; and if not able, that Compenſation ſhould be made them out of the Money we intend to provide for Preſents.

The plundering of the two Families in *Newcaſtle* County, is indeed, an Inſtance of the Boldneſs of our Enemies: But we think it will be difficult, if not impoſſible, to prevent ſuch Accidents. The Length of the Bay and River, and the Scatteringneſs of the Settlements below, muſt ever, whilſt thus circumſtanced, render them liable to Depredations. It is equally difficult to guard againſt the Wiles of an Enemy. The Ship which you inform us was taken near the Entrance of our Bay, we obſerve, from the Papers laid before us, was a Veſſel of Force, her Captain and Men willing, and probably able, to have defended her, and to have taken their Enemy; but the Captain, deceived by the Appearance of a Pilot and Pilot Boat known to him, and which he wanted

to

to conduct him up the Bay, suffered the Boat to come along side of his Vessel, and thereby gave an Opportunity to a Number of armed Men which lay hid, to jump on Board, and by this Stratagem, to prevail against superior Force. 1747. 6th Mo. 25.

This rendered the Step you have been pleased to take in respect to Pilots, both prudent and necessary: But what further can be done to prevent the like for the future, we do not see. If any Thing be necessary, your Sentiments in this Affair, will, we think, be as properly laid before the Assembly of the *Three Lower Counties*, in which Government these Accidents happened, as before us.

The Depositions you are pleased to direct to be laid before us, mention the Conjectures of the Persons deposing, that the Privateers intended a Descent somewhere near our Coast; but this, Time hath discovered to be their Mistake. Depositions also mention some of their Threats against this City: But these rather appear to us as so many Bravadoes, than what they either really intended, or had the Power to do. We therefore could have wished you had been pleased to have spared that Part of the Speech, which mentions the defenceless State of the Province, and the Consequences which might attend the Plundering of the City, the Tendency of which, in our Opinion, is, rather to beget or augment Fears, than to prevent those Dangers, which, through the Favour of Providence, we have hitherto escaped. Besides, as this Speech from the President and Council may be sent beyond Sea, if it should fall into the Hands of our Enemies, it may probably induce them to make an Attempt they otherwise would not have thought of. We may also add, that the Defence of the Province hath been a Matter already much controverted; and you cannot be unsensible of the different Sentiments of our late Governor and former Assemblies, nor of the Difficulties they and we have been, and yet are under, on this Account. Although neither they nor we look upon the Province in so defenceless a Condition as it then was, and now is represented: Nor can we understand on what Grounds you are pleased to alledge, the Length and Difficulty of the Bay are now less Security than heretofore. Nothing in the Papers laid before us, carry any Evidence, that we can discover, in Support of this Allegation: And were we under no Restraint, from the Principles professed by most of us, it would not be an easy Task to persuade us, that the Measures which have been proposed for the Defence of the Province, either by erecting Fortifications, or building Ships of War, would be of any real Use to the Province; the Charge which must have arisen would have been great, the Benefit uncertain and small. And if you will be pleased coolly to reflect on the several Applications which have been made to former Assemblies, and to us, for granting of Money on this Account, on the several Expeditions against *Carthagena*, *Cape Breton* and *Canada*, you must have Reason to be of our Opinion, that had they been complied with, it would have brought such a Burden upon the Province, as it would scarce have been able to bear. And, were all these Difficulties removed, the Application to us at this Juncture, is not the best timed, when our Treasury is low; and you, as well as we, know, that if the Restraint put upon us by the Act of Assembly, to which you are pleased to refer us, be binding, it is not in our Power to join in the making of any one Act whatsoever. We desire you will excuse this Freedom, which the Part of your Speech now under Consideration, rendered necessary, and would not otherwise have been our Choice; for we are clearly of Opinion with you, that a perfect Harmony among the several Parts of Government, must greatly contribute to the Safety, Peace, and Happiness of the People of *Pennsylvania:* And we shall be pleased with every Opportunity, consistently with our Judgments, to shew the President and Council how heartily we are disposed to promote and cultivate it."

And the Address being signed by the Speaker, by Order of the House,

Ordered, That *John Hall* and *John Owen* wait upon the President and Council with the same.

The Gentlemen return and report, that they waited upon the President and Council, and delivered the same according to Order.

The Proprietors Letter was again read, and the House taking the same into Consideration, together with the several Papers therein enclosed, are of Opinion, that the Matters thereby referred to, respecting the Danger of having our Laws repealed in other Manner than is provided by the Royal Charter, is of very great Consequence to the Freemen and Inhabitants of this Province, and may greatly affect their Rights and Liberties.

And being moved, it was accordingly

Resolved, That the Thanks of this House be given to the Proprietors for their seasonable Interposition in this Affair; to be signified to them by the Speaker.

A Petition from *Tench Francis*, Esq; was presented to the House and read, setting forth, that he has executed the Office of Attorney General in this Province near Six Years, and according to the best of his Capacity performed his Duty therein, but has received for his Services only £. 150, which he hopes will not be esteemed a Compensation for his Trouble and Expence in carrying on the public Prosecutions for so long a Time;

1747. 6th Mo. 25. that from the Increaſe of Inhabitants and other Cauſes, Offences have ſo multiplied, that unuſual Care and Diligence have been required in the Petitioner, and a great Part of his Time unavoidbly ſpent in Attendance on public Trials, beyond what was formerly neceſſary; and praying that the Houſe would take the Premiſes into Conſideration, and make him ſuch Allowance for his paſt Services as to them in Juſtice ſhall ſeem meet. *Ordered to lie on the Table.*

Adjournment *Poſt Meridiem.* Then the Houſe adjourned to Three o'Clock, *P. M.*

The Petitions relating to the *New Building* were referred to the Conſideration of ſome future Aſſembly.

The Petition of *Peter Bard* was again read, and referred to the Committee of Incidental Charges.

The Petition of *Tench Francis*, Eſq; was again read, and referred to further Conſideration.

Adjournment 6th Mo. 26. Then the Houſe adjourned to Nine o'Clock To-morrow Morning.

A Petition from *Thomas Græme* and *William Till*, Eſqrs; two of the Judges of the Supreme Court, ſetting forth, that the Buſineſs of the ſaid Court is from Year to Year conſiderably increaſed, ſo as to take up much more of their Time and Attention than heretofore, and requeſting therefore an Augmentation of the Salaries uſually allowed them; was preſented to the Houſe, and read. *Ordered to lie on the Table.*

It appearing by the Account of the Truſtees of the *Province Iſland*, that there is a Balance due from them to the Province, of £. 99 4 6½; they are ordered to pay the ſame into the Hands of the Provincial Treaſurer, purſuant to the Law.

Reſolved, That a Sum not exceeding *Four Hundred Pounds* be allowed as a Preſent to all the *Indians*.

Ordered, That the Treaſurer make reaſonable Proviſion for the Entertainment of the *Delaware Indians* expected here.

Adjournment *Poſt Meridiem.* Then the Houſe adjourned to Three o'Clock, *P. M.*

The Committee appointed to examine the Agent's Accounts report, that they have made ſome Progreſs therein, but cannot complete the ſame for Want of ſome Information of a particular Article, which may be had againſt another Time.

The Report of the Committee of Public Accounts, being approved and allowed by the Houſe, was ordered to be inſerted in the Minutes, and follows in thoſe Words, *viz.*

Poſt Meridiem. *John Hall*, returned a Repreſentative for the County of *Bucks*, appeared in the Houſe, and took and ſubſcribed the Qualification by Law appointed to be taken by Members of Aſſembly, and then took his Seat in the Houſe accordingly.

Adjournment. Then the Houſe adjourned to Ten o'Clock To-morrow Morning.

Oct. 16. The Preſident and Council ſent down a written Meſſage to the Houſe, together with ſeveral Papers therein referred to, which were read, and the Meſſage follows in theſe Words, *viz.*

GENTLEMEN,

A Meſſage from the Preſident and Council to the Aſſembly.

'WE ſhall ever think it a Duty incumbent on us to lay before you ſuch Matters wherein your Concurrence is neceſſary, as may affect or promote the Peace and Proſperity of the People of this Province: And as, upon your waiting upon us with your Speaker, you expreſſed your Readineſs to receive any Thing of that Kind, we have thought proper to inform you of the following Tranſactions:

'About the 14th of *July* laſt a Party of *French* and *Spaniards*, in Conjunction with ſome *Engliſhmen*, ſome of whom, we are informed, have formerly dwelt in this City, came up in a Pilot Boat within about 18 Miles of the Town of *Newcaſtle*, plundered two Plantations, bound and abuſed the Owner of one of them, and wounded his Wife with a Muſket Ball, carrying off Negroes and Effects to a conſiderable Value. On their Return they met with a valuable Ship in the Bay, bound to this Port from *Antigua*, which they likewiſe took and carried off. Since that, on the 14th of *September* laſt, we received Information by Expreſs from *Lewes*, that on *Tueſday*, the 8th of *September*, two Sloops went up the Bay, with a Pilot Boat tending on each; on *Wedneſday* Evening they returned, and anchored in *Lewes* Road, which kept the Watch at *Lewes* upon Duty Day and Night: That one of the ſaid Veſſels, in Sight of the People at *Lewes*, took a Ship outward bound, with her Pilot Boat, and another Ship next Morning coming in; and was, at the Time of ſending away that Expreſs, in Chace of a Third, which, it was feared, would fall into their Hands in an Hour or two. It appeared afterwards, that the Privateer, mentioned in the ſaid Expreſs, belong'd to *Cape François*: That ſhe carried fourteen Carriage Guns, ſixteen Swivels, and came out with about one Hundred and Seventy Men; that ſhe had taken in that Cruize no leſs than ten Prizes. Theſe Facts, with the Circumſtances attending them, will appear more particularly in the Depoſitions and Papers we have ordered to be laid before you.

'From the Succeſs which attends our Enemies by Cruizing in our Bay without Riſk or Oppoſition, it may reaſonably be expected that they will continue their Depredations in the Spring, and in all Likelihood block up the Trade of this flouriſhing Colony; a Loſs, which we apprehend will be ſenſibly felt by all Sorts of People. Trade ſupports the Merchant, the Planter, the Artificer. Every one in the Country, as well as in the Town, will be alike involved in the Loſs of Commerce, as they derive from thence many of the Neceſſaries and Conveniences of Life.—A Concern then, ſo intereſting to Men of all Degrees amongſt us, well deſerves your moſt ſerious Conſideration.

'The Boldneſs of our Enemies, and the Knowledge they have gained of our Bay and River, gives us great Reaſon to apprehend an Attack on this City, unleſs ſome Proviſion be ſpeedily made to diſcourage them from the Attempt, or to diſappoint them in it.

'As we can't doubt but you will think the Protection of this City, and the Trade of it, highly worth your Care, you will wiſely provide for both. If a Law was wanting for theſe Purpoſes, the People of *Pennſylvania* would be unhappy indeed, ſince there is no Legiſlative Power at preſent in the Government. But we apprehend, that as the Public Money is in your Diſpoſal, no further Law is neceſſary.

'Some *Spaniſh* Priſoners, now in the Work Houſe, waiting for an Opportunity to be ſhipped off, are in Want of Cloaths and other Neceſſaries. As this Government hath always behaved with Humanity and Kindneſs to Priſoners, you will no doubt provide for the Expences neceſſary on this Occaſion.

October 16, 1747. *ANTHONY PALMER*, Preſident."

Iſaac

Isaac Norris, returned a Representative for the County of *Philadelphia*, appeared in the House, and took and subscribed the Qualifications by Law appointed to be taken by Members of Assembly, and thereupon took his Seat in the House. 1747. Oct. 16.

The House being informed, that Application had been made to *Anthony Newhouse*, Paper-maker, who made the Paper for the Currency of this Province, that he would privately make a Parcel of the same Kind of Paper, in order to the Counterfeiting of the said Currency, which he refused, and has honestly given Notice of the Design to a Trustee of the Loan Office;

Resolved, That the Trustees be empowered to reward the Honesty of the said Paper-maker with such Sum as they shall think proper, not exceeding Ten Pounds; and the like to any other Paper-maker, who may make the like Discoveries hereafter.

Then the House adjourned to Three o'Clock, *P. M.* Adjournment

The Message from the President and Council, with the Papers therein referred to, were again read, and considered. *Post Meridiem*

Ordered, That *James Morris*, *Israel Pemberton*, *John Hall*, *Samuel Levis* and *Arthur Patterson* be a Committee to prepare a Draught of an Answer to the said Message, and report it to the House.

Then the House adjourned to Ten o'Clock To-morrow Morning. Adjournment

The Committee appointed to prepare a Draught of an Answer to the Message of the President and Council, reported the same to the House, and it was read, and considered, and ordered to be transcribed, that it may be sent up to the President and Council. Oct. 17.

Which being accordingly done, it was again read, and follows in these Words, *viz.*

May it please the PRESIDENT *and* COUNCIL,

WHATEVER Matters you shall be pleased at any Time to lay before us, wherein our Concurrence is necessary, and which we shall conceive to have a Tendency to promote the Peace and Prosperity of the Province, will ever be chearfully received and deliberated on by us. The Assembly's Answer to the President and Council's Message.

The Transactions you are pleased to mention in the former Part of your Message, we observe, is only an abridged Account of what was laid before the last Assembly. These Accidents, and those which after happened, appear to us to be chiefly owing to like Causes, *viz.* the Misconduct of the Pilots residing thereaway, without whose Assistance it is not probable these Attempts would have been made. And sure it can be no great Difficulty for the Governments adjoining to the Bay, to oblige their Pilots to such Regulations as may prevent like Accidents for the future.

As to any Enterprise intended against the City, we hope there is no Danger; and if there be, one of the best Expedients to prevent it, will, we think, be to check every Appearance of illicit Trade, which, under Colour of Flags of Truce, or otherwise, may be attempted to be carried on; for if any Acquaintance be gained of our Bay and River, it is most likely to happen by this Means.

As the Members of the present Assembly are mostly the same with the last, and their Sentiments the same as at that Time, it will be unnecessary, we think, to add to what is before contained in Answer to your present Message, further than to refer to their last Address, in Answer to the Speech delivered to them by the President in Council.

The Circumstances of the *Spanish* Prisoners in this City, which you are pleased to recommend to us, have been under our Consideration. We hope Care will be taken to ship them off with as much Speed as can be; and in the mean Time, we concur in Opinion with the President and Council, that they ought to be treated with Humanity and Kindness; and we shall make the Provision necessary to this End."

And the Message being signed by the Speaker, by Order of the House;

Ordered, That *Edward Warner* and *James Morris* carry up the same to the President and Council, and acquaint them, that the House intends to adjourn this Day to the 16th of the next Third Month, unless they have any Thing to lay before the House that may require a longer Stay.

Resolved, That the Treasurer be impowered to furnish the *Spanish* Prisoners with such Cloathing and other Necessaries as the Season and their Circumstances require.

The Gentlemen return and report, that they waited on the President at his House, and delivered him the Message according to Order, who was pleased to say, that he expected the Council would have met this Morning at his House, but they had not; that he would lay the Message before them when they did meet; and had himself no Objection to the proposed Time of Adjournment.

Then the House adjourned to the Sixteenth Day of the next Third Month. Adjournment

THE President and Council having by their Writs directed to the Sheriffs of the respective Counties ordered the Assembly to be summoned, to meet this Day on Affairs of Importance, a Quorum met accordingly. *Nov.* 23.

Ordered, That *Joseph Trotter* and *James Morris* wait upon the President and Council, and

1747. *Nov.* 23. and acquaint them, that the Houſe is met according to their Summons, and ready to receive any Thing they may have to lay before them, and alſo deſire a Sight of the Writs by which they were ſummoned.

Adjournment. Then the Houſe adjourned to Ten o'Clock To-morrow Morning.

Nov. 24. The Gentlemen appointed Yeſternight to wait on the Preſident and Council with the Meſſage of the Houſe, report, that they delivered the ſame to the Preſident according to Order, and that the Preſident was pleaſed to ſay, the Writs ſhould be ſent down, together with a Meſſage to the Houſe.

The Preſident and Council ſent down by the Secretary a Meſſage to the Houſe, together with ſeveral Papers referred to therein, and one of the Writs by which the Houſe was ſummoned; which were read, and the Meſſage follows in theſe Words, *viz.*

GENTLEMEN,

A Meſſage from the Preſident and Council to the Aſſembly.

'YOU are called together at this Time in Purſuance of certain Inſtructions from his Grace the Duke of *Newcaſtle*, dated the 30th *May* laſt, ſignifying, "That it was "his Majeſty's Pleaſure, that Governor *Shirley* ſhould immediately appoint a Meeting "with Commodore *Knowles*, at ſuch Place as ſhould be agreed upon, and conſider with "him the preſent State of *Nova Scotia* and *Louiſburgh*, and take the proper Mea"ſures for the Defence of thoſe Places. And as it is his Majeſty's Intention that the "*Americans* ſhould be immediately diſcharged, except only ſuch few as are mentioned: "And that when Governor *Shirley* and Mr. *Knowles* ſhall have met, and fully conſidered "the Service to be undertaken in the Manner directed, and ſhall have agreed what "Number of *Americans* it will be neceſſary to keep in Pay for that Purpoſe, it is his "Majeſty's Pleaſure, that he ſhould procure an Account of the whole Expence on Ac"count of the *American* Troops, from the Time of their being levied to the Time of "their Diſcharge, and when the ſame ſhall be adjuſted and liquidated, to tranſmit it "to his Grace, with the proper Vouchers from the ſeveral Governors, that it may be "laid before Parliament, to the End that Proviſion may be made for the Payment; and "in the mean Time, in order to prevent any Complaint amongſt the Men that have "been inliſted (as well thoſe that ſhall be diſcharged, as thoſe that ſhall continue in "Service) for Want of immediate Pay, to recommend it to the Governors of the Pro"vinces where theſe Levies have been made, to procure Credit from the reſpective Aſ"ſemblies for that Purpoſe, which his Majeſty hopes may be done without Difficulty."

'In Obedience to his Majeſty's Commands we do therefore moſt earneſtly recommend 'it to you, that you would immediately provide Money or Credit for the Payment of 'ſuch Sums as ſhall remain due to the Forces raiſed in this Government at the Time of 'their Diſcharge, an Eſtimate whereof ſent us by Governor *Clinton*, we have ordered 'to be laid before you, together with the ſeveral Letters and Papers we have received 'from Governor *Shirley*, Admiral *Knowles* and Governor *Clinton*, on this Subject.

'You will perceive, Gentlemen, by the above Inſtructions, that an Account muſt be 'prepared of the whole Expence of the *Pennſylvania* Companies, from the Time of their 'being levied to the Time of their Diſcharge: You will therefore furniſh us with the 'Votes and Minutes of your Houſe, and ſuch other Materials in your Power as ſhall 'be neceſſary, and that with all the Diſpatch poſſible, ſo that they may be tranſmitted 'to his Majeſty Time enough to be laid before the Parliament at their next Seſſion.

'As his Majeſty hopes what is demanded will be done without Difficulty, you will, 'no doubt, conſider of the moſt effectual Ways to anſwer his Majeſty's Expectations.

A Petition from *James Mather*, Innkeeper of *Chester*, praying an Allowance for his Expence and Trouble in supporting and nursing sundry sick Soldiers, was presented to the House and read, and ordered to lie on the Table.

The House resumed the Consideration of the Message from the President and Council, and

Ordered, That *Isaac Norris*, *Thomas Leech*, *Oswald Peele*, *John Hall*, *John Owen* and *Peter Worrall* be a Committee to prepare a Draught of an Answer to the same, and report it to the House.

The President and Council sent down another written Message to the House, with several Papers referred to therein, which were read, and the Message follows in these Words, *viz.*

GENTLEMEN,

'YOU will see by the Papers that are ordered to be laid before you, that we have had a Treaty with some *Indian* Warriors from *Ohio*, who came to Town for that Purpose. By them we are given to understand, that the Tribe of *Indians*, being a Mixture of the *Six Nations*, to which these Warriors belong, have actually resolved to adhere to their Brethren the *English* against the *French*, and propose to kindle a great Fire at *Ohio* in the Spring, to which they have invited the *Indians* living round about them to join with them in these Resolutions. This is an extraordinary Event in our Favour, which ought to be improved to the greatest Advantage. From the Situation of these People, being mostly within the Limits of this Government, they are capable of doing, or preventing the greatest Mischiefs; and from what passed at a Conversation between them and the Interpreter, there is Reason to apprehend, that without Encouragement from this Province, they may be seduced by the *French* to go over to their Side, whereby the Lives of the Back Inhabitants will be in the utmost Danger. These Considerations have induced us to give them the Goods mentioned in the Account delivered you herewith, and to promise to send the Interpreter with a larger Present to their Fire at *Ohio* in the Spring: You will therefore take Care at this Session to come to such Resolves as will enable us to make good our Engagements. A Message from the President and Council to the Assembly.

'The last Post brought the President a Letter from Governor *Shirley*, dated at *Boston* the 9th of *November* instant, purporting, "That at a Meeting of Commissioners from "the Government of the *Massachusetts Bay*, *New-York* and *Connecticut*, at the City of "*New-York*, in *September* last, it was agreed, in Behalf of the said Governments, that "an Expedition should be undertaken against the *French* Fort at *Crown-Point*: That "certain Measures should be used to retain and confirm the *Indians* of the *Six Nations*, "and others in Alliance with them, in the Interests of the *English* Governments; and "other Matters were agreed upon for the Defence of the *English* Colonies against the "*French* and *Indian* Enemy: And also, that there should be another Meeting of the "Commissioners about the Middle of *December* next; and that in the mean Time all

1747. Nov. 26. " the other Governments, from *New-Hampſhire* to *Virginia*, ſhould be invited, and " earneſtly urged to join in this public and important Undertaking, wherein His Ma- " jeſty's Honour, and the Intereſt of all his Subjects in *North America*, are ſo deeply " concerned. The Agreement of the Commiſſioners was laid before the General Aſſem- " bly of that Province in their late Seſſion; but finding ſo thin an Appearance of the " Repreſentatives, and moſt of the principal Members abſent, Mr. *Shirley* judged it beſt " to adjourn the Aſſembly to *Tueſday*, the 17th Inſtant. This obliged him to entreat " the Government of *Pennſylvania* to order the public Buſineſs, ſo as that the Aſſembly " may be able to meet about the Time when we may expect to know their Reſolutions " uponthis Affair."

' As the Aſſembly of the Province of the *Maſſachuſetts Bay* is ſuppoſed to be now ' ſitting, and we may every Day expect to receive their Reſolves, in order to be laid ' before you for your Sentiments and Concurrence; and as we cannot think but you will ' heartily join in promoting every Scheme that ſhall appear to contribute to retain and ' increaſe the Friendſhip of the *Indians*, you will readily comply with Mr. *Shirley's* ' Requeſt.

Nov. 25, 1747. *ANTHONY PALMER*, Preſident."

Ordered, That the further Conſideration of the Meſſage be referred to the Afternoon.

The Committee appointed to examine the Account of *James Whitehead*, report, that they find a Balance due to the ſaid *Whitehead* of £ 46 11 0.

Ordered, That an Order on the Treaſurer iſſue under the Hand of the Speaker, for the Payment of the ſame.

The Petition from a Number of the Inhabitants of the City of *Philadelphia* was again read, and the further Conſideration thereof adjourned to To-morrow Morning.

Adjournment. Then the Houſe adjourned to Ten o'Clock To-morrow Morning.

Nov. 27. The Committee appointed to prepare a Draught of an Anſwer to the firſt Meſſage from the Preſident and Council, reported the ſame to the Houſe, and it was read by Order and conſidered, and ordered to be tranſcribed that it may be ſent up to the Preſident and Council.

An Order being drawn on the Treaſurer for the Payment of *James Whitehead's* Account, was ſigned by the Speaker, by Order of the Houſe.

The Preſident and Council ſent down a Letter juſt received from *Conrad Weiſer*, Interpreter to this Province, relating to *Indian* Affairs, which was read.

Adjournment. Then the Houſe adjourned to Three o'Clock, *P. M.*

Poſt Meridiem. The Meſſage to the Preſident and Council being tranſcribed, was read, and follows in in theſe Words, *viz*

May it pleaſe the PRESIDENT *and* COUNCIL,

The Aſſembly's Anſwer to the Preſident and Council's Meſſage. THE Duke of *Newcaſtle*, in his Letter to Governor *Shirley*, dated the 30th of *May* laſt, to which you are pleaſed to refer us, directs Governor *Shirley* and Commodore *Knowles*, " to procure an Account of the whole Expence incurred on Account of the *American* Troops, from the Time of their being levied to the Time of their Diſcharge; and when the ſame ſhould be fully adjuſted and liquidated, to tranſmit it to him, with the proper Vouchers from the ſeveral Governors, that it might be laid before Parliament, to the End that Proviſion might be made for the Payment." And after ſignifying " His Majeſty's Intention, that the *Americans* ſhould be immediately diſcharged, except the few there mentioned," directs " that the Manner of diſcharging them, and the Satisfaction for their Time, ſhould be left to Governor *Shirley* and Commodore *Knowles*; who, in Purſuance of theſe Inſtructions, in their Letters to you, have requeſted you would furniſh them with the particular Accounts and Proofs they judge neceſſary for that Purpoſe :" And though they are alſo directed " to recommend it to the Governors of the Provinces where thoſe Levies have been made, to procure Credit from the reſpective Aſſemblies, in order to prevent any Complaint amongſt the Men that have been enliſted, for Want of immediate Pay," yet we apprehend, till the Sums due to the ſeveral Companies are regularly aſcertained, it is not in our Power to judge what Credit or Money may be expected to be borrowed from this Province for the King's Uſe, on Account of the Levies raiſed here. But conſidering the great Deſertions in thoſe Companies, and the Payments made them by Governor *Clinton*, who, we preſume, had the Command in Chief of thoſe Troops, we hope there can be no extraordinary Occaſion of Complaint amongſt the Men for Want of their remaining Pay till Proviſion ſhall be made for them by Parliament, or at leaſt till their Accounts can be fully adjuſted and liquidated in the Manner directed in the Duke of *Newcaſtle's* Letter.

The Accounts neceſſary for Settling the Expence of the *Pennſylvania* Companies, to the Time of their leaving this Province, we ſuppoſe are moſtly in your Hands; but the ſeveral Sums of Money granted upon this Occaſion, and which by our Votes and Minutes appear to have been paid for the King's Uſe, with ſuch other Materials as are in our Power, we have ordered to be laid before you."

And

And the Message being signed by the Speaker, by Order of the House; 1747.

Ordered, That *Thomas Leech* and *Edward Warner* carry the same up to the President and Council, together with the Account of the Sums that have been paid by this Province for the King's Use. *Nov.* 27.

The Petition from a Number of Inhabitants of the City of *Philadelphia* was again read, and after some Debate, the further Consideration thereof was adjourned to To-morrow Morning.

Then the House adjourned to Nine o'Clock To-morrow Morning. Adjournment

The Petition from a Number of the Inhabitants of the City of *Philadelphia* was again read and considered, and referred to further Consideration.

The second Message from the President and Council was again read and considered, and referred to further Consideration.

The Petition from a Number of the Inhabitants of the City of *Philadelphia* was again read.

Then the House adjourned to Three o'Clock, *P. M.* Adjournment

The President and Council, sent down, by the Secretary, a written Message to the House, with sundry Letters and Papers therein referred to, which were read, and the Message follows in these Words, *viz.* *Post Meridiem.*

GENTLEMEN,

A Message from the President and Council to the Assembly.

'SINCE our Message to you of the 24th of *November* last, and your Answer there-
'to, dated the 27th of the same Month, we have received from Governor *Shirley*
'a Letter, informing us, that the Pay of the Companies of *New-York*, *Pennsylvania*,
'*Maryland* and *Virginia*, had been fixed at the Rate of *Six-pence* Sterling per Day, over
'and above the Provisions which had been allowed them, and that any Abatement or
'Stoppage would now seem unequal and grievous, and raise the utmost Discontents
'amongst the disbanded Troops; which, as he very justly observes, may be a Prejudice
'to His Majesty's Service in general upon any future Emergency of the like Nature.

'We have likewise received a Letter from Governor *Clinton*, inclosing an Account
'of Pay due to the *Pennsylvania* Companies from the 25th of *June* last to the 31st of
'*October*; wherein it appears, that there remains due to the Officers of the said Com-
'panies, *One thousand eight hundred and twenty two Pounds, Fifteen Shillings and Eight-*
'*pence* Sterling; and to the Sergeants, Corporals, Drummers and private Men, *One*
'*thousand three hundred and twenty three Pounds, eighteen Shillings*, Currency, besides an
'Allowance, which Governor *Clinton* observes the Officers expect, as they have com-
'puted their Accounts only to the 31st of *October*, but were not actually discharged till
'the 19th of *November*; which Papers, together with an Account of Provisions sup-
'plied the said Companies by Governor *Clinton*, amounting to *Two thousand seven hun-*
'*dred and fifty four Pounds, seven Shillings and three Farthings*, we have ordered to be
'laid before you; and we earnestly desire you will proceed with all possible Dispatch
'to comply with His Majesty's Demands.

January 5, 1747. *ANTHONY PALMER*, President."

The

1747. The further Conſideration of the above Meſſage, was adjourned to To-morrow Morning.

Adjournment 11*th Mo.* 6. Then the Houſe adjourned to Ten o'Clock To-morrow Morning.

The Houſe reſumed the Conſideration of the Meſſage from the Preſident and Council, which was again read with the Papers therein referred to; and after ſome Time ſpent therein,

Ordered, That *Thomas Leech*, *Iſrael Pemberton*, *Abraham Chapman*, *Thomas Worth* and *James Webb* be a Committee to prepare a Draught of an Anſwer to the ſaid Meſſage.

Adjournment *Poſt Meridiem.* Then the Houſe adjourned to Three o'Clock, *P. M.*

The Gentlemen appointed to prepare a Draught of an Anſwer to the Meſſage from the Preſident and Council, reported the ſame to the Houſe, and it was read by Order and approved of, and ordered to be tranſcribed that it may be ſent up to the Preſident and Council.

And being accordingly tranſcribed, it was again read, and follows in theſe Words, *viz.*

May it pleaſe the PRESIDENT *and* COUNCIL,

The Aſſembly's Anſwer to the Preſident and Council's Meſſage. WE ſhould have chearfully embraced the Opportunity now offered us of ſhewing our Loyalty, and the Regard we have to the King's Requeſt, by lending him the Money mentioned in your laſt Meſſage, until Proviſion could be made by the Parliament for the Repayment of it, were we in Circumſtances which enabled us ſo to do.

But the Demands upon our Treaſury have of late been ſo many and conſiderable, that the Money at our Diſpoſal hath been ſcarcely ſufficient to pay the neceſſary Charges of Government; and had we a Stock ſufficient in the Treaſury or Loan Office, yet as there is an Act of Aſſembly of the Province now in Force, which in the Abſence of a Governor prohibits the paſſing of any Act, however great the Neceſſity may be, we think you muſt be of our Opinion, that it would be inconvenient to apply any Part of the Public Money to the Purpoſes now required of us.

And the Meſſage being ſigned by the Speaker, by Order of the Houſe,

Ordered, That *Oſwald Peele* and *James Morris* wait upon the Preſident and Council, and deliver the ſame.

A Petition from *George Wood*, *William Donaldſon*, *William Parker*, *John Rudulph* and *Margaret Hows*, of the Townſhip of *Derby*, praying a further Allowance on account of their billeting Soldiers, *&c.* was preſented to the Houſe and read, and ordered to lie on the Table.

Divers of the Members requeſting Leave to be abſent To-morrow; and the Buſineſs before the Houſe being ſuch as they do not care to proceed upon, without having as full a Houſe as poſſible, the Houſe reſolved to adjourn to the next Sixth-day.

Adjournment 11*th Mo.* 8. Then the Houſe adjourned to next Sixth-day, at Ten o'Clock in the Morning.

The Gentlemen appointed to wait upon the Preſident and Council, with the Meſſage of the Houſe, report, that the Preſident being out of Town, they had delivered it to the Secretary, who undertook to lay it before the Council.

A Letter from *Conrad Weiſer*, Interpreter of the Province with the *Indians*, was laid before the Houſe, and read.

The Petition from a Number of the Inhabitants of the City of *Philadelphia*, was again read; and the Queſtion being put, that a Sum of Money be now given for the Purpoſes in the ſaid Petition mentioned? It paſſed in the Negative.

Adjournment *Poſt Meridiem.* Then the Houſe adjourned to Three o'Clock, *P. M.*

The Meſſage from the Preſident and Council, of the 25th of *November* laſt, relating to a Preſent to the *Indians*, together with the Treaty the Council had held with them, and two Letters from the Interpreter relating thereunto, were read;

Ordered, That *Iſrael Pemberton*, *Owen Evans*, *Abraham Chapman*, *Samuel Levis*, and *Peter Worrall* be a Committee to prepare a Draught of an Anſwer to the ſaid Meſſage, and report it to the Houſe.

Adjournment 11*th Mo.* 9. Then the Honſe adjourned to Ten o'Clock To-morrow Morning.

The Gentlemen appointed to prepare a Draught of an Anſwer to the Meſſage of the Preſident and Council, reported the ſame to the Houſe, and it was read by Order, and ordered to be tranſcribed, that it may be ſent up to the Preſident and Council.

Reſolved, That the Sum of *Five Hundred Pounds* be at this Time given and allowed as a Preſent to the *Indians* of the *Six Nations*.

And the Meſſage being tranſcribed, was again read, and follows in theſe Words, *viz.*

May it pleaſe the PRESIDENT *and* COUNCIL,

The Aſſembly's Anjwer to another Meſſage from the Preſident and Council. WE have taken into our Conſideration your Meſſage of the 25th of *November* laſt, concerning the Treaty held with the *Indians* from *Ohio*. The Importance of theſe *Indians* towards the continuing and cultivating the good Underſtanding which hath ſo long ſubſiſted between this Government and the *Six Nations*, we obſerve, from this Treaty, depends pretty much on the Account they gave of themſelves: However, as they

they are a Part of the *Six Nations*, who, very probably, in this calamitous Time, are often in Want of Neceſſaries to acquire their Livelihood, we approve of the Preſent you have thought fit to make them; and alſo of the Account you have ſent the *Six Nations* of a larger Preſent intended for them in the Spring; and we ſhall take the Care which is neceſſary to enable you to fulfil that Engagement. 1747. 11th Mo. 9.

Permit us, however, to add, that we think it will be neceſſary to preſs their Union amongſt themſelves, and that they will do well to have due Regard to the Opinion of their old and experienced Men, whoſe Advice, from the Account they give, ſeems to have been laid aſide. Moſt of us, you are ſenſible, are Men of peaceable Principles, and the Preſents we gave (and thoſe formerly given on Behalf of this Government, ſo far as we have underſtood) were to ſupply them with Neceſſaries towards acquiring a Livelihood, and to cultivate the Friendſhip between us, and not to encourage their entering into a War. This we think moſt for the King's Intereſt, and the Peace and Safety of his Colonies in *America*; it being well known, that Wars, once begun amongſt them, are not to be ended without great Difficulty, and are attended with ſo much Bloodſhed and Cruelty, as uſually excites Revenge and like Inhumanity from the *Indians* in the *French* Intereſt againſt thoſe in Amity with us, and againſt others the King's Subjects.

We obſerve from *Conrad Weiſer's* Letter, which you were pleaſed to order to be laid before us, the *Indians* continue their Complaints of the Injuries they have received by the Carrying of Rum amongſt them; and we therefore hope you will endeavour to prevent this for the future, by directing the Laws provided againſt this Abuſe to be duly put in Execution.

As to that Part of the Meſſage we have mentioned, which relates to Governor *Shirley's* Letter and Propoſals, we are not informed of any further Accounts received from him ſince our laſt Meeting; and therefore our Sentiments on that Occaſion at this Time will, we preſume, be of little Uſe.

And the Meſſage being ſigned by the Speaker, by Order of the Houſe;

Ordered, That *Edward Warner* and *James Morris* carry up the ſame to the Preſident and Council, and acquaint them, that the Houſe intends to adjourn this Day to the Sixteenth of the next Third Month.

The Gentlemen return and report, that they waited upon the Council, and delivered the Meſſage according to Order, the Preſident being abſent. That the Council were pleaſed to ſay, they were preparing ſomething to lay before the Houſe; but ſince the Houſe had determined to adjourn, they acquieſced with it.

Then the Houſe adjourned to the Sixteenth Day of the next Third Month. Adjournment

THE Houſe met, purſuant to their Adjournment. 1748. 3d Mo. 16.

Ordered, That *Thomas Leech* and *Joſeph Trotter* wait upon the Preſident and Council, and acquaint them, that the Houſe is met purſuant to its Adjournment, and ready to receive any Thing they may have to lay before it.

Then the Houſe adjourned to Ten o'Clock To-morrow Morning. Adjournment

The Gentlemen appointed to wait on the Preſident and Council with the Meſſage of Yeſternight, report, that they delivered the ſame to the Preſident, who was pleaſed to ſay, the Council would ſend a Meſſage to the Houſe this Afternoon. 3d Mo. 17.

Then the Houſe adjourned to Three o'Clock, *P. M.* Adjournment

The Preſident and Council ſent a written Meſſage to the Houſe, by the Secretary, with ſeveral Papers therein referred to, which were read, and the Meſſage follows in theſe Words, *viz.* *Poſt Meridiem.*

GENTLEMEN,

'SINCE you were pleaſed in your Meſſage, of the 9th of *January* laſt, to expreſs your Approbation, as well of the Preſent then made to the *Indians*, as of the Engagement entered into at the Treaty, of ſending our Interpreter with a larger Supply in the Spring, we have accordingly provided a ſuitable Quantity of *Indian* Goods for that Purpoſe. But obſerving the *Indians* addreſſed themſelves to the *Engliſh* in general, and conſidering that the Burthen of ſo large a Preſent, as would be neceſſary to preſerve their Friendſhip, ought not to be borne by this Government only, we diſpatched Letters to the Governors of *Virginia* and *Maryland*, acquainting them with the late Treaty, repreſenting the Importance of the Friendſhip of thoſe *Indians* to their Governments as well as ours, and entreating them to recommend it to their reſpective Aſſemblies to act in Concert with us on this Occaſion. As the Reſolutions of thoſe Governments cannot be known till the Meeting of their Aſſemblies, when this Affair will be laid before them; and as we have received Advice that the *Six Nations* intend to ſend ſome of their Chiefs early this Summer to tranſact ſome Buſineſs of Conſequence with us, on which Occaſion our Interpreter's Preſence will be abſolutely neceſſary; we have come to a Reſolution to defer ſending him with the Goods to the *Ohio Indians* for the preſent; and have diſpatched a Meſſenger to acquaint them with the Reaſons of this A Meſſage from the Preſident and Council to the Aſſembly.

1748. 3d Mo. 17.

'Delay, and to aſſure them, that our Interpreter will ſet out with the Goods as ſoon 'as the Buſineſs with the *Six Nations* is compleated. The Letters which have paſſed 'between us and the Southern Governments, together with the Inſtructions intended 'to be given to the Interpreter for his Conduct in treating with the *Indians* on his Ar-'rival at *Ohio*, we have ordered our Secretary to lay before you; as alſo an Account of 'the Goods we have purchaſed for the intended Preſent, amounting to about £ 1000, 'which, with the Charges of Carriage, and the neceſſary Expences of the Interpreter 'and his Company you will provide for; ſo that the Merchants may be paid as ſoon 'as poſſible, the Goods having been purchaſed at Ready-money Prices.

'We have long had under Conſideration the miſchievous Practice of ſelling Rum 'among the *Indians*, and have iſſued a Proclamation, drawn in as ſtrong Terms as the 'Nature of the Caſe would admit, to prevent it; but as the Laws provided in thoſe 'Caſes are very defective, we cannot expect the Abuſes and Irregularities committed by 'thoſe who paſs under the Name of *Indian* Traders, will be prevented, until thoſe Laws 'be amended; we therefore earneſtly recommend it to your Houſe to take the State of 'the *Indian* Trade into Conſideration, and to prepare a Bill for limiting the Number of '*Indian* Traders, and the putting them under proper Regulations, ſo that it may be 'paſſed into a Law on the Governor's Arrival.

'Great Inconveniencies having ariſen by the Imprudence of Pilots going on board 'Veſſels at the Capes, before they knew whether they were Friends or Enemies, pro-'per Care has been taken to prevent thoſe of this Government, and the Lower Coun-'ties, from entering on board any Ships or Veſſels, without Licence from the Ma-'giſtrates; and this Board was in hopes the Government of the *Jerſeys* would have laid 'their Pilots under the like Reſtrictions; but ſince that has not been done, we have 'cauſed a Proclamation to iſſue, prohibiting Pilots from going on board any inward 'bound Veſſel, until the Commander, or ſome of the Mariners, have firſt come on 'Shore, and it be known whether ſuch Veſſel belongs to *Britiſh* Subjects.

'This Province, which very lately was in a defenceleſs State, is now, through the 'Zeal and Activity of ſome, who have the Love of their Country ſincerely at Heart, 'rendered capable, with the Bleſſing of God, of defending itſelf againſt the Deſigns of 'our Enemies, many Thouſands of the Inhabitants having voluntarily entered into the 'moſt ſolemn Engagements for that Purpoſe; in conſequence whereof, Arms have been 'provided, and every one appears aſſiduous in qualifying himſelf for the Defence of his 'Country. We ſee with the greateſt Satisfaction ſuch Order and Regularity obſerved 'among them, and ſuch a Progreſs made in ſo ſhort a Time in military Skill, as far ex-'ceeds our Expectations. They have likewiſe, at a conſiderable Expence, erected Bat-'teries on the River, ſo ſituated, and of ſuch Strength and Weight of Metal, as to ren-'der it very dangerous for an Enemy to attempt the bringing any Ships before the City. 'Deſigns ſo commendable, and at the ſame Time ſo neceſſary, could not fail of the Ap-'probation and Encouragement of this Board; we have therefore granted Commiſſions 'to ſuch General and other Officers, as have from Time to Time been preſented to us 'for that Purpoſe by the Aſſociators. Since theſe Meaſures tend ſo manifeſtly, under 'God, for the Security of this Province, the Preſervation of its Metropolis, and the 'Protection of the Aged and Helpleſs from the Calamities which would attend an In-'vaſion, we think they juſtly deſerve the Encouragement and Aſſiſtance of your 'Houſe.

'In *December* laſt the Common Council and Merchants of this City, taking into 'Conſideration the many Loſſes that had been ſuſtained, and the melancholy State to 'which our Trade was like to be reduced, have, in ſeparate Petitions, addreſſed the 'Lords of the Admiralty for a Man of War, at the ſame Time deſiring the Proprie-'taries to give them their utmoſt Aſſiſtance; to which we have not only added Repre-'ſentations and Addreſſes from this Board, but have likewiſe applied to almoſt all the 'Governors and Commanders in *America*, from whom there was any Probability of being 'furniſhed with Cannon or Ships of War. We are very glad to ſay theſe Applications 'have not been altogether unſucceſsful; Gratitude calls upon us to acknowledge the 'Obligations we are under to the Government of *New-York*, for a Supply of battering 'Cannon, and to our worthy Proprietaries, from whoſe Intereſt and earneſt Solicitations 'at the Admiralty Board, we have good Reaſon to expect that a Man of War is ordered 'for the Security of our Trade; hereby the ſinking Spirits of our Merchants and 'Tradeſmen will be revived, the Produce of our Country be exported at leſs Riſk, and 'the Price of it thereby kept up, to the Encouragement of the Farmers.

'The *French* and *Spaniſh* Priſoners now in Town will require ſome Proviſion to be 'made for them during their Stay here, which we ſhall endeavour to make as ſhort as 'poſſible.

May 17, 1748. *ANTHONY PALMER*, Preſident."

The further Conſideration of the Meſſage from the Preſident and Council was adjourned till To-morrow Morning.

A Letter

A Letter from *Conrad Weiser*, Interpreter to the Province, relating to a Complaint made againſt one *James Dunning* by an *Indian*, being laid before the Houſe by the Secretary, with a verbal Meſſage from the Council, recommending the ſame to the Conſideration of the Houſe, was read; and the *Indian* attending, was examined thereupon, and then withdrew; and the Complaint was referred to further Conſideration. 1748. 3d Mo. 17.

Then the Houſe adjourned to Ten o'Clock To-morrow Morning. Adjournment

The Meſſage from the Preſident and Council was again read, and conſidered, and the further Conſideration thereof referred to the Afternoon. 3d Mo. 18.

Then the Houſe adjourned to Three o'Clock, *P. M.* Adjournment

The Houſe proceeded in reading and conſidering the Meſſage from the Preſident and Council. *Poſt Meridiem.*

Ordered, That *Thomas Leech*, *Oſwald Peele*, *John Watſon*, *John Owen* and *James Webb* be a Committee to prepare a Draught of an Anſwer to the ſaid Meſſage.

Then the Houſe adjourned till To-morrow Three o'Clock, *P. M.* Adjournment

The Preſident and Council ſent down, by the Secretary, a written Meſſage to the Houſe, which was read, together with a Paper therein referred to, and the Meſſage follows in theſe Words, *viz.* 3d Mo. 19. *Poſt Meridiem.*

GENTLEMEN,

A Meſſage from the Preſident and Council to the Aſſembly.

"WE have juſt received Advice from *Newcaſtle*, that there is a *French* Privateer upon our Coaſt, mounting fourteen Carriage and ſixteen Swivel Guns, and one Hundred and Seventy-five Men on board, with two other Privateers in Concert; and by the Depoſition, which the Secretary will lay before you, it appears that on *Sunday* Morning laſt they had taken a Schooner bound from this Port to *Bermuda*, on board of which they had put Part of their Men, with Arms, and Orders to proceed to the Capes of *Delaware*, where the Schooner arrived, and on *Monday* Evening took in our Bay a Brigantine with a very valuable Cargo on board, bound to this Port. One of theſe Privateers is the ſame that came into our Bay laſt Summer, and there took ſeveral inward and outward bound Ships, of very great Value. The Apprehenſions of this Board, that the Succeſs our Enemies then met with, without Oppoſition, would be an Encouragement to further Attempts, appear by the preſent Event, to be well founded; and if ſome ſpeedy and effectual Meaſures for putting a Stop to theſe Depredations are not ſoon taken, there will be juſt Reaſon to fear worſe Conſequences: Private Subſcriptions, if they could be procured, would be inſufficient for the Preſervation of the Trade of this Province, and are an unreaſonable, as well as a grievous Burthen, on a Few, in a Caſe where All are concerned; it is from your Houſe only that the Merchants and Traders expect Protection; and if that be now refuſed, or proper Meaſures neglected to diſperſe the Enemy, our Port muſt continue blocked up; our inward bound Veſſels inevitably loſt, and a total Stagnation of Trade muſt follow, which will certainly bring Poverty and Ruin upon many of our Inhabitants: We therefore moſt earneſtly recommend it to you, as you have the ſole Diſpoſal of the Public Money, that you would employ ſome Part of it for the Service of the Public in the Protection of their Trade.

May 19, 1748 *ANTHONY PALMER*, Preſident."

The further Conſideration of the Meſſage was adjourned till To-morrow.

Then the Houſe adjourned to Ten o'Clock To-morrow Morning. Adjournment

The Gentlemen appointed to prepare a Draught of an Anſwer to the former Meſſage from the Preſident and Council, reported the ſame to the Houſe, and it was read, and conſidered, and the further Conſideration thereof referred to the Afternoon. 3d Mo. 20.

Reſolved, That an Order on the Treaſurer iſſue, under the Hand of the Speaker, for paying in Goods the Value of *Fifteen Pounds* to the *Indian*, towards a Compenſation for the Loſs he complains of.

Then the Houſe adjourned to Three o'Clock, *P. M.* Adjournment

The Houſe reſumed the Conſideration of the Meſſage to the Preſident and Council, and after Debate thereupon, and ſome Amendments, it was ordered to be tranſcribed, that it may be ſent up to the Preſident and Council. *Poſt Meridiem.*

The ſecond written Meſſage from the Preſident and Council was again read;

Ordered, That *Joſeph Trotter*, *James Morris*, *Abraham Chapman*, *Samuel Levis* and *Peter Worrall* be a Committee to prepare a Draught of an Anſwer to the ſame, and report it to the Houſe.

Then the Houſe adjourned to Ten o'Clock To-morrow Morning. Adjournment

The Meſſage to the Preſident and Council being tranſcribed, was read, and follows in theſe Words, *viz.* 3d Mo. 21.

May it pleaſe the PRESIDENT *and* COUNCIL,

The Aſſembly's Anſwer to the Meſſage of the Preſident and Council.

"BY our Meſſage, to which you are pleaſed to refer in your's of the 17th Inſtant, we expreſſed our Approbation as well of the Preſent then made to the *Indians*, as of

1748. 3d Mo. 21. of the Engagement you had entered into at the Treaty, of ſending our Interpreter with a larger Supply in the Spring. And to enable you to diſcharge theſe Engagements, we cauſed an Order to be drawn at our laſt Sitting on the Treaſurer, for the Payment of *Five Hundred Pounds*, which, with what was remaining of the Money formerly given for the like Purpoſes, we thought, and yet think, might be ſufficient for our Part of the Preſent to be made to the *Indians* at this Time; eſpecially ſince, as you very juſtly obſerve, "the Burthen ought not to be borne by this Government only." From the Letters you are pleaſed to direct to be laid before us, we further obſerve, that the Governors of *Virginia* and *Maryland* ſhew a Willingneſs to promote the giving of additional Preſents on Behalf of their Governments; and if our Proprietaries, whoſe Intereſts are very nearly concerned, and will be much augmented, by cultivating a good Underſtanding with theſe *Indians* on our Borders, would alſo be pleaſed, as formerly they have done, to join their Preſents with ours (which we are humbly of Opinion they ought to do) the Whole would make a very handſome Preſent, and all that we think is neceſſary, without any further Proviſion than what is already made. However, as we know the Time is critical, we are willing to do all we judge reaſonable on this Occaſion; and ſhall therefore make the neceſſary Proviſion to pay for the Goods, which, by the Accounts exhibited to us, appear to be already purchaſed, together with the uſual Charges allowed for tranſporting them.

We agree in Sentiments with you, that the Practice of ſelling Rum among the *Indians* is miſchievous; and therefore think it was prudently done to iſſue the Proclamation you are pleaſed to mention, to prevent, as much as might be, the like ill Practices for the future. This Miſchief, we conceive, is occaſioned rather by the Difficulty of putting the Laws already made in Execution, than any Defect in thoſe Laws; however, we ſhall at a proper Time reſume the Conſideration of theſe Laws, and ſhall chearfully conſent to any Amendments which ſhall appear to us reaſonable or neceſſary.

The Care you have been pleaſed to take for preventing the Inconveniencies which may ariſe by the Imprudence of Pilots, was well judged. On the Arrival of our Governor, we think it will be neceſſary to provide Acts of Aſſembly both here, and in the three Lower Counties, for this Purpoſe: And the Example, we doubt not, will be followed by the Government of *New-Jerſey*; the not having any Laws reſpecting Pilots amongſt us, being, as we are informed, the only Reaſon which prevented an Act for like Purpoſes from paſſing among them.

As to that Part of your Meſſage which reſpects the Aſſociation lately entered into, and the Preparations made for the Defence of the Province, it is difficult for us to expreſs our Sentiments; the moſt of us, as well as many others within this Province, you know, have profeſſed ourſelves principled againſt the bearing of Arms; and yet, as we enjoy the Liberties of our own Conſciences, we think it becomes us to leave others in the free Exerciſe of theirs. The Aſſiſtance you have thought fit to give the Aſſociators, we make no doubt aroſe from a Senſe of what you believed your Duty. And the Zeal and Activity many of them have ſhewn on the Occaſion, we ſuppoſe may have ariſen from the Love they bear to the Country. And as we are willing to make charitable Conſtructions on their Conduct, we hope the like charitable Sentiments will prevail with them concerning us, and others like principled, when we have repeatedly declared we cannot in Conſcience join with any Preparations of this Kind.

As we have the Honour of repreſenting the whole Province, in which, we know, there are Numbers of People, whoſe Judgments in the Point we have mentioned, do not exactly correſpond with ours, we think it no Inconſiſtency, notwithſtanding any Thing we have ſaid, to add, that we acknowledge, with Gratitude, the Regard the Lords of the Admiralty are pleaſed to ſhew for protecting the Trade of the Province: And alſo the Kindneſs ſhewn by our Proprietaries in ſoliciting for it. Nor have we leſs grateful Sentiments of the Kindneſs of our neighbouring Government of *New-York*, as we believe their Intentions were good, and it may have quieted the Minds of divers of our Inhabitants; though it is a Favour we could not have aſked, being intended for ſuch a Mode of Defence, in which we do not place our Confidence.

The *French* and *Spaniſh* Priſoners, you are pleaſed to mention, are, as we are informed, imported by a Veſſel not belonging to this Port; and it is not clear to us, that Owners of Ships, belonging to any other Port, have Right to bring Priſoners hither to become a Charge upon us; and, if allowed in this Inſtance, may encourage Multitudes of others: However, whilſt they are amongſt us, we think they ought to be provided for, and treated with Humanity; whether at the Expence of the Province in the whole, or in any, and what Part, may hereafter be conſidered: In either Caſe, we approve of your Reſolutions to make their Stay amongſt us as ſhort as poſſible: And we hope you will think it reaſonable, that the Priſoners may, in the mean Time, be confined at leaſt by Night, to prevent their doing any Injuries to the Inhabitants of this City.

We have likewiſe conſidered the Complaint you were pleaſed to recommend to us, made by an *Indian*, of the Theft committed on him, in taking Horſes and Peltry from him; and

we

we have made such Enquiry as hitherto hath been in our Power: But having heard only one Side, it is not fit we should come to any determinate Resolutions therein. We are, however, sensible of the Dangers which may arise from Complaints of this Kind, where due Care is not taken; and therefore, as a Court of Oyer and Terminer is, as we are informed, likely to be held in *Lancaster* in a little Time, we intreat the President and Council it may be recommended to the Care of the Judges of that Court, to make the necessary Enquiry; and, if they find Cause, to direct a Prosecution against the Offender, and, if he shall be duly convicted, to take Care that he suffer as the Law directs, and be obliged to make Restitution to the Party aggrieved. In the mean time we have thought it necessary to make the *Indian* a Present, because, as they have little Knowledge of our Laws, and the Time requisite for convicting Offenders, he might otherwise think the Delay an Intention of depriving him of his Right, and be thereby excited to disturb the Peace of the Government, if not to do some greater Injury."

1748. 3d Mo. 21.

And the Message being signed by the Speaker, by Order of the House;

Ordered, That *James Morris* and *Joseph Trotter* wait upon the President and Council, and deliver the same.

The Gentlemen return and report, that they delivered the same according to Order.

The Committee appointed to prepare a Draught of an Answer to the second written Message from the President and Council, reported the same to the House, and it was read, and approved of, and ordered to be transcribed, that it may be sent up to the President and Council.

Which being done, the same was again read, and follows in these Words, *viz.*

May it please the PRESIDENT *and* COUNCIL,

The Assembly's Answer to the President and Council's Message.

WE have so often declared our Sentiments on like Occasions as the subject Matter contained in your last Message, you cannot possibly be unacquainted with them; and therefore we think it can be of no Use to repeat them here. Besides, we do not see what in Prudence or Policy could be done on the present Emergency. To send a Vessel in Pursuit of the Privateer supposed to be at the Capes, the Distance is so great, a late Example may convince us, the Privateer might, and, very probably, would be out of Reach, before any Vessel could get thither. And to keep a Vessel constantly at our Capes to guard the Coast, must be introductive of an Expence too heavy, as we conceive, for the Province to bear. We may add to this, that to put so great a Burden on the Inhabitants at this Time, would, we think, be inexcusable, when, from the Message you were lately pleased to send us, as well as by other Accounts, there is great Reason daily to expect a Ship of War, to be stationed on our Coast, for the Protection of the Trade of the Province."

And the Message being signed by the Speaker, by Order of the House;

Ordered, That *John Hall* and *John Owen* carry up the same to the President and Council, and withal acquaint them, that the House inclines to adjourn this Day to the 22d of the next Sixth Month.

An Order was drawn on the Treasurer, and signed by the Speaker, by Order of the House, for the Payment of Twenty-three Pounds Seven Shillings and Three-pence to *Joseph Turner*, in Discharge of his Account for Provisions and Shoes, furnished to some *Spanish* Prisoners, sent away in a Flag of Truce the last Fall.

The Gentlemen return and report, that they had delivered the Message of the House to the President and Council according to Order, and that no Objection was made to the proposed Time of Adjournment.

A verbal Message from the President and Council, by the Secretary, *viz.*

Mr. *Speaker*,

'As the House has informed the Board that they incline to adjourn till the 22d of '*August*, the Council are unwilling to press their Stay longer at this Time; but if the 'Ship of War should not arrive so soon as is expected, and our Port continues to be 'blocked up, they shall be under a Necessity of calling you together before the Time to 'which you propose to adjourn."

Then the House adjourned to the 22d of the next Sixth Month. Adjournment

THE President and Council having, by their Writs directed to the Sheriffs of the respective Counties, ordered the Assembly to be summoned to meet this Day; a Quorum met accordingly. 4th Mo. 8.

1748. *4th Mo.* 9. The President and Council sent down a Message in Writing by the Secretary, with several Papers therein referred to, and one of the Writs by which the House was summoned; which were read, and the Message follows in these Words, *viz.*

GENTLEMEN,

A Message from the President and Council to the Assembly.

'THE Reason for calling you together so soon after your Adjournment, will appear from the Depositions and Papers herewith laid before you; and though you have hitherto refused to grant Money for the Protection of the People, or the Trade of this Province; yet, as we think it our Duty, you must excuse us, if, in this Time of general Calamity, we again press you on that disagreeable Subject, in Hopes that the miserable Circumstances to which we are now reduced, may at length prevail with you to provide a proper Remedy.

'At the Time of your last Sitting our Port was actually blocked up by the Enemy's Privateers; they have since grown more numerous, and have taken almost all our inward-bound Vessels, using our Countrymen with great Barbarity. One of them, a large *Spanish* Privateer, with One Hundred and Sixty Men on board, came up the River as high as *Elsenburg*, where she came to an Anchor, without being discovered to be an Enemy, and intended next Morning to take a Ship then laying before *Newcastle*, and burn the Town; which they had certainly effected, had not an *Englishman* swam on Shore in the Night, and alarmed the Inhabitants. 'Tis true most of the Privateers are now thought to be gone off with their Prizes; but it is reasonable to suppose they will soon return for more; or that others, encouraged by the Fame of their Success, will supply their Places.

'During the Enemy's Stay in the River they took a great Number of small Craft, and thereby gained exact Intelligence of what passed among us; and it is not unlikely but that, among other Things, they had learnt the Resolutions of your House, and had a Dependance that no Vessel of War would be fitted out against them by this Government; otherwise they might have expected their Insolence and Cruelty would not have gone unpunished; it being an unusual Thing for *Englishmen* to bear tamely, and without Resistance, the Insults of so despicable an Enemy, Crews of Negroes, Mulattoes, and the very Dregs of Mankind.

'Soon after your Adjournment his Majesty's Sloop the *Otter*, under the Command of Capt. *Ballet*, arrived here; but not being in a Condition to proceed immediately on a Cruize, and being besides a Vessel of small Force, insufficient, without an Assistant, to attack such a Number of Enemies, we have hitherto reaped no Advantage from her Arrival: She is now careen'd, and we hope will be soon fit for Service; to which End the Captain assures us nothing in his Power shall be wanting. And we have dispatched an Express to *Virginia*, in order to procure (if possible) the *Hector* Man of War to join her; but as the obtaining this Assistance, and its Continuance, if obtained, are, on many Accounts, uncertain, we have thought it absolutely necessary that a Ship of War should be fitted out by this Province, to be joined with the *Otter* for the Protection of our Trade, the Consideration whereof we now earnestly recommend to your House, and that you would accordingly furnish a sufficient Sum of Money, which we assure you shall be applied faithfully to that Purpose, and with the utmost Frugality. You will herewith receive an Estimate of what we judge the Charge will amount to by the Month, which we shall endeavour to lessen as much as possible.

'We find, that it has been the Opinion of your House, that the keeping a Vessel constantly at our Capes to guard the Coast, will be introductive of an Expence too heavy for the Province to bear, and be too great a Burthen on the Inhabitants. But if our Port continues blocked up; if not only our inward-bound Vessels must be taken, but those in Port dare not venture out, whereby the perishable Commodities with which they are laden spoil in the Hands of the Merchants; if those Colonies that used to take off great Part of our Produce, are discouraged from sending their Vessels hither, and endeavour to be furnished, as they may be, with the same Commodities, at a safer Port; if, by these Means, our Trade diminishes, being turned into another Channel, our Produce sinks in Value, and every necessary Commodity from abroad is enhanced in Price; if, thro' the Decay of Business, our Merchants fail, our Tradesmen want Employment, our Farmers are reduced to Poverty, our Inhabitants remove, and our Lands and Houses fall far below their present Worth, all natural Consequences of an obstructed Navigation; we beg you would consider whether these will not prove Burdens vastly heavier, and to which that of keeping a Vessel to protect our Trade bears no Proportion; we having good Grounds to assure you, that the Loss sustained within one Week only, amounts to a much larger Sum than would be necessary to be expended in guarding our Coast for several Years. We shall only add, that if there should not be Money enough at present in the Treasury, a sufficient Sum might readily be raised, by way of Loan, on the Credit of a Vote of your House.

June 9, 1748. *ANTHONY PALMER*, President."

The Committee appointed to prepare a Draught of an Answer to the Message of the President and Council, reported the same to the House, and it was read, and considered, and ordered to be transcribed, that it may be sent up to the Council. *4th Mo.* 11.

Then the House adjourned to Two o'Clock, *P. M.* Adjournment

The Message to the President and Council being transcribed, was again read, and follows in these Words, *viz.* *Post Meridiem.*

May it please the PRESIDENT *and* COUNCIL,

THAT we have refused to grant Money in the Manner you have sometimes thought proper to apply for it, is very true; and yet we think the Charge you are pleased to make against us, in your last Message, "of our having hitherto refused to grant Money "for the Protection of the People, and the Trade of this Province," is too generally expressed. That Government ought to be honourably supported, and that we ought to contribute towards it proportionably to our Circumstances, have been both our Sentiments and Practice. And, "the Protection of the People, and the Trade of the Pro-"vince," we look upon as principal Parts of the Duty of those by whom this Support is received. And wherever those in whose Hands the executive Powers of Government have been, or now are, in Discharge of what they conceive to be their Duty, are, or shall, on any Emergency, be put to an Expence for the Good of the Province, which the Assemblies have or hereafter shall judge reasonable, as we remember no Instance past, so we believe not any such will hereafter happen, wherein a suitable Provision will not be made in the Support of Government. The Assembly's Answer to the President and Council's Message.

We would not from hence be understood, to encourage your putting the Province to any extraordinary Expence at this Time, and particularly in hiring and fitting out a Ship of War, which we think unnecessary; and which, from the Estimate you were pleased to send us, amounts to near 1000*l.* per Month, besides the Risk and Repairs of the Vessel; a Burden, we now think, as formerly we have thought, too heavy for the Province to bear.

The Answer you are pleased to give to this Objection, consists only in pointing out the Consequences you are pleased to suppose may attend the blocking up our Ports, *&c.* But in the Judgment you form on this Occasion, you seem to consider the Province independent, as neither intitled to, nor having Reason to expect, any other Protection or Defence, but such as it is able to provide for itself. If this were really the Case, the Dangers you apprehend might be better grounded; it being evident that were the whole Province to exert themselves to the utmost of their Abilities, it would not be sufficient to protect them against such a Force as might possibly come against them.

The late Attempts appear, by the Depositions you were pleased to lay before us, to have been made by three Privateers, who did not come altogether: And if an additional Ship of War was necessary in that Case, is it not possible that double the Number of Privateers may come? And will not, by the same Reasoning, a double Number of Ships of War be necessary? Is the Province able to bear such an Expence? Or is it reasonable to suppose, that when by Favour of the Crown one Vessel is stationed amongst us, and the Assistance of another enjoined, if it shall become necessary, that it was not intended to relieve the Province from a Burden it was judged unfit to bear? Can it be prudent to strain our Circumstances, and load the Province with so heavy an Expence, after the Provision thus made for us? And might not the making such further Provision deprive the Province of the Vessel, which, by the Lenity of the Government, is already provided for guarding our Coasts, and protecting our Trade, free from any Expence to us?

In Times of War, it is not to be expected but that Losses will happen; the Channel of *England*, we suppose, hath been as well guarded of late as ever, and yet, as we are informed, not less than five out of six Vessels, which sailed from this Port within the Space of about fifteen Months last past, have been taken, and but one of them on our Coast. The Estimate you have been pleased to make of the Losses which lately happened, is, in our Opinion, much too large. Two of those Vessels (one of which was the most valuable of those lately taken) were taken at Distance from our Capes; and this might have been the Case, if a Ship of War had been cruizing there.

On the Whole, as you are pleased to inform us that most of the Privateers (we suppose all)

1748. 4th Mo. 11. all) are gone off; that the Ship of War in our Port will ſoon be fit for Service, and that you have diſpatched an Expreſs to *Virginia*, in order to procure the *Hector* Man of War to join her; if the Commander of that Ship be, as we are told he is, inſtructed to aſſiſt the *Otter* when it is neceſſary, there is no Reaſon to doubt but he will comply with his Inſtructions; and this, on the preſent Occaſion, is all that appears to us neceſſary: And we muſt therefore deſire to be excuſed, when we declare, that we cannot concur in Opinion with you, that it is at this Time neceſſary a Ship of War ſhould be fitted out by this Province."

And the Meſſage being ſigned by the Speaker, by Order of the Houſe;

Ordered, That *Samuel Levis* and *Francis Yarnal* carry the ſame up to the Preſident and Council, and acquaint them, that the Houſe is inclined to adjourn this Day to the 22d of the next Sixth Month.

The Houſe being informed that Capt. *Ballet*, with the King's Sloop the *Otter*, which, by an Order from the Lords of the Admiralty, was ſtationed here to guard the Trade of the Province, is about to ſail, and it being moved, That as a Token of the Loyalty and Gratitude of the Inhabitants of this Province for the Favour ſhewn on this Occaſion, a ſmall Preſent may be made the Captain, for ſupplying him with Sea-ſtores and other Refreſhments; it was thereupon

Reſolved, That the Sum of *One Hundred Pounds* be paid by the Treaſurer to Capt. *Ballet* for the Purpoſes aforeſaid; and an Order was drawn accordingly, and ſigned by the Speaker, by Order of the Houſe.

The Gentlemen return and report, that they delivered the Meſſage to the Preſident, who was pleaſed to ſay, that he had no Objection to the propoſed Time of Adjournment; but as the Council were not yet met, he requeſted the Houſe would ſtay Half an Hour.

The Houſe being informed that the Council were now met, ordered the ſame Members to wait on the Preſident and Council, and acquaint them, that the Houſe have gone through the Buſineſs that lay before them, and are inclinable to adjourn.

The Gentlemen return and report, that they waited on the Preſident and Council, and delivered the Meſſage of the Houſe according to Order; and that ſome of the Council were pleaſed to ſay, they were reading the written Meſſage, and would ſend it to the Houſe as ſoon as poſſible.

The Houſe having waited ſome Time,

Ordered, That *James Morris* and *Joſeph Trotter* wait on the Preſident and Council, and acquaint them, that if they have nothing to lay before the Houſe, the Houſe is determined to adjourn.

Who returning, report, that they delivered the Meſſage according to Order; and that the Secretary is attending with a Meſſage from the Council.

And the Secretary being called in, ſaid,

Mr. *Speaker*,

" The Preſident and Council command me to tell the Houſe, that after what they " have ſaid, they think it will be to no Purpoſe to ſay any Thing further to the Houſe."

Adjournment. Then the Houſe adjourned to the 22d of the next Sixth Month.

6th Mo. 22. THE Houſe met, purſuant to their Adjournment.

Ordered, That *Thomas Leech* and *Edward Warner* wait upon the Preſident and Council, and acquaint them, that a Quorum of the Houſe is met, purſuant to their Adjournment; and that, if the Preſident and Council have any Thing to lay before them, they are ready to receive it.

Adjournment. Then the Houſe adjourned to Ten o'Clock To-morrow Morning.

6th Mo. 23. The Gentlemen appointed to wait on the Preſident and Council with the Meſſage of Yeſternight, report, that they delivered the ſame to the Preſident according to Order; who was pleaſed to ſay, the Council would have ſomething to lay before the Houſe To-morrow Morning.

A Petition from *Thomas Græme* and *William Till*, Eſquires, two of the Judges of the Supreme Court, ſetting forth, that the Buſineſs of the ſaid Court is from Year to Year conſiderably increaſed, ſo as to take up much more of their Time and Attention than heretofore; and requeſting therefore an Addition to their Salaries uſually allowed them; was preſented to the Houſe, and read; and ordered to lie on the Table.

Ordered, That *Oſwald Peele*, *Joſeph Trotter*, *Cephas Child*, *Peter Dicks*, *John Davis* and *Arthur Patterſon*, be a Committee to examine and ſettle the Accounts of the incidental Charges for the current Year.

The Petitions from the Innkeepers of *Cheſter* and *Derby*, praying farther Allowance on account of their billeting Soldiers, *&c.* were again read, and referred to *Iſaac Norris*, *Joſeph Trotter*, *Thomas Leech* and *Peter Dicks*, who are to examine the Allegations of the ſaid Petitions, and report their Opinion what may be proper for the Houſe to do therein.

The Petition of *Alexander Gandouit*, Practitioner in Phyſick, praying a farther Allowance on Account of his Attendance on, and Medicines adminiſtred to, ſundry ſick Soldiers, was alſo read, and referred to the ſame Committee.

An

An Account of *Thomas James* for dieting *French* Prisoners, amounting to *Thirty-seven Pounds Six Shillings*, was laid before the House, and read; and referred to the same Committee. 1748. 6th Mo. 23.

An Account from *Hugh Roberts*, for Pipes, Tobacco and Sugar, delivered for the *Indians* at several Treaties, amounting to *Two Pounds Nineteen Shillings* and *Ten-pence*, was laid before the House, and read; and referred to the same Committee.

Then the House adjourned to Ten o'Clock To-morrow Morning. Adjournment

The President and Council sent down a written Message to the House by the Secretary, with several Papers therein referred to, which was read, and follows in these Words, *viz.* 6th Mo. 24.

GENTLEMEN,

'IN Pursuance of his Majesty's Commands, signified to us by his Grace the Duke of *Bedford*, we have caused his Majesty's Proclamation for a Cessation of Arms to be published here, which, by the Advices we have received, we expect will soon be followed by a general Peace. A Message from the President and Council to the Assembly.

'Since your last Sitting we have again taken into Consideration the mischievous Practice of carrying Rum among the *Indians*, and have not only issued a Proclamation for preventing it, but have ordered the Magistrates of *Lancaster* County to recommend it to the Grand Jury, that the Delinquents may be prosecuted; whereupon Bills of Indictment have been found against a great Number of them, which, we hope, will be some Check to this growing Evil, though we cannot expect a total Stop will be put to it, until the Laws provided against selling Rum to the *Indians*, be amended.

'The latter End of *June* last we received a Letter from his Excellency Governor *Shirley*, acquainting us, that an Interview with the *Indians* of the *Six Nations* was appointed to be held at *Albany*, on the 10th of *July*, desiring that Commissioners might be sent from this Government to be present at it, to consult and join with the other Commissioners there; but taking into Consideration your Sentiments delivered to us in a Matter of the like Kind, and observing the Notice being so short, that it would scarcely afford Time sufficient for consulting with you on this Affair, and for appointing Commissioners with proper Instructions, we declined calling you together on this Occasion.

'The Information we received from the *Cayugas* had the Appearance of a Matter of the greatest Importance to the Safety of the People of this and the neighbouring Governments; we therefore immediately dispatched an Express with it to his Excellency the Governor of *New-York*, whose Answer, together with the Information we received, will be delivered you by our Secretary.

'In Consequence of the Letters, which in our Message we acquainted you we had wrote to the Governors of *Virginia* and *Maryland*, the former has sent a Present for the *Indians* at *Ohio*, to be delivered them by Mr. *Weiser*, with the Presents from this Government.

'We have the Satisfaction to acquaint you, that the *Twigtwees*, a considerable Nation of *Indians*, living on the River *Owebache*, a Branch of *Ohio*, hitherto in the *French* Interest, being desirous of entering into Friendship with the *English*, communicated their Intentions to the *Indians* of the *Six Nations* at *Allegany*, who conducted their Deputies to *Lancaster*, where a firm Treaty of Friendship and Alliance has been established between us. This must necessarily strengthen the *English* Interest in general among the *Indians*, contribute greatly to the Security of our Inhabitants in Time of War, and tend considerably to the enlarging our *Indian* Trade, especially as we are assured by the *Twigtwee* Deputies, that not less than twelve Towns in their Neighbourhood are equally desirous with them to become our Allies, and settle a Correspondence with us; and that they only waited to know the Success of their Negotiations, when they would make the like Application. Should this be effected, besides the Advantages already mentioned, the Intercourse between the *French* at *Canada* and the *Mississippi*, would be greatly interrupted, the nearest and most convenient Passage being through those Towns. For other Matters of less Moment transacted at that Treaty, we shall refer you to the Treaty itself. You will be pleased to order Payment of the Expences accrued on this and other necessary Occasions, an Account whereof will be delivered to you.

August 24, 1748. *ANTHONY PALMER*, President."

Some of the Papers accompanying the Message were also read, and the Rest referred to the Afternoon.

The Aſſembly's Anſwer to the Preſident and Council's Meſſage.

May it pleaſe the PRESIDENT and COUNCIL,

THE Information you are pleaſed to give us in your Meſſage of the 24th paſt, that "In Purſuance of His Majeſty's Commands, you had cauſed His Majeſty's Pro-"clamation for a Ceſſation of Arms to be publiſhed here," affords us great Satisfaction,

and

and the greater from the Prospect there is, that it will "soon be followed by a general Peace." The Calamities attending War are so many, and so great, that every well-disposed Mind will be humbly thankful to Almighty God, for inclining the Hearts of the contending Monarchs towards Peace: And every dutiful Subject ought to acknowledge the paternal Regard of our King, which appears in the great Care and Solicitude he hath been pleased to shew for the Accomplishment of so salutary a Work. 1748. 7th Mo. 1.

The Care you have taken to prevent the carrying of Rum amongst the *Indians*, and to remove the Misunderstandings you judge likely to have arisen between the Government of *New-York* and the *Six Nations*; and also the Measures pursued for extending our Alliances, and promoting Peace amongst the *Indians* by the Treaties carried on within our own Government, and your not calling us together at a Time when it could have been of little public Use, we very much approve.

The Particulars of the Treaty you have been pleased to lay before us, and the Charge which hath arisen by this Means, will in due Time come under our Notice, and such Provision made in it as the House on Consideration shall judge reasonable."

And the Message being signed by the Speaker, by Order of the House;

Ordered, That *John Hall* and *George Ashbridge* carry up the same to the President and Council, and acquaint them, that another Message is under Consideration of the House, which they expect will be ready to send up in the Afternoon.

A Petition from *James Sterret*, Sheriff of *Lancaster* County, praying Payment of an Account for his Trouble and Expences in bringing a Prisoner from *Lancaster* Goal to the Goal of *Philadelphia*, by Order of the Judges of the Supreme Court, was presented to the House, and read. *Ordered to lie on the Table.*

The second Message to the President and Council was again read, and considered, and ordered to be transcribed, that it may be sent up to the Council.

Then the House adjourned to Three o'Clock, *P. M.* Adjournment *Post Meridiem*

The Gentlemen appointed to deliver the Message of the House of this Morning to the President and Council, report, that the Council not being sitting, they delivered it to one of the Members.

The Message of the House, in Answer to the Resolves of the President and Council, being transcribed, was again read, and follows in these Words, *viz.*

May it please the PRESIDENT *and* COUNCIL,

The Assembly's Answer to the President and Council's Resolves.

AS it hath been our constant Care, during the whole Time of your Administration, to avoid giving just Cause for any Misunderstandings between you and the Assembly, and have for this Reason overlooked Things which otherwise we might have excepted against; so we should have been very well pleased if nothing had happened on your Part which had a contrary Tendency, such as might make it necessary to shew our Disapprobation of any Parts of your Proceedings. But the Resolves of your Board, which bear Date the 14th of *June* last, published in the *Gazette* of the 16th of the same Month, as we presume by your Order, are so very extraordinary, as that without Breach of the Trust reposed in us by our Country, we cannot forbear to speak our Sentiments of them, in the Manner which we think becomes the Representatives of the Freemen of the Province of *Pennsylvania*.

In the first Place therefore permit us to observe, we know but of one Instance in which any such Attempt was ever before made, *to wit*, in the Year 1741; and the Resolution of the Assembly at that Time upon it was, *That for the Governor and Council to draw in Question, arraign and censure the Proceedings of the Representatives of the Freemen of the Province in Assembly met, after the Adjournment of such Assembly, is assuming to themselves a Power the Law hath not entrusted them with, is illegal and unwarrantable, a high Breach of their Privileges, and of dangerous Example.* On that Occasion, the Governor allowed the propereſt Time to have taken Notice of the Proceedings in Assembly was whilst they were sitting; but excused his not doing it, as not knowing what they had done until after their Adjournment; and if this is reasonably to be expected from a Governor, who is at the Head of the Legislature within the Province, it is more reasonable to expect it from the President and Council, who by our Constitution are no Part of the Legislature, nor are intrusted with any Share in the making of Laws. In the present Case, the President and Council can have no such Pretence as was made at the Time we have mentioned. The Message which occasioned the Resolves of your Board, was delivered before we adjourned; and if you had thought any Remarks necessary to have been made, it was in your Power to have desired our Stay until it could be done; but you were so far from desiring this, that, after the House had waited more than an Hour, you at length let them know, after what was contained in their Message, you did not think it would be of any Service to say any Thing further to them.

How, after this and divers Days Adjournment, the Board happened to resume the Consideration of our Message, and form such Resolves, introduced by publishing to the World, that the House adjourned, *before the Board had an Opportunity of reading, consi-*

dering

1748. 7th Mo. 1. *ſidering and replying to the written Meſſage*, will require ſome Skill to account for. It appears to us rather as an After-thought, and calculated to Purpoſes of no Benefit to the Public, as well as expreſſed in Terms far from being decent to the Repreſentative Body of a Province. Having premiſed thus much in general, permit us next to take Notice of ſuch particular Parts of the Reſolves, as we ſhall think neceſſary, in order to acquit ourſelves from the Aſperſions we think unjuſtly thrown upon us. And what we ſhall ſay to this Purpoſe, we deſire may be underſtood as intended to ſuch of the Council whoſe Names are annexed to theſe Reſolves; for we are willing to think, that had there been a full Council, they would not have paſſed in the Manner they are publiſhed.

By the firſt Reſolve the Preſident and Council are pleaſed to ſay, *That it was never underſtood in this Province, that the Salaries voted to Governors* for their Support, *were intended to be laid out in protecting and defending the People and Trade of the Province*, &c.

You may be pleaſed to obſerve, that in this Part of the Reſolve you have changed the Word (Government) which is uſed in our Meſſage to the Word (Governor) which alters the State of the Queſtion between us very much; for though Money given to ſupport *Government*, and Money given to ſupport a Governor, differ but as the Whole does from a Part, it muſt be allowed the former is a much more extenſive Donation than the latter. And yet where Money is given for the Support of the Governor, it muſt, as we conceive, be underſtood, as given the better to enable him to diſcharge the Truſt repoſed in him; and if any Emergency ſhould require his laying out a Part of this Money for the public Good, any Government might juſtly think themſelves unkindly uſed if it were denied them, eſpecially where there was no Doubt of being repaid with Advantage. You are pleaſed to add, *You receive no ſuch Salaries*. And to this we as readily anſwer, neither do, nor did we expect you would advance any Money. We might however have juſtly expected you did know that the preſent Aſſembly had no Right to bind thoſe who were to ſucceed them; and therefore their *Belief* of what future Aſſemblies would do, was all that could be reaſonably expected from the preſent.

Part of your ſecond Reſolve is, *That there is no Probability that others will be induced to advance Money on ſo* uncertain, obſcure and evaſive a Declaration, *as is contained in the laſt Meſſage of Aſſembly; their being repaid again depending on the Good-will and Pleaſure of the Houſe, to be obtained by* humble petitioning, *and by* ſubmiſſive *perſonal Applications to the Members*, &c. The Language you have here been pleaſed to make Choice of is ſuch, as neither for Delicacy nor Decency will, we hope, be drawn into Example on any future Debate; but waving this, as what can reflect no Diſhonour upon us, be pleaſed to recollect, That by your Meſſage of the 9th of *June* laſt, after having acquainted us the Sloop *Otter* would ſoon be fit for Service; that you had diſpatched an Expreſs to *Virginia* to procure the Aſſiſtance of the *Hector* Man of War to join the *Otter*; you let us know, you *thought it abſolutely neceſſary that a Ship of War ſhould be fitted out by this Province, to join with the* Otter *for the Protection of our Trade*. To this, by our Meſſage two Days after, we anſwered in Subſtance, That the hiring and fitting out ſuch a Ship of War we thought unneceſſary; that from your own Eſtimate the Charge would be near 1000 £. per Month, beſides the Riſk and Repairs of the Veſſel, a Burthen we thought to heavy for the Province to bear. That if the Commander of the *Hector* Man of War had, as we were informed, been inſtructed to aſſiſt the *Otter*, there was no Reaſon to doubt he would comply with his Inſtructions, and that this was all we thought neceſſary on the Occaſion. Is not this a direct Anſwer to your Meſſage, without any Obſcurity, Uncertainty or Evaſion? Had we not at leaſt as equal a Right to judge of what was fit to be done, as your Board? And has not the Event ſhewn the Judgment we formed was right, and ſaved the Province divers *Thouſand Pounds?* But what renders the Proceedings of the Board yet more remarkable, is, that notwithſtanding the great Obſcurity in the Meſſage you complain of, and that it is ſuch as neither you, nor any other, would advance Money on; yet by Virtue of this Meſſage (for without you had no Pretence) in a few Days after you thought fit to draw an Order on the active Truſtee of the Loan-Office, for a Sum of Money payable to your Secretary, which he accordingly received. How to reconcile theſe Parts of your Conduct we are at a Loſs.

When thoſe whoſe Duty it is to protect Men in the Enjoyment of their Religious and Civil Liberties, become their Accuſers, and cenſure at random, it is hard to be borne. The People called *Quakers*, think this their Caſe, when they find themſelves publicly charged in your Reſolves with Principles they do not hold, viz. *That it is their known Opinion, that all warlike Preparations are ſo far from being advantageous to the Public, that they have a direct contrary Tendency.* It is not our Buſineſs, nor are we on this Occaſion inclinable to enter into religious Diſputes; but had you been pleaſed to recollect what has been frequently ſaid on this Subject by former Aſſemblies in their late Meſſages to the Governor, you muſt have been convinced of your Miſtake; and it is the leſs excuſable, as you were at the Time Members of Council. To aſperſe Men in any Manner, is doing them an Injury; and to make your Reſolves the Inſtruments of ſpreading ſuch an Aſperſion againſt a conſiderable Body of People, is a very great Aggravation of the Injury.

The

1748. 7th Mo. 1.

The third and fourth Resolves you were pleased to form on this Occasion, *to wit*, That the Assembly had done nothing for his Majesty's Service, or for the Security of the People and Trade of the Province; That Three, or at most Four Thousand Pounds, would have been sufficient for equipping and maintaining a Ship of War, *&c.* require but a short Answer. We think good Service was done both *His Majesty and the Province*, by withholding the Three or Four Thousand Pounds, which you would have laid out in a Manner that would have been of no Benefit to either.

The fifth Resolve you are pleased to introduce in these Words, *viz. That the Reason given in the Assembly's Message, why no Provision at all should be made for our Defence, to wit*, Because were the whole Province to exert their utmost Abilities, it would not be sufficient, *&c.* is evasive and trifling, &c.

Overlooking the Delicacy of the Language, permit us to say, the Words here recited were neither intended, nor applied to prove, that nothing ought to be done for the Defence of the Province; but to shew we had Reason to expect, and were intitled to, greater Assistance, or that otherwise all that could be done would be insufficient. This is the obvious Sense of the Paragraph as it stands in our Message, and if there be any Thing trifling or evasive, it is owing to the wrong Light in which you attempt to place it.

In just the same Manner you mistake the Sense of the House in your sixth Resolve, introduced in these Words, *The Fact adduced in the Assembly's Message, to prove the Inexpediency or rather the mischievous Consequence of guarding any Coast, and that an unguarded Coast is the safest, &c.*

Surely you must have read our Message with great Haste, and little Attention, or you could not possibly thus misunderstand the Sense of it. Is there one Syllable throughout the Whole which makes the guarding any Coast to be mischievous, or that makes the unguarded Coast to be the safest? If there be any Thing of this Import, you should have pointed it out to us; if there be not, as surely there is not, what can we say, when we find you, by your Resolves, publish to the World Things as our Sentiments, which we never thought of?

To your seventh Resolve, all that we think necessary for us to say, is, That it must be evident, the greater Ability any Province shews towards its own Defence, the less it needs, and the less it has to expect from our Mother Country. If you will be pleased to apply this to the *Otter*, and the great Preparations you were for having the Province to make for its Defence, it will fully answer the Purport of this Resolve.

The eighth Resolve makes your Conclusion of much the same Import as your Introduction, touching which you have already heard our Sentiments. You are pleased to say, *That when an Assembly is called by the Governor, or by the President and Council, to consult on Matters of the highest Importance for His Majesty's Service, and the Safety of the People, their determining hastily to adjourn, without giving Time for an Explanation, &c. as hath been often practised by the Assemblies of this Province*, is indecent and improper, *&c.*

To this we answer, That notwithstanding the Charges you are pleased to make against the Assemblies of this Province, we know of no such Practices as you mention. It is true, we have by Law a Right to meet and sit upon our own Adjournments; and therefore, when all is done that we think is necessary for the King's Service, or the Good of the Country, we have a Right to adjourn, without being harrassed and kept together, either at the Pleasure of a Governor, or the President and Council; and we would hope you are better Friends to the Constitution, than to wish it deprived of this Privilege, though we must own the Resolve now under Consideration seems to strike at it. You may be pleased to recollect, that we have never exercised this Power of adjourning ourselves, without first acquainting the Board with our Intentions of so doing; and particularly we did it on our last Adjournment, of which you complain; although by your Message delivered to us, which we have already mentioned, you let us know, that after what was contained in it, you did not think it would be of any Service to say any Thing further to us. The Terms therefore of *indecent* and *improper*, are, we think, much more applicable to your Resolves, than our Adjournment.

Upon the Whole, we are of Opinion, That for the President and Council to form such Resolves, and publish them after the Adjournment of the Assembly, thereby arraigning and censuring their Proceedings, is assuming a Power the Laws of this Government never intrusted them with, is unparliamentary, such as strikes at the Freedom of Assemblies, and the Rights of the Freemen of this Province; hath a Tendency to create Animosities in the Minds of the People, and to cause great Confusion amongst us; and therefore we hope will not be drawn into Example."

And the Message being signed by the Speaker, by Order of the House;

Ordered, That *Edward Warner* and *Joseph Trotter* wait upon the President and Council, and deliver the same.

The Gentlemen return and report, that they waited upon the President and Council, and delivered the same according to Order; and that some of the Council were pleased

1748. to ſay, they ſhould have a Meſſage of ſome Conſequence to ſend to the Houſe in the Morning.

7th Mo. 1. Adjournment

Then the Houſe adjourned to Ten o'Clock To-morrow Morning.

7th Mo. 2.

The Petition from *James Sterret* was again read, and his Account allowed; the Priſoner being a Perſon who is ſuppoſed to have been convicted of Murder, and made his Eſcape from *Albany*.

Thomas Leech and *Iſaac Norris* are added to the Committee for incidental Charges.

The Preſident and Council ſent down a written Meſſage to the Houſe by the Secretary, who ſaid, in delivering it, that the Council had ſomething under Conſideration, which they hoped would be ready to lay before the Houſe To-morrow; and the Meſſage being read, follows in theſe Words, *viz.*

GENTLEMEN,

A Meſſage from the Preſident and Council to the Aſſembly.

'WE expected that on the Receipt of our Meſſage you would have provided for the Expence accruing on the Treaty held with the *Indians* at *Lancaſter*, and were not a little diſappointed when we found by your Meſſage of Yeſterday, that you had not then taken it into Conſideration. As any conſiderable Delay will in our Opinion reflect Diſhonour on this Government, we find ourſelves under a Neceſſity of entreating you to order the Payment of the neceſſary Charges accruing on that Treaty before you adjourn; ſince, if it be poſtponed, the People may be long kept out of their Money, this being uſually the laſt Sitting of your Houſe on Buſineſs. Beſides it would be a particular Satisfaction to the Board, that the neceſſary Expences, which have accrued during our Adminiſtration in the Public Service, ſhould be honourably diſcharged.

Sept. 2, 1748. *ANTHONY PALMER*, Preſident."

The further Conſideration of the Meſſage from the Preſident and Council was referred to the Afternoon.

Ordered, That *James Morris* and *Joſeph Trotter* wait upon the Preſident and Council, and acquaint them, that the Houſe have nearly done what Buſineſs lay before them, ſo as that they might adjourn in the Afternoon; but being informed by the Secretary, that the Preſident and Council have ſomething under their Conſideration, to be laid before the Houſe To-morrow Morning, they intend to adjourn to that Time, but deſire they may have it early in the Morning.

The Gentlemen return and report, that they delivered the Meſſage according to Order; and that the Council were pleaſed to ſay they would give all the Diſpatch they could to what is under their Conſideration.

Adjournment

Then the Houſe adjourned to Three o'Clock, *P. M.*

Poſt Meridiem.

The Houſe took into Conſideration the ſeveral Accounts of Expences in the late Treaties with the *Indians*, and there appearing to be due from the Province to ſundry Perſons, on that Account, the Sum of *Five Hundred and Twelve Pounds, Seven-pence Half-penny*,

Reſolved, That Orders iſſue under the Hand of the Speaker for the Payment of the ſame.

Adjournment

Then the Houſe adjourned to Nine o'Clock To-morrow Morning.

7th Mo. 3.

The Meſſage from the Preſident and Council was again read, and conſidered; and after waiting ſome Time,

Adjournment

The Houſe adjourned to Two o'Clock, *P. M.*

Poſt Meridiem

The Preſident and Council ſent down a written Meſſage to the Houſe, which was read, and follows in theſe Words, *viz.*

GENTLEMEN,

A Meſſage from the Preſident and Council to the Aſſembly.

'SHOULD we give you a particular Anſwer to your laſt Meſſage, it would probably draw on a Controverſy, which we on many Accounts deſire to avoid. By comparing your Meſſage with the Reſolves of this Board, it may be ſeen how little Candour and Ingenuity is to be expected in the Courſe of ſuch a Diſpute; your obſerving that we have cenſured a Part of your former Meſſage for its Obſcurity, as being evaſive, *&c.* and quoting another Part of it which we did not object to on that Account; and your dropping material Words in the Middle of a Sentence, where they did not ſerve your Purpoſe, *&c.* are a few of the many Inſtances we might produce, were we to enter into the Argument; but as ſuch a Controverſy may be attended with a conſiderable Expence, and, as Things are now circumſtanced, can bring no Advantage to the Public, we ſhall decline it.

'We are not accountable to each other for our Conduct; His Majeſty and the Freemen of this Province are the proper Judges of it; to them we can ſafely appeal. As we have had no Party Views, no perſonal Intereſt or Power to ſupport, we ſhall the more readily be believed when we declare, we have acted on the ſole Motive of the Public Good. It is well known, that during our Adminiſtration, our Time has been chiefly employed in the Service of the Country, by uſing all Means in our Power for its

'Safety

'Safety and Protection, in Times of the greateſt Danger; how far you have aſſiſted us, and thoſe, who, to their immortal Honour, joined in this neceſſary Work, all the World knows. 1748. 7th Mo. 3.

'Your Meſſage, upon which our Reſolves were made, we thought juſtly liable to be cenſured by every one who had Senſe enough to ſee how they were deſerted by their Repreſentatives, whoſe Aſſiſtance they had a Right to expect; and as it appeared to us calculated to miſlead the People at a Time when their All was at Stake, we judged it our indiſpenſable Duty to his Majeſty and our Country, to expoſe it in the Manner we did, and that juſtly, notwithſtanding what is ſaid in your laſt Meſſage; and though we have thereby drawn on us your Reſentment, we are not concerned on that Account: While the Adminiſtration of the Government continues in our Hands, we ſhall perſevere in preferring the Good of the Common Wealth to every other Conſideration.

'The ſingle Point between us, as we conceive, is, whether your Conduct or ours has contributed moſt to the Public Service; and on that Point we ſhall leave it, without entering into a fruitleſs Debate on the Subject.

Sept. 3, 1748. *ANTHONY PALMER*, Preſident."

Then the Houſe adjourned for one Hour.

And being again met, the following Meſſages were a greed to be ſent up to the Preſident and Council, *viz.*

May it pleaſe the PRESIDENT *and* COUNCIL,

A Meſſage from the Aſſembly to the Preſident and Council.

AS you were acquainted by our laſt Meſſage ſave one, "That the Particulars of the Treaty, and the Charges which had ariſen by that Means, would in due Time come under our Notice; and ſuch Proviſion made in it as the Houſe on Conſideration ſhould judge reaſonable:" And as you juſtly obſerve, this is uſually the laſt Sitting of the Houſe on Buſineſs, it neceſſarily followed, we could not have intended to poſtpone the Conſideration of the Charges beyond the preſent Seſſion; and therefore we are at a Loſs why you are pleaſed to expreſs any "Diſappointment" that it was not "then taken into Conſideration." However, to give you full Satisfaction in this Affair, we now let you know, that we have ſince examined the Accounts concerning the *Indian* Treaties, the Goods purchaſed for the Preſent, and the Charges which have ariſen thereupon, and have made Proviſion for Payment of the Whole which remains due on thoſe Accounts."

May it pleaſe the PRESIDENT *and* COUNCIL,

Another Meſſage from the Aſſembly to the Preſident and Council.

WE agree with you, it was prudently judged, "On many Accounts," and eſpecially One, to decline a particular Anſwer to our laſt Meſſage; and we are of your Sentiments, "That by comparing your Reſolves with our Meſſage, it may be ſeen how little Candour and Ingenuity is to be expected in the Courſe of ſuch a Diſpute." Your laſt Meſſage will further illuſtrate this, which contains freſh Charges, but expreſſed in Terms ſo obſcure, as if, ſince you are determined not to be particular in your Anſwer, it ſhould not be in our Power to be ſo in our Reply. Since therefore it is your Pleaſure, we muſt leave the former Part of your Meſſage in the Obſcurity we find it, until you ſhall condeſcend to explain yourſelves.

You are pleaſed to ſay "We are not accountable to each other for our Conduct;" give us leave to wiſh you had thought of this before you had beſtowed ſo heavy Cenſure on ours: It might have ſaved both you and us ſome Trouble.

You are pleaſed to add, "You have had no Party Views, no perſonal Intereſt or Power to ſupport." It may be ſo, ſince you are pleaſed to ſay it; but when this is urged as a Motive to your being "the more readily believed," in Oppoſition to the Repreſentative Body of the Province, it ſeems to require a little Demonſtration.

If it was, as you are pleaſed to ſay, really "well known, that during your Adminiſtration your Time has been chiefly employed in the Service of the Country, *&c.*" there was the leſs Neceſſity you ſhould become the Publiſhers of it. But you are pleaſed to add, "how we have aſſiſted you; and thoſe who, to their *immortal* Honour, joined with you, in the neceſſary Work you mention, all the World knows." If thoſe who joined with you deſerved immortal Honour, how much more do you deſerve? Enjoy unmoleſted all the Honour, all the Applauſe, you think fit to beſtow on yourſelves; but why muſt you depreciate the Characters of others?

You are further pleaſed to ſay, "That our Meſſage, on which your Reſolves were made, you thought juſtly liable to Cenſure, that it appeared to be calculated to miſlead the People; that you judged it your indiſpenſable Duty to his Majeſty and your Country to expoſe it," *&c.*

Since you are pleaſed to allow we are not accountable to you for our Conduct, whence then do you derive your Right of cenſuring? or, of what you expreſſed yet more indecently, of expoſing? In the Heighth of the late Controverſies, ſuch Expreſſions were not uſed, that we remember; and we are at a Loſs to find from whence you could copy

ſuch

1748. 7th Mo. 3.

ſuch Language to the Repreſentative Body of a Province. Beſides, when the Event has ſhewn the Judgment formed by the Aſſembly was right, and has ſaved the Province ſome Thouſand Pounds, we think you might have ſpared theſe Cenſures beſtowed thus unprovoked. What Motives could we poſſibly have for judging amiſs? Have we not alſo Eſtates and Families in the Province? Have not many of us drawn our firſt Breath here? Have not divers of our Fathers, and ſome of our Grandfathers, been of the firſt Settlers? What Inducements can we poſſibly have to biaſs us againſt the Intereſt of our Country?

To conclude, As you ſhew a Diſpoſition to ſubmit both your own Conduct and ours to the Opinion of the Public, without entering into further Debate, ſo do we. If we have committed any Miſtakes, the Time draws near in which our Conſtituents, if they think it neceſſary, may amend their Choice. And the Time alſo draws near, in which your Miſtakes may be amended, by a ſucceeding Governor: Permit us to congratulate our Country on both."

And both the Meſſages being ſigned by the Speaker, by Order of the Houſe;

Ordered, That *Oſwald Peele* and *Joſeph Trotter* carry up the ſame to the Preſident and Council, and acquaint them, that the Houſe inclines to adjourn to the Thirtieth of this Inſtant.

The Report of the Committee on the Public Accounts, was approved and allowed by the Houſe, and follows in theſe Words, *viz.*

Ordered, That *Owen Evans*, *Thomas Leech*, *Derick Hogeland*, *Thomas Worth* and *Arthur Patterson* wait upon the President and Council, and acquaint them, that a Quorum of the Representatives have met, and proceeded to the Choice of a Speaker, and desire to know when the Board will be pleased to receive the House with their Speaker.

Then the House adjourned to Ten o'Clock To-morrow Morning. Adjournment 8th Mo. 15.

The Gentlemen appointed to wait on the President and Council with the Message of Yesternight, report, that they delivered the same according to Order; and that the President was pleased to say, As soon as the Council was met, they would acquaint the House when they should be ready to receive them with their Speaker.

A Message from the President and Council, by the Secretary, *viz.*

Mr. *Speaker*,

The President and Council are now met, and ready to receive the House.

And the Secretary being withdrawn;

The

1748. 8th Mo. 15. The Speaker firſt, and then the ſeveral Members of the Houſe, took the Qualification, and ſubſcribed the Declaration, by Law required to be taken and ſubſcribed by the Members of Aſſembly.

Reſolved, That *Benjamin Franklin* be Clerk to this Houſe for the enſuing Year.

And he took and ſubſcribed the uſual Qualification accordingly.

Reſolved, That *Samuel Kirk* be Sergeant at Arms to this Houſe for the enſuing Year.

Reſolved, That *Thomas Burden* be Doorkeeper to this Houſe for the enſuing Year.

Then the Speaker, with the whole Houſe, waited on the Preſident and Council.

And being returned,

The Speaker reſumed the Chair, and reported, That he had, with the whole Houſe, waited on the Preſident and Council, and acquainted them, that the Repreſentatives of the Freemen of this Province, being met in Purſuance of the Charter and Laws of this Province, had been pleaſed to make Choice of him for their Speaker; that the Houſe had this Day taken the Qualification by Law directed; and are ready to receive any Thing the Preſident and Council may have to lay before them, tending to the Peace and Proſperity of the Province, in which the Concurrence of the Houſe is neceſſary. To which the Preſident and Council had been pleaſed to anſwer, They had ſomething to lay before the Houſe, which ſhould be ſent down by the Secretary.

The Secretary attending, was called in, and by Order of the Preſident and Council laid before the Houſe *Conrad Weiſer's* Journal of his Proceedings with the *Indians* at *Ohio*, and *George Croghan's* Account of the Expences accruing thereupon.

The Secretary repreſented to the Houſe, that he thinks himſelf underpaid for his Services of the laſt Year, in the Allowance made him by the laſt Aſſembly, and requeſted that this Houſe would re-conſider his Accounts; and then withdrew.

The Papers ſent down by the Preſident and Council were read.

A Petition from a Number of Freeholders and Electors of the County of *Bucks* was preſented to the Houſe and read, ſetting forth, that by the Teſtimony of ſundry Freemen preſent at the Cloſe of the late Election at *Newtown*, it appears that divers Matters relating thereto were tranſacted partially, illegally, and in direct Oppoſition to the Privileges granted and intended to the Freemen of this Province; whereby the real Choice of the People was eluded, and an undue Return made of ſome Perſons as Repreſentatives for the ſaid County; and praying that the Houſe would enquire into the ſame, and grant Redreſs. *Ordered to lie on the Table.*

A Petition from *John Hall*, of *Briſtol*, in the County of *Bucks*, was preſented to the Houſe and read, ſetting forth, That he is credibly informed he was duly choſen at the laſt Election a Repreſentative for the ſaid County; but that near the Cloſe of the Election a Quantity of Tickets were gathered up from off the Floor by the Coroner, and read as lawful Votes, whereby ſeveral Perſons became higher than the Petitioner in Number of Votes, who before were far below him, and thereupon returned by the Sheriff as duly elected, the Petitioner being excluded: And as the Practice of allowing Votes to be genuine which are picked up from under the Table, and therefore cannot be proved ſuch, may elude any Election, and deprive the People of one of their moſt valuable Privileges, ſince it is ſo eaſy for ill-diſpoſed Perſons to convey a Quantity of Tickets there unobſerved; the Petitioner prays, that the Houſe would take the ſame into Conſideration, and grant to the People, as well as the Petitioner, ſuch Redreſs as ſhall ſeem meet. *Ordered to lie on the Table.*

Sundry Depoſitions, in Support of the ſaid Petitions, were alſo read, and ordered to lie on the Table.

Ordered, That *Thomas Leech*, *Joſeph Trotter*, *Joſeph Hampton*, *George Aſhbridge* and *Arthur Patterſon* be a Committee of Aggrievances for the enſuing Year: And they have Power to ſend for Perſons, Papers and Records.

Ordered, That the Minutes be printed, and that *Thomas Leech* and *Iſrael Pemberton* be a Committee to reviſe them before they are printed.

Ordered, That the Petitioners complaining of an undue Election and Return of ſome of the Repreſentatives for the County of *Bucks*, ſerve the Sheriff and Inſpectors at the late Election there with Copies of their Petitions, and the Affidavits accompanying them;

and

and give the said Sheriff and Inspectors Notice, to attend the House on the seventh of *November* next. And that the Complainants and their Witnesses attend at the same Time. 1748. 8th Mo. 15.

Resolved, That the House will this Day adjourn to the seventh Day of *November* next.

Ordered, That *Joseph Trotter*, and *James Morris*, wait on the President and Council, and acquaint them, that the House intends to adjourn this Day to the seventh of *November* next, if they have no Objection to that Time.

The Gentlemen return and report, that they have been to the Council Chamber, and that the Council is not sitting.

Ordered, That the same Gentlemen acquaint the President and Council with the Time of Adjournment.

Then the House adjourned to the seventh Day of *November* next. Adjournment

THE House met pursuant to their Adjournment. 9th Mo. 7.

The President and Council sent down a verbal Message by the Secretary, acquainting the House, that the young Man of *Carolina*, who had been taken Prisoner by the *Indians* on the Borders of that Province, and whose Liberty was procured by *Conrad Weiser*, Interpreter to this Government, at the late Treaty at *Ohio*, is now come to Town, in order to go to *Carolina* in the Man of War; but is in Want of Clothing, and all other Necessaries; and therefore recommending it to the House to order him to be supplied with the same. *Referred to further Consideration.*

The House being informed, that the Petitioners, complaining of an undue Election and Return of some of the Representatives of *Bucks* County, were attending, together with the Sheriff and Coroner, and the Inspectors of the Election; they were called in, and acquainted that the House would hear the Merits of the said Election and Return this Afternoon; and that the Parties had Leave to be heard by Counsel, if they thought fit.

Then the House adjourned to Three o'Clock in the Afternoon. Adjournment

The House proceeded to the Hearing of the Matters contained in the several Petitions complaining of an undue Election and Return for the County of *Bucks*. *Post Meridiem*

And the Parties, with their Counsel, being called in:

The Counsel for the Petitioners was heard, and examined several Witnesses, in order to prove, that towards the Close of the Election, a Number of Tickets, which did not appear folded up like those delivered in by the Electors, but much rumpled, were taken up from off the Floor, by the Coroner, and put among the remaining genuine Tickets; that the Floor had but just before been inspected, and no Tickets were then lying there; that the Reading of those Tickets so picked up, was opposed by some of the Electors; but that they were nevertheless read; that immediately before they were read, the Tallies were counted, and that *John Hall*, *Mark Watson* and *Richard Walker* had then more Votes than *Abraham Chapman*, *John Watson*, or *Richard Mitchel*; particularly that *John Hall* had about twenty Votes more than either of them.

The Counſel for the Sheriff and other Judges of the Election was heard, and examined ſeveral Witneſſes, in order to prove: That the Back-part of the Drawer, in which the Tickets received from the Voters were uſually put, did not ſhut cloſe to the Table; That, when the ſaid Drawer became crowded full of Tickets, ſome were apt to get over, through the Vacancy, and fall to the Ground; That this had been the Caſe in ſeveral preceeding Elections; That at the ſame Election ſeveral Tickets alſo fell out of the Drawer, in which the Names of thoſe choſen for Aſſeſſors were put, concerning which there is no Suſpicion of Fraud; That the Aſſeſſors Tickets taken up from under the Table, were ſome open, and ſome rumpled, in the ſame Manner with thoſe for Aſſembly-men; and that the latter appeared to be, and were judged by moſt of the Inſpectors to be genuine Tickets; That on Inſpection they appeared to be promiſcuous Tickets, containing the Names of the different Candidates pretty equally divided, which was alſo obſerved in the Reading of them.

Then the Parties were ordered to withdraw.

Whereupon

The Parties were ordered to withdraw.

And the Members, whoſe Election is controverted, were alſo ordered to withdraw.

Mr. SPEAKER,

The Governor requires the Attendance of the House in the Council Chamber immediately.

Then the Speaker with the whole House waited on the Governor.

And being returned,

The Speaker resumed the Chair, and reported, That the House had waited on the Governor in the Council Chamber, and that the Governor had been pleased to make a Speech to the House, a Copy of which had been delivered to the Speaker;

And the same being read, follows in these Words, *viz.*

Mr. SPEAKER, *and* GENTLEMEN *of the Assembly*,

The Governor's Speech to the House of Assembly.

'I Should have called you together immediately after my Arrival, if I had either observed, or been informed, His Majesty's Interest, or that of the Country, required it; but as no Necessity of that kind appeared, I forbore to give you the Trouble of meeting in Assembly before the Time yourselves had appointed for the Dispatch of public Business.

'It is with great Pleasure I now see you met in your legislative Capacity, and very gladly embrace the Opportunity it affords me of signifying to you, by the express Command of the honourable Proprietaries, the great Affection they bear to the Inhabitants of this Province; the earnest Desire they have to preserve Peace and Concord among them; and the particular Satisfaction they receive by their Welfare and Prosperity; and as I know them to be perfectly sincere in their Professions, I have not the least Apprehension but they will meet with suitable Returns of Gratitude from you.

'Having been for some Time absent, it cannot be presumed the Condition and Circumstances of the Country are so well known to me, as to Gentlemen who have constantly resided on the Spot, and who being the Representative Body of the People, are to be supposed best acquainted with their real Wants and Expectations: Wherefore, I shall for the present decline laying any Thing before you on my Part; at the same Time I very sincerely assure you, that whatever Bills you shall judge proper to present for my Approbation, shall be favourably received, and considered with Attention; and where

'they

1748. 11th Mo. 3. 'they ſhall appear to be, as I doubt not they will, for the general Utility of the People, 'and not inconſiſtent with the Duty I owe to his Majeſty, or the Rights of the honour- 'able Proprietaries, they ſhall be ſure to receive my moſt ſpeedy and hearty Concurrence.

'With reſpect to myſelf, I have little to ſay: It is now a long Time ſince I have been 'perſonally known to moſt of you; and from thence you are much better able to form 'a Judgment of my Regard for your Liberties, both Civil and Religious, than by any 'Thing I can ſay in my own Behalf: One Circumſtance, however, you will give me Leave 'to take Notice of, as it is, in my Opinion, no unfavourable one to the People you 'repreſent: That having myſelf a conſiderable Stake in the Province, it is really my 'Intereſt, as well as Inclination, to ſupport them in the Enjoyment of all their juſt Rights 'and Privileges; ſince, whenever the Time ſhall come in which I ſhall ceaſe to be their 'Governor, and return to a private Station, I ſhall find myſelf, my Family and Friends, 'equally affected with every other Perſon, by any Injury the Conſtitution may ſuffer 'under my Adminiſtration.

'I ſhall conclude what I have to ſay at this Time with entreating you, that all Tranſ- 'actions between us may be carried on with Candour and Moderation, as the moſt ef- 'fectual Means of avoiding diſagreeable Animoſities, and uniting us in the ſtrict Bands 'of Friendſhip and mutual Confidence, ſo neceſſary for the public Good. This is what 'I will endeavour by every Method in my Power; and I have no Reaſon to doubt that 'you, Gentlemen, are now come together with like Sentiments and Inclinations."

The Governor's Speech was again read, Paragraph by Paragraph, and conſidered;

Ordered, That *Iſaac Norris*, *Thomas Leech*, *Iſrael Pemberton*, *Abraham Chapman*, *Francis Yarnal* and *Peter Worral* be a Committee to prepare a Draught of an Addreſs in Anſwer to the ſame, and report it to the Houſe.

Adjournment 11th Mo. 4. Then the Houſe adjourned to Ten o'Clock To-morrow Morning.

The Gentlemen appointed to prepare a Draught of an Addreſs in Anſwer to the Gover- nor's Speech, reported the ſame to the Houſe, and it was read by Order, and approved of, and ordered to be tranſcribed.

A Petition from a great Number of the Inhabitants of the City of *Philadelphia*, ſetting forth the Loſs ſuffered in their daily Dealings for Want of ſmall Change, and praying a Remedy; was preſented to the Houſe, and read, and *Ordered to lie on the Table.*

Adjournment *Poſt Meridiem* Then the Houſe adjourned to Three o'Clock, *P. M.*

The Addreſs to the Governor being tranſcribed, according to the Order of the Houſe, was again read, and follows in theſe Words, *viz.*

May it pleaſe the GOVERNOR,

A Meſſage from the Governor to the Aſſembly. WE heartily congratulate the Governor on his Acceſſion to the Government of this Province, and ſafe Arrival amongſt us: And we return him our ſincere Thanks for his favourable Speech at the Opening of this Seſſion, and for the Regard he hath been pleaſed to ſhew us, in forbearing to call us together before the Time we had appointed for the Diſpatch of public Buſineſs.

The great Affection our honourable Proprietaries are pleaſed to expreſs "to the Inha- bitants of this Province," their Deſires "to preſerve Peace and Concord amongſt them," and "the particular Satisfaction they receive from their Welfare and Proſperity" juſtly merit thoſe grateful Returns, which we are perſuaded they will ever receive from the Freemen of *Pennſylvania*.

Though the Governor has been ſome Time abſent, yet his former long Acquaintance and thorough Knowledge of the public Affairs of the Province, joined with his diſtin- guiſhed Abilities, render him a very competent Judge of the Bills which ſhall be preſented to him, in order to be paſt into Laws. Such only we are determined to offer, as ſhall appear to us to be for the general Utility of the People, and conſiſtent with the Duty we all owe to the King, as well as with a due Regard "to the Rights of the honourable the Proprietaries;" and we gratefully acknowledge the Obligation we are laid under in the Aſſurance the Governor is pleaſed to give us, that ſuch "ſhall be ſure to receive his moſt ſpeedy and hearty Concurrence."

The Fidelity, Impartiality and Juſtice, with which the Governor lately acquitted him- ſelf in the principal and moſt honourable Office within this City, as well as on other Occaſions, leave us no Room to doubt "his Regard to our Liberties, both Civil and Re- ligious." And it merits our particular Acknowledgments to the honourable the Proprie- taries, that they have been pleaſed to confer the Government on a Gentleman of ſo con- ſiderable an Eſtate among us; whoſe "Intereſt," we know it is, and whoſe "Inclination" we believe it to be, to ſupport the People of this Province, "in the Enjoyment of all their juſt Rights and Privileges."

We ſhall chearfully purſue the Steps the Governor is pleaſed to point out to us, of carrying on "with Candour and Moderation," Tranſactions between us;" and on our Part endeavour, not only to maintain "the ſtrict Bonds of Friendſhip and mutual Confidence, neceſſary for the public Good, but to ſhew the juſt Regard we entertain for the Government, by making an honourable Proviſion for its Support."

But as the Petitioners conceive no Person is authorised to set to Rent the said public Buildings, or receive such Rents, they pray the House would take the same into Consideration, and do therein as to them shall seem meet; farther praying, that some Provision may be made to prevent the Cake-Women taking up the Room of the Market on Market-Days, by setting up their Stalls therein before the Market is over; was presented to the House, and read, and *Ordered to lie on the Table.*

GENTLEMEN,

'I Have considered, with the greatest Attention, the Bill, entituled, *An Act for amending the Laws relating to the Poor, and for the better Appointment of Overseers of the Poor within the City of* Philadelphia; and perceive it contains many new and wise Provisions, tending to the Utility of the Inhabitants of this City and Province; yet as the greatest Part of the Bill consists of Clauses revoking Powers given by several former Acts, and establishing new in their Places, without assigning any Cause for the Alteration, I cannot pass it as it stands. The Governor's Message to the House of Assembly.

'It would have been very agreeable to me, could I have sent you down the Bill under Amendments; but a small Trial convinced me, the Parts in my Opinion necessary, were so inseparably wove into the repealing Clauses, that the Attempt must end in Obscurity, and a fruitless wasting your Time.

'I wish any Method could be fallen upon to preserve the new and truly valuable Provisions in the Bill. To them you may always be assured of my hearty Concurrence.'

Febr. 1, 1748. *JAMES HAMILTON.*"

The Committee appointed to examine *George Croghan's* Account, report a Balance due to him of *Two Hundred and Twenty-one Pounds*, which was agreed to by the House.

Ordered, That an Order on the Treasurer issue under the Hand of the Speaker for the Payment of the same.

Joseph Scull's Account was again read, and referred to *Edward Warner* and *Joseph Trotter*, who are to examine the same, and report thereon to the House.

A Petition from a Number of the Inhabitants on the Western Side of the River *Schuylkill*, setting forth, that through the great Increase of Inhabitants to the Westward of that River, the Ferries over the same are become exceedingly profitable, the Ferriage being continued at the Rates first established when the Passengers and Carriages crossing the same were very few; that if it was reduced to one Half what is at present taken, those Ferries would still remain more profitable than when first settled; that the Value of Lands on the Western Side of the said River would also thereby be much advanced, and many People of low Circumstances who attend the Market greatly relieved; and therefore praying the House would take the Premises into Consideration, and make such Alteration and Regulation therein as shall seem requisite; was presented to the House, and read, and *Ordered to lie on the Table.*

Then the House adjourned to Ten o'Clock To-morrow Morning. Adjournment

The House resumed the Consideration of the Amendments proposed by the Governor to the Bills that had been laid before him, and after some Debate, the further Consideration thereof was adjourned to the Afternoon. *12th Mo.* 2.

The Governor, by his Secretary, sent down the Bill for regulating Horse-Jockeys, and Dealers in Horses; and to prevent the Bringing into this Province for Sale, such as are small, unsizeable or unsound; with a Message that he is ready to pass the same into a Law, when it shall be presented to him for that Purpose.

Then the House adjourned to Three o'Clock, *P. M.* Adjournment

The House resumed the Consideration of the Governor's Message on the Bill for amending the Laws relating to the Poor, *&c.* and after some Debate, *Post Meridiem*

Resolved, That the following Message be sent up to the Governor, in Answer thereunto, *viz.*

May it please the GOVERNOR,

IT gives us some Pleasure to find the Governor express himself so much in favour of some Parts of the Bill, entituled, "*An Act for amending the Laws relating to the Poor*," &c. And we wish, as, in his Opinion, "it contains many new Provisions tending to the Utility of the Inhabitants of this City and Province," the Whole had been such, as that we might have obtained his Assent to it. A Message from the Assembly to the Governor.

We observe, from the Message the Governor was pleased to send us in relation to this Bill,

1748. 12th*Mo.* 2. Bill, that although as it now ſtands he cannot paſs it, yet he is deſirous ſome Method may be fallen upon to preſerve "the new and truly valuable Proviſions in the Bill;" and in this we heartily concur with him. The beſt Expedient we know of to anſwer this good Purpoſe is, to entreat the Governor, he will be pleaſed to reconſider the Bill, and point out ſuch Parts of it as he diſlikes, to the End we may be able to judge, whether, conſiſtently with the Truſt repoſed in us, we can ſo amend the Bill, as to remove the Objections againſt its Paſſage."

The Houſe reſumed the Conſideration of the Amendments propoſed by the Governor to the Bill for amending the Laws relating to the Partition and Diſtribution of Inteſtates Eſtates, and concerning the Probate of Wills, and after ſome Debate,

Reſolved, That the following Meſſage be ſent up to the Governor thereupon, *viz.*

May it pleaſe the GOVERNOR,

Another Meſſage from the Aſſembly to the Governor.

WE have taken into Conſideration the Amendments propoſed to the Bill, entituled, "*An Act for amending the Law relating to the Partition and Diſtribution of Inteſtates Eſtates, and concerning the Probate of Wills*," and agree to all of them, the laſt ſave one excepted; and as to that Amendment, we look upon it as beſtowing Powers on the Regiſter-General, and his Deputies, with the Juſtices they ſhall think fit to call to their Aſſiſtance, which by Law neither can, nor, as we conceive, ought to be granted to them, for the Reaſons following.

Firſt, The Regiſter-General, and his Deputies, in reſpect to the Probate of Wills, *&c.* have only the ſame Powers which, by the Royal Charter, the Proprietor is authoriſed to grant; and this we think neither is, nor can be, any other than the Probate of Wills which concern perſonal Eſtates: But the Amendment now propoſed to us, gives the like Power in reſpect of Lands, which is directly repugnant to the Laws of *England*.

It is true, if the Regiſter-General, or his Deputies, and thoſe they are pleaſed to call to their Aſſiſtance, ſhould doubt, the Parties are intitled to a Trial by a Jury: But then they themſelves are made abſolute Judges of theſe Doubts; and though they ſhould direct a Trial to be had by a Jury, yet no Proviſion is made to oblige them to have any Regard to the Verdict ſo to be given; but they may, for aught which the Clauſe propoſed contains, give Judgment againſt the Verdict, without any Appeal to be had againſt their Sentence.

Secondly, As the Law now ſtands, we ſuppoſe it clear, that if the Regiſter-General, and his Deputies, with their Aſſiſtants, exceed their Powers, the Juſtices of the Supreme Court may prohibit them: And at a Time when the Powers of the Regiſter-General, his Deputies and Aſſiſtants, by the Clauſe propoſed, are ſo much enlarged, we cannot think it proper to take away the Superintendance of the Supreme Court.

Thirdly, Becauſe this Clauſe directs the Calling of a ſpecial Court to try the Iſſues directed, and provides no Remedy, were the Juſtices to commit ever ſo groſs Miſtakes, either by bringing on any ſuch Trial, when the Witneſſes of either Party are beyond Sea; by admitting Jurors or Witneſſes againſt whom juſt Exceptions are taken, or in denying ſuch Jurors or Witneſſes againſt whom no ſuch Exceptions are taken: But theſe, or any other Miſtakes, notwithſtanding, by the Amendment now propoſed, the "Trial ſhall be had, made, taken, perfected and concluded, in the ſaid ſpecial Court, any Law, Uſage, Cuſtom, Writ or Writs prohibitory, notwithſtanding."

In *England* the Ordinaries, who have the Probate of Wills concerning perſonal Eſtates, have not like Power ſo far as concerns Lands, though they are often Men well ſkilled in the Civil Law, and proceed by it in Caſes not repugnant to the Laws of *England*; yet if they miſtake, there are Appeals, firſt to the Arches, and next to the Delegates, before the Parties are concluded: But, by the Proviſion in this Clauſe, the Sentence is to be final, and no Appeal from it, though it may happen the Juſtices called to the Aſſiſtance of the Regiſter-General, or his Deputies, are concerned in Intereſt, know little of the Common Law, leſs of the Civil Law, and yet made Judges in the laſt Reſort.

For theſe Reaſons we would willingly hope the Governor, on conſidering the Premiſes, will recede from the Amendment, and give his Aſſent to the Bill as it now ſtands, without the Clauſe propoſed."

And the Meſſages being ſigned by the Speaker, by Order of the Houſe,

Ordered, That *Edward Warner* and *Joſeph Trotter* carry up the Bill with the Meſſages to the Governor; and acquaint him, that the Houſe agrees to the Amendments propoſed by him to the Bill for encouraging the Killing of Squirrels in this Province.

Adjournment

Then the Houſe adjourned to Ten o'Clock To-morrow Morning.

12th *Mo.* 3. The Gentlemen appointed to wait on the Governor with the Bills and Meſſages of the Houſe, report, that they delivered the ſame according to Order.

The Petition of the Inhabitants on the Weſtern Side of *Schuylkill*, relating to the Rates of Ferriage over that River, was again read.

Ordered, That *Iſaac Norris*, *Thomas Leech*, *Mahlon Kirckbride*, *John Owen* and *Peter Worral* be a Committee to inſpect the ſeveral Laws of this Province relating to Ferries, and report thereon to the Houſe at the next Sitting.

The

The Houſe taking into Conſideration, that *James Morris*, one of the Committee of Public Accounts, is appointed a Truſtee of the Loan-Office; and *Cephas Child*, another of that Committee, deſiring to be excuſed; 1748. 12th Mo. 3.

Ordered, That *Iſaac Norris* and *Mahlon Kirkbride* be appointed in their Stead.

Then the Houſe adjourned to Three o'Clock, *P. M.* Adjournment

The Governor, by his Secretary, ſent down a written Meſſage to the Houſe, which was read, and follows in theſe Words, *viz.* *Poſt Meridiem*

GENTLEMEN,

A Meſſage from the Governor to the Aſſembly.

'AS the Currency of this Province is a Matter of the greateſt Conſequence to the Inhabitants, it ought previouſly to the paſſing an Act to increaſe the Quantity, to be well conſidered what Effect ſuch an Addition might have on Trade in general, and the private Eſtates of particular Perſons, in order that we may, as far as in us lies, do equal Juſtice to all. I hope therefore you will not think me unreaſonable, if I take ſome Time, and the beſt Information I can get, the better to enable me to form a right Judgment of the Bill now before me, for making current *Twenty Thouſand Pounds* in Bills of Credit of this Province, to be emitted on Loan. And I the rather hope this Delay will not be attended with any conſiderable Inconveniencies to the People, as there is confeſſedly a greater Sum of Money now circulating among us, than at any Time heretofore.

Febr. 3, 1748. *JAMES HAMILTON.*"

The Committee appointed to examine the Account of *Joſeph Scull*, report, that in their Opinion *Two Pounds Twelve Shillings and Four-pence* be allowed him in Diſcharge of the ſame; which was agreed to by the Houſe.

Ordered, That *James Morris* and *Oſwald Peele* wait upon the Governor, and acquaint him, that the Houſe is inclinable to adjourn To-morrow, and therefore deſire to know his Reſult on the Bills depending before him; and at what Time he will pleaſe to be waited on by the Houſe with the Bills that have or will receive his Aſſent, in order to their being enacted into Laws; and that he would appoint ſome Gentlemen of his Council to join a Committee of the Houſe in order to compare the Bills.

Reſolved, That the Propoſals made by *John Bleakley* are referred to the Truſtees of the *Province Iſland*, and that they have Power to grant him a Leaſe for Twenty-one Years on the beſt Terms they can agree.

Reſolved, That *Edward Warner* be appointed one of the Truſtees of the *Province Iſland*, in the Room of *Thomas Tatnal*, deceaſed.

The Gentlemen return and report, that they waited on the Governor, and delivered the Meſſage of the Houſe according to Order; and that the Governor was pleaſed to ſay, the Houſe ſhould receive a Meſſage from him on the Bill relating to Inteſtates Eſtates this Afternoon, and another on the Bill relating to the Poor To-morrow Morning; that he would appoint ſome Gentlemen of his Council to meet the Committee of the Houſe, and compare the Bills at Ten o'Clock To-morrow Morning in the Council Chamber; and that he would receive the Houſe in order to paſs the Bills into Laws, at Twelve.

Then the Houſe adjourned for Half an Hour.

The Houſe being reſumed,

The Governor, by his Secretary, ſent down the Bill for amending the Laws relating to the Partition and Diſtribution of Inteſtates Eſtates, and concerning the Probate of Wills, with a Meſſage in Writing, which was read, and follows in theſe Words, *viz.*

GENTLEMEN,

A Meſſage from the Governor to the Aſſembly.

'UPON conſidering that Part of the Bill relating to the Diſtribution of Inteſtates Eſtates, *&c.* which concerns the Probate of Wills, and the Meſſage I received from you on the Amendments by me propoſed; I find it a Matter of great Importance, and attended with ſome Difficulty. As to the other Parts of it, I approve of them, and am ready to give my Aſſent for their being paſſed into a Law.

'If the Laws relating to the Probate of Wills ſhall be thought to want Amendment, I ſhall always be ready to take into Conſideration any Bill that ſhall be prepared for that Purpoſe.

Febr. 3, 1748. *JAMES HAMILTON.*"

Reſolved, That the Bill be engroſſed, without the Clauſe relating to the Probate of Wills.

Ordered, That the Committee who brought in the ſaid Bill, inſpect the Laws regarding the Probate of Wills, and bring in a Bill at the next Sitting for Amending them.

Ordered, That *Thomas Leech* and *James Morris* meet the Gentlemen of the Council appointed by the Governor to compare the Bills, To-morrow.

An Order was drawn, and ſigned by the Speaker, per Order of the Houſe, for Payment of *Two Hundred and Twenty-one Pounds* to *George Croghan*, in full Diſcharge of his Account.

1748. 12th Mo. 4. Then the Houſe adjourned to Ten o'Clock To-morrow Morning.

The Gentlemen appointed to compare the Bills with the Members of the Council, report they have done the ſame according to Order.

The Governor, by his Secretary, ſent down a written Meſſage to the Houſe, which was read, and follows in theſe Words, *viz*,

GENTLEMEN,

A Meſſage from the Governor to the Aſſembly.

'THE Bill now before me, for Amending the Laws relating to the Poor, and for the better Appointment of Overſeers of the Poor within the City of *Philadelphia*, being of conſiderable Length, and of great Conſequence to the Public, the neceſſary Corrections and Alterations will require Time and Deliberation; and, as many of you have been long from your Families, and are deſirous to adjourn, I imagine it will be agreeable to you to defer the further Conſideration of them to another Seſſion.

Febr. 4, 1748-9. *JAMES HAMILTON.*"

The engroſſed Bills were ſigned by the Speaker, per Order of the Houſe.

A Meſſage from the Governor by his Secretary,

Mr. SPEAKER,

The Secretary being withdrawn,

Reſolved, That *Four Hundred Pounds* be now given to the Honourable JAMES HAMILTON, Eſq; Governor of this Province, in Part of his Support for the current Year.

And an Order for the Payment of the ſame was accordingly drawn, and ſigned by the Speaker.

Then the Speaker with the whole Houſe waited on the Governor;

And being returned,

The Speaker reſumed the Chair, and reported, that he had in the Name of the whole Houſe, preſented to the Governor their Order towards his Support for the current Year, which he had kindly received: And further, that the Governor had been pleaſed to give his Aſſent to the following Bills, by enacting the ſame into Laws, *viz.*

An *ACT* for the new Appointment of Truſtees of the General Loan-Office of *Pennſylvania*; and for the making current *Five Thouſand Pounds*, in new Bills of Credit, to exchange ſuch of thoſe, now by Law current, as are torn and defaced.

An *ACT* for amending the Laws relating to the Partition and Diſtribution of Inteſtates Eſtates.

An *ACT* to regulate Horſe-Jockeys and Dealers in Horſes; and to prevent the Bringing into this Province for Sale, ſuch as are ſmall, unſizeable, or unſound.

An *ACT* to encourage the Killing of Squirrels within this Province.

That *Thomas Leech* and *James Morris* were appointed to ſee the Great Seal affixed to thoſe Laws; that the Speaker had alſo acquainted the Governor with the propoſed Time of Adjournment, to which he made no Objection.

Adjournment. Then the Houſe adjourned to the 7th Day of the next Sixth Month.

1749. 6th Mo. 7. THE Houſe met according to their Adjournment.

Ordered, That *James Morris* and *Joſeph Trotter*, wait upon the Governor, and acquaint him, that the Houſe is met purſuant to their Adjournment, and that if he hath any Thing to lay before them, they are ready to receive it.

Adjournment. Then the Houſe adjourned to Ten o'Clock To-morrow Morning.

6th Mo. 8. The Gentlemen appointed to wait on the Governor with the Meſſage of Yeſternight, report, that they delivered the ſame according to Order, and that the Governor was pleaſed to ſay, he would ſend a Meſſage to the Houſe.

Alſo an Account from *David M'Neer*, of *Eighteen Shillings*, he charges for bringing *William Brown* (a young Man of *Carolina*, who had been taken Priſoner by the *Indians*) from *George Croghan's* to *Philadelphia*; were preſented to the Houſe, and read.

An Account from *John Stevens*, of *Sixty-five Pounds Fifteen Shillings*, for Dieting *French* Priſoners, was laid before the Houſe, and read.

Adjournment *Poſt Meridiem*. Then the Houſe adjourned to Three o'Clock, *P. M.*

The Governor, by his Secretary, ſent down a Meſſage in Writing to the Houſe, together with a Copy of the Minutes of Council, containing the late Treaty with ſome Deputies of the *Six Nations*, and they were read, and follow in theſe Words, *viz.*

GENTLEMEN,

A Meſſage from the Governor to the Aſſembly.

'SOME Affairs relating to this Province having been the Subject of the Conſultations of the *Six Nation Indians*, at their annual Council, held in the Spring of the Year at *Onondago*, it was there reſolved to ſend a Deputation to this City, to conſiſt of a few

'of

1749. 6th Mo. 8.

'of the Chiefs of every Nation, and a particular Time and Place of Rendezvous was 'agreed on; in Consequence whereof, the Deputies of the *Senecas* came there at the 'Time appointed, and staid a whole Month; but the other Deputies not coming, and 'they hearing no Tidings about them, concluded they were prevented by some unforeseen 'Accident, and therefore being so far on their Journey, they determined to pay a Visit 'to their Brethren of this Province, and so came here the Beginning of the last Month. 'I refer you to the Minutes of Council, which will be herewith delivered to you, for 'their Business. As the Province had been put to some Expence by them, they were 'told, on their Departure, if they met the other Deputies, to inform them what they had 'done here, and persuade them to return; and it seems they did meet them; but whether 'they delivered this Message, or no, I have no Account: If they did, it had no Effect; 'for they are now on the Road, and expected here every Day. You will therefore be 'pleased to take the necessary Care for their Reception.

'Mr. *Weiser* having defrayed the Expences of the last *Indians* in their Journey to and 'from this City, I advanced him the Sum of *Sixty Pounds* on his going away: He must 'by this Time have laid out a considerable Sum more, which you will be pleased to order 'Payment of. And though from your long Knowledge of his Merit, it might be un-'necessary in me to say any Thing in his Favour, yet as the last Set of *Indians* did Da-'mage to his Plantation, and he had Abundance of Trouble with them, and is likely to 'meet with much more on this Occasion, I cannot excuse myself from most heartily re-'commending it to you, to make him an handsome Reward for his Services.

Aug. 8, 1749. *JAMES HAMILTON.*"

[See the Conference held with the Indians.]

A Petition from *James Coultas*, of the *Market-Street* Ferry, on the River *Schuylkill*, setting forth, that having farmed the said Ferry, he hath, in order to render the same more convenient and satisfactory to Passengers, been at a very great Expence in raising, lengthening and enlarging the Wharffs and Causeways of the said Ferry, so that one Carriage may now safely pass another, and no Delay given by the grounding of the Flats at Low Water; which he had done, confiding that the Rates of Ferriage would during his Lease remain as they are; that he is at a very great Expence in keeping Three Flats and Attendants, beside smaller Vessels, for the Expedition of Passengers; and that in the Winter, during the hard Frosts, the daily Expence of keeping the Ferry open exceeds the Amount of the Ferriage, besides the additional Charge of large Fires; and if not kept open, would be exceeding dangerous, and greatly detrimental to City and Country; that for his own Satisfaction, he did, in the Year 1747, keep an Account of the Ferriage for that Year, the Balance of which was but *One Hundred Seventeen Pounds and Two-pence* of his Reimbursement, Time, Trouble, Risk and Charge, and for the Support of his Family, his chief Profits arising from his other Dealings and Business; that the Consequences of Reducing the Rates of the said Ferry, he apprehends, will be, that the Wharffs and Causeways will go to Decay, the Flats and Boats cannot be so well maintained, nor the Attendance be so good and constant, nor the same Conveniencies of Fire, Shelter, *&c.* afforded the Passengers, nor can the Keeper of the Ferry make good any Loss that may happen for Want of proper Attendance; that taking off one Half of the Rates on Horses only, would so reduce the Income of the Ferry, as to leave but about *Four Pounds Ten Shillings, per Annum*, for the Keeper's Reimbursement and Support; nor can the Value of the Land on the West-side of the River be advanced (as he conceives) by reducing the Rates of Ferriage, while the River is to be crossed in Boats, and not by a Bridge; and therefore praying that the House would take the Premises into Consideration, and act therein consistently with their accustomed Justice and Equity; was presented to the House, and read, and *Ordered to lie on the Table.*

The Petitioner's Account upon Oath, of the Produce of his Ferry for the Year 1747, was also laid before the House, and read.

A Petition from a great Number of Inhabitants on the West-side of *Sasquehannah*, seated on the Tract of Land lying North of the *South Mountain*, setting forth the many Inconveniencies they labour under by their Distance from the County Town of *Lancaster*, and the Intervention of the River; that the said Tract is of sufficient Extent for a County, and hath a great Number of Inhabitants, who are both willing and able to bear the necessary Expence of building a Court-House and Prison, and other Charges of a new County; and therefore praying that the said Tract may be divided from *Lancaster*, and made a separate County; was presented to the House, and read, and ordered to lie on the Table.

Then the House adjourned to Ten o'Clock To-morrow Morning. Adjournment 6th Mo. 9.

The Governor's Message was again read.

The Governor, by his Secretary, sent down a Letter, received from *Conrad Weiser*, relating to the *Indians*, which was read.

According to Leave given at the last Sitting, a Bill was now brought in for erecting Part of the Province of *Pennsylvania*, Westward of *Sasquehannah*, and South-eastward of the

1749. 6th Mo. 9. the *South Mountain*, into a County; and the ſame was read the firſt time, and ordered a ſecond Reading.

Ordered, That the Superintendants of the State-Houſe do (in Purſuance of the Governor's Recommendation by his Meſſage) provide a proper Place for the Reception of the *Indians* lately entered into this Province, if they proceed to this City.

Adjournment 6th Mo. 10. Then the Houſe adjourned to Ten o'Clock To-morrow Morning.

The Governor, by his Secretary, ſent down the Bill for amending the Laws relating to the Poor, &c. with ſome Amendments, and a written Meſſage; and the Bill for making current *Twenty Thouſand Pounds*, &c. with a written Meſſage; which Meſſages were read, and follow in theſe Words, *viz.*

GENTLEMEN,

A Meſſage from the Governor to the Aſſembly. 'ACCORDING to your Requeſt laſt Seſſion, I ſend you the Bill for amending the Laws relating to the Poor, with Amendments. As nothing can afford me greater Pleaſure than Unanimity in the two Parts of the Legiſlature, I hope it will appear to you, on Conſideration, that the Matters I have thought proper to be omitted, are amply provided for by the Laws now ſubſiſting, and that all the new Proviſions, tending to the Utility of the Inhabitants of this City and Province, are retained.

Auguſt 10, 1749. *JAMES HAMILTON.*"

GENTLEMEN,

Another Meſſage from the Governor to the Aſſembly. 'AS we have certain Information that a Bill was brought into the Parliament of *Great Britain*, at their laſt Seſſions, for reſtraining his Majeſty's Colonies in *America* from iſſuing Paper Bills of Credit to paſs in Lieu of Money; and as we are hitherto uncertain what may have been the Fate of that Bill, I am of Opinion it may be highly imprudent, and attended with very bad Conſequences to the Province, ſhould we take upon us to paſs a Law for increaſing the Quantity of our Currency, until ſuch Time as we are better acquainted with the Sentiments of our Superiors, upon a Subject they have had ſo lately under Conſideration.

Auguſt 10, 1749. *JAMES HAMILTON.*"

A Petition from *Mary Gray*, Widow, of the *Lower-Ferry*, on the River *Schuylkill*, ſetting forth, that her late Huſband *George Gray*, purchaſed the ſaid Ferry for *Eleven Hundred and Fifty Pounds*, ſubject to the yearly Rent of *Thirty Pounds* to the Proprietaries, and made ſundry Improvements in the Houſe, Cauſeways, Flats, &c. to the Amount of near *Three Hundred Pounds* more; that the ſaid *George Gray* by his laſt Will deviſed the ſame to the Petitioner, under the yearly Rent aforeſaid, and the further Incumbrance of *Five Hundred Pounds*, being one Half of his Debts at the Time of his Deceaſe, to be paid out the Iſſues and Profits of the ſaid Ferry: And that, if the Rates be reduced, the Petitioner will be rendered unable to ſupport the Attendance that is now given, or to keep the Ferry open in Winter, which is a much greater Expence than the Ferriage amounts to, and if neglected would be a Loſs to both City and Country, as much leſs Proviſion would be brought to Town: And therefore praying that the Houſe would conſider the Premiſes, and permit the Petitioner to have a Hearing thereupon, before they take any Meaſures for reducing the Rates of the ſaid Ferry; was preſented to the Houſe, and read, and *Ordered to lie on the Table.*

A Repreſentation from the Secretary, of the Damage done by a Party of *Indians* to *Jane Teer*, a poor Widow of *Lancaſter* County, was laid before the Houſe, and read.

The Committee appointed to audit and ſettle the Accounts of the General Loan-Office, and other Public Accounts, made their Report in Writing, which was read, and ordered to lie on the Table for the Peruſal of the Members.

The Bill for erecting Part of the Province of *Pennſylvania*, Weſtward of *Saſquehannah*, and South-eaſtward of the *South Mountain*, into a new County, was read a ſecond time, and the further Conſideration thereof referred to the Afternoon.

Adjournment *Poſt Meridiem* Then the Houſe adjourned to Three o'Clock, *P. M.*

A Petition from a Number of Inhabitants on the Weſtern Side of the River *Schuylkill*, ſetting forth, that divers of the Petitioners are Deſcendants of the earlieſt Adventurers into the Province, who had their Proportions of their *Britiſh* Purchaſes, laid out on the Weſt-ſide of *Schuylkill*, before it was known on which of the two Fronts the City would be built; that *Delaware* Front being found moſt commodious, and the City thereon increaſing, Ferries over *Schuylkill* became neceſſary, and were in early Times eſtabliſhed at ſuch Rates as were then thought reaſonable; that as the Settlements on the Weſtern Side of the ſaid River are now abundantly increaſed, and the Cuſtom of thoſe Ferries more than four times as much as formerly, the Petitioners conceive it a Grievance to them that no Abatement is made of the Price; and therefore praying that the Houſe would conſider the Premiſes, and grant ſuch Relief as ſhall ſeem meet; was preſented to the Houſe, and read, and *Ordered to lie on the Table.*

A Petition from ſundry Inhabitants of the County of *Lancaſter*, ſetting forth, that the

the said County having been erected since the Passing a Law for Building Houses of Correction and Work-houses in the respective Counties of this Province, the Inhabitants thereof are thought not to be entitled to the Benefits and Privileges of the same; that the Inhabitants of the said County are now very numerous, and suffer great Inconveniencies for Want of a House of Correction and Work-house, for the Correcting and Keeping to Labour Vagabonds, disorderly Servants, and others, who are subject by the Laws to be punished in that Manner; and therefore praying an Act may be passed to invest the Justices of the said County with Power to erect a House of Correction and Work-house in the same County, and all other suitable Powers for rendering the same effectual, for the Purposes above-mentioned, agreeable to the Law now in Force for the other Counties in this Province; or in such other Manner as to the House shall seem meet; was presented to the House, and read, and *Ordered to lie on the Table.* 1749. 6th Mo. 10.

The House proceeded in Reading the Bill for erecting Part of the Province of *Pennsylvania*, Westward of *Susquehannah* and South-Eastward of the *South Mountain*, into a County.

Resolved, That the Northern and Western Boundary of the said County be a Line drawn on the Ridge of the *South Mountain*.

Resolved, That the Bill be committed for Amendment to *Thomas Leech*, *Abraham Chapman*, *Owen Evan*, *George Ashbridge*, *James Webb* and *Peter Worral*.

The Consideration of the Petition from the Inhabitants on the North-side of the *South Mountain*, is referred to To-morrow Morning.

Then the House adjourned to Ten o'Clock To-morrow Morning. Adjournment

The Petition from a great Number of Inhabitants of *Lancaster* County, inhabiting the Lands lying on the North-side of the *South Mountain*, and praying the same may be erected into a new County, was again read;

Ordered, That the Petitioners Agents have Leave to attend the House this Afternoon, in Support of their Petition.

Then the House adjourned to Three o'Clock, *P. M.* Adjournment

The Agents for the Petitioners for a New County, North of the *South Mountain*, attending, were called in, and having said what they thought fit in Support of their Petition, and answered such Questions as were asked them for the Satisfaction of the House, they withdrew. *Post Meridiem*

Ordered, That the further Consideration of the said Petition be adjourned to the next Third-day Morning.

The Gentlemen to whom the Bill for erecting Part of the Province of *Pennsylvania*, Westward of *Susquehannah* and South-Eastward of the *South Mountain*, into a County, was committed brought in the same, with some additional Clauses relating to the Collecting of the Excise, which were read, and the Bill was ordered to be transcribed for a third Reading.

Then the House adjourned to Ten o'Clock To-morrow Morning. Adjournment

An Account from *William Dunwick*, amounting to *Four Pounds Nine Shillings and Three-pence*, for amending *Indian* Guns, *&c.* was laid before the House, and read, and allowed. 6th Mo. 12.

Ordered, That the Superintendants of the State-House take Care of recovering the Debts due from the Estate of *Daniel Pegg*, deceased, to the Public; and the Bonds were accordingly put into their Hands.

The Gentlemen appointed to inspect the Laws of this Province relating to Ferries, report, that they are all expired; but that the Rates at present taken, are generally such as were formerly allowed by those Acts.

Resolved, That the Consideration of those Acts, and of the Petitions relating to Ferries, be recommended to the Consideration of the next Assembly, there not being Time at present to proceed thereupon.

An Account from *Richard Sewell*, Sheriff of *Philadelphia* County, of *Four Pounds Four Shillings*, Charges paid by him to Persons who went in Search of some absconded Coiners, was laid before the House, read, and allowed.

The Petition from the Inhabitants of *Lancaster* County, for a Law to enable them to build a Work-house and House of Correction, was again read.

Then the Speaker, with the whole Houſe, waited on the Governor.

The Speaker reported, that the Houſe had waited on the Governor, and preſented their Speaker, and that the Governor was pleaſed to approve their Choice. That the Speaker had then, in the Name and Behalf of the Houſe, claimed the uſual Privileges, *viz.*

That the Houſe, during the Time of their Sitting in Aſſembly, may enjoy Freedom of Speech in all their Propoſitions and Debates.

That the better to diſcharge the Buſineſs of the Public, they may at all ſeaſonable Times have free Acceſs to the Governor.

That their Perſons and Eſtates may be protected from all Arreſts, during the Time of Privilege accuſtomed.

That it would pleaſe the Governor to take no Notice of any Report that may be made, touching any Matter or Thing that may be moved or debated in the Houſe, until the ſame ſhall have paſſed into a Reſolve, nor give the leaſt Credit to ſuch Report. And laſtly,

That his own (the Speaker's) unwilling Miſtakes may be excuſed, and not imputed to the Houſe.

All which he had requeſted as the juſt Rights and Privileges of the People of *Pennſylvania*, derived and confirmed to them by the Charters and Laws of this Province. To which the Governor was pleaſed to anſwer, that he looked upon thoſe Privileges as eſſential to the very Being of Aſſemblies, and that they ſhould be by him inviolably preſerved.

Then the Qualifications by Law directed, were taken and ſubſcribed, firſt by the Speaker in the Chair, and then at the Table by all the reſt of the Members preſent, in their Order.

And he took and ſubſcribed the uſual Qualification accordingly.

Reſolved, That *Edward Kelly* be Door-keeper to this Houſe for the enſuing Year.

The Governor, by his Secretary, ſent down a written Meſſage to the Houſe, with ſundry Papers therein referred to, which were read, and the ſaid Meſſage follows in theſe Words, *viz.*

GENTLEMEN,

A Meſſage from the Governor to the Aſſembly.

'BY the Letter herewith delivered you, which I have lately had the Honour to receive from his Grace the Duke of *Bedford*, one of His Majeſty's principal Secretaries of State, you will perceive that the Paper Money of the ſeveral Plantations in *America*, is again like to come under the Conſideration of the Parliament at their next Seſſions, which will probably be in the Month of *December*, or *January*: And as I eſteem it a principal Part of my Duty to have a watchful Care for the true Intereſt of the People under my Government, I have made uſe of the earlieſt Opportunity to communicate to you, their Repreſentatives, His Majeſty's Orders to me upon that Head, thereby putting it in your Power to obviate any Prejudices or miſtaken Notions that may have been conceived with Regard to the Currency of this Province, before they can be carried into Execution.

'I take it for granted, we are all ſenſible of the miſchievous Tendency of the Bill that was brought into Parliament the laſt Year, to regulate and reſtrain Paper Bills of Credit in the Plantations; and as it is not improbable that ſomething of the ſame Kind may

'be

1749. 8th Mo. 16.

'be again offered in the ensuing Session, I persuade myself you will think it convenient 'to give your Agent full Instructions upon this Subject, in case it should become ne- 'cessary for him to oppose it. The honourable Proprietaries at that Time laboured 'indefatigably, and with Success, to avert the Mischiefs that threatened this Province, 'from the passing of the said Bill; and I have it in Command from them, to assure you 'of their Assistance upon all future Occasions, wherein the Welfare and Happiness of 'the People of this Province may be concerned.

'Although this be not the usual Time of your Sitting to do Business, yet I hope, in 'Consideration of the Importance of this Matter, you will, before your Adjournment, 'furnish me with a clear and exact State of our Paper Currency, to be transmitted forth- 'with, pursuant to the Directions contained in the Letter before mentioned.

'The last Assembly having adjourned before I had finished with the *Indians*, I could 'only acquaint them with a Part of their Business; what passed afterwards between me 'and them, you will see in the Minutes of Council, which the Secretary has my Orders 'to lay before you.

'The Committee of Assembly appointed to take Care of the *Indians*, conceiving that 'they had no Authority to make any further Provision for them, than during their Stay 'in the City, the Interpreter, at my Request, defrayed the Expences in their Return, 'which you will please to order to be repaid to him.

Oct. 16, 1749. *JAMES HAMILTON.*"

To JAMES HAMILTON, *Esq; Deputy Governor of His Majesty's Province of* Pennsylvania, *in* America, *and in his Absence, to the Commander in Chief of the said Province for the Time being.*

SIR,

'UPON the 30th of *May* last, the House of Commons presented an humble Ad- 'dress to the King, desiring, that His Majesty would be graciously pleased to give 'Directions, that there be laid before that House, in the next Session of Parlia- 'ment, an Account of the Tenor and Amount of all the Bills of Credit, which have 'been created and issued in the several *British* Colonies and Plantations in *America*, as 'well those under Proprietors and Charters, as under His Majesty's immediate Com- 'mission and Government, that shall be then outstanding, distinguishing the Amount 'of the same in each Colony or Plantation, and the respective Times, when such Bills 'so outstanding, were issued, with the Amount of the said Bills in Money of *Great- 'Britain*, both at the Times when such Bills were issued, and at the Time of preparing 'the said Account, and also the Times fixed for the calling in, sinking and discharging 'such Bills, and the Funds appropriated for that Purpose. And I am now in Conse- 'quence thereof, commanded by His Majesty, to signify His Pleasure to you, that you 'should order all such Accounts, so far as they relate to your Government, to be pre- 'pared and transmitted forthwith to me, that I may lay the same before His Majesty, and 'receive His farther Pleasure thereupon, with regard to their being laid before the 'Parliament.

I am, Sir, your most obedient humble Servant,

Whitehall, July 19, 1749. *BEDFORD.*"

[See the Minutes of Council, dated *August* 16, 1749.]

The Minutes of Council, *&c.* being read,

The House adjourned to Three o'Clock, *P. M.*

Adjournment *Post Meridiem*

Richard Walker, returned a Representative for the County of *Bucks*, and *Nathaniel Grubb*, returned a Representative for the County of *Chester*, appearing in the House, took and subscribed the Qualifications required to be taken by Members of Assembly, and then took their Places in the House accordingly.

The Governor's Message was again read, and considered.

Ordered, That *Thomas Leech*, *Isaac Norris*, *Israel Pemberton*, *James Morris* and *Edward Warner* be a Committee to prepare the Draught of an Answer to the Governor's Message, and an Account of the State of the Paper Money of this Province, to be transmitted Home, in Obedience to the Commands of the Crown.

A Petition from *James Webb*, of *Lancaster* County, was presented to the House and read, setting forth, that he is credibly informed it is the Opinion of a great Number of the Freeholders and other Electors of the said County, that he had, at the last Election, a considerable Majority of lawful Votes to be a Representative of the said County; but that by the Frauds then committed, which he doubts not will appear to the House, in the Depositions to be laid before them, he was not returned: And as the good People of this Province will be deprived of one of their most valuable Privileges, if such Frauds and irregular Practices are suffered to continue without Notice, the Petitioner prays that the House would take the same into Consideration, and apply such Remedy in the present Case, and take such Measures to prevent the like hereafter, as to their Wisdom shall seem meet.

Ordered to lie on the Table.

1749. 8th Mo. 16. Sundry Petitions from a Number of Freeholders of *Lancaſter* County, were alſo preſented to the Houſe and read, ſetting forth, that at the laſt Election for the ſaid County, the People preſſed and crouded in a Body to deliver their Tickets, which ſome preſented to the Inſpectors at the Ends of cloven Sticks, who received them in ſuch Numbers, and in ſo tumultuous a Manner, that it was impoſſible the Names of the Voters ſhould be known and entered, as the Law and the Qualifications of the Inſpectors require; by which Means great Frauds were committed, Tickets put in by Boys, and repeated ſeveral times unnoticed by the Inſpectors, ſo that the Number of Votes in the caſting up, amounted to above double the Number of Voters in Town, from the beſt Obſervations and Calculation. That it is apprehended, the Officer and Perſons appointed to aſſiſt him in holding the Election, from the Diſuſe of calling for the Liſt of Voters, and comparing it with the Number of Tickets read, in order to diſcover Frauds, have been encouraged to proceed in the Manner above: And praying that the Houſe would take the Premiſes into Conſideration, and order the Sheriff and Inſpectors to appear before the Houſe with their Liſts of Voters to be examined, by which the Petitioners doubt not the Fraud will appear, without further Scrutiny, and the Election be deemed void; and that the Houſe would grant ſuch other Relief in the Premiſes, and for the future Preſervation of the Rights of Electors, and preventing Frauds, as ſhall ſeem meet.

Ordered to lie on the Table.

Sundry Affidavits accompanying the foregoing Petitions, were alſo read, and referred to further Conſideration.

Reſolved, That *Richard Partridge*, Eſq; be continued Agent of this Province at the Court of *Great-Britain* for the enſuing Year.

Ordered, That *Iſaac Norris*, *Iſrael Pemberton* and *Thomas Leech* be, with the Speaker, a Committee of Correſpondence.

Ordered, That *Iſaac Norris*, *Edward Warner*, *Thomas Leech*, *Oſwald Peele*, *Mahlon Kirkbride* and *Thomas Cummings* be a Committee to audit and ſettle the Accounts of the General Loan-Office, and other public Accounts, and to ſink and deſtroy the Bills of Credit received in Exchange, purſuant to the late Paper Money Acts; and they have Power to ſend for Perſons, Papers and Records.

Ordered, That *Thomas Leech*, *Joſeph Trotter*, *Joſeph Hamton*, *George Aſhbridge*, *James Wright* and *John Wright* be a Committee of Aggrievances for the enſuing Year; and they have Power to ſend for Perſons, Papers and Records.

Ordered, That the Minutes be printed, and that *Thomas Leech* and *Iſrael Pemberton* be a Committee to reviſe them before they are printed.

The Interpreter's Account of Expences on the *Indians* in their Return, laid before the Houſe by Order of the Governor, is referred to the Committee appointed to prepare an Anſwer to the Governor's Meſſage, who are to report thereon to the Houſe.

Adjournment. Then the Houſe adjourned to Ten o'Clock To-morrow Morning.

8th Mo. 17. *Hugh Evans*, returned a Repreſentative for the County of *Philadelphia*, appeared in the Houſe, and took and ſubſcribed the Qualifications by Law required of Members of Aſſembly, and then took his Place in the Houſe accordingly.

The Committee of Aggrievances preſented a Paper to the Houſe, which was read, and follows in theſe Words, *viz.*

Report of the Committee of Aggrievances. WE, the Committee of Aggrievances, do humbly repreſent to this Houſe, that the Bounty allowed by a late Law upon Squirrel Scalps, is a very great Grievance; and the Expences thereby ariſing, are likely to prove ſo large, that the Taxes allowed to be raiſed by the County Levy Act will not be ſufficient to defray the ſame. And we are of Opinion, that the ſaid Act, granting the Bounty, has not anſwered the End deſigned thereby; therefore we do humbly propoſe that the ſaid Act be repealed.

THOMAS LEECH, JAMES WRIGHT,
JOSEPH TROTTER, JOHN WRIGHT."

Reſolved, That the Conſideration of the Squirrel Act be poſtponed to the next Sitting.

Ordered, That the Petitioners ſerve the Sheriff and Inſpectors of the late Election in the ſaid County, with Copies of their Petitions, and of the Affidavits accompanying them; and give the ſaid Sheriff and Inſpectors Notice to attend the Houſe on the firſt Day of the next Sitting. And that the Complainants and their Witneſſes attend at the ſame Time.

Adjournment. Then the Houſe adjourned to Three o'Clock, *P. M.*

Poſt Meridiem The Gentlemen appointed by the laſt Aſſembly to take Care of the *Indians* during their Stay in Town, made a Report of their Doings, and laid their Accounts before the Houſe, which were read, and approved of.

The Committee to whom the Interpreter's Account was referred, report, that they have

have examined the same, amounting to £ 87 19 2, and are of Opinion it ought to be allowed; which was agreed to by the House, and an Order drawn accordingly for the Payment. 1749. 8th Mo. 17.

Then the House adjourned to Ten o'Clock To-morrow Morning. Adjournment

A Petition from *William Magaw* and *James Silver*, in Behalf of themselves and others, the Inhabitants of the North Valley, on the West-side of the River *Susquehannah*, in the County of *Lancaster*, was presented to the House and read, setting forth, that the Inhabitants of the said Valley are at a very great Distance from *Lancaster*, by Reason whereof, and of the Difficulty of passing *Susquehannah* in the Winter Season, they cannot often attend the Courts; and the Expence of bringing Criminals to Justice, and of serving Writs and other Processes at Common Law is very heavy and grievous to the said Inhabitants, the poorer Sort of whom are often obliged to suffer Felony and other enormous Crimes to pass unpunished, rather than attend the Prosecution of them at so great a Distance; which tends to the Increase of such Crimes, and the Encouragement of evil disposed Persons to harbour and lurk in Places where the Means of bringing them to Justice are attended with so many Inconveniences; that the Inhabitants of the said Valley and Places adjacent, are more numerous and their respective Townships larger, and at a greater Distance from the Town of *Lancaster* than those of the Southern Valley, lately made into a distinct County; and therefore praying, that the House would take the Premises into their prudent and equitable Consideration, and grant the Petitioners Leave to bring in a Bill for making the said Northern Valley and Places adjacent a County of itself, distinct from the County of *Lancaster*, in such Manner as to the House shall seem meet. 8th Mo. 18.

Ordered to lie on the Table.

The Committee appointed to prepare a Draught of an Answer to the Governor's Message, reported the same to the House, and it was read by Order, and ordered to be transcribed, that it may be sent up to the Governor.

The Committee also made a Report on the State of the Currency of this Province in Writing, which was read and approved, and follows in these Words, *viz.*

In Obedience to the Order of the House, we have taken into our Consideration the present State of the Bills of Credit which have been issued, and are now current in the Province of Pennsylvania, *and the Times appointed by Law for paying in and sinking the same; together with the Value of the whole Sum of those Bills in Sterling Money of* Great-Britain. *And we do report,*

A Report of the Committee on the State of Paper Currency.

THAT in the Year 1739, an Account was settled by the Assembly, of all the Bills of Credit issued by several Acts from their first Emission in the Year 1723, to that Time; by which it appears, that the Sum of £ 80,000, and no more, was then current in this Province; which being reduced to Sterling Money of *Great-Britain*, amounted to £ 50,196. At which Time also, the same Assembly, upon an exact and careful Enquiry, settled the Rates of Gold and Silver Coin, by ascertaining the Prices at which they were received and paid, or bought and sold, from the Year 1700 to that Year. Since which, our Bills of Credit have continued nearly the same, both in the total Sum, and the Value, when reduced to Gold and Silver, or Sterling Money. But such Alterations and Addition as have been since made, we have comprized in the following Account.

In the Year 1745, an Act of Assembly was past for continuing the Currency of the aforesaid £ 80,000 for sixteen Years; during the first ten Years whereof, the whole Sum is to be kept up, by lending out, or re-emitting the yearly Quotas, or Payments, as they become due, upon the same real Securities, and under the same Penalties and Restrictions, as directed by former Acts: In which, besides obliging the Borrowers to give Land, Plate or Houses in Security, of double the Value of the Sum borrowed, it is further provided, that no one Person shall borrow more than £ 100. And after the Expiration of ten Years as aforesaid, the Act provides, that one sixth Part of all the Bills of Credit shall be paid in yearly, in order to be sunk and destroyed; by which Means the whole £ 80,000 is to be paid in and destroyed in sixteen Years from the Time of issuing those Bills, which was the 15th of *October*, 1746.

In the Year 1746, an Act was past giving £ 5,000 to the King's Use, to be sunk in ten yearly Payments, of £ 500 each, by the Treasurer, out of Money arising from the Excise, yearly payable into his Hands. Which Bills of Credit were accordingly made and issued, in Pursuance of the said Act, and applied by Colonel *Thomas*, then Lieutenant Governor, to an Expedition at that Time on Foot against *Canada*: So that the whole Amount of Bills of Credit current in this Province at this Time is £ 85,000, and no more; which reduced to Sterling Money of *Great-Britain* is £ 53,333 6 8.

Permit us to add, that our Paper Bills being found by Experience much below the Sum necessary to carry on our Trade, which of late Years has been very much encreased, especially to *Great-Britain*; and yet should we be deprived of those Paper Bills, small as the Sum is, it would in a great Measure disable us from paying the yearly Balance of

Trade

1749. *8th Mo.* 18. Trade againſt us to our Mother Country, and conſequently oblige us to engage in ſundry Manufactures here, which we have from thence. Though our Payments at this Time are chiefly in Gold and Silver, which for ſeveral Years have paſſed current among us at *Eight Shillings* and *Six-pence per* Ounce for Silver, and *Six Pounds Five Shillings per* Ounce for Gold; and at thoſe Rates are continually remitted Home, but muſt be detained here, if we are deprived of our other Currency.

Submitted to the Correction of the Houſe, by

ISRAEL PEMBERTON, EDWARD WARNER,
THOMAS LEECH, JAMES MORRIS."

Adjournment *Poſt Meridiem* Then the Houſe adjourned to Three o'Clock, *P. M.*

The Meſſage to the Governor being tranſcribed, was read, and follows in theſe Words, *viz.*

May it pleaſe the GOVERNOR,

A Meſſage from the Aſſembly to the Governor. WE gratefully acknowledge 'the watchful Care,' the Governor hath been pleaſed to take 'for the true Intereſt of the People under his Government,' whom we repreſent; in having made uſe of this early Opportunity to put it in our Power, 'to obviate any Prejudices or miſtaken Notions, that may have been conceived with Regard 'to the Currency of this Province, before they are carried into Execution.'

Senſible of 'the miſchievous Tendency of the Bill that was brought into Parliament 'the laſt Year, to regulate and reſtrain Paper Bills of Credit in the Plantations:' And apprehenſive 'that ſomething of the ſame Kind may again be offered, in the enſuing 'Seſſion,' we are fully of Opinion with the Governor, 'to give our Agent full Inſtructions on the Subject,' that 'in caſe it ſhould become neceſſary, he may oppoſe it.'

We alſo gratefully acknowledge the Obligations we are under to our Proprietaries, both for the Aſſiſtance they have already been pleaſed to afford us, in relation to our Bills of Credit, as alſo for ſuch as they promiſe us in future.

Though it be not the uſual Time of our Sitting to do Buſineſs, yet the Importance of the Matter recommended to us, is ſuch, that purſuant to the Governor's Recommendation, we have thought it neceſſary 'to furniſh the Governor with a clear and exact 'State of our Paper Currency, to be tranſmitted forthwith,' purſuant to the Directions he hath received. To this End, a Committee were appointed, whoſe Report, which hath been approved of by the Houſe, we ſend herewith, from whence we think it will evidently appear, that due Care hath been taken to ſupport its Credit, and that the Sum total in Proportion to our Commerce, is very ſmall. And yet ſmall as it is, were we deprived of it, would have a Tendency to diſable us from paying the Balance of Trade againſt us, to our Mother Country, and conſequently put us under the Neceſſity of engaging in divers Manufactures here, which at preſent we are ſupplied with at cheaper Rates from thence.

We ſhall take the neceſſary Care to diſcharge the Remainder of the Money due for the Maintenance of the *Indians*, in their Return homewards; we obſerve their frequent Viſits put the Province to conſiderable Charge, whereas Part of their Buſineſs often is either for the Sale of Land to the Proprietaries, or other Matters relative thereunto: We therefore hope the Governor will take an Opportunity of recommending it to the Proprietaries, that they may bear a Share of the Expence, who receive ſo great a Part of the Benefit by the coming of the *Indians*."

And the ſaid Meſſage being ſigned by the Speaker, per Order of the Houſe,

Ordered, That *Thomas Leech* and *James Morris* wait upon the Governor with the ſame, and with the Copy of the Report of the Committee relating to the Currency; and acquaint him that the Houſe inclines to adjourn to the 20th of *November* next, if he hath no Objection to that Time.

The Gentlemen return and report, that they waited on the Governor, and delivered what they had in Charge, according to Order, and that the Governor was pleaſed to ſay, he had no Objection to the propoſed Time of Adjournment.

Adjournment Then the Houſe adjourned to the 20th Day of *November* next.

9th Mo. 20. THE Houſe met purſuant to their Adjournment.

Ordered, That *Edward Warner* and *James Morris*, wait upon the Governor, and acquaint him, that the Houſe is met according to their Adjournment, and ready to receive any Thing he may have to lay before them.

Adjournment Then the Houſe adjourned to Ten o'Clock To-morrow Morning.

9th Mo. 21. *John Hall*, returned a Repreſentative for the County of *Bucks*, appearing in the Houſe, took and ſubſcribed the Qualification by Law appointed to be taken and ſubſcribed by Members of this Houſe, and then took his Seat in the Houſe accordingly.

The Gentlemen appointed to wait on the Governor with the Meſſage of Yeſternight, report, that they delivered the ſame according to Order; and that the Governor was

pleaſed

pleased to say, if any Thing should occur to him proper for the Consideration of the House, during their Sitting, he would communicate it by Message. 1749. 9th Mo. 21.

The Petition of *James Webb*, and the other Petitions from a Number of the Freeholders of *Lancaster* County, complaining of an undue Election and Return for the said County, were again read.

And the House being informed that the Petitioners are attending, and desire to be heard by Counsel in support of their Petition;

Ordered, That the Petitioners have Leave to be heard by Counsel at the Bar of the House; and that the Sheriff and Inspectors have also Leave to be heard by Counsel in support of the Election, if they think fit.

The Petition of *William Magaw* and *James Silver*, Agents for the Inhabitants of the *North Valley*, over *Susquehannah*, in Behalf of themselves and the said Inhabitants, praying that the said Valley may be erected into a separate County, was again read, and

Referred to further Consideration.

Ordered, That both the Parties concerned in the Affair of the *Lancaster* Election attend the House this Afternoon, in order to a Hearing; and that Notice be given them accordingly by the Sergeant at Arms.

Then the House adjourned to Three o'Clock, *P. M.* Adjournment *Post Meridiem*

An Account of Goods presented to the *Indians* at the last Treaty, amounting to £. 507 16*s* 2*d*. was laid before the House, and allowed to be paid to the several Persons who furnished the same.

A Petition from the Sheriff and two of the Inspectors at the late Election for *Lancaster* County, was presented to the House and read, setting forth, that not being served with timely and due Notice of the Order of this House at the last Sitting, it was rendered impracticable for the Petitioners to bring several material Evidences who could justify the Proceedings at the said Election; and therefore praying farther Time may be allowed, before the House proceed to a Hearing and Determination on the said Affair.

Ordered to lie on the Table.

The House being informed, that the Parties are attending according to the Order of the Day, they were called in; and the Petitioners against the said Election being informed by the Speaker of the Complaint that they had not given due Notice to the Sheriff and Inspectors of the Order of the House; they acquainted the House at what Times, and in what Manner they had given the said Notice: And the Counsel for the Defendants alledging that such Notice was not sufficient, and therefore praying farther Day: And the Counsel for the Petitioners urging that they had been at great Expence, which would be lost if the Hearing should be postponed; that the Burthen of proving Lies upon them, and that they are now ready with their Witnesses to prove the Allegations in their several Petitions; and therefore praying that the House would at this Time proceed to the Hearing:

The Parties were ordered to withdraw.

And after some Consideration and Debate, it was

Resolved, That the House will proceed to hear the Petitioners at this Time, and also what the Sheriff and Inspectors may have to offer in their Justification; and if they have any material Witnesses that cannot now be adduced, they shall be allowed farther Day.

And the Parties being called in and acquainted with the Resolution of the House;

The House adjourned to Ten o'Clock To-morrow Morning. Adjournment

A Petition from sundry Inhabitants of the City of *Philadelphia* was presented to the House and read, setting forth that it hath been the frequent Practice of the Merchants concerned in the Importation of *Germans* and other Foreigners into this Province, for the sake of Lucre, to receive into their Vessels a much greater Number than could be fitly accommodated; whereby epidemic Diseases have been produced amongst them, and a great Mortality hath ensued, to the Loss of some Hundreds in one Vessel, and the great Affliction and Discouragement of their surviving Relations, some of which have been obliged by their own Labour to defray the Freight (or Passage-Money) of the Dead: That sundry other Inconveniencies have arisen to these poor Strangers from this Practice; and particularly their being obliged to leave their Chests, Clothes and other Furniture behind them, to their great Perplexity afterwards, if not their entire Loss of them: That besides the Injury done to these *Germans* by this iniquitous and infamous Practice, the Inhabitants of this Province become greatly endangered by the Importation of mortal Distempers, which are found by sorrowful Experience to be easily propagated in this Climate; that the Want of suitable Buildings and other Conveniencies for the comfortable Reception and Accommodation of such distempered Strangers, has probably forwarded, and perhaps occasioned the Death of many, as it has made it difficult and almost impossible to procure faithful Persons to take the necessary Care of them; by which Neglect the Sick have been induced to leave the Places appointed for them, and to wander from one Place to another, to the manifest Danger of the Inhabitants, by spreading the Distempers they were infected with, over this and the neighbouring Provinces: And 9th Mo. 22.

1749. 9th Mo. 22. praying, that the Houſe would take the Premiſes into Conſideration, and make ſuch Proviſion for the Prevention of ſuch Practices, the Relief of thoſe Strangers, and the Safety of the Inhabitants, as to their Wiſdom ſhall ſeem meet.

Ordered to lie on the Table.

The Houſe proceeded to the Hearing of the Matters contained in the ſeveral Petitions complaining of an undue Election and Return for the County of *Lancaſter*.

And the Parties with their Counſel being called in;

The Counſel for the Petitioners was heard, and examined ſeveral Witneſſes on their reſpective ſolemn Affirmations, in order to prove, that the Election was carried on in ſo tumultuous a Manner, that no regular Liſt could be taken of the Voters Names; that Votes by Proxy were allowed, particularly two received by *Chriſtian Herr*, one of the Inſpectors; that Votes given in by Perſons under Age were allowed, and received by the Inſpectors in great Numbers, particularly one received by *Iſaac Saunders*, an Inſpector; that Perſons acted as Inſpectors, who were not legally choſen; that many of the Voters voted repeatedly, ſome three, four, five, and ſome ten Times; that one of the Candidates, who is returned a Repreſentative, encouraged the giving in more Votes than one by the ſame Perſon in his Favour; and that the Number of Voters did not exceed a Thouſand, though the Tickets found in the Box were more than *Two Thouſand Three Hundred.*

And the Counſel for the Petitioners having gone through Part of their Evidence, the Parties were ordered to withdraw.

Ordered, That the further Hearing of the Matters of the ſeveral Petitions complaining of an undue Election and Return for the County of *Lancaſter* be adjourned to the Afternoon.

Adjournment. Then the Houſe adjourned to Three o'Clock, *P. M.*

Poſt Meridiem. The Houſe proceeded to the further Hearing of the Matters of the ſeveral Petitions complaining of an undue Election and Return for the County of *Lancaſter*;

And the Parties being called in;

The Counſel for the Petitioners examined ſeveral other Witneſſes in ſupport of their Petitions, and to make good their ſeveral Allegations againſt the Regularity and Validity of the Election.

Then the Parties were ordered to withdraw.

Ordered, That the further Hearing of the Matters relating to the ſaid Election, be adjourned till To-morrow Morning.

Adjournment. Then the Houſe adjourned to Ten o'Clock To-morrow Morning.

9th Mo. 23. A Repreſentation from *David Stephens* was laid before the Houſe and read, ſetting forth, that the Law to prevent the killing of Deer out of Seaſon, does not anſwer the good Purpoſes for which it was intended, the Penalty being too ſmall, and the Time allowed for killing Deer too long; that in ſome Years a greater Number of Deer are killed when out of Seaſon than in Seaſon, though neither Fleſh nor Skins are then of much Value; and therefore recommending an Amendment of the ſaid Law to the Conſideration of the Houſe. *Ordered to lie on the Table.*

A Petition from a Number of Inhabitants of the County of *York*, ſetting forth, that the Expence of paying *Three-pence* per Head for every Squirrel killed in the ſaid County, according to a late Law of this Province, will vaſtly exceed the Damage done by thoſe Creatures, and occaſion a Tax in that new County too heavy to be borne, as they have now all the neceſſary public Buildings to erect, which muſt likewiſe be paid for by a Tax on the Inhabitants; and therefore praying that the ſaid Act may be repealed; was preſented to the Houſe, and read, and *Ordered to lie on the Table.*

The Houſe proceeded to the further Hearing of the Matters of the ſeveral Petitions complaining of an undue Election and Return for the County of *Lancaſter*;

And the Parties being called in;

The Counſel for the Petitioners examined ſeveral other Witneſſes, in further ſupport of the Allegations of the ſeveral Petitions.

Then the Parties were ordered to withdraw.

Ordered, That the further Hearing of the Matters contained in the ſaid Petitions be adjourned to the Afternoon.

Adjournment. Then the Houſe adjourned to Three o'Clock, *P. M.*

Poſt Meridiem. The Houſe proceeded to the further Hearing of the Matters of the ſeveral Petitions complaining of an undue Election and Return for the County of *Lancaſter*.

And the Parties being called in;

The Counſel for the Petitioners examined another Witneſs in ſupport of their Allegations, who laid before the Houſe ſeveral Papers, ſaid to be Liſts taken of the Voters Names by ſome of the Clerks at the *Lancaſter* Election: And having gone through their Evidence;

The Counſel for the Sheriff and Inſpectors was heard, who moved, that the ſaid Inſpectors might be firſt examined concerning the general Conduct of the ſaid Election,

which

which they had a Number of Witneſſes to prove had been carried on fairly and impartially: But the Counſel for the Petitioners oppoſing it as irregular, that the Inſpectors, who were all involved in the Accuſation, ſhould be allowed on their own Qualifications to exculpate themſelves, and praying that the Houſe would not admit them ſo to do, but examine their Witneſſes only. 1749. 9th Mo. 23.

The Parties were ordered to withdraw.

And after ſome Time ſpent in Debate thereupon, the further Conſideration thereof was adjourned till To-morrow Morning.

Then the Houſe adjourned to Ten o'Clock To-morrow Morning. Adjournment

Then the Parties were called in;

And the Council for the Sheriff and Inſpectors produced the Liſts and Papers of two of the ſaid Inſpectors, which were ſaid to be all that could at preſent be procured; and then proceeded to examine Witneſſes, on their ſeveral Affirmations, to prove, that the Election had been carried on as fairly, quietly and regularly, as had been known there for many Years; that the Tickets ſaid to be given in by Proxy were only of two Perſons, who ſtood within Sight and Hearing of the Inſpectors, and owned their Tickets, though by Reaſon of the Preſs they could not come near enough to deliver them with their own Hands; that Votes offered by Perſons under Age, and others, who had no Right to vote, or had voted before, though received by the Inſpectors to get rid of their Importunity, were not put into the Box, but torn and deſtroyed; that the Perſon ſaid to have acted as an Inſpector, though not legally choſen, only received a few Tickets, was pulled off the Table as ſoon as he was perceived receiving them by the Inſpectors, and the Tickets he had taken were deſtroyed; that the particular Charge againſt the Candidate returned could not, from ſeveral Circumſtances, be true; and that the Number of Voters could not be ſo ſmall as repreſented, but muſt have been equal to the Tickets found in the Box.

Then the Parties were ordered to withdraw.

Ordered, That the further Hearing of the Merits of the *Lancaſter* Return be adjourned to the Afternoon.

Then the Houſe adjourned to Three o'Clock, *P. M.* Adjournment *Poſt Meridiem.*

And they were read, and follow in theſe Words, *viz.*

To the Honourable JAMES HAMILTON, *Eſq; Governor of the Province of* Pennſylvania, *&c.*

SIR,

I AM informed that his Excellency Governor *Shirley* had ſettled an Agreement with the Governor of *Canada* (ſo far as related to this Government) that the Charge of tranſporting *Engliſh* Priſoners ſhould be defrayed by the *Engliſh* Governments, and the Charge of tranſporting *French* Priſoners by their Government; and that upon his Excellency's informing the Governors of the ſeveral Colonies, the moſt of them had ſignified their Approbation of this Method. I am likewiſe informed, that in the Year 1746, there were brought into this Province in a Flag of Truce, ſent by the Governor of *Canada*, called the *La Vierge de Grace*, a great Number of *Engliſh* Captives, ſome of them being *Europeans*, but the moſt of them belonging to the *Engliſh* Provinces and Colonies in *America*; and that about the ſame Time his Excellency had ſent a Flag of Truce to *Canada* with *French* Priſoners at the Expence of this Government; and that his Excellency ſent circular Letters to the Governors of the *Engliſh* Colonies aforementioned, with Liſts of the ſeveral Priſoners belonging to their reſpective Governments; wherein he informed them, that as ſoon as the Accounts of the Charges of the Flags of Truce, and the Proportions of the ſeveral *Engliſh* Governments thereto were adjuſted, he would ſend them to the ſaid Governors, that ſo they might reimburſe the Governor of *Canada* what A Letter from the Lieutenant Governor of the *Maſſachuſetts-Bay*.

Soon after this the Court-houſe in *Boſton* was burnt, and therein all the Papers relating to the fitting out the *French* Flag of Truce, which made it neceſſary that thoſe Accounts ſhould be had from *Canada*, in order to ſtate the particular Part each of the *Engliſh* Governments ought to bear to the Charge of tranſporting their Priſoners; and I find the ſaid Accounts were ſent here a little before Governor *Shirley's* Departure, and an Account has been ſtated between the ſaid Governor *Shirley* and the Governor of *Canada*, and ſent to *Quebec* by a Perſon gone there for the Redemption of Captives; and the Governor of *Canada* has been aſſured that all poſſible Care ſhould be taken for recovering from each Government their Proportion of the Charge. I ſhall now ſend your Honour a Copy of the Account, by which you will perceive the Number of Perſons belonging to your Government is ſix, and the Proportion of the Charge, £174 8 5, which I muſt pray your Honour would cauſe to be paid into my Hands as ſoon as may be, and the ſame ſhall be remitted to the Governor of *Canada*; and I doubt not your more ready Compliance, when you conſider, as appears by the Account, that this Province will be obliged to pay in Proportion beyond any other Government, as the greateſt Part of the Charge of the *Europeans*, and other uncertain Perſons, both in this Veſſel, and another ſent to *Louiſbourg*, will fall on them. A Petition from *James Whitehead*, Keeper of the Workhouse in the City of *Philadelphia*, was presented to the House and read, setting forth, that the Allowance appointed for the Support of the Lunatics under his Care is not sufficient, all Provisions being enhanced in Price; that he has applied to the Commissioners, who refuse to redress the Grievance, as there is no Law to warrant their so doing; that the Petitioner hoping to be reimbursed, did advance *Nine Pounds* the last Winter, to fix a Stove, and provide Wood to prevent those poor Wretches perishing in the Extremity of the Season; that he has represented their Case to the Magistrates, who refer him to this honourable House: The Petitioner therefore prays, that the House would take the Premises into Consideration, and direct such Measures for Relief of those miserable Creatures hereafter, and for the Reimbursement of the Petitioner's past Expences in their Behalf, as shall seem meet. *Ordered to lie on the Table.*

A Petition from a Number of the Inhabitants of the County of *Bucks* was preſented to the Houſe and read, ſetting forth, that the Method of obtaining Satisfaction for ſmall Treſpaſſes and Damages, being attended with the ſame Coſts and Difficulty, as in Proſecuting the greateſt Treſpaſs or Damage whatſoever; the injured Party generally rather chuſes to ſuffer, than to proſecute ſo much to his own Coſt, and the Coſt of the Offender; and therefore praying, that ſome Method may be provided for the more eaſy obtaining Satisfaction of ſmall Treſpaſſes and Damages, as to the Wiſdom of the Houſe ſhall ſeem meet. *Ordered to lie on the Table.*

A Petition from divers Freeholders and other Inhabitants of the County of *Bucks*, ſetting forth, that the Act for the Deſtruction of grey Squirrels hath nearly anſwered the good End thereby intended, very few Squirrels now appearing in the Province; that if the ſaid Act ſhould be now repealed, the Expence which the Province has lately been at for deſtroying them, would in a great Meaſure be loſt, ſince they might in a few Years encreaſe again to prodigious Numbers, as they did from a low Beginning, in the Spring after the hard Winter in 1740, and therefore praying that the ſaid Act may not be repealed, but continued as long as there are any Squirrels to deſtroy; was preſented to the Houſe and read, and *Ordered to lie on the Table.*

A Petition from a Number of the Inhabitants of *Lancaſter* and *Cheſter* Counties was preſented to the Houſe and read, ſetting forth, that the Practice of entailing Eſtates in this Province hath been found very prejudicial to many, without producing any valuable Advantage to the Public; that ſome in Poſſeſſion of entailed Eſtates falling into Decay by the Hand of Providence, are reduced to great Streights, being caſt into Priſon for their Debts, and not being able to ſell any Part of their Lands to pay thoſe Debts, the Creditors loſe their Money, and the Debtors Children enjoy the Eſtate, without paying any Part of their Parents Debts; that others being prevailed on to be bound for ſuch Debtors, imagining the Lands in their Poſſeſſion were entirely their own, have after the Death of thoſe Debtors been obliged to ſell their own Lands to pay ſuch Debts, to the Ruin of their own Children; while the Debtors Children, as before, come into full and free Poſſeſſion, without being accountable to their Parents Sureties; and therefore praying that the Houſe would take the Premiſes into Conſideration, and prepare ſuch a Law for breaking thoſe Entails, as to their Wiſdom ſhall ſeem meet.

Ordered to lie on the Table.

The Houſe proceeded in the further Hearing of the Merits of the *Lancaſter* Election;

And the Sheriff and Inſpectors being called in, produced ſeveral other Witneſſes, in ſupport of the ſaid Election, and Juſtification of themſelves, and of the returned Member, who had been charged with encouraging Perſons to give a Plurality of Votes in his Favour; and the Inſpectors laid before the Houſe the Liſts and Papers of their ſeveral Clerks, and alſo a Liſt of the Taxables in *Lancaſter* County, amounting to 4598.

And the Sitting Members for that County being withdrawn,

The Queſtion was put, that the Speaker ſend his Warrant to the Secretary, to iſſue a Writ to the Sheriff of *Lancaſter*, directing a new Election of Repreſentatives for that County? *Paſt in the Negative.*

Then the Houſe adjourned to Three o'Clock, *P. M.* Adjournment

The Houſe met, and adjourned to Ten o'Clock To-morrow Morning.

The Sheriff and Inſpectors of *Lancaſter* County attending, were called in, and admoniſhed by the Speaker in the Words following, *viz.* 11th Mo. 6.

The Speaker's Admonition to the Sheriff and Inſpectors of Lancaſter County.

I HAVE the Orders of the Houſe, to acquaint you, that they have taken into Conſideration the ſeveral Petitions of the Freeholders of the County of *Lancaſter*, complaining of an undue Election. They have alſo taken into Conſideration, the Proofs and Allegations, as well in ſupport of the Facts ſet forth in the ſaid Petitions, as thoſe which have been offered in ſupport of the ſaid Election; and, upon the Whole, they think the Proofs advanced in ſupport of the ſaid Petitions are not ſufficient to ſupport the Facts charged, or to vacate that Election; and therefore they have ordered the Members returned to take their Seats in the Houſe: It nevertheleſs has appeared to the Houſe, from the Examinations which have been taken in this Caſe, that the Method obſerved in the Management of the Elections in *Lancaſter* County, hath not, in divers Particulars, been ſo regular and orderly as the Laws of the Province direct; and which, if duly obſerved, would in great Meaſure remove all future Occaſions of Complaint.

Firſt then, I am to acquaint you, that the *Act for raiſing County Rates and Levies* directs that all Perſons who have a Right to vote in Elections, ſhall deliver in Writing to the Judges of thoſe Elections reſpectively, in one Piece of Paper, the Names of eight Perſons for whom they vote to ſerve in Aſſembly; in one other Paper, the Names of two Perſons for Sheriffs, and two for Coroners; and in another, the Name of one Perſon for Commiſſioner, and ſix to be Aſſeſſors for the ſaid County; and that the Act of Aſſembly, by which *Lancaſter* was erected into a County, directs, that the four Aſſembly Men, Sheriff, Coroner, Commiſſioner and Aſſeſſors, to be choſen by the Freemen of that County, ſhall be made and elected in the ſame Manner as by the Charter of Privileges and Laws of this Province is directed to be done in the other Counties of this Province; which Method ſo preſcribed, the Houſe are of Opinion, ſhould be ſtrictly obſerved, for preventing the Inconveniences which may enſue: And that the Names of the Perſons ſo voted for, be not written in one Piece of Paper, but in ſeveral, and put into ſeparate Boxes, as the Law directs.

Secondly, The Houſe are of Opinion, that the Inſpectors ſhould be particularly careful in the Choice of their Clerks; and, if poſſible, to make Choice of ſuch, as either by exceſſive Drinking, or other Cauſe, do not diſable themſelves from the Service they undertake.

Thirdly, That the Sheriffs be careful to call for the Liſts of Voters, and Tallies taken by the Clerks, when the Election is ended, and to preſerve them ſafely, ſo that they may be laid before the Houſe, if Occaſion ſhall require.

Fourthly, That the Inſpectors ought not, as heretofore, to act ſeparately, but that two or more of them take the Votes, in the Preſence, and with the Concurrence, of the reſt; by which Means the Truſt will be performed jointly, and agreeable to the Intent of the Law.

Fifthly, That all due Care be taken to prevent any Tumults or Diſorders at the Time of Elections by placing Conſtables at or near the Doors, to preſerve the Peace, and to prevent more from offering their Tickets at the ſame Time, than can be conveniently received by the Inſpectors.

Sixthly, That the Sheriffs and others concerned in the Management of Elections, ought

1749. 11*th Mo.* 6. ought to take the utmoſt Care to prevent Frauds and Abuſes, either in ſuffering any Perſon, who has no Right by Law to vote, or by denying ſuch as have the Right to vote, or in allowing any to give in a greater Number of Tickets than by Law they are entitled unto.

Theſe ſeveral Particulars I have mentioned to you, are recommended to you by Order of the Houſe; and they expect, that as it is a Duty which the Law enjoins, you, and every other in like Stations, will conform themſelves accordingly, and by this Means prevent, as much as poſſible, future Complaints of undue Elections.

Then the Sheriff and Inſpectors withdrew.

A Petition from the Sheriff and Inſpectors of *Lancaſter* County was preſented to the Houſe and read, ſetting forth the great Charge and Trouble the Controverting of the late Election hath occaſioned to them, and praying the Aſſiſtance of the Houſe in obtaining Satisfaction for the ſame. *Ordered to lie on the Table.*

Adjournment 11*th Mo.* 8. Then the Houſe adjourned to the next *Second-day* at Three o'Clock in the Afternoon.

The Houſe met, and adjourned to Ten o'Clock To-morrow Morning.

11*th Mo.* 9. A Petition from a Number of the Inhabitants of *Bucks* County was preſented to the Houſe and read, ſetting forth, that the greateſt Part of the Deer killed in the Month of *December* are poor, and their Skins thin, and of little Value; yet Numbers are killed in that Month when the Snows fall: That the Fines for killing Deer out of Seaſon are too ſmall, and the Time limited for Proſecution of that Offence too ſhort, whereby many Offenders eſcape with Impunity: And praying that the Houſe would take the Premiſes into Conſideration, and provide ſuch Remedy as ſhall ſeem meet.

Ordered to lie on the Table.

A Petition of the ſame Import from a Number of Inhabitants of *Cheſter* County was alſo preſented to the Houſe and read, and *Ordered to lie on the Table.*

A Petition from divers Freeholders and Inhabitants of the County of *Cheſter*, ſetting forth, that the Act to encourage the Deſtroying of grey Squirrels hath in a great Meaſure anſwered the good Ends and Purpoſes thereby intended; that thoſe miſchievous Animals are now reduced to a very ſmall Number, and a ſmall yearly Charge will be ſufficient to keep them from encreaſing again; and ſince the heavieſt Part of the Expence is now over, the Petitioners hope that an Act from which the Country hath already received ſuch conſiderable Benefit in the Preſervation of their Corn, will not be repealed; and pray that it may be continued in Force; was preſented to the Houſe and read, and

Ordered to lie on the Table.

A Bill for erecting Part of the Province of *Pennſylvania*, Weſtward of *Saſquehannah*, and Northward and Weſtward of the County of *York*, into a County; was read the firſt time, and ordered a ſecond Reading.

The Petitions from *Lancaſter* and *Cheſter* Counties for an Act to bar Entails were read a ſecond time, and referred to further Conſideration.

The Petition from *Bucks* County relating to ſmall Treſpaſſes was read a ſecond time, and referred to farther Conſideration.

The Petition relating to the Importation of *Palatines*, &c. was read a ſecond time, and referred to further Conſideration.

Adjournment *Poſt Meridiem* Then the Houſe adjourned to Three o'Clock, *P. M.*

An Account from *John Biddle* of *Three Pounds* due to him for paſturing *Indians* Horſes at the late Treaty, was laid before the Houſe, conſidered, and allowed.

The Repreſentation of *David Stephens*, relating to the killing of Deer out of Seaſon, was again read;

Ordered, That *Thomas Chandler*, *Hugh Evans*, *Mahlon Kirkbride*, *Calvin Cooper* and *John Armſtrong* be a Committee to prepare and bring in a Bill for amending the Laws relating to the killing of Deer.

Ordered, upon Motion, That *James Morris*, *Joſeph Trotter*, *Edward Warner*, *George Aſhbridge* and *Peter Worral* be a Committee to prepare and bring in a Bill for continuing the Act for the more eaſy Recovery of Legacies within this Province.

Adjournment Then the Houſe adjourned to Ten o'Clock To-morrow Morning.

11*th Mo.* 10. The Petition relating to Treſpaſſes was again read, and referred to further Conſideration.

Adjournment Then the Houſe adjourned to Three o'Clock, *P. M.*

Poſt Meridiem *Ordered*, That *Hugh Evans*, *Thomas Leech*, *John Hall*, *Thomas Cummings*, *Peter Worral* and *John Armſtrong* be a Committee to prepare and bring in a Bill for regulating the Probate of Wills in this Province.

Adjournment Then the Houſe adjourned to Ten o'Clock To-morrow Morning.

11*th Mo.* 11. A Petition from the Mayor and Commonalty of the City of *Philadelphia*, ſetting forth, that, purſuant to Leave granted by the then Aſſembly, the Petitioners did, in *Auguſt* 1743, lay before the Houſe a Bill for the better regulating the Nightly Watch within the City of *Philadelphia*, and for raiſing Money on the Inhabitants of the ſaid City for defraying the Expences thereof; which Bill was referred to the Conſideration of the

next

next Assembly, but nothing has since been done therein; that the Application to the Assembly at that Time arose from a Presentation of the Grand Jury of the City of *Philadelphia*, who have lately again presented the Inconveniencies arising from the Want of a regular Watch in the said City; that as the Subject of Complaint in those Presentments is well known to the Petitioners to be real, and what they have frequently endeavoured to remedy without Success; and as they conceive the having a strong and sufficient Watch maintained in the said City, is of the greatest Importance to the Security and Welfare of its Inhabitants; the Petitioners in their Behalf therefore think it their Duty again to apply to this House in the said Affair; and do earnestly request that the Consideration thereof may be resumed, and such effectual Provision made therein, as to the Wisdom of the House shall seem meet; was presented to the House and read, and

1749. 11th Mo. 11.

Ordered to lie on the Table.

A Petition of sundry Inhabitants of the County of *Philadelphia*, setting forth, that the Number of public Houses of Entertainment, hath been excessively augmented within these few Years, far beyond any Necessity or Use that may be pretended in their Favour; that many of those who now keep such Houses, are neither of sober Conversation, nor of Ability to entertain Travellers, nor do they observe good Orders in their Houses, as by Law they ought to do; that, on the contrary, most of those Houses are Nurseries of Vice and Immorality, such as promote Drinking, Gaming, Idleness and many gross Evils, enticing Youth and others to the lavish Spending of their Money, wasting their Time in Tippling and corrupt Company, and by this Means neglecting their proper Business, impoverishing themselves and Families, and endangering the Loss and Ruin of their Souls, Bodies and Estates; and praying, that the House would take the Premises into Consideration, and take such Measures for remedying so great an Evil, as to their Wisdom shall seem meet; was presented to the House and read, and

And an Order was drawn, and ſigned by the Speaker accordingly.

The Addreſs being tranſcribed, was ſigned by the Speaker, by Order of the Houſe, and follows in theſe Words, *viz.*

May it pleaſe the GOVERNOR,

An Addreſs from the Aſſembly to the Governor.

WE have, during this Seſſion, received divers Petitions from a conſiderable Number of ſober and diſcreet Perſons, Inhabitants of this City, and ſeveral other Parts of the Province; who, though of different Perſuaſions in Religious Matters, have nevertheleſs united in thoſe Petitions, complaining, that notwithſtanding many prudent Proviſions have been heretofore made by the Laws of this Province, concerning Perſons licenſed to keep Inns and Public Houſes for the Sale of ſtrong Liquors, and the Entertainment of Travellers, and the good Order to be kept in thoſe Houſes; yet, contrary to the Tenor of thoſe Laws, they have, of late Years, very much increaſed: That many of them are neither of ſober Converſation, nor of Ability to entertain Travellers; nor do they keep good Orders in their Houſes, as by Law they ought to do: That on the contrary moſt of them are Nurſeries of Vice and Immorality, ſuch as promote Drinking, Gaming, Idleneſs and many groſs Evils; enticing Youth and others to the laviſh ſpending of their Money, waſting their Time in Tippling and corrupt Company; and by this Means neglecting their proper Buſineſs, impoveriſhing themſelves and their Families, and endangering the Loſs and Ruin of their Souls, Bodies and Eſtates: To prevent which for the future, the Petitioners pray our Interpoſition; and as our own Obſervations, as well as the Teſtimony of others, convinces us of theſe melancholy Truths, we think it a Duty we owe to the Province, to Poſterity, and to ourſelves, to contribute the utmoſt in our Power to diſcourage and prevent theſe growing Evils.

With this View we have inſpected the ſeveral Laws now in Force in relation to Public Houſes, and we there find many prudent Proviſions adapted to the Circumſtances of the Province, and for preventing the Abuſes complained of; and though we think ſome Additions may be made to theſe (which in due Time will come under our Conſideration) yet we are of the Opinion, that were the Laws now in being but duly put in Execution, it would in great Meaſure remove the Cauſe of theſe Complaints.

It is not to be expected the Governor, who is ſo much taken up with the Affairs of the Province, ſhould himſelf be ſo well acquainted with Perſons and Places fitting and neceſſary for keeping of Inns or Public Houſes for the Purpoſes aforeſaid; and therefore our Laws have wiſely provided to free him from the Trouble of ſuch an Enquiry, which otherwiſe might be neceſſary, by obliging the Perſons who intend to keep theſe Houſes, firſt to apply to the Juſtices of the Peace of the City or County in which ſuch Perſons applying reſide, and at the General Quarter Seſſions of the Peace to obtain from the Juſtices their Recommendation to the Governor of the Fitneſs and Ability of ſuch Appliers for the Service, before they are intitled to a Licenſe. Were this important Truſt duly executed, it would render any further Proviſion leſs neceſſary; but it hath ſo happened in divers Places, that either for Want of due Enquiry into the Places where the Perſons applying reſided, their Circumſtances and Abilities, and the Neceſſity of Public Houſes in the Places deſired, or through a miſtaken Pity for the Perſons applying, or ſome other Motive, a much greater Number hath been recommended to the Governor to obtain ſuch Licenſes, than were either fit for the Employment, or of Uſe to the Public.

Hence ariſe the Evils complained of, and here, as we conceive, a proper Remedy may be had; and therefore it is we earneſtly requeſt the Governor, that he will be pleaſed warmly to recommend it to the Conſideration of the Juſtices of the ſeveral Counties within this Province, that they will employ their utmoſt Care and Vigilance to put the Laws, relating to the good Order neceſſary to be obſerved in Public Houſes, and

for

for preventing of Tippling by the Inhabitants therein, in Execution: That for the future, where Applications are made for such Recommendations, they will make diligent Enquiry into the Circumstances of those who apply for them, and grant so many only as shall be necessary, and those to such Persons only as are most fit for the Service. 1749. 11th Mo. 27.

The Increase of Vice and Immorality are bad Symptoms in any Government; and the Consequences it might have in this, we think, too evident to a Gentleman of the Governor's Abilities, to need any Illustration; we therefore persuade ourselves of his hearty Assistance in the Reformation desired, as the best and most effectual Means to render the Inhabitants of this Province more generally better Subjects, better Members of Society, and above all, better Christians.

The Committee appointed to join a Committee of the Council in comparing the Bills, report, that they have done the same, and find them right.

Then the engrossed Bills were signed by the Speaker.

Ordered, That the Trustees of the *Province Island*, do, as soon as conveniently they can, build Pest-houses on that Island to the Value of *One Thousand Pounds*, for the convenient Reception of sick Strangers imported into this Province.

Ordered, That the Superintendants of the State-house, proceed, as soon as conveniently they may, to carry up a Building on the South-side of the said House to contain the Staircase, with a suitable Place thereon for hanging a Bell.

Ordered, That *Thomas Leech* and *James Morris* see the Great Seal affixed to the Laws after they are passed, and the same deposited in the Rolls Office.

Ordered, That the Admonition given from the Chair to the Sheriff and Inspectors of *Lancaster* County be printed in the *Gazette*.

Then the Speaker, with the whole House, waited on the Governor.

And being returned,

The Speaker resumed the Chair, and reported, that the House had waited on the Governor, and presented the following Bills, *viz.*

An *ACT* for erecting Part of the Province of *Pennsylvania*, Westward of *Susquehannah*, and Northward and Westward of the County of *York*, into a County.

An *ACT* for barring Estates Tail.

An *ACT* for the Continuance of an Act of Assembly of this Province, entituled, "An "Act for the more easy Recovery of Legacies within this Province."

To which he had been pleased to give his Assent by enacting the same into Laws: That the Speaker had also presented him the Address of the House, to which the Governor had been pleased to answer, "That it very well became the Assembly, as Re- "presentatives of the People, to endeavour the Reformation of the Abuses complained "of; that it was his own Opinion, too great a Number of Public Houses might have "the Tendency mentioned; and that therefore he would in the warmest Manner re- "commend to all the Magistrates a prudent Use of their Power in this Particular, as "well as in every other." That the Speaker had also presented the Governor with the Order of the House for his Support, which he was pleased to receive kindly.

Then the House adjourned to the Sixth Day of the next Sixth Month. Adjournment

1750. Then the Speaker with the whole Houſe waited on the Governor.

6th Mo. 7. And being returned, the Speaker reported, that the Houſe had waited on the Governor and preſented their Speaker; that the Governor had been pleaſed to expreſs his Approbation of their Choice; on which the Speaker had ſaid, that as the uſual Privileges of the Houſe had been claimed by the late Speaker at the Beginning of the Year, he had nothing to mention now but what was perſonal, *to wit*, that his own unwilling Miſtakes might be excuſed, and not imputed to the Houſe; to which the Governor was pleaſed to anſwer, it was a Right that ought to be obſerved.

A Petition from *Jeremiah Oſborne*, a languiſhing Priſoner in the Goal of *Philadelphia*, was preſented to the Houſe and read, ſetting forth, that he was in the Year 1746 employed as Captain of a Flag of Truce by the Governor of *South Carolina*, to tranſport a Number of *Spaniſh* Priſoners from thence to the *Havanna*; that *Joſeph Wragg* and *William Lambton*, Merchants in *Carolina*, ſhipped a Quantity of Proviſions on board the ſaid Flag of Truce, to be delivered in the *Havanna*; that the Petitioner in his Paſſage to the *Havanna*, was taken by three *Spaniſh* Privateers, who plundered him of great Part of his Cargo, and ſent him into the *Havanna*, where the Petitioner at his own Riſk redeemed the Remainder of the Cargo from the Enemy, and diſpoſed of it to defray his Charges, *&c.* That on his Arrival in this City he was arreſted by Virtue of a Power from ſaid *Wragg* and *Lambton* for *Fifteen Hundred Pounds*; that being a Stranger, and not capable of finding Bail, he was committed to the County Goal, where he remained two Years before he could obtain a Trial, in which the ſaid *Wragg* and *Lambton* recovered *Three Hundred Ninety-ſix Pounds* and *Six-pence*, the Petitioner labouring under great Diſadvantages, as the Tranſaction aroſe in the King of *Spain's* Dominions, from whence it was impoſſible to procure the Evidences that could have ſupported the Petitioner's Action, the Rigour of the Law not permitting the written Evidences which he had procured from thence, to be read, otherwiſe he ſhould have been able to have juſtified himſelf: That the Petitioner likewiſe ſtands committed for a Debt of *Two Hundred Seventy-five Pounds Twelve Shillings* and *Six-pence*, due to *John Weſt* and *Alexander Hill*, of *Boſton* in *New England*, and hath no real or perſonal Eſtate to ſatisfy the ſaid Demands, or any Part thereof, being reduced to extreme Poverty by Reaſon of many Loſſes ſuſtained in Trade, as well as the Expence attending his long and tedious Confinement, now three Years and an Half; and muſt ever remain in Goal, unleſs this Houſe compaſſionate his Condition; and therefore humbly praying that the Houſe would take the Premiſes into Conſideration, and grant an Act to relieve him from his Confinement, or ſuch other Relief as to their Wiſdom ſhall ſeem meet. *Ordered to lie on the Table.*

A Petition from *George Spofford*, of the City of *Philadelphia*, ſetting forth, that he was appointed by the Mayor, Recorder and Aldermen of the ſaid City, to execute the Office of Collector of the Duties impoſed by an Act of Aſſembly, entituled, *An Act for impoſing a Duty on Perſons convicted of heinous Crimes*, &c. in the Place of *Joſeph Pritchard*, the late Collector, until the Aſſembly ſhould appoint another; that the Petitioner hath accordingly executed the ſaid Office with all Diligence and Fidelity; and now prays that the Houſe would nominate and appoint him to continue in the ſaid Office; was preſented to the Houſe and read, and *Ordered to lie on the Table.*

Adjournment Then the Houſe adjourned to Three o'Clock, *P. M.*

Poſt Meridiem *Ordered*, That the Clerk prepare an Account of the Buſineſs left unfiniſhed at the laſt Sitting, and referred to this Sitting, and lay the ſame before the Houſe To-morrow Morning.

Adjournment Then the Houſe adjourned to Ten o'Clock To-morrow Morning.

6th Mo. 8. A Petition from divers Millers in the Counties of *Philadelphia* and *Bucks*, ſetting forth, that they are ſenſible of the Benefits and Advantages accruing to this Province from the Flour Act; that the Continuance of theſe Advantages in a great Meaſure depends on the Capacity and Integrity of the Officer appointed to put the Law in Execution; that the preſent Officer *Joſeph King*, having given general Satisfaction to all concerned, the Petitioners pray he may be appointed the Officer with the Renewal of the aforeſaid Act. *Ordered to lie on the Table.*

A Petition from divers Millers and other Inhabitants of *Cheſter* County, ſetting forth, that the Act, with its Supplement, for preventing the Exportation of Bread and Flour not merchantable, hath been of general Service to this Province, by keeping up the Reputation of our Flour in foreign Markets, and anſwering other good and laudable Purpoſes; that the Act aforeſaid is near expired, and the appointing an Officer with the Continuance of the Law becomes neceſſary; and as the preſent Officer, *Joſeph King*, by his Care, Judgment and Fidelity, in the Execution of the ſaid Act, has given general Satisfaction, the Petitioners requeſt he may be re-appointed; was preſented to the Houſe and read, and *Ordered to lie on the Table.*

A Petition from ſundry Inhabitants of the back Parts of *Philadelphia* County, complaining of the great Increaſe and bad Effects of Public Houſes, and praying Relief therein; was preſented to the Houſe and read, and *Ordered to lie on the Table.*

The

1750.
6th Mo. 8.

The Clerk, according to Order, laid before the House Minutes of the Business left unfinished at the last Sitting.

Ordered, That *Thomas Leech* and *Edward Warner* wait upon the Governor, and acquaint him, that the House is desirous of having his Result on the Bill for regulating the Probate of Wills within this Province.

The Petition of *George Spofford* was again read, and considered;

Resolved, N. C. D. That *George Spofford* be appointed the Officer for putting in Execution the Act for imposing a Duty on Persons convicted of heinous Crimes, *&c.* in the Room of *Joseph Pritchard*, supposed to be lost at Sea.

Then the House adjourned to Three o'Clock, *P. M.*

Adjournment *Post Meridiem*

The Gentlemen appointed to wait on the Governor with the Message of the House, report, that they delivered the same according to Order; and that the Governor was pleased to say, he would send a Message to the House concerning that Bill To-morrow Morning.

The Governor, by his Secretary sent down a written Message to the House, with several Papers therein referred to, which were read, and follow in these Words, *viz.*

GENTLEMEN,

A Message from the Governor to the Assembly.

'FINDING that the Proclamation which I issued last Summer on the Complaints 'of the Deputies of the *Six Nations*, against such as had presumed to settle on their 'unpurchased Lands, had no Effect, I thought it dangerous to suffer any longer such 'an open Contempt of the Authority of Government; and therefore gave Orders, that 'the Laws should be strictly put in Execution against them; and from a Report of the 'Proceedings of the Magistrates appointed for that Service, which will be laid before 'you, I thought there would have been no more Cause of Complaint on this Head; 'but by a Letter I received the last Week from the Magistrates of *Cumberland* County, 'it looks as if such as were then spared, have been since spirited up to stay, and that 'there will be an absolute Necessity of taking still farther Measures against them.

'The Accounts from *Ohio* mention, that the *French* still continue their Threats against 'the *Indians*, who carry on Commerce with our Traders; that they are frequently 'alarmed, as if the *French* were approaching in a military Manner, and therefore keep 'themselves upon their Guard; but as nothing hostile has hitherto been attempted, I 'am in Hopes this may blow over, and the *French*, from the Caution and Unanimity 'of the *Indians* in our Alliance, be obliged to alter their Measures.

'I have received two or three different Messages from the *Twightwees*; in their last 'they tell me, that they have withstood the Solicitations of the *French*, and, as a Proof 'of their Attachment to us, have refused their Presents; intimating at the same Time, 'that as they take nothing from them, they would be pleased to receive some Testimony 'of our Regard. And I am really of Opinion, that since so large an Addition is made 'to the Trade of the Province by their Means, it would be for His Majesty's as well as 'the Country's Service, if a small Present was sent to them by some Persons of Character, 'who go to trade in those Parts.

'When Mr. *Weiser* left *Ohio*, he committed several Matters of Consequence to *An-*'*drew Montour*, finding that the *Indians* esteemed him, and placed great Confidence in 'him: This gave him a sort of public Character, which has put him to some Trouble 'and Expence, as you will see by his Accounts, which I have ordered to be laid before 'you, and which have been perused and allowed to be true by Mr. *Weiser*; I therefore 'recommend it to you, that you will be pleased to make Mr. *Montour* a suitable Re-'compence for his Services. The *Indians* of those Parts are not of the most prudent 'Behaviour, and therefore it seems necessary there should be always among them some 'discreet Person, who by his Influence may be able to regulate their Conduct, and keep 'them firmly attached to the *British* Interest; more especially at a Time when the '*French* leave no Means unattempted to alienate their Affection from us, and to exclude 'us from any Share of the Benefit of trading with them: Such a Person I take Mr. *Mon-*'*tour* to be; and, as he resides at *Ohio*, he will, I am persuaded, upon a proper Recom-'pence, be always ready and willing to serve this Province to the utmost of his Power.

Aug. 8, 1750. *JAMES HAMILTON.*"

To the Honourable JAMES HAMILTON, *Esq; Lieutenant Governor, and Commander in Chief of the Province of* Pennsylvania, *and Counties of* Newcastle, Kent *and* Sussex, *on* Delaware;

The Report of RICHARD PETERS, *Esq; Secretary of the Province of* Pennsylvania, *of the Proceedings against sundry Persons settled in the unpurchased Part of the Province aforesaid.*

May it please your Honour,

A Report of Richard Peters, Esq; to the Governor.

MR. *Weiser* and I having received your Honour's Orders to give Information to the proper Magistrates against all such as had presumed to settle and remain on the Lands

1750. 6th Mo. 8. beyond the *Kittochtinny* Mountains, not purchaſed of the *Indians*, in Contempt of the Laws repeatedly ſignified by Proclamations, and particularly by your Honour's late one; and to bring them to a legal Conviction, leſt for Want of their Removal a Breach ſhould enſue between the *Six Nations* of *Indians* and this Province: We ſet out on *Tueſday*, the 15th Day of *May* laſt, for the new County of *Cumberland*, where the Places, on which the Treſpaſſers had ſettled, lay.

At Mr. *Croghan's* we met with five *Indians*, three from *Shamokin*, two of which were Sons of the late *Shickcalamy*, who tranſact the Buſineſs of the *Six Nations* with this Government; two were juſt arrived from *Allegheny*, *viz.* one of the *Mohock's* Nation, called *Aaron*, and *Andrew Montour*, the Interpreter at *Ohio*. Mr. *Montour* telling us he had a Meſſage from the *Ohio Indians* and *Twightwees* to this Government, and deſiring a Conference, one was held on the 18th of *May* laſt, in the Preſence of *James Galbreth*, *George Croghan*, *William Wilſon* and *Hermanus Alrichs*, Eſquires, Juſtices of the County of *Cumberland*; and when Mr. *Montour's* Buſineſs was done, we, with the Advice of the other Juſtices, imparted to the *Indians* the Deſign we were aſſembled upon, at which they expreſſed great Satisfaction.

Another Conference was held, at the Inſtance of the *Indians*, in the Afternoon, in the Preſence of Mr. *Galbreth* and Mr. *Croghan*, before-mentioned, wherein they expreſſed themſelves as follows:

"*Brethren*, We have thought a great deal of what you imparted to us, that ye were come to turn the People off who are ſettled over the Hills; we are pleaſed to ſee you on this Occaſion, and as the Council of *Onondago* has this Affair exceedingly at Heart, and it was particularly recommended to us by the Deputies of the *Six Nations*, when they parted from us laſt Summer, we deſire to accompany you; but we are afraid, notwithſtanding the Care of the Governor, that this may prove like many former Attempts; the People will be put off now, and next Year come again; and if ſo, the *Six Nations* will no longer bear it, but do themſelves Juſtice: To prevent this therefore, when you ſhall have turned the People off, we recommend it to the Governor, to place two or three faithful Perſons over the Mountains, who may be agreeable to him and us, with Commiſſions, impowering them immediately to remove every one who ſhall preſume after this to ſettle there, until the *Six Nations* ſhall agree to make Sale of their Land." To enforce this, they gave a String of *Wampum*, and received one in Return from the Magiſtrates, with the ſtrongeſt Aſſurances that they would do their Duty.

On *Tueſday*, the 22d of *May*, *Matthew Dill*, *George Croghan*, *Benjamin Chambers*, *Thomas Wilſon*, *John Finley* and *James Galbreth*, Eſquires, Juſtices of the ſaid County of *Cumberland*, attended by the Under-Sheriff, came to *Big Juniata*, ſituate at the Diſtance of Twenty-five Miles from the Mouth thereof, and about ten Miles North from the *Blue Hills*, a Place much eſteemed by the *Indians* for ſome of their beſt hunting Ground; and there they found five Cabbins or Log-houſes, one poſſeſſed by *William White*, another by *George Cahoon*, another not quite finiſhed in Poſſeſſion of *David Hiddleſton*, another poſſeſſed by *George* and *William Galloway*, and another by *Andrew Lycon*; of theſe Perſons, *William White*, *George* and *William Galloway*, *David Hiddleſton* and *George Cahoon* appeared before the Magiſtrates, and being aſked by what Right or Authority they had poſſeſſed themſelves of thoſe Lands, and erected Cabbins thereon? They replied, by no Right nor Authority, but that the Land belonged to the Proprietaries of *Pennſylvania*. They then were aſked, whether they did not know they were acting againſt the Law, and in Contempt of frequent Notices given them by the Governor's Proclamations? They ſaid they had ſeen one ſuch Proclamation, and had nothing to ſay for themſelves, but craved Mercy. Hereupon the ſaid *William White*, *George* and *William Galloway*, *David Hiddleſton* and *George Cahoon*, being convicted by the ſaid Juſtices on their View, the Under-Sheriff was charged with them, and he took *William White*, *David Hiddleſton* and *George Cahoon* into Cuſtody; but *George* and *William Galloway* reſiſted, and having got at ſome Diſtance from the Under-Sheriff, they called to us: "You may take our Lands and Houſes, and do what you pleaſe with them; we deliver them to you with all our Hearts, but we will not be carried to Goal."

The next Morning, being *Wedneſday*, the 23d of *May*, the ſaid Juſtices went to the Log-houſe or Cabbin of *Andrew Lycon*, and finding none there but Children, and hearing that the Father and Mother were expected ſoon, and *William White* and others offering to become Security jointly and ſeverally, and to enter into Recognizance as well for *Andrew's* Appearance at Court, and immediate Removal, as for their own; this Propoſal was accepted, and *William White*, *David Hiddleſton* and *George Cahoon* entered into a Recognizance of *One Hundred Pounds*, and executed Bonds to the Proprietaries in the Sum of *Five Hundred Pounds*, reciting, that they were Treſpaſſers, and had no Manner of Right, and had delivered Poſſeſſion to me for the Proprietaries. Then the Magiſtrates went to the Log-houſe or Cabbin of *George* and *William Galloway* (which they had delivered up as aforeſaid the Day before, after they were convicted, and were flying from the Sheriff) all the Goods belonging to the ſaid *George* and *William* were

taken

taken out, and the Cabbin being quite empty, I took Poſſeſſion thereof for the Proprietaries; and then a Conference was held, what ſhould be done with the empty Cabbin; and after great Deliberation, all agreed, that if ſome Cabbins were not deſtroyed, they would tempt the Treſpaſſers to return again, or encourage others to come there, ſhould theſe Treſpaſſers go away; and ſo what was doing would ſignify nothing, ſince the Poſſeſſion of them at ſuch a Diſtance from the Inhabitants could not be kept for the Proprietaries; and Mr. *Weiſer* alſo giving it as his firm Opinion, that if all the Cabbins were left ſtanding, the *Indians* would conceive ſuch a contemptible Opinion of the Government, that they would come themſelves in the Winter, murder the People, and ſet their Houſes on Fire: On theſe Conſiderations the Cabbin, by my Order, was burnt by the Under-Sheriff and Company. 1750. 6th Mo. 8.

Then the Company went to the Houſe poſſeſſed by *David Hiddleſton*, who had entered into Bond as aforeſaid, and he having voluntarily taken out all the Things which were in the Cabbin, and left me in Poſſeſſion, that empty and unfiniſhed Cabbin was likewiſe ſet on Fire by the Under-Sheriff by my Order.

The next Day, being the 24th of *May*, Mr. *Weiſer* and Mr. *Galbreth*, with the Under-Sheriff and myſelf, on our Way to the Mouth of *Juniata*, called at *Andrew Lycon's*, with Intent only to inform him, that his Neighbours were bound for his Appearance and immediate Removal, and to caution him not to bring himſelf or them into Trouble by a Refuſal: But he preſented a loaded Gun to the Magiſtrates and Sheriff, ſaid, he would ſhoot the firſt Man that dared to come nigher. On this he was diſarmed, convicted, and committed to the Cuſtody of the Sheriff. This whole Tranſaction happened in the Sight of a Tribe of *Indians*, who by Accident had in the Night-time fixed their Tent on that Plantation; and *Lycon's* Behaviour giving them great Offence, the *Shickcalamies* inſiſted on our burning the Cabbin, or they would burn it themſelves: Whereupon, when every Thing was taken out of it (*Andrew Lycon* all the while aſſiſting) and Poſſeſſion being delivered to me, the empty Cabbin was ſet on Fire by the Under-Sheriff, and then *Lycon* was carried to Goal.

Mr. *Benjamin Chambers* and Mr. *George Croghan* had about an Hour before ſeparated from us; and on my meeting them again in *Cumberland* County, they reported to me that they had been at *Sheerman's* Creek, or *Little Juniata*, ſituate about ſix Miles over the *Blue Mountains*, and found there *James Parker*, *Thomas Parker*, *Owen M'Keeb*, *John M'Clare*, *Richard Kirkpatrick*, *James Murray*, *John Scott*, *Henry Gaſs*, *John Cowan*, *Simon Girtee* and *John Kilaugh*, who had ſettled Lands, and erected Cabbins or Log-houſes thereon; and having convicted them of the Treſpaſs on their own View, they had bound them in Recognizances of the Penalty of *One Hundred Pounds*, to appear and anſwer for their Treſpaſſes on the firſt Day of the next County Court of *Cumberland*, to be held at *Shippenſburgh*, and that the ſaid Treſpaſſers had likewiſe entered into Bonds to the Proprietaries in *Five Hundred Pounds* Penalty to remove off immediately, with all their Servants, Cattle and Effects, and had delivered Poſſeſſion of their Houſes to Mr. *George Stevenſon* for the Proprietaries Uſe; and that Mr. *Stevenſon* had ordered ſome of the meaneſt of thoſe Cabbins to be ſet on Fire, where the Families were not large, nor the Improvements conſiderable.

On *Monday*, the 28th of *May*, we were met at *Shippenſburgh* by *Samuel Smith*, *William Maxwell*, *George Croghan*, *Benjamin Chambers*, *Robert Chambers*, *William Alliſon*, *William Trent*, *John Finley*, *John Miller*, *Hermanus Alrichs*, and *James Galberth*, Eſquires, Juſtices of *Cumberland* County, who informing us that the People in the *Tuſcoraro Path*, in the *Big Cove*, and at *Aucquick*, would ſubmit, Mr. *Weiſer* moſt earneſtly preſſed, that he might be excuſed any further Attendance, having Abundance of neceſſary Buſineſs to do at Home; and the other Magiſtrates, though with much Reluctance, at laſt conſenting, he left us.

On *Wedneſday*, the 30th of *May*, the Magiſtrates and Company, being detained two Days by Rain, proceeded over the *Kittochtinny* Mountains, and entered into the *Tuſcoraro Path*, or *Path-valley*, through which the Road to *Allegheny* lies. Many Settlements were found in this Valley, and all the People were ſent for, and the following Perſons appeared, *viz.* *Abraham Slach*, *James Blair*, *Moſes Moore*, *Arthur Dunlap*, *Alexander M'Cartie*, *David Lewis*, *Adam M'Cartie*, *Felix Doyle*, *Andrew Dunlap*, *Robert Wilſon*, *Jacob Pyatt*, *Jacob Pyatt*, junior, *William Ramage*, *Reynolds Alexander*, *Samuel Patterſon*, *Robert Baker*, *John Armſtrong* and *John Potts*, who were all convicted by their own Confeſſion to the Magiſtrates, of the like Treſpaſſes with thoſe at *Sheerman's* Creek, and were bound in the like Recognizances to appear at Court, and Bonds to the Proprietaries to remove with all their Families, Servants, Cattle and Effects, and having all voluntarily given Poſſeſſion of their Houſes to me, ſome ordinary Log-houſes, to the Number of eleven, were burnt to the Ground; the Treſpaſſers, moſt of them chearfully, and a very few of them with Reluctance, carrying out all their Goods. Some had been deſerted before, and lay waſte.

At

1750. 6th Mo. 8. At *Autquick*, *Peter Falconer*, *Nicholas De Long*, *Samuel Perry* and *John Charleton* were convicted on the View of the Magiſtrates, and having entered into the like Recognizances, and executed the like Bonds, *Charleton's* Cabbin was burnt, and Fire ſet to another that was but juſt begun, conſiſting only of a few Logs piled, and faſtened to one another.

The like Proceedings at *Big Cove* againſt *Andrew Donaldſon*, *John Macclelland*, *Charles Stewart*, *James Downy*, *John Macmean*, *Robert Kendell*, *Samuel Brown*, *William Shepperd*, *Roger Murphy*, *Robert Smith*, *William Dickey*, *William Millican*, *William Macconnell*, *Alexander Macconnell*, *James Campbell*, *William Carrell*, *John Martin*, *John Jamiſon*, *Hans Patter*, *John Maccollin*, *Adam Macconnell*, *James Wilſon* and *John Wilſon*; who coming before the Magiſtrates, were convicted on their own Confeſſion, of the like Treſpaſſes as in the former Caſes, and were all bound over in the like Recognizances, and executed the like Bond to the Proprietaries. Three waſte Cabbins, of no Value, were burnt at the North End of the Cove by the Perſons that claimed a Right to them.

The *Little Cove*, and *Big* and *Little Conolloways*, being the only Places remaining to be viſited, as this was on the Borders of *Maryland*, the Magiſtrates declined going there, and departed to their Homes. The next Day ſeveral of the Inhabitants of the *Little Cove* came to me at *Philip Davie's*, and gave me a Petition, addreſſed to the Governor, purporting, that they were ſettled to the North of the Temporary Line, in the Province of *Pennſylvania*, Weſtward to the Place where that Line was left off, and prayed that his Honour might ſuffer them to remain there, till the Line ſhould be extended, and the Purchaſe made of the Lands from the *Indians*: Finding the Petition ſigned only by a few, I returned it, telling them, when it was ſigned by more, if it ſhould appear to me that they were North of the Temporary Line, I would recommend their Caſe to the Governor; but that if they were ſettled to the South of the Temporary Line, they were in the Juriſdiction of *Maryland*, and this Government would have nothing to do with them; adding, that what had been done was ſolely with a View to prevent an *Indian* War, and was undertaken as much to ſerve the neighbouring Colonies as our own; that there was a good Harmony ſubſiſting between the Governments of *Pennſylvania* and *Maryland*, and I hoped it would always continue; and recommended it to them earneſtly, not to have Recourſe to this Government, if they were to the South of the Line; or if they were really to the North of it, that they would give no Umbrage to *Maryland*, but behave friendly, and be ſure to avoid creating any Cauſe of Complaint from the Governor of *Maryland*.

I have truly related the ſeveral Matters of Fact in the Order they were done by the Magiſtrates as well as myſelf; but I ſhould not do Juſtice to myſelf, or Mr. *Weiſer*, in whom your Honour placed the ſame Confidence, and whom I principally conſulted about the Mode of executing your Commands, if I ſhould cloſe my Report here, without giving the Hiſtory of theſe Settlements, and ſhewing upon what ſolid and juſt Reaſonings our Proceedings were founded: Your Honour will therefore indulge me, in laying this Matter particularly before you, that it may appear we have acted a right and dutiful Part to the Government, and a kind and affectionate Part to theſe indiſcreet People.

About the Year 1740 or 1741 one *Frederick Star*, a *German*, with two or three more of his Countrymen, made ſome ſmall Settlements at the very ſame Place where we found *William White*, the *Galloways*, and *Andrew Lycon*; which were diſcovered by the *Delawares* at *Shamokin*, to the Deputies of the *Six Nations*, as they came down to *Philadelphia* in the Year 1742, to hold a Treaty with this Government; and they were ſo diſturbed at it, as to enquire, with a peculiar Warmth, of Governor *Thomas*, if theſe People had come there by the Orders, or with the Privity of the Government; alledging that if it was ſo, this was a Breach of the Treaties ſubſiſting between the *Six Nations* and the Proprietor *William Penn*, who in the moſt ſolemn Manner had engaged to them, not to ſuffer any of the People to ſettle Lands till he had purchaſed them from the Council of the *Six Nations*: The Governor, as he might with great Truth, diſowned any Knowledge of theſe Perſons Settlements; and, on the *Indians* inſiſting that they ſhould be immediately thrown over the Mountains, he promiſed to iſſue his Proclamation, and if this had no Effect, to put the Laws in Execution againſt them. The *Indians* in the ſame Treaty, publicly expreſſed very ſevere Threats againſt the Inhabitants of *Maryland*, for ſettling Lands for which they had received no Satisfaction; and ſaid, if they would not do them Juſtice, they would do Juſtice to themſelves; and would certainly have committed Hoſtilities, if a Treaty had not been ſet on Foot between *Maryland* and the *Six Nations*, under the Mediation of Governor *Thomas*; at which the *Indians* conſented to ſell the Lands, and receive a valuable Conſideration for them, which put an End to the Danger.

The Proprietaries were then in *England*, but obſerving, on peruſing the Treaty, with what Aſperity they had expreſſed themſelves againſt *Maryland*, and that the *Indians*

had

had just Cause to complain of the Settlements at *Juniata*, so near *Shamokin*, they wrote to their Governor in very pressing Terms, to cause those Trespassers to be immediately removed; and both the Proprietaries and Governor laid their Commands on me to see this done, which I accordingly did in *June*, 1743, the Governor having first given them Notice, by a Proclamation served upon them. 1750. 6th Mo. 8.

At that Time none had presumed to settle at a Place called the *Big Cove* (having this Name from its being enclosed in the Form of a Bason by the furthermost Range of the *Kittochtinny Hills* and the *Tuscoraro Hills*, which last end here, and lose themselves in other Hills); this *Big Cove* is about five Miles North of the Temporary Line, and not far to the West of the Place where the Line terminated. Between the *Big Cove* and the Temporary Line lies the *Little Cove*, so called from being likewise encircled with Hills, and to the West of the *Little Cove* towards *Patowmec* lie two or three other Places, called the *Big* and *Little Conolloways*, all of them situate on the Temporary Line, was it to be extended towards *Patowmec*. In the Year 1741 or 1742 Information was likewise given, that People were beginning to settle in these Places, some from *Maryland*, and others from this Province: But as the two Governments were then not on very good Terms, the Governor did not think it proper to take any other Notice of these Settlements, than to send the Sheriff to serve his Proclamation on them, though it gave ample Occasion to lament the vast Inconveniencies which attend unsettled Boundaries. After this the *French* War came on, and the People in those Parts taking Advantage of the Confusion of the Times, by little and little stole into the *Great Cove*; so that at the End of the War, it was said Thirty Families had settled there, not however without frequent Prohibitions on the Part of the Government, and Admonitions of the great Danger they run of being cut off by the *Indians*, as these Settlements were on Lands not purchased of them: And at the Close of the War, Mr. *Maxwell*, one of the Justices of *Lancaster* County, delivered a particular Message from this Government to them, ordering their Removal, that they might not occasion a Breach with the *Indians*, but it had no Effect.

These were, to the best of my Remembrance, all the Places settled by the *Pennsylvanians* in the unpurchased Part of the Province till about three Years ago, when some Persons had the Presumption to go into the *Path-valley*, or *Tuscoraro Gap*, lying to the East of the *Big Cove*, and into a Place called *Aucquick*, lying to the Northward of it; and likewise into a Place called *Sheerman's* Creek, lying all along the Waters of *Juniata*, and is situate East of the *Path-valley*, through which the present Road goes from *Harris's* Ferry to *Allegheny*; and lastly, they extended their Settlements to *Big Juniata*; the *Indians* all this while repeatedly complaining, that their Hunting-ground was every Day more and more taken from them; and that there must infallibly arise Quarrels between their Warriors and these Settlers, which would in the End break the Chain of Friendship, and pressing in the most importunate Terms their speedy Removal. The Government in 1748, sent the Sheriff, and three Magistrates, with Mr. *Weiser*, unto these Places to warn the People; but they, notwithstanding, continued their Settlements, in Opposition to all this; and, as if these People were only prompted by a Desire to make Mischief, settled Lands no better, nay not so good, as many vacant Lands within the purchased Parts of the Province.

The Bulk of these Settlements were made during the Administration of President *Palmer*; and it is well known to your Honour, though then in *England*, that his Attention to the Safety of the City and Lower Counties, would not permit him to extend more Care to Places so remote.

In these Circumstances Matters stood between the *Indians* and this Province, when the *Six Nations* came last Summer to visit the Government, on the Closing of the War, and to receive a Present in Reward of their Fidelity. At this Treaty they renewed their Complaints, of the Injuries received by these Encroachments on their Hunting-grounds, and peremptorily insisted on the Removal of the Intruders; and your Honour, as an Expedient to quiet them, proposed a Purchase of those Lands from the *Indians*; signifying to them, that it would be more agreeable to you to buy them (as the Cause of Complaint principally arose there) than any other; but they absolutely refused, and instead thereof made an Offer of about two Millions of Acres on the East-side of *Susquehannah*, saying the People might go and settle there, which was accepted, and a Sum of Money paid them down; and thereupon a Proclamation was issued, to warn the People against continuing or settling on any unpurchased Land over *Susquehannah*, on the severest Penalties; but this making no Impression, your Honour issued Orders to me and Mr. *Weiser*, to effect their Removal.

I leave it to Mr. *Weiser* (as he was joined with me by your Honour) to make his own Report; and shall only observe, that in all our Consultations, he (who is *Indian* Interpreter for *Virginia* and *Maryland* as well as this Province, and must be supposed to know the Minds of the *Indians* the best) proceeded on this as a certain Truth, that if we did not in this Journey entirely remove these People, it would not be in the Power of

1750. *6th Mo.* 8. the Government to prevent an *Indian* War; and that, as the neighbouring Provinces were as much concerned in this Event as ourſelves, he recommended it to the Magiſtrates either not to go, or to act with the utmoſt Spirit; and his Arguments were ſo convincing, that all the Magiſtrates determined to go in a Body.

I had furniſhed myſelf with Blank Convictions and Mittimus's, ſettled by the Attorney General on the Act of Aſſembly, entituled, *A ſupplementary Act*, &c. and had taken his Inſtructions, and was determined to proceed by Conviction, Fine and Impriſonment; but when, on the very firſt Attempt to convict and impriſon, the two *Galloways* fled from the Sheriff, it then appeared very plain to every Body that this Method would not anſwer; and that, if the Treſpaſſers, who were more numerous in other Parts, ſhould believe they were to be carried to Priſon, they would either unite, and with a ſuperior Force reſiſt the Magiſtrates; or they would flee from Juſtice, and, in ſhort, that the whole Deſign muſt infallibly miſcarry.

And it was remembered, that in a ſimilar Caſe, on Complaint of the *Indians*, in the Year 1721, the Magiſtrates reſiding in that Part of the Province did, by Order of the then Governor, burn and deſtroy the Houſes and Habitations of certain Settlers on Lands on the Weſt-ſide of *Saſquehannah*, without Right. On this the Perſons in Cuſtody were told, that they ſhould deliver Poſſeſſion of their Places to me, and become bound in a Bond to the Proprietaries in *Five Hundred Pounds*, conditioned to move off with all their Cattle, *&c.* And that in the Condition they ſhould acknowledge, they had given Poſſeſſion to me for the Proprietaries; and were told at the ſame Time, that ſome Cabbins muſt be burnt: With this they were ſatisfied, and chearfully executed the Bonds, and expected, that as their Cabbins did now belong to the Proprietaries, the Perſon in Poſſeſſion for them might do what he pleaſed with them, and that ſome, if not all, would be deſtroyed.

At the *Path-valley*, and indeed at all other Places, the Offenders were got together, and were told by the Magiſtrates beforehand, what was intended to be done; and that all the new ſettled Cabbins would be burnt. After they were told this, they executed the Bonds, thereby putting me into Poſſeſſion, and very chearfully and voluntarily took every Thing out of their Log-houſes, and aſſiſted in burning them. In truth, all ſubmitted in every Place, except the two *Galloways*, and *Andrew Lycon*; and even the two *Galloways* came voluntarily after their Cabbin was burnt, and ſurrendered their Perſons, and entered into Bonds, and expreſſed Satisfaction at what had been done to their Cabbin; ſaying, that if the *Indians* were determined they ſhould not ſtay there, it was better to go away directly, as it was Summer-Time and mild Weather.

Finding ſuch a general Submiſſion, and verily believing the Evil would be effectually taken away, there was no Kindneſs in my Power which I did not do for the Offenders; giving them Money where they were poor, and telling them they might go directly on any Part of the two Millions of Acres lately purchaſed of the *Indians*; and where the Families were large, as I happened to have ſeveral of my own Plantations vacant, I offered them to ſtay on them Rent-free, till they could provide for themſelves; then I told them, that, if after all this Lenity and good Uſage, they would dare to ſtay after the Time limited for their Departure, no Mercy would be ſhewed, but that they would feel the whole Rigour of the Law.

It may be proper to add, that the Cabbins or Log-houſes which were burnt, were of no conſiderable Value; being ſuch as the Country People erect in a Day or two, and coſt only the Charge of an Entertainment.

Thus I have given your Honour a full Relation of this whole Tranſaction, humbly hoping the Part I have acted therein will meet with your Approbation; and that it will have the deſired good Effect in removing the Treſpaſſers, and prevent their returning to their Settlements, and any future Clamours or Complaints from the *Indians* on that Head, and am

The Meſſage to the Governor being tranſcribed, was read, and follows in theſe Words, *viz.*

May it pleaſe the GOVERNOR,

A Meſſage from the Aſſembly to the Governor. THE Governor's Care, in iſſuing his Proclamation laſt Summer, 'upon the Com-'plaints of the Deputies of the *Six Nations* againſt ſuch as had ſettled on their 'unpurchaſed Lands,' and the Meaſures he has ſince taken to prevent all Cauſe of Complaint, appear to us prudent, and abſolutely neceſſary; and we hope, the Lenity ſhewn towards ſuch as 'were then ſpared,' in Commiſeration of their Circumſtances, and on their

1750. 6th Mo. 15.

their Bonds to remove in a very short Time, may not be attended with any ill Consequences: And this we have the more Reason to expect, as we are now informed the Lord Chancellor has lately given a Decree in Favour of our Proprietaries, which may settle the Boundaries between us and our neighbouring Colony, and put an End to any ill Offices, or future Quarrels, between us on that Account: But should those Settlers, who have been so tenderly dealt with, unhappily suffer themselves to be 'spirited up 'to stay,' and by that Means not only continue the Cause of Complaint themselves, but by their Example draw others to return to the old, or any other Settlements, as this would be highly ungrateful, and 'acting in open Contempt of the Government,' and might involve the whole Province in great Difficulties, and themselves and their Families in Destruction, we desire the Governor would 'strictly put the Laws in Execution against them;' and if any further Assistance of ours should be necessary in an Affair of such Importance to the Peace of the Province, we shall readily contribute whatever can reasonably be expected from us.

Though the 'Accounts from *Ohio* mention, that the *French* still continue their 'Threats against the *Indians*, who carry on Commerce with our Traders;' and that 'they are frequently alarmed, as if the *French* were approaching in a military Manner,' yet as they keep themselves upon their Guard, and 'as nothing hostile has hither-'to been attempted, we hope, with the Governor, 'this may blow over.' And 'from 'the Caution and Unanimity of the *Indians* in our Alliance,' the *French* may be obliged to alter their Measures.

Ever since the *Twightwees*, upon their earnest Solicitations, and by the Intercession of the *Six Nations*, became our Allies, we have taken them under our Notice, and as such have made them Sharers in our Presents: However, since they withstood the Solicitations of the *French*, as they engaged themselves to do by the Treaty at *Lancaster*; and as they have refused to receive any Presents from them, in Proof of their Attachment to us, at the same Time intimating, 'they would be pleased to receive some Testimony of our 'Regard,' and as on their Admission to our Alliance, the Deputies of the *Six Nations* candidly informed us, though they were numerous, and worthy of our Friendship, 'yet 'they were poor,' we are of Opinion, considering the Service they may be of to us, and 'the large Addition which is made to the Trade of this Province by their Means,' it may be prudent, and accordingly we have agreed to make them some 'small Present' at this Time.

The Accounts from *Andrew Montour*, which have been laid before us by the Governor's Order, are under our Consideration, and we think it reasonable to make him such Allowance as shall appear a 'suitable Recompence for his Services;' the Esteem he is in with the *Indians*, the great Confidence they place in him, his Discretion, and Residence at *Ohio*, are good Reasons for the Governor's recommending him to our Notice. Such a Person we judge must be of use to influence their Conduct, and keep them firmly attached to the *British* Interest; and as he is ready and willing to serve the Province to the utmost of his Power, he deserves to be encouraged, especially as the *Indians* of those Parts are not of the most 'prudent Behaviour, and at a Time when the *French* leave no 'Means unattempted to alienate their Affection from us, and exclude us from any Share 'of the Benefits of trading with them.

And the Message being signed by the Speaker, by Order of the House;

Ordered, That *Joseph Trotter* and *Peter Worral* wait upon the Governor, and deliver the same.

It being moved that some Allowance should now be made to the Estate of the late Speaker for his Services; and the Question being put, whether such Allowance should be for his Services in gross, or separately for each Article? It was resolved, that the Allowance be made separately; and the further Consideration thereof was referred to the Afternoon.

Then the House adjourned to Three o'Clock in the Afternoon. Adjournment.

Post Meridiem. The Gentlemen appointed to wait on the Governor with the Message of the House, report, that they delivered the same according to Order.

The House resumed the Consideration of the Allowances to be made for the late Speaker's Services; and the Question being put, that *Eighty Pounds* be now allowed for his Service in Drawing Bills at the last Sitting? It *Past in the Negative.*

And the Question being put, that *Sixty Pounds* be now allowed for the said Service? It *Past in the Negative.*

Resolved, That *Fifty-three Pounds* be allowed for that Service.

And a Question being put, whether a further Allowance than what is provided by Law, should be made to the late Speaker as Trustee of the General Loan-Office, for exchanging old and torn Bills, many of them being of the smallest Denominations? It *Past in the Negative.*

Resolved, That *Two Hundred Pounds* be allowed to the late Speaker's Estate, for his Salary as Chief Justice.

1750. 6th Mo. 16. And for his Service as Speaker of this Assembly, *Thirteen Pounds Twelve Shillings.*

And the House agreeing to the said Amendment, ordered the Bill to be engrossed accordingly.

Adjournment *Post Meridiem* Then the House adjourned to Three o'Clock, *P. M.*

Resolved, on the Question, That a new Officer be now appointed in the Room of *Judah Foulke*, to collect the Excise for the City and County of *Philadelphia*.

Then the several Petitions for that Office were read in their Order: And the Question being put, that *Evan Morgan* be appointed the Officer for Collecting the Excise, *&c.* It *Past in the Negative.*

And the Question being put, that *Daniel Williams* be appointed the Officer for Collecting the Excise, *&c.* It *Past in the Negative.*

Resolved, That *Joseph Redman* be appointed the Officer for Collecting the Excise of the City and County of *Philadelphia*, in the Room of *Judah Foulke*, until the Time that a new Appointment is by Law to be made by the Assembly.

Adjournment Then the House adjourned to Ten o'Clock To-morrow Morning.

6th Mo. 17. The Treasurer attending without, was called in, and represented to the House, that the Accounts of the late Collector of Excise for the City and County of *Philadelphia*, are only settled by the Committee to the first of the last *Fourth Month*, and desired, that the House would at this Time take Measures for procuring a Settlement of the said Accounts to the Time of the said Collector's Discharge from his Office. And then withdrew.

And the House considering the Treasurer's Representation,

Ordered, That the Committee of Public Accounts do audit and settle the Remainder of the said late Collector's Accounts, and report thereon to the House.

Ordered, That *Thomas Leech* and *Hugh Evans* wait on the Governor, and acquaint him, that the House inclines to adjourn To-morrow, and desire him to appoint a Member of his Council to join a Member of this House, in comparing the Bill that hath had his Concurrence, with the engrossed Copy, in order to its being passed into a Law.

Resolved, That the Sum of *One Hundred Pounds* be allowed as a Present to the *Twightwee Indians*.

The House reconsidered the Secretary's Accounts, recommended to further Consideration by the last Assembly; and resolved, that such Allowance has already been made on those Accounts as the House judge reasonable.

Adjournment Then the House adjourned to Three o'Clock, *P. M.*

Post Meridiem. The Gentlemen appointed to wait on the Governor with the Message of the Morning, report, that they delivered the same according to Order, and that the Governor was pleased to say, he would appoint his Secretary to compare the Bill with a Member of the House; and that he would be ready to pass it To-morrow Morning.

The House resumed the Consideration of the Account of *Richard Sewell*, Sheriff of the County of *Philadelphia*; and the Committee to whom it was referred, having examined the same, and reporting it as their Opinion, that none of the Articles are proper Charges on the Province, the Laws having already provided for the Payment thereof; the House agreed to the said Report.

Thomas Leech reports, that he hath, with the Secretary, compared the engrossed Bill with the Original, and finds it to agree.

Ordered, That *George Ashbridge* and *Richard Walker* wait upon the Governor, and acquaint him, that the engrossed Bill is compared and found to agree with its Original; and desire to know when he will be pleased to receive the House in order to the passing of the same into a Law.

Adjournment Then the House adjourned to Ten o'Clock To-morrow Morning.

Ordered, That *Israel Pemberton* and *John Smith* be, with the Speaker, a Committee of Correspondence.

The Governor, by his Secretary, sent down a written Message to the House, which was read, and follows in these Words, *viz.*

GENTLEMEN,

'IN my Message of the 8th of *August*, to the late Assembly, I mentioned the Ap- A Message from the Governor to the Assembly.
'prehensions the *Indians* at *Ohio* were under, from the Menaces of the *French*,
'who frequently threatened to attack them, for adhering to their Friendship with us;
'yet as no Hostilities had then been attempted, I was in Hopes, from the Caution and
'Unanimity of the *Indians* in our Alliance, they might be discouraged from any Un-
'dertaking of that Kind: But I am now sorry to acquaint you, that from the Infor-
'mation I have since received, it appears, the *French* are determined at all Events, to

'bring

1750. 8th Mo. 16

'bring off the *Indians* from our Alliance: That in Conſequence of this Reſolution they 'have been uſing all poſſible Artifices to corrupt the *Six Nations* at *Onondago*, and have 'alſo very lately ſent a large and valuable Preſent to be diſtributed among the *Indians* at '*Ohio*; and leſt theſe Meaſures ſhould fail, have actually provided at Fort *D'Etroit*, 'Magazines of Proviſions and warlike Stores, to be in Readineſs againſt the Spring, in 'order to reduce them by a Body of Forces from *Canada:* In which Deſign ſhould they 'ſucceed, it cannot be ſuppoſed they will long ſuffer thoſe *Indians* to continue in Peace 'with us; the fatal Conſequences whereof, not only to our Trade, but even to the 'Lives and Properties of our remote Inhabitants, muſt be obvious to every conſiderate 'Perſon.

'That the *French* are reſolved at any Rate to embroil us with the *Indians* at *Ohio*, 'is further confirmed by two Perſons, Inhabitants of this Province, who were taken 'Priſoners in *May* laſt by ſeven *French Indians*, within a few Miles of one of the '*Twightwee* Towns, at the Inſtigation of the *French* Officer at Fort *D'Etroit*, to whom 'they were delivered, and from whom, as he was conveying them to *Canada*, they 'made their Eſcape.

'Mr. *Weiſer*, our Province Interpreter, is now in Town, being juſt returned from '*Onondago*, and brings from thence likewiſe very diſagreeable News, *to wit:* That, 'upon the Death of *Canaſſatego*, and ſome other of the principal Sachems of the *Six* '*Nations*, who were heartily attached to the *Engliſh*, the Perſon now at the Head of 'their Councils, is wholly in the *French* Intereſt.

'Thus, through the indefatigable Induſtry of the *French*, not only the *Six Nations* at '*Onondago* are much ſhaken in their Affections to us, and inclining to go over to our 'Rivals, but the *Indians* at *Ohio* are in great Danger of being corrupted by their Pre- 'ſents, or ſubdued by their Arms, unleſs ſome proper and ſpeedy Meaſures are taken 'to prevent it.

'This, *Gentlemen*, is the preſent unhappy Situation of our *Indian* Affairs, according 'to the beſt Information I can procure; and, though it is not uſual for you to enter on 'Buſineſs of Importance at your firſt Meeting, yet I am perſuaded, that, on Peruſal of 'the Papers I herewith ſend you, you will think it incumbent on you, to take the 'whole Matter into your immediate Conſideration, ſince any Delay, as Things are now 'circumſtanced, may prove of the moſt dangerous Conſequence.

'Upon what his Excellency Governor *Clinton* was pleaſed to write to me on *Indian* 'Affairs, I immediately directed Mr. *Croghan* and Mr. *Montour* to haſten to *Ohio*, 'with the ſmall Preſent provided by the late Aſſembly for the *Twightwees*, and was in 'Hopes they would arrive time enough to have diſappointed the Schemes of the *French*, 'and by ſhewing thoſe *Indians* their true Intereſt, have fixed them ſteadfaſtly in our 'Friendſhip; but unfortunately they were both prevented by Sickneſs from proceeding 'on their Journey; ſo that as they are not yet gone, I have given Orders to ſtay them, 'till I ſhall be acquainted with the Reſolutions of your Houſe on this Subject.

'I therefore earneſtly intreat you to give theſe Affairs all the Attention their Import- 'ance requires; and that, together with your Advice, you will likewiſe furniſh the 'neceſſary Means of fruſtrating the miſchievous Deſigns of our Rivals, the *French*; 'and enable me effectually to preſerve the Fidelity and Friendſhip of our *Indians* and 'their Allies.

October 16, 1750. *JAMES HAMILTON.*"

Poſt Meridiem

Griffith Owen, returned a Repreſentative for the County of *Bucks*, appeared in the Houſe, and having at the Table taken and ſubſcribed the Qualification by Law appointed to be taken by Members of Aſſembly, he took his Place in the Houſe accordingly.

Sundry Papers communicated to the Houſe with the Governor's Meſſage, were read, and conſidered.

A Petition from *Conrad Weiſer*, Eſq; Provincial Interpreter, ſetting forth, that through ſome Miſunderſtanding of his laſt Account, he was not ordered full Payment, and praying that the Houſe would re-conſider that Account, was preſented to the Houſe and read; and referred to the Committee of Public Accounts.

Ordered, That *Joſeph Trotter*, *William Clymer*, *Joſeph Hamton*, *George Aſhbridge* and *James Wright* be a Committee of Aggrievances for the enſuing Year, and they have Power to ſend for Perſons, Papers and Records.

Ordered, That the Minutes be printed, and that *Iſrael Pemberton* and *John Smith* be a Committee to reviſe the ſame before they are printed.

The Sheriff of *York* County attending, was called in, and preſented a Remonſtrance to the Houſe, which was read, ſetting forth, that on the firſt of this inſtant *October* he opened the Election duly at the Town of *York*, and, with the Aſſiſtance of ſeven Inſpectors, began to take the Poll, and continued it regularly and quietly for ſome Time,

until

until a Multitude of People, chiefly *Germans*, armed with Sticks and Billets of Wood, excited and encouraged by *Nicholas Ryland*, the Coroner, began to beat and drive away all the People from about the Court-house, whereupon the Remonstrant, with *Patrick Watson*, Esq; one of the Justices, went out to pacify them, and used their Endeavours, but in vain; for they were both struck by the People, and with Difficulty escaped back into the House; and then the Remonstrant suspended taking the Poll, in Hopes the Tumult would subside, but the People grew more outrageous, broke the Windows, and throwing in Stones and Brickbats, he, with four of the Inspectors, were obliged to quit the House through a back Window; whereupon the Rioters took Possession of the Court-house, and the Box with the Ballots. That about a Quarter of an Hour after, this Remonstrant returned to the Court-house, in order to go on with the Election, but was refused Admittance, the Coroner, with the three remaining Inspectors, having assumed to continue the Poll, and, being supported by the outrageous Multitude, kept Possession of the Box, whereby the Remonstrant was disabled from making a regular Return. 1750. 8th Mo. 16.

The Sheriff also delivered several Depositions in Confirmation of the Facts set forth in his Remonstrance, which were likewise read, and *Ordered to lie on the Table.*

Then the House adjourned to Ten o'Clock To-morrow Morning. Adjournment

The Remonstrance of the Sheriff of *York* County was again read. 8th Mo. 17.

And the said Sheriff attending, was called in, and examined concerning the Facts set forth in his said Remonstrance; and it appearing that a Paper had been drawn up and signed by him, and six Freeholders, as a Return of Representatives for the said County, he was required to lay the same before the House, which he did accordingly; withal informing the House, that he did not deliver it as a regular Return, it being grounded on the Depositions of other Persons present at the opening his Box of Ballots, and reading them off: and not on his own Knowledge.

And the said Sheriff, being ordered to give Notice to *Samuel Reynolds* (one of the Personson whose Evidence he had been induced to sign the said Return) to attend the House, withdrew.

Then the House adjourned to Three o'Clock, *P. M.* Adjournment

Samuel Reynolds attending, was called in, and examined, touching his Knowledge of the Proceedings at the late Election for *York* County, and declared, that the Box which the Sheriff had left locked up when he was driven out of the Court-house, being at the Conclusion of the Election carried to a Tavern by the Coroner, and others, he went to see how they would deal with it; that they got a Key and opened it, and read, and took Account of the Tickets it contained; and that he took particular Notice of the Tallies, and observed that *John Wright* and *John Withero* had a considerable Majority of Votes in those Tickets, as Representatives for the said County. *Post Meridiem*

And the said *Reynolds* being withdrawn, the House, after some Debate,

Resolved, That the Return of Representatives, signed by the Sheriff and Six Freeholders of *York* County, be accepted.

And the Names of *John Wright* and *John Withero* were accordingly inserted in the List of Members of this Assembly.

The Governor's Message was again read, and referred to farther Consideration in the Morning.

Then the House adjourned to Nine o'Clock To-morrow Morning. Adjournment

The Sheriff of *York* County attending, was called in, and admonished by the Speaker, that the House hath received the Return he delivered of Members for his County, and that he give Notice to them accordingly. That he take all the Care in his Power for the future to prevent any further Complaint of tumultuous Elections; that he be particularly careful to quiet the Minds of the People, by observing a discrete Conduct towards all Parties at his Return Home; and take the necessary Measures at the next Election to preserve the Peace. And that he acquaint the other Candidate, and the Freemen, that if any think themselves aggrieved by the Acceptance of this Return of Representatives, they may apply to the House at the next Sitting, and they shall be heard. 8th Mo. 18.

Then the Sheriff withdrew.

The Committee of Accounts made their Report on *Conrad Weiser's* Account, in Writing, which was read, and follows in these Words, *viz.*

HAVING examined the Account of Damages done by the *Indians* on their Return Home from the last Treaty, we are of Opinion, that the Sum of *Twenty-three Pounds Sixteen Shillings* should be allowed to the following Persons, *viz.*

Submitted to the Houſe by ISRAEL PEMBERTON, JOSEPH FOX, EDWARD WARNER, MAHLON KIRKBRIDE, JOHN SMITH, THOMAS CUMMINGS, EVAN MORGAN, JAMES WEBB."

And the Houſe agreeing to the Report,

Ordered, That an Order on the Treaſurer be drawn, payable to *Conrad Weiſer*, for the Sum of £ 38 14 11; and that he pay to the ſeveral other Perſons mentioned in the Report, what is reſpectively due to them.

And the Order was drawn, and ſigned by the Speaker accordingly.

Then the Governor's Meſſage, and the Papers accompanying it, were again read.

Poſt Meridiem

A Petition from the Commiſſioners of *Cumberland* County, appointed with the Commiſſioners of *York* County to run the Diviſion Line between the ſaid Counties; ſetting forth, that the *York* Commiſſioners refuſing to run the Line, agreeable to the Act of Aſſembly, the Petitioners conceived it their Duty to do it themſelves, and accordingly began oppoſite to the Mouth of *Swahatara*, on *Saſquehannah* River, and then took the Courſes and Diſtances along the higheſt Ridge of the Mountain, without croſſing any running Water, till they ſtruck the Middle of the main Body of the *South Mountain*, at *James Caruther's* Plantation; a true Draught whereof is annexed to the Petition. That the Draught of the Line, and Places adjacent, laid before the Houſe by the *York* Commiſſioners, as far as relates to the Waters, and Courſes, is altogether imaginary, and grounded on no actual Survey; thoſe Commiſſioners having no Surveyor with them, nor ſo much as attempting to chain any Part of it: That the Petitioners would willingly agree to the Propoſal of making *Yellow Breeches* Creek the Boundary, if that Draught had any Truth in it; but as it is altogether falſe, and the making that Creek the Line would actually cut off a great Part of the *North-valley*, reduce it to a Point on *Saſquehannah*, and make the County quite irregular; the Petitioners pray, that the Line in the Draught to their Petition annexed may be confirmed, or a ſtraight Line granted from the Mouth of *Swahatara*, to the Middle of the *South Mountain*; was preſented to the Houſe and read, and *Ordered to lie on the Table.*

The Governor's Meſſage was again read, and conſidered.

Ordered, That *Iſrael Pemberton*, *Joſeph Fox*, *Abraham Chapman*, *George Aſhbridge*, *James Wright* and *Harmanus Alricks* be a Committee to prepare a Draught of an Anſwer to the Governor's Meſſage, and report the ſame to the Houſe.

Then

Then the House adjourned to Ten o'Clock To-morrow Morning. 1750.

A Petition from *Ebenezer Tomlinson*, setting forth, that he hath made frequent Applications to the Trustees of the Loan-Office, requesting that they would dispose of a certain Messuage, and Lot of Land, mortgaged to them, in which he is interested in Right of his Wife; but without Effect: That he is about to leave the Province, and desirous to adjust his Affairs before his Departure, which he cannot accomplish unless the said Messuage and Lot are disposed of; and therefore praying that the House would enquire into the Premises, and grant him such Relief as to their Wisdom shall seem meet; was presented to the House and read, and *Ordered to lie on the Table.* 8th Mo. 19.

Maurice Turner and *Ralph Killgore*, two Servants of an *Indian* Trader, who had lately escaped from the *French*, attending the House, were called in and examined, touching the Manner of their being taken Prisoners by the *French Indians*, the Place they were carried to, the Treatment they received from the *French*, the Preparations making among them for a War on our *Indians*, and other Particulars relating to *Indian* Affairs, and the State of the Frontiers; and having answered such Questions as the House thought fit to ask them, they withdrew.

The Committee appointed to prepare a Draught of an Answer to the Governor's Message, reported the same to the House, which was read, and considered, and after some Amendments ordered to be transcribed, that it may be sent up to the Governor.

The Petition of the Commissioners of *Cumberland* County relating to the Line, was again read, and referred to further Consideration at the next Sitting.

Then the House adjourned to Three o'Clock, *P. M.* Adjournment

The Answer to the Governor's Message being transcribed, was read, and follows in these Words, *viz.* *Post Meridiem*

May it please the GOVERNOR,

AS the Prosperity of the Trade of the Province, and the Peace and Safety of our remote Inhabitants, are essentially concerned in preserving the *Indians* in our Alliance steady in their Friendship with us; the House hath deliberately and maturely considered the Governor's Message, with the several Letters and Papers he was pleased to send with it; and having examined our Province Interpreter, and likewise the two Persons, who have lately escaped from their Imprisonment among the *French*, we do now with Gratitude acknowledge the Regard and Attention to the Interest of the Province manifested by the Governor on this Occasion. An Answer from the Assembly to the Governor's Message

We are heartily concerned that the Industry of the *French* hath met with so much Success with the *Indians* of the *Six Nations*, and we doubt not they will carefully improve this Opportunity (given by the Death of *Canassatego*, and the other Chiefs, who were our steady Friends) of using many Artifices to alienate the Affections of these Nations from us, and engage them more closely to the *French* Interest than they have heretofore been able to do; so that we are sensible there is a Necessity of speedy Measures being immediately taken to avert the unhappy Consequences of losing their Affection and Friendship; and we hope the Care the Governor has taken to inform the Governors of the neighbouring Colonies of the present Disposition of these *Indians*, will be duly regarded. This Province made them a large and valuable Present last Year; and as the Situation and Trade of *New-York* particularly demands their steady Attention to the maintaining the Alliance and Friendship of these Nations, we doubt not they will think themselves obliged to take the proper Care on this Occasion: And we believing it may be proper to send them a Message of Condolence on the Death of their Sachems, are willing to make the necessary Provision, if the Governor should concur with us, in directing *Conrad Weiser* to attend the next Treaty at *Albany*, with such a Message.

The several Nations of *Indians* about *Ohio* appear to us at this Time most immediately to merit and stand in need of our Assistance; and as the Governor has informed us, that the Messengers appointed to carry the Present provided by the last Assembly for the *Twightwees*, are not yet set out on their Journey, we have now concluded to make an Addition to that Present, and likewise to direct a Present of larger Value to be provided for the *Shawanese*, *Delawares*, *Ouendaets* and other Nations settled near them, in order to confirm them in their Friendship with us; and as we are informed there are considerable Numbers of those People, who are not united in any Government, or under any Sachems, which renders it difficult to transact Affairs, and treat with them, on any Emergency, we submit to the Governor's Consideration the Expediency of recommending to them the Advantage of such an Union; which if it can be effected and maintained without interfering with their Engagements with the *Six Nations*, may probably discourage the *French* from any Attempts against them, and afford us a greater Opportunity of improving the good Disposition they have lately manifested towards us, and of keeping them steadily attached to the *British* Nation.

The Expences arising on these Negotiations having increased much of late Years, and being likely to continue, our Duty to the Freemen of this Province, obliges us to repeat

the

1750. 8th Mo. 19. the Requeſt made by the Aſſembly laſt Year to the Governor, to recommend to the Proprietaries the Juſtice of their joining with us on theſe Occaſions. The Benefits they reap from the Settlement of their back Lands are very great, and tend peculiarly to the Advancement of their private Properties, beſides what they have in the common Proſperity of the Province, and the Increaſe of a Trade, which enables us to make Remittances directly to *Great-Britain*; that if there were not any other Conſiderations, theſe will, we hope, be ſufficient to induce the Proprietaries to bear a Part of theſe Expences; and as we ſhall now contribute as much as the preſent State of our Treaſury will permit, we hope, on the Governor's Interceſſion, the Proprietaries will readily conſent to direct a proper Addition to be made thereto.

And the Meſſage being ſigned by the Speaker, by Order of the Houſe,

Ordered, That *Edward Warner* and *Joſeph Trotter* wait upon the Governor with the ſame.

A ſmall Account from *James Claxton*, Innholder, for Expences of *Maurice Turner* and *Ralph Killgore*, was laid before the Houſe, and referred to the Committee of Accounts.

It is alſo referred to the ſame Committee, to conſider whether it may be proper to make the ſaid *Turner* and *Killgore* ſome Allowance, in Conſideration of their Sufferings among the *French*, and the Informations they have given.

The Gentlemen appointed to wait on the Governor with the Meſſage of the Houſe, return, and report, that they delivered the ſame according to Order.

Reſolved, That *One Hundred Pounds* be allowed as a Preſent of Condolence to the *Six Nations*, on the Death of *Canaſſatego*, and ſome others of their Chiefs.

Reſolved, That *One Hundred Pounds* more be given to the *Twightwees*; and *Five Hundred Pounds* to the other Nations at *Ohio*; to be laid out by the Treaſurer, in the Purchaſe of ſuitable Goods, and ſent them as ſoon as poſſible.

Adjournment. Then the Houſe adjourned to Ten o'Clock To-morrow Morning.

8th Mo. 20. The Committee of Accounts report it as their Opinion, that *Ten Pounds* be given to *Maurice Turner* and *Ralph Killgore*, and that they diſcharge *James Claxton's* Account; to which the Houſe agreed: And an Order was drawn on the Treaſurer, and ſigned by the Speaker accordingly.

A Petition from *James Read*, Prothonotary of the Supreme Court, ſetting forth, that the Records and Papers of the ſaid Court, are removed from his Houſe into an Office in one of the Wings of the State-houſe; and praying that a Quantity of Firewood may be ordered for the Uſe of the ſaid Office; was preſented to the Houſe and read, and

Ordered to lie on the Table.

Ordered, That *Hugh Evans* and *William Clymer* wait on the Governor, and acquaint him, that the Houſe is inclined to adjourn this Day to the firſt *Second-day* of the Week in the next Eleventh Month, if he hath no Objection to that Time.

Ordered, That the Committee of Accounts inſpect the Accounts of the late Collector of Exciſe for the County of *Philadelphia*, and report thereon to the Houſe at the next Sitting.

The Gentlemen appointed to wait on the Governor with the Meſſage of the Houſe, report, that they delivered the ſame according to Order; and that the Governor was pleaſed to ſay, he had no Objection to the propoſed Time of Adjournment.

The Governor, by his Secretary, ſent down a verbal Meſſage to the Houſe, *viz.*

GENTLEMEN,

A Meſſage from the Governor to the Aſſembly. 'I Have conſidered your Meſſage of Yeſterday, and am well pleaſed to find your Determinations ſo agreeable to what I really think the Intereſt of the Province at this Time requires: And I ſhall in the ſeveral Particulars recommended by you, act conformably to your Advice and Requeſt. The Buſineſs of my other Government requiring my Preſence at *Newcaſtle* immediately, I ſhall appoint a Committee of the Council to act for me during my Abſence, in *Indian* Affairs, in order that all poſſible Diſpatch may be given to that Service.'

Adjournment. The Houſe adjourned to the firſt *Second-day* of the Week, in the next 11th Month.

11th Mo. 7. THE following Members met, *viz.* the SPEAKER, *Edward Warner*, *Joſeph Trotter*, *Hugh Evans*, *Iſrael Pemberton*, *Evan Morgan*, *John Smith*, *Joſeph Fox*, *William Clymer*, *Garrat Vanſant*, *Joſeph Gibbins*, *George Aſhbridge*, *Henry Hockley*, *Nathaniel Grubb*, *Peter Dicks*, *Joſeph Armſtrong*, *Calvin Cooper*, *John Witherow*, *James Webb*, *John Wright* and *James Wright*.

Adjournment. And adjourned to Three o'Clock To-morrow, in the Afternoon.

11th Mo. 8. The above Members met again, with *Owen Evans* and *Joſeph Hamton*; and being now a Quorum,

Ordered, That *Iſrael Pemberton* and *Joſeph Fox*, wait upon the Governor and acquaint him, that by the Extremity of the Weather, and the Indiſpoſition of ſome of the Members,

bers, a full House did not meet Yesterday, pursuant to the Adjournment; but that a Majority then appeared, and that there is now a Quorum, to proceed on Business, and ready to receive any thing the Governor may have to lay before them. 1750. 11th Mo. 8.

The Gentlemen return, and report, that they waited on the Governor, and delivered the Message according to Order; and that the Governor was pleased to say, he would on this Occasion send a Message in Writing to the House To-morrow Morning.

Then the House adjourned to Ten o'Clock To-morrow Morning. Adjournment 11th Mo. 9.

John Wright and *John Witherow* returned Representatives for the County of *York*, took and subscribed the Qualifications by Law required to be taken by Members of this House, and then took their Seats in the House accordingly.

Then the House adjourned to Three o'Clock, *P. M.* Adjournment *Post Meridiem.*

Ordered, That *Israel Pemberton*, *Joseph Fox*, *Joseph Trotter*, *Richard Walker*, *Joseph Gibbins*, *James Webb*, *John Wright* and *Joseph Armstrong* be a Committee to inspect the Minutes of the last Year, and report what Matters they find unfinished, or referred to the Consideration of this Assembly.

Then the House adjourned to Nine o'Clock To-morrow Morning. Adjournment

The Governor, by a Member of the Council, sent down a verbal Message to the House, *viz.* 11th Mo. 10.

The Governor desires the Attendance of the Members of Assembly immediately in the Council Chamber.

And the House taking the same into Consideration, after some Time,

Ordered, That *Owen Evans*, *Israel Pemberton*, *Joseph Fox*, *George Ashbridge*, *Griffith Owen*, *James Wright*, *John Witherow* and *Joseph Armstrong* wait upon the Governor with the following Message, *viz.* "That the House apprehending there is a material "Difference between the Message from the Governor delivered this Morning, and the "Governor's Answer to the Message from this House of the 8th Instant; to prevent "all Misunderstanding, they request the Governor would be pleased to communicate "the Contents of his Message to the House in Writing."

A Message from the Governor was delivered by one of the Council, desiring a Copy of the Message of the House in Writing.

And the Member of Council being desired to withdraw, the House agreed to send up a Copy of their Message in Writing: And the Member of Council being again called in, a Copy of the same was accordingly delivered to him, signed by the Speaker.

Then the Governor sent down a Copy of his verbal Message by a Member of Council, which is as follows, *viz.*

The House taking into Consideration the Governor's Message, appointed a considerable Number of their Members, *viz. Ordered, That the following absent Members be sent for to attend the Service of the House, *viz. Mahlon Kirkbride*, *John Woolston*, *John Hall*, *Abraham Chapman*, *Thomas Cummings*, *Thomas Chandler*, *Nathaniel Pennock*, *Arthur Patterson* and *Hermanus Alrichs*.

Then the House adjourned to Three o'Clock, *P. M.* Adjournment

1750. 11*th Mo.* 10. The Gentlemen appointed this Morning to wait on the Governor, report, that they went to the Council Chamber, and found that the Governor was gone; that they therefore waited on the Governor at his Houſe, who was pleaſed to ſay to them as follows, *viz.*

'I Expected, in Compliance with my Meſſage to the Members of Aſſembly met together in the Aſſembly Room this Morning, the Attendance of all ſuch as were then preſent.

'I cannot look upon you, *Gentlemen*, as a Committee of Aſſembly of this Province, becauſe in my Opinion no ſuch Houſe is now ſitting, by Reaſon of the Members failing to meet according to Adjournment; neither can ſuch Houſe now ſit unleſs legally convened by my Authority; and therefore I cannot receive any Meſſage from you as a Committee of a Houſe of Aſſembly."

And the Houſe taking the ſame into Conſideration, ſpent ſome Time therein; and then referred the farther Conſideration thereof till To-morrow Morning.

Adjournment. Then the Houſe adjourned to Ten o'Clock To-morrow Morning.

11*th Mo.* 11. The Houſe reſumed the Conſideration of the Report of the Members that waited on the Governor; and the Royal Charter, with ſeveral other Charters, Laws and original Minutes, relating to the Privileges and Powers of Aſſemblies of this Province, being read and conſidered,

Ordered, That *Iſrael Pemberton*, *John Smith*, *Joſeph Fox*, *Joſeph Hamton*, *George Aſhbridge*, *James Wright* and *John Wright* be a Committee more fully and carefully to examine the Charters and Laws of the Province, and alſo the Votes and Proceedings of former Aſſemblies, for all ſuch Paſſages and Minutes as relate to the Privileges of the Houſe, and the Proceedings of former Governors and Aſſemblies on any Failure of the Meeting of the Members, either upon their own Adjournments, or when called by the Governor's Writs; that the Houſe may judge what is fitting to be done on the preſent Occaſion.

Adjournment. Then the Houſe adjourned to Ten o'Clock To-morrow Morning.

11*th Mo.* 12. The Committee appointed to inſpect the Charters and Proceedings of Aſſemblies, report, that they have made ſome Progreſs therein, and deſire further Time to compleat the ſame, which was allowed by the Houſe.

Abraham Chapman, a Member from *Bucks* County, appeared in the Houſe.

Adjournment. Then the Houſe adjourned to next *Second-day*, at Three in the Afternoon.

11*th Mo.* 14. The Houſe met according to Adjournment, and *Nathaniel Pennock*, *Thomas Chandler*, *Thomas Cummings*, *Mahlon Kirkbride* and *Hermanus Alrichs* appeared in the Houſe, according to Order.

Thomas Chandler and *Nathaniel Pennock* took and ſubſcribed the Qualification by Law required of Members of Aſſembly, and then took their Seats in the Houſe accordingly.

The Committee appointed to inſpect the Charters, Laws and Votes of Aſſemblies, *&c.* relating to the Privileges of the Houſe, made their Report thereupon in Writing, which was read, and conſidered, and follows in theſe Words, *viz.*

WE have carefully examined, as fully as the Time would permit, all the Charters and Laws of this Province, and alſo all the Votes and Proceedings of Aſſemblies before and ſince the Granting our preſent Charter, which any ways materially relate to the Privileges of this Houſe, and to the Proceedings of former Governors and Aſſemblies on Failure of the Meeting of a ſufficient Number of Repreſentatives to proceed to the Buſineſs of the Province, either upon their own Adjournments, or when called together by the Governor's Writs; all which we lay before the Houſe in Obedience to their Order.

We find that the Royal Charter granted by King CHARLES the Second, makes and ordains WILLIAM PENN, Eſq; his Heirs and Aſſigns, true and abſolute Proprietaries of all the Lands and Dominions within the Province of *Pennſylvania*; and among other great Powers and Authorities, grants, 'Free, full and abſolute Power to him and his 'Heirs, to his and their Deputies and Lieutenants, for the good and happy Government of the ſaid Country, to ordain, make and enact, and under his and their Seals, 'to publiſh any Laws whatſoever, for the raiſing of Money for public Uſes of the ſaid 'Province, or for any other End appertaining either unto the Public State, Peace or 'Safety of the ſaid Country, or unto the private Utility of particular Perſons, according 'unto their beſt Diſcretion, by and with the Advice, Aſſent and Approbation of the 'Freemen of the ſaid Country, or the greater Part of them, or of their Delegates or 'Deputies; whom for the Enacting the ſaid Laws when and as often as Need ſhall re'quire, [the ſaid Charter wills] that the ſaid *William Penn* and his Heirs, ſhall aſſemble 'in ſuch Sort and Form, as to him and them ſhall ſeem beſt, and the ſame Laws duly 'to execute unto and upon all People within the ſaid Country and Limits thereof."

In Purſuance of the Powers veſted in the Proprietor by this Charter, we find, that on the 25th Day of *April*, 1682, he granted to the Freemen of this Province, with many other

other large Privileges and Immunities, 'That the Provincial Council [at that Time 'Part of the Legislature] in all Cases and Matters of Moment, as their arguing upon 'Bills to be past into Laws, erecting Courts of Justice, giving Judgment upon Cri- 'minals impeached, and Choice of Officers, not less than two Thirds of the whole Pro- 'vincial Council, shall make a Quorum, and that the Consent and Approbation of two 'Thirds of such a Quorum shall be had in all such Cases and Matters of Moment." And moreover, 'That in all Cases and Matters of lesser Moment, Twenty-four Mem- 'bers of thesaid Provincial Council [which was one Third Part of the Whole] shall make 'a Quorum, the Majority of which Twenty-four, shall and may always determine in 'such Cases of lesser Moment."

1750. 11*th Mo.* 14.

In the Act of Settlement made at *Chester* in the same Year 1682, when it was found necessary to reduce the Numbers both of the Provincial Council and Assembly, we find the like Provision with Regard to Matters of greater and lesser Moment in these Words, 'That the Numbers desired by the Inhabitants in their several Petitions, and 'expressed to be their Desires by the Sheriffs Returns to the Proprietary and Governor, 'to serve as the Provincial Council, and General Assembly, be allowed and taken, to 'all Intents and Purposes to be the Provincial Council, and General Assembly of this 'Province; and that the Quorum shall be proportionably settled, according to the 'Method expressed in the fifth Article [of the aforesaid Frame of Government] that 'is to say, two Thirds to make a Quorum in extraordinary Cases, and one Third in 'ordinary Cases, as is provided in the said fifth Article.'

The Frame of Government, dated the second Day of the 2*d Month*, 1683, among other Privileges granted to the Provincial Council and Assembly, recites,———that 'to the End that all Bills prepared and agreed by the Governor, and Provincial Council, 'may yet have the more full Concurrence of the Freemen of the Province, and Terri- 'tories thereof, it is declared, granted and confirmed, that at the Time and Place in 'every County for the Choice of one Person to serve in Provincial Council, the respective 'Members thereof at their said Meeting, shall yearly choose out of themselves six 'Persons of most Note for Wisdom, Virtue and Ability, to serve in Assembly as their 'Representatives, who shall yearly meet on the 10th Day of the 3*d Month* in the Ca- 'pital Town or City of the said Province; unless the Governor, and Provincial Coun- 'cil shall think fit to appoint another Place to meet in; where during eight Days the se- 'veral Members may confer freely with one another; and if any of them see meet, 'with a Committee of the Provincial Council, which shall be at the Time purposely 'appointed to receive from any of them, Proposals for the Alteration or Amendment of 'any of the said proposed, and promulgated Bills; and on the ninth Day from their 'so meeting, the said Assembly after their reading over of the proposed Bills by the 'Clerk of the Provincial Council, and the Occasions and Motives for them being opened 'by the Governor or his Deputy, shall, upon the Question by him put, give their Af- 'firmative or Negative, which to them seemeth best, in such Manner as is hereafter 'expreſt,' [that is, in Things personal by Ballot, and in all Things relating to the pre- paring and passing of Bills into Laws openly by Vote] 'But not less than two Thirds 'shall make a Quorum in the passing of all Bills into Laws, and Choice of such Of- 'ficers as are by them to be chosen.'

Your Commitee have transcribed this whole Paragraph, because it is the first of our Charters wherein the Distinction between the Powers of Assembly in Matters of greater and lesser Moment is omitted, though without any negative Words, and plainly im- plied in the Paragraph itself, and fully cleared up in the next Frame of Government made and passed by *William Markham*, Esq; then Lieutenant Governor under the Pro- prietor, upon his being restored to the Government of this his Province, in the Year 1696, in which the Distinction of the Frame of Government, and Act of Settlement both past in the Year 1682, with regard to the Council, is restored in these Words: 'And be it enacted, *&c.* That the Council in all Cases, and Matters of Moment, as 'about erecting Courts of Justice, sitting in Judgment upon Persons impeached, and 'upon Bills and other Matters that may be from Time to Time presented to the As- 'sembly, not less than two Thirds shall make a Quorum; and that the Consent and 'Approbation of the Majority of that Quorum shall be had in all such Cases, and Mat- 'ters of Moment: And that in Cases of lesser Moment, not less than one Third shall 'make a Quorum, the Majority of which shall, and may always determine in all such 'Cases of lesser Moment; and in Case the Governor's Power shall hereafter happen to 'be in the Council, a President shall be then chosen out of themselves by two Thirds, 'or the major Part of them; which President shall therein preside.'

And the Assembly, (whose Powers by this Charter were materially altered) were thereby impowered and authorized to prepare Bills, and propose them to the Council in the following Words, *viz.* 'And be it enacted, *&c.* That the Representatives of the 'Freemen, when met in Assembly, shall have Power to prepare, and propose to the 'Governor and Council, all such Bills as they, or the major Part of them, shall at any

1750. 11*th Mo.* 14. ‘ Time ſee needful to be paſt into Laws, within the ſaid Province, and Territories; ‘ Provided always, that nothing herein contained ſhall debar the Governor and Council, ‘ from recommending to the Aſſembly all ſuch Bills as they ſhall think fit to be paſt ‘ into Laws; and that the Council and Aſſembly may, upon Occaſion, confer together ‘ in Committees, when deſired: All which ſaid propoſed and prepared Bills, or ſuch of ‘ them as the Governor, with the Advice of the Council, ſhall, in open Aſſembly, de- ‘ clare his Aſſent unto, ſhall be the Laws of this Province, *&c.*’——And be it further enacted, ‘ That the Aſſembly ſhall ſit upon their own Adjournments, and Committees, ‘ and continue in order to prepare and propoſe Bills, redreſs Grievances, and impeach ‘ Criminals, or ſuch Perſons as they ſhall think fit to be there impeached, until the Go- ‘ vernor and Council for the Time being ſhall diſmiſs them; which Aſſembly ſhall, ‘ notwithſtanding ſuch Diſmiſs, be capable of aſſembling together, upon Summons of ‘ the Governor and Council, at any Time during that Year, two Thirds of which As- ‘ ſembly, *in all Caſes*, ſhall make a Quorum.’

As in this laſt Paragraph two Thirds are mentioned as a Quorum of Aſſembly *in all Caſes* when called by the Governor's Writs, without any negative Words; it is remarkably explained by the Conduct of ſucceeding Governors, and the Proprietor himſelf, when the Aſſemblies failed of making a Quorum.

In the Minutes for the Year 1698, during Governor *Markham's* Adminiſtration, we find, ‘ that *Edward Shippen* and *William Biles*, two Members of Council, being ſent ‘ from the Governor, reported, that there was not a ſufficient Number of Council as ‘ yet come in, therefore deſired our Appearance To-morrow Morning at Nine o'Clock. ‘ At which Time the Repreſentatives of Aſſembly met.——Two Members of Council ‘ came with a Meſſage from the Governor, that he was ready to receive us, in order ‘ for our Qualification; we making our Appearance accordingly, and being qualified, ‘ the Governor returned us to our Houſe to chooſe a Speaker.

In the Minutes for the Year 1699, are theſe Words, ‘ *David Lloyd* and *John Hill*, ‘ two Members of Council, informed the Houſe, that they were now a full Council, ‘ and were ready to receive the Aſſembly. *Anthony Morris* and *James Fox* being re- ‘ queſted by the Members of Aſſembly now met, went to the Governor and Council ‘ to acquaint them, that they were not a full Houſe, and to deſire that the abſent ‘ Members might be ſent for. Whereupon the Governor ordered that all the Mem- ‘ bers preſent ſhould come into Council, in order to be qualified: Upon which the ‘ Members went in a full Body to the Governor, and were qualified; after which they ‘ returned to the Houſe, and agreed to meet together To-morrow Morning about Ten ‘ o'Clock.

In the Year 1700, when the Proprietor himſelf was our Governor, we find the Minutes of that Year begin with theſe Words, *viz.* ‘ At an Aſſembly held at *Philadel-* ‘ *phia*, the tenth Day of the 3*d Month*, 1700, ſeveral of the Members appearing, but ‘ not being a full Houſe, it was concluded to meet again on the twelfth Inſtant.

‘ 3*d Month* 12, 1700. The Members of the Houſe being met and qualified, pro- ‘ ceeded to chooſe their Speaker; and *John Blunſton* being by the Majority of Votes ‘ choſen Speaker, was deſired to take the Chair, which he did accordingly.——Two ‘ Members of Council were ſent from the Governor and Council to inform this Houſe, ‘ that if the Houſe had any Thing to propoſe, they were ready to receive it; where- ‘ upon the Houſe repaired to the Council Room, and preſented their Speaker, who was ‘ approved of by the Governor.

In the Year 1701, when the Proprietor and Governor was yet in the Province, we have upon our Minutes a particular Inſtance of the Proprietor's Conduct towards that Aſſembly upon their being unable to make a Quorum, when called together by his Writs: The Words are: ‘ At an Aſſembly held at *Philadelphia*, the firſt Day of the 6*th* ‘ *Month*, 1701, the Members of the Houſe being called over, there appeared, *viz.* ‘ *Joſeph Growdon*, Speaker, *&c.*———There appearing but twelve Members this Day, ‘ they all attended the Governor to know his Pleaſure in calling this Aſſembly; who ‘ anſwered, that he would rather chooſe to defer the Buſineſs 'till there was a greater ‘ Number; whereupon the Aſſembly adjourned 'till Nine o'Clock To-morrow Morn- ‘ ing.’

‘ 6*th Month* 2. The Aſſembly met, the aboveſaid Members all appeared, and ſix ‘ other Members, *which making a full Houſe*, they attended the Governor, to know his ‘ further Pleaſure; whereupon the Governor acquainted the Houſe the Occaſion of cal- ‘ ling them at this Time.’

The 23*d*, 24th and 25th of *September*, 1701, we find ſeveral very remarkable Minutes relating to the Meeting of a Majority of Members of Aſſembly on their own Adjournments, *viz.* ‘ *September* 23, The Houſe met, *&c.* There being a Quorum,—adjourned ‘ 'till Nine o'Clock in the Morning.——24th, The Houſe met, the Speaker aſſuming ‘ the Chair, and the Houſe being called over, nine of the Members being abſent, and ‘ the Provincial Court ſitting this Day, where one of the Members was obliged to be;

'it being the Time of the yearly Meeting, and not a full House, it was ordered that the House be adjourned till Nine o'Clock To-morrow Morning.'

'*September* 25. The House met, *viz.* the Majority; it was proposed, whether the 'King's Letter be considered, or whether the House send to the Governor to know his 'Answer to the Address?—Agreed on, that the Letter should be read, and debated, which 'was done accordingly;——adjourned till Three o'Clock in the Afternoon.——At which 'Time the Speaker assumed the Chair, and the House being called over, the major 'Part appeared; *Ordered*, that *A. M.* and *T. B.* wait on the Governor to request his 'Answer to the Address, and to desire a List of the Laws sent to *England*, for the King's 'Approbation; who return and say, they have done their Message, and that the Go-'vernor answered, that they had the Business in Debate, but desired a Conference with 'the whole House in the Morning at Eight o'Clock, when they should have a more 'particular Answer: That the Laws were marked, and they would look for them; 'when found, they should be given in.'—'Two Members of Council came from the 'Governor, and desire the Address of the Inhabitants.'—'Put to the Vote, whether a 'Copy thereof be sent to the Governor?——Then the two Members of Council being 'again called into the House, were told, that the Governor should have a Copy of the 'said Address this Night or in the Morning.———Adjourned till Eight o'Clock To-'morrow Morning.——29*th*. The House met, and all appeared, *&c.*

In the same Year 1701, on the tenth Day of *October*, *P. M.* among other Minutes are these following, *viz.* 'The Vote being put, whether the Bill for Confirmation of 'Laws should pass into a Law?—several Members rose up and left the House [*viz.* nine] 'and the Vote was immediately carried in the Affirmative by the remaining Members, 'being fourteen in Number, *N. C. D.*—Adjourned till Nine o'Clock To-morrow 'Morning. *October* 11. The House met, and—all appeared, except some of the Lower 'County Members not yet returned.'———Then several Bills were read, and likewise our present Charter of Privileges.———*Ordered*, that *J. B.* and *S. R.* wait on the Governor, and acquaint him with the Members leaving the House, who return and say, that the Governor's Answer was, '*They might proceed to Business notwithstanding.*'

We apprehend there can be no Occasion to multiply Instances of the Powers, agreed by the Proprietor to be vested in the Meeting of a Majority of the Representatives after this his full Declaration to that very Assembly, who, at that Time, had under their Consideration, and in a few Days after accepted of our present Charter. Only, we may observe, that notwithstanding the aforesaid Lower County Members sometimes took their Seats in the House, and at other Times absented themselves, *for fear of being over-voted*; yet the Business of the Province, whether they were present or absent, went forward; and at length the Proprietor, Assembly and Members of the Lower Counties, without the least Objection, unanimously concur in passing those Laws, and accepting our present Charter.

We should here rest our Enquiries previous to the Charter, but for a very material and short Minute of the Twenty-second of *October*, this Year, *viz.* 'The House met, *&c.* '———and *there being a Majority*, it was proposed to go to the Governor, in order to 'know his Pleasure in respect to the Conference by him proposed.———Adjourned till 'Nine o'Clock To-morrow Morning.——*October* 23. The House met, *&c. Ordered*, 'that *A. M.* wait on the Governor with the Charter of Privileges, and acquaint him 'that the House have considered it, and approve of it, as it now is, and desire it may 'be engrossed.'

We now come to our present Charter, the second Section whereof grants, that, 'For 'the well-governing of this Province and Territories, there shall be an Assembly yearly 'chosen by the Freemen thereof, to consist of four Persons out of each County [this 'was agreeable to the Frame of Government, 1696] (or of a greater Number, at 'any Time as the Governor and Assembly shall agree) upon the first Day of *October*, 'forever; and shall sit on the fourteenth Day of the same Month. Which Assembly 'shall have Power to choose a Speaker, and other their Officers, and shall be Judges 'of the Qualifications and Elections of their own Members, sit upon their own Ad-'journments, appoint Committees, prepare Bills, in order to pass into Laws, impeach 'Criminals, and redress Grievances, and shall have all other Powers and Privileges of 'an Assembly, according to the Rights of the Freeborn Subjects of *England*, *and as is* '*usual in any of the King's Plantations in* America.'

'And if any County or Counties shall refuse or neglect to choose their respective 'Representatives as aforesaid, or if chosen do not meet to serve in Assembly; those who 'are so chosen, and met, shall have the full Power of an Assembly, in as ample Man-'ner, as if all the Representatives had been chosen: Provided they are not less than two 'Thirds of the whole Number that ought to meet.'

We are now to enquire what Judgment the Governors and Assembly formed upon this Section of our present Charter, in regard to the *Power of a Majority of Assembly to adjourn when met*, either upon their own Adjournments, or when called together by the

1750. 11*th Mo.* 14. Governor's Writs; in order to which, we have ſearched our Minutes, and find the following, *viz.* '*6th Month* 16, 1704. The Houſe met according to the laſt Adjourn-' ment, but in regard ſome of the Country Members were abſent by Reaſon of the Vio-' lence of the Weather, and the Matters before the Houſe being of Moment, the ' Houſe adjourned till To-morrow, at Two o'Clock in the Afternoon. *6th Month* 17. ' The Houſe met, and the Members being called over, a Quorum appeared.'——Upon which Governor *Evans* joined with the Houſe, without the leaſt Objection [that we can find] for Want of a Quorum upon their firſt Meeting.

This is the only Inſtance we meet upon our Journals, where the Aſſembly failed to meet upon their Adjournment, till after Paſſing the Law, *Quarto Annæ*, entituled, *An Act to aſcertain the Number of Members of Aſſembly, and to regulate the Elections.* By which Law the two Members for the City of *Philadelphia*, and eight Members for each of the Counties (then erected) were confirmed, and the two Paragraphs relating to the Powers and Privileges of an Aſſembly, and the Proviſion in caſe any County ſhould refuſe to chooſe [as had been the Caſe of *Newcaſtle* County, in the Year 1699] were enacted in the very Words of the Charter. So that the ſame Powers continued, after the paſſing this Act, as were veſted in the Repreſentatives by the Proprietor's Charter.

We therefore proceed to lay before the Houſe what we have met with, ſince the paſſing of that Law.

' 3*d of the* 12*th Month*, 1706-7. The Governor having ordered the Sheriffs of the ' reſpective Counties of this Province, and the City of *Philadelphia*, to ſummon the Aſ-' ſembly to meet this Day, the major Part of them met accordingly; but a competent ' Number to proceed upon Buſineſs not being preſent, thoſe who were met, agreed to ' meet again at Nine o'Clock To-morrow Morning.—12*th Month* the fourth, 1706-7. ' A Quorum appeared.——Divers of the Members who now appeared, excuſed their ' Abſence Yeſterday, by reaſon they had no Notice of the Governor's Order, till the ' Evening before.———The Governor being out of Town,——the Houſe adjourned ' till Two o'Clock this Afternoon.———*P. M.* The Houſe met, and—a Quorum ap-' peared.———The Secretary brought from the Governor an Account of a Viſit for-' merly made by the Secretary and others to the *Indians*.——And alſo a Treaty (with ' the Charge thereof) between the Governor and the ſaid *Indians*—which was read, ' and ordered to be read again.———The Houſe proceeded in their Buſineſs.' After an Adjournment from the 15th to the 18th, *P. M*, there is a Minute in the following Words.———" 12*th Month* 18, 1706-7. The major Part of the Members of Aſſem-' bly met; but in regard a competent Number to proceed upon Buſineſs appeared not, ' the Members preſent agreed to meet again at Eight o'Clock To-morrow Morning.— ' 12*th Month* 19. The Houſe met, and a Quorum appeared, and went on with their ' Buſineſs.'

' 6*th Month* 2, 1708. The Governor having ordered the Sheriffs of the ſeveral ' Counties of this Province, and the City of *Philadelphia*, to ſummon the Repreſenta-' tives of the Freemen of the ſaid Province to meet him in Aſſembly this Day: The ' major Part of the ſaid Repreſentatives met accordingly, but there not being a Quorum, ' the Members preſent agreed to meet again To-morrow Morning.———6*th Month* 3, ' 1708. The Houſe met, and the Speaker aſſuming the Chair, the Members were cal-' led over, and a Quorum appeared.' A Committee was appointed to wait on the Governor, and he the next Day joined with them in proceeding to Buſineſs, without any Objection to their not having a full Houſe on the Day of the Return of his Writs.

' 5*th Month* 26, 1709. The Governor having ordered the Sheriffs to ſummon the ' Repreſentatives of the Freemen of the Province to meet him in Aſſembly, this Day ' divers of the ſaid Repreſentatives met accordingly; but not being a full Houſe, the ' Members preſent agreed to meet again at Ten o'Clock To-morrow Morning.—— ' 5*th Month* 27, 1709. The Houſe met, and a Quorum appeared.—*Ordered*, that *J. H.* ' and *A. B.* do wait on the Governor, and acquaint him that the Houſe is met, and ' ready to proceed to Buſineſs—They returned, and acquainted the Houſe, That the ' Governor was pleaſed to tell them, he has ſomething to communicate to the Houſe ' when he can get his Council together, which he intended this Afternoon. Adjourned ' till Three o'Clock, *P. M.*——*P. M.* The Houſe met,' and the Governor recommended to them the public Buſineſs, without any Objection on Account of their Failure at their firſt Meeting.———So again having adjourned themſelves from the 30th 5*th Month* to the 15th 6*th Month*, when the Houſe not being able to make a Quorum, ' Agreed to meet the next Morning,' when a Quorum appeared; and they proceeded to Buſineſs as before.——And again,—' *October* 31, 1709. Several of the Members ' of Aſſembly met; but there not appearing a full Houſe, the Members preſent agreed ' to ſend *J. H.* and *J. R.* to inquire if the Governor be yet come to Town, who ac-' cordingly went to the Governor's Lodgings, and were informed, he is not come to ' Town, nor will be till the latter End of the Week at ſooneſt.——Whereupon the ' Members agreed to meet again To-morrow Morning.——*November* 1. Divers Members

' met,

1750. 11th Mo. 14.

'met, and sent to inquire if the Governor is yet come from *Newcastle*; but the Mem-
'bers who went on the Message, reported, that they had been at the Governor's Lodg-
'ings, and were informed, he will not be in Town in a Week's Time, or more;
'whereupon the Members present, agreed to adjourn till the 14th Day of this Instant;
'and *P. T.* to acquaint the Governor therewith, if he comes to Town.'

November 14, 1709. Divers Members met, but there not being a full House, the Members present adjourned till To-morrow Morning. *November* 15. The House met, and [the Governor not being in Town] appointed a Committee, 'To confer with a Com-
'mittee of the Council upon the Bill of Fees [who reported] that the Committee at the
'Conference had gone through the Bill of Fees, and settled them all, excepting the Fees
'belonging to the Collector and Naval-Officer, which they had agreed to wave till the
'next Sitting of the House. The Speaker acquainted the House, that when the Mem-
'bers of Assembly met on the first Day of *November* last, the Secretary brought a Pe-
'tition to the Members who were present, desiring that Preparation may be made for
'his Trial upon the Impeachment of a former Assembly, which being read in the
'House, was ordered to be read again To-morrow Morning. *November* 16. The House
'having read and debated the said Petition, came to several Resolves, and among others,
'*That the Secretary do forthwith lay before this Assembly, his particular Answer to every*
'*Charge contained in the Articles of Impeachment.*' On the 18th, a Committee was ap-
pointed to confer again with a Committee of Council, to settle the Fees of the Collector and Naval Officer. On the 19th, the Committee appointed to confer with the Members of Council upon the Bill of Fees, reported, 'That the said Conference was begun Yester-
'day, but nothing proceeded on, saving in general, and endeavouring to settle the
'proper Articles to be charged by the Collector and Naval-Officer; and agreed to
'meet the Council again this Morning, if the House thinks fit. *Resolved*, that the
'Members do sit again this Morning, with the Members of Council, upon the said
'Conference, and make Report on *Monday* next; and then adjourned to (the Day
'called) *Monday* next.' *November* 21, 1709. The House ordered a Copy of their Re-
solves relating to the Impeachment of the Secretary, to be delivered to him by one of their Members, 'with the Order thereupon; requiring the said Secretary's Compliance
'with the said Resolves without Delay.' Then the Committee appointed to join with the Members of Council about the Fees, 'Reported, that they had made some consi-
'derable Progress therein, and had settled those Fees unsettled by the former Committee
'in the Bill; which being read, was approved by the House.' *November* 22. The House ordered several of their Members to wait on the Governor, 'And deliver him a
'Copy of the Resolves of the House on the 16th Instant, concerning the Secretary's
'Petition, and also desire his speedy Answer thereunto.' And the Secretary brought a Paper to the House, which he called a Complaint, which was read. The Members appointed to wait on the Governor, reported, 'that they had delivered a Copy of the
'said Resolves, — and that the Governor was pleased to tell them, he will consider of
'their Message, and send an Answer to the House.' The House, in a Committee of the whole House, 'Came to a Resolution upon the Matters committed to them, and ap-
'pointed two Members to give Notice to the Secretary to appear at Ten o'Clock To-
'morrow Morning.' *November* 23. The Secretary appeared before a Committee of the whole House, ——and after his Departure, the House resolved, 'that the Secretary be
'ordered to attend at the Bar of the House, at Four o'Clock, *P. M.*— *P. M.* The Se-
'cretary came to the House, and being admitted to the Bar, was informed by the Speaker,
'that the House were come to three Resolutions concerning him, wherewithal the
'Speaker acquainted him particularly, and demanded his Answer to each of them;
'whereupon he answered, that he would speak to the last Resolve first,' —— and then went on with his Answers; in all which, the Secretary acknowledges, and frequently calls them a House. On the 24th of *November*, 'The House ordered two of their
'Members to wait upon the Governor, and desire to know his Answer to the Assembly's
'Resolves of the 16th Instant [all which Resolves related to the Impeachment of the
'Secretary] which were presented to him since he came to Town.——And to acquaint
'him that the Fees being settled by a Committee of Council and Assembly, and ready
'to be inserted in the Bill; the House desire to know whether the Governor will be
'willing at this Time, to pass that Bill, and Bill of Courts. They returned and re-
'ported, that the Governor was pleased to tell them, that he did not think fit to sit
'judicially upon the Trial of the Secretary, nor that he was safe so to do: And as to
'the Bills, he could say nothing to them till he saw them; but expected the *Assembly*
'would lay before him all such Bills as they desired should be past into Laws, and he
'would then consider them, and give his Answer to the *House*; and withal gave them
'Order to assure the *House*, that he would not protect the Secretary, but leave the *As-*
'*sembly* to proceed against him as they think fit.' The House upon this Answer from the Governor, proceeded immediately to make several severe Resolves against the Secre-
tary, and amongst the rest, that he should be taken to the County Goal.

Permit

1750. 11th *Mo.* 14. Permit your Committee to obſerve, that this valuable Privilege of adjourning themſelves whenever a Majority of the Repreſentatives met, *either upon their own Adjournments*, or *when ſummoned by the Governor's Writs*, remained until this Time inviolated, unqueſtioned, and ſtrengthened (if that can be) by the Deciſion of that great good Man, who firſt beſtowed upon us that valuable Privilege of ſitting upon our own Adjournments. But now we are entring upon a new Scene, where we find, that though it is acknowledged both in the Beginning and End of Governor *Gookin's* Adminiſtration yet occaſionally he not only queſtioned, but denied it with great Heat and Reſentment, as will ſoon appear.

On the 25th of *November*, 1709, the Houſe addreſſed the Governor, laying before him their Reſolves, and ordering the Sheriff of *Philadelphia* County (whom they appointed, by a Reſolve of the Houſe, their Officer for this Purpoſe) to take the Secretary to the County Goal, which he promiſed to obey.

The Secretary being thus warmly proſecuted by the Houſe (ariſing in a great Meaſure from his extreme Attachment to the Proprietary Intereſt) and as earneſtly protected, both by the preſent and the former Governor, as well as others in the Magiſtracy at this Time, Governor *Gookin* found himſelf neceſſitated either to ſuffer the Aſſembly to proceed in executing their rigorous Reſolves, or elſe to queſtion their Powers; and accordingly he choſe to diſpute their Right of Adjournment, when met together in a leſſer Number than a Quorum of the Whole Houſe, though he himſelf, as well as the Council and Secretary, had acknowledged their Powers ever ſince their failing to make a Quorum on the 31ſt of *October*, and the firſt and 14th of *November*, as we have already ſhewn.

November 26. The Sheriff, in the Execution of the Order of the Houſe, being oppoſed by the Governor, and the Mayor of the City of *Philadelphia*, reported the ſame to the Houſe; whereupon the Speaker acquainted him, that if the Governor thought fit to ſuperſede the Warrant [iſſued by the Speaker] 'it muſt be by an Inſtrument in Write-
'ing; otherwiſe the Houſe could take no Notice of it, but would expect him to do his
'Duty; and he thereupon was ordered to withdraw. The Speaker acquainted the
'Houſe, that he received a Paper laſt Night from the Governor, which contained ſome
'Account of what he had ſaid to ſome Members of Aſſembly, about the Secretary's
'Trial, *&c.* which he had deſired might be communicated to the Members, as Oppor-
'tunity offered, and to the Houſe at their next Meeting; *for that he could not conſider*
'*the Aſſembly as a Houſe, ſeeing they had dropt their own Adjournment.*'

'*November* 28. The Sheriff, being upon his Requeſt admitted into the Houſe, de-
'clared, that he had received from the Governor, a *Superſedeas* to the Warrant ſigned
'by the Speaker againſt the Secretary, under the Governor's Hand, and Seal of the
'Province, which he produced, and delivered to the Speaker; which being read in the
'Houſe; and the Contents thereof conſidered and debated, the Houſe came to [ſeveral]
'Reſolutions thereupon, *N. C. D.* [amongſt which, the third Reſolve is] *Reſolved*, that
'the Governor's Objection, that this Aſſembly is no Houſe; becauſe, as he ſays, they
'dropt their Adjournment, is of no Weight; becauſe, if that ſhould be granted, it is
'poſſible, that by Violence of Weather, Mortality or Indiſpoſition, it may often happen,
'as it hath done heretofore, that two Thirds of the whole Number cannot meet on the
'Day appointed; in which Caſes the Conſtitution might be in Danger of Diſſolution,
'which would be an Abſurdity not to be ſuppoſed. *Ordered*, that a Remonſtrance be
'drawn to be ſent to the Governor on this Occaſion; as alſo to preſs him to paſs ſuch
'Bills, as will be ready to be ſent him therewith, with what other Bills are before him.
'*Ordered*, that the Bill of Fees be regulated according to the Agreement of the Com-
'mittees appointed by the Governor to ſettle the ſame.'

On the 29th and 30th, the Houſe having met, and agreed upon a Remonſtrance to the Governor, they ordered ſeveral of their Members 'to attend the Governor with the
'Remonſtrance, and alſo to deliver him the Bill of Fees regulated as aforeſaid. ——
'They returned, and reported, that they could not meet with the Governor, though
'they diligently ſought him. *Ordered*, that the ſame Members deliver it to the Go-
'vernor in the Afternoon. *P. M.* The Members appointed to preſent the Remon-
'ſtrance and Bill to the Governor, reported, that they had met with the Governor,
'at the Houſe of *Charles Spencer*, to whom they delivered their Meſſage, and alſo pre-
'ſented the ſaid Remonſtrance, with the two Bills, deſiring his Concurrence thereunto;
'and that the Governor was pleaſed to tell them, that we are no Aſſembly; and would
'receive no Papers from them as Members of Aſſembly.——That upon preſſing him to
'receive the ſaid Bills and Remonſtrance, in Hopes, as they told him, that upon deli-
'berate Conſideration, he would ſee Cauſe to alter his Opinion and Reſolution, he was
'pleaſed to tell them, *that he was a Stranger amongſt us, and to our Conſtitution*, and
'therefore had taken the Advice of his Council; who had adviſed him, that we were
'no Aſſembly in their Judgment; which was the Reaſon that he would receive no Papers
'from them as Members of Aſſembly.' *December* 1. The Houſe [after giving Orders
'for paying ſome Provincial Debts] conſidering the Governor had utterly refuſed to pro-

'ceed

'ceed with the Assembly in Legislation, or otherwise, agreed to adjourn.' —— And having ordered two of their Members to acquaint the Governor therewith, they adjourned to the *Third Month* following. —— After which we find no more Minutes of that Year. 1750. 11th Mo. 14.

Thus ended this first Attack upon the Privilege of the House, to adjourn with a less Number than a Quorum of the whole House. The Governor and Council being induced to it [as seems clear to us] by their Desire of protecting the Secretary: And this is more probable, as not only the Governor himself, but the Council and Secretary, had all acknowledged the *House* as such, since their failing to make a Quorum on the 31st of *October*, and the 1st and 14th of *November*, and continued so to do until the 25th; on which Day the Speaker signed the Warrant to the Sheriff, to take the Secretary into Custody in the County Goal, as appears above.

We find by our Minutes of the 3*d Month* 20, 1712, that the House had adjourned to the 19th, on which Day there is no Minute. ——3*d Month* 20, a Quorum appeared. —— The Governor desired their Attendance, and made a Speech to them, beginning with these Words, 'Gentlemen, I understand you failed last Night of making a House 'according to Adjournment; I am very sorry any Persons whom the Country has 'thought fit to represent them, should be so ungrateful to their Electors, who thought 'them worthy of that Trust, as to slight or neglect the Service. I understand there are 'Laws provided against those that are so wilfully negligent, I desire they may be put 'immediately in Execution: And if there be Occasion, new Writs shall forthwith be 'issued for new Elections. I am now obliged to call you thus to acquaint you, that 'there is lately come over hither a Repeal of the late Affirmation Act, *&c.*' and concludes with requiring them to proceed to Business.

On the 23d of the 11*th Month*, 1713-14. The House adjourned to the 8th of the 12*th Month*, on which Day the Minutes are, *viz.* '12*th Month* 8, *P. M.* The several 'Members herein after named, met this Day according to Adjournment of the 23d of 'last Month, *viz. Joseph Growdon*, Speaker [and Fourteen other Members] And then 'the House adjourned till Nine To-morrow Morning.

'12*th Month* 9. The several Members herein after named met this Day according to 'Adjournment [Sixteen besides the Speaker] and *J. N.* in Town, who being informed 'that the Governor was out of Town, and that the Extremity of Weather, and Sickness of some Members, hindered several from coming to Town, —— adjourned to 'the 15th Instant.——— 12*th Month* 15. The several Members of Assembly herein after 'named, met this Day according to Adjournment, *viz.* [Nineteen] besides the Speaker 'in Town; and then adjourned till Nine To-morrow Morning.——12*th Month* 16. 'The Representatives met, and being a Quorum, the Speaker assumed the Chair. *E. F.* 'and *I. S.* are appointed to wait on the Governor, and acquaint him, that by Reason 'of the Extremity of Weather, and Indisposition of several Members, they could not 'make a House on the Day of their last Adjournment (*viz.* the 8th Instant) that they 'had agreed to meet this Day, and are a House, and ready to proceed to Business, and 'desire to know whether he has any Thing further to lay before them.——The Members return and report, that they had delivered their Message to the Governor, —— 'who returned Answer, that he could not take Notice of them as a House. —— The 'House proceeded to take into Consideration the Governor's Answer to the Message sent 'him by the House. — And after a long Debate thereon,—— *Resolved*, that *J. K.* and '*T. L.* do wait on the Governor, and acquaint him, that there is a full Number of Members now assembled together, and since he does not think fit to take Notice of them 'as an House, they are inclined to adjourn till the first of *May* next, unless the Governor shall think fit to call them together sooner. — And then the House adjourned 'till Four o'Clock Afternoon.——*P. M.* The House met, and a Quorum appeared. '——*J. K.* and *T. L.* report, that they had delivered the Message, and that the Governor answered, he could not take any Notice of them as a House, and would consult his Council and Lawyers, what was proper to be done, whether for calling the 'present Members, or a new Assembly. ——The House proceeded to take into Consideration the Governor's Answer to their Message; and after some Debate thereon,—— '*Resolved*, that an Address be drawn up, and presented to the Governor, in Reply to 'the Governor's said Answer.——*Ordered*, that *D. Ll. J. S. J. B. R. J. J. K.* and '*J. R.* do prepare and draw up the said Address, and bring the same to the House 'To-morrow Morning.—And then the House adjourned till Nine To-morow Morning. '——12*th Month* 17. The House met, and a Quorum appeared. *D. Ll.* from the 'Committee, brought in the Draught of an Address to the Governor,——which after 'being read twice, was agreed to by the House, with a small Amendment,—and is as 'follows, *viz.*

To CHARLES GOOKIN, *Esq*; *Lieutenant Governor of the Province of* Pennsylvania.

'We the Representatives of the Freemen of the said Province in Assembly met the '17th Day of *February*, 1713, being much concerned that the Governor should be pre-

1750. 11th Mo. 14. ‘ vailed upon to inſiſt, that we are not a Houſe, becauſe Eighteen of us did not meet ‘ on the 8th Inſtant, do earneſtly deſire, that the Governor would be pleaſed to be in- ‘ formed, that it was not any wilful Neglect, or Slackneſs of Duty to ſerve the Public, ‘ that was the Cauſe of ſo ſmall an Appearance that Day, but Sickneſs and Extremity ‘ of Weather rendered it impoſſible for divers of us to comply with that Adjournment.

‘ Nevertheleſs Fifteen met that Day, and Eigtheen the next, and would have waited ‘ on the Governor to know his Pleaſure concerning their next Meeting; but the Go- ‘ vernor not being in Town, the Members then preſent, being a Majority of the Whole, ‘ agreed to come together at this Time, as was lawful for them to do, and hath been ‘ formerly done upon ſuch Emergency: And we hope the Governor will not be offended ‘ with us for being of this Opinion, when he fully conſiders the Conſtitution and ‘ Nature of the Legiſlative Authority of this Province.

‘ We deſire the Governor to take Notice, that the Royal Charter gave our Proprietor, ‘ and his Deputies, Power to enact Laws, by and with the Advice and Aſſent of the ‘ Freemen of this Province, or the greater Part of them; or of their Delegates, whom ‘ for the enacting of the ſaid Laws, when and as often as Need ſhould require, the ‘ Proprietor, and his Heirs, ſhould aſſemble in ſuch Sort and Manner, as to him or ‘ them ſhould ſeem beſt.

‘ Now by this Clauſe, the Law of Majority is abſolutely ſettled, as is uſual in all ‘ ſuch Aſſemblies; and, purſuant to the ſaid Power, we find the Proprietor and Free- ‘ men have conſtituted a ſtanding annual Aſſembly, to be choſen at a certain Day, require- ‘ ing their Attendance, under certain Penalties, allowing them divers Privileges *in par- ‘ ticular, beſides all the Privileges of Aſſemblies in the Queen's Dominions in general.*

‘ We know it is objected, that unleſs two Thirds of the whole Number of Repre- ‘ ſentatives meet on the Day of Adjournment, there can be no Houſe; which we can ‘ in no wiſe allow, becauſe by the Law which requires two Thirds to make an As- ‘ ſembly, it has been generally underſtood, that a leſſer Number could not act legiſla- ‘ tively: *But never doubted, till of late, that ſuch as met, were a Houſe, to adjourn from ‘ Day to Day, till they had a Quorum.* And to admit of another Conſtruction, would ‘ render the Powers of the ſaid Royal Grant, as well as our Laws, in that Point, very ‘ ineffectual, and make the Act of God the Inſtrument of doing that great Wrong to ‘ the Powers of Aſſembly, contrary to the known Maxim and Principle of Law.

‘ Therefore, we deſire that the Governor may duly conſider the Premiſes, and join ‘ with us in Legiſlation, and not ſuffer the Inſinuations of any to fruſtrate our good ‘ Purpoſes to ſerve the Governor in particular, and the Country in general.

By Order of the Houſe,

JOSEPH GROWDON, Speaker.

‘ *Ordered,* That the ſaid Addreſs be engroſſed, ſigned by the Speaker, and preſented ‘ to the Governor, by *W. D.* and *T. S.* immediately. —— The ſaid Members return, ‘ and report, that the Governor was at Dinner.——*Ordered,* That they preſent the ſaid ‘ Addreſs to the Governor after he has dined, and bring his Anſwer this Afternoon to ‘ the Houſe; and then the Houſe adjourned till Three *P. M.*——*P. M.* The Houſe ‘ met, — and a Quorum appeared. — The Members appointed to deliver the Addreſs ‘ of the Houſe to the Governor, report, that they had waited on the Governor, and ‘ offered to preſent unto him the ſaid Addreſs, according to Order; but that he refuſed ‘ to touch or receive the ſame; ſaying, that they were an unlawful Aſſembly, and bid ‘ them be gone about their Buſineſs, otherwiſe he would order the Sheriff and Conſtables ‘ to ſend them going. — *Ordered,* That a Copy of the ſaid Addreſs be publiſhed in the ‘ Coffee-Houſe.”

Upon which the Houſe, after making ſeveral Reſolves for publiſhing their Minutes, and giving Orders for Payment of the Public Debts, adjourned to the 17th Day of the *3d Month*, 1714.

‘ *3d Month* 17, 1714. The Houſe met purſuant to their laſt Adjournment, and — a ‘ Quorum appeared. *Ordered,* That *N. N.* and *T. R.* do wait on the Governor, to ‘ know whether he hath any Thing to lay before this Houſe. —— The ſaid Members ‘ return and report, that the Governor is not in Town.——The Queſtion being put, that ‘ this Houſe do adjourn to the Second of the *6th Month* next, it paſſed in the Affir- ‘ mative; and accordingly the Houſe adjourned unto the Second Day of the 6th *Month* ‘ next, *P. M.*’

‘ *6th Month* 2, 1714. Several Members here under-named met this Day purſuant to ‘ their laſt Adjournment, *viz.* [Eight] beſides the Speaker in Town, who conſidering ‘ the Governor has ſummoned all the Repreſentatives to meet To-morrow, —— agreed ‘ to adjourn till that Time.——Adjourned, *&c.*

‘ *6th Month* 3, 1714. The Houſe met purſuant to the Summons of the Governor, ‘ and proceeded to Buſineſs.’

On the Minutes of the Aſſembly elected in *October*, 1714, we find *December* 13, 1714, ‘ The ſeveral Members of Aſſembly here under-named met this Day purſuant to their

‘ laſt

'last Adjournment, *viz.* The Speaker [and Twelve Members] who considering that the 1750.
'Extremity of Weather has hindered the Arrival of several Members this Day, agreed
'to meet again To-morrow at Two o'Clock in the Afternoon; and accordingly ad- 11th Mo. 14.
'journed till Two o'Clock To-morrow, *P. M.*'

'*December* 14. The House met, and — a Quorum appeared. — A Message to the 'Governor by *N. P.* and *S. P.* that there is a competent Number of Members in the 'House, and desire to know if he has any particular Directions, as to the Qualifications 'of the Members of this House.—The said Members return and report, they had de- 'livered their Message according to Order: That the Governor made Answer, he had 'no particular Direction for Qualification of Members of Assembly, but had sent several 'Papers to be perused by this House.'

Then the Governor and Assembly went forward with Business, till the 16th, when the Speaker and Fifteen Members met, and adjourned to the Afternoon; at which Time, 'the Sixteen Members of Assembly met, pursuant to Adjournment, and received an 'Account of the Indisposition of several of their Members, who had been sent for to 'attend the Service of the House.———The said Sixteen Members last above named 'finding that there is no Likelihood at present of making a House to proceed to Legis- 'lation, agreed that *N. W. R. H. J. K.* and *N. N.* do wait on the Governor, 'and acquaint him, that *J. M.* elected to serve in Assembly for *Chester* County is de- 'ceased; that Nine other Members, detained by Sickness or other Occasions, are now 'absent; and therefore that the Governor would be pleased to give his Order for issuing 'a Writ for electing a new Member in the Room of the said *J. M.* deceased; and also 'that he would be pleased to issue his Summons, commanding all the Members to ap- 'pear in Assembly the first *Second-day* in the next Month; at which Time it is hoped 'there will be a full House, in order to proceed to Legislation.———The said Mem- 'bers return and report, they had delivered their Message.—That the Governor pro- 'mised to issue his Writ and Summons, according to the Desire of the House,—And 'then the House adjourned to the Third of the *11th Month*, 1714.'

'*11th Month* 3. *P M.* The following Members met pursuant to their last Ad- 'journment, *viz.* [Nine] who having waited for some Time, and finding the rest of the 'Members absented, by Reason [as they suppose] the Governor had not summoned the 'Members to attend as agreed last Sitting,—*Resolved*, that the Members present return 'to their several Habitations, until the Governor shall be pleased to summon the House 'to meet again. And that the City Members desire the Governor to expedite his Sum- 'mons accordingly.'

'*11th Month*, 11, 1714-15. The House met pursuant to the Governor's Summons, 'and a Quorum appeared.'

1st Month 22, 1714-15 The following Members met this Day pursuant to Adjourn- ment, *viz.* (the Speaker and Fifteen Members) who having waited till past Nine o'Clock, agreed to meet To-morrow Morning at Eight o'Clock. *1st Month* 23. The House met, and proceeded to Business.

3d Month 16, 1715. The Speaker and twelve Members of Assembly met this Day, pursuant to Adjournment; who having waited till Nine o'Clock, adjourned until Two o'Clock To-morrow Afternoon.

'The Third Day of the Week and 17th of the *Third Month*. The House met.— 'The Speaker assumed the Chair, and the Members being called, a Quorum appeared. 'The Bill for laying a Land Tax, and the new modelling of the Impost Bill not being 'compleated, by Reason of the Indisposition of the Speaker, agreed to adjourn till *Second-* 'day next; and that the Speaker be desired, with the Assistance of the Committee, to 'compleat them by that Time.———Adjourned till *Second-day* next, *P. M.*

'The Second Day of the Week and 23d of the *Third Month*. The Speaker and 'Nine Members of Assembly met this Day pursuant to Adjournment.———Who 'having waited till Eight o'Clock, agreed to meet again To-morrow Morning Nine 'o'Clock.—Adjourned till Nine o'Clock To-morrow Morning.'

'The Third Day of the Week and 24th of the *3d Month*. The Speaker and Sixteen 'Members of Assembly met this Day.—*Ordered*, that *J. K.* and *C. P.* do wait upon 'the Governor and acquaint him, that they cannot make up a Quorum to proceed to 'Legislation, and desire him to consider of what Methods he thinks proper to call the 'Members together.———The said Members return and report, they delivered their 'Message to the Governor according to Order, who made Answer, that he would send 'out his Summons to call the Members together as soon as possible.'

'The Fourth Day of the Week and 25th of the *3d Month*.——The House met. The 'Speaker assumed the Chair, and the Members being called, a Quorum appeared.'—— And notwithstanding the Assembly's Message, and the Governor's Answer of the 24th, without any Summons or Objection, proceeded on their Business, in Concurrence with the Governor.

'The Fifth Day of the Week and the 9th of the *4th Month*, 1715. The Speaker and

'Eleven

1750. 11*th Mo.* 14. 'Eleven Members of Aſſembly met purſuant to Adjournment;———who having waited 'till Eight o'Clock, agreed to meet at Eight To-morrow Morning.'

'The Sixth Day of the Week and 10th of the *4th Month*.—The Houſe met, the Speaker 'aſſumed the Chair, and the Members being called, a Quorum appeared,'—and engaged immediately in Buſineſs.

On the 29th of *October*, 1715, we find an Adjournment to the Second Day of *11th Month* following; but on that Day there is no Entry of any Meeting of the Houſe, or any of the Members; ſo that here ſeems to be a Defect in the Journals of the Houſe.—'On the Firſt of the *3d Month*, 1716, the Houſe met, in Purſuance of the Governor's 'Summons, and a Quorum appeared; *Ordered*, that *E. B.* and *T. H.* do wait on the 'Governor, and acquaint him, that there is a Quorum of the Houſe met, and that 'they will wait on him to receive his Commands To-morrow Morning about Nine 'o'Clock; to which Time the Houſe was adjourned. Adjourned to Nine o'Clock To-'morrow Morning,'

'*3d Month* 2. The Houſe met, and a Quorum appeared.———The Governor ſent a Meſſage to the Houſe, beginning with theſe Words, *viz.*

'*Gentlemen*, By what Miſtake or Misfortune you miſſed your Adjournment, I ſhall 'not enquire:———You are now reſtored to your Privileges as at firſt; and I am ready 'to join with you, to enact ſuch Laws, as may be for the Intereſt and Tranquility of 'the Province, *&c.*

We are now at the Concluſion of Governor *Gookin's* Adminiſtration, and at an End alſo of all Diſputes with the Repreſentatives of this Province, concerning the Power of adjourning themſelves, when met together in a leſſer Number than a Quorum of the whole Houſe. A Succeſſion of better Times has hitherto removed all Difficulties on that Head, whenever by unavoidable Accidents, or the Negligence or Perverſeneſs of their own Members, the Houſe have been unable to make a Quorum, either upon their own Adjournments, or when called together by the Governor's Writs, as we proceed to make appear.

'On the 27th of the *1ſt Month*, 1727, the following Members met according to 'Adjournment [from the 10th of *December* preceding] *viz. David Lloyd*, Speaker [and 'Eleven Members] but a Quorum not appearing at Nine o'Clock at Night, Three of 'the Members preſent undertook to acquaint the Governor thereof. And then they 'agreed to meet To-morrow at Two o'Clock in the Afternoon.'

'*1ſt Month* 28. The following Members of Aſſembly met this Day [*viz.* the Speaker 'and Fourteen Members] who having waited ſome Time, agreed to meet again To-'morrow at Two o'Clock in the Afternoon.'

'*1ſt Month* 29. The Houſe met, and a Quorum appeared.———*Ordered*, That '*E. F. &c.* wait upon the Governor with the following Meſſage in Writing, *viz.* 'The Houſe of Repreſentatives do humbly certify to the Governor, that by Reaſon of 'the great Sickneſs in the Country, and ſudden Fall of Rain, ſuch a Number of the 'Repreſentatives, as are uſually required to proceed in Legiſlation, could not meet to-'gether before this Day; and that a ſufficient Number of the Repreſentatives are now 'with the Speaker met together, and are ready to go upon Buſineſs, and deſire to know 'if the Governor has any Thing to lay before them.

D. Ll. Speaker.'

'The ſaid Members return and report, that they delivered the ſaid Meſſage to the 'Governor, and the Governor was pleaſed to ſay, he would ſend a Meſſage in Writing 'in Anſwer thereto immediately.——The Houſe being informed that *F. R.* a Mem-'ber of Aſſembly—is deceaſed; *Reſolved*, that the Speaker iſſue an Order to the Gover-'nor's Secretary,—requiring him forthwith to iſſue a Writ to the Sheriff, for electing 'another Perſon to ſerve in his Stead, which was done accordingly. The Governor's 'Secretary delivered a Letter to the Speaker from the Governor, intimating that it being 'then late, he choſe to defer laying any Thing before the Houſe till To-morrow Morn-'ing. Adjourned till To-morrow Morning.

'*1ſt Month* 30. *Ordered*, that *T. T.* and *J. K.* wait upon the Governor and ac-'quaint him, that a Quorum of the Repreſentatives being now met together, are un-'willing to proceed upon Buſineſs before they receive his Commands,—who return 'and report,—that the Governor was pleaſed to ſay, he had already ſent a written Meſ-'ſage by his Secretary to the Houſe.—The Governor's Secretary delivered a written 'Meſſage to the Houſe, which [as far as relates to their Adjournment] is as follows, *viz.* 'Mr. Speaker, and Gentlemen of the Houſe of Repreſentatives,—the Weather and 'Floods having prevented your meeting on the 27th Inſtant, purſuant to your laſt Ad-'journment, I thought fit notwithſtanding, as ſoon as a ſufficient Number to make a 'Houſe were in Town, to enable you, as I now do, to act again; and although I un-'derſtand you are ſtill, for the Reaſons that have been mentioned, much ſhort of being 'full, yet I cannot decline laying before you a Matter of vaſt Importance to the whole 'Country, which requires all our Attention, and your ſerious Application.'

As

1750. 11th Mo. 14. As the *Newcastle* Members deserted the Service of the Country in the Year 1701, for fear of being overvoted; so again we find that Eight of the Representatives chosen in *October*, 1727, after having joined with the other Members in several Sessions, finding themselves unable to procure a Majority of Votes, deserted the House, in Hopes by that Means to leave the sitting Members without any legal Authority, and force them to comply with their Demands; but the Absurdity was too apparent, as it must always subject the Majority of the House to any Number exceeding one Third of the Whole: And therefore, as the Proprietor himself had decided the Powers of a Majority in the first Instance, so in the other the Governor concurred with the House, '*That in this Case of Necessity, the sitting Members were well warranted by the Royal Charter, as well as by our own Laws*, to enter upon the Business of the Province; which they entered upon accordingly, and discharged their Duty to their Constituents through the remaining Part of the Year; as we now proceed to shew from the Minutes of the House.

'On the 20th of the 2*d Month*, 1728, one of the Members being absent with the 'Leave of the House, and another of their Members deceased, Eight Members for the 'City and County of *Philadelphia* deserted the House; who being repeatedly applied 'to, and sent for, to attend the Service of the House, without Effect, the sitting Mem-'bers agreed to meet in the Afternoon; at which Time being informed by sundry of 'the Members then present, that they had spoke with some of the said absent Members, 'and understood that they did not design to give their Attendance in the House; there-'upon it was moved and resolved by the sitting Members, that the Governor be ac-'quainted with the Interruption the public Business has met with, by the unwarrant-'able Conduct and wilful Absence of the said Eight Members; and request that the 'Governor will be pleased to summon all the Members of the present Assembly of *Penn-'sylvania*, to meet at such Times as he shall think proper, after his Return from his 'Attendance at the General Assembly of the *Three Lower Counties*. And the Speaker 'and sitting Members having continued in the House until Eight o'Clock at Night, 'and having no farther Account from the aforesaid Eight Members, a Representation 'was drawn up according to the above Resolve, and being approved of, *A. H. J. L. &c.* 'were ordered to wait on the Governor, and present the same.—And then the Mem-'bers separated.'

On the 14th of the 3*d Month* a Majority of Representatives met pursuant to the Governor's Summons.——At which Time a Member being chosen, took his Seat in the House, in the Room of the Member deceased.—The Governor sent to the House the Returns of the Writs of Summons.—The House sent their Sergeant at Arms to the Eight Members, to require their Attendance immediately on the Service of the House; who returned and reported, 'that the said absent Members refused to come to attend the 'Service of the House. Whereupon it was *Ordered*, that *A. H. &c.* wait on the Go-'vernor, and acquaint him, that a Majority of the Representatives being met according 'to his Summons, desire to know if he has any Thing to lay before them; and that 'they had agreed to adjourn till To-morrow Morning. And then the House adjourned 'till To-morrow Morning.'

'3*d Month* 15th, 1728. The Representatives met this Day, the Speaker assumed 'the Chair, and the House was called over [absent the Eight Members]———The 'Members appointed last Night on a Message to the Governor, report, that they de-'livered their Message according to Order, and that the Governor answered, that what 'he had to lay before the House, should be communicated either by Message or Write-'ing, when the House was ready to receive it.———A Message from the Governor, by 'his Secretary, desires that the Speaker and House will forthwith give their Attendance 'on the Governor, now sitting in Council at the House of *J. L.* to consider of some 'Matters of great Importance to the Welfare of this Province.———Then the House 'taking into Consideration the Proceedings of those Eight Members, who, by absent-'ing themselves, would put a Stop to the public Business of this Province;———and 'after some Debate thereon, a Motion was made, and the Question put, that the Se-'venteen Members present, being a Majority of the whole Representative Body of this 'Province, have the Power of an Assembly, and may safely proceed to Legislation, ac-'cording to the Royal Charter, granted to the Proprietor and People of *Pennsylvania*, 'and according to the Laws of this Province.—Carried in the Affirmative, *N. C. D.*

'Then the Speaker and the House went to wait on the Governor accordingly, and 'being returned, the Speaker resumed the Chair and reported, that the Governor had 'made a Speech to this House, a Copy of which was presented to him;' and the same [as far as it relates to the Majority of the House] is as follows;

'Mr Speaker, and Gentlemen of the House of Representatives,——Though I have 'resolved never to interfere with the Proceedings of the House of Representatives, in 'what concerns their Privileges, *of which you are most immediately the Judges*; yet the 'last Breaking up of the House has given me no small Uneasiness; I shall, notwith-'standing, on your present coming together again, by my Summons, recommend it to

1750. 11th Mo. 14. 'you all, to fall on the moſt pacific Meaſures that may be thought of for making up 'this Breach, with a due Regard *to the Rights and Privileges of the Houſe, which I hope* 'you will all be equally careful to ſupport and maintain.'

The Houſe, after reading the Governor's Meſſage, adjourned to the Afternoon; at which Time the Speaker ſigned a Warrant for the Sergeant at Arms, to give Notice to the abſent Members forthwith to give their Attendance.———But though the Sergeant at Arms had given Notice accordingly,—the ſaid Members not appearing, the Houſe proceeded to take into their Conſideration the Governor's Speech.———'*Ordered*, that '*A. H.* and *J. L.* be a Committee to draw up an Anſwer thereto.——And then the 'Houſe adjourned till To-morrow, *P. M.*

'3*d Month* 16th. The Members appointed to draw up an Addreſs to the Governor, 'in Anſwer to his Speech, brought in the ſame.—Which was read, and after ſome 'Debate thereon, and ſome Additions and Alterations being propoſed to be made there-'to by the Houſe: *Ordered*, that *A. H. J. L.* and *W. W.* be a Committee to draw 'up the ſame accordingly, in order to lay before the Houſe To-morrow Morning.— 'Then the Houſe adjourned till To-morrow Morning.'

'3*d Month* 17*th*, 1728. The Houſe met [abſent the Eight Members] Upon Motion, 'that ſome Proviſion be made for defraying the Charges of *Indian* Treaties,—purſuant 'to a Reſolution of the Houſe, of the 27th of *January* laſt, the Queſtion was thereupon 'put, that an Order be iſſued on the Provincial Treaſurer, for the Sum of *One Hun-'dred Pounds*, payable to the Honourable *Patrick Gordon*, Eſq; for the Purpoſes afore-'ſaid.———Carried in the Affirmative, *N. C. D.*'

'The Committee appointed to draw up an Addreſs to the Governor, delivered in the 'ſame accordingly, which being read by Paragraphs, and conſidered, and ſome ſmall 'Amendments made,——a Motion was made, and the Queſtion put——that the Ad-'dreſs, as now amended, be tranſcribed and ſigned by the Speaker, in order to be ſent 'to the Governor?——Carried in the Affirmative, *N. C. D.*——Then the Houſe ad-'journed till To-morrow, *P. M.*———*P. M.* The Houſe met, *&c.* [abſent the Eight 'Members] The Addreſs being tranſcribed and ſigned by the Speaker, is [as far as relates 'to our preſent Enquiry] as followeth, *viz.*

'*May it pleaſe the* GOVERNOR,

'We are moſt ſenſibly affected with the Uneaſineſs given the Governor by the late 'Conduct of ſome Members of our Houſe, and the more ſo, becauſe of the unhappy 'Delay it has given to the public Buſineſs; the Diſpatch of which is ſo neceſſary, and 'has been ſo heartily recommended to us by the Governor, with repeated Aſſurance of 'his ready Concurrence, in whatever may be for the Good of the People of this Pro-'vince.

'We do with Gratitude acknowledge the Governor's Juſtice, *in declining to interfere* 'with the Proceedings of the Houſe of Repreſentatives in what concerns their Privileges; 'and hope ſuch a Conduct will always meet with the Acknowledgments due to a Re-'ſolution ſo juſt and honourable, in not taking the Advantage of the Weakneſs or Wil-'fulneſs of ſuch of the ſaid Members, as would rather give up our moſt valuable Pri-'vileges to their own Reſentments, than ſuffer themſelves to be governed by the moſt 'juſt and well known Rules of Law and Reaſon, in being concluded by a Majority of 'double their Number. But being now met in Obedience to the Governor's Summons, 'upon Conſideration of what he has been pleaſed to communicate to us, we think it 'our indiſpenſable Duty to do every Thing in our Power, to prevent the fatal Conſe-'quences that may attend any Miſunderſtanding with the *Indians*.

'It would have been very agreeable to us, to have had the Aſſiſtance of the ſaid 'Members, but as that cannot be had, we ſhould hold ourſelves accountable for all 'the Evils that may attend any Neglect on our Part, if we did not apply ourſelves with 'all the Care and Zeal we are capable of, to take ſuch Meaſures as may reſtore the Pro-'vince to its former Peace and Security. It is therefore of Neceſſity, that we now enter 'upon Buſineſs; and as we conceive ourſelves well warranted by the Royal Charter 'granted to the Proprietor and People of this Province, as well as by our own Laws, 'in proceeding with ſo great a Majority of the Repreſentatives of the Freemen of *Penn-'ſylvania*, ſo we hope the Governor will be of the ſame Opinion; and that the Law of 'Majority which takes Place both in the common and civil Law, will fully juſtify the 'Proceedings of this Houſe, who have no other View but to preſerve a peaceable People 'from the Invaſions of a cruel and unreaſonable Enemy, and to ſupport a Government 'preferable, as we believe, for the great Privileges enjoyed under it, to any other in 'America.'

'*Ordered*, That *J. K. B. J. W. W.* and *P. T.* preſent the ſame to the Governor, 'who return and report, that they delivered the ſame according to Order, and that the 'Governor was pleaſed to anſwer, *that he concurred with the Opinion of the Houſe in the* '*ſaid Addreſs*.'

We

We now come to the last Instances recorded in the Journals of the House, *viz.* 1750.

'The 28th of *April*, 1729. The following Members met according to Adjournment, *viz.* 11*th Mo.* 14.
'Sixteen, but a Quorum not appearing, the Members met with the Speaker agreed to
'meet again To-morrow Morning.'

'The 29th of *April*, 1729. A Quorum not appearing, the Members met with the
'Speaker agreed to meet again at Three o'Clock this Afternoon.———*P. M.* The
'House met, the Speaker assumed the Chair, and the Members being called, a Quo-
'rum appeared.———*Ordered*, that *W—M*, *J—K*, *A—H* and *J—P*—wait on the
'Governor with the following Message, *viz.*

May it please the GOVERNOR,

'The House of Representatives do humbly certify to the Governor, that Yesterday
'being the Time to which this House was last adjourned, sundry Members were pre-
'vented of coming to Town, by Reason of the great Floods; and at the Time when
'the Members separated Yesternight no Adjournment was made, but that a sufficient
'Number are now met with the Speaker, and are ready to proceed upon Business with
'the Governor's Approbation.

Signed by Order of the House,

April 29, 1729. *DAVID LLOYD*, Speaker.'

'The Members appointed to carry the Message of the House to the Governor, return
'and report that they had waited on the Governor, who said for Answer, that he was
'pleased that the House was met, and approved of their proceeding to Business, and
'recommended Unanimity and Dispatch to the House in all their Proceedings.'

The 5th of *May*, 1729. The Speaker and Fifteen Members met, but a Quorum not appearing, agreed to meet To-morrow Morning.

On the 6th of *May* the House met; the Speaker assumed the Chair, and the Members being called; a Quorum appeared, and the House immediately proceeded to Busi-ness; and the same Day received a Message from the Governor concerning the Paper-Money Bill then under Consideration, without any Objection to their not having a full House on the preceding Day.

And since that Time, we do not find any Instance of the Assembly's failing to meet in a full House on the Days to which they have adjourned, or on which they have been summoned by the Governor's Writs, till the Time of our present Meeting.

All which is submitted, by

ISRAEL PEMBERTON, GEORGE ASHBRIDGE,
JOHN SMITH, JAMES WRIGHT,
JOSEPH FOX, JOHN WRIGHT."

Signed by Order of the House,

ISAAC NORRIS, Speaker."

A Petition from sundry Inhabitants of the County of *Philadelphia*, setting forth, that a pernicious Custom of shooting Guns, and other Fire-arms, by Way of Salutation in the Night-time at the Commencement of the Year, has been introduced into this Province by the *Germans*, and very much prevailed among Servants, Negroes, *&c.* whereby numerous Disorders have been caused and promoted, as Revellings, excessive Drinking, and Maiming by the Bursting of overloaded Guns; that lighted Wadding has also been thereby frequently thrown into Houses, and upon Barns, *&c.* and many other Mischiefs arisen, to the great Annoyance of the peaceable Inhabitants; that in some Places, malicious Persons have taken this Occasion of terrifying, and injuring those to whom they had ill Will, by firing, in a clandestine Manner, Bullets, Stones, *&c.* into their Houses, of which there are several late Instances; and therefore the Petitioners pray, that the House would take this pernicious growing Evil into Consideration, and make such

Provision

1750. Proviſion for the future Prevention thereof, as ſhall ſeem neceſſary; was preſented to the Houſe and read, and *Ordered to lie on the Table.*

11th Mo. 15. The Gentlemen appointed to wait on the Governor, return and report, that they delivered the Meſſage of the Houſe according to Order; and that the Governor, after reading the ſame, was pleaſed to ſay, he would ſend an Anſwer in a Quarter of an Hour, if the Houſe would wait ſo long.

Mr. SPEAKER and GENTLEMEN,

A Meſſage from the Governor to the Aſſembly.

'What the Service of the Public requires, will naturally fall under your Notice; I ſhall only at preſent recommend to you Unanimity and Diſpatch in all your Proceedings; and what further may occur, ſhall at a proper Time be communicated by Meſſage.

Jan. 15, 1750. *JAMES HAMILTON.*'

A Petition from a Number of Inhabitants of *York* County, was preſented to the Houſe and read, ſetting forth, that *Hans Hamilton*, Sheriff of the ſaid County, did not open the laſt Election till near Two o'Clock in the Afternoon, which made many of the People very uneaſy; that his Party, the *Marſh-Creek* People, gathered about the Election Houſe, to give in their Tickets, and would not ſuffer the *Dutch* People and other Friends to come near the Houſe, but did what they could to keep them off with Clubs, ſo that the *Dutch* were obliged to do the beſt they could, or elſe go Home without voting; and being the moſt in Number, they drove the *Marſh-Creek* People from the Houſe, and when they had ſo done, they came in a peaceable Manner to give in their Votes; but when the Sheriff ſaw that his Party was maſtered, he locked up the Box, and would not ſuffer the Inſpectors to take any more Tickets, which made the *Dutch* People angry, and ſtrive to break into the Houſe; and then the ſober People deſired the Sheriff to continue the Election, but he would not, and went away out of a back Window; ſeveral of the Inſpectors going with him; and then the Freeholders deſired the Coroner to carry on the Election, which he did carefully and juſtly; and afterwards the Sheriff was aſked to come and ſee the Votes read, and an Account taken of them, but he refuſed: And praying that the Houſe would take the Premiſes into Conſideration, and do therein as to their Wiſdom ſhall ſeem meet. *Ordered to lie on the Table.*

A Petition from sundry Overseers of the Highways of the County of *Philadelphia*, setting forth, that by the Laws of this Province the Overseers of the Highways are obliged to keep them in good Repair, by the Labour of the Inhabitants of the several Townships, without any Provision made to supply Materials for their Amendment, except what may be found within the Limits of such Highways, and without Authority in the Overseers to provide Means of transporting them from one Place to another, where they may be useful: That though the Laws relating to the Highways might have been suitable to the Infant State of the Country, when Land and Timber were of small Value, and our Roads little frequented; yet of late Years, by the vast Increase of Inhabitants and Carriages of various Kinds, Circumstances are so greatly changed in all these Respects, especially near the City of *Philadelphia*, that it is impossible to find Materials, such as Wood, Stones and Gravel, sufficiently firm and lasting, to make the Roads passable in Winter-Time, without taking them from the neighbouring Plantations (which the Petitioners are advised is unlawful) and without carrying them to the Roads by convenient Carriages, such as the Overseers, without bearing the Expence themselves, are not authorized to procure. That by this Means the Labour of the Inhabitants on the Roads is much augmented, the Roads are generally impassable in the Winter and Spring, and sometimes the Overseers are indicted and put to great Expence for not maintaining them in good Order, when they have used their utmost Diligence to repair them. Therefore the Petitioners, in Behalf of themselves and others, pray the House would take the Premises into Consideration, and take such Measures for remedying the same, as to their Wisdom shall seem meet; was presented to the House and read, and 11th Mo. 18.

1750. 11*th Mo.* 19. Papers therein referred to, which were read, and the Meſſage follows in theſe Words, *viz.*

GENTLEMEN,

A Meſſage from the Governor to the Aſſembly.

'I Received by the laſt Poſt the Letter herewith laid before you, from his Excellency the Governor of *New-York*; and as it contains Matters of very great Importance to the Inhabitants of all His Majeſty's Colonies on this Continent, and to none more than thoſe of this Province, I muſt deſire you to take the Contents thereof into your moſt ſerious Conſideration.

'I am pleaſed to find by a Letter from Mr. *Croghan*, of the Sixteenth of *November*, from *Ohio*, which came to my Hands two Days ago, that all our *Indian* Allies in thoſe Parts, as yet, remain true to their Engagements with us; and that ſome of them are deſirous of removing nearer to their Brethren the *Engliſh*; with a View, no doubt, of receiving Protection from them, againſt the *French*, with whom they expect to be at War in the Spring; but as that Letter contains ſeveral Matters, worthy your greateſt Attention, I chooſe to lay the Whole of it before you, without any Comments of my own, which I am perſuaded would be unneceſſary at this Time.

'The Money voted at your laſt Seſſions as a Preſent to the *Indians* at *Ohio*, has been laid out to the beſt Advantage, in Goods proper to the Occaſion: Great Part of them has been ſome Time ſince tranſported over *Saſquehannah*, and there ſecurely lodged, in order to their being carried more early in the Spring, to the People for whom they are deſigned; the Remainder is yet in Town, for want of Carriages to tranſport them thither, but ſhall be ſent up as ſoon as the Roads will permit. But as all the Money given for this Service, was inveſted in Goods, and no Proviſion made, that I know of, to pay the Charge of their Conveyance to *Ohio*, I muſt deſire you to think of this, and provide accordingly. The Sum demanded for their Tranſportation, is *Two Hundred and Fity Pounds*, which appears to me to be very high, but by all the Enquiry I have been able to make, I do not find I can get it done for leſs, by any Perſons in whom I can place a Confidence.

'I have nothing to add, but to aſſure you, that whatever you enable me to do at this difficult Seaſon, ſhall be performed to the beſt of my Judgment, with a ſtrict Regard to the Intereſt of the Province.

January 19, 1750. *JAMES HAMILTON.*"

And the farther Conſideration of the Governor's Meſſage was referred to the enſuing Week.

A Petition from sundry Inhabitants of the City of *Philadelphia*, setting forth, that with the Numbers of People, the Number of Lunatics or Persons distempered in Mind, and deprived of their rational Faculties, hath greatly encreased in this Province: That some of them going at large, are a Terror to their Neighbours, who are daily apprehensive of the Violences they may commit; and others are continually wasting their Substance, to the great Injury of themselves and Families, ill-disposed Persons wickedly taking Advantage of their unhappy Condition, and drawing them into unreasonable Bargains, &c. That few or none of them are so sensible of their Condition, as to submit voluntarily to the Treatment their respective Cases require, and therefore continue in the same deplorable State during their Lives; whereas it has been found by the Experience of many Years, that above two Thirds of the Mad People received into *Bedlam* Hospital, and there treated properly, have been perfectly cured. And farther representing, that though the good Laws of this Province have made many compassionate and charitable Provisions for the Relief of the Poor, yet something farther seems wanting in favour of such, whose Poverty is made more miserable by the additional Weight of a grievous Disease, from which they might easily be relieved, if they were not situated at too great a Distance from regular Advice and Assistance; whereby many languish out their Lives, tortured perhaps with the Stone, devoured by the Cancer, deprived of Sight by Cataracts, or gradually decaying by loathsome Distempers, who, if the Expence in the present Manner of nursing and attending them separately (when then they come to Town) were not so discouraging, might again, by the judicious Assistance of Physic and Surgery, be enabled to taste the Blessings of Health, and be made in a few Weeks useful Members of the Community, able to provide for themselves and Families. And therefore praying, that the House would take the Premises into Consideration, and erect a small Provincial Hospital, for the Reception and Cure of Lunatics, and sick or distempered Poor, and appoint Persons to govern the same, with Power to receive the charitable Benefactions of good People towards enlarging and supporting it; was presented to the House and read, and *Ordered to lie on the Table.*

The Governor, by his Secretary, sent down a written Message to the House, which was read, and follows in these Words, *viz.*

GENTLEMEN,

A Message from the Governor to the Assembly.

'I Am very sensible of the many Dangers the Inhabitants of the City of *Philadelphia* are exposed to, by the Darkness of their Streets, and the Want of a well regulated Watch in the Night; of their earnest Desires to have, and your good Intentions to provide a suitable Law for their speedy Relief: And therefore no Bill, concerning the City, with regard to its general Design and Utility, can possibly be more agreeable to my Inclinations, than that now before me, for the better regulating the Nightly Watch within the City of *Philadelphia*, and for enlightening the Streets, Lanes and Alleys of the said City, and for raising of Money on the Inhabitants of the said City for defraying the necessary Expences thereof. But as the Provisions in the Bill, which relate to the Properties, and may essentially affect the Liberties of the Citizens, and other Inhabitants of the Province resorting to the City, are such as we have yet had no Experience of, and seem in many Instances to deviate from the Laws of our Mother Country in the like Cases, I have resolved, in order to give it mature and deliberate Consideration, to advise until your Meeting after next Adjournment.'

February 1, 1750. *JAMES HAMILTON.*"

The Governor also sent down the Bill for the more effectual preventing Accidents which may happen by Fire, and for suppressing Idleness, Drunkenness, and other Debaucheries, with some Amendments, which were read, and agreed to by the House.

1750. 12*th Mo.* 1. The Governor alſo ſent down the Bill for amending the Law relating to the Probate of Wills within this Province, with the following Meſſage, *viz.*

GENTLEMEN,

A Meſſage from the Governor to the Aſſembly.

'I Have, with the utmoſt Care and Attention, conſidered the Bill now before me, entituled, *An Act for Amendment of the Law relating to the Probate of Wills within this Province*; and on peruſing the Clauſe of the Royal Charter, which authorizes the Proprietary, his Heirs, and their Deputies and Lieutenants, to appoint and eſtabliſh any Judges, and Juſtices, Magiſtrates and other Officers, whatſoever, for what Cauſes ſoever, for the Probates of Wills, and the granting of Adminiſtrations within the Province, and with what Power ſoever, and in ſuch Form as to the ſaid Proprietary, or his Heirs, ſhould ſeem moſt convenient; and the Acts of Aſſembly of the Fourth and Tenth of Queen *Anne*, recited in the Preamble to the Bill; am of Opinion, that a Law of this Kind is unneceſſary, and may be attended with dangerous Conſequences to the preſent and future Rights, Properties and Eſtates, of the Inhabitants of the Province, for the following Reaſons.

'I. Such a Law is unneceſſary, becauſe the Royal Charter giving Power to the Proprietary, to appoint Judges and Officers, for what Cauſes ſoever, and with what Power ſoever, for the Probates of Wills, *&c.* and the Acts of the Fourth and Tenth of the Queen, directing the Modes of ſuch Probates, even in Caſe of Litigation, ſufficiently provide for the Probates of Wills, as well concerning real as perſonal Eſtates, which is manifeſt, not only, by conſtant Uſage ſince the making thoſe Laws, but by all Acts, both Legiſlative and Judicial, ſince the Settlement of the Province.

'II. Were it otherwiſe, this Bill would prove an incompetent Remedy, becauſe by the Law of our Province, Wills proved in *England*, the neighbouring Provinces, or elſewhere, before ſuch as have Power to take Probates of Wills, and grant Letters of Adminiſtration, are ſufficient to paſs and aſſure Lands, in this Province, without further Proof.

'III. The Declaration in the firſt and ſecond Pages of the Bill, that the Powers granted by the Acts of the Fourth and Tenth of the Queen, to the Regiſter General, being limited to thoſe granted by the Royal Charter, can relate to the Probate of Wills concerning perſonal Eſtates only; if true, (which muſt be admitted, ſhould the Bill become a Law) would effectually ſubvert all Eſtates real, depending on Probates made ſince, and as under the Royal Charter and thoſe Laws. For if the Regiſter General had no Power to take the Probates of Wills, concerning real Eſtates, all his Probates of Wills as to ſuch Eſtates are void; and the Deviſees, and thoſe claiming under them, muſt loſe their Eſtates, unleſs the Witneſſes are preſent to prove the Wills, according to the Directions of this Bill.

'IV. The Generality of the Words in the Beginning of the third Page, *viz.* "When at any Time after the Publication of this Act, any Writing ſhall be exhibited, *&c.*" will admit the Exhibition of Writings, heretofore adjudged void, according to the Laws now in being, which would be highly inconvenient, in regard to the ſtirring up Strifes and Suits, the Alteration there may be in the Teſtimony, by the Deaths, or Abſence of Witneſſes, and the Subverſion of Eſtates, ſettled in and under the Heirs at Law.

'V. In the third Page of the Bill are theſe Words, "Whereby any Lands, Tenements or real Eſtate, within this Province, is deviſed." Here, may not a Fact be uncertain, which the Bill ſuppoſes will be always evident, (to wit) whether Lands, Tenements, or real Eſtate, are deviſed? For Inſtance, deviſing all a Man's Eſtate will paſs the real; and yet as from the Will, it cannot appear whether he died ſeized of Lands; that muſt be a Fact unknown, of which the Bill has eſtabliſhed no Mode of Trial, notwithſtanding the Validity of the Proceedings in the Court of Law, and of the final Sentence, depend upon it. Again, ſuppoſe a Man ſhould deviſe real Eſtate in the Province, and have none, would not ſuch a Deviſe, improperly, within the Intent of the Bill, draw the Juriſdiction from the Regiſter to the common Law Court?

'VI. It is obſervable, on theſe Words, in the ſame Page, "Or where the perſonal Eſtate thereby bequeathed ſhall exceed One Hundred Pounds," that it may be queſtioned whether they mean One Hundred Pounds in Specie, or Chattels to the Value of One Hundred Pounds; the ſame Reaſon ſubſiſting, to enact the like Mode of Trial for one, as for the other. If the latter, how is the Value of the Chattels to be aſcertained? Again, Suppoſe a Man having given particular Legacies under One Hundred Pounds, bequeathes the Reſidue of his perſonal Eſtate, how is the Reſidue to be aſcertained, or the Value known? If a Man bequeathes his perſonal Eſtate generally, how are the Regiſter and Juſtices to determine what it conſiſts of, or the Value?

'VII. In the fifth Page of the Bill there is a ſaving Clauſe to Infants, married Women, Perſons out of the Province, or of unſound Mind and Memory, their Rights to ſue and implead, in the ſame Manner, concerning the Validity of the ſaid Wills. Under

'this

1750. 12th Mo. 1.

'this Clause, the Interest of Purchasers under Devisees and Heirs, upon Wills decreed 'valid, or invalid, must be extremely precarious. But it seems to me, to render the 'Office of an Executor or Administrator very dangerous. The Law, on Payment of 'Legacies or distributary Portions, authorizes the Executor or Administrator only to 'demand Bonds, to indemnify against latent Debts. Immediately, on the Tender of 'such Bonds, they ought to pay the Legacies or Portions, and if they refuse, the Law 'will oblige them, with the additional Charges of Interests and Costs: And yet upon 'this Clause, they may be compelled, on a second Sentence's differing from the first, to 'pay the whole Estate to a new Executor, or Administrator, as the Case shall happen, 'although nothing can be recovered from those who received the Estate, through Ab-'sence, Death, Poverty, or other Disability. And the other saving Clause in the sixth 'Page, to all and every other Person and Persons, who may think him, her or them-'selves aggrieved, their Rights by Appeal, Writs of *Certiorari*, Writs of Error, or 'other Writs, as they shall be advised to be made returnable to the Supreme Court of 'this Province, *&c.* is liable to the same Objections, but is more dangerous with regard 'to the Consequences, as those Writs may be brought without Limitation of Time.

'For these Reasons I cannot pass this Bill into a Law.

February 1, 1750. *JAMES HAMILTON.*"

A Bill to encourage the Establishing of an Hospital for the Relief of the sick Poor of this Province, and for the Reception and Cure of Lunatics; was read the first time, and ordered a second Reading.

Then the House adjourned to Ten o'Clock To-morrow Morning. Adjournment 12th Mo. 2.

Ordered, That the following Message be sent up to the Governor by *Evan Morgan* and *William Clymer*, viz.

May it please the GOVERNOR,

A Message from the Assembly to the Governor.

WE have read and considered the Governor's Message upon our Bill, for regulating the Nightly Watch, *&c.* and are much pleased to find how sensible he is 'of 'many Dangers the Inhabitants of the City of *Philadelphia* are exposed to by the Dark-'ness of their Streets, and the Want of a well regulated Watch in the Night, of the 'earnest Desires of the Inhabitants, and of our good Intentions to provide for their speedy 'Relief:' This induces us to hope the Governor, upon mature Consideration, will be pleased to pass our Bill; as on our Parts, we have endeavoured to answer the Desires of the Inhabitants of this City, as nearly as might be, in Conformity with the Prayers of their Petition, upon which the Bill was originally founded. But we are deeply affected with the Apprehensions the Governor entertains, 'that the Provisions in the Bill which 'relate to the Properties, and may essentially affect the Liberties of the Inhabitants of 'the Province, resorting to the City, are such as we have had no Experience of, and seem 'in many Instances to deviate from the Laws of our Mother Country in the like Cases.' In forming of this Bill, we have constantly had in View the Method prescribed by our Laws for raising County Rates and Levies, because, on long Experience, we have found them to give general Satisfaction to the Inhabitants of this Province, and effectual in discharging the public Debts with Honour: We are not sensible of any material Difference in this Bill, unless the Inhabitants of the City of *Philadelphia*, by any Misfortunes peculiar to themselves, must be precluded from that Benefit which every other Part of the Province has a Right to. And should we in any Instance 'seem to deviate from 'the Laws of our Mother Country in like Cases,' we hope, on Examination, they will appear neither to contradict nor vary from them, farther than our Charters and our Laws warrant us, in order to make them more suitable to the Circumstances of this Province.

The Necessity of an immediate Provision for securing the Inhabitants of this City from their Fears, and the great Dangers they are liable to continually, for Want of a sufficient and regular Watch in the Night, call upon us to become earnest Solicitors with the Governor, that he would be pleased to give the Bill now lying before him all the Dispatch the Circumstances of these unhappy Times require.

Signed by Order of the House,

ISAAC NORRIS, Speaker."

May it pleaſe the GOVERNOR,

A Meſſage from the Aſſembly to the Governor. THE Manner in which the Bill *for regulating the Probate of Wills*, was recommended to the laſt Aſſembly, 'as a Bill proper to be conſidered at a Time of more 'Leiſure, when the Houſe could give it all the Attention an Affair of ſuch Importance 'required,' induced us to hope that at this Time, when we have all the Leiſure and Willingneſs neceſſary to finiſh this Bill, the Governor would have 'propoſed ſuch Clauſes 'to be added, or have altered it ſo as to avoid any Inconveniencies, which he might appre-'hend would ariſe from the Bill as it ſtood, and not incur others.' But if the Governor ſuppoſes the Reaſons he has been pleaſed to ſend us, are deciſive, we beg Leave to declare our Sentiments, upon ſuch of them as relate to the Powers of the Regiſter General or his Deputies, with ſuch Juſtices as he may call to his Aſſiſtance, by Virtue of our Acts of Aſſembly, to judge of the Validity of laſt Wills made concerning Lands only, or ſuch Wills as concern Lands and Goods, that they are, as far as regards the Lands, not only againſt the Words and Intention of thoſe Acts, but directly repugnant to the Laws of *England*.

We hope when the Governor conſiders the dangerous Conſequence of truſting ſuch Powers in the Hands of the Regiſter General and his Deputies, as in a great Degree ſubjects the laſt Will of every Inhabitant of this Province to their Deciſion, he will excuſe our earneſt Deſires to be heard upon this Occaſion, as becoming us with regard to himſelf, and our incumbent Duty to our Conſtituents.

And the Meſſage being ſigned by the Speaker, by Order of the Houſe;

Ordered, That *Edward Warner* and *Joſeph Trotter* wait upon the Governor with the ſame, and deſire to know when the Houſe may expect his Reſult on the Bills now before him.

It being repreſented to the Houſe by ſeveral Members who brought in the Bill to encourage the Eſtabliſhing of an Hoſpital for the Relief of the ſick Poor of this Province, and for the Reception and Cure of Lunatics, that there is a charitable Diſpoſition among many of the Inhabitants, to give largely towards ſuch an Hoſpital, if this Bill ſhould paſs;

Ordered, That *James Wright*, *John Wright* and *Joseph Armstrong* carry up the Bill again to the Governor with this Message, 'That the House having considered the Governor's Amendments to the Bill for erecting Houses of Correction, and Work-houses, in the Counties of *Lancaster*, *York* and *Cumberland*, within this Province, are of Opinion, that the Bill as it now stands is well suited to the Circumstances of those Counties, that the Governor's Amendments will wholly alter the Design thereof, and therefore the House adheres to the Bill.'

The Governor also sent down the following Message in Writing, *viz.*

GENTLEMEN,

'WHEN I sent the last Assembly the Message mentioned in your's of the Fifth Instant, although I saw many Inconveniences attending the Bill for regulating the Probate of Wills then before me, yet I was unwilling to refuse my Assent to it, without that due Consideration which I shall ever have, of Matters coming from the Representatives of the Province of *Pennsylvania*. I have since considered it with the utmost Care, and as the Bill lately sent down to you is essentially the same, I have given you my Reasons why I cannot pass the latter into a Law, and am not capable of saying more upon the Subject. And being accordingly tranſcribed, it was again read, and follows in theſe Words, *viz.*

May it pleaſe the GOVERNOR,

A Meſſage from the Aſſembly to the Governor. WE have taken into our ſerious Conſideration the Governor's Meſſages concerning *Indian* Affairs, with Governor *Clinton's* Letters, and the other Letters and Papers therein referred to; and being fully convinced that theſe Matters are of ſuch Importance as to deſerve our Care and Attention, we have concluded to meet again ſome Weeks before the Time propoſed by Governor *Clinton*, for the Treaty with the *Indians* of the *Six Nations* at *Albany*, in order that we may then be more fully informed of the Affairs of the *Indians* in our Alliance, and may conſider what may be fitting for us to do, with regard to them, and whether it will be neceſſary for us to bear a Part in the ſaid Treaty.

As the Money voted at our laſt Seſſions for a Preſent to the *Indians* at *Ohio*, was ſoon after laid out in Goods proper for them, we have (in order to expedite their being ſent forward as ſoon as poſſible) enjoined *Conrad Weiſer* to go over *Saſquehannah*, and agree for their Carriage, and carefully to obſerve ſuch Directions as the Governor may be pleaſed to give him for that Purpoſe, and the Provincial Treaſurer to diſcharge ſuch Sums, as he may contract to pay for the Charges of conveying thoſe Goods to *Ohio*.

The Regard and Concern expreſſed by the Governor on this Occaſion is very grateful to us, and engages us fully to confide in his Aſſurances of performing what we may hereafter requeſt him to do therein, for the Intereſt of the Province.

And the Meſſage being ſigned by the Speaker by Order of the Houſe;

Ordered, That *Mahlon Kirkbride* and *Henry Hockley* wait upon the Governor with the ſame; and acquaint him, that the Houſe inclines to adjourn To-morrow to the ſixth Day of the next *Third Month*; that they have agreed to his Amendments of all the Bills, which will be engroſſed ready for Examination To-morrow Morning; and farther, that the Houſe deſires to know his Reſult on the Bill now before him.

The Committee appointed to inſpect the Accounts of the Exciſe in *Bucks* County, made their Report in Writing, which was read, and follows in theſe Words, *viz.*

Report from the Committee appointed to inſpect the Accounts of the Exciſe, &c. PURSUANT to the Order of the Houſe, we have examined the Accounts of the Collector of Exciſe for the County of *Bucks*, of the Entries of ſtrong Liquors made in his Office, ſince the Time of his Appointment; and do find, that the Sum due to

the

the Province (including the Debts due at the Deceaſe of the former Collector) amounts to *Two Hundred Pounds* and upwards, the greater Part of which Sum ought to have been paid into the Treaſury long ſince; and as it appears to us, that the Public Intereſt has ſuffered for Want of due Care in the Management of the ſaid Office, we are of Opinion, that all the Tavern-keepers, and other Retailers of ſtrong Liquors in the ſaid County, ſhould be immediately viſited, in order that the Houſe at their next Meeting may conſider on ſome more effectual Meaſures to prevent a further Loſs to the Province, in that Branch of the Public Revenue. Which is nevertheleſs ſubmitted to the Houſe. 1750. 12th Mo. 8.

ISRAEL PEMBERTON, EVAN MORGAN,
EDWARD WARNER, MAHLON KIRKBRIDE,
JOSEPH FOX, THOMAS CUMMINGS."
JOHN SMITH,

Reſolved, That *John Hall* be removed from the Office of Collector of Exciſe for the County of *Bucks*.

Reſolved, That *John Woolſton* be Collector of the Exciſe for the ſaid County, in the Room of *John Hall*.

The Gentlemen return and report, that they had waited on the Governor, and delivered the Meſſage of the Houſe according to Order; and that the Governor was pleaſed to ſay, he would appoint two Members of his Council to join a Committee of the Houſe, in examining the Bills To-morrow Morning; that he had no Objection to the propoſed Time of Adjournment; that it was impracticable for him in ſo ſhort a Time to conſider the Bill duly that is now before him, but he will ſend his Sentiments thereon to the Houſe at their next Sitting.

Ordered, That *Iſrael Pemberton* and *John Smith* be appointed to join the Committee of Council in comparing the engroſſed Bills.

Then the Houſe adjourned to Ten o'Clock To-morrow Morning. Adjournment 12th Mo. 9.

The Committee appointed to join with the Committee of Council, in examining and comparing the engroſſed Bills, report, they find them to agree with their Originals.

Ordered, That *Joſeph Gibbons* and *Joſeph Hamton* wait on the Governor, and acquaint him, that the Bills have been examined by the Committees of this Houſe and of the Council; and deſire to know what Time he will appoint that the Houſe ſhould wait on him, in order to the paſſing the ſame into Laws.

The Gentlemen return and report, that they waited on the Governor, and delivered the Meſſage of the Houſe according to Order; and that the Governor was pleaſed to ſay, he would be ready to receive the Houſe in the Council Chamber in Half an Hour.

Reſolved, That *Six Hundred Pounds* be now given to the Honourable JAMES HAMILTON, Eſq; Governor of this Province, in Part of his Support for the current Year.

And an Order was accordingly drawn on the Treaſurer, and ſigned by the Speaker, by Order of the Houſe, for Payment of the ſame.

Ordered, That *Iſrael Pemberton* and *John Smith* ſee the Great Seal affixed to the Laws after they are paſſed, and the ſame depoſited in the Rolls-Office.

The Committee appointed to inſpect the Laws relating to Ferries, made their Report in Writing, which was read, and follows in theſe Words, *viz.*

Report from the Committee appointed to inſpect the Laws relating to Ferries.

WE have, according to the Order of the Houſe, examined the Laws of this Province, and find that the *Act for eſtabliſhing a Ferry over* Schuylkill, *at the End of the* High Street *of* Philadelphia, is ſtill in Force, and that all the other Laws concerning Ferries, are long ſince expired; and that the Rates or Prices of Ferriage are not yet ſettled by any Laws now in Force, which we conceive may in Time be prejudicial to the Intereſt of the Province.

ISRAEL PEMBERTON, junior, CALVIN COOPER,
WILLIAM CLYMER, JOHN WITHEROW,
GEORGE ASHBRIDGE, JOSEPH ARMSTRONG."
JOSEPH TROTTER,

A Meſſage from the Governor, by the Secretary, *viz.*

Mr. *Speaker*,

'The Governor is now ready to receive the Houſe in the Council Chamber, in order 'to enact into Laws ſuch Bills as have paſſed the Houſe with his Concurrence.'

Then the Speaker with the whole Houſe waited on the Governor.

The Houſe being returned, the Speaker reſumed the Chair, and reported, that the Houſe had waited on the Governor with the following Bills, *viz.*

An ACT *for explaining and aſcertaining the Boundary Line between the Counties of* York *and* Cumberland, *in the Province of* Pennſylvania.

and

1750. 12th Mo. 9. *and for enlightening the Streets, Lanes and Alleys of the ſaid City, and for raiſing of Money on the Inhabitants of the ſaid City, for defraying the neceſſary Expences thereof.* To which the Governor was pleaſed to give his Aſſent, by enacting the ſame into Laws. That the Speaker had alſo preſented the Governor with the Order on the Treaſurer, for which he was pleaſed to thank the Houſe.

The Conſideration of the Papers relating to the Repeal of the ſeveral Acts of Aſſembly for impoſing a Duty on Perſons convicted of heinous Crimes, *&c.* is referred to the next Sitting.

It being repreſented to the Houſe, that the Clerk of the Loan-Office hath neglected to record the Mortgages for ſome Time paſt, and to give Copies of them to the Mortgagors;

Ordered, That the Truſtees of the Loan-Office take Care that the Laws relating to the Loan-Office be punctually obſerved for the future.

Ordered, That the preſent Collector of *Bucks* County do immediately viſit all the Retailers, *&c.* in that County, and take Care to ſee that the Exciſe Act be more effectually executed.

Adjournment Then the Houſe adjourned to the ſixth Day of the next *Third Month.*

1751. 3d Mo. 6. THE Houſe met purſuant to their Adjournment.

Ordered, That *Edward Warner* and *Joſeph Fox* wait upon the Governor, and acquaint him, that the Houſe is met purſuant to their Adjournment, and ready to receive any Thing he may have to lay before them.

The Houſe being informed, that *William Clymer*, one of the Repreſentatives of the City of *Philadelphia*, is deceaſed;

Ordered, That an Order iſſue under the Hand of the Speaker, to the Secretary of the Province, requiring him to iſſue a Writ to the Sheriff of *Philadelphia*, for electing a new Member to ſerve in Aſſembly for the ſaid City the preſent Year.

A Petition from *Joſeph Redman*, Collector of the Exciſe for the City and County of *Philadelphia*, praying to be continued in that Office; was preſented to the Houſe and read, and *Ordered to lie on the Table.*

A Petition from ſundry Inhabitants of *Philadelphia* and *Cheſter* Counties, ſetting forth, that they, or ſome of their Anceſtors, had at the early Settlement of this Province, purchaſed Lands therein, which at that Time were well watered by ſeveral large Creeks and Rivulets paſſing through them; but of late Years, there being many Settlements made upon thoſe Creeks to their Spring Heads, the Owners thereof had, either for their own Advantage, or worſe Ends, raiſed the Water to its utmoſt Height, and turned it over ſo much of their own Lands, that it was become entirely ſunk, and its natural Courſe or Bed rendered dry; whereby the Petitioners, at Times, became deſtitute of Water on their Lands for the Neceſſities of Life; and particularly in the late dry Summers have been great Sufferers thereby. For remedying which Inconveniences, they humbly pray, this Houſe would take their Caſe into Conſideration, and grant them ſuch Redreſs as they ſhall ſee meet; was preſented to the Houſe and read, and *Ordered to lie on the Table.*

A Petition from a great Number of the Back Inhabitants of *Philadelphia* County, and the adjacent Parts of *Cheſter*, *Lancaſter* and *Bucks* Counties, ſetting forth, that by their remote Situation from their reſpective County Towns (where the Courts and Public Offices are kept) they are put to ſuch extraordinary Expence of Money and Time in their long Journeys thither, as Parties in Cauſes, Witneſſes, Jurymen, Conſtables, *&c.* that their Burthen on that Account is almoſt double to what thoſe bear, who are ſo fortunate as to live within a convenient Diſtance of their County Town; that their being at a great Diſtance from the Metropolis of the Province, and the Charge of Carriage of their Produce to the Market, makes the Burthen ſtill more heavy upon them; that as the other remote Inhabitants of the Province, who were lately in the ſame Circumſtances, have obtained Laws to have new Counties erected, they are encouraged to expect the like Favour; therefore humbly pray, that this Houſe would take their Caſe into Conſideration, and grant them a Law for erecting them into a diſtinct County, of ſuch Extent and in ſuch Manner, as to their Wiſdom ſhall ſeem meet; was preſented to the Houſe and read, and *Ordered to lie on the Table.*

A Petition from ſundry Inhabitants of *Cheſter* County, was preſented to the Houſe and read, ſetting forth, that by an Act of Aſſembly made in the Twenty-third Year of the preſent Reign, entituled, *An Act againſt killing Deer out of Seaſon*, it was enacted, 'That no Perſons within this Province, ſhould kill or deſtroy any Deer whatſoever, at any

'any other Time but between the first Day of *August* and the first Day of *December*, 'under the Penalty of paying the Sum of *Forty Shillings*;' that the Petitioners conceive that the said Act is, and will be of great Disadvantage to them, as they, having Plantations to take Care of, are obliged to seed their Land, fence their Fields, make Cyder, *&c.* so cannot take Time to hunt in the Beginning of the Fall, and no Snow falling till the latter End of *November* and *December*, which is the general Time for hunting Deer with the Plantation Men, the Deer being then known to be very good and in Season; that they therefore pray that the said Act may be amended, and the Time for hunting and killing Deer be made according to an Act of Assembly of this Province, made in the Eighth Year of the late King GEORGE the First; and as several dissolute and unqualified Persons have hunted out of Season, and contrary to the express Tenor of the said Acts; that the Fines may be raised and augmented in such Manner as to this House shall seem meet. 1751. 3d Mo. 7.

Ordered to lie on the Table.

A Petition from *Thomas Millhouse*, of *Chester* County, praying to be appointed Collector of the Excise for that County; was presented to the House and read, and

Ordered to lie on the Table.

The Governor, by his Secretary, sent down a written Message to the House, with several Papers therein referred to, which were read, and the Message follows in these Words, *viz.*

GENTLEMEN,

A Message from the Governor to the Assembly.

'I Was very well pleased with your Resolution signified to me at the Close of the last 'Session, to adjourn to the Beginning of this Month, in order that you might be the 'better enabled to consider, from such Intelligence as might then be given you, what 'Measures it might be proper for you to take with regard to *Indian* Affairs.

'I have since received a Letter from Governor *Clinton*, acquainting me, that, by Ad-'vice of his Council, he has postponed his meeting the *Six Nations* at *Albany* to the 'Twenty-fifth of next Month, to give the several Governors he has applied to on that 'Occasion, more Time to consult their respective Assemblies on an Affair of so much 'Importance; desiring further, that if I have any Proposals to offer in Consequence of 'any Resolves to be made by you, that I should impart them as soon as possible; where-'fore, if any such should occur that you think necessary to be settled, previous to the 'said Treaty, you will please to communicate them to me with all convenient Dispatch, 'and you may assure yourselves of my Readiness to concur with you in whatever may 'tend to the Interest of the Province.

'Mr. *Croghan* having been lately in Town from *Ohio*, related to me the Intelli-'gence contained in the Paper herewith laid before you; which for its Importance very 'well deserves, and I earnestly recommend to, your most serious Attention. He is now 'returned to *Ohio*, in order to deliver the Provincial Present to the *Indians* there, about 'the Middle of this Month.

'If any Thing new had happened in the Countries contiguous to *New-York*, I am 'persuaded Governor *Clinton* would have communicated it to me; but as he has been 'altogether silent on that Head, I conclude there has been no Alteration of Affairs there 'since your last Session; I have therefore now only to desire you to revise the Contents 'of the Papers then laid before you, and to come to such Resolutions thereupon, as 'may enable me to do what is becoming this Government.

'The *Six Nations*, whose Example will be followed by all the other *Indians*, seem 'to be actually afraid of the *French*; and though their Affections are manifestly in Fa-'vour of the *English*, yet if they find no Support from them, sufficient to dispel these 'Fears, it must be expected they will be obliged to quit our Interest, and depend on 'those who will afford them better Protection.

'This is the Light in which I see Matters at present; and should you concur with 'me in Sentiment, I make no doubt but your Resolves will be answerable to the Exi-'gency of Affairs.

May 7, 1751. *JAMES HAMILTON.*"

The Secretary also delivered compleat Lists of the licenced Public Houses in this Province, and of such as were recommended for Licences.

Adjournment *Poſt Meridiem* Then the Houſe adjourned to Three o'Clock, *P. M.*

The Gentlemen return, and report, that they waited on the Governor, and delivered the Meſſage of the Houſe according to Order; and that the Governor was pleaſed to ſay, the Treaty made by *Croghan* and *Montour* with the *Indians* was without his Knowledge or Direction, nor did he approve of their Conduct therein; but as he believed they intended well in what they had done, he had not expreſſed his Sentiments concerning it in his Meſſage to the Houſe.

Conrad Weiſer, Provincial Interpreter, attending the Houſe, was called in, and acquainted the Houſe, that, according to their Order, he went to *Cumberland* County, and agreed for tranſporting the Goods to *Ohio*, but could not get it done for leſs than *Two Hundred and Thirty Pounds*. And after having anſwered ſuch Queſtions concerning *Indian* Affairs as the Houſe thought fit to aſk him, he withdrew.

The Governor, by his Secretary, returned the Bill for eſtabliſhing of an Hoſpital for the Relief of the ſick Poor of this Province, and for the Reception and Cure of Lunatics, with a Meſſage, that he withdraws his ſeventh propoſed Amendment, but adheres to the ninth.

And the Houſe, after Conſideration, agreed to the ſaid ninth Amendment.

Ordered, That the Bill be engroſſed with the Amendments.

The Governor's Meſſage was again read, and conſidered.

Ordered, That *Iſrael Pemberton*, *Joſeph Fox*, *Abraham Chapman*, *Thomas Cummings*, *James Webb*, *John Witherow* and *Joſeph Armſtrong* be a Committee to prepare a Draught of an Anſwer to the ſaid Meſſage, and report it to the Houſe.

Adjournment Then the Houſe adjourned to Ten o'Clock To-morrow Morning.

3d Mo. 9. *Ordered*, That the Liſts of the Public Houſes delivered by the Secretary, be referred to the Conſideration of the Committee of Grievances, and that *Joſeph Fox* be added to that Committee in the Room of *William Clymer*, deceaſed.

A Petition from *John Potter*, High Sheriff of the County of *Cumberland*, was preſented to the Houſe and read, ſetting forth, that he has been at great Trouble and Expence in maintaining *Samuel Saunders*, who was committed to his Cuſtody for the Murder of *Simon Girtay*; alſo in conveying him from *Conegochieg* to *Philadelphia*, by Order of the Chief Juſtice; a particular Account whereof, he has annexed to his Petition, and prays this Houſe would allow the ſame. *Ordered to lie on the Table.*

A Petition from the Grand Jury of *Cumberland* County, in Behalf of the ſaid County, was preſented to the Houſe and read, ſetting forth, that they labour under extreme Difficulties, by Reaſon of the large Fees granted to Sheriffs, Attorneys at Law, Clerks, Conſtables and other Officers, which Fees are for the moſt Part paid by the poorer Sort of People, whereby they are oppreſſed even to the Ruin of many poor Families; that they preſume all ſuch Officers would have an honourable Reward for their Service, although the Fees were much lowered; therefore pray this Houſe would conſider the Premiſes, and grant the Petioners Relief therein. *Ordered to lie on the Table.*

A Petition from *Catherine Cox* was preſented to the Houſe and read, ſetting forth, that ſhe is a poor Widow, with ſeven ſmall Children, and that about four Years ago, the *Indians* going by her Houſe did kill a Bull belonging to her, of the Value of *Three Pounds*; that ſhe gave in an Account thereof to Mr. *Smout*, along with other Damages done to her Neighbours, which were all paid except her's; therefore prays this Houſe would take her Caſe into Conſideration, and make her ſuch Allowance as ſhall ſeem reaſonable. *Ordered to lie on the Table.*

Poſt Meridiem The Committee appointed to prepare a Draught of an Anſwer to the Governor's Meſſage, reported the ſame to the Houſe, and it was read by Order, and conſidered, and, after ſome Amendments, ordered to be tranſcribed that it may be ſent up to the Governor.

And

And being accordingly transcribed, it was again read, and follows in these Words, *viz.* 1751. 3d Mo. 9.

May it please the GOVERNOR,

A Message from the Assembly to the Governor.

WE have considered the Governor's Message concerning *Indian* Affairs, and the several Letters and Papers therein mentioned, with that Attention the Importance of them requires, and are very sensible of his Care and Concern to confirm and extend our Interest with our *Indian* Allies.

As we find there is no late Intelligence of a material Change in the State of these Affairs; we hope the Presents lately sent to the *Indians* at *Ohio* will be received by them as Proofs of our Friendship, and may (if properly distributed by the Persons appointed to deliver them) have the desired good Effect of confirming them in their Alliances with us. We doubt not the Governor has given the necessary Instructions to those who are intrusted therewith, and as the Interest of the Province is essentially concerned in the Conduct of the Persons employed on these Occasions, we shall readily concur with the Governor, in any Measures necessary to prevent them from entering into any Engagements further than his Instructions shall warrant.

As we do not apprehend our joining in the intended Treaty at *Albany* to be necessary at this Time; we request the Governor to direct *Conrad Weiser* to meet the *Six Nations* there, with the small Present provided for them, and a Message of Condolence on the Death of *Canassatego*, and their other Chiefs, who were our steady Friends; and if on the Intelligence we may receive at our next Meeting, any further Measures should appear to us proper to enter into, we shall chearfully concur in doing what may be most conducive to the Peace and Tranquility of the Province.

And the Message being signed by the Speaker, by Order of the House,

Ordered, That *Israel Pemberton* and *James Wright* wait upon the Governor, and deliver the same.

Then the House adjourned to Ten o'Clock To-morrow Morning. Adjournment

The Gentlemen appointed to wait on the Governor with the Message of the House, report, that they delivered the same according to Order. 3d Mo. 10.

Resolved, That the House will To-morrow adjourn to the Twelfth of the next *Sixth Month*.

Ordered, That *Joseph Trotter* and *Joseph Fox* wait upon the Governor, and acquaint him, that the Bill *for establishing an Hospital for the Relief of the sick Poor of this Province, and for the Reception and Cure of Lunatics*, is engrossed, with the Amendments agreed on, and request that he will be pleased to appoint one of his Council to join with a Member of the House in comparing the engrossed Bill with the Original; and desire to know when he will be pleased to receive the House, in order to enact the same into a Law. And farther they are to acquaint the Governor, that the House propose to adjourn To-morrow to the Twelfth of the next *Sixth Month*, if he hath no Objection to that Time.

The Committee appointed to consider the Papers relating to the *Acts for imposing Duties on Persons convicted of heinous Crimes*, &c. report, that they are of Opinion it may be necessary to repeal the Act passed in the Twenty-third Year of the present Reign, entituled, *A Supplement to the Act*, entituled, *An Act for imposing a Duty on Persons convicted of heinous Crimes, and to prevent poor and impotent Persons being imported into this Province*; which they nevertheless submit to the House.

The Gentlemen appointed to wait on the Governor, return and report, that they waited on him, and delivered the Message of the House according to Order; and that the Governor was pleased to say, he would appoint a Member of his Council to join with a Member of the House in comparing the Bill, at Ten o'Clock To-morrow; that he will receive the House at Eleven in the Council Chamber, in order to pass it into a Law; and that he hath no Objection to the proposed Time of Adjournment.

Ordered, That *Israel Pemberton* be appointed to join with the Member of Council, to compare the Bill.

The House allowed the Agreement made by *Conrad Weiser* for transporting the Goods to *Ohio*, and

Ordered, That the Treasurer pay on that Account the Sum of *Thirty Pounds* over and above the *Two Hundred Pounds* allowed at the last Sitting for that Service.

The Petition of *Catherine Cox* was again read, and referred to the Committee of Public Accounts.

Then the House adjourned to Ten o'Clock To-morrow Morning. Adjournment

Israel Pemberton reported, that he had with a Member of Council compared the engrossed Bill with the Original, and found them to agree. 3d Mo. 11.

Ordered, That *John Smith* and *Evan Morgan* see the Great Seal affixed to the Law after it shall be passed, and the same deposited in the Rolls Office.

A Petition from a great Number of the Inhabitants of the Upper Parts of the County of

1751. 3d Mo. 11. of *Bucks*, was preſented to the Houſe and read, ſetting forth, that by the Number of the Inhabitants, and the remote Extent of Settlements of ſaid County, from the preſent Seat of Judicature, they are extremely harreſſed and aggrieved whenever they have Occaſion to make Application for obtaining Juſtice, and often chooſe to loſe their Right, rather than ſue for it under ſuch Circumſtances; that many knowing this, are guilty of fraudulent and deceitful Practices, as well as other licentious Behaviour, which they durſt not attempt, were the Petitioners erected into a County by themſelves, and the Seat of Juſtice more eaſily to be come at; that they are encouraged to hope, that the ſame Juſtice, Equity, and Regard for the Good of the Public, which induced the late Aſſemblies to erect two new Counties for the Relief of the Inhabitants will (as their Caſe is the ſame) be extended to them; that they apprehend a Diviſion Line run to the Southward from *Tohicken* Creek, to the Line of *Philadelphia* County, and from thence to the Northward by the common Line that divides *Philadelphia* County from *Bucks*, would be the moſt convenient Separation from the old County of *Bucks*; that it is with Concern for the Public, as well as with great Detriment to themſelves, that they daily ſee the Produce of that Part of the Province carried over at the Point of the *Forks* of *Delaware* into the *Jerſeys*, and from thence by Land to *Brunſwick*; which is a private Loſs, by the heavy Charges for Carriage, and a Provincial Loſs, by ſo great a Share of the Produce going to a foreign Market; but all this they conceive might be thoroughly remedied, if there was a new County erected, and a proper Situation pitched upon for the Seat of Commerce and Juſtice; they therefore being conſcious that what is here offered, is eſſentially connected with the Good of the Public in general, as well as of the Inhabitants in particular, do pray this Houſe to grant them a ſpeedy and effectual Relief in all the Premiſes. *Ordered to lie on the Table.*

The Sheriff of the County of *Philadelphia* attending, was called in, and made a Return of a new Burgeſs choſen for the City of *Philadelphia*; but a Defect being obſerved in the ſaid Return (for that it was not ſigned by a full Number of Inſpectors or Freeholders) he was ordered to get the ſame amended, and then withdrew.

A Meſſage from the Governor, by the Secretary,

Mr. *Speaker*.

The Governor is now ready to receive the Houſe in the Council Chamber.

Then the Speaker with the whole Houſe waited on the Governor.

And being returned, the Speaker reſumed the Chair, and reported, that the Houſe had waited on the Governor with the Bill to *Encourage the eſtabliſhing an Hoſpital for the Relief of the ſick Poor of this Province, and for the Reception and Cure of Lunatics*; to which the Governor was pleaſed to give his Aſſent, by enacting the ſame into a Law.

The Gentlemen appointed to ſee the Seal affixed to the Law that paſſed this Morning, report, that the ſame is done, and the Law depoſited in the Rolls Office, according to Order.

Adjournment Then the Houſe adjourned to the Twelfth Day of the *Sixth Month* next.

6th Mo. 12. THE Houſe met, purſuant to their Adjournment.

The Sheriff of *Philadelphia* having amended his Return, according to the Order of the Houſe at the laſt Sitting, it was laid before the Houſe and read;

And *Benjamin Franklin* being returned a Repreſentative to ſerve in Aſſembly for the City of *Philadelphia*, he was qualified, and took his Seat in the Houſe accordingly.

A Petition from *William Franklin* was preſented to the Houſe and read, praying to be appointed Clerk of this Houſe.

A Petition from *James Read*, of *Philadelphia*, Notary Public, was preſented to the Houſe and read, praying to be appointed Clerk of this Houſe.

Reſolved, That *William Franklin* be Clerk to this Houſe for the remaining Part of the current Year.

The Houſe took into Conſideration the State of the Acts *impoſing a Duty on Perſons convicted of heinous Crimes, and to prevent poor and impotent Perſons being imported into this Province*.

Ordered, That *Evan Morgan*, *Benjamin Franklin*, *Mahlon Kirkbride*, *George Aſhbridge* and *James Webb* be a Committee to prepare and bring in a Bill for repealing the Act, entituled, *A Supplement to the Act*, entituled, *An Act for impoſing a Duty on Perſons convicted of heinous Crimes, and to prevent poor and impotent Perſons being imported into this Province*, paſſed in the Year 1749.

Adjournment Then the Houſe adjourned to Three o'Clock, *P. M.* *William*

William Franklin took and subscribed the usual Qualification as Clerk of this House. 1751.

The Governor, by his Secretary, sent down a written Message to the House, together with sundry Papers therein referred to, which were read, and the Message follows in these Words, *viz.* *6th Mo. 13. Post Meridiem*

GENTLEMEN,

A Message from the Governor to the Assembly.

'YOU will herewith receive Messieurs *Croghan's* and *Montour's* Account of their Proceedings at the Delivery of the Present, voted by you last Fall, to the *Indians* at *Ohio:* And I am in Hopes you will find it arrived very seasonably, and has had a good Effect.

'By the Speech inserted in Mr. *Croghan's* Journal (said to have been made by Monsieur *Joncaire* by Order of the Governor of *Canada*) to the *Indians* assembled in Council, and by a Letter of the said *Joncaire* to me, of the Sixth of *June* last, which I have ordered to be laid before you, you will perceive the Extensiveness of the *French* Claims on this Continent: That they are not content with enjoying the Benefits of a free and unmolested Commerce themselves, without making it at the same Time exclusive of all others; and to that Purpose, have used their utmost Endeavours to prevail on those *Indians* to drive away our Traders from amongst them, and to discontinue any further Intercourse with them, on Pain of incurring the Displeasure of the *French* Government. But as their Menaces have not as yet had the desired Effect, it is not unreasonable to suppose, that when the last Answer of the *Indians* upon that Head shall be reported to the Governor of *Canada*, it will put him upon Measures to obtain by Force, what has hitherto been denied to every other Kind of Solicitation, in which should he succeed, a very valuable Branch of Trade will be entirely lost to this Province. The *Indians* themselves are so apprehensive of the Consequences of their refusing to comply with the *French* Demands, that they have earnestly requested this Government to erect a strong Trading House on the River *Ohio*, for the Protection of their Wives and Children, in case they should be obliged to engage in a War on that Account, and to serve likewise as a Place of Security to our Traders, without whose Assistance, they say they cannot live: And as I have it in Charge from the Honourable Proprietaries to recommend this Matter to you, and to make such an Offer of contributing to the Expence of erecting and supporting it, as I am persuaded you will think very generous; I cannot excuse myself from desiring you to give it a very serious Consideration, and to come to such Resolution thereupon as the present favourable Opportunity seems to point out.

'By a Letter herewith delivered you, which I have lately received from the Justices of *Cumberland* County, you will see that great Complaints are made of the Irregularities of many of the Persons concerned in the *Indian* Trade, and of the Difficulties that attend the bringing Offenders to Justice, in Countries so remote from the Inhabitants; whence it should seem, our Laws in that Respect stand in Need of some Alterations or Additions, to render them effectual for the good Purposes intended by them. Whenever therefore you shall think fit to take that Subject into Consideration, I shall readily concur with you in any Measures that may tend to the better inforcing the Laws already in being, or in making such new Provisions as may be thought necessary for the more regular and orderly carrying on that Trade.

, Mr. *Croghan* has been at a considerable Expence in bringing some Criminals to their Trial, and in supporting the Witnesses on their Journey, of which he has delivered in his Account; which you will please to inspect and discharge.

'Mr. *Montour* is expected in Town by my Order, to receive a Recompence for his Services, which, you will find, have taken up a great deal of his Time; and as I must do him the Justice to say that (by what appears to me) he has well performed what was intrusted to him, I hope you will pay him to his Satisfaction.

'Mr. *Weiser* is likewise expected in Town, and will relate to you his Proceedings in the Execution of my Instructions respecting the Delivery of the Present to the *Six Nations* at *Albany*.

August 13, 1751. *JAMES HAMILTON.*"

The Governor's Meſſage was again read, and conſidered, and the farther Conſideration thereof referred to the Afternoon.

May it pleaſe the GOVERNOR,

A Meſſage from the Aſſembly to the Governor. BY ſeveral Addreſſes from the Aſſemblies of this Province, and particularly by our Meſſage of the Ninteenth of *October* laſt, the Reaſon we have to hope our Proprietaries will chearfully contribute towards the heavy Charges which are annually brought againſt the Province, on Account of *Indian* Affairs, will clearly appear: And as the Governor, in his Anſwer to our Meſſage, was then ſo kind as to aſſure us of his Interceſſion with the Proprietaries, we now requeſt he would be pleaſed to inform the Houſe what Progreſs he has made on this our reſpectful and reaſonable Application."

Adjournment. Then the Houſe adjourned to Ten o'Clock To-morrow Morning.

6th Mo. 16. The Gentlemen appointed to wait on the Governor with the Meſſage of Yeſternight, report, that they had delivered the ſame according to Order; and that the Governor was pleaſed to ſay, he would ſend an Anſwer to the Houſe.

Ordered, That *Iſrael Pemberton* be added to the Committee of incidental Charges.

The Bill for repealing an Act, entituled, *A Supplement to the Act*, entituled, *An Act for impoſing a Duty on Perſons convicted of heinous Crimes, and to prevent poor and impotent Perſons being imported into this Province*, being tranſcribed, was read the third time.

Reſolved, *N. C. D.* That the Bill do paſs.

Ordered, That *George Aſhbridge* and *Joſeph Hamton* wait on the Governor with the ſaid Bill, and deſire his Concurrence thereto.

A Petition from the Commiſſioners and Aſſeſſors of *Cumberland* County, in the Behalf, and at the Deſire of the far greater Part of the Inhabitants of the ſaid County, was preſented to the Houſe and read, ſetting forth, that a Majority of the Truſtees, in Purſuance of the Act of Aſſembly, whereby that County was erected, had made a Return to the Governor, of a Place at a Branch of *Connogochiego* Creek, about eight Miles from *Shippenſburgh*, by the Great Road to *Virginia*, praying a Location for a Court-houſe and Priſon there, and withal ſubmitting *Shippenſburgh* to the Governor's Choice, which they were fully perſuaded would have quieted the whole County, although it be *North-Eaſt* of the Center; yet it has pleaſed the Governor to remove their Courts of Juſtice to *Le Tort's* Spring, a Place almoſt at one End of the County, there it ſeems intending the Location of a Court-houſe and Priſon, to the great Grief and Damage of the far greater Part of the County, and by Means whereof the End of their being erected into a County can never be obtained; which was principally to free them from the very grievous Fatigue and Expence occaſioned by their great Diſtance from *Lancaſter*; from which they hoped to be eaſed, but inſtead of Eaſe their Yoke is likely to be heavier; for being but few in Number, it will be very expenſive for them to erect and maintain a County, eſpecially if they are laid under ſuch Diſadvantages as will enſue upon the placing of the County Town at *Le Tort's* Spring, for it will always impoveriſh them to carry and expend their public Money at the Extremity of the County, where it will never circulate back again; it will alſo occaſion great Oppreſſion to the Poor to pay the Coſts of Law Suits, by Reaſon of far Travel, as well as much prevent their annual Elections, the poorer Sort not being able to attend; that theſe Difficulties will be much increaſed to thoſe who may ſettle over the *North Mountain*, in the *Cove* or the *Path-Valley*, when thoſe Lands ſhall be purchaſed; that it does not appear to them, that it will be to the Proprietaries Advantage, or the Proſperity of the Town of *Carliſle*, for it will neceſſitate the Back Inhabitants to traffick in *Maryland* to the Damage of this Province;

vince; and that they can easily make it appear, that no good Waggon Road can be had over the *North Mountain*, untill they go beyond *Shippensburgh* up the *Valley*, where Waggons have already past over without any Cost or Trouble in clearing Roads, and which is withal the nigheſt Way to *Allegany*; that though they have made frequent Supplications to the Governor on this Head to no Purpoſe, yet being ſtill in Hopes of Relief, they had thought it beſt to defer building a Priſon, for Want of which, Eſcapes are made both by Felons and Debtors, to the great Damage of the County; they therefore pray that this Houſe would take their Grievances into Conſideration, and grant ſuch Relief as to them ſhall ſeem meet. *Ordered to lie on the Table.* 1751. 6th Mo. 16.

Then the Houſe adjourned to Three o'Clock, *P. M.* Adjournment *Poſt Meridiem*

The Gentlemen appointed to carry up the Bill for repealing an Act, entituled, *A Supplement to the Act*, entituled, *An Act for impoſing a Duty on Perſons convicted of heinous Crimes, and to prevent poor and impotent Perſons being imported into this Province*, to the Governor, report, that they delivered the ſame according to Order; and that the Governor was pleaſed to ſay, he would give it all the Diſpatch he could.

The Speaker informing the Houſe, that the Contributors to the *Pennſylvania* Hoſpital, had made it appear to his Satisfaction, that they had complied with the Terms of the late Act of Aſſembly, made to encourage the eſtabliſhing of the ſaid Hoſpital; and the Securities they had taken for the Sum of *Two Thouſand Pounds* contributed, being alſo laid before the Houſe, and appearing ſatisfactory, the Speaker, with the unanimous Conſent of the Houſe, ſigned an Order on the Truſtees of the Loan-Office, for the Payment of *Two Thouſand Pounds* to the Treaſurer of the ſaid Hoſpital, *One Thouſand Pounds* on demand, and the Remainder in Twelve Months.

The Governor, by his Secretary, ſent down a written Meſſage, which was read, and follows in theſe Words, *viz.*

GENTLEMEN,

A Meſſage from the Governor to the Aſſembly.

'AGREEABLE to your Requeſt in your Meſſage of *October* laſt, I acquainted the Honourable Proprietaries with your Expectation, that they would bear a Part of the Charges ariſing upon Treaties, and other Negotiations with the *Indians*. In Anſwer to which, they have been pleaſed to direct me to acquaint the Aſſembly, that they do not conceive themſelves under any Obligation to contribute to *Indian* or any other Public Expences, even though Taxes were laid on the People for the Charges of Government: But as there is not *One Shilling* levied on the People for that Service, there is the leſs Reaſon for aſking any thing of them. Nothwithſtanding which, they have charged themſelves with paying to the Interpreter much more than could be due to him on any Treaties for Land, and are at this Time at the Expence of maintaining his Son with a Tutor in the *Indian* Country, to learn their Language and Cuſtoms for the Service of the Province, as well as of ſundry other Charges on *Indian* Affairs. That they have been at conſiderable Expences for the Service of the Province, both in *England* and here: All which being conſidered, and that they purchaſe the Land from the *Indians*, and pay them for it, and that they are under no greater Obligation to contribute to the public Charges than any other Chief Governor of any of the other Colonies, they would have been well pleaſed to have been freed from the Neceſſity of giving a diſagreeable Anſwer to any Application upon that Subject.

Auguſt 16, 1751. *JAMES HAMILTON.*"

The Committee of incidental Charges, reported, on the Account of *Conrad Weiſer*, that there appeared to be due to him from the Province, the Sum of *Fifty-ſix Pounds Two Shillings* and *Six-pence*; and an Order was accordingly drawn on the Treaſurer, and ſigned by the Speaker, for the Payment of the ſame.

And the Houſe conſidering the Committee's Report of the Services of *Andrew Montour* among the *Weſtern Indians*, and his Account of Expences, in carrying the Preſent to the *Twightwees*, &c.

HUGH ROBERTS,

And the Houſe agreed to allow the ſaid Committee further Time, in order to finiſh their Report, which they are directed to bring in to the next Aſſembly; and the Petitions relating to the Bridge over *Schuylkill*, are referred to the Conſideration of that Aſſembly.

Reſolved, That *Joſeph Redman* be Collector of the Exciſe for the City and County of *Philadelphia*.

Reſolved, That *John Woolſton* be Collector of the Exciſe for the County of *Bucks*.

Reſolved, That *Jeremiah Starr* be Collector of the Exciſe for the County of *Cheſter*.

6th Mo. 20.

Resolved, That *Arthur Patterson* be Collector of the Excise for the County of *Lancaster*.

Resolved, That *David M'Connaughy* be Collector of the Excise for the County of *York*.

Resolved, That *James Lindsay* be Collector of the Excise for the County of *Cumberland*.

A Motion was made by the Trustees of the *Province Island*, that the House would allow a further Supply of Money for the finishing of the Buildings there, also that some Provision be made for a Person to reside on the Premises, to oversee and take Care of the Buildings, &c. which was referred to farther Consideration.

Then the House adjourned to Ten o'Clock To-morrow Morning. Adjournment

6th Mo. 21.

The Answer to the Governor's Message was read Paragraph by Paragraph, and, after some Amendments, agreed to by the House, was ordered to be transcribed, that it may be sent up to the Governor.

The Committee of incidental Charges reported on the Accounts of *John Potter*, High Sheriff of *Cumberland*, that they are of Opinion the Sum of *Thirty-four Pounds* should be allowed him in full Discharge of both Accounts, to which the House agreed, and an Order was accordingly drawn on the Treasurer, and signed by the Speaker, for Payment of the same.

The Message to the Governor being transcribed was again read, and follows in these Words, *viz.*

May it please the GOVERNOR,

A Message from the Assembly to the Governor.

WE have a grateful Sense of the Governor's Care and Concern in *Indian* Affairs; the prudent Management of which is of great Importance to the Peace and Safety of these Colonies, but if it should be agreeable with the Governor's Sentiments, we would wish, that such as may hereafter be employed on Business with the *Indians*, might be cautioned against charging themselves with Letters from every inferior *French* Officer, who shall presume to send down his Threats or pretended Claims to our Governor, in order to give himself an Air of Authority among our *Indian* Allies.

The Informations of *Conrad Weiser* and *Andrew Montour*, on their Arrival in Town, since the Governor's Message of the Thirteenth Instant, we suppose have given the Governor, as well as the House, Reason to believe that the Request inserted in *George Croghan's* Journal, which the Governor was pleased to lay before the House, as made by the *Indians* at *Ohio* to this Government, to erect a strong Trading House in their Country, as well as the Danger, 'tis there said, they apprehended from the Attempts of the *French*, have been misunderstood or misrepresented by the Person in whom the Governor confided for the Management of that Treaty.

We have seriously considered the Offer made by our Proprietaries, of contributing towards building such a House; but as we have always found that sincere, upright Dealing with the *Indians*, a friendly Treatment of them on all Occasions, and particularly in relieving their Necessities at proper Times by suitable Presents, have been the best Means of securing their Friendship, we could wish our Proprietaries had rather thought fit to join with us in the Expence of those Presents, the Effects of which have at all Times so manifestly advanced their Interest with the Security of our Frontier Settlements.

As it appears from the late notorious Disorders among the *Indian* Traders, as well as from the Representation of the Magistrates of *Cumberland*, that some very unfit Persons are at present employed in that Business, we hope the Governor will enjoin the Justices of the County Courts to be more careful for the future whom they recommend for Licences; and whatever is thought further necessary to enforce or amend the Laws now in being, for regulating the *Indian* Trade and Traders, may be considered by the ensuing Assembly in the Winter Sitting; when the Members are generally most at Leisure to attend closely to public Business.

We have paid the Accounts of our Interpreters, as we hope, to their full Satisfaction, and have the other Accounts mentioned by the Governor under our Consideration."

And the Message being signed by the Speaker by Order of the House,

Ordered, That *John Smith* and *Joseph Fox* wait upon the Governor with the same, and desire to know when the House may expect his Result on the Bill now before him.

Then the House adjourned to Three o'Clock, *P. M.* Adjournment

Post Meridiem.

The Gentlemen appointed to wait on the Governor with the Message of this Morning, report, that they had delivered the same according to Order, and that the Governor was pleased to say, he had already sent down the Bill with an Amendment.

The Governor, by his Secretary, sent down to the House, the Bill for repealing an Act, entituled, *A Supplement to the Act*, entituled, *An Act for imposing a Duty on Persons convicted of heinous Crimes, and to prevent poor and impotent Persons being imported into*

1751. *this Province*, with a propoſed Amendment, which being read, and conſidered, the Houſe agreed thereto, and ordered the Bill to be engroſſed.

Adjournment 6*thMo.* 22. Then the Houſe adjourned to Ten o'Clock To-morrow Morning.

The Governor, by his Secretary, ſent down to the Houſe ſome Letters on *Indian* Affairs, which he received laſt Night from Governor *Clinton*, of *New-York*; and they were read, and ordered to lie on the Table for the Peruſal of the Members.

The Committee appointed to ſearch the Records and Minutes of the Houſe relating to *Indian* Affairs, made their Report thereupon in Writing, which was read, and conſidered, and follows in theſe Words, *viz.*

Report from the Committee appointed to ſearch the Records, &c.

IN Purſuance of the Order of the Houſe, we have examined the Journals of the Proceedings of the Aſſemblies of this Province, on what relates to the Charges of Treaties and other Affairs with the *Indians*, by which we find,

That the Expences on theſe Occaſions were very inconſiderable till the Year 1722, there being a Proviſion made by Law to limit them to £ 50 *per Annum*; and when Accounts were exhibited to the Houſe of a larger Charge on theſe Occaſions, great Caution was uſed in allowing them.

In the Year 1722 a general Treaty was held at *Albany* with the *Indians* of the *Six Nations* by the Governors of *New-York* and *Virginia*, at which Sir *William Keith*, then Governor of this Province, with ſeveral of his Council, was deſired by the Aſſembly to attend (in order to ſatisfy the *Indians* of the Care and Juſtice of this Government, to puniſh ſome Perſons, by whom one of them had been lately killed) and the Aſſembly agreed to advance £ 230 to defray the Governor's Expences, and the Coſt of Preſents made to the *Indians* on that Occaſion.

From that Time till the Year 1727, there does not appear to have been any Expences on theſe Affairs paid by the Public, but in that Year an Account amounting to about £ 70 being exhibited, the Aſſembly allowed one Half of it, and left the reſt to be paid by the Proprietary.

In the Year 1728 ſome unuſual Apprehenſions of Danger from the *Indians* appeared, and the Province being at that Time under great Difficulties in other Reſpects (from ſome Party Diſputes then ſubſiſting) the Aſſembly requeſted Governor *Gordon* to hold a Treaty with the *Indians*, and promiſed to pay the Expences of it: And this is the firſt Inſtance we find of a general Engagement made by any Aſſembly of this Kind; and we apprehend, the Circumſtances of the Proprietary Family at that Time induced the Repreſentatives of the People freely to contribute more of the Public Money than uſual, to anſwer the preſſing Exigencies of that Occaſion.

After which, the firſt Article of Expence is in 1733, the Year after the Arrival of our Proprietary THOMAS PENN in this Province, at which Time the People paid the Expence of a Treaty with the *Indians*, being deſirous of demonſtrating their Reſpect to the Proprietary Family, and of preſerving the Memory of our firſt worthy Proprietary in the Minds of the *Indians*, with that Reverence and Reſpect they have ever profeſſed for him.

And the ſame Conſiderations, we believe, induced the Aſſembly, on the Arrival of our Proprietary JOHN PENN, to defray the Expence of a Treaty with ſome *Indians*, who came down to pay him a Viſit.

Theſe, we apprehend, were the Reaſons, by which the People were firſt induced to bear ſo large a Part of the Expences on *Indian* Affairs; yet conſtantly there appear Proofs of the People conſidering theſe Contributions as their free Gift: And in ſeveral Inſtances we find they refuſed to pay more than Half of the Charge on theſe Occaſions, leaving the reſt to be paid by the Proprietary.

After the Commencement of the late War, the Aſſembly thought it proper to demonſtrate, that they were not induced by mercenary Motives, to refuſe joining in the making any Military Preparations, and therefore contributed towards cultivating our Friendſhip with the *Indians*, and on ſeveral other Occaſions, more largely, than before that Time had ever been done by their Predeceſſors.

But the Danger of introducing Precedents of this Kind ſeems to us very manifeſt in this Inſtance; their Liberality in granting theſe large Supplies being now interpreted to authorize the fixing the whole Charge of *Indian* Affairs on the Public. And as the generous Allowances lately made (amounting within four Years paſt to near £ 5000) have had the deſired good Effect of confirming our Alliances with the *Indians*, the preſent Opportunity ſeems to us very proper to enter into the Conſideration of the Proportion the People ſhould pay of ſuch Charges as may hereafter ariſe on the like Occaſions; which is nevertheleſs ſubmitted to the Houſe.

The farther Consideration of the said Report was referred to the Afternoon.

Then the House adjourned to Three o'Clock, *P. M.* Adjournment *Post Meridiem*

The Report of the Committee appointed to search the Records, *&c.* relating to *Indian* Affairs, being again read, and considered, was unanimously approved of, and agreed to, by the House.

And the Governor's Message of the Sixteenth Instant being again read, and considered,

Resolved, N. C. D. That it is the Opinion of this House, that the Proprietaries Interest will be so greatly advanced by keeping up a firm Peace and friendly Correspondence with the *Indians*, that they ought to bear a proportionable Part of the Charges expended upon all such Treaties as tend to those good Purposes.

Resolved, N. C. D. That although Provincial Taxes have not been laid here for some Time past in a formal Manner, for the Support of the Proprietaries Lieutenant Governor, and defraying the Charges of *Indian* Treaties, yet our Excise is really a Tax upon the Province, yielding about *Three Thousand Pounds per Annum*, which is principally appropriated to those Purposes, besides the Sums arising upon Licences, *&c.* throughout the Province, amounting to very considerable Sums yearly.

Resolved, N. C. D. That the Assemblies of this Province have always paid the Accounts of our *Indian* Interpreters for their public Services, to their full Satisfaction. And we hope that all such Charges as the Proprietaries may pay at this, or any future Time, for maintaining the Son of our Provincial Interpreter in the *Indian* Country (should it please God to bless their good Intentions) will be gratefully repaid by his future Services.

Resolved, N. C. D. That the Proprietaries by the Royal Charter are obliged to have an Agent to represent them at the Court of *Great-Britain*, and this Province have thought fit to appoint an Agent there also at a great Expence. Nevertheless, if any Expences properly chargeable upon this Province have been paid by the Proprietaries, we make no Doubt our future Assemblies will chearfully discharge all their just Debts, whenever such Accounts are exhibited.

Resolved, N. C. D. That the Proprietaries being Lords of the Soil, as well as Governors in Chief of this Province, are more nearly interested in the Prosperity of this Colony, than any other Governors in *America*, not so circumstanced, are or can be.

Resolved, N. C. D. That the Law of this Province passed in the Twelfth Year of the late King WILLIAM, entituled, *An Act against buying Land of the Natives*, is for the sole Benefit of the Proprietaries; therefore they ought to bear the whole Expences of all Treaties with the *Indians* for Lands only; and that the Law we conceive cannot in Justice be alledged as any Reason for nor bearing a Part of such other Treaties with the *Indians*, as tend to the Welfare and Peace of this Province.

Resolved, N. C. D. That the Proprietaries Interests are so constantly intermixt with those of the Province in all Treaties with our *Indian* Allies, that we apprehend the surest Way to prevent Dissatisfactions on all Sides, will be to request the Proprietaries in the most reasonable and in the most respectful Manner, to agree upon a proportionable Part of all such Charges on Account of *Indian* Treaties as may hereafter accrue, to be paid by the Proprietaries and Province, respectively, as in Justice they ought to do.

Ordered, That *Israel Pemberton*, *John Smith*, *Benjamin Franklin*, *Mahlon Kirkbride*, *Thomas Cummings*, *Calvin Cooper*, *John Witherow* and *Harmanus Alrichs* do prepare a Draught of an Address to the Proprietaries, pursuant to the foregoing Resolves, and report the same to the House.

Then

1751. 6th Mo. 23. Then the Houſe adjourned to Ten o'Clock To-morrow Morning.

The Bill for repealing an Act, entituled, *A Supplement to the Act*, entituled, *An Act for impoſing a Duty on Perſons convicted of heinous Crimes, and to prevent poor and impotent Perſons being imported into this Province*, being engroſſed with the Amendment, was read.

Ordered, That *Mahlon Kirkbride* and *Thomas Cummings* wait upon the Governor and acquaint him, that the Houſe have agreed to his propoſed Amendment, and deſire that he would appoint a Member of Council to join with one of this Houſe, in order to compare it with the Original. And further deſire to know, when the Governor will be pleaſed to receive the Houſe, in order to the enacting the ſaid Bill into a Law.

Reſolved, That *Two Hundred Pounds* be put into the Hands of the Truſtees of the *Province Iſland*, towards finiſhing the Buildings there.

And an Order was accordingly drawn on the Truſtees of the Loan-Office, and ſigned by the Speaker, for Payment of the ſame.

The Petition from the Commiſſioners and Aſſeſſors of *Cumberland* County, was read a ſecond time, together with the Law for eſtabliſhing the ſaid County; and the Petition was referred to the Conſideration of the next Aſſembly.

The Gentlemen appointed to wait on the Governor, being returned, report, that they had been at his Houſe, but were informed that he was out of Town.

Adjournment *Poſt Meridiem* Then the Houſe adjourned to Three o'Clock, *P. M.*

The Committee appointed to prepare a Draught of an Addreſs to the Proprietaries, reported the ſame to the Houſe, which was read, and approved of, and ordered to be tranſcribed.

The Committee of Grievances made a Report in Writing, which was read, and follows in theſe Words, *viz.*

Report from the Committee of Grievances.

WE the Committee of Aggrievances do report, that we have inſpected the Liſts of the Number of licenced public Houſe-keepers laid before this Houſe, for the Years 1749 and 1750, and do find, that according to the Liſt of 1749, there was in that Year to the Number of Three Hundred and Thirty-nine, and by the Liſt of 1750, there is now Three Hundred and Thirty-eight public licenced Houſe-keepers in the Province.

JOSEPH TROTTER,
GEORGE ASHBRIDGE,
JOSEPH HAMTON."

Adjournment 6th Mo. 24. Then the Houſe adjourned to Ten o'Clock To-morrow Morning.

The Members appointed to wait upon the Governor, report, that the Governor was not yet come to Town, but that he deſired the Secretary to acquaint the Houſe in his Name, that he had appointed the Secretary to join a Member of this Houſe to compare the Bill which had paſſed the Houſe with his Concurrence, and that he would be ready in the Council Chamber at Ten o'Clock preciſely, in order to enact the ſame into a Law.

Ordered, That *Joſeph Fox* meet the Secretary, and compare the Bill with the Governor's Amendments.

Reſolved, That an Order be drawn on the Provincial Treaſurer for the Payment of *Four Hundred Pounds* to the Honourable JAMES HAMILTON, Eſq; Governor of this Province, being the Remainder of his Support for the current Year.

And the ſaid Order was accordingly drawn and ſigned by the Speaker.

A Memorial was preſented to the Houſe from the Adminiſtrators of *John Kinſey*, Eſq; which follows in theſe Words, *viz.*

To the Repreſentatives of the Freemen of the Province of Pennſylvania, *in General Aſſembly met,*

William Plumſted and *Iſrael Pemberton*, jun. with all due Reſpect, beg Leave to repreſent,

A Memorial from the Adminiſtrators of John Kinſey, Eſq;

THAT we having, on the Deceaſe of our worthy Friend *John Kinſey*, undertaken the Adminiſtration of his Eſtate, immediately adjuſted the Accounts of the Loan-Office, with the ſurviving Truſtees and the Committee of Aſſembly, and paid into their Hands all the Money which remained in his Cuſtody belonging to the Province.

That it appears to us, by an Account drawn out by *John Kinſey* in his Life-time, and other Proofs, that about *Twelve Hundred Pounds* of the public Money was embezled and ſpent by a Perſon, whom he intruſted for ſome Years as his Clerk; by which we were then prevented of paying the whole Sum due to the Province.

That this Deficiency evidently appearing to be occaſioned by his having ſuſtained this Loſs, Juſtice to the Memory of our deceaſed Friend, requires our making this Repreſentation. And as we are now ready to pay the Balance due to the Province, we requeſt the Houſe, on Conſideration of the Premiſes, to give ſuch Directions concerning the

Diſcharges

Discharges to be given to us, as may sufficiently indemnify us and our Estates from any future Objections or Controversies on this Occasion. 1751. 6th Mo. 24.

ISRAEL PEMBERTON, jun.
WILLIAM PLUMSTED.

Ordered, That the Administrators of the Estate of *John Kinsey*, Esq; late Trustee of the Loan-Office, pay the Balance due from said Estate to the Public, into the Hands of the present Trustees.

The Address to the Proprietaries being transcribed, was again read, and by Order of the House was signed by the Speaker.

Ordered, That *Israel Pemberton* and *Benjamin Franklin* wait upon the Governor, and acquaint him, that the House have read and considered the Letters he was pleased to lay before them concerning *Indian* Affairs, and thank him for the early Communication of such Intelligence; and request the Governor's Care to do what may be proper in Consequence thereof. And further, that they acquaint the Governor, that the House are inclined to adjourn this Day to the thirtieth of *September*.

Ordered, That *Joseph Fox* and *Evan Morgan*, see the Great Seal affixed to the Law after it is passed, and that the same be deposited in the Rolls Office.

The Gentlemen appointed to wait on the Governor, return, and report, that they had delivered the Message of the House according to Order, and that the Governor was pleased to say, he had no Objection to the proposed Time of Adjournment.

A Message from the Governor, by the Secretary, that the Governor was now ready to receive the House in the Council Chamber.

Then the Speaker, with the whole House waited on the Governor: And being returned, the Speaker resumed the Chair, and reported, that the House had waited upon the Governor with the Bill for repealing an Act, entituled, *A Supplement to the Act*, entituled, *An Act for imposing a Duty on Persons convicted of heinous Crimes, and to prevent poor and impotent Persons being imported into this Province*, which he was pleased to enact into a Law; that the Speaker had also presented to the Governor the Order of the House for his Support, which he was pleased thankfully to accept; that the Speaker had likewise delivered to the Governor the Representation of this House to the Proprietaries, with the Request of the House, that he would transmit the same to them, which he was pleased to say he would do by the first Opportunity.

Resolved, That *George Spofford* be the Officer for putting in Execution the Acts remaining in Force *for imposing a Duty on Persons convicted of heinous Crimes, and to prevent poor and impotent Persons being imported into this Province.*

Resolved, That *Two Hundred Pounds Sterling* be remitted to *Richard Patridge*, Esq; Agent of this Province, to lie in his Hands for public Services, and to be accounted for hereafter.

The Committee of incidental Charges, report their Examination of sundry Accounts of Services done the Public, and such Allowances were made as the House judged reasonable.

The Gentlemen appointed to see the Seal affixed to the Law, and the same deposited in the Rolls Office, report, that they had performed that Service accordingly.

The Accounts of *George Croghan* are referred to the Consideration of the succeeding Assembly.

Part of Dr. *Græme's* Account, for Medicines sent the *Indians* at *Shamokin*, was also referred to the Consideration of the next Assembly.

Then the House adjourned to Two o'Clock, *P. M.* Adjournment.

The Report of the Committee of public Accounts, was approved of by the House, and follows in these Words, *viz.* *Post Meridiem.*

Ordered, That *Edward Warner, Benjamin Franklin, Mahlon Kirkbride, Joſeph Gibbons, Calvin Cooper* and *John Wright* wait upon the Governor, and acquaint him, that, purſuant to the Charter and Laws of this Province, a Quorum of the Repreſentatives have met, and proceeded to the Choice of a Speaker, and deſire to know when he will be pleaſed to receive the Houſe, that they may preſent their Speaker.

Adjournment. Then the Houſe adjourned to Ten o'Clock To-morrow Morning.

October 15. The Gentlemen appointed to wait on the Governor with the Meſſage of Yeſternight, report, that they delivered the ſame according to Order; and that the Governor was pleaſed to ſay, he would be ready to receive the Houſe this Morning at Eleven o'Clock, in the Council Chamber.

A Return of the Sheriff of *Cumberland* County was brought to the Houſe, in which *William Trent* and *Daniel Williams* were returned as Repreſentatives to ſerve in Aſſembly for the ſaid County.

The Secretary attending, was called in, and, addreſſing himſelf to the Chair, ſaid,

SIR,

The Governor is now ready to receive the Houſe in the Council Chamber.

Then the Speaker, with the whole Houſe, waited upon the Governor; and being returned, the Speaker reſumed the Chair, and reported,

That the Houſe had waited on the Governor, and preſented their Speaker, and that the Governor was pleaſed to approve their Choice. That the Speaker had then, in the Name and Behalf of the Houſe, claimed the uſual Privileges, *viz.*

That the Houſe, during their Sitting in Aſſembly, may enjoy Freedom of Speech in all their Propoſitions and Debates.

That the better to diſcharge the Buſineſs of the Public, they may at all ſeaſonable Times have free Acceſs to the Governor.

That their Perſons and Eſtates may be protected from all Arreſts and Inſults during the Time of Privilege accuſtomed.

That it would pleaſe the Governor to take no Notice of any Report, touching any Matter or Thing that may be moved or debated in the Houſe, until the ſame ſhall have paſſed into a Reſolve, nor give the leaſt Credit to ſuch Report. And laſtly,

That his own (the Speaker's) unwilling Miſtakes may be excuſed, and not imputed to the Houſe.

All which he had requeſted as the juſt Rights and Privileges of the People of *Pennſylvania,* derived and confirmed to them by the Charters and Laws of the Province:

And

And that the Governor was pleaſed to ſay, they were the juſt and undoubted Rights of the Houſe, and that he ſhould never offer to violate them. 1751. October 15.

Then the uſual Qualifications, by Law directed, were taken, firſt by the Speaker in the Chair, and then at the Table by all the reſt of the Members preſent in their Order.

Reſolved, That *William Franklin* be Clerk of this Houſe for the enſuing Year.

And he took and ſubſcribed the uſual Qualification accordingly.

Reſolved, That *Samuel Kirk* be Sergeant at Arms to this Houſe for the enſuing Year.

Reſolved, That *Edward Kelly* be Door-keeper to this Houſe for the enſuing Year.

Then the Houſe adjourned to Three o'Clock in the Afternoon. Adjournment *Poſt Meridiem*

A Repreſentation from the Truſtees of the General Loan-Office of this Province was preſented to the Houſe and read, and follows in theſe Words, *viz.*

To the Honourable the ASSEMBLY *of the Province of* Pennſylvania, *now ſitting,*
The Truſtees of the General Loan-Office beg Leave to repreſent,

THAT they humbly conceive it would be more ſatisfactory to the Public (and it would really be ſo to the Truſtees) if at the Time of ſettling the Accounts of their Office, the Money in their Hands were counted, as well as the Mortgage Deeds examined. A Repreſentation from the Truſtees of the General Loan-Office.

That they did accordingly propoſe it to the laſt Committee of Accounts, and offered to ſubmit the Cheſt to their Examination; but the Committee omitted it, perhaps, becauſe they wanted Time, or for that it had not been heretofore cuſtomary.

But a new Committee of Accounts being now of Courſe to be appointed, and the Truſtees continuing ſtill in the ſame Sentiment, do humbly requeſt, that if it ſhall ſeem good to the Houſe, it may be made an Inſtruction to that Committee to count all the Money, and report the Sum they ſhall actually find in the Truſtees Hands: And we hope ſo good an Example of your Care for the Security of the Public Treaſure, will be conſtantly followed by future Aſſemblies.

CHARLES NORRIS,
THOMAS LEECH,
JAMES WRIGHT,
ABRAHAM CHAPMAN."

October 15, 1751.

Ordered to lie on the Table.

Ordered, That *Joſeph Trotter*, *Benjamin Franklin*, *George Aſhbridge* and *James Wright* be a Committee of Grievances for the enſuing Year; and they have Power to ſend for Perſons, Papers and Records.

Reſolved, That the *Two Thouſand Pounds* lent by the ſecond *Thirty Thouſand Pound* Act for the Building of the State-houſe, be paid out of the Intereſt Money in the Truſtees Hands, and carried to the Quota Account.

Then the Houſe adjourned to Ten o'Clock To-morrow Morning. Adjournment *October* 16.

Reſolved, That *Michael Lightfoot* be Treaſurer of this Province for the enſuing Year.

Then the Houſe adjourned to Three o'Clock, *P. M.* Adjournment *Poſt Meridiem*

Reſolved, That this Houſe will this Day adjourn to the ſecond Day of the firſt Week of the Month called *February*.

Ordered, That *Calvin Cooper* and *Peter Worral* wait upon the Governor, and acquaint him, that the Houſe inclines to adjourn to the ſecond Day of the firſt Week of the Month called *February* next, if he hath no Objection to that Time.

Ordered, That the Superintendants of the State-houſe provide a Bell of ſuch Weight and Dimenſions as they ſhall think ſuitable. That the ſaid Superintendants do apply to the Truſtees of the General Loan-Office for an immediate Supply of ſuch Sums of Money as they may judge neceſſary to remit to *Great-Britain* for the Purpoſe aforeſaid: And that the Payment made in Purſuance of this Order, ſhall be allowed by the Committee of Accounts in their next Settlement with the ſaid Truſtees, who ſhall have a Copy of this Order delivered to them, ſigned by the Clerk of this Houſe, if required.

Ordered, That *John Smith* and *Benjamin Franklin* be a Committee to reviſe the Minutes before they are printed.

1752. *February* 3. *Poſt Meridiem*. THE Houſe met purſuant to their Adjournment.

Ordered, That *Evan Morgan* and *Benjamin Franklin* wait upon the Governor, and acquaint him, that the Houſe have met according to their Adjournment, and deſire to know if he hath any Thing to lay before them.

Adjournment. Then the Houſe adjourned to Ten o'Clock To-morrow Morning.

February 4. The Gentlemen appointed to wait upon the Governor with the Meſſage of Yeſternight, report, that they had delivered the ſame according to Order; and that the Governor was pleaſed to ſay, "He had nothing to lay before the Houſe at preſent, but if any Thing proper for their Conſideration ſhould occur to him, during their Sitting, he would communicate it by Meſſage."

John Woolſton, *Henry Hockley* and *John Withero*, appearing in the Houſe, took and ſubſcribed the uſual Qualification appointed by Law to be taken by the Members of Aſſembly.

A Petition from a conſiderable Number of the Inhabitants of *Reading-Town*, upon *Schuylkill*, was preſented to the Houſe and read, ſetting forth, that they had ſettled in the ſaid Town, expecting it would be a great Place of Trade and Buſineſs, and had put themſelves to vaſt Expence in building and removing thither with their Families, ſeveral of whom left tolerable good Plantations; that though the ſaid Town had not above one Houſe in it about two Years ago, yet it now conſiſts of One Hundred and Thirty Dwelling-houſes, beſides Forty-one Stables, and other Out-houſes, and that there are One Hundred and Six Families, conſiſting of Three Hundred and Seventy-eight Perſons, ſettled therein; that they have good Reaſon to believe that in another Summer they will be much encreaſed, as the chief Part of the Province that can be ſettled is already taken up, and the Settling of Towns will be of great Benefit to Tradeſmen and others, who are not able to purchaſe Tracts of Land to live on; that they humbly conceive it to be for the Intereſt of the honourable Proprietaries, as well as themſelves, and that unleſs this Houſe will be pleaſed to erect ſome Part of the Counties of *Philadelphia*, *Cheſter* and *Lancaſter* into a ſeparate County, they ſhall be entirely diſappointed of their Expectations, nothwithſtanding all the Coſt and Trouble they have been at; that therefore they pray this Houſe would take their Caſe into Conſideration, and grant them Relief, by erecting ſuch Parts of the ſaid Counties, as they ſhall think moſt proper, into a new County, with the ſame Privileges that the other Counties of this Province enjoy, and that the Seat of Judicature be fixed within the ſaid Town of *Reading*.

Ordered to lie on the Table.

A Petition from a conſiderable Number of the Inhabitants of *New-Britain*, and the Parts adjacent, in the County of *Bucks*, was preſented to the Houſe and read, ſetting forth, that though the uſual Method by Law directed for chuſing ſix Aſſeſſors in a County was very ſufficient when the ſaid Law was made, yet now the Country is thick inhabited, it appears moraly impoſſible, that the ſaid Number of Men in a County ſhould know the Circumſtances of the Settlers, ſo as to make any equal Aſſeſſment, though they act with the greateſt Uprightneſs; that the Petitioners yearly ſee ſomething of this more or leſs every where, and knowing that in their Mother Country there is an

Aſſeſſor

Assessor in every Parish, by whom the same is assessed, they therefore humbly propose to this House, that a Law may be enacted, to authorize every Township to choose an Assessor among themselves, and that the Assessment made in the Township be sent to the Commissioners, pursuant to their Warrant, certified by the Assessor, who also may appoint a responsible Collector, still reserving an Appeal, as usual, which the Petitioners think would be less expensive than the many Conventions of Assessors now usual and necessary. And the Petitioners further propose, that as every Township is authorized to choose an Inspector on a certain Day in *September*, for the ensuing Election, they also may be allowed to choose an Assessor on the same Day; and that all the Inspectors so chosen may hereafter assist at the Election, as the Petitioners conceive eight are almost as insufficient as six Assessors; and though the late Act has happily prevented the Confusion which formerly sometimes happened, yet it hath not assisted the Sheriff to the greater Equity or Dispatch in his Business, the Petitioners having seen very able Freeholders greatly questioned, and others (perhaps making a better Figure) though insufficient, accepted, the Inspectors not being sufficiently acquainted with the Circumstances of the Electors. And the Petitioners further pray, that the Pound-Law may be revived, and proper Officers, as the Overseers of the Poor, or Overseers of the Highways, be appointed to cause such Pounds to be erected, *&c.* And the Petitioners likewise beg Leave to lay before this House as a Grievance, the Method used in attaching the Effects of Departers for Debts under *Forty Shillings*, in which Case, the several Creditors apply for several Attachments, whereby the Defendant's Effects are consumed in Charges, to theDetriment and Loss of the Creditors, and of the Defendant too, if ever he returns; and they therefore pray, that a Law may be enacted, to prevent the Issuing of any more than one Attachment against any such Departer, and provide that each of the Creditors may have a proportionable Share, as by the Law for the greater Attachment is provided, and that the said Act may extend to *Five Pounds:* All which Particulars they pray this House to consider, and do therein, as to their Wisdom shall seem meet. 1752. February 4.

Ordered to lie on the Table.

A Petition from *John Ludgate*, a Prisoner in the County Goal of *Philadelphia*, complaining of Wrongs done him by his Partners, and praying that this House would grant him Relief therein, was presented to the House and read, and

Ordered to lie on the Table.

Then the House adjourned to Three o'Clock, *P. M.* Adjournment

A Petition from sundry Inhabitants of the County of *York* was presented to the House and read, setting forth, that while this Province was in a State of Minority, the Assembly passed a Law for regulating and establishing the proper Fees to be taken by the several Officers belonging to the Courts of this Province; but since that Time Affairs are much altered, and the Country is become much more populous, so that Officers Fees are extended beyond what (they presume) was at first designed, of which the Poor pay the greatest Part, though the most unable, and more especially so in those Back Parts, to which the Poor are drawn through Necessity; that it is found by Experience, the most inconsiderable Matter, which will bear an Action of Trial before a single Magistrate, with the Costs accruing thereon, will sometimes render the Defendant incapable of supporting his Family without enduring pinching Difficulties; but much more, if a Matter of Moment is to be managed by the Sheriff, Prothonotary and Officers of an higher Order; that the Benefit arising from the Sheriff's Office, frequently occasions them to lay open Public Houses at the Time of Election, whereby many unthinking People are drawn into Excesses, which have often been attended with bad Consequences, as has heretofore appeared before the Assembly; they therefore pray that this House would take the Premises into serious Consideration, and grant a general Abatement of Fees for the County of *York*, especially of Sheriff's Fees, and that their Elections may be regulated. *Post Meridiem*

The Petition of divers Inhabitants of the Back Parts of *Philadelphia* County, and the adjacent Parts of *Chester* and *Lancaster* Counties, praying a Division of said Counties, which was by the last Assembly referred to the Consideration of the present, was read the first time, together with the Petition from the Inhabitants of the Town of *Reading*, both which said Petitions were referred to farther Consideration To-morrow Morning. February 5.

A Petition from sundry Inhabitants of the Back Parts of *Philadelphia* and *Lancaster* Counties, setting forth, that although their Grievances were laid before the Assemblies of this Province several Years past, and their Petition again renewed at the last Sitting of Assembly, yet as they find the Causes of their Complaint still continue growing, they humbly beg Leave further to represent, that they are settled at a very great Distance from the Place of Judicature, many of them not less than One Hundred Miles, which is a real Hardship upon those who are so unhappy as to be sued for Debts, their Charges in long Journeys, and sometimes in severe Weather, with the Officers Fees, amounting to near as much, if not more, than the Debts; that the Hardships on Jury-

Adjournment *Poſt Meridiem.* Then the Houſe adjourned to Three o'Clock, *P. M.*

The Petition from the Inhabitants of the Upper Part of the County of *Bucks*, praying a Diviſion of ſaid County, which was by the laſt Aſſembly referred to the Conſideration of the preſent, was read the ſecond time, and *Ordered to lie on the Table.*

The Petition of the Grand Jury of *Cumberland* County, relating to Officers Fees, referred to this Aſſembly by the laſt, was read the firſt time, and *Ordered to lie on the Table.*

A Repreſentation, ſigned by ſundry Inhabitants of the County of *Cumberland*, ſetting forth, that a Petition having been preſented to the Aſſembly from the Inhabitants of the *Weſtern* End of their County, aſſerting, that no good Waggon Road can poſſibly be had over the *North-Mountain* from *Shippenſburgh* downwards; they the Subſcribers had, in Company with *Daniel Williams*, one of their Repreſentatives, viewed and conſidered the Gap, commonly called *Stevens's Gap*, and find that by traverſing the ſaid Gap once or twice, all ordinary Waggon-loads may, with a ſmall Expence, have an eaſy Paſſage over it, the whole Aſcent being but ſixty or at moſt ſeventy Perches; was preſented to the Houſe and read, and *Ordered to lie on the Table.*

The Bill for preventing Frauds, and alſo for the Examination of Witneſſes in *Perpetuam Rei Memoriam*, &c. referred to the Conſideration of this Aſſembly by the laſt, was read the firſt time, and *Ordered to lie on the Table.*

February 6. Thoſe Accounts of *George Croghan*, which were referred over to this Aſſembiy, were read, and ordered to be referred to the Committee of Accounts.

A Petition from divers Inhabitants of this Province was preſented to the Houſe and read, ſetting forth, that the public Vendues for Goods and Merchandize in and near the City of *Philadelphia*, as now managed, are very prejudicial to the general Intereſt of the Province, and ſeldom of any real Advantage to Particulars; that though the Vendue-Maſter, legally appointed and commiſſioned by the Governor, gives Security for the due Execution of his Office, and the Obſervation of the City Ordinances, yet ſome Perſons who have lately taken upon them to hold Vendues in the City Liberties, and divers other Parts of the Province, are under no Rules or Reſtrictions whatſoever, acting ſolely by their own Authority, and have only to conſult their own private Advantage; that inſtead of diſpoſing of the Goods in large Lots, as (the Petitioners are informed) is cuſtomary in all other Places where frequent Vendues are tolerated, they retail them out in ſmall Parcels to advance the Profits, whereby certain Perſons, chiefly Strangers, who contribute nothing towards the Support of Government, have been encouraged to furniſh them with conſtant Supplies, imported for that very Purpoſe; that from an ill grounded Opinion of the Cheapneſs of Goods at thoſe Sales, ignorant People are frequently induced to lay out their Money at a great Diſadvantage, giving high Prices for ordinary or damaged Goods, and Things they have no real Occaſion for, to the Detriment of themſelves and Families; that at preſent the Vendues being no other than Retail-ſhops, and held in public Places, are very injurious to all regular Dealers, whether Merchants or Shopkeepers, and if not brought under proper Reſtrictions, may make it neceſſary for all ſuch to diſpoſe of their Goods in the ſame Way, and pay Commiſſions to the Vendue-Maſters for tranſacting their Buſineſs, whilſt they themſelves want Employment, which would really be a very great Hardſhip; that there is Reaſon to believe thoſe expeditious Sales for ready Money have been one great Occaſion of the late extravagant Importation of *Engliſh* Goods, which they humbly conceive ought, as far as may be, without giving Umbrage to our Mother Country, to be diſcouraged, as tending to bring the Province in Debt, and hurting the Credit of our Paper Currency, by raiſing the Exchange, which may put the Legiſlature at Home upon depriving us of ſo uſeful a Medium

a Medium in Trade; they therefore pray this House would be pleased to take the same into Consideration, and grant them Leave to bring in a Bill for restraining the public Vendues to certain stated Times and Places, and preventing the Disposal of Goods by small Lots; with Exception to Goods taken in Execution for Debt, or distrained for Rent, and the Goods and Effects of Bankrupts and Persons deceased. 1752. February 6.

Ordered to lie on the Table.

A Petition from sundry Inhabitants of *Chester* County was presented to the House, and read, setting forth, that they humbly offer the following Particulars for the Consideration of this House, *viz.* 1. That by a Law of this Province, entituled, *An Act for raising County Rates and Levies*, it is enacted, 'That the Assessors for the respective 'Counties, or any four of them, shall meet at the Day and Place where the Commissioners Precepts are made returnable, and then and there receive the Constables Returns, and shall thereupon, by the Oaths or Affirmations of the said Constables, or other credible Persons, or by any other lawful Ways or Means, inform themselves 'what Persons and Estates in their respective Counties are rateable by Virtue of the said 'Act, and shall forthwith equally and impartially assess themselves and all others, rateable as aforesaid." And as by the said recited Act, it doth not appear that the Assessors are enjoined to examine the Constables upon Oath or Affirmation, to the Veracity of their Returns, therefore that necessary Part of the said Act, for qualifying the Constables, has not been put in Practice in *Chester* County, whereby many People have concealed the major Part of their Estates, which has frequently occasioned great Inequality in the Assessments; they therefore pray the House would be pleased to cause that Part of the said Act to be put in Practice, by adding such a Clause as shall appear most proper, or otherwise enact, that the Constable of each Township shall annually cause the Inhabitants to choose one Person, or more, to be their Assessor, who shall be qualified by the next Justice of Peace, and shall assess himself, and the Inhabitants of the Township, returning the Assessment to the Commissioners as usual. 2. That by a Law of this Province, entituled, *A Supplementary Act for raising of County Rates and Levies*, it is enacted, 'That the Commissioners and Assessors, with the County Treasurer, shall yearly exhibit to, and lay before, the Justices and Grand Jury of the County, 'all the Books of Entries, and Accounts of the Monies by them, or any of them assessed 'and raised, by Virtue of their several Offices, as also an Account to whom, and for 'what Use, the same Money was paid out again; which Books and Accounts, being 'seen and examined by the Justices and Grand Jury aforesaid, shall be delivered back 'without Alteration." By which Law it is apparent, that the Justices and Grand Jury are but Witnesses to the Acts and Accounts of the Commissioners and Assessors, they not having Authority to regulate and correct any Errors therein, whereby many Inadvertencies and Errors have escaped a due Correction, much to the Disadvantage and Damage of the Public; they therefore desire this House would be pleased to invest the Justices and Grand Jury, or the major Part of them, with full Power to regulate and adjust those Accounts. 3. That as the taking of large Fees is of late much practised, they therefore pray that this House would be pleased, by an Act of Assembly, to regulate and establish the Fees to be taken by the several Justices, Officers and Practitioners of Law in this Province. 4. That a Law of this Province, entituled, *An Act for erecting of Pounds, in each Township of this Province*, may be re-enacted, with the necessary Amendments. 5. That it is found by Experience, that the determining of Debts under *Forty Shillings*, and not exceeding *Five Pounds*, by a Magistrate, at Public Houses of Entertainment, is very injurious to the poorer Sort of People, against whom Prosecutions for such Sums are generally brought, and who can scarcely pay the legal Fees arising by the Prosecution, and are often unable to bear the Expences which the Meeting at such Houses lead them into; that some Persons, when heated with intoxicating Liquors, have, by the Instigation of busy Constables, taken out Process against their Neighbours, which at other Times they would not have done; they therefore pray that it may be enacted, that no Justice of the Peace shall (unless there appears a real Necessity) hear and determine any Action for Debt, under *Forty Shillings*, and not exceeding *Five Pounds*, at any Public House of Entertainment whatsoever. 6. That many idle and loose Persons do frequently break down the Fences of divers of the Inhabitants, and ride and travel on Foot across their Inclosures, without Regard to the Season of the Year, much to the Prejudice of the Farmers and others; they therefore desire it may be enacted, that such Persons so offending, may be punished by one Magistrate, as Hedge-breakers usually are in *England*. 7. That many idle and loose Persons are found drinking and tippling in Taverns and Ale-houses on the first Day of the Week, called *Sunday*; they therefore pray that it may be enacted, that all Persons guilty of such Offences, may be punished, as is usual in the like Cases in *England*. 8. That the Petitioners humbly conceive, that the Laws now in Force, do not effectually debar petty Rum-sellers from the pernicious Practice of selling and delivering Spirits by the Quart, or larger Quantity, to one white Servant or *Negro*, at one Time, on the first Day of the Week;

1752. *February 6.* Week; they therefore pray it may be enacted, that any Retailer of Rum, or other Spirits, diſtilled in this Province, who ſhall give or ſell a Quart, or larger Quantity of ſuch diſtilled Liquors, on the firſt Day of the Week, to any white Servant or *Negro* without Leave from his or her Maſter or Miſtreſs, ſhall forfeit and pay for every ſuch Offence ſuch Sum of Money as to the Wiſdom of this Houſe ſhall ſeem moſt proper.

Ordered to lie on the Table.

A Petition from the Overſeers of the Poor of *Germantown* Townſhip was preſented to the Houſe and read, ſetting forth, that on the Twenty-firſt Day of *Auguſt* laſt five *Nanticoke Indians*, travelling with another, ſaid to be from *Albany*, on ſome Enmity or Difference, did, in the open Street in *Germantown*, ſhoot, wound and beat the ſaid *Albany Indian* in ſo cruel a Manner, before any Aſſiſtance could come, that he was taken for dead; but ſome Life afterwards appearing in him, upon Application being made to the Chief Juſtice, who happened to be at his Country Seat in their Townſhip, he ordered the ſaid *Indian* to be taken Care of by the Petitioners; that even beyond Expectation, the ſaid *Indian* was cured in about ten Weeks and four Days; that the ſaid Cure, with Attendance and other Neceſſaries, amounts to a conſiderable Sum, an Account whereof they have hereunto annexed, and which they humbly preſume ought to fall on the Public; and therefore pray this Houſe would grant them Relief in the Premiſes.

One-penny*, *Three-penny*, *Six-penny*, *Nine-penny* and *Twelve-penny*; and that the Clerk of the Market of this City may be obliged to act under the immediate Inſpection of one or more of the Magiſtrates of this City for the due Regulation of Bread, as this Houſe in their Wiſdom ſhall judge meet. *Ordered to lie on the Table.*

A Petition from a conſiderable Number of the Inhabitants of the City and County of *Philadelphia* was preſented to the Houſe and read, ſetting forth, that for more than Twenty Years paſt there hath been no conſiderable Addition to our Paper Currency, though the Number of Inhabitants and Trade of this Province hath in that Time greatly increaſed; that the Gold which was heretofore current among us, is nearly expended in making Returns to *Great-Britain*, and the remaining Silver is yearly carried Home in great Quantities, for the ſame Purpoſe, ſo that great Difficulties are daily experienced February 12.

1752. *February* 12. in carrying on the common Traffick and mutual Commerce of the Inhabitants, for Want of a ſufficient Medium in Trade; that the Term in which the preſent Paper-Money may by Law be re-emitted, draws towards a Concluſion, when it muſt of Courſe be ſunk and deſtroyed, and inevitable Ruin thereby brought on our Trade, unleſs ſuitable Meaſures are taken to prevent it; they therefore pray that this Houſe would take the Premiſes into Conſideration, and prepare a Bill for extending the ſaid Term of Re-emiſſion of our preſent Paper Currency, and for ſtriking ſuch further Sum in Addition thereto, as the great Increaſe of our People and Commerce ſeem to require.

February 14.

A Petition from divers Inhabitants of the City of *Philadelphia* was preſented to the Houſe and read, ſetting forth, that at the firſt Settlement of this Province, the worthy Founder wiſely intended to give every Part of the Inhabitants a Share in the legiſlative Government thereof, agreeable to natural Equity; that in the Infancy of the ſaid City, when the Number and Wealth of its Inhabitants were ſmall, compared with the Counties, and its foreign Trade very inconſiderable, two Repreſentatives might then be deemed near a Proportion; but ſince by the great Increaſe of the Inhabitants, and Settlement of Merchants and Artificers, the Trade of the Province has chiefly centered in the ſaid City, and the Advantage of its Commerce and Navigation being more extenſive and important, they humbly conceive a conſiderable Addition to the Number of its Repreſentatives both equitable and neceſſary; that it is evident ſince the late Diviſion of Counties, and in Conſequence an additional Number of County Members, how unequally the ſaid City, being the Metropolis of the Province, is repreſented by two Members only, and how much its equitable Share in Government is diminiſhed; and therefore praying this Houſe would grant them Relief in the Premiſes, by making ſuch an Addition to the Number of Repreſentatives for the ſaid City, as they in their Wiſdom ſhall judge reaſonable. *Ordered to lie on the Table.*

A Petition from divers Merchants, and others, of the City of *Philadelphia*, was preſented to the Houſe and read, ſetting forth, that Staves, Heading, Boards, Plank and Shingles, moſtly brought to this Market from the neighbouring Governments, are become a conſiderable Branch of our Trade to foreign Markets; that no ſufficient Law is now in Force to regulate the Dimenſions and Qualities thereof; that for Want of ſuch a Law, and of proper Officers appointed to inſpect, count and meaſure thoſe Commodities, the Credit thereof is much declined Abroad, and Abuſes and Diſputes often ariſe here, to the great Prejudice of the Dealers therein; they therefore pray Leave to bring in a Bill to prevent further Inconveniencies in the Premiſes, or that this Houſe would grant them Relief in ſuch other Manner as may appear moſt conducive to the Credit and Intereſt of the Trade of this Province. *Ordered to lie on the Table.*

A Petition from *William Clark*, of the City of *Philadelphia*, Cooper, praying, that if this Houſe ſhould ſee Occaſion to make a Law for the better regulating of Staves, Heading, *&c.* that he may be appointed the Officer to inſpect the Culling thoſe Commodities, was preſented to the Houſe and read; and,

GENTLEMEN,

A Meſſage from the Governor to the Aſſembly.

'WHEN I conſider, that by our ſtrongeſt Solicitations, and with great Difficulty, this and the *Southern* Colonies were ſaved out of the late Act of Parliament, "reſtraining the *Northern* Colonies from creating or re-emitting any Bills of Credit, "except on ſudden and extraordinary Emergencies;" and that this Favour was ſhewn 'to us in particular by the *Britiſh* Parliament, upon Repreſentations made on our Be-'half, that we had never exceeded the Bounds of Moderation with regard to the Quan-'tities by us made; and that the laſt Emiſſion was of only the Sum of *Eleven Thouſand* '*One Hundred* and *Ten Pounds*; I cannot think it adviſeable, at this Time, when thoſe 'Repreſentations are freſh in the Memory of that honourable Board, to whoſe Con-'ſideration, it is well known, all our Laws are referred, to offer the Crown an Act of 'Aſſembly, not only for the re-emitting our preſent Currency for a long Term of Years, 'but for a new Emiſſion of a larger Sum than was ever at one Time made in the Pro-'vince; becauſe I am apprehenſive that ſuch a Conduct may probably ſubject us to the 'Diſpleaſure of his Majeſty and the *Britiſh* Parliament, and thereby endanger our pre-'ſent Paper Money, or at leaſt render future Applications for additional Sums leſs ef-'fectual. For theſe Reaſons I cannot give my Aſſent to the Bill before me, for ſtrike-'ing *Forty Thouſand Pounds*, to be made current, and emitted on Loan, and for re-'emitting and continuing the Currency of the Bills of Credit of this Province.

March 6, 1752. *JAMES HAMILTON.*"

A Meſſage from the Aſſembly to the Governor.

AS the Bill for ſtriking *Forty Thouſand Pounds*, &c. was agreed upon by the Houſe after a long and very ſerious Deliberation, we were well aſſured that the Bill, as then ſent up to him, would have tended greatly to the Welfare of this Province, had the Governor been pleaſed to paſs it.

But to obviate every Objection, and to demonſtrate how far we are from being deſirous of "exceeding the Bounds of Moderation," even at this Time, when our Gold and Silver is in a great Meaſure exported to *Great-Britain*, in Return for the Commodities received from thence, and our Trade really languiſhes for Want of an Addition to

our

our Paper Currency, we now preſent the Bill, with a Deduction from the Sum to be ſtruck, which we hope the Governor will find ſo much below what our Trade, and Commerce, and the Intereſt of the Merchants and Manufacturers of *Great-Britain*, trading to this Province, require, that it cannot fail of meeting his Approbation. 1752. March 7.

We have examined the Votes of the Houſe of Commons for the laſt Year, and obſerve, with great Satisfaction, how tenderly and patiently they proceeded againſt the four "*Northern* Colonies," where the miſerable Condition of their Trade, and the Injuſtice done to the "Widows and Orphans," as well as the *Britiſh* Merchants, from the exceſſive Emiſſions of their Bills of Credit, in Oppoſition to "ſome of the Deputies of the Aſſembly," and a great Number of Petitions from the moſt conſiderable Inhabitants of *Rhode-Iſland*, who repreſented thoſe Emiſſions as totally unneceſſary, and in no Reſpect wanted, might have induced that honourable Houſe to have acted with leſs Reſerve.

Before ſuch Judges, where the State of our Currency has been repeatedly called for, and examined, we beg Leave to aſſure the Governor, we have no Apprehenſions of Danger, being well aſſured, that, upon the ſevereſt Scrutiny, it muſt appear to be the Advantage of the Trade of our Mother Country, in full Proportion to what we can expect or hope to reap among ourſelves.

By a Meſſage from the Governor to the Aſſembly in *February* 1748, we obſerve, he hoped it would not be thought unreaſonable if he took ſome Time to get the beſt Information to enable him to form a right Judgment upon the Bill for making current *Twenty Thouſand Pounds* then before him, and that the Delay might not be attended with any conſiderable Inconvenience to the People, as there was confeſſedly at that Time a greater Sum current [Gold and Silver included] than at any Time before. And again, on the 10th of *Auguſt*, 1749, he judged it might be attended with very bad Conſequences to the Province to increaſe the Quantity of our Currency, whilſt a Bill was depending in Parliament for reſtraining the Iſſuing the Bills of Credit in the Colonies of *America:* To all which the then Aſſembly very prudently ſubmitted, and proceeded no farther upon the Bill.

But at this Time, when thoſe Reaſons are anſwered by the great Exportation of our Gold and Silver, and when the Parliament, after ſo ſtrict an Enquiry, have not found Cauſe to include us in the Reſtrictions laid upon the Four *Northern* Colonies, we hope the Objection to a Re-emiſſion, which by this Bill is continued no longer than ſix Years beyond the Time limited by the Act in Force, can now have no Weight, when a further Addition, as appears clear to us, is become abſolutely neceſſary, there having been but an inconſiderable Sum added to our Paper Currency for theſe Twenty Years paſt, though, within that Time, the Number of our Inhabitants and our Trade are greatly increaſed; and therefore, upon reducing the Sum at preſent deſired ſo very low as we have now done, we truſt the Governor will readily oblige us, and our Conſtituents, by giving his Aſſent to the Bill."

And the ſaid Meſſage being ſigned by the Speaker, *per* Order of the Houſe,

Ordered, That *Evan Morgan* and *John Smith* wait on the Governor, and deliver the ſame, with the Bill for ſtriking *Twenty Thouſand Pounds*; and alſo that they deliver to the Governor the Bill for preventing Bribery and Corruption, *&c.* and the Bill for regulating and eſtabliſhing of Fees, and deſire his Concurrence thereto.

Then the Houſe adjourned to next *Second-day*, at Three o'Clock, *P. M.* Adjournment

GENTLEMEN,

1752. *March* 10. The Governor alſo ſent down the Bill for ſtriking *Twenty Thouſand Pounds*, &c. with a Meſſage, which is as follows, *viz.*

GENTLEMEN,

A Meſſage from the Governor to the Aſſembly.

'THE Reaſons offered in your Meſſage of the ſeventh Inſtant, for my paſſing the 'Bill to re-emit our current Paper Money, and ſtriking the additional Sum of 'Twenty Thouſand Pounds, I have peruſed, and conſidered with the Attention due to 'Matters of ſo great Importance. But as our preſent Bills of Credit will continue to 'be current for more than four Years, without any Diminution, and the Prices of our 'Export Commodities, in my Opinion, ſhew we are not in immediate Want of Money 'as a Medium of Commerce; making the beſt Judgment I am able of what has lately 'paſſed in *England* concerning Paper Currencies in *America*, I cannot ſee my paſſing 'the Bill in the Light the Aſſembly does, and therefore cannot give my Aſſent to it. 'It is no uncommon Thing for Men to differ in Sentiment: Whenever it happens be-'tween different Branches of a Legiſlature, each Part ſhould be guided by their own 'Underſtandings, and the Dictates of their own Conſciences. This Rule, I am per-'ſuaded, you never ſwerved from, and therefore muſt the readier approve of my ob-'ſerving it.

March 10, 1752. *JAMES HAMILTON.*"

The Secretary alſo ſaid, "That he was commanded by the Governor to acquaint the Houſe, that the ſettling a general Bill of the Fees to be taken by all the Officers of the Government, is a Matter of very great Importance, and will, in his Opinion, require more Time and Conſideration, than the Shortneſs of the preſent Seſſion will admit of, and therefore he inclines to keep the Bill under Adviſement till the next Meeting of the Aſſembly."

And the Secretary added, "That he was further commanded by the Governor to inform the Houſe, that he is a Friend to the Deſign of the Bill for regulating Attachments under *Five Pounds*; but thinks it ſtands in Need of more Corrections and Alterations than can be well gone into at preſent: And that by the next Meeting of Aſſembly, he will endeavour to amend it in ſuch Manner as to make it anſwer the good Purpoſes intended by it."

Then the Secretary withdrew.

To the REPRESENTATIVES *of the Freemen of the Province of* Pennsylvania, *in* GENERAL ASSEMBLY *met.*

YOUR Treasurer having been served with a Copy of *John Bessonet* and *Peter White's* Petition to the House, wherein they would blame me for not seizing the Effects of *John Hall*, to pay the Debt due from him to the Province: In answer thereto, I desire Leave to acquaint the House, that soon after *John Hall's* Indisposition, I went to *Bristol* to find out what Circumstances his Accounts were in; and having Reason to believe that he had received more Money, on the Excise Account, than he had paid to me, I enquired whether he had any Estate, and could not understand that he had much, and, as he was an old Man, and then afflicted with Illness, had a Wife and several small Children, it seemed hard to seize upon what few Household-Goods they had: I therefore enquired about the Circumstances of his Bondsmen, and was told they were sufficient; Representation from the Treasurer to the Assembly.

Soon after this I went to *Briſtol* again, and the Perſon, by whom I ſent the foregoing Meſſage, told me, he informed them of it, and they ſeemed unconcerned, alledging that the Aſſembly would not inſiſt on their paying it: At hearing of this, I was diſturbed, and wrote them a Letter, preſſing them very earneſtly to ſecure themſelves, if there was any Thing to be had; and from that Time, till within two Weeks of the preſent Sitting of the Aſſembly, I heard nothing from them. Then I went up to both their Houſes, and ſpoke to them; *Beſſonet* told me, he had received my Letter, and that they went to *John Hall*, and he promiſed to give them a Mortgage on ſome real Eſtate, but put them off from Time to Time, until his Creditors laid an Execution on it, and now there was not any Thing to be had; I told him, that if they had informed me that they had endeavoured to get Security, and could not do it, I would have come up and ſeized what there was; but as they did not, I did not know but what they had obtained Security; and as they were ſufficient to pay the Debt due to the Province, I made myſelf the more eaſy about it. This being the Caſe, your Treaſurer thinks the ſaid Securities for *John Hall* have the greateſt Reaſon to blame themſelves, if the Houſe ſhould not think proper to forgive the Debt due from him. All which I ſubmit to the Houſe.

A MESSAGE from the GOVERNOR *to the* ASSEMBLY.

GENTLEMEN,

A Meſſage from the Governor to the Aſſembly. 'I HAVE well conſidered the Reaſons given in your Paper of Yeſterday for the Amendments therein propoſed, and ſincerely wiſh our Sentiments, concerning them, had been the ſame.

'The Buſineſs of the Proprietary's Secretary, preparatory to, and in making out, Warrants and Patents for different Perſons, is ſo extremely various, that it ſeems impoſſible, by Law, to aſcertain a Reward that ſhall be exactly adequate to each Service; therefore, all that can be done is, to ſettle a Medium, by which, on the Whole, he may receive a Compenſation for his Trouble: And this, I think, will not be exceeded by the Aſſembly's agreeing to my Amendments.

'The Fees allowed the Attorney-General by my Amendments, I am of Opinion, in general, are not equal to the Trouble and Skill neceſſarily required to carry on criminal Proſecutions, many of which muſt always be loſt through the Proverty of the Defendants.

'For theſe Reaſons, I cannot recede from my former Amendments.

That in the Year 1723 the first Experiment of Paper Money was made in *Pennsylvania*, by striking and emitting on Loan, upon real Securities, the Sum of *Fifteen Thousand Pounds*. And the ill Consequences apprehended by some, as necessarily attending such a Currency, not appearing, but on the contrary great and manifest Advantages to the Public immediately ensuing, the Government were induced to pass another Act the same Year, for issuing a farther Sum of *Thirty Thousand Pounds*.

Experience demonstrating more and more the Benefit arising from this Currency to the Province, by the Encrease of Trade and People, and Improvement of Lands, and the Sum of *Forty-five Thousand Pounds* not being found sufficient for the Occasions of Commerce, the General Assembly did, in the Year 1729, strike and emit a farther Sum of *Thirty Thousand Pounds*, and in 1739 a small additional Sum, with which, the whole Currency then amounted to *Eighty Thousand Pounds*; and there has since been no Addition, except the Sum of *Five Thousand Pounds*, struck for the King's Use in 1746, great Part of which is already sunk by yearly Quota's of *Five Hundred Pounds* out of the Excise, as by Law directed.

That the Sum of *Eighty Thousand Pounds*, emitted on Loan, and now current, is, by Law, to continue entire not quite four Years longer, when it must begin to sink, in the Proportion of One Sixth Part *per Annum*, so that in six Years the Whole may be sunk and destroyed; and the Province will then be left without any Currency, except that precarious One of Silver, which cannot be depended on, being continually wanted to ship Home, as Returns, to pay for the Manufactures of *Great-Britain*.

1752. *Auguſt* 20.

That in 1723, and for ſome Years before, the Trade of this Province languiſhed for Want of a Medium; Building and Planting were diſcouraged, and the Inhabitants in City and Country rather diminiſhed than encreaſed. This is not only conſiſtent with the Knowledge of ſome of your Committee, who well remember the diſtreſſed Circumſtances of the People at that Time, that many Tradeſmen and others left the Country, and that a great Number of Houſes were vacant and untenanted in the City: But the ſwift Declenſion of our Trade appears from the Cuſtom-houſe Entries, where we find, that the Veſſels cleared from the Port of *Philadelphia* in the Year 1721 were 130, in 1722 but 110, and in 1723 only 85.

From that Period both the City and Country have flouriſhed and encreaſed in a moſt ſurprizing Manner. The Encreaſe of the City appears even to the Eye of every common Obſerver, the Number of new Buildings much exceeding the Old. It appears alſo by comparing the Bills of Mortality: For in the Year 1722 the Burials in *Philadelphia*, of all Ages, Sects and Colours, amounted to no more than 188, an exact Account being for that Year publiſhed monthly. Of the preceeding and next following Years we find no Account; but from *November* 20, 1729, to *November* 19, 1730, the Burials were 244; and from *November* 18, 1731, to *November* 16, 1732, they were 254, notwithſtanding that in the intermediate Year, the Small-pox raging in the Town, had alone carried off near 240 Perſons, and ſwell'd the Bill for that Year to 490. From hence to 1738, no Account is come to our Hands; but from *December* 25, 1738, to *December* 25, 1744, the Burials amounted to 3179, which being, at a Medium, 454 *per Annum*, ſhews the great Encreaſe of Inhabitants to that Time; and ſince 1744, the Encreaſe is thought rather to have exceeded in Proportion.

Your Committee have endeavoured to procure from the yearly Tax Books, Accounts of the Number of taxable Inhabitants in the Counties of this Province for ſeveral Years, ſince the firſt ſtriking of Paper Money; and though the Accounts they have obtained are not ſo perfect as could be wiſhed (ſome of thoſe Books being loſt or miſlaid) yet they find ſufficient to ſhew that a very great Addition has been made, *viz.* In the City and County of *Philadelphia*, it appears that there were in the Year 1720 but 1995 Taxables; in the Year 1740 they amounted to 4850; and in the Year 1751 they were 7100.

For the County of *Bucks* we have only obtained an Account of the preſent Number of Taxables, which amounts to 3012, excluſive of the *Moravians* at *Bethlehem*, whoſe Numbers are unknown: But inaſmuch as there were few or no Settlements above *Durham* before 1723, and that there are now ſo many as to be formed into a new County by this Aſſembly; and the Lower Settlements are grown much thicker, not only by natural Encreaſe, but by Addition of People from *Ireland* and *Germany*, it is not doubted but that County may have encreaſed in equal Proportion with the County of *Philadelphia*.

From the Tax Books of *Cheſter* County we learn, that in the Year 1732 their Taxables amounted to 2157, in 1737 they were 2532, in 1742 they were 3007, in 1747 they were 3444, and this preſent Year, 1752, they amount to 3951; which ſhews that County to have nearly doubled itſelf in the laſt twenty Years, And though we have no Accounts of their Number in 1723, the firſt Year of Paper Money, yet it is known, that their Encreaſe was ſo great between that Time and the Year 1729, as to occaſion a Diviſion of the County, their Frontier Settlements being then erected into a new County, by the Name of *Lancaſter*.

Of the Number of Taxables in the County of *Lancaſter* we have no earlier Account than that for the Year 1738, which amounted to 2560: Since that Time *Lancaſter* County has ſo encreaſed and extended its Settlements as to bear a double Diviſion, two new Counties, *York* and *Cumberland*, being about three Years ſince taken out of it; and yet the Account of Taxables in *Lancaſter* County this preſent Year amounts to 3977, of which 311 live in the fine Town of *Lancaſter*, a Town not much more than Twenty Years old.

The County of *York* (taken, as is ſaid before, out of *Lancaſter*) had in 1749 Taxables 1466, in 1750 they were 1798, and in 1751 they amounted to 2043, which ſhews an Encreaſe of near one Third in two Years.

The County of *Cumberland* had, when ſeparated from *Lancaſter*, in 1749, but 807 Taxables; in 1751 they amounted to 1134, which is an Encreaſe yet greater than that of *York* County.

That the Trade of this Province has likewiſe greatly encreaſed ſince the firſt ſtriking of Paper Money, appears from the Cuſtom-houſe Accounts of Veſſels cleared from the Port of *Philadelphia*, which, as we have ſaid before, were, in the Year 1723, no more than 85; but in 1730 they amounted to 171; in 1735 they were 212; and from *Auguſt* 1749, to this preſent *Auguſt* 1752, being Three Years, they amount to 1210, which at a Medium is 403 *per Annum*, being near 5 now for 1 in the Year 1723.

That our Conſumption of the Manufactures of our Mother Country has proportionably encreaſed, appears from the ſame Accounts. Since in the Year 1723 we had but

two

two Ships from *London*; whereas between the 18th of *August* 1748, and this present Date, they amount to Thirty-seven, which make on an Average nine Ships *per Annum*, who have generally come full of Goods, besides many others from the Out-ports of *Britain* not reckoned. 1752. *August* 20.

This encreasing Consumption of Goods from *England* (exclusive of Linen, *&c.* from *Scotland* and *Ireland)* appears more particularly by an authentic Account from *J. Oxenford*, Inspector General of the Customs, as laid before the Parliament in 1748, where we find that the whole Exports to *Pennsylvania*.

	Sterling.
In 1723 amounted but to	£ 15,992 19 4
In 1730 they amounted to	48,592 7 5
In 1737 they were	56,690 6 7
In 1742 they were	75,295 3 4
In 1747 they were	82,404 17 7

since which we have no Account, but it is well known that within these five Years the *English* Trade is greatly augmented.

Our Domestic or Inland Trade is so connected with and dependent on our foreign Commerce, that it is difficult to distinguish, or obtain any separate Account of it: But that it must have encreased proportionably with the People, is easy to conceive; that our Indian Trade particularly is extended many hundred Miles farther Westward, to numerous, new and strange Nations, is well known; and that the Number of Waggons employed in exchanging and conveying Commodities from one Part of the Province to another, has been very greatly augmented within these few Years, is a Matter of common and general Observation.

Furnishing the Country with a Medium of Trade, and of a Kind that could not, to any Purpose, be exported, as it facilitated mutual Commerce, lessened our Taxes by the Interest it produced, and made it more easy for every one to obtain ready Pay for his Labour, Produce or Goods (a Medium so evidently wanted at the Time Paper Money was first issued) has doubtless been one great Means of the subsequent Encrease of our Trade and People, by inducing Strangers to come and settle among us. But your Committee conceive, that the Manner of issuing this Medium contributed no less to those happy Effects than the Medium itself. It was by the Laws directed to be emitted on Loan, in Sums of *Twelve Pounds Ten Shillings*, and upwards, not exceeding *One Hundred Pounds* to one Person, for a long Term, on easy Interest, and payable in yearly Quotas; which put it in the Power of many to purchase Lands, and make Plantations, (the Loan-Office enabling them to pay the Purchase so easily) and thereby to acquire Estates to themselves, and to support and bring up Families; but who, without that Assistance, would probably have continued longer in a single State, and as Labourers for others, or have quitted the Country in Search of better Fortune. This easy Means of acquiring landed Estates to themselves, has, we suppose, been one principal Encouragement to the great Removal hither, of People from *Ireland* and *Germany*, where they were only, and could scarce ever expect to be other than Tenants. And that happy Contrivance in our Money Laws, by which the yearly Quotas are, as fast as paid in, re-emitted to other Borrowers, makes the same Quantity of Currency serviceable in their Turns to a much greater Number of People; thereby lessening the Necessity and Demand for striking great additional Sums, which, if carried to Excess, might depreciate the Value of the Currency.

Yet had this easy Method of obtaining Money for the Purchase and Improvement of Lands, kept Pace, as it ought to have done, with the growing Numbers of People, your Committee conceive, that our Encrease, great as it is, would probably have been much greater: For during many Years past, through the Smallness of the Sum to be from Time to Time re-emitted, not only those admitted to borrow were obliged to be content with small Proportions, but many who could give ample Security, have been delayed and disappointed. Even at this present Time, though Applications by failing of Success have been so much discouraged, we are informed there are no less than 1000 Appliers on the List, who wait their Turn to be supplied. And within these Ten Years, a vast Multitude of our Inhabitants have, to procure Settlements, wandered away to other Places.

That it should be easy for the industrious Poor to obtain Lands, and acquire Property in a Country, may indeed be chargeable with one Inconvenience, to wit, that it keeps up the Price of Labour, and makes it more difficult for the old Settler to procure working Hands, the Labourers very soon setting up for themselves: (And accordingly we find, that though perhaps not less than 30,000 Labourers have been imported into this Province within these Twenty Years, Labour continues as dear as ever.) Yet this Inconvenience is perhaps more than balanced by the rising Value of his Lands, occasioned by Encrease of People; and to the Public in general, Numbers of substantial Inhabitants have been always reckoned an Advantage. In fine, by rendering the Means of

purchasing

1752. *Auguſt* 20. purchaſing Land eaſy to the Poor, the Dominions of the Crown are ſtrengthened and extended; the Proprietaries diſpoſe of their Wilderneſs Territory; and the *Britiſh* Nation ſecures the Benefit of its Manufactures, and encreaſes the Demand for them: For ſo long as Land can be eaſily procured for Settlements between the *Atlantic* and *Pacific* Oceans, ſo long will Labour be dear in *America*; and while Labour continues dear, we can never rival the Artificers, or interfere with the Trade of our Mother Country.

All which is humbly ſubmitted to the Houſe, by

BENJAMIN FRANKLIN, EVAN MORGAN,
RICHARD WALKER, PETER WORRALL."
GEORGE ASHBRIDGE,

Auguſt 19, 1752.

Ordered to lie on the Table.

Adjournment Then the Houſe adjourned to Three o'Clock To-morrow Afternoon.

Auguſt 21. The Bill for regulating of Fees being engroſſed, was read, and compared at the Table.

Poſt Meridiem *Ordered*, That *Benjamin Franklin* do meet ſome of the Council to ſee the ſaid Bill compared with the Amendments.

Ordered, That *Richard Walker* and *Nathaniel Grubb* do wait upon the Governor, and acquaint him, that the Houſe have agreed to his Amendments of the Bill for regulating and eſtabliſhing Fees, and engroſſed them in the ſaid Bill accordingly, and deſire that the Governor would be pleaſed to nominate a Member of the Council to meet one of this Houſe, in order to compare the ſaid Bill with the Amendments. And farther, that they requeſt the Governor would be pleaſed to appoint a Time that the Houſe ſhould wait upon him, in order to the paſſing into Laws, thoſe Bills which have now gone through the Houſe with his Concurrence.

A Petition from *John Bleakley*, the preſent Leſſee of the *Province Iſland*, was preſented to the Houſe and read, ſetting forth, that on the Twenty-fifth of *March*, 1749, the Truſtees of the ſaid Iſland agreed with the Petitioner to repair the Dam at the Houſe on ſaid Iſland, and to put the Banks in Order, for which the ſaid Petitioner was to have *One Hundred Pounds*; that they alſo agreed with him to make two Dams, one of them near the Mouth of *Minko-Creek*, the other near the Mouth of *Eagle-Creek*, in order to ſtop the Tides, and make a Thorough-fare from ſaid Iſland to *Carpenter's Iſland*: that it was imagined by the ſaid Truſtees, that *Two Hundred Pounds* were ſufficient to defray the Expences of ſuch Dams, One Half whereof was to be borne by the ſaid Truſtees, the other Half by the Petitioner; that the Petitioner accordingly undertook to make and complete the ſaid Dams, but *Minko-Creek* being, at the loweſt Ebb, nine Feet deep, and at High Water in Spring Tides, and a Freſh in *Schuylkill*, upwards of Twenty Feet deep, it was found that a Dam not leſs than Twenty-four Feet perpendicular, was ſufficient to complete the ſame; and ſeveral Perſons, who were well experienced in like Work, concluded that it could not be accompliſhed, being of ſuch great Heighth, that the large Quantities of Mud would occaſion it to ſpread too much at the Bottom; that the Petitioner then applied to the ſaid Truſtees, who often came and viewed the ſame, and were ſo kind as to give him all the Encouragement he could expect, to forward the Undertaking aforeſaid, and being ſatisfied that the ſame would be a great Burthen and Charge to him, over and above his Agreement aforeſaid, they were generouſly pleaſed to advance and pay to him the further Sum of *Eighty Pounds*, for which they took his Bond, conditioned, that in Caſe this Houſe would not allow the ſame when their Accounts were exhibited, then that he ſhould repay the ſame; that the Petitioner therefore, with humble Submiſſion, refers to the ſaid Truſtees to inform this Houſe of the great Fatigue and Expence he has been at in finiſhing the Dams aforeſaid, which are now completed, and ſtand him in near *Five Hundred Pounds*, and hopes, that as the ſaid Iſland is very much advantaged thereby, the Rent being now advanced from *Eighty* to *One Hundred* and *Twenty Pounds per Annum*, giving general Satisfaction to all concerned (there being no Creek of that Depth heretofore ſtopped in the Province) and as he has, by his Agreement aforeſaid, ſuffered great Damage and Loſs, this Houſe will, in Conſideration of the Premiſes, order his ſaid Bond to be delivered up to him and cancelled.

Ordered to lie on the Table.

Adjournment Then the Houſe adjourned to Nine o'Clock To-morrow Morning.

Auguſt 22. The Gentlemen appointed to wait upon the Governor with the Meſſage of Yeſternight, report, that they had delivered the ſame according to Order; and that the Governor was pleaſed to ſay, he would appoint the Secretary to meet a Member of the Houſe to compare the engroſſed Bill for regulating and eſtabliſhing Fees, at Nine o'Clock this Morning; and that he would be ready to receive the Houſe, in the Council Chamber, at Eleven o'Clock.

Reſolved, That this Houſe will, this Day, adjourn to the Thirtieth of *September* next.

Ordered, That *Evan Morgan* and *Benjamin Franklin* do acquaint the Governor with the propoſed Time of Adjournment: And likewiſe, that they ſee the Great Seal affixed to the Laws after they are paſſed, and the ſame depoſited in the Rolls Office.

Reſolved,

1752. August 22.

Resolved, That an Order be drawn on the Provincial Treasurer for the Payment of *Four Hundred Pounds* to the Honourable JAMES HAMILTON, Esq; Governor of this Province, being the Remainder of his Support for the current Year.

And the same was done accordingly, and signed by the Speaker, by Order of the House.

The Petition of *John Bleakley*, Lessee of the *Province Island*, being again read, and considered;

Ordered, That the Trustees of said Island do deliver up to the said *Bleakley* the Bond due from him to the Province.

Ordered, That the Minutes of Assembly now printing, under the Direction of this House, be continued down to the present Year inclusive; and that all the Members, who are now in the House, be entitled to one Copy each, when finished.

A Message from the Governor, by the Secretary: 'That the Governor was now ready 'to receive the House in the Council Chamber.'

Then the Speaker with the whole House waited on the Governor: And being returned, the Speaker reported, that they had waited upon the Governor with the *Bill for regulating and establishing Fees*, and the *Bill for regulating Attachments not exceeding* Five Pounds, which the Governor was pleased to enact into Laws; that the Speaker had likewise presented to the Governor the Order of the House for his Support, which he was pleased thankfully to accept.

The Gentlemen appointed to acquaint the Governor with the proposed Time of Adjournment, reported, that they had done the same according to Order, and that the Governor was pleased to say, he had no Objection thereto.

Ordered, That the Report of the Committee on Paper Currency, Trade, Numbers of People, *&c.* be referred over to the Consideration of the next succeeding Assembly.

The Gentlemen appointed to see the Great Seal affixed to the Laws, report, that the same is done, and that they are deposited in the Rolls Office.

Sundry Accounts of Services done the Public were reported on by the Committee of incidental Charges, and such Allowances made as the House judged reasonable.

Then the Speaker, with the whole House, waited upon the Governor; and being returned, the Speaker resumed the Chair, and reported, that the House had waited upon the Governor, and presented their Speaker, and that the Governor was pleased to approve their Choice. That the Speaker had then in the Name and Behalf of the House claimed the usual Privileges, *viz.*

That his own (the Speaker's) unwilling Miſtakes may be excuſed, and not imputed to the Houſe.

All which he had requeſted as the juſt Rights and Privileges of the Freemen of *Pennſylvania*, derived and confirmed to them by the Charters and Laws of the Province. And that the Governor was pleaſed to ſay, they were Privileges the Houſe had an indubitable Right to, and that he ſhould never attempt to infringe them.

Poſt Meridiem. The Governor, by his Secretary, ſent down ſundry Letters relating to *Indian* Affairs, with a verbal Meſſage, as follows, *viz.*

'SIR,

A Meſſage on Indian Affairs. 'THE Governor lays before the Houſe a Letter received the Middle of the laſt 'Month, by Expreſs from *Robert Calendar*, *Indian* Trader, then in *Carliſle*, 'wherein he mentions, that *Thomas Burney*, *Indian* Trader, was juſt come from *Allegheny*, 'and brought an Account, that 240 *Indians*, headed by two *Frenchmen*, had, in an hoſtile 'Manner, attacked a Village of the *Twightwees*, and killed 14 *Indians* and one white 'Man, and carried away five other white Men Priſoners; that ſaid *Burney* being in the '*Twightwee* Country at the Time of the Attack, ſaw one of their Chiefs, who deſired 'him to take a Meſſage to the Governor of *Pennſylvania*; which, with a Scalp and five 'Strings of Wampum delivered with it, were incloſed in the Letter. That the Go-'vernor, by the Return of the Expreſs, ordered *Thomas Burney* to come immediately 'to him, in order to be examined concerning this Matter; but as he is not come, nor 'has the Governor any Tidings of him, the Whole reſts on Mr. *Calendar's* Letter."

A Petition from *Tench Francis*, Eſq; his Majeſty's Attorney-General of this Province, was preſented to the Houſe and read, ſetting forth, that the Buſineſs of his Office has, for ſome Years paſt, greatly encreaſed, by large Importations of People from ſeveral Parts of *Europe*, and the unuſual Reſort of fugitive Servants, Convicts, and other wicked Perſons hither from ſome of the neighbouring Plantations; that the legal Fees due from the Accuſed, a fourth Part of which, through the Poverty of Criminals, hath never been paid to the Petitioner, are not, upon the Whole, a Compenſation for the great Trouble and Expence in carrying on and attending public Proſecutions; that on theſe Conſiderations, this Houſe hath generally given the Attorney-General an annual Salary; that the Petitioner hopes he hath always performed his Duty with ſuch Integrity and Regard to Juſtice, as not to merit the Cenſure of this Houſe, by denying him what hath conſtantly been allowed to his Predeceſſors: Therefore he prays this Houſe to allow him for his laſt Year's Services, what they ſhall think reaſonable.

Ordered to lie on the Table.

A Return of the Sheriff of the County of *Cumberland* was brought to the Houſe, by which it appeared that *Joſeph Armſtrong* and *John Armſtrong* were choſen Repreſentatives to ſerve in Aſſembly for the ſaid County.

Nathaniel Pennock and *John Armſtrong* appearing in the Houſe, took and ſubſcribed the uſual Qualification by Law appointed to be taken by Members of Aſſembly.

The Houſe being informed, that one *John Pattin*, formerly an *Indian* Trader of this Province, is lately arrived from *England*, and now in Town, who had been taken by the *French*, and carried to *Canada*, and from thence ſent to *Old France*; the Clerk was ordered to acquaint the ſaid *Pattin*, that the Houſe require his Attendance To-morrow Morning.

Adjournment. Then the Houſe adjourned to Ten o'Clock To-morrow Morning.

October 17. *Nathaniel Grubb*, returned a Repreſentative for *Cheſter* County, appearing in the Houſe, took and ſubſcribed the uſual Qualification by Law appointed to be taken by Members of Aſſembly.

The Speaker laid before the Houſe a Letter from the Honourable THOMAS PENN, Eſq; one of the Proprietaries of this Province, relating to the Act *for impoſing a Duty on Perſons*

Persons convicted of heinous Crimes, which was read, and ordered to lie on the Table for the Perusal of the Members. 1752. October 16.

Sundry Letters from the Agent and his Assistant were laid before the House and read, and *Ordered to lie on the Table.*

Resolved, That *Richard Patridge* be Agent of this Province, at the Court of *Great-Britain*, for the ensuing Year.

Resolved, That *Fifty Pounds Sterling* be allowed *Robert Charles*, as an Assistant to the Agent for the ensuing Year.

Ordered, That *Benjamin Franklin* and *Hugh Roberts* be, with the Speaker, a Committee of Correspondence.

Ordered, That *Joseph Trotter*, *Benjamin Franklin*, *George Ashbridge* and *Peter Worral* be a Committee of Grievances for the ensuing Year; and they have Power to send for Persons, Papers and Records.

Ordered, That *Edward Warner*, *Evan Morgan*, *John Smith*, *Benjamin Franklin*, *Hugh Roberts*, *Mahlon Kirkbride*, *Thomas Cummings* and *Peter Worral* be a Committee to audit and settle the Accounts of the General Loan-Office, and other Public Accounts, and to sink and destroy the Bills of Credit received in Exchange, pursuant to the late Paper-money Acts, and to count all the Monies, and report, together with the said Accounts, the Sum they shall actually find in the Trustees Hands; and they have Power to send for Persons, Papers and Records.

Resolved, That *Michael Lightfoot* be Treasurer of this Province for the Year ensuing.

Ordered, That *John Smith* and *Benjamin Franklin* be a Committee to revise the Minutes before they are printed.

A Petition from *John Pattin* of this Province, *Indian* Trader, was presented to the House and read, setting forth, that the Petitioner being trading with the *Miamis Indians*, Allies of this Province, was on the Twentieth Day of *November*, 1750, taken Prisoner by the *French*, and all his Goods seized, to the Value of *Eight* or *Nine Hundred Pounds*; that he was carried to Fort *Detroit*, and there confined for five Months; from thence he was carried Prisoner over the Lake *Erie* to *Niagara*; thence to *Cadaracqui*; thence to *Montreal*; thence to *Quebec*, where he was again thrown into Prison, and very hardly used; thence, though in a very ill State of Health, he was hurried on Shipboard, and carried to *Rochelle*, in *Old France*, where he was again thrown into Goal, and kept close confined three Months, suffering very great Hardships; that having at length found some Friends, he obtained his Liberty, and went to *Paris* to solicit the Restitution of his Goods: But after three Months Attendance in vain, he could obtain nothing; and was told, his Goods were confiscated, he being, as they pretended, found trading within the Limits of their Country. On which he returned to this his native Country, but is totally ruined by the said Proceedings of the *French*, which if they continue, our *Indian* Trade must at length be quite discouraged and lost to this Province: Therefore the Petitioner prays this House would take the Premises, with his unhappy Case, into Consideration, and afford him such Relief as to their Wisdom shall seem meet.

Ordered to lie on the Table.

Resolved, That this House will this Day adjourn to the fifteenth Day of the Month called *January* next.

The Letters relating to *Indian* Affairs, which were Yesterday laid before the House by the Governor, were again read, and considered.

Ordered, That *Mahlon Kirkbride* and *George Ashbridge* do wait upon the Governor, and acquaint him, that the House have considered the said Letters, but think proper to defer the further Consideration thereof, till the Governor has had an Opportunity of examining *Thomas Burney*; and further, that they acquaint the Governor with the proposed Time of Adjournment.

Ordered, That *John Smith*, *Joseph Stretch*, *Benjamin Franklin* and *Hugh Roberts* be a Committee to inspect the Laws of this Province, and report which of them are expired, or near expiring, and ought to be re-enacted; with their Opinion what Amendments to them or others may be necessary.

John Pattin giving his Attendance, according to the Order of the House, was called in, and having answered such Questions as were put to him by the House, he withdrew.

Resolved, That the Sum of *Thirty Pounds* be allowed to the said *Pattin*, towards relieving him in his present Distress.

Ordered, That the Clerk do take down in Writing, the Account which the said *Pattin* gives of the Manner of his having been taken, and of the Places in *Canada*, through which he passed during his Captivity, *&c.* and bring it to the House at their next Meeting.

The Gentlemen appointed to wait upon the Governor with the Message of the House, return and report, that they had waited upon the Governor, and delivered the same according to Order, and that the Governor was pleased to say, he had no Objection to the proposed Time of Adjournment.

The

1752. The Petition of *Tench Francis*, Eſq; Attorney-General of this Province, was again read, and conſidered, and *Ordered to lie on the Table.*

October 17. Adjournment Then the Houſe adjourned to the fifteenth Day of the Month called *January* next.

1753. *January* 15. THE Houſe met purſuant to their Adjournment.

A Return of the Sheriff of the County of *York* was brought to the Houſe, by which it appeared that *John Wright* and *David M'Conaughy* were choſen Repreſentatives to ſerve in Aſſembly for the ſaid County.

The Sheriff having neglected to deliver a Liſt of the Names of the *Bucks* County Electors, with their Places of Abode, as the Law directs, it was now brought to the Houſe, and ordered to remain upon the Files with the Returns of Members elected for the ſaid County.

Ordered, That *Evan Morgan* and *Hugh Roberts* wait upon the Governor, and acquaint him, that the Houſe is met, according to their Adjournment, and ready to receive any Thing he may have to lay before them.

Adjournment Then the Houſe adjourned to Ten o'Clock To-morrow Morning.

January 16. The Gentlemen appointed to wait upon the Governor with the Meſſage of Yeſternight, report, that they had delivered the ſame according to Order, and that the Governor was pleaſed to ſay, he had nothing at preſent to lay before the Houſe; but if any Thing proper for their Conſideration ſhould occur to him during their Sitting, he would communicate it by Meſſage.

Joſeph Armſtrong and *David M'Conaughy*, appearing in the Houſe, took and ſubſcribed the uſual Qualification by Law appointed to be taken by the Members of Aſſembly.

The Clerk brought to the Houſe the Account which *John Pattin* gave of the ſeveral Places in *Canada*, through which he paſſed, when taken by the *French*, together with a Map of that Country drawn by the ſaid *Pattin*.

A Petition from divers Inhabitants of the County of *Cheſter*, was preſented to the Houſe and read, ſetting forth, that there are a great Number of Perſons in that County, who, under the Name of Store-keepers, retail Rum and other ſpirituous Liquors, and not being under the Reſtriction of Perſons licenſed to keep Public Houſes, are very injurious to the Inhabitants, by inducing many, whoſe Circumſtances can no ways afford it, to ſpend at thoſe Places the chief Part of what they get, to the great Hurt of their Families, and the Loſs of thoſe who have truſted them for real Neceſſaries of Life; that many Perſons by embracing the frequent Opportunities they have of purchaſing ſpirituous Liquors, are rendered unfit for Labour, which is a Loſs to the Country, where Labourers are much wanted: Therefore praying this Houſe would reſtrict the ſaid Store-keepers from ſelling Rum, unleſs annually recommended to the Governor for a Licenſe.

Ordered to lie on the Table.

A Petition from *John Beſſonet* and *Peter White*, of the County of *Bucks*, was preſented to the Houſe and read, ſetting forth, that the Petitioners labour under great Difficulties, as Sureties for *John Hall*, late Collector of the Exciſe for the County of *Bucks*; that in the Act for laying a Duty on ſpirituous Liquors, there is a Clauſe, by which the ſeveral Collectors of the ſaid Exciſe are obliged to pay unto the Provincial Treaſurer once in Three Months, or oftener, if required, ſuch Sums of Money as they ſhall receive by Virtue of the ſaid Act; that in another Clauſe of the ſaid Act, there is a Proviſion made, by which the ſaid Provincial Treaſurer is impowered, in an eaſy Manner, to recover any Sum or Sums of Money which any of the ſaid Collectors may neglect or refuſe to collect and pay unto the ſaid Provincial Treaſurer within the ſaid limited Time; that upon the Strength of the abovementioned two Clauſes, the Petitioners became bound, with the aforeſaid *John Hall*, as Sureties for his faithful performing the Duties of his ſaid Office, well knowing, that if the ſame were ſtrictly obſerved, the Petitioners could not be any great Sufferers; that the Treaſurer's neglecting to pay a due Regard to the ſaid Clauſes, the Petitioners conceive to be the Reaſon why ſo large a Sum of Money ſtill lies unaccounted for by the ſaid *John Hall*; that there was ſuch a Neglect the Petitioners preſume will not be denied, as the Method by Law preſcribed for recovering the ſaid Money from the ſaid Collector has never yet been purſued, nor was a Demand therefore made on the Petitioners, either directly or indirectly, until more than ſix Months after he was removed from his ſaid Office, and upwards of eighteen Months from that Time, before any Action was commenced againſt them; that the ſaid *John Hall*, at the Time of his being deprived of his ſaid Office, and for a conſiderable Time after, had Effects ſufficient to diſcharge his ſaid Debt, had the proper Steps, as by Law directed for the Recovery of ſuch Monies, been taken; that the ſaid *John Hall* being for a long Time deprived of his Senſes, the Petitioners had it not in their Power to do any Thing for their Security, till they had firſt ſuffered Damages, and now ſince the Commencement of the Action againſt them, they are entirely deſtitute of that Opportunity, as the ſaid *John Hall* has for ſome Time paſt been inſolvent; that, as a Number of uncommon Circumſtances which could not be avoided by the Petitioners, have united to make them liable;

they

they therefore pray this House would, with their usual Clemency, grant them such Relief as the Nature of their Case will admit. *Ordered to lie on the Table.* 1753. *January* 16.

Then the House adjourned to Three o'Clock, *P. M.* Adjournment *Post Meridiem*

Ordered, That the Clerk do make out a List of all such Matters as were referred to the Consideration of this Assembly by the last, and lay it before the House To-morrow Morning.

The Speaker and *Benjamin Franklin* are requested to procure such Books and Maps as they may think suitable and necessary for the Use of this House; and it is

Ordered, That the Trustees of the Loan-Office do supply them with such Sums of Money as they may require for that Purpose; which shall be allowed by the Committee of Accounts, in their next Settlement with the said Trustees.

Then the House adjourned to Ten o'Clock To-morrow Morning. Adjournment

Agreeable to the Order of Yesterday, the Clerk laid before the House a List of the several Matters referred to the Consideration of this Assembly by the last. *January* 17.

The Report of the Committee on Paper Currency, Trade, Numbers of People, *&c.* referred to the Consideration of this Assembly by the last, was read, and considered, and after some Time spent thereon,

Resolved, That this House will To-morrow Morning resolve itself into a Committee of the whole House upon the said Report.

Then the House adjourned to Three o'Clock, *P. M.* Adjournment

The House met, and adjourned to Ten o'Clock To-morrow Morning. *Post Meridiem* Adjournment

James Wright and *John Wright*, appearing in the House, took and subscribed the usual Qualification by Law appointed to be taken by Members of Assembly. *January* 18.

The Resolve of Yesterday being read, the House resolved itself into a Committee of the whole House, upon the Report of the Committee on Paper Currency, Trade, Numbers of People, *&c.* and after a considerable Time spent therein, the Speaker resumed the Chair, and *Hugh Evans*, Chairman, reported from the Committee, that they had come to sundry Resolutions, which they had directed him to report, when the House will please to receive the same.

Ordered, That the said Resolutions be now received.

Whereupon *Hugh Evans* accordingly read the said Resolves of the Committee in his Place, and afterwards delivered them in at the Table, where they were again read, and are as followeth, *viz.*

Resolved, N. C. D. That it is the Opinion of this Committee, that it is necessary that the Paper-Money of this Province should be re-emitted for a further Time.

Resolved, N. C. D. That it is the Opinion of this Committee, that there should be a Sum struck, to exchange the ragged and torn Bills, now by Law current within this Province.

Resolved, N. C. D. That it is the Opinion of this Committee, that there is a Necessity of a farther Addition to the Paper-Money, at present current by Law within this Province.

The Consideration of the above Resolutions of the whole House was referred to the Afternoon.

Then the House adjourned to Three o'Clock, *P. M.* Adjournment

The Resolutions of the Committee of the whole House being again read, and considered, were unanimously agreed to by the House. *Post Meridiem*

Ordered, That *Edward Warner*, *Evan Morgan*, *Benjamin Franklin*, *Mahlon Kirkbride*, *Joseph Gibbons*, *James Wright*, *John Wright*, *John Armstrong*, *Moses Starr* and *James Burnside* be a Committee to prepare and bring in a Bill, agreeable to the Resolves of the said Committee.

A Bill for striking the Sum of *Thousand Pounds*, to be made current and emitted on Loan, and for re-emitting and continuing the Currency of the Bills of Credit of this Province, was brought to the House by the Committee appointed for that Purpose, and read the first time, and ordered a second Reading. *January* 19.

The Petition from sundry Inhabitants of *Chester* County, against the retailing of Rum by Storekeepers, *&c.* was again read, and after some Time spent in Consideration thereof,

Ordered to lie on the Table.

A Petition (together with several Certificates, and a List of Expences relating to the same) from *Richard Richardson*, *Thomas Jervis* and *John Hembright*, of this Province, was presented to the House and read, setting forth, that on the first Day of *August* last, a very barbarous and horrid Murder was committed upon the Bodies of *John Thomas* and *Eleanor Davis*, of *Chester* County, by three Men, who were Strangers, and at that Time unknown to any Person within this Province; that it appears by a Deposition of *Richard Richardson* (one of the Petitioners) taken before one of the Magistrates of the City of *Philadelphia*, that the said *Richardson*, had just before the Perpetration of said Murder, stopped and examined three Persons, who informed him, that they came from *Kent*

1753. *January* 19. County, in *Maryland*, and produced certain Writings, certifying them to be Freemen of that Province; that from many concurring Circumſtances there was great Reaſon to believe, that thoſe Perſons had committed the ſaid Murder; and upon the Information and further Deſcription given of them by the ſaid *Richardſon*, the Governor thought proper to iſſue his Proclamation, for having them apprehended, and was pleaſed particularly to direct and appoint the Petitioners for that Service; that accordingly on the Seventeenth Day of ſaid *Auguſt*, the Petitioners ſet out, and travelled through ſeveral of the Counties of *Pennſylvania*, *Maryland* and *Virginia*, in Purſuit of ſaid Murderers, until the Seventeenth of *September* following, when not meeting with Succeſs, they returned, after having in every Place through which they paſſed fully deſcribed them, and apprized the Country; that, after their Return, Information being given them by one Juſtice *Wilmore*, of *Maryland*, that he had Reaſon to think that the ſaid Murderers were then ſkulking about the City of *Philadelphia*, they went and acquainted the Chief Juſtice therewith, who granted them a Search Warrant, upon which they made ſtrict Enquiry in and about the ſaid City, for two Days and an Half, and at laſt found that the Perſons ſuſpected were no-ways concerned; that ſoon after, one of the ſaid Murderers was apprehended by one *Patrick Kearns*, of *Maryland*, and committed to *Cheſter* County Goal, and upon the Diſcoveries made thereby, *Thomas Jervis* went into *Maryland*, in Queſt of the other two; in the mean Time *Dillon*, another of the ſaid Murderers, was taken up and committed to *Philadelphia* Goal, and it appearing by his Confeſſion, that there were ſundry Perſons in *Maryland* privy to the ſaid Murder, the ſaid *Jervis*, on his Return, did, at the Requeſt of the Chief Juſtice, Secretary and Attorney-General go again into *Maryland*, in order to have thoſe Perſons apprehended, and he accordingly did apprehend *Patrick Kearns* and Wife, *Philip M'Dermot* and Wife, *James Braddy*, *Hugh M'Guire* and *James Neily*, and cauſed them to be examined before one of the Provincial Judges of *Maryland*, who committed *Kearns*, *M'Dermot* and Wife, to Goal, as Acceſſaries to the ſaid Murder; that the ſaid *Kearns* being, in all Probability, concerned as an Acceſſary in the aforeſaid horrid Murder, the Petitioners conceive he ought not to be entitled to any Part of the Reward offered by this Houſe for apprehending of the ſaid Murderers, and as the Petitioners have been at great Expence and Trouble in purſuing and endeavouring to bring the aforeſaid Murderers to Juſtice, and as it was likewiſe, in a great Meaſure, owing to the Evidence given by *Richard Richardſon*, at their Trial, that one of them was at laſt convicted; they therefore humbly pray that this Houſe would, in their great Goodneſs and Juſtice, cauſe the Reward that would have been due to *Kearns*, had he not been a Party concerned, to be paid to them, or otherwiſe make them ſome Allowance for their great Expences, Loſs of Time, and Trouble, as to the Wiſdom of this Houſe ſhall ſeem moſt meet.

Ordered to lie on the Table.

The Liſts of the Names of the Electors of the County of *Berks* were now brought to the Houſe; the Sheriff having neglected the ſame at the Time he made his Return.

January 23. Four Petitions from a conſiderable Number of the Inhabitants of the County of *Northampton* (together with a Certificate of two of the Aſſeſſors of ſaid County, relating thereto) were preſented to the Houſe and read, ſetting forth, that the Petitioners are under Apprehenſions that great Inconveniencies may accrue to the Inhabitants of that County, by reaſon of one Perſon holding at the ſame Time ſeveral Offices of Truſt, which interfere with one another; that the preſent Sheriff of the ſaid County has lately been appointed Clerk to the Commiſſioners, and Treaſurer of the County; which Offices, were they veſted in ſeveral Perſons, would, as the Petitioners conceive, be likely to be better diſcharged, as they would probably be a Check upon each other; that by the preſent Manner of ſummoning Juries, the Sheriff has it very much in his Power, ſhould he be ſo inclined, to ſummon ſuch a Jury as he thinks moſt likely to favour him in the Settlement of ſuch of the Public Accounts, wherein he is, or may be concerned; that the ſaid Sheriff likewiſe, under Colour of a Commiſſion of the Peace, iſſued before he was choſen Sheriff, continues to act as a Juſtice of the Peace for that County, and not

not contented to act in that Station at Home, he has of late gone from one Tavern to another, throughout a great Part of the said County, issuing his Precepts to bring Persons before him, and there hearing and determining Actions for small Debts, and giving public Notice, from Time to Time, at what Tavern he will next attend, whereby great Numbers of People, some of them very disorderly, are drawn together, and being many of them heated and intoxicated with Liquor, have been induced to put their Neighbours to Trouble and Expence for very trivial Matters, which, it is highly probable, they would not have done, if they had not been disordered with strong Drink, almost ever the Consequence of such Meetings: Therefore the Petitioners humbly pray this House would take the Premises into Consideration, and grant them such Relief as their Case seems to require. *Ordered to lie on the Table.* 1753. *January* 23.

The House resumed the Consideration of the Bill for striking the Sum of *Twenty Thousand Pounds*, to be made current and emitted on Loan, and for re-emitting and continuing the Currency of the Bills of Credit of this Province, and after a considerable Debate thereon,

And the said Bill being read, with the Amendments of the Committee, was ordered to be transcribed for a third Reading.

The Petitions from sundry Inhabitants of *Northampton* County, together with the Certificate of two of the Assessors of said County relating thereto, being again read;

Ordered, That *James Burnsides* do wait upon the Governor, with a Copy of said Petition and Certificate, and acquaint him, that the House desires he would be pleased to take that Part of the said Petition into his Consideration, which relates to the Conduct of the Sheriff of said County, as a Justice of the Peace.

Ordered, That the other Parts of the said Petition, be referred to the Consideration of the Committee of Grievances; who are to enquire into the Facts therein set forth, and report thereon to the House.

A Petition from *James Read*, Eſq; Prothonotary of the County of *Berks*, was preſented to the Houſe and read, ſetting forth, that the Petitioner was Clerk of the Crown of this Province, from *September* 1745, to *May* 1752; that in the ſaid Office many Services are done which employ great Part of the Officer's Time, namely, in giving due Attendance upon the Honourable the Juſtices of Oyer and Terminer and General Goal Delivery, to take the Examinations of Accuſers, Criminals, *&c.* which ſometimes takes up a Week or more, and in the Diſcharge of his public Duty in ſaid Court; that the Petitioner humbly conceives *(for ſundry Reaſons ſet forth at large in his ſaid Petition)* that he ought to apply to this Houſe for a Satisfaction for his ſaid Trouble, rather than to the reſpective Counties of this Province; that therefore the Petitioner has preſumed to exhibit to this Houſe ſundry Bills of Coſts in Cauſes, where, through the penurious Circumſtances of the Criminals and others charged with capital Offences during his ſaid Clerkſhip, he has not been able to obtain his juſt Fees, which he humbly prays this Houſe would cauſe to be paid to him, and make him ſuch farther Allowance for his extraordinary Trouble and Service in the ſaid Office, as they ſhall think juſt and equitable.

GENTLEMEN,

A Meſſage from the Governor to the Aſſembly.

'THE many Advantages we derive from the Uſe of Paper-Money, ought to make us extreamly careful to avoid every Step that may poſſibly endanger it.

'I am well aſſured the Diſlike raiſed in *Britain* of the Bills of Credit in the Plantations, by the late too general and undiſtinguiſhing Complaints, ſtill ſo warmly ſubſiſts, as to make any Application to the Crown about our Currency at this Time very unſeaſonable.

'With a View, therefore, that no Share of your Time may be ſpent unprofitably, I think myſelf obliged to declare to you thus early (though with a good deal of Concern for our Difference in Opinion) that I cannot at preſent give my Aſſent to any Bill for re-emitting the current Money of the Province, or for iſſuing any additional Sum.

January 26, 1753. *JAMES HAMILTON.*"

The Secretary acquainted the Houſe, that the Governor had taken that Part of the Petition from *Northampton* County, which the Houſe had referred to him, into Conſideration, and had given proper Orders for remedying the Inconvenience complained of.

The Message to the Governor being transcribed, was again read, and follows in these Words, *viz.* 1752. *January* 27.

May it please the GOVERNOR,

A Message from the Assembly to the Governor.

WE are well pleased to find by the Governor's Message of Yesterday, that he concurs with us in that important Point, a Sense of the many Advantages we derive from the Use of our Paper Money: We would therefore be equally careful with the Governor to avoid every Step that may possibly endanger it. But as we do not think that the Dislike, raised in *Britain*, of the Bills of Credit in the Plantations, was so general and undistinguishing, or still so warmly subsists, as the Governor seems to apprehend; so we do not conceive that an Application to the Crown about our Currency would, at this Time, be unseasonable.

We are equally concerned with the Governor for our Difference in Opinion; and that, in an Affair of such Importance, we may not seem to act too precipitately, we are willing to take the Governor's Objection into Consideration till our next Meeting, and propose to make a short Adjournment for this Purpose."

And the said Message being signed by the Speaker, by Order of the House;

Ordered, That *Peter Worral* and *David M'Conaughy*, wait upon the Governor, and deliver the same; and further, that they acquaint the Governor, that the House are inclined to adjourn to the Twenty-first Day of the Month called *May*, if he hath no Objection to that Time.

Ordered, That *Edward Warner*, *Evan Morgan*, *Joseph Stretch* and *Hugh Roberts* be added to the Committee of Grievances for the present Year.

Ordered, That the Provincial Treasurer, and the Sureties of *John Hall*, late Collector of *Bucks* County, who were ordered to attend this House on *Third-day* next, be acquainted, that the House require their Attendance at the next Meeting of Assembly.

Ordered, That the Message from the Governor to the Assembly, and the Assembly's Answer thereto, be printed in the next Gazette.

The Gentlemen appointed to wait upon the Governor with the Message of the House, return and report, that they had delivered the same according to Order; and that the Governor was pleased to say, he had no Objection to the proposed Time of Adjournment.

The Governor, by his Secretary, sent down a written Message to the House, together with sundry Papers relating to *Indian* Affairs, referred to therein, which were read; and the Message is as follows, *viz.* *May* 22.

GENTLEMEN,

A Message from the Governor to the Assembly.

'BY the Intelligence contained in the several Papers now laid before you, it may be 'expected, that the Country of *Allegheny*, situate on the Waters of the *Ohio*, partly 'within the Limits of this Province, and partly within those of *Virginia*, already is, or 'will be in a very little Time, invaded by an Army of *French* and *Indians*, raised for 'this Purpose by the Governor of *Canada*.—And that the *Indians* inhabiting there, who 'are of the *Six Nations*, with a Mixture of *Shawanese* and *Delawares*, Friends and Al'lies of *Great-Britain*, will be obliged to retire and leave their Country for Want of 'Means to defend it against this armed Force; as will also the *Twightwees*, lately re'commended to our Alliance by the *Six Nations*.—And that his Majesty's Subjects of 'this and the neighbouring Colonies, now carrying on a just and lawful Trade with 'these *Indians*, will be cut off, or made Prisoners, and their Effects seized and plun'dered, unless the Messengers dispatched by me to *Ohio*, immediately on receiving the 'Advices from the Governor of *New-York*, shall have arrived time enough to give our 'Traders and *Indian* Allies an Opportunity of taking Measures for their own Security.

'The Advices communicated to me by Governor *Clinton*, are further confirmed by 'Mr. *Andrew Montour*, who happening lately to be at *Onondago*, on Business of the 'Government of *Virginia*, with the *Six Nations*, heard the Message of the Governor of 'Canada, avowing these hostile Proceedings, delivered to the Council there by seven 'French Indians; together with the Council's Answer, asserting their Independency,

1753. May 22.

'and the Property of the Soil, and forbidding the *French* from ſettling their Lands at 'Ohio, or diſturbing the *Engliſh* Traders: But your own Judgment will ſuggeſt what 'ſuch Prohibition can amount to from a People who are not at preſent in a Condition 'to defend themſelves, and who, beſides, are ſtarving for Want of the Neceſſaries of 'Life.

'Under theſe Difficulties what can they do, unleſs his Majeſty's Governors, to 'whom they will undoubtedly make very earneſt Applications, ſhall afford them Aſ-'ſiſtance? And if this be not now given them ſuitable to their Neceſſities, can it be 'thought that they will any longer adhere to their Alliances, or heſitate to put them-'ſelves and their Allies under the Protection of *France*, who they ſee in a Condition to 'protect them?

'Think, Gentlemen, I beſeech you, of the Conſequences of having Forts built, and '*Indian* Nations ſettled by the *French*, within and near the Limits of this Province, and 'within a ſmall Diſtance from the inhabited Part of it. Are the People, ſettled on 'our *Weſt* Frontiers, like to live in Peace and Quietneſs, or to be able to preſerve their 'Poſſeſſions? Or will they not deſert them and the Fruits of their Labour, and ſeek 'for Habitations elſewhere, rather than ſee themſelves continually expoſed to the In-'roads and Depredations of Enemy *Indians?* But there is no Need for me to enlarge on 'this diſagreeable Subject, or to ſet forth the ſad Effects that muſt unavoidably ariſe 'from the Neighbourhood of *French* Forts and Settlements; ſince theſe will naturally 'offer themſelves to the Mind of every One, I therefore earneſtly entreat you to take 'this Matter into your ſerious Conſideration: And as there is great Reaſon to expect 'that Applications will be made to me, as well on the Part of the *Six Nations* at *Onon-'dago* as by thoſe who reſide to the Weſtward, and are like to be more immediately af-'fected by theſe Proceedings, I requeſt you would, in your preſent Seſſions, enable me 'to give them Aſſiſtance anſwerable to their Exigencies; ſenſible as you muſt be, that 'it is the indiſpenſible Duty of every Government to protect and take Care of all its 'Inhabitants, whether they be his Majeſty's natural born Subjects, or Natives of *America*, 'in Amity with the Crown of *Great-Britain*, or their Friends and Allies.

May 22, 1753. *JAMES HAMILTON.*"

A Petition from a conſiderable Number of the Inhabitants of the County of *Lanca-ſter* was preſented to the Houſe and read, ſetting forth, that divers of the Petitioners have, from Time to Time, informed their Repreſentatives, that they were greatly ſtrai-tened for Want of a ſufficient Currency to carry on their neceſſary Affairs; that their Difficulties daily increaſing, they now beg Leave to lay a Part of them before this Houſe, which are as follows: That, though Numbers of the Petitioners have Effects ſufficient to anſwer all their Occaſions, yet by Reaſon of the extreme Scarcity of Money, they can neither get in their Debts, nor convert their Effects into Caſh, even though they were willing to diſpoſe of them greatly under Value; that the Truth of this may be demon-ſtrated from the great and unuſual Increaſe of Actions in the Courts, which many can no otherways avoid or anſwer, than by giving up the Whole of their Subſtance to their Creditors, or ſubmitting to a Goal; for thoſe who would part with their Lands to pay their Debts, find the Price of ſaid Lands very conſiderably fallen, by Reaſon of the great Scarcity of Money throughout the Country; that they apprehend, that unleſs there is a further Supply of Paper Bills of Credit granted, thoſe, and many more Evils not men-tioned, muſt daily increaſe, and finally end in the Ruin of the Province; therefore pray-ing this Houſe would do whatever in them lies to redreſs the Grievances complained of.

Ordered to lie on the Table.

A Petition from *George Henry*, *John Evans*, *James Devoy* and *Owen Nicholſon* was preſented to the Houſe and read, ſetting forth, that they are in a poor and diſtreſſed Condition, by Reaſon of their having been taken Priſoners by a Number of *French In-dians*, with a *Frenchman* at their Head, who carried them to *Quebeck*, and from thence ſent them to *Rochelle*, in *Old France*, where they were releaſed by the *Engliſh* Ambaſ-ſador, and by him ſent to *London*, from whence they got a Paſſage to this Place; there-fore praying this Houſe would conſider the Petitioners unhappy Caſe, and grant them as much Money as will bear their Expences to *Cumberland* County, the Place of their Reſidence.

A Petition from ſundry Inhabitants of the County of *Bucks* was preſented to the Houſe and read, ſetting forth, that the Holding the Supreme Courts in the County of *Philadelphia* only, and not in the ſeveral Counties, according to the Law in that Caſe made and provided, is a great Grievance to the Petitioners, as they are by that Means put to conſiderable Expences in attending thoſe Courts as Jurors, *&c.* beſides their Loſs of Time; that they are humbly of Opinion, that at the Time of making the Law abovementioned, the Circumſtances of the Province were ſuch, as that the Times therein limited, for holding the ſaid Courts in the ſeveral Counties, were ſuitable and ſufficient, but thoſe Circumſtances being ſince much altered, both with reſpect to the Number of Inhabitants, and Increaſe of Buſineſs at thoſe Courts, it has now become impracticable for the Judges to attend at the ſeveral Counties, at the Times by Law required, and go through the neceſſary Buſineſs, which has occaſioned the introducing the Practice of holding all the ſaid Courts at *Philadelphia*, to the great Inconveniency of the Inhabitants of the other Counties; therefore praying this Houſe would take the Premiſes into their ſerious Conſideration, and grant ſuch Relief as in their Wiſdom they ſhall judge moſt meet. *Ordered to lie on the Table.*

May it pleaſe the GOVERNOR,

A Meſſage from the Aſſembly to the Governor.

THE Governor's Apprehenſion, at our laſt Sitting, that the Diſlike raiſed in *Great-Britain* of the Bills of Credit in the Plantations by the late too general and undiſtinguiſhing Complaints, ſo warmly ſubſiſted, as to make any Application to the Crown about our Currency at that Time unſeaſonable, induced the Houſe, notwithſtanding their different Sentiments, to make a ſhort Adjournment, to conſider farther of the Weight of that Objection; and alſo of the Sums by that Bill propoſed to be made, and continued current in this Province. And now, when we reflect, that though the Complaints againſt a Paper Currency, ariſing from the Exceſſes of ſome Colonies therein, were indeed at firſt too general and undiſtinguiſhing, ſo as to occaſion the bringing into Parliament a Bill for reſtraining the ſame in all the Colonies; yet, as upon ſtrict Enquiry (a State of our Currency then lying before them) the Parliament thought fit to alter the Bill, and lay the Reſtraint only on thoſe Colonies where that Currency had been abuſed, we cannot but look on this as diſtinguiſhing in our Favour; eſpecially as we are aſſured, that no Complaints were ever made of our Currency by the *Britiſh* Merchants, trading hither, who only could be affected by it; but that on the contrary they have, whenever called upon for their Opinion by the Parliament or the Lords of Trade, appeared openly and warmly in its Favour, and declared (as they did in 1739, when our Act for *Eighty Thouſand Pounds*, the preſent Sum, was under Conſideration) "That it was not only a reaſonable Sum, but abſolutely neceſſary for carrying on the Commerce of the Country;" which appears by the Report of the ſaid Lords, made on that Occaſion to the Council. And as the Exports from *Britain* to this Province, of which we have authentic Accounts, had then, in the three preceding Years, amounted to no more than *One Hundred Seventy-nine Thouſand Six Hundred Fifty-four Pounds Nine Shillings* and *Two-pence Sterling*; and now in the Years 1749, 1750 and 1751, they amount to *Six Hundred Forty-ſeven Thouſand Three Hundred Seventeen Pounds Eight Shillings* and *Nine-pence Sterling*; and our Numbers of People, and Domeſtic Trade, and the Occaſions for a Medium of Commerce, are equally increaſed, there cannot, we think, be any Doubt, but the *Britiſh* Merchants will now likewiſe be of Opinion that the ſmall Addition we at preſent propoſe is abſolutely neceſſary, though they may not think it ſo ſuitable to our Circumſtances as a larger Sum; *One Hundred Thouſand Pounds* of Paper Currency bearing by no Means the ſame Proportion to our Trade now, as *Eighty Thouſand Pounds* did then. And it is certain, that as the Money circulating among us diminiſhes, ſo muſt our Trade and Uſefulneſs to *Great-Britain*, and our Conſumption of its Manufactures, diminiſh.

Upon the Whole, we intreat the Governor to conſider the diſtreſſing Circumſtances under

under which the Trade, and in Consequence the whole Province, must languish, if, contrary to our Expectations, the Bill we now present him should not be enacted into a Law. And we are well assured, that as the Governor has been pleased to declare his Sentiments of the many Advantages we derive from the Use of Paper Money, his transmitting it Home, in a true Light, will make our Application to the Crown as effectual as it is seasonable." 1753. May 25.

And the said Message being signed by the Speaker, by Order of the House;

Ordered, That *Mahlon Kirkbride* and *Peter Worral* wait upon the Governor, and deliver the same, together with the Bill for striking *Twenty Thousand Pounds*, to be made current and emitted on Loan, and for re-emitting and continuing the Currency of the Bills of Credit of this Province.

A Petition from the United Brethren, living at *Bethlehem*, in *Northampton* County, was presented to the House and read, setting forth, that when the Township of *Bethlehem* belonged to *Bucks* County, the said Brethren were treated with Equity and Moderation, and the Law of this Province, entituled, *An Act for the more effectual raising County Rates and Levies* (which gives the Commissioners and Assessors Power to act, in raising the Tax, according as Circumstances shall appear to them) was never made Use of in order to lay a Tax on the young Men belonging to their Society, but that they were always taxed in general, as a Body of People (their young Men not going abroad to work and earn Money) which appears by an annexed Paper, marked Letter A, containing an Account of all the Taxes paid by them from the Year 1745, to 1752, inclusive; that since the said Township has belonged to *Northampton* County, the said Brethren, who live on four Plantations, *viz. Bethlehem*, *Nazareth*, *Gnadenthal* and *Christiansbrun*, are not only taxed higher than ever before, but also an additional Tax of *Nine Shillings* a Head is laid upon all their young Men; so that their Taxes, which since 1747 never amounted to *Nine Pounds*, are now raised to *Seventy-three Pounds Nine Shillings*, as will appear by an annexed Paper, marked Letter B; that the said Brethren thinking themselves much aggrieved by the said Tax, made Application to the Court of Appeal (as may be seen by another Paper annexed, marked Letter C) but could meet with no Redress; they therefore pray that this House would take the Premises into Consideration, and grant them Relief therein, as they apprehend their Case is very different from that of other young People in this Province, who by going about to work, earn oftentimes more Money than a common Planter can do, and are, as the Petitioners conceive, the Persons particularly meant in the aforesaid Act.

Ordered to lie on the Table.

The several Papers, A, B, C, referred to in the above Petition, were likewise read, and *Ordered to lie on the Table.*

The Gentlemen appointed to wait upon the Governor with the Message of the House, return and report, that they had delivered the same according to Order, and that the Governor was pleased to say, he would take it into Consideration, and return an Answer to the House shortly.

The Message from the Governor, of the 22d Instant, relating to *Indian* Affairs, was again read, and considered, and referred to further Consideration.

The Committee of Grievances made a Report in Writing, which was read, and is as follows, *viz.*

Report of the Committee of Grievances.

WE the Committee of Grievances, to whom Part of the Petition from *Northampton* County, containing sundry Complaints of the Conduct of *William Craig*, Esq; Sheriff of the said County, was referred, do report,

That having met and considered the said Petition, we directed the Clerk to make out and transmit a Copy thereof to the said Sheriff, and acquaint him by Letter, that the Committee were willing to hear what he might have to say in his Justification, before they made their Report to the House; and appointed the first of *February* for that Purpose. We also directed that Notice should be given to some of the principal Petitioners, that they might also attend and be heard in support of the Allegations contained in their Petition.

On the Day appointed for such Hearing, several of the Petitioners attended accordingly, but the said *William Craig* not appearing, the Committee adjourned to the Day following, when they received a Letter said to be from the said *Craig*, requesting a farther Day; which the Committee allowed, and appointed the 21st Instant, of which he had due Notice. Several of the Petitioners again attended on the said Day, but the Sheriff has not appeared, nor sent his Reasons.

Your Committee, however, are informed by the Petitioners attending, that the principal Causes of Complaint set forth in their Petition are removed, the Sheriff having for some Time past declined acting as a Justice of the Peace, and likewise given up the Office of Treasurer of the County.

But the Petitioners attending, do now farther complain, and say, that the Commis-

1753. *May* 25. sioners and Assessors of their County having appointed to meet ad *Eastown*, to hear Appeals on the 7th of *February*, the said *Craig*, as their Clerk, did by Letters to some of them, alter the Place of Meeting, and appointed his own House, 17 Miles distant, where only four Assessors, and two of the Commissioners being met (the others, who had no Notice of the Change, being gone to *Eastown*) the Choice of a new Treasurer was proposed; and, though objected to as an unfair Proceeding, no Notice having been given in the Letters by which they were summoned of the Intention to make such Choice at that Time, and the Board not being full, yet it was carried by the Votes of two Assessors, with the two Commissioners, and one *James M'Callister* was said to be chosen, who accordingly undertook the Office. But a certain Schoolmaster, who sometimes acts as Clerk to the said *Craig*, receiving the Money as brought in by the Collectors, and giving Receipts therefor, signed with the Name of said *M'Callister*, though not wrote or signed by him, nor said to be on his Behalf, they apprehend that the said *M'Callister* only colours the Office of Treasurer for the said *Craig*, who by the above-mentioned Artifice procured him to be chosen; and that the said *M'Callister* will not by such Receipts be accountable for the Monies received.

The Complainants produced to your Committee one of the said Receipts, which appears on Comparison not to be the Hand-Writing of the said *M'Callister*, nor signed by him; but to be of the same Hand-Writing with the Letter the Committee received as from *William Craig*; they produced also the Protest of *John Holder*, one of the Assessors, against proceeding to the Choice of a Treasurer as aforesaid, with one of the Letters of Notice appointing that Meeting. All which we lay before the House, and the Whole is humbly submitted by

EDWARD WARNER,
EVAN MORGAN,
B. FRANKLIN,
HUGH ROBERTS,
JOSEPH STRETCH,
PETER WORRAL,
JOSEPH TROTTER."

Ordered to lie on the Table.

Adjournment — Then the House adjourned to Ten o'Clock To-morrow Morning.

May 26. The Report of the Committee of Grievances was again read, and considered, and referred to further Consideration.

Adjournment — Then the House adjourned to next *Second-day*, at Three o'Clock, *P. M.*

May 28. The House met pursuant to their Adjournment.

Post Meridiem — The Petition from the United Brethren, living in *Bethlehem* Township, in *Northampton* County, was again read and considered, and referred to farther Consideration.

The Petition from *Bucks* County, relating to the Holding of the Supreme Courts in *Philadelphia*, was again read, and considered, and referred to farther Consideration.

Adjournment — Then the House adjourned to Ten o'Clock To-morrow Morning.

May 29. The Governor, by his Secretary, sent down to the House some Letters he had received from *William Trent*, relating to the present Situation of *Indian* Affairs at the River *Ohio*.

The Secretary likewise acquainted the House, that *John Harris*, the Messenger sent by the Governor's Order to *Ohio*, was returned, and now in Town; as were also some others, who were present when the said Messenger delivered his Message to the *Indians*; and that, if the House inclined to ask them any Questions, they were ready to give their Attendance for that Purpose.

And the Secretary being withdrawn,

The Letters from the said *William Trent* were read; as was also the Governor's Message, relating to *Indian* Affairs.

Ordered, That the Door-keeper do acquaint *J. Galbraith* and *John Harris*, two of the Persons just arrived from *Ohio*, that the House require their Attendance immediately:

And the said Persons giving their Attendance accordingly, were called in; and haveing answered such Questions as were put to them by the House, withdrew.

Ordered, That the Door-keeper do give Notice to *Michael Teaff* and *Robert Callender*, two other of the Persons lately from *Ohio*, that the House require their Attendance this Afternoon.

Adjournment — Then the House adjourned to Three o'Clock, *P. M.*

Post Meridiem. *Michael Teaff* and *Robert Callender*, attending according to Order, were called in, and having given Answers to such Questions as were put to them by the House, were directed to withdraw.

Then the House took into Consideration the present State of *Indian* Affairs; and, after some Time spent therein, the same was referred to further Consideration.

Adjournment — Then the House adjourned to Ten o'Clock To-morrow Morning.

May 30. The Assembly's Representation to the Proprietaries, in 1751, with the Proprietaries Answer thereto, were again read, and considered; and, after some Time spent therein,

Ordered, That *Evan Morgan*, *John Smith*, *Benjamin Franklin*, *Hugh Roberts*, *Mahlon Kirkbride*, *George Ashbridge*, *Arthur Patterson*, *John Wright*, *John Armstrong*, *Moses*

Starr

Starr and *James Burnſides* be a Committee to conſider the ſaid Repreſentation and Anſwer, and report thereon to the Houſe, at their next Sitting. 1753. *May* 30.

The Secretary attending, was called in; and addreſſing himſelf to the Chair, ſaid,

"SIR,

As the Governor preſumes the Aſſembly, agreeable to the uſual Cuſtom, will meet again in the Month of *Auguſt*, now near approaching, to finiſh the Buſineſs of the Year, he chuſes for that, and ſome other Reaſons, to keep the Paper Money Bill, lately preſented him by the Houſe, under Conſideration till that Time."

The Secretary then withdrew.

Then the Houſe adjourned to Three o'Clock, *P. M.* Adjournment *Poſt Meridiem*

The Sureties of *John Hall*, late Collector of *Bucks* County, giving their Attendance, agreeable to the Order of the Houſe at their laſt Sitting,

Ordered, That the ſaid Sureties be heard To-morrow Morning; and that the Treaſurer have Notice to attend the Houſe at the ſame Time.

The Meſſage from the Governor relating to *Indian* Affairs, being again read, and conſidered, together with the Governor's verbal Meſſage of the Sixteenth of *October* laſt, relating to the Loſs of fourteen *Indians*, of the *Twightwee* Nation, killed by the *French*, and their *Indians*:

Reſolved, That the Sum of *Two Hundred Pounds* be now allowed as a Preſent of Condolance to the ſaid *Twightwee* Nation, on that melancholy Occaſion.

Reſolved, That the Sum of *Six Hundred Pounds* be now alſo allowed as a Preſent to the other *Indian* Nations in our Alliance, or ſuch Part thereof as the Governor may think neceſſary.

Reſolved, That the above Sums be made payable to the Governor, by the Truſtees of the General Loan-Office, to be laid out by him, and diſtributed in ſuch a Manner as he ſhall think moſt ſuitable to their preſent Exigencies.

Ordered, That *Evan Morgan*, *Benjamin Franklin*, *Mahlon Kirkbride*, *George Aſhbridge*, *James Wright*, *John Wright*, *Joſeph Armſtrong*, *Moſes Starr* and *James Burnſides* be a Committee to prepare a Draught of an Anſwer to the Governor's Meſſage of the Twenty-ſecond Inſtant, relating to *Indian* Affairs, and report the ſame to the Houſe To-morrow Morning.

Then the Houſe adjourned to Ten o'Clock To-morrow Morning. Adjournment

The Committee appointed Yeſternight to prepare a Draught of an Anſwer to the Governor's Meſſage on *Indian* Affairs, reported the ſame to the Houſe; which was read, and conſidered, Paragraph by Paragraph, and ordered to be tranſcribed, *May* 31.

Ordered, That the Clerk do make out a Copy of the Reſolves of Yeſternight, to be ſent up to the Governor with the ſaid Meſſage.

The Treaſurer, and the Securities of *John Hall*, gave their Attendance; and were ordered to attend the Houſe again this Afternoon.

Then the Houſe adjourned to Three o'Clock, *P. M.* Adjournment *Poſt Meridiem*

The Meſſage to the Governor being tranſcribed, was again read, approved, and ſigned by the Speaker, by Order of the Houſe, and is as follows, *viz.*

May it pleaſe the GOVERNOR,

A Meſſage from the Aſſembly to the Governor.

WE have, on all Occaſions, acknowledged our grateful Sentiments of the Governor's Regard and Juſtice towards the *Indians*, our Allies; and we now again return our hearty Thanks for his continued Care, and for communicating the Intelligence he has received concerning their preſent Diſtreſſes. In Purſuance of which, we have reſumed the Conſideration of the Letters laid before the Houſe, with the Meſſage of the Sixteenth of *October* laſt, together with the Governor's late Meſſages and Papers, ſent down to us before and ſince the Return of the Expreſſes diſpatched to *Ohio*. We have alſo carefully examined the Meſſenger himſelf, and ſuch *Indian* Traders, and others, who could give us any Information of the Numbers, and Deſigns of the Forces, raiſed by the Governor of *Canada*, and of the Condition of the *Twightwees*, as well as the other *Indians*, our Allies, upon the Waters of *Ohio*, and, upon mature Deliberation, have reſolved to contribute generouſly to their Aſſiſtance, by a Preſent ſuitable to their Want of the Neceſſaries of Life.

Though the Alliance between the Crown of *Great-Britain* and the *Six Nations*, and the Protection and Aſſiſtance they expect to receive, in Virtue of that Alliance, is more immediately under the Direction of the Government of *New-York*; and although *Virginia*, at this Time, has entered largely into the Trade, and will, no Doubt, on the preſent Occaſion, aſſiſt them and their Allies, yet we have always endeavoured, in Proportion to our Abilities, by Preſents, as well as by obliging our *Indian* Traders to behave with Juſtice towards them, to preſerve their Friendſhip; and on the preſent Occaſion, notwithſtanding we have the Misfortune to differ in Sentiments with our Proprietaries in the Part they ought to bear in theſe Expences, we have rather conſidered the Advantages both they and the Province may receive by our Liberality, which we have

1753. *May* 31. have voted chearfully, and recommended the Diſtribution to the Care of the Governor, that the *Six Nations*, at *Onondago* (upon any Applications to be made to him in their own Behalf, or for their Allies who reſide to the Weſtward, and are likely to be more immediately affected) may be ſatisfied, and the Preſent intended them beſt anſwer their Neceſſities, and our peaceable and friendly Intentions."

The Clerk, according to Order, laid before the Houſe a Copy of the Reſolves of Yeſternight; which were read, and ordered to be ſigned by him, that they might be ſent to the Governor.

Reſolved, That this Houſe will, To-morrow, adjourn to the Twenty-ſeventh Day of the Month called *Auguſt* next.

Reſolved, That the Sum of *Five Hundred Pounds* be now allowed to the Honourable JAMES HAMILTON, Eſq; Governor of this Province, in Part of his Support for the current Year:

And an Order was drawn on the Treaſurer, and ſigned by the Speaker, by Order of the Houſe, for Payment of the ſame.

It being moved, that the preſent Sergeant at Arms had not as yet been commiſſioned by the Governor to execute the Orders of this Houſe;

Ordered, That a Meſſage be now prepared, and ſent to the Governor, requeſting that he would direct a Commiſſion to be made out for the ſaid Sergeant; which being accordingly done, was read, and is as follows, *viz.*

May it pleaſe the GOVERNOR,

A Meſſage from the Aſſembly to the Governor. THE Repreſentatives of the Province of *Pennſylvania*, in Aſſembly met, requeſt the Governor would be pleaſed to grant a Commiſſion to *Samuel Kirk*, to be Sergeant at Arms, and King's Meſſenger, at all Times to attend the Service of this Houſe, with Power to execute all Precepts, Warrants and Meſſages, whatſoever, which ſhall be iſſued by their Order, as has been formerly the Uſage within this Province."

And the ſaid Meſſage being ſigned by the Speaker, by Order of the Houſe;

Ordered, That *Joſeph Stretch* and *James Burnſides* wait upon the Governor, and deliver the ſame, together with the Meſſage in Anſwer to that from the Governor, on *Indian* Affairs, the Reſolves of the Houſe of Yeſternight, and the Order on the Treaſurer for Part of his Support for the current Year; and further, that they acquaint the Governor, the Houſe inclines to adjourn to the Twenty-ſeventh Day of the Month called *Auguſt* next, if he hath no Objection to that Time.

The Treaſurer, and the Securities of *John Hall*, gave their Attendance; but the Houſe not having now Time ſufficient to give them a Hearing, they were ordered to attend the Houſe again To-morrow Morning.

Adjournment Then the Houſe adjourned to Ten o'Clock To-morrow Morning.

June 1. The Gentlemen appointed to wait upon the Governor with the Meſſages of the Houſe, report, that they had delivered the ſame according to Order; and that the Governor was pleaſed to ſay he thanked the Houſe for the Order on the Treaſurer for Part of his Support; that he would take the Meſſages and Reſolves of the Houſe into Conſideration, and do therein what he ſhould find neceſſary; and that he had no Objection to the Time of Adjournment.

The Treaſurer, and Securities of *John Hall*, giving their Attendance, were called in; and the ſaid Securities waving the Allegations ſet forth in their Petition, preſented to this Houſe at the laſt Sitting, deſired that the Treaſurer might be directed to ſtop his Proſecution againſt them, for ſome Time, as they had Reaſon to expect that *John Hall* would himſelf be ſhortly capable of diſcharging the Debt due by him to the Province.

And the Treaſurer and ſaid Securities being ordered to withdraw, the Houſe took the ſame into Conſideration, and after ſome Time ſpent therein,

Reſolved, That this Houſe will not any way interfere in the ſaid Proſecution.

The Houſe reſuming the Conſideration of the Report of the Committee of Grievances;

Ordered, That *William Craig*, Eſq; Sheriff of *Northampton* County, do attend this Houſe on the Twenty-ſeventh Day of the Month called *Auguſt* next; and that the Clerk do ſend the ſaid *Craig* a Copy of this Order.

All the Petitions referred to this Sitting of Aſſembly were referred over to the Conſideration of the Houſe at their next Sitting.

Adjournment Then the Houſe adjourned to the Twenty-ſeventh Day of the Month called *Auguſt* next.

Auguſt 27. *Poſt Meridiem* THE Houſe met purſuant to their Adjournment.

Ordered, That *Edward Warner* and *Joſeph Stretch* wait upon the Governor, and acquaint him, that the Houſe have met according to their Adjournment, and are ready to receive any Thing he may have to lay before them.

The Committee of Correſpondence laid before the Houſe the following Copy of the King's

King's Order, for confirming twelve Acts of this Province, which they had received from the Agent in *London*, viz. 1753. *August* 27.

Then the Houſe adjourned to Ten o'Clock To-morrow Morning. Adjournment *Auguſt* 28.

The Gentlemen appointed to wait upon the Governor, report, that they had delivered their Meſſage according to Order; and that the Governor was pleaſed to ſay, he ſhould ſend a Meſſage to the Houſe ſome Time To-morrow.

Sundry Letters from the Agent in *London* were laid before the Houſe by the Committee of Correſpondence, and read, and *Ordered to lie on the Table.*

A Petition from divers Inhabitants of the City of *Philadelphia* was preſented to the Houſe and read, ſetting forth, that there is yearly a conſiderable Quantity of Silver and Gold wrought in this Province, not only for the Inhabitants, but alſo for ſeveral of the neighbouring Provinces, and *Weſt-India* Iſlands, which latter would probably encreaſe, and give more general Satisfaction, were proper Regulations made as to the Fineneſs of the Silver and Gold to be wrought; the Petitioners therefore pray that this Houſe would take the Premiſes into Conſideration, and aſcertain the Fineneſs of all Silver and Gold

1753. *Auguſt* 28.

which ſhall hereafter be wrought in this Province, agreeable to the Laws and Cuſtoms of *Great-Britain*; and to appoint a proper Perſon to *aſſay* and *ſtamp* all ſuch Manufactures, made agreeable to the ſaid Regulation, as will admit of it; to allow ſuch Officer a reaſonable Reward for his Service, and give him ſuch Powers, and lay him under ſuch Injunctions, as ſhall ſeem moſt meet. *Ordered to lie on the Table.*

A Petition from ſundry Inhabitants of the County of *Cumberland* was preſented to the Houſe and read, praying, that ſome Perſon, reſident in ſaid County, may be appointed a Truſtee in the General Loan-Office, as they apprehend it would not only prevent the ſaid Office from being impoſed on by inſufficient Securities from that Part of the Province, but alſo the Inhabitants from having their Pledges undervalued, as they ſometimes are. *Ordered to lie on the Table.*

An Account from *Ezechiel Dunning*, Sheriff of the County of *Cumberland*, for ſecureing and conveying one *Daniel Hurdley* to *Philadelphia* Goal, by Order of the Chief Juſtice amounting to *Twenty-four Pounds Three Shillings*, was laid before the Houſe and read. Alſo

An Account from *Hermanus Alrichs*, Eſq; for *Five Pounds* paid by him to *John Harris*, for taking up the ſaid *Daniel Hurdley*, when he broke Goal. *Ordered to lie on the Table.*

The Houſe being informed that *William Craig*, Eſq; Sheriff of *Northampton* County, in Purſuance of the Order of the Houſe at their laſt Sitting, was now attending, he was called in; whereupon he delivered at the Table, a Repreſentation from a conſiderable Number of the Inhabitants of ſaid County, contradicting the ſeveral Facts alledged againſt the ſaid *Craig*, in a Petition preſented to the Houſe on the Twenty-third of the Month called *January* laſt.

The ſaid *Craig* alſo produced to the Houſe a Certificate from two Commiſſioners and three Aſſeſſors of the ſaid County, certifying, that they had on the Twelfth Day of *December* laſt paſt duly elected him, the ſaid *Craig*, Treaſurer thereof, without his making any previous Application to them, or uſing any Craft or Artifice to obtain the ſaid Office; and then being ordered to attend this Houſe again in the Afternoon, he withdrew.

It being obſerved, that the above Repreſentation from *Northampton*, accuſes one *John Jones*, of ſaid County, that he out of private Reſentment and Malice, by falſe Inſinuations and Miſrepreſentations prevailed upon many of the Inhabitants to ſign the Petition that was preſented to the Houſe againſt ſaid *Craig*: And the Houſe being informed that the ſaid *Jones* was now in Town,

Ordered, That the Clerk do make out a Copy of the ſaid Repreſentation, and deliver it to the ſaid *John Jones*; and acquaint him that the Houſe require his Attendance this Afternoon.

Samuel Kirk, Sergeant at Arms, acquainted the Houſe that the Governor had given him a Commiſſion, agreeable to the Requeſt of the Houſe at their laſt Sitting; which he produced at the Table, and then withdrew.

And the ſaid Commiſſion being read,

Ordered, That the Clerk do take a Copy thereof, and depoſite it among other the Papers belonging to this Houſe.

Adjournment. Then the Houſe adjourned to Three o'Clock, *P. M.*

Poſt Meridiem. *Ordered*, That *Edward Warner*, *Evan Morgan*, *Hugh Roberts*, *Richard Walker*, *Thomas Cummings*, *Calvin Cooper*, *David M'Connaughy*, *John Armſtrong*, *Moſes Starr* and *James Burnſides* be a Committee to inſpect and ſettle the Accounts of the Incidental Charges of the current Year.

Ordered, That the Accounts of *Ezechiel Dunning* and *Hermanus Alrichs* be referred to the ſaid Committee.

John Jones, giving his Attendance according to Order, was called in: And he deſiring further Time to anſwer the Allegations againſt him, contained in the Repreſentation from *Northampton* County; the Houſe aſſented thereto, and allowed him till To-morrow Morning for that Purpoſe. And

Ordered, That *William Craig* do likewiſe attend the Houſe at that Time.

The Petition of *James Read*, Eſq; late Clerk of the Crown, was read, and conſidered, and referred to further Conſideration.

Adjournment. Then the Houſe adjourned to Ten o'Clock To-morrow Morning.

Auguſt 29. A Petition from ſundry Inhabitants of *York* County, praying that a Truſtee of the General Loan-Office may be appointed for the ſaid County, was preſented to the Houſe, and read, and *Ordered to lie on the Table.*

The Petitions from *Northampton* County againſt *William Craig*, Eſq; Sheriff of ſaid County, and the Report of the Committee of Grievances thereupon, were read, together with the ſeveral Letters and Papers mentioned in ſaid Report.

John Jones gave his Attendance according to Order, and being called in, preſented a Petition to the Houſe, in Anſwer to that Part of the Repreſentation from *Northampton* County which relates to him; wherein he gives ſundry Reaſons which he apprehends

are

are sufficient to prove that he had no private Resentment or Malice against the Sheriff of said County; and that it was not by false Insinuations and Misrepresentations that he prevailed upon sundry Persons in said County to sign the Petitions that were presented to this House against him. 1753. *August* 29.

And the said *Jones* being then directed to withdraw,

William Craig, who likewise gave his Attendance, was called in, and the said Petition read to him; and he desiring a Copy thereof, the Clerk was ordered to give him one accordingly; and the House ordered that he, the said *Craig*, should attend again this Afternoon.

Then the House adjourned to Three o'Clock, *P. M.* Adjournment *Post Meridiem*

The Governor, by his Secretary, sent down the Bill for striking *Twenty Thousand Pounds*, to be made current and emitted on Loan, and for re-emitting and continuing the Currency of the Bills of Credit of this Province, with a written Message, and a Paper containing some proposed Amendments to the said Bill.

The said Message being read, is as follows, *viz.*

GENTLEMEN,

'IN Answer to your Message of the Twenty-fifth of *May* last, I now send you down the Bill, entituled, *An Act for striking the Sum of* Twenty Thousand Pounds, *to be made current and emitted on Loan, and for re-emitting and continuing the Currency of the Bills of Credit of this Province*, with some few Amendments, to which I presume you can have no Objection. A Message from the Governor to the Assembly.

'I cannot, however, but acquaint you, that in giving my Assent to this Bill, I have acted rather in Compliance to your repeated Applications, than that, in my own Judgment, I could think an Addition to our Currency at this Time absolutely necessary; I am in Hopes nevertheless, that as the Sum to be emitted is not exorbitant, it may be attended with no bad Consequences to the Province.

August 29, 1753. *JAMES HAMILTON.*"

The Secretary also delivered at the Table a Message from the Governor on *Indian* Affairs, which was read, and is as follows, *viz.*

GENTLEMEN,

'SINCE your Recess I have waited in almost daily Expectation of receiving such circumstantial Accounts of *Indian* Affairs, either by immediate Application from themselves, or by Information of the most intelligent among the Traders, as that, in disposing of the Money voted for *Indian* Services, I might best consult the Interest of the Province, and fulfil the Intention of the Trust reposed in me. A Message from the Governor to the Assembly.

'I am now to acquaint you, that no Application hath been yet made to me for any Purpose whatever, either by the *Indians* at *Onondago*, or those at *Ohio*; nor have I received such well grounded Advices of their Wants or Distresses of any Kind, as to induce me to make Use of the Credit you invested me with at your last Sessions. But that I may be perfectly satisfied of the Minds of the *Six Nations*, and of the true Situation of their Affairs, I dispatched Mr. *Weiser* the latter End of the last Month to the *Onondago* Country, for Intelligence upon all such Points as may be necessary for me to know, intending to take my Measures from the Advices he shall bring from thence.

'The Sum appropriated for a Present of Condolence to the *Twightwees* should have been long since laid out in Goods, suitable to the Occasion, and sent them; but it having been represented, by all who came from the Westward, that the *French* were on their March to *Ohio*, and had dispatched before them several Parties of their *Indians*, I thought the sending them under these Circumstances would be attended with too great a Risk of their falling into the Enemies Hands, together with the Persons employed in transporting them through so large an Extent of Country; being well assured, that, unless the Present be delivered to them in one of their own Towns, it will be liable to great Embezzlement, as well as fall short of its intended Effect. When these Difficulties are removed, the Present shall be forthwith transmitted to them.

August 29, 1753. *JAMES HAMILTON.*"

The House took into Consideration the Amendments proposed by the Governor to the Bill for striking *Twenty Thousand Pounds*, to be made current and emitted on Loan, and for re-emitting and continuing the Currency of the Bills of Credit of this Province; and, after some Time spent therein, the further Consideration thereof was referred to To-morrow Morning.

William Craig and *John Jones* are ordered to attend the House To-morrow Morning.

Then the House adjourned to Ten o'Clock To-morrow Morning. Adjournment

John Jones and *William Craig* attending, were called in; and the ſaid *Craig* having, by Permiſſion of the Houſe, ſpoke to ſeveral Particulars contained in *Jones's* Petition, in order to invalidate the ſame; and both Parties having offered what they had to ſay, and anſwered ſuch Interrogatories as were put to them by this Houſe, they were ordered to withdraw, and to attend the Houſe again To-morrow Morning.

Ordered, That the ſaid *William Craig* be ſeverely reprimanded from the Chair, for the Contempt ſhewn to the Order of the Committee of Grievances, in not attending at the Time they appointed him, nor ſending any Reaſons to excuſe his Abſence.

And the ſaid *Craig* being called in, did accordingly receive a ſevere Reprimand from the Speaker in the Chair; and acknowledging his Fault, and promiſing to behave in ſuch a Manner as to give no Cauſe of Complaint for the future, he was diſmiſſed.

And whereas many and great Inconveniencies have arisen in some of his Majesty's Colonies and Plantations in *America*, by passing Laws for striking Bills of Credit, and issuing out the same in Lieu of Money, making it obligatory on all Persons to take such Bills in Payment of Debts, Dues and Demands, whereby the good Intention of the aforementioned Act of the Sixth of her late Majesty Queen ANNE, "For ascertaining "the Rates of foreign Coins in her Majesty's Plantations in *America*," has been frustrated, and a great Discouragement has been brought on the Commerce of this Kingdom, by occasioning a Confusion in Dealings, and a Lessening of Credit in those Parts: And whereas an humble Address was presented the last Session by the House of Commons to his Majesty, to the Effect following, *viz.* "That he would be graciously "pleased to require and command the respective Governors of his Colonies and Plantations in *America* not to give Assent to, or pass, any Act, whereby Bills of Credit "may be struck, or issued, in Lieu of Money, without a Clause be inserted in such "Act, declaring, that the same shall not take Effect until the said Act shall be approved "by his Majesty."

It is therefore his Majesty's Will and Pleasure, and you are hereby required, upon Pain of his Majesty's highest Displeasure, not to give your Assent to, or pass, any Act, whereby Bills of Credit may be issued, in Lieu of Money, without a Clause be inserted in such Act, declaring that the same shall not take Effect until the said Act shall be approved by his Majesty, his Heirs, or Successors.

The Paper of propoſed Amendments, ſent down Yeſternight by the Governor, with the Bill for ſtriking *Twenty Thouſand Pounds*, to be made current and emitted on Loan, and for re-emitting and continuing the Currency of the Bills of Credit of this Province, being again read, and conſidered;

The Meſſage from the Governor of the Twenty-ninth of *Auguſt* laſt, on *Indian* Affairs, was again read, and conſidered, and referred to further Conſideration.

Adjournment. Then the Houſe adjourned to next *Second-day*, at Three o'Clock, *P. M.*

September 3. The Houſe met, according to their Adjournment.

The Committee appointed to conſider the Clauſe propoſed by the Governor to be added to the Bill for ſtriking *Twenty Thouſand Pounds*, to be made current and emitted on Loan, and for re-emitting and continuing the Currency of the Bills of Credit of this Province, made their Report in Writing, which was read, and is as follows, *viz.*

Report from the Committe on the Bill for ſtriking *Twenty Thouſand Pounds.*

WE have conſidered the additional Clauſe propoſed by the Governor to be added to the Bill, entituled, *An Act for ſtriking the Sum of* Twenty Thouſand Pounds, *to be made current and emitted on Loan, and for re-emitting and continuing the Currency of the Bills of Credit of this Province*; and have alſo examined the Clauſe with the additional Inſtruction from the Lords Juſtices to Colonel *Thomas*, our late Governor; on which the Governor has been pleaſed to ground his Reaſons for not paſſing that Bill as it now ſtands; as likewiſe the Royal and Provincial Charters, ſo far as concerns the Amendment under your immediate Conſideration. And in Obedience to the Order of the Houſe we do report,

That we find the Clauſe to be added to the Bill is as follows, *viz.* "Provided al- "ways, and it is hereby further enacted by the Authority aforeſaid, that this Act, or "any Thing therein contained, ſhall not take Effect, or be deemed, or conſtrued, or "taken, to have any Force or Effect, until the ſame ſhall have received the Royal Ap- "probation of his Majeſty, his Heirs, or Succeſſors."

That, upon conſidering this Clauſe, the Houſe unanimouſly agreed to return the Bill with the following Objections, *viz.* "That the Houſe cannot agree to this Amend- "ment, becauſe we apprehend the Clauſe deſtructive of the Liberties derived to us by "the Royal and Provincial Charters, as well as injurious to the Proprietaries Rights, "and without any Precedent in the Laws of this Province."

That the Governor has been pleaſed again to ſend down the Bill, with his Reaſons for adhering to the Amendment in theſe Words, "The Clauſe propoſed to be added to "the Bill to which the Houſe objects, is founded on an Inſtruction from their Excel- "lencies the Lords of the Regency of *Great-Britain*, in Purſuance of an Addreſs to his "Majeſty from the Honourable Houſe of Commons, in the Year 1740, which Inſtruc- "tion has been long known in this Province, having been communicated to a former "Aſſembly by the late Governor, in the Month of *January* of that Year, and is now "again ſent down for the Peruſal of the Houſe. — Hence they will ſee the Reaſon for "my having added the forementioned Clauſe, from which I cannot allow myſelf the "Liberty of receding." Upon which State of the Queſtion now before the Houſe, your Committee beg Leave to remark,

1. That the Inſtruction referred to by the Governor, is by the Lords Juſtices, and expreſly, declared to be an "additional Inſtruction to *G. Thomas*, Eſq; Deputy-Governor "of his Majeſty's Province of *Pennſylvania*;" dated at *Whitehall*, *Auguſt* 21, 1740.

2. That it was in Purſuance of an Addreſs of the Houſe of Commons to his Majeſty, on the 25th of *April* the ſame Year.

3. That by a Letter from the Board of Trade to our late Governor, dated *May* 20, 1740, mentioned to be in Purſuance of the ſame Addreſs of the Houſe of Commons, the then

then Governor was directed immediately to prepare, and as ſoon as poſſible to tranſmit (to that Board) in order to be laid before the Houſe of Commons at their next Meeting, an Account of the Tenor and Amount of the Bills of Credit which had been created and iſſued (in this Province) that were then outſtanding; with the Amount of ſuch Bills in Money of *Great-Britain*. And likewiſe to ſend his Opinion, what would be the moſt eaſy and effectual Manner of ſinking and diſcharging all ſuch Bills of Credit, with the leaſt Prejudice to the Inhabitants (of this Province) and Interruption to the Commerce of *Great-Britain*. 1753. *September* 3.

4. That, in Purſuance of the ſaid Order, the Aſſembly on the 8th of *January* 1740 furniſhed the Governor with the State of our Paper Currency, to be tranſmitted to the Lords for Trade and Plantations, although he had received from the Repreſentatives of the preceding Year a full and impartial Account of all the Bills of Credit then current; and an Account of the Rates of Gold and Silver, from the Year 1700 to that Time, ſtated and tranſmitted in Compliance with the Directions of the Board of Trade, dated *July* 5, 1739, founded upon two Addreſſes from the Houſe of Lords, and two Addreſſes from the Houſe of Commons, of the 13th of *June* preceding, as appears by the Minutes of this Houſe. And again upon the Duke of *Bedford's* Letter to our preſent Governor, in Purſuance of an Addreſs from the Houſe of Commons to the King, upon the 30th of *May* 1749, the Aſſembly drew up, with great Care and Exactneſs, a third State of our Bills of Credit, the Times appointed by Law for paying in and ſinking the ſame, and the Value of the whole Sum in Sterling Money of *Great-Britain*, which they preſented to the Governor on the 18th of *October* 1749, with a Meſſage, recommending it to his Care to be tranſmitted purſuant to the Directions he had received.

5. That your Committee are well aſſured theſe ſeveral States of our Paper Currency, and the laſt particularly, have been tranſmitted, and carefully examined by the Houſe of Commons on the 15th of *March* 1750, and from thence repeatedly to the End of that Seſſions of Parliament, as is evident from the Votes of the Houſe of Commons, where it appears, on that Day, "That Mr. Comptroller preſented to the Houſe, pur-" ſuant to their Addreſs to his Majeſty of the 30th of *May* 1749, the State of *New-*" *Jerſey* Currency, the State of *Rhode-Iſland* Currency, the State of *North-Carolina* " Currency, the State of *South-Carolina* Currency, the State of *Pennſylvania* Currency, " the State of the Currency of the Counties of *New-Caſtle*, *Kent* and *Suſſex*, the State " of *New-Hampſhire* Currency, the State of *Maſſachuſetts-Bay* Currency, and the State " of *New-York* Currency;" all which ſaid States were ordered to lie upon the Table, to be peruſed by the Members of the Houſe: The Reſult of which Examination terminated in a Bill, entituled, *An Act to reſtrain Paper Bills of Credit in his Majeſty's Colonies, or Plantations of* Rhode-Iſland *and* Providence *Plantations*, Connecticutt, *the* Maſſachuſetts Bay *and* New-Hampſhire, which paſſed the Houſe of Commons on the 10th, was agreed to by the Houſe of Lords on the 18th, and received the Royal Aſſent on the 25th of *June* 1751; by Means whereof, the other Colonies, notwithſtanding the ill Impreſſions the Conduct of ſome of them had made upon the Members of that honourable Houſe, were left in the full Poſſeſſion of their reſpective Rights, in regard to a Paper Currency, and continue ſo to this Day.

6. That the Governor, long ſince the Date of that Inſtruction, has received a Commiſſion from our Proprietaries, with the Approbation of the Crown; and we hope he is at full Liberty to paſs all our Laws upon the Terms granted us by the Royal and Provincial Charters, without thinking himſelf at all concerned in an additional Inſtruction, expreſly directed to a former Governor, the Subſtance of which has, many Years ſince, been printed with our Minutes; and which, as it was temporary, and the State of our Bills of Credit, to which it referred, has, ſince that Time, been ſo carefully examined, in a *Britiſh* Parliament, ſo much to our Advantage, we hope and preſume, has anſwered all the Purpoſes intended, without putting us under the diſagreeable Neceſſity of examining the Validity of that Inſtruction; and this we have the greater Reaſon to expect, when we conſider, that, upon the ſeveral Applications made to our Governor for an Addition to our Paper Currency, he has been pleaſed repeatedly to make Objections of different Kinds, and particularly when the Bill for reſtraining his Majeſty's Colonies in *America* from iſſuing Paper Bills of Credit, was brought into Parliament, he was of Opinion it would be highly imprudent to paſs a Law for encreaſing the Quantity of our Currency, " until ſuch Time as we were better acquainted of the Sentiments of our " Superiors upon a Subject they had under their Conſideration," but 'till now has never made the leaſt Mention of inſerting ſuch a Clauſe.

7. That, upon examining the Royal and Provincial Charters, we find, that, among other great Privileges, King CHARLES II. granted to our late worthy Proprietary, "and " his Heirs, to his and their Deputies and Lieutenants, for the good and happy Go-" vernment of the ſaid Country, to ordain, make and enact, and under his and their " Seals to publiſh, any Laws whatſoever, for the raiſing of Money for public Uſes of " the ſaid Province, or for any other End appertaining either unto the Public State,

" Peace

1753. September 3.

" Peace or Safety of the ſaid Country, or unto the private Utility of particular Perſons, " according to their beſt Diſcretion, by and with the Advice, Aſſent and Approbation " of the Freemen of the ſaid Country, or the greater Part of them, or of their Dele- " gates or Deputies, whom, for the enacting of the ſaid Laws, when, and as often as " Need ſhall require, we will that the ſaid WILLIAM PENN, and his Heirs, ſhall aſ- " ſemble in ſuch Sort and Form as to him and them ſhall ſeem beſt, and the ſame " Laws duly to execute unto and upon all People within the ſaid Country and Limits " thereof; which Laws, ſo as aforeſaid to be publiſhed, our Pleaſure is, and ſo we en- " join, require and command ſhall be moſt abſolute and available in Law; and that " all the Liege People and Subjects of us, our Heirs and Succeſſors, do obſerve and " keep the ſame inviolably in thoſe Parts, ſo far as they concern them, under the Pain " therein expreſſed, or to be expreſſed; provided nevertheleſs, that the ſame Laws be " conſonant to Reaſon, and not repugnant, or contrary, but, as near as conveniently " may be, agreeable to the Laws and Statutes, and Rights of this our Kingdom of " *England*. And to the End that the ſaid WILLIAM PENN, or his Heirs, or other the " Planters, Owners or Inhabitants of the ſaid Province, may not, at any Time hereaf- " ter, by Miſconſtruction of the Power aforeſaid, through Inadvertency or Deſign, de- " part from that Faith and due Allegiance, which, by the Laws of this our Realm " of *England*, they and all our Subjects in our Dominions and Territories, always owe " to us, our Heirs and Succeſſors, by Colour of any Extent or Largeneſs of Powers " hereby given, or pretended to be given, or by Force or Colour of any Laws hereafter " to be made in the ſaid Province, by Virtue of any ſuch Powers: Our further Will " and Pleaſure is, that a Tranſcript or Duplicate of all Laws which ſhall be, ſo as afore- " ſaid, made and publiſhed within the ſaid Province, ſhall, within five Years after the " Making thereof, be tranſmitted and delivered to the Privy Council for the Time being, " of us, our Heirs and Succeſſors; and if any of the ſaid Laws, within the Space of " ſix Months after that they ſhall be ſo tranſmitted and delivered, be declared by us, " our Heirs and Succeſſors, in our or their Privy Council, inconſiſtent with the So- " vereignty or lawful Prerogative of us, our Heirs or Succeſſors, or contrary to the " Faith and Allegiance due to the legal Government of this Realm from the ſaid WIL- " LIAM PENN, or his Heirs, or of the Planters and Inhabitants of the ſaid Province; " and that thereupon any of the ſaid Laws ſhall be adjudged and declared to be void by " us, our Heirs and Succeſſors, under our or their Privy Seal, that then, and from " thenceforth, ſuch Laws concerning which ſuch Judgment and Declaration ſhall be " made, ſhall become void; otherwiſe the ſaid Laws ſo tranſmitted, ſhall remain and " ſtand in full Force, according to the true Intent and Meaning thereof." Under this Royal Grant, and our Provincial Charter, by which the Proprietary confirms them to the Freemen of this Province, we claim our Privileges. How far the Clauſe propoſed to be added to the Bill is deſtructive of thoſe Privileges, we leave to the Houſe to determine; and how far the Proprietaries may apprehend it injurious to their Rights, we preſume will appear by the Minutes of this Houſe, whilſt the Bill above-mentioned, for reſtraining Bills of Credit in the Plantations, was depending. That Bill, or one of the ſame Tenor nearly, was firſt framed in the Year 1744, again re-aſſumed in 1748, and at length rejected by the Juſtice of a *Britiſh* Parliament; but as it was brought into the Houſe, and for ſome Time ſupported by ſeveral Members of great Weight and Influence, the Fears of that Bill became very alarming, and this the Governor himſelf ſeems to have been very ſenſible of, in his Meſſage of the 16th of *October* 1749, in which he is pleaſed to ſay, " I take it for granted, we are all ſenſible of the miſchievous Ten- " dency of the Bill that was brought into Parliament the laſt Year, to regulate and re- " ſtrain Paper Bills of Credit in the Plantations (*in which there was a Clauſe to enforce* " *the Orders of the Crown in his* American *Dominions)* and it is not improbable that " ſomething of the ſame Kind may be offered in the enſuing Seſſion; I perſuade myſelf " you will think it convenient to give your Agent full Inſtructions upon this Subject, " in caſe it ſhould become neceſſary for him to oppoſe it; the Honourable Proprieta- " ries at that Time laboured indefatigably, and with Succeſs, to avert the Miſchiefs " that threatened this Province from the Paſſing of the ſaid Bill; and I have it in Com- " mand from them to aſſure you of their Aſſiſtance upon all future Occaſions, wherein " the Welfare and Happineſs of the People of this Province may be concerned."

Having thus conſidered the Clauſe, as founded upon an additional Inſtruction from the Lords Juſtices to Governor *Thomas*, near thirteen Years ago, and long before the Settling the States of the Bills of Credit in the *American* Plantations; and alſo laid before the Houſe ſo much of the Royal Charter as immediately concerns the propoſed Amendment: Your Committee beg Leave to add, that we have likewiſe examined the Laws of this Province, a conſiderable Number of which were enacted by Governor *Fletcher*, under the immediate Powers of the Crown, and are well aſſured, that there has never been one ſingle Inſtance of the paſſing of any Law under the Reſtrictions now

contended

contended for by the Governor, from the first Settlement of this Province to the present Time. All which is submitted to the Consideration of the House by 1753. September 3.

EVAN MORGAN, PETER WORRAL,

HUGH ROBERTS, JOSEPH ARMSTRONG,
MAHLON KIRKBRIDE, MOSES STARR,

Ordered to lie on the Table.

Then the House adjourned to Ten o'Clock To-morrow Morning. Adjournment

The Report of the Committee appointed to consider the Clause proposed by the Governor to be added to the Bill for striking *Twenty Thousand Pounds*, to be made current and emitted on Loan, and for re-emitting and continuing the Currency of the Bills of Credit of this Province, was again read; and, after a considerable Time spent in Consideration thereof, was unanimously approved and agreed to by the House. *September* 4.

And the said Clause being also read,

Resolved, That such a Clause would be destructive of the Liberties derived to the People of this Province by the Royal and Provincial Charters, as well as injurious to the Proprietaries Rights, and is without any Precedent in the Laws of this Province.

The Governor's Message of the Twenty-ninth of last Month, sent down with the Bill for striking *Twenty Thousand Pounds*, to be made current and emitted on Loan, and for re-emitting and continuing the Currency of the Bills of Credit of this Province, being also read;

Ordered, That *Evan Morgan*, *Benjamin Franklin*, *Hugh Roberts*, *Mahlon Kirkbride* and *George Ashbridge* be a Committee to prepare a Draught of a Message in Answer thereto, and report the same to the House this Afternoon.

Ordered, That the Clerk do go to the Secretary, and acquaint him, that the House require a Copy of the King's Approbation of the Act, intituled, *An Act for granting* Five Thousand Pounds *to the King's Use, out of the Bills of Credit now remaining in the Hands of the Trustees of the General Loan-Office, for exchanging torn and ragged Bills, and for striking the like Sum to replace in their Hands*, if any such there be.

Then the House adjourned to Three o'Clock, *P. M.* Adjournment

The Committee appointed to prepare a Draught of an Answer to the Governor's Message, report, that they had made some Progress therein, but not having compleated the same, desired farther Time for that Purpose; *Post Meridiem*

To which the House agreed.

The Clerk acquainted the House, that the Secretary informed him, that he had no Copy of the King's Approbation of the Act, intituled, *An Act for granting* Five Thousand Pounds *to the King's Use, out of the Bills of Credit now remaining in the Hands of the Trustees of the General Loan-Office, for exchanging torn and ragged Bills, and for striking the like Sum to replace in their Hands*; and that he believed the said Act had never been transmitted.

Then the House adjourned to Ten o'Clock To-morrow Morning. Adjournment

The Governor, by his Secretary, sent down to the House *Conrad Weiser's* Journal of his Journey to *Albany* and the *Mohocks* Country, together with sundry other Papers relating to *Indian* Affairs, which were read, and *Ordered to lie on the Table.* *September* 5.

The Secretary likewise acquainted the House, that the Governor had directed *Conrad Weiser* to attend the House, in case they should have any Questions to ask him.

The Committee appointed to prepare a Draught of an Answer to the Governor's Message, reported the same to the House, which was read, Paragraph by Paragraph, approved of, and ordered to be transcribed.

Then the House adjourned to Three o'Clock, *P. M.* Adjournment

The Message to the Governor being transcribed, was again read, and follows in these Words, *viz.* *Post Meridiem*

May it please the GOVERNOR,

UPON receiving a Message from the Governor of the Twenty-ninth of *August* last, with some few Amendments to the Bill for striking *Twenty Thousand Pounds*, to be added to the present Currency of this Province, which the Governor is pleased to acknowledge is not an exorbitant Sum, and to which Amendments he presumed we could have no Objection, we were in Hopes that the repeated Applications of this, and our preceding Assemblies, had induced him at length to give his Assent to the Bill upon such Terms as the House might comply with, consistent with their Honour, and the Trust reposed in them by their Constituents: But we are under the Necessity of assureing the Governor, the Clause proposed to be added to that Bill is so far from being free from Objections, that we apprehend it to be destructive of the Liberties granted to the People of this Province by the Royal and Provincial Charters, and injurious to the Proprietaries Rights; and as such we have unanimously resolved it upon the Re- A Message from the Assembly to the Governor.

1753. *September* 5. port of a Committee of this Houſe; to whoſe Care we had alſo recommended the Examination of our Laws, a conſiderable Nnmber of which were enacted under the immediate Powers of the Crown; and we are well aſſured, there has never been one ſingle Inſtance of the paſſing of any Law under the Reſtrictions now contended for by the Governor from the firſt Settlement of our Province to this Day. This has led us into an Enquiry, why ſo dangerous an Experiment ſhould be now preſſed upon us, as we conceive, without the leaſt apparent Neceſſity.

The Governor, it is true, has been pleaſed to inform us, that it is founded upon an Inſtruction from the Lords Juſtices to the late Governor; but we intreat he would conſider, how far an additional Inſtruction, dated in 1740, expreſly directed to a former Governor, and which in its own Nature appears temporary, and the Ends long ſince anſwered, can be binding upon him.

That though it was directed to a Governor of this Province, it neither did, nor could ſuit our Circumſtances either at that Time, or any other Time before or ſince; that it was temporary, and that the Ends propoſed by that Inſtruction have been anſwered, appear very clear to us when we conſider, that the effectual putting in Execution the Act of the Sixth of Queen ANNE, for aſcertaining the Rates of foreign Coins in *America*, the various and illegal Currencies introduced in ſeveral of the Colonies, the miſerable Defection from that Act, as well as the reſpective Acts by which ſuch Currencies were originally iſſued, the Diſcouragement it brought on the Commerce of *Great-Britain*, the Confuſion in Dealings, and the Leſſening of Credit in thoſe Parts, are the Foundations both of the Addreſs of the Houſe of Commons to the King, and in Purſuance of that Addreſs, of the additional Inſtruction, to which the Governor is pleaſed to refer.

That this could never ſuit our Province at any Period ſince the Emiſſion of our Bills of Credit, muſt be very apparent to the Governor himſelf, and is moſt clearly demonſtrable from the Dates of the Addreſs of the Houſe of Commons, and additional Inſtruction, with the Report of the Board of Trade, and Royal Aſſent to the Act for emitting the largeſt Sum of Bills of Credit that had ever been current amongſt us.

The Addreſs of the Houſe of Commons we find to be on the 25th of *April*, 1740, the additional Inſtruction on the 21ſt of *Auguſt* following, founded upon that Addreſs; and about the ſame Time, *to wit*, on the 16th Day of *April*, 1740, the Lords of Trade upon the Act *for the more effectual preſerving the Credit of our Paper Money*, &c. and the Act *for reprinting, exchanging and re-emitting all the Bills of Credit, and for ſtriking the further Sum of* Eleven Thouſand One Hundred *and* Ten Pounds Five Shillings, *&c.* report, " that as theſe Acts relate to Paper Money, they took the Senſe of the Mer- ' chants trading to that Province upon them, who were of Opinion, that they were not ' only reaſonable, but likewiſe neceſſary for carrying on the Commerce of that Country;" and in Purſuance of that Report, on the 12th Day of *May*, 1740, the King was graciouſly pleaſed to confirm thoſe Acts in a full Council.

If then the Governor will be pleaſed to compare the Dates of the Report of the Board of Trade with the Addreſs of the Houſe of Commons, the Confirmation of our Paper Money Acts, and the Lords Juſtices Inſtruction, we make no Doubt he muſt be ſenſible, that Bills of Credit, emitted in Virtue of Laws reported to be not only reaſonable, but the Sum itſelf ſo emitted neceſſary for carrying on the Commerce of the Country, cannot poſſibly agree with Bills of Credit illegally iſſued, by Means whereof the Trade of *Great-Britain* is diſcouraged, Confuſion in Dealings introduced, and all Credit leſſened; and in Conſequence the Inſtruction, or the Addreſs of the Houſe of Commons, could not poſſibly ſuit the Circumſtances of this Province at that Time.

To evidence this more clearly, if that can be, the Report of the Board of Trade to the Houſe of Commons the Twenty-firſt of *January*, 1740, ſets forth, that in Purſuance of the Addreſs abovementioned, on the Twenty-fifth of *April* preceding, his Majeſty had been pleaſed to direct them to prepare, in order to lay before the then Seſſions of Parliament, an Account of the Tenour and Amount of the Bills of Credit which had been iſſued in the ſeveral *Britiſh* Colonies, *&c.* Whereupon they did immediately ſend circular Letters to all the Governors of his Majeſty's Plantations in *America*, reciting the ſaid Addreſs, and directing them forthwith to prepare and tranſmit the ſeveral Accounts therein required, as by a Copy of one of the ſaid circular Letters, which they had thereunto annexed, would more fully appear; from whence it is unqueſtionably clear, that the Lords of Trade formed one circular Letter to be ſent through all the Colonies however differently circumſtanced; and this nearly in the Terms both of the Inſtruction of the Lords Juſtices, and of the Addreſs of that Honourable Houſe, on the 25th of *April* preceding; although at the ſame Time they acknowledge, that being deſtitute of proper Information, it could not be expected they ſhould be able to lay before the Houſe an adequate Remedy for the Evils complained of, and the rather becauſe the Circumſtances of the ſeveral Provinces being various and very different, each Province might require a diſtinct Conſideration. But they proceed to ſay, being deſirous as far as in them

them lay, to comply with the Intentions of the Houſe, they would humbly propoſe that his Majeſty would be graciouſly pleaſed to *repeat* his Orders to *his Governors* of the Plantations, not to give their Aſſent for the future to any Bill or Bills, for iſſuing or re-iſſuing of Paper Money in any of their reſpective Governments, without a Clauſe be inſerted in ſuch Act, declaring that the ſame ſhall not take Effect, until the ſaid Act ſhall be approved by his Majeſty; and then add, 'We hope theſe Propoſitions for reducing and 'diſcharging the Paper Currency in the Plantations, may have a good Effect in thoſe 'Governments which are held by immediate Commiſſion under his Majeſty, but we are 'very doubtful whether they will produce the like Effect in the Charter Governments, 'who do apprehend themſelves, by their particular Charters and Conſtitutions, to be 'very little dependant upon the Crown, and for that Reaſon ſeldom pay that Obedience 'to his Majeſty's Orders, which might reaſonably be expected from them."

1753. *September* 5.

That the Board of Trade ſhould conſider and report this to the Houſe of Commons as a doubtful Expedient; that a Bill to inforce the Orders and Inſtructions of the Crown in *America*, ſhould have been ſince repeatedly brought into the Houſe, and though ſupported by Members of great Weight and Influence, at length rejected by the Juſtice of a *Britiſh* Parliament; that the Governor himſelf ſhould have repreſented this very Bill to the Aſſembly of this Province as a Bill, he took for granted, they were all ſenſible to be of a miſchievous Tendency, and would give their Agent full Inſtructions to oppoſe, ſhould it become neceſſary; that the Honourable Proprietaries had laboured indefatigably, and with Succeſs, to avert the Miſchiefs threatened this Province from the paſſing of that Bill, and had it in Command from them to aſſure that Aſſembly of their Aſſiſtance upon all future Occaſions, wherein the Welfare and Happineſs of the People of this Province might be concerned; that this ſhould be ſo in the Year 1749, and nevertheleſs that the Governor ſhould be now pleaſed, without any apparent Neceſſity, to contend for the propoſed Amendment, we own we are at a Loſs to underſtand.

That the Inſtruction was deſigned as a temporary Expedient, we think will appear from the Report of the Board of Trade, on the Twenty-firſt of *January*, 1740, abovementioned, five Months after the Date of the additional Inſtruction from the Lords Juſtices; at which Time that Board had not received Returns in Anſwer to their circular Letters, from any of his Majeſty's Governors, on that Subject, except only from the Lieutenant Governor of *New-York*; in this Uncertainty, deſtitute, as they report, of proper Information, they propoſe that his Majeſty would be pleaſed to *repeat* his Orders to his Governors of Plantations, not to give their Aſſent to any Paper Money Bills for the future, without the Clauſe as above; but notwithſtanding this was addreſſed to the Houſe of Commons, at the next Seſſions after the Date of the additional Inſtruction to Governor *Thomas*, which had taken its Riſe from an Addreſs of that Honourable Houſe, in their preceding Seſſions, we cannot learn, and have good Reaſon to believe the Crown has never been pleaſed to repeat thoſe Orders, at leaſt to the Governors of this Province.

That the Ends propoſed by that additional Inſtruction have been anſwered by the full Examination of all the States of Bills of Credit in the *American* Plantations by the Parliament, and an Act in Purſuance of that Enquiry, paſſed in the Year 1751, appears clear to us from the Report of our Committee; and that, ſince the paſſing of that Act, we are left in the full Poſſeſſion of our Rights, in regard to a Paper Currency, we doubt not the Governor will concur with the Sentiments of this Houſe.

The Governor, long ſince the Date of that Inſtruction, has received a Commiſſion from our Proprietaries, with the Approbation of the Crown, and we hope and preſume, he is at full Liberty to paſs all our Acts upon the Terms granted us by the Royal and Provincial Charters; and as the additional Inſtruction, upon which the Governor has been pleaſed to ground his Amendment propoſed to our Bill, appears long ſince to have anſwered the Ends propoſed, we hope the Governor will think that neither himſelf or the Freemen of this Province are at this Time at all concerned therein, and will not put us under the diſagreeable Neceſſity of examining the Validity of that Inſtruction; but that he will be now pleaſed to comply with the general Voice of the People, and the repeated unanimous Applications of their Repreſentatives, in granting them, and the Trade of this Province, this reaſonable Relief, by giving his Aſſent to the Bill as it now ſtands."

And the Meſſage being ſigned by the Speaker by Order of the Houſe;

Ordered, That *Richard Walker* and *James Burnſides* wait upon the Governor, and deliver the ſame, together with the Bill for ſtriking *Twenty Thouſand Pounds*, to be made current and emitted on Loan, and for re-emitting and continuing the Currency of the Bills of Credit of this Province.

Then the Houſe adjourned to Ten o'Clock To-morrow Morning.

Adjournment *September* 6.

1753. *September* 6. Province, report, that they had delivered the ſame according to Order, and that the Governor was pleaſed to ſay, he would take the ſame into Conſideration, and return an Anſwer to the Houſe, if he found it required one.

The Committee appointed to audit and ſettle the public Accounts, made their Report in Writing, which was read, and ordered to lie on the Table for the Peruſal of the Members.

Ordered, That *William Hoge* have Leave to be abſent the Remainder of this Sitting, upon an extraordinary Occaſion.

The Meſſage from the Governor, on *Indian* Affairs, was again read, and conſidered, and referred to further Conſideration.

Adjournment *Poſt Meridiem* Then the Houſe adjourned to Three o'Clock, *P. M.*

Ordered, That the Clerk do acquaint *Conrad Weiſer*, that the Houſe require his Attendance To-morrow Morning.

Ordered, That the Clerk do make out a Liſt of thoſe Matters that were referred to the Conſideration of this Sitting of Aſſembly, and lay it before the Houſe To-morrow Morning.

Adjournment Then the Houſe adjourned to Ten o'Clock To-morrow Morning.

September 7. *Conrad Weiſer* is excuſed attending this Houſe on Account of his ill State of Health.

The Clerk, according to Order, laid before the Houſe a Liſt of the ſeveral Things referred to this Sitting of Aſſembly.

A Petition from *Joſeph Redman*, Collector of the Exciſe for the City and County of *Philadelphia*, was preſented to the Houſe and read, ſetting forth, that at the Time of his coming to the ſaid Office, there was delivered to him, by the Provincial Treaſurer, a Liſt of outſtanding Debts, due to the former Collector, amounting to *Eight Hundred* and *Thirty-two Pounds*; that the Petitioner hath collected thereof *Six Hundred* and *Seventy-five Pounds*; in the doing of which he has been at a great deal of Trouble and Expence, as the ſaid Debts were ſmall, and lay in many Perſons Hands, throughout the whole County; that he humbly conceives the uſual Commiſſion of *Five per Cent*, to be by no Means an adequate Compenſation for the ſame: Therefore he prays this Houſe would allow him ſuch further Sum for his ſaid Trouble and Expence as they in their Wiſdom ſhall think moſt meet.

Ordered, That the ſaid Petition be referred to the Committee of Accounts, who are to report what they think neceſſary to be done therein by the Houſe.

It being certified to this Houſe, that one *Patrick Kearn*, of *Kent* County in *Maryland*, had apprehended, and delivered to Juſtice, one of the Perſons, ſince executed for the Murder of *Eleanor Davis*;

Ordered, That the Sum of *Fifty Pounds*, as voted by the laſt Aſſembly for the Apprehending and Securing any one of the ſaid Murderers, be paid into the Hands of *Benjamin Franklin*, one of the Members of this Houſe, he being impowered by a Letter of Attorney to receive the ſame.

Ordered, That the Bill for the better regulating of Vendues;

The Bill to prevent the Exportation of Wheat, Indian Corn, Flaxſeed, and other Grain, and of Shingles, Staves, Heading, Boards and Timber, not merchantable; and to appoint an Officer to meaſure Salt imported into this Province; and

The Petition againſt Gaming and Gaming Houſes; which were all referred to the Conſideration of this Houſe, be recommended to the Conſideration of the next ſucceeding Aſſembly.

The Petition from *Bucks* County, relating to the holding of Supreme Courts in *Philadelphia* County, was read, and referred to the Conſideration of the next ſucceeding Aſſembly.

Adjournment *Poſt Meridiem* Then the Houſe adjourned to Three o'Clock, *P. M.*

The Governor, by his Secretary, ſent down the Bill for ſtriking *Twenty Thouſand Pounds*, to be made current and emitted on Loan, and for re-emitting and continuing the Currency of the Bills of Credit of this Province, with a written Meſſage, as follows, *viz.*

GENTLEMEN,

A Meſſage from the Governor to the Aſſembly.

'WHEN I ſent down the Bill for ſtriking *Twenty Thouſand Pounds*, to be made 'current and emitted on Loan, and for re-emitting and continuing the Currency 'of the Bills of Credit of this Province, I had not the leaſt Apprehenſion that the 'Amendments by me propoſed could have rendered it conſiſtent with the Honour of the 'Houſe, or of the Truſt repoſed in them by their Conſtituents, to have accepted it; 'eſpecially as, on inſpecting the Journals of your Houſe of the Year 1746, I find, that 'when the ſame Inſtruction, in a Caſe of the like Kind, was then urged upon the Aſ-

'ſembly

1753. September 7.

'ſembly by the late Governor, they were ſo far from diſputing, that they appear clearly to have admitted the Validity of it in *ordinary Caſes*, and, at that Time, only *hoped* the then Governor, on re-conſidering the Royal Inſtruction, might think himſelf at Liberty to give his Aſſent to a Bill for ſtriking a further Sum of Money in Bills of Credit *when any extraordinary Emergency required it*. Hence it ſeems plain, that they did not then think his Majeſty's Inſtruction, founded on an Addreſs of the Houſe of Commons, either illegal or temporary, or *that it was deſtructive of the Liberties granted to the People of this Province*; otherwiſe, in Duty to their Conſtituents, they would undoubtedly have repreſented it in the Light you now do. If theſe then were the Sentiments of both Governor and Aſſembly at that Time, and if they would not venture upon an Emiſſion even of ſo ſmall a Sum as *Five Thouſand Pounds*, in a Caſe of ſo real Emergency as the Expedition againſt *Canada*, without immediately providing to ſink it by a Tax in a ſhort Space of Time, to what Purpoſe is it inſinuated, as if I was the firſt to preſs ſo dangerous an Experiment, without the leaſt apparent Neceſſity; when, in the Courſe of your Enquiries upon this Subject, the Tranſaction of the Year 1746 muſt needs have been well known to you?

'That there has not been an Inſtance of paſſing any Law in this Province under the Reſtrictions contained in the Amendment, may be very true; but I cannot think any Thing further is to be inferred from thence, than that no ſuch Inſtruction was ever ſent to the Governors of this Province before the Year 1740; otherwiſe, it is reaſonable to conclude, they would have paid the ſame dutiful Obedience to it as was done by your late Governor: Nor perhaps is a reſtraining Inſtruction ſo neceſſary upon any other Occaſion as in the Buſineſs of Money; over which the King having peculiar Prerogatives, may well think himſelf intitled to claim the Superintendance.

'I confeſs myſelf at a Loſs to conceive, how an Inſtruction, directed to a particular Governor by Name, or to the Commander in Chief of the ſame Province for the Time being, can be deemed to bind that particular Governor only, and not his Succeſſor; ſince, by that Way of Reaſoning, it is poſſible the King's Inſtructions, however neceſſary, urgent and well founded, might be altogether fruſtrated by the Death or Removal of the particular Perſon to whom they are by Name directed. I am perſuaded, that, upon Recollection, you cannot think there is much Weight in this Argument. And as to its being temporary in its own Nature, I am far from thinking that to be the Caſe, either from the Face of the Inſtruction, in which no Limitation of Time is expreſſed, or from your Reaſoning upon that Head. The ſeveral Reports, Addreſs and Royal Aſſent (except that of the 21ſt of *January*, 1740, in which the Charter Governments are mentioned not much to their Advantage) referred to in your Meſſage, though not ſet forth in their Order of Time, are all of them prior to the Royal Inſtruction; from whence it is natural to conclude, that although his Majeſty, upon the Report of the Lords of Trade, in our Favour, was graciouſly pleaſed to indulge us with the Sum of *Eighty Thouſand Pounds*, as being a juſt Medium at that Time; yet being made acquainted with the Abuſes that had crept into ſome other of his Colonies by immoderate Quantities of Paper Money, and apprehending we might poſſibly run into the ſame Exceſs, iſſued this Inſtruction, with a View to reſtrain us from injuring ourſelves and the *Engliſh* Merchants by unneceſſary Emiſſions of Bills of Credit: Nor is it to be doubted, that if you can make it appear to his Majeſty's Miniſtry, that an Addition to your Currency would, at this Time, be of Service to the Province, the ſame Royal Favour will be again extended to you as was upon your laſt Application.

'You are pleaſed to acquaint me, that you are at a Loſs to underſtand why I, who, in the Year 1749, re-preſented a Bill, then depending in the Houſe of Commons, for inforcing the Orders and the Inſtructions of the Crown in *America*, to be of miſchievous Tendency, ſhould now, without any apparent Neceſſity, contend for the propoſed Amendment. In Anſwer to which, I now inform you, that I am ſtill of the ſame Opinion, with regard to that Bill, as at the Time you mention: But ſurely a very moderate Share of Penetration is ſufficient to diſtinguiſh between an Act to inforce all Orders and Inſtructions of the Crown, of whatever Nature, and a Royal Inſtruction, founded on an Addreſs of Parliament, that only relates to one particular Point, in which his Majeſty's Prerogative may be ſuppoſed to be concerned, and which, beſides, is plainly calculated to do Juſtice between Man and Man; and you will certainly allow me to judge for myſelf, of the Neceſſity I am under of paying Obedience to the King's Inſtruction, when a Diſregard of it is threatened with his Majeſty's higheſt Diſpleaſure.

'I do not by any Means blame you, Gentlemen, for contending for what you are perſuaded are your Rights and Privileges; and conſequently can have no Objection to your examining the Validity of the King's Inſtruction. One Precaution, however, I think it my Duty to lay before you, though I hope it is not neceſſary, that in the Courſe of this Examination, you will proceed with ſuch Temper and Moderation,

1753. September 7.

'that you may give the World no Room to repeat the Charge made againſt this Province among others, by the Lords of Trade, of *its apprehending itſelf to be very little dependant on the Crown, or of its not paying a reaſonable Obedience to his Majeſty's Orders.*

'Upon the Whole, I am ſincerely of Opinion, that the Royal Inſtruction is of the ſame Force at preſent as when the late Governor told the Aſſembly, in 1746, *that he could not bring himſelf to ſuch a Pitch of Boldneſs as to contravene it*; of which Opinion that Aſſembly ſeems alſo to have been, by their not having diſputed either the Validity of the Inſtruction, or the Continuance of its Operation. Why, therefore, an Inſtruction, allowed to be in Force in the Year 1746, and ſtill unrevoked, ſhould now be deemed to be of no Effect, though the State of our Paper Currency has not ſuffered the leaſt Alteration ſince that Time, is, what I own, I cannot comprehend; nor can I bring myſelf to think, that I may be ever freed from the Obligation of paying a ſtrict Obedience to it until the ſame ſhall be revoked, or that I may be otherwiſe diſcharged from it by his Majeſty's Authority.

'I have given both the People of this Province and their Repreſentatives too many Proofs of my Regard for their Liberties and Privileges, to have it ſuſpected that I am capable of entering into a Scheme to deprive them of either: Nor ſhall I ever ceaſe to do them all the Service in my Power, conſiſtent with the Duty I owe to his Majeſty, and the Rights of the honourable Gentlemen whoſe Commiſſion I have the Honour to bear.

September 7, 1753. *JAMES HAMILTON.*"

And the ſaid Meſſage being read, the Queſtion was put, whether the Clauſe propoſed by the Governor ſhall be added to the Bill for ſtriking *Twenty Thouſand Pounds*, to be made current and emitted on Loan, and for re-emitting and continuing the Currency of the Bills of Credit of this Province? *Paſt in the Negative unanimouſly.*

Ordered, That *Evan Morgan*, *Joſhua Morris*, *Benjamin Franklin*, *Hugh Roberts*, *Mahlon Kirkbride*, *Richard Walker*, *George Aſhbridge*, *James Wright*, *John Wright*, *David M'Connaughy*, *John Armſtrong*, *Moſes Starr* and *James Burnſides* be a Committee to conſider the Governor's Meſſage, and report thereon to the Houſe To-morrow Morning.

Adjournment *September* 8.

Then the Houſe adjourned to Ten o'Clock To-morrow Morning.

The Committee appointed to conſider the Governor's Meſſage, and report thereon to the Houſe, reported, that they had made ſome Progreſs therein, but not having finiſhed the ſame, they deſired that further Time might be allowed them for that Purpoſe.

To which the Houſe aſſented.

Adjournment *September* 10.

Then the Houſe adjourned to next *Second-day*, at Three o'Clock, *P. M.*

The Houſe met, according to their Adjournment.

The Committee appointed to conſider the Governor's Meſſage of the 7th Inſtant, report, that they had made ſome further Progreſs therein, and ſhould be ready to report to the Houſe To-morrow Morning.

Adjournment *September* 11.

Then the Houſe adjourned to Ten o'Clock To-morrow Morning.

The Committee appointed to conſider the Governor's Meſſage of the 7th Inſtant, made their Report in Writing, which is as follows, *viz.*

Report from the Committe on the Bill for ſtriking *Twenty Thouſand Pounds*.

AS the Governor has been pleaſed to return the Bill for ſtriking *Twenty Thouſand Pounds*, to be made current and emitted on Loan, and for re-emitting and continuing the Currency of the Bills of Credit of this Province, in a Manner which denies any further Acceſs to him on that Head, except on the Alternative of accepting the additional Clauſe propoſed to be added to that Bill; and as that Clauſe, upon the Vote of the Houſe, has been unanimouſly rejected, we have now no other Method to ſecure ourſelves from future Inſinuations of being unfaithful to the high Truſt repoſed in us by our Conſtituents, but by leaving our Sentiments of the Governor's Amendment and Meſſage on our Minutes, in the cleareſt Manner we are able.

In Obedience therefore to the Orders of the Houſe, we have conſidered the Governor's Meſſage of the ſeventh Inſtant, ſent down with the Bill, and have likewiſe reconſidered the Votes of this Houſe, to which the Governor is pleaſed to refer, as a Proof that the Governor and Aſſembly in the Year 1746 thought the Lords Juſtices additional Inſtruction, upon which the ſaid Clauſe is founded, was neither illegal or temporary, or deſtructive of the Liberties granted to the People of this Province.

The Governor is pleaſed to ſay, it appears to him the then Aſſembly have clearly admitted the Validity of that Inſtruction, in ordinary Caſes, and that they only hoped the Governor, on re-conſidering the Royal Inſtruction, might think himſelf at Liberty to give his Aſſent to a Bill for a further Sum of Money in Bills of Credit, when an extraordinary Emergency required it. And yet, notwithſtanding the Governor's private Sentiments, it appears clear to us, that both the then Governor, and the Houſe too, agreed in the eſſential Point, that the additional Inſtruction of the Lords Juſtices was

not

not binding upon neither of them; for it is beyond all Contradiction, that although Governor *Thomas* had sent down that Instruction to a former Assembly, and had again mentioned it at that Time, yet he gave his Assent to the Bill for granting *Five Thousand Pounds* for the King's Use, and the Money was raised, as we apprehend, in direct Opposition to the Instruction, which expressly enjoins the Governor, 'and he is thereby 'required, upon Pain of his Majesty's highest Displeasure, not to give his Assent to, or 'pass any Act whereby Bills of Credit may be issued in Lieu of Money, without a Clause 'be inserted in such Act, declaring that the same shall not take Effect until the said Act 'shall be approved by his Majesty, his Heirs, or Successors;" without the least Distinction between ordinary and extraordinary Cases; and if the Assembly made Use of those Distinctions to induce the Governor to think himself at Liberty to pass that Bill, and in Effect did convince him that the Instruction was not to be submitted to upon its own Terms, we must own he had a greater Regard to the Sentiments of that Assembly, than we have any Reason to believe our Governor has to the repeated Requests of this House. And we have no Reason to doubt, if we could prevail upon our Governor to give his Assent to our Paper Money Bill, this House would as readily assure him, they hoped he might think himself at Liberty to pass that Bill, and all other Bills presented to him by the Representatives of the Freemen of this Province, not only upon extraordinary Emergencies, but in all ordinary Cases too, without the least Apprehensions of his Majesty's Displeasure, so far as those Laws were consistent with the Royal Charter. 1753. September 11.

The Governor proceeds, 'that there has not been an Instance of passing any Law in 'this Province under the Restrictions contained in the Amendment, may be very true; 'but he cannot think any Thing further can be inferred from thence, than that 'no such Instruction was ever sent to the Governors of this Province before the 'Year 1740, otherwise it is reasonable to conclude they would have paid the same du-'tiful Obedience to it, as was done by your late Governor." Your Committee are at some Loss upon this Paragraph, whether they ought to produce other and older Instructions than the Year 1740, lest the Governor should think himself obliged to pay a strict Obedience to these also; but as they are already printed in your Votes, which must now soon appear, and the House probably will not order them to be erased, we shall only say, that there was an additional Instruction by the Lords Justices to Governor *Keith*, dated the 23d of *July*, 1723, without any Limitation of Time (and we do not think it necessary to search for any more of them) the Original of which we presume must be in the Governor's Possession, commanding him, among other Matters, in these Words, 'you 'are to take Care, that for the future you do not pass any private Act, without a Clause 'inserted therein, suspending the Execution of such Act until his Majesty's Royal Ap-'probation shall be had thereof;" which notwithstanding the Governor neither does, and we hope never will think himself obliged to observe.

Having now taken it for granted the Instruction was allowed by the Governor and Assembly to be valid, without Limitation of Time, in the Year 1746, the Governor is pleased to say, 'why then an Instruction allowed to be in Force in 1746, and still un-'revoked, should be deemed to be of no Effect, though the State of our Paper Cur-'rency has not suffered the least Alteration since that Time, is what he cannot com-'prehend."

It is our Misfortune that the Governor has been pleased to keep our Bill, the only Bill of this Year, to this our last Session, without the least Intimation that he apprehended himself at all concerned or bound by an additional Instruction to Governor *Thomas*, in the Year 1740, and now so suddenly to foreclose us from any further Messages or Conferences on a Bill of so much Importance; otherwise we cannot doubt he must have been made sensible, that the State of our Paper Currency (and our Trade too) has suffered a very considerable Alteration within the Period the Governor is pleased to mention.

That the States of all the Paper Currencies in *America* at, and since, that Time, under a Parliamentary Enquiry, have been since carefully examined by the House of Commons, appears by their Votes; and that the Sum current among us has likewise suffered an Alteration, and a Diminution, is consistent with our own Knowledge, who have now sunk *One Thousand Pounds*, besides the *Fifteen Hundred Pounds* sunk by former Assemblies, in Discharge of so much of the *Five Thousand Pounds* granted to the King's Use by the very Act to which the Governor refers.

But the Governor, unhappily for us, 'is sincerely of Opinion, that the Royal In-'struction is of the same Force at present as it was in the Year 1746, and that he can-'not bring himself to think that he can ever be freed from the Obligation of paying a 'strict Obedience to it, until the same shall be revoked, or that he may be otherwise 'discharged from it by his Majesty's Authority." Unfortunate *Pennsylvania*, under such Sentiments! If the King should judge all the Purposes of that Instruction answered, upon passing the Paper Money Act, laid before him by his Parliament in 1751, we must nevertheless for ever continue under the Burden of it, without Redress: And if we should

suppose

1753. September 11. ſuppoſe the Governor is reſtricted by the Proprietaries from giving his Aſſent to the Emiſſion of any further Sum in Bills of Credit, as we have very little Reaſon to doubt, if then the Proprietaries ſhould be pleaſed to withdraw that Reſtriction, and leave him at Liberty to paſs all our Acts upon the Terms granted us by our Charters, what will this avail, if the Governor continues to think he can never be freed from the Obligation of paying a ſtrict Obedience to this additional Inſtruction?

Under theſe Circumſtances how muſt the Proprietaries, or Freemen of this Province, conduct themſelves to the Satisfaction of the Governor, in order to be once more reſtored to the Rights granted to the Proprietaries and People of this Province by the Royal and Provincial Charters? That the Proprietaries may have ſome Influence over him, is not improbable; but how far the good People, or their Repreſentatives, may expect to have any, on this, or any other Occaſion, we fear is too evident.

The Governor is pleaſed to ſay, in Anſwer to our Meſſage of the 5th Inſtant, upon the miſchievous Tendency of the Bill brought into Parliament in 1749, 'that he is 'ſtill of the ſame Opinion with regard to that Bill, but thinks a moderate Share of Pene-'tration is ſufficient to diſtinguiſh between an Act to inforce all Orders and Inſtructions 'of the Crown of whatever Nature, and a Royal Inſtruction, founded on an Addreſs of 'the Parliament, that only relates to one particular Point, in which his Majeſty's Pre-'rogative may be ſuppoſed to be concerned, and beſides is plainly calculated to do Juſtice 'between Man and Man; and we muſt certainly allow him to be Judge of the Neceſſity 'he is under of paying Obedience to the King's Inſtruction, when a Diſregard of it is 'threatened with his Majeſty's higheſt Diſpleaſure."

Upon which your Committee beg Leave to remark: They apprehend all Royal Orders and Inſtructions ſubject the Governors to whom they are directed, and their Succeſſors too, as the Governor is pleaſed to inform us, to the Royal Diſpleaſure, unleſs ſuch Inſtructions are revoked by his Majeſty's Authority; and yet we cannot find that Governor *Keith*, to whom it was directed, or Governor *Gordon*, his Succeſſor, or Governor *Thomas*, or our preſent Governor, have ever thought themſelves under any Danger of incurring his Majeſty's Diſpleaſure for a total Neglect, and direct Diſobedience to the additional Inſtruction of the Lords Juſtices in 1723, the Original of which we make no Doubt, as well as of the Inſtruction of 1740, is in the Governor's Poſſeſſion; and the Subſtance of both we know to be printed with the Minutes of our Houſe; 'why then 'an Inſtruction, allowed to be in Force in 1723, and ſtill unrevoked, ſhould be of no 'Effect," and an additional Inſtruction of the Lords Juſtices in 1740, poſſibly revoked by the Conduct of the ſucceeding Seſſions of the ſame Parliament, upon whoſe Addreſs to his Majeſty that Inſtruction was founded, ſhould be ſo *ſtrictly* binding, 'is what we 'cannot apprehend."

But the Governor is pleaſed to ſay, 'we muſt certainly allow him to be Judge of the 'Neceſſity he is under of paying Obedience to the King's Inſtruction, when a Diſregard 'of it is threatened with his Majeſty's higheſt Diſpleaſure."

If then the Governor, when he takes it for granted that we muſt certainly leave him to judge for himſelf in this Caſe, is intended to mean, 'that he cannot bring himſelf 'to think that he can ever be freed from the Obligation of paying a ſtrict Obedience to '*all* Royal Inſtructions, until the ſame ſhall be revoked, or that he may be otherwiſe 'diſcharged from them by his Majeſty's Authority;" why then has he ſo totally diſregarded the Lords Juſtices additional Inſtruction of 1723.

Or if the Governor means, we muſt certainly leave him to judge of the Neceſſity of remembering or not remembering the Royal Inſtructions, as the one or the other may ſuit the Purpoſes of the Governor, to whom they are directed, or ſuch of his Succeſſors as may claim a Protection under them: How is this to be reconciled with the great Regard the Governor is pleaſed to declare he has to the Liberties and Privileges of the People?

Again, if he means Royal Inſtructions, if unknown to him, though poſſeſſed of the Originals, are not binding, and cannot be attended with any Danger of his Majeſty's Diſpleaſure, why had he not been pleaſed to forget the Inſtruction of 1740, as well as the Inſtruction of 1723, ſince there appears no greater Danger, as far as we know, from a Diſregard of the one than of the other?

But if the Liberty the Governor contends for can mean that we muſt allow him to judge for himſelf, how far he may or may not obey ſuch Royal Inſtructions, at his own Riſk (as his Majeſty's higheſt Diſpleaſure is threatened againſt him particularly) and at his own Pleaſure too, then we muſt own we are at a Loſs to diſtinguiſh any great Difference between the miſchievous Tendency of an Act to inforce all Orders and Inſtructions of the Crown whatever, and the Neceſſity the Governor is pleaſed to think we are under to allow him the Power of inforcing them whenever he ſhall think fit; with this Preference, however, that we would far rather chuſe to ſubmit ourſelves, and our Cauſe, to the King, and the Juſtice of a *Britiſh* Parliament, than to the mere Will of our Governor, whether to inforce or diſregard them, however they may have anſwered

their

their Ends, or otherwiſe abated of their Force. And in the preſent Caſe, we hope the Governor, on Reflection, will pay ſome Regard to the Judgment of the ſame Parliament, from which the Addreſs to the Crown had been preferred to iſſue this additional Inſtruction, who, although requeſted in their next Seſſion, by the Board of Trade, to addreſs the Crown again, that he would be pleaſed to repeat his Inſtructions to the Governors in his *American* Colonies, have not only never complied therewith, that we know of, but have ſince paſſed an Act for reſtraining the iſſuing the Bills of Credit in thoſe particular Colonies, where, after a full Enquiry, they found ſuch Emiſſions injurious to the Trade of *Great Britain*, or not calculated to do Juſtice between Man and Man, and have left us, as we preſume, exonerated from the Burden of this additional Inſtruction, and in full Power over our Laws, upon the Terms of our Charters; and ſo long as we aſk nothing farther than is warranted by theſe, we hope it neither will nor can interfere with the Royal Prerogatives.

It may be preſumed the Repreſentatives of this Province, when met in their Aſſemblies, have ſome valuable Privileges yet left, in framing their Laws, to do Juſtice between Man and Man, without the Aid of an additional Inſtruction; and we hope it cannot be expected that we ſhould very eaſily part with thoſe Rights, and depend on Royal Inſtructions, over which we are to allow the Governor the Power he is pleaſed to contend for; and we have no Reaſon to doubt, all Men of Underſtanding and Candour will prefer a regular Courſe of Laws, occaſionally ſuited to the Times, and framed by the Repreſentatives of the People annually choſen, and aſſented to by their Governor, to a Series of Inſtructions ſent for that Purpoſe from ſo great a Diſtance.

For our own Part, we are fully ſatisfied and aſſured, that ſo long as we continue in our Duty and Loyalty to the beſt of Kings, who has been pleaſed to declare, "*That nothing in this World can give him ſo much Pleaſure as to ſee (his Subjects) a flouriſhing and happy People*;" and neither claim nor deſire other or greater Privileges than thoſe we have a Right to, under the Grant of his Royal Predeceſſors, we can have nothing to fear from the King or a *Britiſh* Parliament: And as it is our Duty to defend theſe in the beſt Manner we are able, in the faithful Diſcharge of ſo high a Truſt, we ſhall have the Satisfaction of our own Minds, and, we hope, the Countenance of all good Men, notwithſtanding the Governor's Opinion, that the Charge made againſt this Province (among other Charter Provinces) by the Board of Trade, is not much to our Advantage.

Upon the Whole, your Committee beg Leave to add, they apprehend it muſt be not only a Loſs of Time to the Repreſentatives, but a great Expence to the Country, to prepare Bills for the Governor's Aſſent, if he ſhould be bound by private Inſtructions from our Proprietaries, and 'ſhould not be able to bring himſelf to think he could ever 'be freed from the Obligation of paying a ſtrict Obedience to theſe Inſtructions until 'the ſame ſhould be revoked." That there are ſuch Obligations or Inſtructions which may poſſibly have ſome Weight in the preſent Diſpute, as well as the additional Inſtruction of 1740, your Committee have good Reaſon to believe: In Order therefore to do Juſtice to our Governor, as well as our Conſtituents, and to ſave all unneceſſary Expence, and Loſs of Time to both, we ſubmit to the Conſideration of the Houſe, how far they may judge it neceſſary to recommend this Enquiry to the ſucceeding Aſſembly.

The Sheriffs of *Lancaster*, *York*, *Cumberland* and *Northampton*, neglected to deliver or send to the House the Constables Returns, and Lists of Electors for the respective Counties, as they are by Law directed to do.

Then the House adjourned to Ten o'Clock To-morrow Morning.

A Message from the Governor, by the Secretary.

SIR,

"The Governor is now in the Council Chamber, ready to receive the House with their Speaker."

Then the Speaker, with the whole House, waited upon the Governor; and being returned, the Speaker resumed the Chair, and reported, that the House had waited upon the Governor, and presented their Speaker, and that the Governor was pleased to approve their Choice. That the Speaker had then in the Name and Behalf of the House claimed the usual Privileges, *viz.*

That the better to discharge the Business of the Public, they may at all seasonable Times have free Access to the Governor.

That his own (the Speaker's) unwilling Mistakes may be excused, and not imputed to the House.

All which he had requested as the just Rights and Privileges of the Freemen of *Pennsylvania*, derived and confirmed to them by the Charters and Laws of the Province. And that the Governor was pleased to say, they were the just and indisputable Rights of the House, and that he should never attempt to violate them.

Then the Qualifications by Law appointed, were taken and subscribed, first by the Speaker in the Chair, and then at the Table by all the rest of the Members present, in their Order.

Resolved, That *William Franklin* be Clerk of this House for the ensuing Year.

And he took and subscribed the usual Qualification accordingly.

Resolved, That *Samuel Kirk* be Sergeant at Arms to this House for the Year ensuing.

Then the House adjourned to Three o'Clock, *P. M.*

Ordered, That the ſaid Petitioner do attend this Houſe To-morrow Morning.

Adjournment. Then the Houſe adjourned to Ten o'Clock To-morrow Morning.

October 17. The Petition of *Alexander Magenty*, *Indian* Trader, was again read, and conſidered; and the Petitioner attending according to Order, was called in, and having anſwered ſuch Queſtions as were put to him by the Houſe, he was directed to withdraw.

Reſolved, That the Sum of *Six Pounds* be allowed to the ſaid *Magenty*, towards defraying his Expences to *Cumberland* County.

Ordered, That *Evan Morgan*, *Joſeph Trotter*, *Joſeph Fox*, *Benjamin Franklin* and *William Callender* be a Committee to inſpect the Laws of this Province, and report which of them are expired or near expiring, and ought to be re-enacted; with their Opinion what Amendments to them or others may be neceſſary.

Ordered, That *Evan Morgan*, *Joſeph Stretch*, *Benjamin Franklin* and *William Callender* be a Committee to enquire into the State and Circumſtances of the Trade of this Province with regard to the Quantity of our Paper Currency from its firſt Emiſſion in 1723, to the preſent Time.

Reſolved, That this Houſe will this Day adjourn to the Fourteenth Day of the Month called *January* next.

Ordered, That *Thomas Cummings* and *Joſeph Gibbons* wait upon the Governor, and acquaint him therewith.

The Gentlemen appointed to wait upon the Governor with the Meſſage of the Houſe, return and report, that they had delivered the ſame according to Order, and that the Governor was pleaſed to ſay, that the propoſed Time of Adjournment did by no Means ſuit him; but if the Houſe would agree to meet about the Beginning of *February* he ſhould have no Objection thereto.

The Houſe taking the ſame into Conſideration;

Reſolved, That this Houſe will now adjourn to the Second Day of the firſt Week of the Month called *February* next.

And then the Houſe did adjourn accordingly.

1754. February 4. THE Houſe met purſuant to their Adjournment.

Ordered, That *Evan Morgan* and *Joſeph Fox* wait upon the Governor, and acquaint him, that the Houſe is met according to their Adjournment, and deſire to know if he hath any Thing to lay before them.

Adjournment. Then the Houſe adjourned to Ten o'Clock To-morrow Morning.

February 5. The Gentlemen appointed Yeſternight to wait upon the Governor, report, that ſoon after they had left the Houſe, they met with the Secretary, who informed them, that the Governor had directed him to receive the Meſſage of the Houſe, and to acquaint them, that he would ſend a Meſſage to the Houſe in the Morning.

The Secretary attending, was called in, and addreſſing himſelf to the Chair, ſaid,

SIR,

'The Governor is ſorry to find himſelf prevented by Indiſpoſition from now communicating to the Houſe, in a proper Manner, ſundry Letters which he ſome Time 'ſince received, as well from his Majeſty's Miniſters, as from ſeveral of the neighbouring Governors, relating to *Indian* Affairs; which, nevertheleſs, he hopes yet 'ſhortly to be able to do, if it ſhall pleaſe God to favour him with the Recovery of his 'Health.

'In the mean Time, it will be equally agreeable to him, whether the Houſe thinks 'fit to come to a ſhort Adjournment, or ſhall proceed to prepare ſuch Buſineſs as they 'may have to lay before him, when his Health will permit him to receive it, which 'he would willingly hope will not be long."

Then the Secretary withdrew.

A Return

A Return of the Sheriff of the County of *Cumberland* was brought to the Houſe, by which it appeared that *John Armſtrong* and *Joſeph Armſtrong* were choſen Repreſentatives to ſerve in Aſſembly for the ſaid County. 1754. February 5.

And the ſaid *John Armſtrong* and *Joſeph Armſtrong*, now appearing, did, with *Griffith Owen*, returned a Repreſentative for the County of *Bucks*, take and ſubſcribe the uſual Qualification by Law appointed to be taken by the Members of Aſſembly; and they then took their Seats in the Houſe accordingly.

A Petition from a conſiderable Number of the Inhabitants of *Cheſter* County was preſented to the Houſe and read, ſetting forth, that by an Act of Aſſembly of this Province, made in the Eighth Year of the late King, entituled, *An Act for eſtabliſhing Courts of Judicature in this Province*, it is directed, that upon any Iſſue joined in the Supreme Courts (appointed to be holden and kept by the ſaid Act) ſuch Iſſue ſhall be tried in the Country from whence the Cauſe was removed, before the Judges of the ſaid Court, who are impowered and required, by the ſaid Act, to go the Circuit twice in every Year, to try ſuch Iſſues in Fact, as ſhould be depending in the ſaid Supreme Court, on certain Days and Times in the ſaid Act mentioned; that the Petitioners are humbly of Opinion, that at the Time of making the ſaid Act of Aſſembly, the Circumſtances of this Province were ſuch, as that the Times therein limited for holding the ſaid Courts in the ſeveral Counties, in the ſaid Act mentioned, were ſuitable and ſufficient, but thoſe Circumſtances being ſince much altered, both with reſpect to the Number of Inhabitants, and Increaſe of Buſineſs at thoſe Courts, it has now become impracticable for the Judges to attend in the ſeveral Counties, at the Times by Law required, and go through the neceſſary Buſineſs, which has occaſioned the introducing the Practice of holding all the ſaid Courts at the City of *Philadelphia*, to the great Inconveniency not only of the Petitioners, but of the Inhabitants of the other Counties in the ſaid Province, as they are by that Means put to conſiderable Expence in attending the ſaid Courts as Jurors, Witneſſes, *&c.* therefore praying this Houſe would take the Premiſes into their ſerious Conſideration and grant ſuch Relief as in their Wiſdom they ſhall judge moſt meet.

Ordered to lie on the Table.

Then the Houſe adjourned to Three o'Clock, *P. M.* Adjournment *Poſt Meridiem*

Calvin Cooper, returned a Repreſentative for the County of *Lancaſter*, appearing in the Houſe, took and ſubſcribed the uſual Qualification by Law appointed to be taken by Members of Aſſembly; and then took his Place accordingly.

Then the Houſe adjourned to Ten o'Clock To-morrow Morning. Adjournment *February* 6.

The Committee appointed to conſider the State of the Trade of this Province, *&c.* made their Report in Writing, which was read, and is as follows, *viz.*

IN Obedience to the Order of the Houſe, your Committee have enquired into the State and Circumſtances of the Trade of this Province with regard to the Quantity of our Paper Currency from its firſt Emiſſion in 1723, to the preſent Time; and do find, by authentic Accounts, that before that Period our Trade was in a declining State; and that ſince the ſame, our Importations from *Great-Britain* have increaſed as follows, *viz.* Report of the Committee on Trade, *&c.*

In 1723 they amounted only to	-	-	£	15,992	19	4
In 1730 they were	-	-	-		48,592	7	5
In 1737 they were	-	-	-	-	-		56,690	6	7
In 1742 they were	-	-	-	-	-		75,295	3	4
In 1747 they were	-	-	-	-	-		82,404	17	7
In 1751 they were	-	-	-	-			190,917	5	1

We do alſo find, that in the Years 1729, 1730 and 1731 we had near the ſame Quantity of Paper Money that we now have, and ever ſince have had; and that our Exportations of Wheat, Flour, Bread and Flaxſeed amounted then, one Year with another, to little more than £ 60,000 *per Annum*; whereas in the Year 1749 thoſe Articles amounted to - - - - £ 148,104 4 11

In 1750 to	-	-	-	-		155,174	19	6
In 1751 to	-	-	-	-	-	187,457	11	1

which laſt is more than treble the Value of thoſe Articles exported twenty Years before.—For a more particular Account of thoſe Exportations, your Committee beg Leave to refer to a Valuation of the ſeveral Articles hereunto annexed.

By the Report of a former Committee of Aſſembly, made in *Auguſt*, 1752, it appears that our Numbers of People, and Domeſtic Trade, have increaſed in like Proportion.

Your Committee beg Leave to obſerve, that they apprehend the Occaſions for a Medium of Trade muſt have increaſed equally with the Trade; and that our Foreign and Domeſtic Commerce could not have been carried on as it has been for ſome Years paſt, had not the accidental Introduction of great Quantities of Silver and Gold, by the War, ſupplied the Deficiency of our Paper Currency for that Purpoſe. And ſince Complaints

1754. *February* 6. of the Want of a ſufficient Medium (occaſioned by the Diminution of our Quantity of Gold and Silver, which is continually ſent Home in Return for *Britiſh* and *India* Manufactures) are daily growing louder; and our Paper Currency muſt, by the preſent Acts, begin ſhortly to diminiſh one ſixth Part annually, your Committee humbly ſubmit it to the Conſideration of the Houſe, whether it is not now become neceſſary, not only to prolong the Re-emiſſions, but to ſtrike and emit an additional Sum.

EVAN MORGAN, BENJAMIN FRANKLIN,

The Report of the Committee in *Auguſt*, 1752, on the State of our Paper Curency, Trade, Numbers of People, *&c.* was alſo read.

Reſolved, That this Houſe will take the Report of the Committee on the State of our Trade, *&c.* into Conſideration this Afternoon.

A Petition from the Truſtees, Commiſſioners and Aſſeſſors of the County of *Cumberland* was preſented to the Houſe and read, ſetting forth, that the ſaid County is not as yet able to defray the Expence of building a Priſon, and are under an abſolute Neceſſity of borrowing a Sum of Money for that Purpoſe; they therefore pray that this Houſe would

would be pleased to grant them the Sum of *Four Hundred Pounds* out of the Public Loan-Office, for so long a Time, and on such Security, as shall be judged most proper. 1754. February 6.

Ordered to lie on the Table.

An Account from *John Harris*, of *Peckstan*, in this Province, for his Trouble and Expences in going to *Ohio*, on a Message from the Governor, was laid before the House and read, and referred to the Committee of Accounts.

A Petition of divers Inhabitants of the County of *Northampton* was presented to the House and read, setting forth, that the laying out the Roads and Townships within the said County, how necessary soever the same may be for the general Good, is very much neglected, by reason that the Charge attending the doing thereof, frequently falls upon a few public-spirited Persons, whilst others, who reap equal Benefit with them, do absolutely refuse to pay their reasonable and proportionable Part of the Expence, alledging that there is no Law of the Province that obliges them to contribute thereto; therefore praying that this House would be pleased to take the Premises into their serious Consideration, and grant such Relief therein as shall be judged most equitable and proper.

Ordered to lie on the Table.

Then the House adjourned to Three o'Clock, *P. M.* Adjournment

The House, according to the Resolve of this Morning, proceeded to the Consideration of the Report of the Committee on the State of the Trade of this Province, *&c.* and, after a considerable Time spent therein, came to the following Resolutions, *viz.* *Post Meridiem*

Resolved, N. C. D. That it is necessary that the Paper Money of this Province should be re-emitted for a further Time.

Ordered to lie on the Table.

A Petition from sundry Inhabitants of the County of *Lancaster* was presented to the House and read, setting forth, that although by an Act of Assembly of this Province, the Justices are directed to divide their respective Counties into Precincts or Townships, yet as no Provision is made by the said Act, for defraying the Expence of making such Division, the good Intent of the same has hitherto been defeated; and that, for Want of some Method established by Law, for defraying the Expence aforesaid, much of the improved Part of the Province is not yet erected into Townships, and many of the Returns of Townships already laid out, are not to be depended on; that the Division Lines lately run between the said County and *Berks* have cut off the Townships formerly laid out, in such Manner as to render them very disproportionate to other Townships, as well as uncertain in Regard to their Limits; that the Petitioners conceive these Inconveniences cannot be remedied until some Method of raising Money to discharge the said Expence

To the REPRESENTATIVES of the Freemen of the Province of Pennſylvania, *in General Aſſembly met.*

Propoſal to the Houſe. ‘ WE, the Subſcribers, being perſuaded that the ſame charitable Diſpoſition which induced the Houſe of Repreſentatives ſome Time ago to found an Hoſpital for ‘ the Relief of the ſick Poor, *&c.* will ſtill incline them to promote all proper Meaſures ‘ to render ſo laudable an Inſtitution of the moſt extenſive Service: With this View, ‘ we offer to ſign the Paper Bills of Credit, propoſed to be iſſued by the Law now under ‘ Conſideration, and we will contribute ſuch Sums of Money as may by Law become ‘ due to us for that Service, towards increaſing the Capital Stock of the ſaid Hoſpital, ‘ or to be applied in ſuch other Manner for the Uſes thereof, as the Managers may think ‘ moſt proper.

Adjournment. Then the Houſe adjourned to Ten o'Clock To-morrow Morning.

February 12. A Petition from the Juſtices, Grand Jury, Commiſſioners and Aſſeſſors of the County of *Lancaſter* was preſented to the Houſe and read, ſetting forth, that frequent Complaints having been made by the Inhabitants of the ſaid County, and others, of the Want of a Bridge over *Coneſtogoe* Creek, on the Provincial Road from the City of *Philadelphia*, induced the Petitioners to take the Premiſes into their Conſideration, and that they are of Opinion, the ſame is abſolutely neceſſary, and would be of great Service to the Public; that by Reaſon of the frequent and extraordinary Freſhes, in the Spring and Fall Seaſons, and the Ice in the Winter, the Inland Trade of the back Counties, which is of the greateſt Importance to their Inhabitants, and to the City of *Philadelphia*, is greatly obſtructed; that the ſaid Obſtructions moſtly happening in the Seaſon for Markets, are a great Damage and Diſcouragement to thoſe who travel with Land Carriages; and likewiſe are often very detrimental to Perſons having Matters depending in the Courts of Judicature, and other public Meetings, in ſaid County, who are frequently obliged to venture through the ſaid Creek, at the Riſk of their Lives; that the Petitioners have examined the Public Accounts of the ſaid County, and underſtand, that, by Eſtimation, a ſuitable Bridge for the ſaid Service (a Plan whereof is annexed to their Petition) cannot be erected at leſs Expence than near *Two Thouſand Pounds*, which Sum they apprehend to be too great to be now raiſed upon the Inhabitants of their County, conſidering that within theſe laſt ten Years, they have built a Stone Bridge over little *Coneſtogoe* Creek on the ſaid Road, re-built their Priſon, and walled in their Priſon Yard or Lot, at the Expence of *Fifteen Hundred Pounds*, as well as paying near *Three Thouſand Pounds* for

for the Premium for destroying Squirrels, besides defraying all other incident Charges; that as the Premises are of so great Consequence to the Inhabitants of this Province in general, and the Expences thereof would be at present an extraordinary Burden on the said County in particular, who are but a small Part of those who have Occasion to make Use of the said Road; the Petitioners therefore pray that this House would be pleased to take the same into their serious Consideration, and order a Sum of Money to be paid out of the Public Treasury into the Hands of the Treasurer of said County, to be applied towards the said Service, which, as the Petitioners apprehend, will encourage the Inhabitants more freely to assist in the said laudable Undertaking. 1754. February 12.

Another Petition from divers Inhabitants of *Lancaster* County, of the same Import with the preceding, was presented to the House and read, and

Ordered to lie on the Table

A Petition from sundry Inhabitants of the County of *Lancaster* was likewise presented to the House and read, praying that the Law of this Province, relating to Supreme Courts, may be amended, and a Clause inserted therein, extending the Circuit of the Judges of said Court to the said County; and that this House would make Provision for the Officers of the said Court on whom the Duties thereof are incumbent.

Ordered to lie on the Table.

The Proposal from sundry Gentlemen, offering to be Signers of the Paper Money intended to be issued by the Bill now under Consideration, being again read,

Resolved, That their Names be accordingly inserted in the said Bill, together with those of the three Members of this House, who made the like Offer on Yesternight.

The Bill for striking *Forty Thousand Pounds*, to be made current and emitted on Loan, and for re-emitting and continuing the Currency of the Bills of Credit of this Province, being read the third time;

Resolved, That the said Bill do pass.

Resolved, That the Sum of *Five Hundred Pounds* be now allowed to the Honourable *JAMES HAMILTON*, Esq; Governor of this Province, in Part of his Support.

And an Order was drawn on the Treasurer, and signed by the Speaker, by Order of the House, for Payment of the same.

Ordered, That *Joseph Stretch* and *Thomas Cummings* wait upon the Governor with the said Order, and acquaint him, 'that the House, on receiving the Governor's Message of the Fifth Instant, were concerned to hear of his ill State of Health; but as he then gave them some Expectation, that he should in a short Time be able to proceed upon the public Business, and acquainted them that it was equal to him, whether they made a short Adjournment, or proceeded to prepare such Business as they might have to lay before him, they have chose to continue their present Sitting, as being in the most suitable Season with regard to their private Affairs, hoping the Governor's Indisposition would not long continue; and as they now have the Pleasure of hearing that his Health is in a great Measure restored, they beg Leave to acquaint him, that they have prepared some Business to lay before him whenever it may suit him to receive the same."

Then the House adjourned to Three o'Clock, *P. M.* Adjournment *Post Meridiem*

The Gentlemen appointed to wait upon the Governor with the Message of the House, report, that they had delivered the same according to Order, and that the Governor was pleased to thank the House for the Order for Part of his Support, and said, that he expected, in two or three Days, his Health would permit him to receive any Business the House might have to lay before him.

Then the House adjourned to Ten o'Clock To-morrow Morning. Adjournment *February* 13.

The Petition relating to Vendues, presented to the Assembly on the Sixth of *February*, 1752, was taken up and read, and *Ordered to lie on the Table.*

Then the House adjourned to Three o'Clock, *P. M.* Adjournment *Post Meridiem*

1754. of this Assembly by the last, were severally read the first time, and ordered a second Reading.

Ordered to lie on the Table.

A Petition from *Joshua North*, of the City of *Philadelphia*, Shopkeeper, setting forth, that the Petitioner is informed a fit and capable Person for inspecting and measuring Grain, and Seed, is now about to be nominated by this House; that the Petitioner conceives himself properly qualified for the said Office, and will give sufficient Security for his diligent and faithful Performance thereof according to Law; and praying that the House would be pleased to confer the same upon him, was presented to the House and read, and *Ordered to lie on the Table.*

Adjournment Then the House adjourned to Ten o'Clock To-morrow Morning.

February 14. The Governor, by his Secretary, sent down a written Message to the House, with sundry Papers therein referred to, which were read, and the Message follows in these Words, *viz.*

GENTLEMEN,

A Message from the Governor to the Assembly.

'HAVING in *September* last received a Letter, by Express, from Col. *Fairfax*, of *Virginia*, informing me that some Chiefs of the *Ohio Indians* were then at *Winchester* soliciting the Assistance of that Government, and intended, as soon as they should have finished there, to come to *Carlisle*, in the County of *Cumberland*, where they entreated I would be pleased to give them the Meeting; I assembled the Council, and being favoured with the Attendance of the Speaker, and such Members of your House as were in Town, I laid it before them for their Advice, who were unanimously of Opinion, that a Conference with these *Indians* might afford a good Opportunity of becoming acquainted with a true State of their Dispositions and Affairs; and that proper Presents should be provided out of the Sum voted by the Assembly in the Month of *May* last, and there distributed for their Service and Relief. Entirely concurring with these Sentiments, as my own Health did not permit me to undertake such a Journey, I issued a Commission to Mr. *Peters*, Mr. *Norris* and Mr. *Franklin*, empowering them to hold a Treaty with those *Indians*, and to make them the Presents of Condolence, and such others, as they should find suitable, on being truly informed of their Necessities; who accordingly proceeded to *Carlisle*, and held a Treaty with them: For the Particulars whereof, together with the Expences accruing thereon, I shall refer you to the Treaty itself, and the Commissioners, who are Members of your House.

'I have received a Letter from the Right Honourable the Earl of *Holderness*, one of his Majesty's principal Secretaries of State, which, with others of the like Tenor to all his Majesty's Governors on the Continent, was sent Express by a Sloop of War to *Virginia*; wherein his Majesty lays his Royal Commands on me, in case the Subjects of any foreign Prince shall have presumed to make Encroachments, erect Forts, or commit any other Hostilities within his Majesty's Dominions, if, after representing to them the Injustice of their Proceedings, they do not desist, to draw forth the armed Force of the Province, and to endeavour to repel Force by Force; and to call the Assembly, and to engage them to grant such Supplies as the Exigency of Affairs may require. Whilst I was preparing to make the Requisition enjoined by his Majesty, I received a Letter from Governor *Dinwiddie*, informing me that he had dispatched Major *Washington* on that Service, to the Fort lately built on the *Ohio* by the *French*, and an Express has this Week brought me Governor *Dinwiddie's* Account of that Gentleman's Return, with the Answer of the Commander of the Fort, who avows the Hostilities already committed, and declares his Orders from the King of *France* are to build more Forts, take Possession of all the Country, and oppose all who shall resist, *English* as well as *Indians*, and that he will certainly execute these Orders as early as the Season will permit.

'Gentlemen, *French* Forts and *French* Armies so near us will be everlasting Goads in our Sides; our Inhabitants from thence will feel all the Miseries and dreadful Calamities that have been heretofore suffered by our neighbouring Colonies; all those Outrages, Murders, Rapines and Cruelties, to which their People have been exposed, are now going to be experienced by ourselves, unless a Force be immediately raised sufficient to repel these Invaders. It is to be hoped therefore, that, as loyal Subjects to his Majesty, and in Justice to your Country, you will not fail to take into your Consideration the present Exigency of Affairs, and, as it will be attended with a very considerable Expence, and require a large Number of Men, make Provision accordingly, that I may be enabled to do what his Majesty, as well as the neighbouring Colonies will expect from a Government so populous, and likely to be so nearly affected with the Neighbourhood of *French* Garrisons.

'I have further to inform you, that I have received a Letter from the Right

'Honourable

1754. February 14.

'Honourable the Lords of Trade, dated the Eighteenth Day of *September* laſt, informing 'me, that his Majeſty has ordered an Interview to be held the next Summer at *Albany*, 'with the *Six Nations*, and a large Preſent to be there diſtributed, and deſiring I will 'lay this Matter before you, and recommend to you to make Proviſion for appointing 'Commiſſioners, to be joined with thoſe of the other Governments, and for *Indian* 'Preſents; and it being left to the Governor of *New-York* to appoint the Time of this 'Interview, he has informed me by Letter that he has fixed the Thirteenth or Four-'teenth of *June* next for that Purpoſe; further acquainting me, that the Lords of Trade 'have recommended it to him, to take Care that all the Provinces be (if practicable) 'compriſed in one general Treaty to be made in his Majeſty's Name, it appearing to 'their Lordſhips that the Practice of each Province making a ſeparate Treaty for itſelf 'in its own Name, is very improper, and may be attended with great Inconveniences 'to his Majeſty's Service.

'Several Letters have paſſed between me and the Governors of *Virginia*, *New-York* 'and the *Maſſachuſetts*, in which they make this Province the Tender of their Aſſiſtance, 'expreſs an hearty Deſire of acting in Concert with us againſt his Majeſty's Enemies; 'concur in Sentiment with his Majeſty's Miniſters of the Neceſſity of a general Union 'of all the Provinces, both in Councils and Forces: And as Experience, the beſt of 'Inſtructors, makes it evident beyond a Doubt, that without this, his Majeſty's Colo-'nies in *America* are in Danger of being ſwallowed up by an Enemy, otherwiſe much 'inferior to them in Strength and Numbers, I moſt earneſtly recommend it to you, and 'hope what is ſo well and juſtly ſaid on this and other Matters, by Lord *Holderneſſe*, 'the Lords of Trade and the neighbouring Governors, will have their full Force and 'Weight with you in your Deliberations.

'The ſeveral Matters ſet forth in the late Treaty at *Carliſle*, evince the Neceſſity of 'appointing ſome Perſon to reſide at *Ohio* among the *Indians* there, in whom the Go-'vernment can place a Confidence; and, unleſs you can engage ſome ſuch Perſons, you 'muſt be ſenſible that your Preſents will be of little Uſe, and the *Indians* will be 'loſt to the *Engliſh* Intereſt.

'You will likewiſe do the Public great Service, if, together with this neceſſary Mea-'ſure, you will take the *Indian* Trade into your Conſideration, and put it into ſome Or-'der, for I am entirely of Opinion with the Commiſſioners, that this is abſolutely ne-'ceſſary, as well for the *Indians* as for ourſelves; and ſhould be pleaſed it was well con-'ſidered, and a Bill prepared for the Purpoſe.

'Gentlemen, there is ſo much to be done, and ſo little Time to do it in, the Seaſon 'being ſo far advanced, and Governor *Dinwiddie* expecting the Forces from this Province 'to join thoſe of *Virginia*, early in *March*, on *Potowmack*, that I moſt earneſtly entreat 'you will not delay the Supplies, nor deal them out with a ſparing Hand, but uſe all 'the Expedition in your Power, for you will undoubtedly agree with me, that ſo alarm-'ing an Occaſion has not occurred ſince the firſt Settlement of the Province, nor any one 'Thing happened that ſo much deſerves your ſerious Attention.

'The Secretary has my Orders to lay before you the ſeveral Letters and Papers men-'tioned in this Meſſage, or otherwiſe neceſſary to give you a perfect Knowledge of all 'Matters you may want to be informed of in the Courſe of your Deliberations.

February 14, 1754. *JAMES HAMILTON.*"

The Letters from the Earl of *Holderneſſe*, and the Lords of Trade, mentioned in the above Meſſage, are as follow, *viz.*

SIR, *Whitehall, Auguſt* 28, 1753.

Letter from Lord *Holderneſſe*.

'HIS Majeſty having received Information of the March of a conſiderable Number 'of *Indians*, not in Alliance with the King, ſupported by ſome regular *European* 'Troops, intending, as it is apprehended, to commit ſome Hoſtilities on Parts of his 'Majeſty's Dominions in *America*: I have the King's Commands to ſend you this In-'telligence, and to direct you to uſe your utmoſt Diligence to learn how far the ſame 'may be well grounded, and to put you upon your Guard, that you may at all Events be 'in a Condition to reſiſt any hoſtile Attempts that may be made upon any Parts of his 'Majeſty's Dominions within your Government; and to direct you, in the King's Name, 'that in caſe the Subjects of any foreign Prince or State ſhould preſume to make any 'Incroachment on the Limits of his Majeſty's Dominions, or to erect Forts on his 'Majeſty's Lands, or commit any other Act of Hoſtility, you are immediately to re-'preſent the Injuſtice of ſuch Proceedings, and to require them forthwith to deſiſt from 'any ſuch unlawful Undertaking: But if, notwithſtanding your Requiſition, they ſhould 'ſtill perſiſt, you are then to draw forth the armed Force of the Province, and to uſe 'your beſt Endeavours to repel Force by Force. But as it is his Majeſty's Determi-'nation not to be the Aggreſſor, I have the King's Commands moſt ſtrictly to enjoin 'you not to make Uſe of the armed Force, under your Direction, excepting within the 'undoubted Limits of his Majeſty's Dominions. And whereas it may be greatly

'conducive

1754. *February* 14.

'conducive to his Majeſty's Service, that all his Provinces in *America* ſhould be aiding 'and aſſiſting each other in caſe of any Invaſion, I have it particularly in Charge from 'his Majeſty to acquaint you, that it is his Royal Will and Pleaſure, that you ſhould 'keep up an exact Correſpondence with all his Majeſty's Governors on the Continent; 'and in caſe you ſhall be informed by any of them of any hoſtile Attempts, you are 'immediately to aſſemble the General Aſſembly within your Government, and lay be-'fore them the Neceſſity of a mutual Aſſiſtance; and engage them to grant ſuch Sup-'plies as the Exigency of Affairs may require. I have wrote by this Conveyance to all 'his Majeſty's Governors to the ſame Purpoſe.

I am, Sir, your moſt obedient humble Servant,
HOLDERNESSE."

SIR, *Whitehall, September* 18, 1753.

Letter from the Lords of Trade.

'HIS Majeſty having been pleaſed to order a Sum of Money to be iſſued for Pre-'ſents to the *Six Nations* of *Indians*, and to direct his Governor of *New-York* to 'hold an Interview with them, for delivering theſe Preſents, for burying the Hatchet, 'and for renewing the Covenant Chain with them, we think it our Duty to acquaint 'you therewith. And as we find it has been uſual upon former Occaſions, when an 'Interview has been held with theſe *Indians*, for all his Majeſty's Colonies, whoſe In-'tereſt and Security is connected with, and depends upon them, to join in ſuch Interview; 'and, as the preſent Diſpoſition of thoſe *Indians*, and the Attempts which have been 'made to withdraw them from the *Britiſh* Intereſt, appear to us to make ſuch a general 'Interview more particularly neceſſary at this Time, we deſire you will lay this Matter 'before the Council and General Aſſembly of the Province under your Government, 'and recommend to them forthwith to make a proper Proviſion for appointing Com-'miſſioners, to be joined with thoſe of the other Governments, for renewing the Cove-'nant Chain with the *Six Nations*, and for making ſuch Preſents to them as has been uſual 'upon the like Occaſions. And we deſire that, in the Choice and Nomination of the Com-'miſſioners, you will take Care that they are Men of Character, Ability and Integrity, 'and well acquainted with *Indian* Affairs.

'As to the Time and Place of Meeting, it is left to the Governor of *New-York* to 'fix it, and he has Orders to give you early Notice of it.

We are, Sir, your very loving Friends,
and humble Servants,
DUNK HALIFAX,
J. GRENVILLE,
DUPPLIN."

And a Letter from the Commandant of the *French* Forces on *Ohio*, to Governor *Dinwiddie*, alſo ſent down with the foregoing Meſſage, was read, and follows in theſe Words, *viz.*

MONSIEUR,

COMME j'ai l'Honneur de commander ici en Chef, Monſieur Waſhington *m'a remis la Lettre que vous écriviez au Commandant des Troupes* Françoiſes. *J'aurois été charmé que vous lui euſſiez donné Ordre, ou qu'il eût été diſpoſé à ſe rendre en* Canada, *pour voir Monſieur nôtre Général, auquel il appartient mieux qu'à moi, de mettre au jour l'Evidence & la Réalité des Droits du Roi mon Maître ſur les Terres ſituées le long de la* Belle Riviere, *& de conteſter les Prétentions du Roi de la* Grande Bretagne *à cet égard.*

Je vais addreſſer vôtre Lettre à Monſieur le Marquis Duquiſne; *ſa Réponſe me ſervira de Loi, & s'il m'ordonne de vous la communiquer, Monſieur, je puis vous aſſurer, que je ne negligerai rien pour vous la faire tenir promptement.*

Quant à la Sommation que vous me faites de me retirer, je ne me crois pas dans l'Obligation de m'y rendre; quelques que puiſſent être vos Inſtructions, je ſuis ici en vertu des Ordres de mon Général, & je vous prie, Monſieur, de ne pas douter un Inſtant que je ſuis dans la conſtante Reſolution de m'y conformer avec toute l'Exactitude, & la Fermeté que l'on peut attendre du meilleur Officier.

J'ignore que dans le Cours de cette Campagne il ſe ſoit rien paſſé qui puiſſe être reputé pour Acte d'Hoſtilité, ni qui ſoit contraire aux Traités qui ſubſiſtent entre les deux Couronnes, dont la Continuation nous intereſſe, & nous flatte autant que Meſſieurs les Anglois. *S'il vous eût été agréable, Monſieur, d'en venir ſur ce Point à un Détail particulier des Faits que motivent vôtre Plainte, j'aurois eu l'Honneur de vous répondre de la Façon la plus poſitive, & je ſuis perſuadé que vous auriez eu lieu d'être ſatisfait.*

Je me ſuis fait un Devoir particulier de recevoir Monſieur Waſhington *avec la Diſtinction qui convient à vôtre Dignité, à ſa Qualité, & à ſon grand Mérite; je puis me flatter qu'il*

qu'il me rendra cette Juſtice auprès de vous, Monſieur, & qu'il vous fera connoître ainſi que moi le Reſpect profond avec lequel je ſuis, Monſieur,

1754. *February* 14.

Du Fort de la Riviere au *Bœuf*,
le 15 *Decembre*, 1753.

Votre tres humble
& trés obéïſſant Serviteur,
LEGARDEUR DE ST. PIERRE.

TRANSLATED INTO *ENGLISH.*

SIR,

'AS I have the Honour to command here in Chief, Mr. *Waſhington* delivered to me the Letter which you directed to the Commandant of the *French* Troops. I ſhould have been pleaſed if you had given him Orders, or if he himſelf had been diſpoſed to viſit *Canada* and our General, to whom, rather than to me, it properly appertains to demonſtrate the Reality of the King my Maſter's Right to the Lands ſituated along the *Ohio*, and to diſpute the Pretenſions of the King of *Great-Britain* in that reſpect. I ſhall immediately forward your Letter to Monſieur le Marquis *Duquiſne*; his Anſwer will be a Law to me: And if he directs me to communicate it to you, I aſſure you, Sir, I ſhall neglect nothing that may be neceſſary to convey it to you with Expedition.

A Letter from the Commandant of the *French* Forces on *Ohio*.

'As to the Requiſition you make, that I retire, I cannot believe myſelf under any Obligation to ſubmit to it. I am here in Virtue of my General's Orders; and I beg, Sir, that you would not doubt a Moment of my fixt Reſolution to conform to them, with all the Exactitude and Steadineſs that might be expected from a better Officer.

'I do not know that, in the Courſe of this Campaign, any Thing has paſſed that can be eſteemed an Act of Hoſtility, or contrary to the Treaties ſubſiſting between the two Crowns, the Continuation of which is as intereſting and pleaſing to us as it can be to the *Engliſh*.

'If it had been agreeable to you, Sir, in this Reſpect, to have made a particular Detail of the Facts which occaſion your Complaint, I ſhould have had the Honour of anſwering you in the moſt explicite Manner, and I am perſuaded you would have had Reaſon to be ſatisfied.

'I have taken particular Care to receive Mr. *Waſhington* with all the Diſtinction ſuitable to your Dignity, and to his Quality and great Merit; I flatter myſelf that he will do me this Juſtice, and join with me in teſtifying the profound Reſpect with which I am, Sir,

From the Fort of Beef-River,
December 15, 1753.

Your moſt humble, and moſt obedient Servant,
LEGARDEUR DE ST. PIERRE."

A Petition from the Owners of the Meadow Land, and other Ground, lying near the Road from *Philadelphia* to the *Point Ferry Houſe*, oppoſite to *Glouceſter*, was preſented to the Houſe and read, ſetting forth, that the ſaid Road leading from the Faſt Land to the ſaid Ferry is very uſeful and much frequented, but not being laid out by any Order of Court, is made too narrow, and having a Ditch on each Side, Carriages cannot paſs each other; that many horned Cattle are driven along the ſaid Road, and being generally wild and ungovernable, are dangerous and terrifying to Travellers, eſpecially Women; that the ſaid Road being narrow, has been frequently broke through, and rendered impaſſable by Storms, and high Tides, and the repairing ſuch Breaches is attended with conſiderable Difficulty, there not being a ſufficient Quantity of Gravel or ſuitable Earth near them; that if the ſaid Road was laid out of a ſufficient Breadth, not leſs than Eighty Feet, it would not only be much more capable to reſiſt the Weight and Violence of the Water, but there would be alſo ſufficient Earth and Materials for ſupporting the ſame; that the Petitioners have expended great Sums on the Repairs from Time to Time, and ſee no Hopes of putting an End to ſo grievous a Charge and Burden, unleſs the ſaid Road is made wider than the common Highways, which they conceive may be beſt effected by an Act of Aſſembly: They therefore pray that this Houſe would conſider the Premiſes, and grant the Petitioners Leave to bring in a Bill for the Purpoſes aforeſaid.

Ordered to lie on the Table.

Then the Houſe adjourned to Three o'Clock, *P. M.*

Adjournment *Poſt Meridiem.*

A Petition from ſundry Retailers of ſpirituous Liquors in this Province was preſented to the Houſe and read, ſetting forth, that the Exciſe laid on the ſpirituous Liquors retailed within this Province is a heavy Tax, the Weight of which principally lays on the Retailers; that they conceive, that if the Importers of ſuch Liquors were to pay a Duty of but *One-penny Halfpenny per* Gallon, upon the Importation, it would amount to more than the Exciſe now paid by them, as may be ſeen by a Paper annexed, and eaſe the Inhabitants of a conſiderable Burden; that one Perſon might then collect the Whole of the ſaid Duty, by which Means the Expence of ſupporting ſo many Exciſe Officers, and the Riſk to the Province of making bad Debts, will be much leſſened.

1754. February 14.

The Paper referred to in the above Petition was alſo read, and is as follows, *viz.*

Ordered to lie on the Table.

A Petition from ſundry Merchants, and Practitioners in the Law, living in the City of *Philadelphia*, ſetting forth the great Advantages that a Bridge over *Coneſtogoe* Creek would be of to the Inhabitants of this Province in general, was preſented to the Houſe and read, and *Ordered to lie on the Table.*

Ordered, That Candles be brought in.

And they were brought in accordingly.

Ordered, That a Meſſage be now prepared and ſent to the Governor, with the Bill for ſtriking *Forty Thouſand Pounds*, to be made current and emitted on Loan, and for re-emitting and continuing the Currency of the Bills of Credit of this Province; which being accordingly done, was read, approved of, and ordered to be tranſcribed.

The Meſſage being tranſcribed, follows in theſe Words, *viz.*

May it pleaſe the GOVERNOR,

A Meſſage from the Aſſembly to the Governor.

WE gratefully acknowledge the Governor's Care in all our *Indian* Affairs, and more particularly at this critical Juncture; it therefore cannot but be very agreeable to us to find he has already ſo far recovered his Health as to join with us in the Public Buſineſs now before the Houſe.

The diſtreſſed Circumſtances of the *Indians*, our Allies, on the River *Ohio*, demand our cloſeſt Attention, and we ſhall not fail to proceed in the Matters contained in the Governor's Meſſage with all the Diſpatch an Affair of ſo much Importance will admit of, in which we doubt not to comply with every Thing that can be reaſonably expected on our Part.

In the mean Time, having ſome Days ſince prepared a Bill, which we conceive abſolutely neceſſary, not only to the Trade and Welfare of this Province, but to the Support of Government, upon the Succeſs of which our Deliberations, at this Time, muſt in a great Meaſure depend; we now lay it before him as a Bill of the utmoſt Importance, and to which we unanimouſly requeſt he would be pleaſed to give his Aſſent."

And the ſaid Meſſage being ſigned by the Speaker, by Order of the Houſe;

Ordered, That *Joſeph Hampton* and *Peter Worral* do wait upon the Governor, and deliver the ſame.

Adjournment

Then the Houſe adjourned to Ten o'Clock To-morrow Morning.

February 15.

The Gentlemen appointed to wait upon the Governor with the Bill for ſtriking *Forty Thouſand Pounds*, to be made current and emitted on Loan, and for re-emitting and continuing the Currency of the Bills of Credit of this Province; and the Meſſage of the Houſe, report, that they had delivered the ſame according to Order, and that the Governor was pleaſed to ſay, he would take the Bill into Conſideration, and give it all the Diſpatch his Indiſpoſition would admit of.

The Accounts of the Provincial Hoſpital being laid before the Houſe by the Managers, in Purſuance of the Act of Aſſembly for eſtabliſhing the ſaid Hoſpital.

Ordered, That *Joſeph Trotter*, *William Callender*, *Mahlon Kirkbride*, *George Aſhbridge*, *James Wright*, *John Armſtrong*, *Moſes Starr* and *William Parſons* be a Committee to inſpect the ſaid Accounts, and to viſit the Hoſpital, and report the State thereof to the Houſe.

The Committee appointed to inſpect the Laws of this Province, *&c.* made their Report in Writing, which was read, and is as follows, *viz.*

Report of the Committee on Laws, *&c.*

WE, the Committee appointed to conſider what Laws of this Province are expired or near expiring, and what others need Amendment, *&c.* do report,

That the Act for the new Appointment of Truſtees, *&c.* paſſed in the Twenty-ſecond Year of the preſent Reign, is, ſo far as relates to that Appointment, now expired.

That the ſeveral Acts for eſtabliſhing of Ferries, except that for the Middle Ferry on *Schuylkill*, are expired.

That the Term of one Year mentioned in the Act for the Continuance of an Act, entituled,

entituled, *An Act for the better ſecuring the City of* Philadelphia *from the Danger of Gunpowder*, is expired; and as the preſent Situation of the Powder-houſe is inconvenient and dangerous to the Neighbourhood, of late Years grown much thicker, we think the Powder might be better placed at the Battery, below the Town, where we underſtand a Powder-houſe is already erected. 1754. *February* 15.

That the Laws relating to Roads want ſome Amendment, at leaſt to accommodate them to the particular Circumſtances of ſome Roads and Streets.

That the Act for prohibiting the Importation of *Germans*, or other Paſſengers in too great Numbers in one Veſſel, is defective, in not directing the Room each Freight ſhall have in Height, as well as in Length and Breadth; and alſo needs ſome other Proviſions to prevent the Abuſes thoſe poor Strangers complain of; and alſo to prevent the Importation of *German* Papiſts and Convicts.

That it might be of Uſe to both Landlords and Tenants, and prevent chargeable Suits for ſmall Dues, if Actions of Debt for Rent under *Five Pounds*, were not excepted in the *Five Pound* Act.

That as ſome Doubts have ariſen, whether Perſons under Age are bound by their Covenants to ſerve as Apprentices or Servants, it may be proper to aſcertain that Matter by a Law.

That there ſeems a Neceſſity of providing ſome Law to puniſh more effectually the Counterfeiters of Gold and Silver Coin, and the Paper Currency of the neighbouring Colonies paſſing in this Province. And alſo to prevent the paſſing of Counterfeit *Engliſh* Halfpence, which are now bringing in in great Quantities.

That great Frauds are complained of in the making up of Hemp for Sale in this Province, and in the packing of Butter for Exportation; and as nothing is more to the Reputation of a People, and the Advantage of Commerce, than Faithfulneſs in making up their Wares and Merchandize, we think a Law to remedy the above Evils will be very uſeful.

That if the ſeveral Poor Acts were reviſed, and reduced to one, we think it would be more convenient than to have them, as at preſent, diſperſed in the Book.

That the Clauſe relating to Witchcraft, in the Act for the Advancement of Juſtice, as it brings over a Statute ſince repealed, and ſeems unneceſſary here, may as well be repealed, and the Subſtance of the Statute made inſtead of it, in the Ninth of the preſent Reign, brought over in its Place.

That for the better Preſervation of the *Engliſh* Language in this Province, it may be proper to require by a Law, that all written Contracts be in *Engliſh*, and to give ſome Encouragement to *Engliſh* Schools in thoſe Parts of the Province where Foreigners are thick ſeated.

And that a Law for regulating the *Indian* Trade is, in our Opinion, now become abſolutely neceſſary.

All which is nevertheleſs humbly ſubmitted to the Houſe by

EVAN MORGAN, BENJAMIN FRANKLIN,
JOSEPH TROTTER, WILLIAM CALLENDER."
JOSEPH FOX,

GENTLEMEN,

A Meſſage from the Governor to the Aſſembly.

'AS neither my Inclination, the Shortneſs and Urgency of the Time, nor the Circumſtances of my Health, will admit of my engaging in Controverſy on the Subject of the Paper Money Bill, lately preſented for my Approbation, I will cut off all Occaſions for that, by giving, as I hereby do, an abſolute Negative to the Bill.

'You cannot but be ſenſible, Gentlemen, that the Funds you are now poſſeſſed of, which are to continue yet for ſeveral Years without Diminution, are greatly more than ſufficient for the Support of Government; and notwithſtanding what you are pleaſed to ſay of your "preſent Deliberations depending in a great Meaſure upon the Succeſs of your Money Bill," I promiſe myſelf I ſhall find you much better Subjects to his Majeſty, as well as greater Lovers of your Country than to ſuffer your Duty to the One, or your Zeal for the Preſervation of the other, to be governed by a Concurrence or Diſagreement of Sentiments between you and me, upon a Point in which each of us have an independant Right to judge for ourſelves.

'If, however, you ſhould be of Opinion, that there will be a Neceſſity to ſtrike a further Sum in Bills of Credit, to defray the Charges of raiſing Supplies for his Majeſty's Service in this Time of imminent Danger, and will create a proper Fund or Funds for ſinking the ſame in a few Years, I will concur with you in paſſing a Law for that Purpoſe, thinking myſelf ſufficiently warranted ſo to do, in Caſes of real Emergency.

'And now, Gentlemen, I hope you will, upon due Conſideration, be of Opinion with me, that the chief End of your Bill will be hereby, in a great meaſure anſwered, as the Sum to be ſtruck and circulated upon this Occaſion, will be ſuch an Addition to your preſent Currency, as probably may be thought ſufficient for ſome Time.

'I have nothing farther to ſay at preſent but to thank you for your Acknowledgements of my Care in *Indian* Affairs, and to preſs you to haſten your Reſolutions upon the Matters recommended in my laſt Meſſage, that I may as ſoon as poſſible be able to acquaint the Governor of *Virginia* what Aſſiſtance he may expect from this Province.

Ordered, That Candles be brought in.

And they were brought in accordingly.

The Message to the Governor being transcribed, was again read, and follows in these Words, *viz.*

May it please the GOVERNOR,

THE unusual Manner in which the Governor has been pleased to refuse his Assent to a Bill of the greatest Importance to the Prosperity and Welfare of this Province, appears to us particularly unfortunate at this Time, when an easy Access to the Governor, and free Conferences with each other, would so naturally tend to cement the several Branches of the Legislature, by the strong Ties of their mutual Interest, notwithstanding any supposed independent Rights on either Part. Yet as we apprehend it our Duty, under these Difficulties, and in all Circumstances, to contribute whatever lies in our A Message from the Assembly to the Governor.

1754. *February* 27. Power towards preſerving or reſtoring this Harmony, we have referred that Part of the Governor's Meſſage to be conſidered independent of the Royal Commands, and other preſſing Affairs recommended to us at this Time, in order that no ſeparate Intereſts of our own, which can poſſibly be avoided, may interfere with the Common Good of theſe his Majeſty's Colonies on the Continent of *America*.

Under theſe Conſiderations we have deliberately conſidered the other Matters contained in the Governor's Meſſages, and Letters to which they refer, in which we cannot but obſerve ſome Differences between the Royal Orders, ſignified by the Earl of *Holderneſſe's* Letter, as well as the Letter from the Lords of Trade, of the Eighteenth of *September* laſt, and the Light in which the Governor is pleaſed to repreſent them in his Meſſage of the Fourteenth Inſtant, for which Reaſon we ſhall undoubtedly ſtand excuſed if we recur to the Letters themſelves for the Rule of our Conduct in this great Affair.

The Earl of *Holderneſſe*, in his Letter of the Twenty-eighth of *Auguſt* laſt, has very minutely and preciſely directed the ſeveral Steps to be taken, and the Cautions to be uſed by the Governors of the Colonies, in regard to their own Defence, or when called upon by the neighbouring Provinces, or any others of his Majeſty's Colonies, for their mutual Aſſiſtance in Support of the general Intereſt of the *Britiſh* Dominions on the Continent; in which, as it is his Majeſty's Determination not to be the Aggreſſor, they are moſt ſtrictly commanded and enjoined, not to make Uſe of an armed Force, excepting within the undoubted Limits of his Dominions, and in that Caſe, under ſuch Reſtrictions only as are particularly ſet forth in the Royal Order.

As it would be highly preſumptuous in us to pretend to judge of the undoubted Limits of his Majeſty's Dominions on the Continent, ſo neither ought we to fix the Boundaries of this Province, beyond which, we apprehend, our own Forces are ſtrictly enjoined by no means to act as Principals, eſpecially as the Governor has not been pleaſed to furniſh us with any Materials for that Enquiry, were we ſo inclined, or were we the proper Judges; nor has he made the neceſſary Requiſition, or called upon us to reſiſt any hoſtile Attempts made upon any Part of his Majeſty's Dominions within this Government, but to grant ſuch a Supply as might enable him to raiſe Forces, to be ready to join thoſe of *Virginia* early in *March*, upon *Potowmack*. Under theſe Circumſtances, we hope, the Governor will concur with us, the moſt prudent Part will be to wait the Reſult of the Government of *Virginia*, as there is no Proviſion yet made there, ſo far as we know, for the raiſing any Forces on this Occaſion; nor in *Maryland*, their neighbouring Colony, or *New-Jerſey*, equally engaged in the general Intereſt of the *Britiſh* Dominions on this Continent, though the Governors have called upon their reſpective Aſſemblies for that Purpoſe, in Purſuance of the Royal Command ſignified to them in the circular Letter from the Earl of *Holderneſſe*, as above; and this Caution, we preſume, is more eſpecially becoming us, as it is well known the Aſſemblies of this Province are generally compoſed of a Majority who are conſcientiouſly principled againſt War, and repreſent a well-meaning peaceable People, deeply ſenſible of the great Favours, Protection and Privileges they enjoy under the preſent Royal Family, and therefore ready and willing to demonſtrate their Duty and Loyalty, by giving ſuch Sums of Money to the King's Uſe, upon all ſuitable Occaſions, as may conſiſt with our Circumſtances, or can be reaſonably expected from ſo young a Colony.

By the Accounts now before us, we find we have contracted a Debt of about *Fourteen Hundred Pounds*, for Preſents to the *Indians*, and other Charges ariſing from the late Treaty held at *Carliſle*, which we ſhall diſcharge chearfully, notwithſtanding our Proprietaries refuſe to contribute any Part of our *Indian* Expences, which have increaſed upon us exceedingly within theſe few Years; nevertheleſs we return our Acknowledgements to the Governor for his Care and prudent Conduct on that Occaſion, as well as to the Gentlemen who, under the Governor's Commiſſion, held the Treaty at that critical Juncture, to our Satisfaction, and, we hope, not only to our own, but to the general Intereſt of theſe Colonies, by demonſtrating to our *Indian* Allies the good Faith with which the Subjects of *Great-Britain* fulfil their Treaties, and the ready Aſſiſtance they may depend on under their Wants and Neceſſities.

The Letter from the Lords of Trade having left both the Time and Place of holding a Treaty with the *Six Nations*, to the Governor of *New-York*, he has thought fit to appoint it to be held at *Albany*, on the Thirteenth or Fourteenth of *June* next, as the Governor has been pleaſed to inform us: However inconvenient it may appear to us to hold our Treaties with the *Indians* at *Albany*, yet as all his Majeſty's Colonies, whoſe Intereſt and Security are connected with, or depend upon, the *Six Nations*, are invited to join in this Interview, if the Governor ſhould think it may be for the Intereſt or Advantage of this Province, to appoint Commiſſioners to be joined with thoſe of the other Governments on this Occaſion, we ſhall be willing to make the proper Proviſion for that Purpoſe, together with a ſmall Preſent; but as we have been already at ſo conſiderable

siderable an Expence at our late Treaty, it cannot be expected, nor do we apprehend it would answer any good Purpose, to make it very large at this Time. 1754. February 27.

We are now to join with the Governor, in bewailing the miserable Situation of our *Indian* Trade, carried on (some few excepted) by the vilest of our own Inhabitants, and Convicts imported from *Great-Britain* and *Ireland*, by which Means the *English* Nation is unhappily represented among our *Indian* Allies in the most disagreeable Manner. These trade without Control, either beyond the Limits, or at least beyond the Power of our Laws, debauching the *Indians* and themselves with spirituous Liquors, which they now make, in a great Measure, the principal Article of their Trade, in direct Violation of our Laws, supplied, as we are informed, by some of the Magistrates who hold a Commission under this Government, and other Inhabitants of our back Counties. These Laws now in Force, if duly put in Execution, we hope, would in a great Measure redress the Grievances complained of; but that no Endeavours may be wanting on our Part, we have appointed a Committee to consider if any Thing further in our Power can be done to remedy these Evils, and to bring in a Bill accordingly."

And the Message being signed by the Speaker, by Order of the House;

Ordered, That *William Callender* and *Calvin Cooper* wait upon the Governor and deliver the same.

Then the House adjourned to Ten o'Clock To-morrow Morning. Adjournment

The Gentlemen appointed to wait upon the Governor with the Message of the House, report, that they had delivered the same according to Order, and that the Governor was pleased to say, he would consider it, and return an Answer to the House if he found it required one. *February* 28.

A Letter from the Agent, just received, was laid before the House by one of the Committee of Correspondence, and read, and *Ordered to lie on the Table.*

Then the House adjourned to Three o'Clock, *P. M.* Adjournment *Post Meridiem*

A Message from the Governor, by the Secretary.

SIR,

'The Governor desires to have those Papers returned to him, which were sent down 'with his Message of the Fourteenth Instant; and if the House should have any further 'Occasion for them, they shall be sent down again."

And the said Papers being accordingly delivered to the Secretary, by Order of the House, he withdrew.

Then the House adjourned to Ten o'Clock To-morrow Morning. Adjournment *March* 1.

A Message from the Governor, by the Secretary.

SIR,

'The Governor commands me to acquaint the House, that observing among the Mi-'nutes of the last Assembly a Paper which he apprehended to be highly injurious to his 'Character, he had prepared an Answer thereto, which he would have laid before them 'at the Beginning of the Sessions, but being unwilling, for any private Consideration 'of his own, to divert the Attention of the House from the important Matters he then 'recommended to them, he has delayed it till this Time, when he understands they 'have not much Business before them."

And the Secretary being withdrawn, the written Message he brought down from the Governor was read, and follows in these Words, *viz.*

GENTLEMEN,

'UPON perusing the printed Minutes of your House of the Eleventh of *September* 'last, I find myself published to the World in so injurious a Light, merely for 'having paid Obedience to an Instruction from his Majesty, that I must not, in Duty to 'the King, as well as Justice to my own Character, suffer it to pass without some Ani-'madversion. And although you may not think yourselves accountable for the Con-'duct of a former Assembly, yet as the present House is made up of a great Majority of 'the same Members that composed the last, I shall not make any Apology for addressing 'myself to you as the Authors of the undeserved as well as unprovoked Treatment I 'complain of. A Message from the Governor to the Assembly.

'The Paper I refer to is the Report of a Committee of Assembly, appointed to con-'sider my Message of the Seventh of *September*, unanimously approved by the House; 'in which Report are pretty plainly contained the following Insinuations and Charges 'against me, *viz.*

"That I have not paid the same Regard to the Requests of your House as my Prede-"cessor did to the Sentiments of a former Assembly, on the like Occasion.

"That I have acted in direct Disobedience to an Instruction from his late Majesty of "the Year 1723.

"That I have kept your Bill, the only Bill of that Year, till your last Sessions, with-"out intimating in the least that I apprehended myself bound by an additional Instruction "to Governor *Thomas* in the Year 1740.

"That

1754. *March* 1.

" That I contend for, and have actually aſſumed a Power over the King's Inſtruction, " to remember or forget, to enforce or relax them, as it ſuits my Humour or my " Purpoſe."

' With regard to the Firſt; you are pleaſed to ſay, that it is clear to you, that both ' Governor *Thomas*, and the Houſe too agreed in the eſſential Point, *viz.* That the ' additional Inſtruction was binding upon neither of them. And that the Aſſembly, by ' making Uſe of the Diſtinction of ordinary and extraordinary Caſes, did convince him, ' that the Inſtruction was not to be ſubmitted to on its own Terms; and therefore, by ' giving his Aſſent to an Act for granting *Five Thouſand Pounds* for the King's Uſe, in ' direct Oppoſition to the King's Inſtruction, he ſhewed a greater Regard to the Senti- ' ments of that Aſſembly than you had any Reaſon to believe I have to the repeated Re- ' queſts of your Houſe.

' There is ſomething in this Paragraph that appears to me very remarkable; and al- ' though I would not willingly harbour a Suſpicion, that the Repreſentative Body of a ' whole Province would condeſcend to make Uſe of any Degree of Artifice (ſo unworthy ' even of private Men) to miſlead the Underſtandings of the People, merely with a View ' to aſperſe me, yet to me it has ſo much of that Appearance, that I muſt take Leave to ' examine the Fact upon which thoſe Aſſertions are founded.

' In the Year 1746, the late Governor, by his Majeſty's Order, called upon the As- ' ſembly for a ſufficient Quantity of Proviſions for the Subſiſtence of the Troops to be ' raiſed here for the Reduction of *Canada*.——In Anſwer to which, the Houſe acquaints ' him, that they are willing to give a Sum of Money for the King's Uſe; but, upon En- ' quiry, find, that neither the Treaſury nor Loan-Office are furniſhed with ſuch a ' Quantity beyond the other Exigencies of Government, as they are willing to give; ' and therefore propoſe the Striking a further Sum of Paper Money, to be placed out at In- ' tereſt, in like Manner as are the other Bills of Credit, current by a former Act, by ' which Means the Sum to be given might be repaid by the Intereſt of the Bills ſo ' lent out.

' In Anſwer to this, the Governor, by Meſſage of the Thirteenth of *June*, tells ' them, that he wiſhes it were as much in his Power as it is in his Inclination to agree ' with them in the Method by them propoſed for raiſing it. But that they muſt be ' ſenſible, from the *Royal Inſtruction*, communicated to a former Aſſembly, that he was ' forbid, under Pain of his Majeſty's higheſt Diſpleaſure, from paſſing any Act for ' ſtriking Bills of Credit, without a Clauſe reſtraining its Operation until the King's ' Pleaſure ſhould be known.

' In Reply to this Meſſage, the Aſſembly acquaint him, that they are willing to hope ' that, upon re-conſidering the Royal Inſtruction, he may think himſelf at Liberty to ' give his Aſſent to a Bill for ſtriking a further Sum of Money in Bills of Credit when ' any extraordinary Emergency requires it.

' Hereupon the Governor, by Meſſage of the Fourteenth of *June*, again acquaints ' them, that he really does not want Inclination to oblige them in any Thing they can ' reaſonably deſire; and therefore his Mortification is the greater, to be preſſed upon a ' Point he is not at Liberty to comply with; the King's Inſtruction, founded on the ' Addreſſes of the Houſes of Lords and Commons, being ſo poſitive, that he cannot ' bring himſelf to ſuch a Pitch of Boldneſs as to contravene it; and promiſes him- ' ſelf, upon due Conſideration of his being thus circumſtanced, the Houſe will proceed ' to ſome leſs *exceptionable Method* of raiſing the Sum deſigned to be granted for the ' King's Uſe.

' On Receipt of this Meſſage, the Houſe, finding the Governor was not to be warped ' from his Obedience to the Royal Inſtruction, immediately proceeded to paſs a Bill ' for giving *Five Thouſand Pounds* for the Uſe of the King, to be paid out of the Bills ' of Credit remaining in the Loan-Office for exchanging torn and ragged Bills, and for ' ſtriking and emitting other Bills to the ſame Value, to be ſunk by a Tax in Ten Years, ' which Bill was afterwards enacted into a Law.

' I ſhould now be glad to know, Gentlemen, upon this State of the Fact, which is ' taken from your own Minutes, what are the Proofs that have made it clear to you, ' that the late Governor agreed that the King's Inſtruction was not binding upon him, ' and that he acted in direct Oppoſition to it, ſince the very contrary is evident, as well ' from the whole Tenor of his Meſſages, as from his Perſeverance in refuſing to conſent ' to a Bill upon the uſual Terms, as the Aſſembly requeſted it (that is) without the ' ſuſpending Clauſe; although, as an Inducement thereto, the Houſe intimated to him ' an Intention they had of making an Addition to the *Five Thouſand Pounds* already ' voted, which they well knew was like to prove as prevailing an Argument with him ' as any they could make Uſe of.—It is true, he did, againſt the ſtrict Letter of the In- ' ſtruction, give his Aſſent to a Bill for ſtriking *Five Thouſand Pounds*, to replace what ' had been given for the King's Uſe; but upon due Conſideration, it muſt be obvious to ' every one, that the true and genuine Intention of that Inſtruction could relate only to

' Emiſſions

1754. March 1.

'Emissions on common and ordinary Occasions, by Means whereof, the Evils and Inconveniences specified in the Body of the Instruction had arisen; and to prevent which for the future, appears clearly to have been the sole End and Purpose of the Instruction. If again, on the other Hand, it be considered, that the Sum emitted in this Province, by Virtue of the Act of 1746, was very small, and occasioned by a very real Emergency; that the same was appropriated solely to his Majesty's Use, and that the Whole of it was to be sunk in a short Space of Time by Taxes, and without there being the least Probability of its producing any of the Inconveniences complained of: We must necessarily allow, that the late Governor (however he might disregard the strict Letter) never departed from the Spirit and Intention of the Instruction; and therefore cannot properly be charged with having acted in direct Opposition to it: For it would be an Absurdity too glaring to suppose that any Government would voluntarily tie up the Hands of its Subjects from serving it, by such Means as they are able, in Cases of great Emergency; and that this could never have been any Part of his Majesty's Intention, or that of the Parliament, in addressing him, is further evident from the late Act respecting the Four *Eastern* Governments, who, although prohibited on common and ordinary Occasions, yet, in Cases of real Emergency, are permitted to issue Bills of Credit, on Condition that sufficient Funds be provided for sinking the same in a short Space of Time, which was exactly the Case with respect to the Sum emitted by the Governor and Assembly of this Province.

'Having, I hope, incontestably proved, that the true and real Intention of the Royal Instruction, could have been no other than to guard against the Abuses enumerated in the Body of it, and that the Act for granting *Five Thousand Pounds* to the King's Use, passed by the late Governor, in 1746, being of a singular and quite different Nature from Acts passed upon ordinary Occasions, could not therefore be comprehended within the Meaning of the said Instruction; I proceed now to ask the Gentlemen of the Assembly, whether the Distinctions between an Act for emitting a large Sum of Money on a common and ordinary Occasion, the Interest of which the Country is to reap the whole Benefit of, to be current for a long Term of Time without Diminution, and an Act directly the Reverse of this in all Respects, did never occur to them? If these Distinctions did occur to them, and it is next to impossible that they should not, I ask them again, with what Degree of Candour they could affect to consider them as one and the same Case? And thence take Occasion to charge me, with having less Inclination to oblige the People under my Government, than my Predecessor. Did the House ever offer me a Bill of any thing like the Tenor of that of 1746, that I refused my Assent to? I am persuaded they will not say it: How then is it possible they should know, that, upon a like Occasion, I should be less willing than my Predecessor to oblige them.

'*Secondly*, With regard to the additional Instruction of the Twenty-third of *July*, 1723, I have this to alledge for myself, that, previous to my Message of the Seventh of *September*, I had caused the Minutes of Council, and all the Papers in that Office, to be very carefully inspected, without being able to discover the least Footsteps of that or any other Instruction to the like Purpose. And as I had never heard of any such being directed to the Governors of this Province, I may reasonably claim some Excuse, destitute as I was of the Means of Information, for having presumed (for in Reality it is but a Presumption) that no Instruction of that Kind had been at any Time sent here: Yet, when the House, without the least Occasion given by me, departs from that Decency, both of Matter and Language, which they must be sensible ought inviolably to be observed between the different Branches of the Legislature; and, instead of imparting to me the Information they were possessed of, touching the Matter in Controversy, go on to utter Reflections and Insinuations of a most invidious Nature, I am afraid they will stand in Need of greater Allowances for their Conduct than even a good-natured Man may be willing to make.——Pray, Gentlemen, if I had even asserted, which I did not, that no Instruction like that of the Year 1723, had ever been directed to the Governor of this Province, would it have been any great Stretch of your Charity to have supposed me, as I really was, ignorant of it? Or would it have been unbecoming the Honour of your House, to one in my Station, to have enquired into the Truth of the Matter, before you had proceeded to charge me in Print, for I can call it no less,

" With remembering or not remembering a Royal Instruction, as it best suited my " Purpose.

" With having purposely forgot the Instruction of 1723, although possessed of the " Original (which is not true) because it did not suit my Purpose, and remembering that " of the Year 1740, because it did.

" With having little Regard to the Liberties and Privileges of the People under my " Government, though you are not able to give an Instance wherein I have infringed " them.

1754. *March* 1.

" With having totally diſregarded the Lords Juſtices Inſtruction of 1723, which at " that Time I had never ſeen or heard of."

' Or is my Character ſo notorious with you for Falſhood and Diſſimulation, that any ' involuntary Miſtakes, by me committed, would not have admitted of a milder Con- ' ſtruction than you have been pleaſed to put upon them? If I have given you Reaſon to ' entertain this Opinion of me, you will be the better juſtified in having cenſured ſo ' ſeverely: But if, on the contrary, I have ever acted with Integrity and good Faith ' towards all the Aſſemblies that have met during my Adminiſtration, then, I muſt needs ' tell you, that you have been vaſtly deficient in that Charity and Benevolence which, ' as Members of Society, we mutually owe to one another, as well as extremely cruel to ' yourſelves; ſince upon what other Principle, than that of Charity, can you hope to ' be excuſed for having poſitively aſſerted in your Meſſage of the Fifth of *September*, that ' there never had been a ſingle Inſtance of the paſſing any Law, under the Reſtrictions ' contended for by me, from the firſt Settlement of the Province to that Day, when, in ' turning to our own Book of Laws, you might have ſatisfied yourſelves, that, in an Act ' preſcribing the Forms of Declaration, *&c.* the ſuſpending Clauſe is inſerted in the ' fulleſt Manner? And yet I ſincerely declare, that I never thought otherwiſe of this, ' than as of a Miſtake you had fallen into through Precipitation, and a Zeal for the ' Cauſe you had in Hand, without ever thinking I might be juſtified in inſinuating ' that you either willingly told an Untruth, or that you thought yourſelves at Liberty to ' remember or forget the aforeſaid Act of Aſſembly, as it beſt ſuited the Purpoſe, ' in your Controverſy with me.

' I confeſs myſelf at a Loſs to underſtand what is meant by the Houſe in ſaying, that ' I have acted in direct Diſobedience to the Lords Juſtices Inſtructions of the Year 1723, ' as on the moſt careful Recollection, I cannot call to Mind the having paſſed any Act ' that can poſſibly fall within the Meaning of that Inſtruction (which relates alone to ' private Acts concerning Lands and Meſſuages) ſince my Acceſſion to this Government. ' Yet, even ſuppoſing that to have beenthe Caſe, I may with ſome Appearance of Reaſon ' expect to be pardoned; ſince it is hoped, that none can be ſo unjuſt as to con- ' ſtrue that a wilful Diſobedience, which aroſe entirely from my Ignorance of there be- ' ing any ſuch Inſtruction, after taking the utmoſt Pains to be informed.

' I acknowledge, Gentlemen, you have now ſhewn me that ſuch an Inſtruction does ' ſubſiſt; and am extremely glad to hear you at laſt declare it to be your Opinion (how- ' ever contradictory to many Parts of your Meſſage and Report) that *all Royal Orders and* ' *Inſtructions* ſubject the Governors to whom they are directed, and their Succeſſors too, ' to the Royal Diſpleaſure, unleſs ſuch Inſtructions, are revoked by his Majeſty's Autho- ' rity. If then, as you juſtly ſay, all Royal Orders and Inſtructions, unrevoked, are bind- ' ing upon the Governors to whom they are directed, and their Succeſſors too, why is ſo ' much Reſentment ſhown on your Part, on Account of my having paid Obedience to ' thoſe Inſtructions, which, by your own Acknowledgement, I am bound to pay, under ' Pain of his Majeſty's Diſpleaſure? Upon this Declaration of yours, I will once more ' appeal to your own Breaſts, with regard to the Reaſonableneſs of your requeſting me ' to diſregard thoſe Inſtructions, at the certain Diſadvantage of incurring his Majeſty's ' Diſpleaſure, and perhaps to the Injury of my private Fortune, and Loſs of my ' Character. And if (as you ſeem to ſuppoſe) the King, by having paſſed the Paper ' Money Act laid before him in 1751, has judged all the Purpoſes of that Inſtruction to ' be anſwered, can there be a more favourable Seaſon than the preſent to apply to his ' Majeſty for a Revocation of it? Or by whom can the Application be ſo properly made ' as by the People's Repreſentatives, who look upon their Conſtituents to be moſt ag- ' grieved by it, ſince, by your own Acknowledgement, no Governor can diſpenſe with ' paying Obedience to it, until revoked, but at the Riſk of incurring his Majeſty's Diſ- ' pleaſure? which it is very improbable any Governor will be hardy enough to do.

' *Thirdly*, You are pleaſed to ſay, that I have kept your Bill, the only Bill of that ' Year, till your laſt Seſſions, without intimating in the leaſt, that I apprehended myſelf ' bound by an additional Inſtruction to Governor *Thomas*, in the Year 1740.

' Had I been inveſted, Gentlemen, with a Power to direct the Aſſembly how many ' Bills they ſhould prepare and offer to me in any one Year, and had made Uſe of that Power ' to limit or reſtrain them to the particular Bill in Queſtion, in Excluſion of all others, ' there might have been ſome Reaſon for their having laid ſuch Streſs upon the Words, ' *only Bill*. But as it is well known, that no Governor is, or ought to be, poſſeſſed of ' ſuch a Power, and that the Aſſembly is at full Liberty to prepare and offer ſo many ' Bills, and of ſuch Sort, as appear to them expedient, without the leaſt Check or Con- ' trol from any Body, to whoſe Account ought the Fault to be charged (if in Truth it ' be a Fault) that it was the only Bill of that Year? To mine, who neither had nor ' claimed any Authority to interfere at all in their Proceedings? Or to theirs, who, al- ' though inveſted with the Power, yet upon that Occaſion declined to make Uſe of it?

' That

1754. March 1.

'That I kept your Bill from the Month of *May* to the Month of *Auguſt* following, in 'order the better to conſider it, is very true; nor will you deny that I had an unqueſtion-'able Right ſo to do; but how could that poſſibly interfere with your preparing 'Bills to be paſſed into Laws in the Months of *January* and *February* preceeding, which 'is known to be the uſual Time of the Aſſembly's Sitting to do Buſineſs here? Or to 'what Purpoſe ſhould I have intimated to you any thing reſpecting that Inſtruction 'till the Bill came before you again upon my Amendments? At which Time, I had ſo 'little Apprehenſion of your objecting to the Validity of that Inſtruction, that I looked 'on the Bill as good as paſſed; and that not only the Members of Aſſembly, but every 'Inhabitant the leaſt converſant in public Affairs, were acquainted with that ſtanding 'Inſtruction.

'*Fourthly*, That I contend for, and have actually aſſumed a Power over the King's In-'ſtructions, to remember or forget, to enforce or relax them as it ſuits my Humour or 'my Purpoſe.

'I am ſorry, Gentlemen, you ſhould have ſpent ſo much Time and Labour in endea-'vouring to find out the Meaning of what appears to me a very plain and artleſs Sen-'tence, in my Meſſage of the Seventh of *September*, and which muſt have appeared 'equally plain to you, had it been read with the ſame candid Diſpoſition with which 'it was wrote.——Let us examine the Words themſelves, and the Occaſion of their 'being uſed, as from thence we ſhall ſee whether they will bear the Interpretation you 'have been pleaſed to put upon them. The Aſſembly, in their Meſſage of the Fifth 'of *September*, made Uſe of ſeveral Arguments to prove that the King's Inſtruction either 'never was, or that the Ends of it having been anſwered, it could no longer be 'binding on the Governors of this Province; and therefore hoped I would think myſelf 'not at all concerned therein, and paſs their Bill as it then ſtood; that is, in direct Op-'poſition to the King's Inſtruction. But as I had not the good Fortune to be convinced 'by their Arguments, and as it would have been highly impertinent in me, to have en-'tered into a Vindication of what had been adviſed by the two Houſes of Parliament, 'and aſſented to by his Majeſty, I concluded, with telling them in my Anſwer, that 'they would certainly allow me to judge for myſelf of the Neceſſity I was under of pay-'ing Obedience to the King's Inſtruction, when a Diſregard of it was threatened with 'his Majeſty's higheſt Diſpleaſure; the Meaning of which Sentence can be no other 'than this, that as I was threatened with the King's higheſt Diſpleaſure, in caſe I diſ-'obeyed his Inſtruction; therefore they muſt allow me to judge for myſelf, between the 'Force of the Arguments by them adduced to invalidate the ſaid Inſtruction, and my 'own Opinion of its continuing to bind me.

'It is impoſſible any other Conſtruction can be fairly put upon theſe Words: And yet 'the Aſſembly, by having in the firſt Place taken ſomething for granted, which in it-'ſelf is abſolutely without Foundation; and in the next, by perverting the clear Mean-'ing and common Senſe of my Words, have plainly inſinuated, as if I contended for, 'and actually aſſumed a Power over the King's Inſtructions, to remember or forget, to 'enforce or relax them, juſt as it ſuited my Humour or my Purpoſes.——This, Gentle-'men, among many others, is ſuch an Inſtance of Unfairneſs as aſtoniſhes me; and 'could, in my Opinion, have proceeded from nothing leſs than a determined Reſolution 'to differ with me; and which (could I prevail on myſelf to break through the Rules 'I have preſcribed for my Conduct with regard to Gentlemen in your Station) would 'require, as it juſtly merits, the ſharpeſt Return.

'Added to theſe, you have, I obſerve, upon ſeveral Occaſions, given it as your 'Opinion, that I am reſtricted by Proprietary Inſtructions, as well as thoſe from the 'Crown. How conſiſtent it may be with the Rules of Parliamentary Proceedings, to 'take Notice of any thing reſpecting me, which does not come properly before you 'from myſelf, I leave you to judge: But I am perſuaded, that had I adminiſtered the 'like Occaſion of Complaint to you, you would not have been backward in charging 'me with a Breach of your Privileges. Did any of the Amendments propoſed to the 'Paper Money Bill, look as if they had been dictated by Proprietary Inſtructions? Or 'was any thing offered on my Part, but what was common in your former Acts; ex-'cept what I was obliged to add, in Conſequence of the King's Inſtruction? With 'which had you then acquieſced, 'tis more than probable your Bill would by this Time 'have received the Royal Sanction, and you have been put in Poſſeſſion of what you 'appear ſo ſolicitous about.

'I muſt not, however, omit to return you my Thanks in Behalf of the Proprietaries, 'for the Regard you are pleaſed to expreſs for their Rights, in your Reſolve relating to 'the Royal Inſtruction; an equal Concern for all their other Rights, as they come occa-'ſionally before you, cannot fail of receiving their juſt Acknowledgements, and of en-'titling the People you repreſent, to all the Favours and Benefits they are capable of 'beſtowing.

'Having

1754. *March* 1.

'Having gone through what appeared worthy of Obſervation in the Report, I now 'proceed to enquire what Part of my Conduct can have given Occaſion to ſuch Re-'ſentment as to induce you to lay aſide thoſe Rules of Civility ſo conſtantly practiſed by 'Legiſlative Bodies, and to treat me in a Manner, which nothing leſs than an actual 'Invaſion of your Liberties and Privileges, or ſome other notable Provocation can ever 'juſtify; and which, were I to imitate, by giving the ſame free Scope to my Paſſions, 'I leave you to judge, how the public Buſineſs could be carried on.

'Was there any thing either in the Manner or Matter of my Meſſage, that neceſ-'ſarily called upon you for ſuch a Return? I am perſuaded you will acquit me of that.

'But you ſay you have no other Method to ſecure yourſelves from future Inſinuations, '*&c.* but by leaving your Sentiments, *&c.* on your Minutes in the cleareſt Manner 'you are able. I agree with you, Gentlemen, that if you apprehended the Intereſt of 'your Conſtituents might be injured by your Silence, the Deſign was highly laudable. 'But was it ever known, that an Argument loſt any thing of its Force by being handled 'in a modeſt and decent Manner? Or could you not have left your Sentiments, *&c.* 'on your Minutes, without uttering the moſt injurious Inſinuations againſt me?—— 'You muſt be ſenſible, other Governors and Aſſemblies have differed in Opinion, upon 'Points nearly of the ſame Nature with this; but have thoſe Aſſemblies therefore be-'haved to their Governors, as if it was a Crime in them to have been charged with In-'ſtructions from the King? Or proceeded to inſiunate, becauſe they thought themſelves 'obliged to yield Obedience to thoſe Inſtructions, that therefore they had no Regard 'to the Liberties and Privileges of the People? Or that it was evident, the good People, 'or their Repreſentatives, were not to expect to have any Influence over their Gover-'nors on that, or any other Occaſion? I am perſuaded, Gentlemen, you will not be 'able to find a ſimilar Inſtance on ſo ſlight an Occaſion, in the Records of any Aſſem-'bly in his Majeſty's Dominions, and conſequently that the Report of your Committee 'is a Paper of the firſt Impreſſion.

'Had I been an Enemy to the Liberties and Privileges of the People, or been deſi-'rous of gratifying my own Paſſions at their Expence, it muſt be confeſſed you have fur-'niſhed me with the faireſt Occaſion a Governor ſo diſpoſed could poſſibly have wiſhed 'for. For Example; you have voted a Clauſe, propoſed to be added to your Bill by 'his Majeſty's expreſs Direction, at the Requeſt of his two Houſes of Parliament, to 'be deſtructive to the Liberties of the People of this Province, *&c.* and have even 'threatened to examine the Validity of the King's Inſtruction, if by a Perſeverance in 'my Opinion, I laid you under the Neceſſity of doing it. What is this leſs than de-'claring that the Lords and Commons, and his Majeſty's Privy Council, conſiſting, 'among others, of the moſt eminent Lawyers in *Great-Britain*, have requeſted, and 'his Majeſty enjoined, an Act directly contrary to Law?

'If then, in Conſequence of the Indignation you cannot but ſuppoſe me to have con-'ceived at finding myſelf ſo unworthily uſed, for no Cauſe given on my Part, I had 'tranſmitted to his Majeſty's Miniſters, a Repreſentation or Complaint of the foremen-'tioned Proceedings, aggravated with all the invidious Conſtructions of which they are 'capable, and which an abuſed or provoked Man might think himſelf well juſtified in 'making Uſe of, can you think the Conduct you held upon that Occaſion would con-'tribute any thing to the better recommending you to his Majeſty's Favour? Or might 'it not rather tend to encreaſe the Jealouſies and Suſpicions already too eaſily enter-'tained of theſe Colonies by our Superiors; and perhaps terminate finally in an Act to 'compel Obedience, not to one, but all Inſtructions from his Majeſty? Which I hope 'will never be the Caſe, though you muſt be ſenſible it has more than once been me-'ditated by Gentlemen of great Weight and Authority in the *Britiſh* Parliament.

'But if, on the contrary, all this has been avoided, and I have endeavoured to ſup-'preſs, as much as in me lay, any Reſentment by which the Public may be affected, 'in Hopes of a more diſpaſſionate Behaviour on your Part for the future, I flatter myſelf 'with having done the People of this Province as effectual a good Service by my Mo-'deration, as you, by all the Zeal and Warmth you have expreſſed upon the Oc-'caſion.

March 2. The Committee appointed to examine *George Croghan's* Account, exhibited to the Houſe on the Twenty-firſt of laſt Month, reported, that they were of Opinion, he ought to be allowed the Sum of *Seventy-three Pounds Two Shillings*, being the Balance of his ſaid Account; to which the Houſe aſſenting, an Order was drawn on the Treaſurer for Payment of the ſame, and ſigned by the Speaker, by Order of the Houſe.

Reſolved, That the Sum of *Seventy-nine Pounds One Shilling and Four-pence* be now allowed to *Andrew Montour*, in full for his Expences and Trouble in the Service of this Government to the preſent Day.

And an Order was accordingly drawn on the Treaſurer, and ſigned by the Speaker, by Order of the Houſe, for Payment of the ſame.

The Governor, by his Secretary, ſent down to the Houſe a written Meſſage, which was read, and is as follows, *viz.*

GENTLEMEN,

A Meſſage from the Governor to the Aſſembly.

'IN all Tranſactions with the Aſſemblies of this Province ſince my Acceſſion to the Government, I have conſtantly endeavoured to confine myſelf within the undoubted and well known Limits of the Powers entruſted to me by my Commiſſion, without ever deſignedly attempting the leaſt Infraction or Invaſion of the Privileges of your Houſe.——That the Right of refuſing my Aſſent to any Bill offered me by the Aſſembly, without aſſigning Reaſons, is incident to the Station I have at preſent the Honour to fill, I am perſuaded you will not deny, inaſmuch as the ſame has not only been frequently exerciſed by my Predeceſſors, without any Complaint from the Aſſemblies on that Account, but has alſo been expreſly acknowledged by them to be ſo in the fulleſt and plaineſt Words.

'I hope never to be juſtly chargeable with uſing the Powers I am inveſted with in a wanton or extravagant Manner; and therefore, as I do not conceive myſelf to be accountable to you for my Conduct on the preſent Occaſion, I cannot but look on your having taken Notice of it in the Way you have done to be a good deal more *unuſual and unprecedented* than the Practice complained of.

'If I rightly know myſelf, I may venture to ſay, that no Man in my Station has ever been more deſirous or taken more Pains than myſelf to eſtabliſh and preſerve Peace and Harmony between the ſeveral Branches of the Legiſlature, as well as throughout the whole Province; and I am ſtill ready to contribute every Thing in my Power to ſo good a Purpoſe, conſiſtent with my Honour, and the Truſt repoſed in me. But if, in order to reſtore and preſerve this Harmony, it be expected that I ſhould make a Sacrifice of any of the Rights of Government, or part with my negative Voice, with reſpect to all Bills that may be laid before me, I ſhall look upon the Purchaſe, however deſirable in itſelf, as made at too dear a Rate; being firmly of Opinion, that ſuch a Change in the Conſtitution would be productive of more real Miſchiefs and Inconveniences to the Province, than are to be apprehended from any temporary Diſagreement between a Governor and Aſſembly.———I would not here be underſtood to mention this as a Thing you have actually and in expreſs Terms demanded of me; yet upon the moſt careful Review of all that has paſſed, I am not able to diſcover any other Cauſe for the Interruption of that Harmony which, for ſeveral Years, ſubſiſted between us, and for the late indecent Treatment I have received, in a Paper publiſhed by your Houſe, than my having refuſed to paſs ſome Favourite Bills upon your own Terms.——If this then ſhould have been the Caſe, what is it leſs in Effect, than endeavouring to intimidate me from exerciſing my Judgment upon ſuch Bills as come before me in my Legiſlative Capacity, under Pain of incurring your ſharpeſt Reſentment; and conſequently to deprive me of the Negative inveſted in me by the Conſtitution.

'But waving every Thing of an inferior Nature, I proceed to that Part of your Meſſage, of the Twenty-ſeventh of laſt Month, wherein you are pleaſed to ſay, you obſerve ſome Differences between the Royal Commands ſignified in Lord *Holderneſſe's*

'Letter

1754. March 2.

'Letter, and the Light in which I repreſent them in my Meſſage of the Fourteenth 'Inſtant. If there was any Defect in the Form of my calling upon you for ſuch Sup-'plies as might enable me to do what his Majeſty has enjoined to be done, in Caſe of 'any hoſtile Attempts upon any Part of his Majeſty's Dominions, namely, to repel Force 'by Force, I would willingly have hoped, that your Duty to his Majeſty would rather 'have induced you to ſupply any Omiſſion of mine in that Reſpect, eſpecially as every 'Means of Information I was poſſeſſed of was laid before you, than that you would 'have attempted to elude the Force of a Demand made upon you by his Majeſty's ex-'preſs Orders, by ſuch an Evaſion, as that of my not having done it in the very Words 'of Lord *Holderneſſe's* Letter. The Words of my Meſſage are ſo full, and though 'not a bare Repetition of his Lordſhip's, yet ſo very agreeable to them in their Senſe 'and Meaning, that it is impoſſible you ſhould have underſtood them in any other Light 'than as referring to Lord *Holderneſſe's* Letter, eſpecially as that Letter then lay 'upon your Table: However, as I find you have in ſome Meaſure made that a Pre-'tence for not complying with my Demand made upon you by his Majeſty's Order, I 'deſire you will pleaſe now to be informed, that I have undoubted Aſſurance that Part 'of his Majeſty's Dominions, within my Government, is at this Time invaded by the 'Subjects of a Foreign Prince, who have erected Forts within the ſame: And further, 'that you will take Notice, that I do now call upon you, purſuant to his Majeſty's Or-'ders, in the preſent Emergency, to grant ſuch Supplies as may enable me to draw 'forth the armed Force of the Province, in order to reſiſt theſe hoſtile Attempts, and to 'repel Force by Force.

'But you are pleaſed further to ſay, that you ought not to fix the Bounds of this 'Province; and that if you had been ſo inclined, I had not furniſhed you with any Ma-'terials for the Enquiry. Pray, Gentlemen, did you ever aſk me to furniſh you with 'Materials for this particular Enquiry? If you did not, which I aver to be the Caſe, 'whence the Inſinuation as if I had omitted to furniſh you with all the Means of In-'formation that were in my Power? Was it poſſible for any Body to think you could 'have been ſo unconcerned about a Matter of ſuch vaſt Conſequence, as an Invaſion of 'his Majeſty's Dominions (which was ſo ſtrongly repreſented to you in my Meſſage as 'being very near to us) without making an Enquiry touching the Place and Situation 'where theſe Hoſtilities were ſaid to be committed; or whether the ſame was or was 'not within the Limits of our own Province, eſpecially as you might ſo eaſily have ſatisfied 'yourſelves in that Point by the Papers laid before you, and the Perſons you had under 'Examination? By theſe it would have appeared to you, that *Logs-Town* the Place 'where the *French* propoſe to have their Head Quarters, is not at the Diſtance of five 'Degrees of Longitude from the River *Delaware*, and not to the Southward of fifteen 'Statute Miles *South* of this City; and that the Courſe of the *Ohio*, from that Place to '*Weningo*, which the *French* have taken Poſſeſſion of, and from whence they have 'driven away our Traders, is to the *North-Eaſt*, and conſequently nearer to us. It is 'likewiſe well known, that a Perſon apprehended for committing a Murder at *Shanop-'pin*, which lies ſtill *South* of *Logs-Town*, was tried in the Supreme Court at *Philadel-'phia*, and the Evidence of the Place being within the Limits of this Province was ſo 'clear to the Court and Jury, that he was convicted of Manſlaughter, and ſuffered his Pu-'niſhment accordingly. Upon this Occaſion I muſt needs tell you, Gentlemen, that if 'you really did make this Enquiry, and received Satisfaction therein, your Sup-'preſſion of the Truth is extremely diſingenious with regard to me; and that if you did 'not make it, I can impute the Neglect to no other Cauſe, than a Deſire to have a 'plauſible Excuſe for not paying a proper Regard to his Majeſty's Commands.

'I did not expect to have had it objected to me, as a Failure in Duty, that I did not 'make the Requiſition mentioned in Lord *Holderneſſe's* Letter, by Gentlemen of your 'Perſuaſion: You muſt be all ſenſible that I have ever been extremely tender with Re-'gard to that Point; and have upon all Occaſions avoided preſſing you importunately 'upon Matters about which I knew you to have any Scruples; and therefore thought 'it a very lucky Circumſtance that Governor *Dinwiddie* undertook the Taſk of making 'the Requiſition, which otherwiſe I ſhould have been obliged to do, in Obedience to 'his Majeſty's Commands, being ſenſible that the Hoſtilities complained of were 'committed within our own Province. Had I made the Requiſition, would it not, in 'Effect, have been ſetting this Province in the Front of the Oppoſition? And had you 'afterwards refuſed to grant Supplies for repelling theſe Invaders, would it not have 'expoſed us to the Contempt and Deriſion, as well of the *French*, as our *Indian* Allies? 'But the Requiſition is now made by one of his Majeſty's Governors, and you have ſeen 'the Anſwer of the *French* Commander, avowing theſe Hoſtilities.

'You have likewiſe ſeen in the late Treaty of *Carliſle* the Anſwers of the *French* Com-'manders to the Requiſitions made by the *Indians* of the *Five Nations*, whom the King 'of *France*, in the Treaty of *Utrecht*, an Extract whereof was laid before you,

'acknowledges

1754. *March* 2.

'acknowledges to be ſubject to the Dominion of *Great-Britain*; wherein theſe *French* 'Officers declare they have the Orders of the King their Maſter to oppoſe them, and 'every one elſe, who ſhould obſtruct their making themſelves Maſters of that Country. 'And now theſe *Indians*, reduced as they are to the laſt Neceſſity, moſt earneſtly beſeech 'us, in Conſequence of the Treaties made by them with this and others of his Ma- 'jeſty's Colonies, to build Places of Refuge, to which their Wives and Families may 'repair for Safety and Protection; and to ſend them our Warriors to aſſiſt them againſt 'theſe their Enemies, alledging they are too weak to make any conſiderable Reſiſtance 'of themſelves, and muſt ſubmit to their ſuperior Force, and loſe their Lands and Com- 'merce with us, if we do not ſend them an armed Force.

'What then remains, but that you immediately proceed to grant the neceſſary Sup- 'plies for reſiſting theſe hoſtile Attempts, and thereby ſet a good Example to the neigh- 'bouring Colonies, whoſe Conduct upon this Occaſion ought not to be a Rule for us, 'who are the Province invaded, and conſequently in the moſt immediate Danger; which 'if you refuſe to do, how can you be ſaid to fulfil our Treaties, and "give the *Indians* "the ready Aſſiſtance they depend on under their Wants and Neceſſities?" Or how do 'you "demonſtrate your Duty and Loyalty to his Majeſty, by giving ſuch Sums of "Money for the King's Uſe upon all ſuitable Occaſions as can be reaſonably ex- "pected?"

'I for my Part have done my Duty, and any ill Conſequences that may happen, will 'not lie at my Door; and therefore, Gentlemen, I earneſtly exhort you to do yours, 'and in every Reſpect to act up to the high Truſt repoſed in you, as the Repreſentatives 'of the People, that when an Account of our Tranſactions, in Conſequence of his Ma- 'jeſty's Orders, ſhall be laid before our Sovereign, which muſt neceſſarily be done, both 'Parts of the Legiſlature may receive his Royal Approbation.

'That Part of your Meſſage I cannot ſuffer to paſs unobſerved, wherein you are 'pleaſed to ſay, that the Proprietaries refuſe to contribute any Part of your *Indian* Ex- 'pences, which have increaſed upon you exceedingly within a few Years. It is true, 'they have refuſed to do ſo in the Manner you expected, and have given you their Rea- 'ſons for the Refuſal: But you cannot have forgot the Propoſal I made to you in 1750 'and 1751, by their Order, with reſpect to the Building a ſtrong Trading-houſe near 'the Place now invaded and poſſeſſed by the *French*; which generous Offer had you 'then thought fit to have cloſed with, all the Miſchiefs we now apprehend might have 'been prevented at a ſmall Expence to the Province, and that Country ſecured to the '*Engliſh*, which hereafter to recover will probably be attended with the Loſs of many 'Lives, as well as a heavy Charge to the Country.

'I join with you in Opinion, that it is for the Intereſt and Advantage of the Province, 'and our indiſpenſable Duty, to ſend Commiſſioners to *Albany*, in Concert with thoſe 'of the other Governments on this Occaſion; and I will take Care to appoint ſuitable 'Perſons for this Purpoſe, and chearfully concur with you in any proper Bill for the 'Regulation of the *Indian* Trade.

'I will enquire into the Conduct of the Magiſtrates of *Cumberland* County, which, 'if found to be as you have ſet it forth, renders them highly unworthy of the Commiſſion 'they bear.

Evidences

Evidences relating to the *Western* Bounds of *Pennsylvania*, which convinced him that the Hostilities, mentioned in his Message, were committed within this Province, and he made no Doubt but they would be as convincing to the House; and that the Governor was pleased further to say, he had not received any Advices from *Virginia* since those he communicated to the House. 1754. March 5.

The Petition against Gaming and Gaming-houses was again read, and considered, and, after some Time spent thereon;

A Petition from sundry Inhabitants of *Philadelphia* and *Chester* Counties, was presented to the House and read, setting forth, that the Petitioners, with sundry others, do hold in common divers Pieces or Parcels of Marsh or Meadow Ground, situated on the River *Delaware*, and the navigable Parts of several Creeks in the said Counties; that some of the Possessors and Occupiers of the said Meadow Ground held in common with the Petitioners, do refuse to uphold and maintain the Frontier Banks, joining on the said River and Creeks, or to bear their proportionable Part of the Expence thereof, whereby the Water often overflows and drowns the said Petitioners Meadow Ground, and totally destroys their Interest therein, which would otherwise be very valuable; they therefore pray this House to take their Case into Consideration, and provide such Remedy for the Grievance complained of, as shall be judged most meet. *Ordered to lie on the Table.*

A Message from the Governor, by the Secretary:

SIR,

'The Governor thought to have had the Matters relating to the Information, which 'the House requested by their Message of Yesternight, ready to send down this Morning, 'but now finds he cannot do it till the Afternoon."

The Petition from *Philadelphia* and *Chester* Counties, relating to the keeping up of Banks on the Sides of the Rivers and Creeks in said Counties, was read a second time, and considered, and the Petitioners have Leave to bring in a Bill for the Purposes mentioned in their Petition.

Then the House adjourned to Three o'Clock, *P. M.* Adjournment *Post Meridiem.*

A Message from the Governor, by the Secretary:

SIR,

'The Governor now sends down to the House the Grounds on which he founded the 'Assertion in his Message, that Hostilities are committed by the *French* within the Li-'mits of his Government, and he has directed me to attend with the Vouchers, Draughts 'and some Evidences to the same, in Case the House should incline to examine them;" and the Secretary then withdrawing, while the Papers he brought down were read, he was again called in, and desired to lay before the House the several Vouchers and Draughts he had mentioned; which he did accordingly, and then withdrew.

And *William West*, *Andrew Montour* and *John Pattin*, giving their Attendance, were called in, and after confirming the several Things relating to the *Western* Bounds of this Province, which they had set forth in the Papers laid before the House by the Secretary, they were directed to withdraw.

1754. *March* 6. *Ordered*, That *Joſeph Fox*, *Benjamin Franklin*, *Mahlon Kirkbride*, *George Aſhbridge*, *Peter Worral*, *Joſeph Armſtrong* and *Moſes Starr* be a Committee to take the ſeveral Papers ſent down by the Governor, concerning the *Weſtern* Bounds of this Province, into their Conſideration, and report thereon to the Houſe To-morrow Morning.

Adjournment *March* 7. Then the Houſe adjourned to Ten o'Clock To-morrow Morning.

The Committee appointed to conſider the Papers relating to the *Weſtern* Bounds of this Province, made a Report in Writing, which was read, and is as follows, *viz.*

Report of the Committee on the Limits of the Province

HAVING carefully conſidered the ſeveral Teſtimonies, Computations, Maps and Draughts, laid before us, relating to the *Weſtern* Bounds of this Province, we do report,

That it appears to your Committee, by the Teſtimony of *Richard Peters*, Secretary of this Province, and *Nicholas Scull*, Surveyor-General, that the Temporary Line was run in 1739, by *B. Eaſtburn*, then Surveyor-General, and other Surveyors, on Oath, to the *Kittochtinny* Hills, about three Miles *Weſt* from *Philip David's* Plantation, extending *Weſt* from *Philadelphia* (as meaſured on the Surface) 144 Miles.

And that the ſaid *Richard Peters*, Eſq; doth aver, that he hath travelled from *Aucquick* to *Philip David's*, and made diligent Obſervation and Enquiry, and that to the beſt of his Knowledge and Belief, the Place called *The Three Springs*, is rather Eaſtward of the Meridian of the End of the Temporary Line, and Thirty Miles *Northward* of the End of ſaid Line.

And that the ſeveral computed travelling Diſtances from the *Three Springs* to *Ohio*, laid before the Committee, are as follows, *viz.*

	Miles.
Hugh Crawford and *Andrew Montour*, on their Examination before the Governor, *April* 10, 1752, make the ſaid Road, through *Franks-town* to the *Ohio*,	150
William Weſt, who travelled thither in 1752, makes the Road from the *Three Springs*, through *Rays-town*, to *Shanopins-town*, on *Ohio*, — —	145
John Harris, who travelled thither in 1753, makes the *Rays-town* Road, to *Shanopins*, from ſaid Springs, — — — —	148
And the *Franks-town* Road from Ditto, — — —	151
John Pattin, juſt returned, makes the *Rays-town* Road from Ditto, —	140
Which Computations, nearly agreeing, do, at a Medium, make about —	147
To which, the Length of the Temporary Line, — — —	144
— — — — — being added, make	291
That by the Certificate of *Theophilus Grew*, and *Nicholas Scull*, Mathematicians, a Degree of Longitude, in Lat. 40, is Fifty-three Statute Miles, accounting Sixty-nine Miles and a Half to a Degree of the Equinoctial: and if ſo, the Extent of this Province, *Eaſt* and *Weſt*, in that Latitude, ſhould be but — —	265
Which is ſhort of the above Sum, Miles	26

That all the ſeveral Accounts, which ſpeak of the Courſe of the Road, do agree, that it is very winding and crooked in many Places, to avoid Creeks and Swamps, and very uneven as it paſſes through a mountainous Country; and *Pattin's* Map of the Road, laid before us, makes it in a ſtraight Line from the *Three Springs* to *Shanopins*, but Eighty-three Miles; which Map, however, we do not underſtand to have been made from actual Menſurations; but by taking the Courſe from one known Mountain to another with a Compaſs, and computing the Diſtance by the common Methods of Eſtimation uſed by Travellers on Horſe-back.

Andrew Montour and *John Pattin* ſay, that the Road is very crooked, and that having, by the Governor's Directions (to ſaid *Pattin*) obſerved the Courſes and Diſtances with all the Exactneſs in their Power, it cannot, in their Judgment, on a ſtraight Line, exceed Eighty-five Miles.

By which Eſtimation Sixty-two of the travelled Miles are loſt in the Crooks between the *Three Springs* and *Shanopins*.

William Weſt ſaith likewiſe, that the Road is very crooked, and that in ſeveral Places travelling many Miles produces but a few Miles Weſting; particularly between the *Shawana* Cabbins and *Kekinnypalins*, computed near Thirty Miles, he thinks would not make more than Ten Miles Weſting.

William Weſt farther ſaith, that an Obſervation was made of the Latitude of *Shanopins* Town by Colonel *Fry*, who found it to be in 40. 26. which is about Forty-one Miles *North* of the Temporary Line.

Upon the Premiſes, your Committee would obſerve,

1. That the computed Miles are, as eſtimated by Travellers, who judge only from the

the Time taken up in Travelling, and have never been measured; and that the Miles so computed on the Road from the *Three Springs* to *Shanopins*, added to the measured Length of the Temporary Line, make Twenty-six Miles more than the Mathematicians say there are in five Degrees of Longitude at Lat. 40. 1754. March 7.

2. That the Temporary Line was measured on the Surface of the Earth, up Hills and down Valleys, and therefore, an horizontal Line of One Hundred and Forty-four Miles must extend farther Westward; but how much, your Committee cannot take upon them to say.

3. That the travelled Line from the *Three Springs* to *Shanopins* is not only up Hill and down, through a more mountainous Country, but is agreed by all to deviate much from a straight Line to the Right and Left; and therefore, when drawn out to a horizontal Line, must extend yet farther Westward, in Proportion, than the Temporary Line.

Whether these Irregularities of both Lines, taken all together, will not exceed the Difference of Twenty-six Miles, must be submitted to the Judgment of the House.

And if, upon the Whole, *Shanopins-town* be judged within the Limits of the Royal Grant to our Proprietary, *Weningo*, which by the Testimony of *Andrew Montour*, lies *N. E.* of *Shanopins*, and *North* of *Lawrel-hill*, must be deemed more so; since the Distance from *Lawrel-hill*, on a straight Line to *Shanopins*, does not by his and *Pattin's* Account, exceed Thirty-four Miles.

And accordingly we find that the *French* Map, by *M. Bellin*, lays down the whole *Riviere au Bœuf* (which runs into *Ohio* at *Weningo*) and on which the *French* Forts are built, but about four Degrees of Longitude *West* from *Philadelphia*.

All which is humbly submitted to the Correction of the House, this Seventh Day of *March*, 1754, by

JOSEPH FOX, PETER WORRAL,
BENJAMIN FRANKLIN, JOSEPH ARMSTRONG,
MAHLON KIRKBRIDE, MOSES STARR."
GEORGE ASHBRIDGE,

And the foregoing Report was again read, and considered, and referred to further Consideration in the Afternoon.

Then the House adjourned to Three o'Clock, *P. M.* Adjournment *Post Meridiem.*

Ordered, That Candles be brought in.

And they were brought in accordingly.

The House resumed the Consideration of the Report of the Committee on the *Western* Bounds of this Province, and after a considerable Debate thereupon;

Ordered, That *Joseph Fox*, *William Callender*, *Joseph Hampton*, *Thomas Cummings*, *Calvin Cooper*, *Joseph Armstrong* and *Moses Starr* be a Committee to prepare a Draught of an Answer to the Governor's Message of the Second Instant, agreeable to the general Sentiments of the House thereupon.

Then the House adjourned to Ten o'Clock To-morrow Morning. Adjournment *March* 8.

The Committee appointed to prepare a Draught of an Answer to the Governor's Message, made a Report in Writing, which was read, and is as follows, *viz.*

WE, the Committee appointed to answer the Governor's Message of the Second Instant, having made some Progress therein, find ourselves indispensibly obliged to answer that Part of the said Message wherein the Governor is pleased to say, 'He has undoubted Assurance that Part of his Majesty's Dominions within his Government is, at this Time, invaded by the Subjects of a Foreign Prince, who have erected Forts within the same;' and in Support thereof has since sent down to the House some Papers and Draughts; but considering they depend altogether for their Distances beyond the *Three Springs*, on the Computation made by *Indian* Traders as they have travelled from Place to Place, and the Incorrectness of *John Pattin* and *Andrew Montour*, in regard to their Observations of the Courses and Distances of the Roads, neither of them, as we apprehend, skilled in Mensuration, nor that it has ever been measured; we beg Leave, in an Affair of so much Importance, that the House will be pleased to declare their Sentiments on the said Papers by a Resolve of the House. A Draught of an Answer to the Governor's Message.

WILLIAM CALLENDER, JOSEPH ARMSTRONG,
JOSEPH HAMPTON, MOSES STARR."
THOMAS CUMMINGS,

And the said Report being again read, and considered, the Question was put,

Whether the Papers and Evidences, sent down and referred to by the Governor, do make it clearly appear that the Subjects of a Foreign Prince have erected Forts within the undoubted Limits of this Government? *Past in the Negative.*

Then the House adjourned to Three o'Clock, *P. M.* Adjournment *Post Meridiem*

Ordered, That Candles be brought in.

And they were brought in accordingly.

The

1754. *March* 8. The Committee appointed to prepare a Draught of an Anſwer to the Governor's Meſſage of the Second Inſtant, reported the ſame to the Houſe, and it was read, approved, and ordered to be tranſcribed, that it may be ſent up to the Governor.

Adjournment *March* 9. Then the Houſe adjourned to Ten o'Clock To-morrow Morning.

Reſolved, That this Houſe will this Day adjourn to the Sixth Day of the Month called *May* next.

The Meſſage to the Governor being tranſcribed, was again read, and follows in theſe Words, *viz.*

May it pleaſe the GOVERNOR,

A Meſſage from the Aſſembly to the Governor. WE are willing to hope the ſeveral Parts of the Governor's Meſſage of the Second Inſtant, which neither relate to the Royal Orders, under our immediate Conſideration, nor to this Houſe, are ſuch as, on Reflection, he will think not altogether ſuited to preſerve that Harmony between the ſeveral Branches of the Legiſlature ſo neceſſary at all Times, and eſpecially on this important Occaſion; but as the Governor, in order to obtain this good End, profeſſes himſelf ready to contribute every Thing in his Power, conſiſtent with his Honour, and the Truſt repoſed in him, we ſhall moſt chearfully join with him in this deſirable Purpoſe, ſo far as the Preſervation of our Rights, and the Duty we owe our Conſtituents, can vindicate our Conduct. Nevertheleſs, as the Affairs of our *Indian* Allies, and our neighbouring Colonies, continue in the ſame Situation with regard to us as when we ſent our Meſſage of the Twenty-ſeventh of *February* laſt, we muſt, in a great Meaſure, refer to our Sentiments at that Time. We then were of Opinion, and ſtill think, the ſafeſt Method for us to conduct ourſelves in Obedience to the Royal Commands (equally binding on the Governor and us) would be to recur to Lord *Holderneſſe's* Letter, in which only thoſe Royal Orders were preciſely ſet forth, wherever we judged they differed from the Governor's Sentiments, or the Words of his Meſſage to the Houſe on that Occaſion; yet this is unhappily imputed to us as an Endeavour to elude their Force, and a Pretence, in ſome Meaſure, for not complying with them, although, as the Governor is pleaſed to ſay, it was impoſſible we could have underſtood that Meſſage in any other Light, than as referring to Lord *Holderneſſe's* Letter then lying on our Table; and from this ſuppoſed Miſconduct of ours, the Governor, as we preſume, has ſuddenly altered the whole Connection between us and his Majeſty's Colony of *Virginia*.

As Governor *Dinwiddie* had laid before his Aſſembly the Earl of *Holderneſſe's* Letter, ſent, as we preſume, in the ſame Terms to all the Colonies on the Continent, we judged it moſt prudent to wait till the Aſſembly of that Government had enabled him to act in Obedience to the Royal Commands, eſpecially as they had that Letter under their Conſideration from the firſt of *November* laſt, as appears by the Journal of their Houſe of Burgeſſes now before us; but we are now called upon as Principals, and the Governor is pleaſed to inform us, that he has undoubted Aſſurance that Part of his Majeſty's Dominions within this Government is at this Time invaded by the Subjects of a Foreign Prince, who have erected Forts within the ſame, and calls upon us, purſuant to his Majeſty's Orders, in the preſent Emergency, to grant ſuch Supplies as may enable him to reſiſt thoſe hoſtile Attempts, and repel Force by Force; but as it appears to us the Governor is enjoined, by the Royal Orders, not to act as a Principal beyond the undoubted Limits of his Government, and as by the Papers and Evidences ſent down, and referred to by the Governor, thoſe Limits have not been clearly aſcertained to our Satisfaction; we fear the altering our Connections with his Majeſty's Colony of *Virginia*, and the precipitate Call upon us, as the Province invaded, cannot anſwer any good Purpoſe at this Time, and therefore, we are now inclined to make a ſhort Adjournment."

And the Meſſage being ſigned by the Speaker, by Order of the Houſe;

Ordered, That *Edward Warner* and *Joſeph Stretch* wait upon the Governor, and deliver the ſame, and acquaint him that the Houſe propoſe to adjourn to the ſixth Day of the Month called *May* next, if he hath no Objection thereto; and that they will at that Time provide for the Expence of Commiſſioners to be ſent to *Albany*, and make a ſmall Preſent to be delivered by them to the *Indians* of the *Six Nations*, in Behalf of this Province.

The Report of the Committee of Laws being again read, and conſidered;

Ordered, That the Committee who brought in the ſaid Report, be, with *Edward Warner*, *Joſhua Morris*, *Mahlon Kirkbride*, *Joſeph Hampton*, *George Aſhbridge*, *Joſeph Gibbons*, *James Wright*, *Peter Worral*, *Joſeph Armſtrong* and *Moſes Starr*, a Committee to prepare and bring in Bills agreeable to all the ſeveral Articles contained therein, againſt the next Sitting of Aſſembly (excepting the firſt thereof, which is referred to farther Conſideration, and the laſt, for which a Committee is already appointed) and likewiſe that the ſaid Committee do conſider and amend the Bill for regulating Vendues, the Bill for preventing the Exportation of unmerchantable Wheat, *&c.* and the Bill for laying a Tax on Dogs, *&c.*

The

The Committee appointed to wait upon the Governor with the Message of the House, return, and report, that they had delivered the same according to Order, and that the Governor was pleased to say, that he would send down an Answer to the said Message early this Afternoon, and desired that the House would not break up till they received it. 1754. *March* 9.

The Committee of Accounts reported on *John Harris's* and *John Pattin's* Accounts, that it was their Opinion there ought to be allowed the Sum of *Twenty Pounds* to the said *Harris*, and *Fifty Pounds* to the said *Pattin*, in full for their Expences and Trouble in going on their respective Messages from the Governor to the *Indians* at *Ohio*.

And the same being agreed to by the House, Orders were accordingly drawn on the Treasurer for Payment thereof, and signed by the Speaker, by Order of the House.

Then the House adjourned to Three o'Clock, *P. M.* Adjournment *Post Meridiem*

The Governor, by his Secretary, sent down a written Message to the House, which was read, and is as follows, *viz.*

GENTLEMEN,

'MY Desire of establishing Harmony between the Branches of the Legislature is such, 'that on the present Occasion I shall wave several Things personal to myself, 'which at another Time I might think it incumbent on me to take Notice of, and pro- 'ceed to tell you, A Message from the Governor to the Assembly.

'That had you examined, with your usual Accuracy, the Gentlemen who by my Ap- 'pointment attended your House for that Purpose on the Sixth Instant, and compared 'their Testimony with the written Papers at several Times communicated to you, it 'would, I think, have appeared so clear to you, that the *French* have lately erected one or 'more Forts, far within the Limits of this Province, that nothing less than an actual 'Mensuration of the Distance could have made it more evident.

'But, even taking it for granted, that the forementioned Incroachments are not 'within the Bounds of this Province, yet as I have been informed by the Governor of '*Virginia*, that hostile Attempts have been made on Part of his Majesty's Dominions, 'and have been called upon by him for the Assistance of this Province, to repel the In- 'vaders; you must be sensible, it is equally your Duty, in either of these Cases to grant 'such Supplies as the present Exigency of Affairs requires, and which, by his Majesty's 'Orders, contained in Lord *Holderness's* Letter (and by you acknowledged to be equal- 'ly binding on both of us) I do now repeat to you the Necessity of.

'I cannot therefore but be apprehensive that your Adjournment for so long a Time as 'to the Sixth of *May*, will defeat any Measures that might have been taken for that 'Purpose for this Year, and consequently that his Majesty's just Expectations from us 'may be altogether frustrated.

'However (if you persist in it) as the Right of Adjournment is a Privilege of your 'House, I must acquiesce therewith, and content myself with the Consciousness of 'having executed his Majesty's Commands in the best Manner I have been able.

March 9, 1754. *JAMES HAMILTON.*"

And the said Message being again read, and considered;

Resolved, That as the Governor has a Right to summon the Assembly, whenever his Majesty's Service, or that of the Province requires it, this House adhere to their Adjournment.

An Account from *Hannah Boyd*, amounting to *Six Pounds Fourteen Shillings and Fourpence*, for the Board and Diet of *Andrew Montour*, during his Stay in Town, was laid before the House, read, and allowed:

And an Order for the Payment of the same was drawn on the Treasurer, and signed by the Speaker, by Order of the House.

Resolved, That *One Hundred Pounds Sterling*, be now paid to the Speaker, to be by him transmitted to the Agent in *Great-Britain*, to remain in his Hands for the Service of this Province, and to be accounted for hereafter.

And an Order was drawn on the Treasurer for Payment thereof, and signed by the Clerk, by Order of the House.

Ordered, That the Minutes of this, and the last Sitting of Assembly, be printed as soon as conveniently may be.

Then the House adjourned to the Sixth Day of the Month called *May* next. Adjournment

THE Representatives of this Province having been, by Virtue of the Governor's Writs to the Sheriffs of the several Counties for that Purpose directed, summoned to meet him this Day in Assembly, the House accordingly met. *April* 2.

Ordered, That *Joseph Trotter* and *Evan Morgan* wait upon the Governor, and acquaint him, that the House is met, and ready to receive any Thing he may have to lay before them; and desire a Copy of the Writs by which they were summoned.

The Gentlemen appointed to wait upon the Governor with the Message of the House, return and report, that they went to the Secretary's to enquire if the Governor was in

1754. *April* 2. Town; who informed them, that he was not, but that the Governor had given him Direction to receive the Meſſage of the Houſe, and to acquaint them, that he would ſend a Meſſage down to the Houſe by Half an Hour after Ten o'Clock To-morrow Morning.

Adjournment *April* 3. Then the Houſe adjourned to Ten o'Clock To-morrow Morning.

The Governor, by his Secretary, ſent down a written Meſſage to the Houſe, with ſundry Papers referred to therein; and alſo the Writs by which the Houſe were called; and one of them was read, and *Ordered to lie on the Table.*

The Governor's Meſſage being likewiſe read, was in theſe Words, *viz.*

GENTLEMEN,

A Meſſage from the Governor to the Aſſembly.

'I AM not inſenſible that an Abſence from your Homes, at this buſy Seaſon of the 'Year, muſt be very inconvenient to your private Affairs; for which Reaſon I ſhould not 'have called you together, before the Time to which you ſtood adjourned, but that I 'thought the Service of his Majeſty, and the Intereſt of your Country required it.

'In my ſeveral Meſſages during your late Seſſion, to which I deſire to refer you, I 'fully repreſented the dangerous Conſequences that were to be apprehended from the 'Invaſion made by the *French*, on Part of his Majeſty's Dominions; and, in Obedience 'to his Royal Orders, I preſſed you in the warmeſt Manner, to grant ſuch Supplies of 'Men and Money, as might enable me to reſiſt the hoſtile Attempts of theſe Invaders, 'and to repel Force by Force.——But for the Reaſons ſet forth in your Anſwers, and 'particularly that you were "unacquainted with the Reſult of the Government of *Vir-*"*ginia* with regard to this Invaſion," you declined granting the Supplies at that Time, 'and "judged it moſt prudent to wait until the Aſſembly of that Colony had en-"abled their Governor to act in Obedience to the Royal Commands."

'I am now to acquaint you, Gentlemen, that, ſince your Adjournment, I have re-'ceived from Governor *Dinwiddie*, the ſeveral Papers herewith laid before you; by 'which it will appear, that he is taking all imaginable Pains for the Security of his 'Majeſty's Dominions, ſo far as the Proviſion made by his Aſſembly will permit him to 'act; and that he is very impatient to know the Iſſue of your Deliberations on this Sub-'ject.——I cannot therefore doubt but, agreeable to the Profeſſions in your Meſſage of 'the Twenty-ſeventh of *February*, "of being ready and willing to demonſtrate your "Duty and Loyalty, by giving ſuch Sums of Money to the King's Uſe upon all ſuitable "Occaſions as may conſiſt with your Circumſtances, or can reaſonably be expected from "this Province;" I ſay I cannot doubt but you will, with the greateſt Alacrity, lay 'hold on the preſent Opportunity of evincing the Sincerity of thoſe Profeſſions, by 'granting ſuch an Aid to his Majeſty, as may comport with the Circumſtances of the 'Province, and be ſuitable to the Exigence of the Service. And in the doing of this, 'I hope you will be guided rather by the Importance of the Concern, than by the Ex-'ample of other Colonies: It being found by Experience to be a very ill-judged Piece 'of Oeconomy to cramp an Enterprize of this Nature in the Article of Supplies; and 'that whatever is given on ſuch Occaſions, ſhort of being ſufficient to accompliſh the 'Ends propoſed, becomes, for the moſt Part, a Waſte of ſo much Treaſure, without 'anſwering any of the Purpoſes for which it was intended.

'I have at preſent only to add my Requeſt, that whatever you think proper to do on 'this Occaſion, may receive all the Diſpatch the Nature of the Thing will admit of; 'the Seaſon of the Year for Action advancing ſo faſt, that unleſs our Meaſures be 'ſpeedily taken, they will, I fear, be rendered altogether unſerviceable.

April 3, 1754. *JAMES HAMILTON.*"

The ſeveral Papers ſent down with the foregoing Meſſage were alſo read, and ordered to lie on the Table for the Peruſal of the Members.

Two Letters from the Agent to the Committee of Correſpondence were laid before the Houſe, and ſeverally read, and *Ordered to lie on the Table.*

Adjournment *Poſt Meridiem* Then the Houſe adjourned to Three o'Clock, *P. M.*

An Extract of a Letter from *George Croghan*, to *Richard Peters*, Eſq; concerning two Accounts of his againſt the Province (from one of which, as he ſets forth, the Sum of *Fifty Pounds*, and from the other, the Sum of *Thirty Pounds*, have been ſtruck off by a former Aſſembly) was laid before the Houſe and read, and referred to the Committee of Accounts.

A Petition from *Benjamin Bagnall*, junior, now in the Goal of *Philadelphia*, was preſented to the Houſe and read, ſetting forth, that the Petitioner having ſundry Actions of Debt brought againſt him, was in Purſuance thereof, committed to the ſaid Goal in *April* 1753; and finding that his Circumſtances were ſo ſtraitened as that it was not in his Power to ſatisfy the whole of his Debts, he offered to reſign all his Effects to his Creditors, to be proportioned amongſt them; that ſome of the ſaid Creditors refuſing to accept of his Offer aforeſaid, the Petitioner applied to the Inſolvent Court in *December* laſt for Relief in the Premiſes; but upon a groundleſs Pretence, raiſed by one or two of his ſaid Creditors, of his having concealed ſome of his Effects, he was remanded to Priſon till

till a further Hearing should be had, on a Day appointed in the Sessions in *January* last; that at the said appointed Time, the Petitioner made it appear to the said Court, that he had rendered a just and true Account of all his real and personal Estate, yet nevertheless, such was the Cruelty of two or three of his Creditors, that he was then again remanded to Goal, they agreeing to allow *Three Shillings per* Week for his Support, an Allowance, small as it is, yet cannot be exceeded by Law; that the Petitioner has a suffering Wife, and two small Children, dependent on him, which must inevitably become chargeable to the Public, or perish for Want of the Necessaries of Life, as it is not now in his Power to do any Thing for their Subsistence; that the Petitioner apprehends the Insolvent Act was well intended for the Relief of such unhappy Persons as by Losses or other Misfortunes should be rendered unable to pay their Debts, yet he humbly presumes, that the said Act is defective, in having left it in the Power of a merciless Creditor to keep a Man languishing his whole Life in Goal, and hath not made necessary Provision for those Debtors who are burthened with large Families; the Petitioner therefore humbly prays that this House would take the Premises into their serious Consideration, and grant him such Relief as in their Wisdom shall seem most meet. *Ordered to lie on the Table.* 1754. *April.* 3.

An Account from *Benjamin Franklin*, for the Printing and Binding the second Volume of the old Votes of the Assemblies of this Province, was laid before the House, read, and allowed.

And an Order for Payment thereof was drawn on the Trustees of the General Loan-Office, and signed by the Speaker, by Order of the House.

The Message from the Governor was again read and considered, and referred to further Consideration.

Then the House adjourned to Ten o'Clock To-morrow Morning. Adjournment

A Petition from *William Chancellor*, of the City of *Philadelphia*, Practitioner in Physic, was presented to the House and read, praying, that as the Powder-House, near the said City is kept in good Order, and answers the Purposes for which it was erected, that this House would be pleased to continue the Profits arising therefrom to the Use of his two younger Sisters, who, with *William Hill*, the Person who attends the same, have hitherto been chiefly supported and maintained thereby; or if this House should think proper to remove the said Powder-House to a more suitable Place, that they would be pleased to appoint the Petitioner the Keeper thereof, in Behalf and for the Use of his Sisters aforesaid. *Ordered to lie on the Table.* *April* 4.

The Governor's Message was again read, considered and debated, and after a considerable Time spent thereon, the same was referred to further Consideration.

Then the House adjourned to Three o'Clock, *P. M.* Adjournment

The Governor, by his Secretary, sent down to the House a written Message, which was read, and is as follows, *viz.* *Post Meridiem*

GENTLEMEN,

A Message from the Governor to the Assembly.

'AS you have signified to me your Willingness to provide for the Expence of sending Commissioners to *Albany* at the ensuing Treaty to be held there, and also of making a Present to the *Indians* of the *Six Nations*, on Behalf of this Province, I thought it incumbent on me to obtain the best Intelligence I was able, of what was proposed to be transacted at that Treaty, for the general Benefit and Advantage of these Colonies, and of every other Thing relating thereto which I conceived necessary for your Information, when you should take this Subject more particularly into Consideration.

'With this View I wrote to Governor *De Lancey*, whom the King has been pleased to set at the Head of this Convention, whose well known Abilities, and Experience in *Indian* Affairs, render him in every Respect equal to the important Trust. And as he has been pleased, by his Letter of the First Instant, to communicate his Sentiments fully and freely upon the several Points I imagine you will be desirous of being acquainted with, I have chosen to lay the same before you in his own Words; from whence, and from what Governor *Shirley* has so well said upon the same Subject, added to your own Knowledge of the present Circumstances of Affairs, you will be able to offer me your Advice upon this Occasion, to which you may be assured I shall pay the greatest Regard. And I must the rather insist on this, as, without a perfect Knowledge of your Sentiments, from whom all future Supplies, upon any Agreement to be made between the several Colonies, must come, it will be very difficult, if not impossible, for me to give such Instructions to the Gentlemen Commissioners on the Part of this Province as may be suitable and adequate to the Purpose.

April 4, 1754. *JAMES HAMILTON.*"

The Letter from Governor *De Lancey*, referred to in the foregoing Message, was also read, and ordered to lie on the Table for the Perusal of the Members.

Then the Houſe adjourned to Ten o'Clock To-morrow Morning.

April 6.

The Governor's Meſſage of the *Fourth* Inſtant being again read, together with the Letters therein referred to,

The Gentlemen appointed to wait upon the Governor with the Meſſage of the Houſe, report, that they had delivered the ſame according to Order; and that the Governor was pleaſed to ſay, he intended to have appointed Mr. *Penn* and Mr. *Peters*, of the Council, and Mr. *Norris* and Mr. *Franklin*, of the Aſſembly, to be the Commiſſioners for this Province at the Treaty propoſed to be held at *Albany* in *June* next.

And they were brought in accordingly.

Adjournment

Then the Houſe adjourned to Ten o'Clock To-morrow Morning.

April 9.

A Petition from ſundry Inhabitants of the County of *Cheſter*, was preſented to the Houſe, and read, ſetting forth, that the Petitioners conceive that the Exciſe upon

ſpirituous

ſpirituous Liquors, retailed within this Province, falls heavy upon the Farmers, by Reaſon of the Quantity of ſaid Liquors they are obliged to uſe in Harveſt Time; that the Petitioners are humbly of Opinion, that if *One Penny Halfpenny per* [illegible]llon was to be paid by the Importers and Diſtillers of ſuch Liquors within this Pr[illegible]ce, it would amount to conſiderably more than the Money raiſed by the Exciſe as it now ſtands; the Petitioners therefore pray that this Houſe would take the Premiſes into Conſideration, and grant them ſuch Relief therein as ſhall be judged moſt ſuitable. 1754. *April* 9.

Ordered to lie on the Table.

Poſt Meridiem The Committee appointed to prepare a Draught of an Anſwer to the Governor's Meſſage, reported the ſame to the Houſe, and it was read by Order.

Adjournment Then the Houſe adjourned to Ten o'Clock To-morrow Morning.

April 12. A Letter from the Agent to the Speaker was laid before the Houſe, and read.

Adjournment Then the Houſe adjourned to Three o'Clock, *P. M.*

Poſt Meridiem The Meſſage to the Governor being tranſcribed, was again read, and is as follows, *viz.*

May it pleaſe the GOVERNOR,

A Meſſage from the Aſſembly to the Governor. WHENEVER the Service of the King, or the Intereſt of the Country, may appear to require their Attendance in Aſſembly, we hope the Repreſentatives of the People will always, as they have now done, pay a ready and chearful Obedience to the Governor's Call, however inconvenient the Seaſon may be with reſpect to their private Affairs: We are nevertheleſs thankful to the Governor for his conſiderate Regard to our Circumſtances on the preſent Occaſion, expreſſed in his Meſſage of the Third Inſtant.

And we now beg Leave to inform the Governor, that we have had that Meſſage under our ſerious Conſideration ever ſince it came down to the Houſe; but, after all our Debates thereupon, we find, that near one Half of the Members are, for various Reaſons, againſt granting any Money to the King's Uſe at this Time; and thoſe who are for granting, differ ſo widely in their Sentiments concerning the Sum, that there ſeems at preſent no Poſſibility of their agreeing, except in ſuch a Sum, as, in the Jugdment of many of them, is quite diſproportionate to the Occaſion: Therefore, and that the Members may have an Opportunity of conſulting their Conſtituents on this important Affair, we are now inclined to adjourn to the Thirteenth of the next Month.

We

1754. *April* 12.

We thank the Governor for his very obliging Message of the Fourth Instant, and shall take the same, and the Papers therewith communicated to us, under Consideration, and offer our Sentiments to the Governor on the weighty Matters they contain at our next Meeting. At the same Time we shall provide for the Expences of the Commissioners the Governor has been pleased to nominate for the Treaty at *Albany*, of whom we approve, and have now voted a Present of *Five Hundred Pounds*, to be by them delivered to the *Indians* on that Occasion, in Behalf of this Province."

And the Message being signed by the Speaker, by Order of the House;

Ordered, That *Samuel Brown* and *Griffith Owen* wait upon the Governor, and deliver the same, and acquaint him, that the House propose to make the Adjournment, mentioned in their said Message, some Time To-morrow.

Then the House adjourned to Ten o'Clock To-morrow Morning. Adjournment

April 13. The Gentlemen appointed to wait upon the Governor with the Message of the House, report, that they had delivered the same according to Order, and that the Governor was pleased to say, he would take it into his Consideration, and return an Answer to the House this Morning, if he found it necessary.

The Governor, by his Secretary, sent down a written Message to the House, which was read, and follows in these Words, *viz.*

GENTLEMEN,

A Message from the Governor to the Assembly.

'I CALLED you to meet me in Assembly before the Time to which you stood adjourned, to give you an Opportunity of demonstrating your Duty to the King, by granting such an Aid to his Majesty, as might be sufficient, in Conjunction with the other Colonies, to secure his Dominions against any further Invasion by the *French*, and, if Need should be, to repel the Invaders; and to that Purpose I sent you a Message on the Third Instant.——It could not therefore but surprize me to find that, after so long Deliberation, the first Occasion of my hearing from you on that Subject should be to signify to me your Inclination to adjourn to the Thirteenth of *May* next, without having in any Shape provided for the Service recommended to you.

'I am very unwilling to have any Difference with you on this or any other Occasion, where it can possibly be avoided: And therefore, after declaring to you my Opinion, that so long an Adjournment will render any Thing you can then propose to do for his Majesty's Service ineffectual to the Ends he has been pleased to recommend, I shall leave you to act therein, as to yourselves shall seem most expedient.

'I am pleased, nevertheless, with your Determination to provide for the Expences of the Gentlemen to be appointed, on the Part of this Province, for conducting the Treaty at *Albany*, and with the Sum voted as a Present to the *Indians* on that Occasion. It is likewise a Satisfaction to me to find that the Nomination I have made of Commissioners for that Service is agreeable to you.

April 13, 1754. *JAMES HAMILTON.*"

The House taking the said Message into their Consideration,

Resolved, That this House will this Day adjourn to the *Sixth* Day of the Month called *May* next, the Time to which they stood adjourned before the Call of the Governor.

Ordered, That *Evan Morgan* and *William Callender* wait upon the Governor, and acquaint him, that the House having considered his Message of this Morning, have thought it proper to shorten the Adjournment mentioned in their Message of Yesternight, and to adjourn to the *Sixth* of the Month called *May* next.

The Petition from *Benjamin Bagnall*, junior, was again read, and considered, and after some Time spent therein;

Ordered, That *Evan Morgan*, *Joseph Fox*, *Benjamin Franklin* and *William Callender* be a Committee to enquire into the Facts set forth in the said Petition, and report their Opinion thereupon at the next Sitting of Assembly.

Ordered, That the Minutes of this Sitting be printed with all convenient Speed.

Then the House adjourned to the *Sixth* Day of the Month called *May* next. Adjournment

The Governor, by his Secretary, sent down a written Message to the House, with sundry

GENTLEMEN,

A Meſſage from the Governor to the Aſſembly.

'AS you are now met to reſume the Conſideration of the ſeveral Matters repeatedly and earneſtly recommended to you in Conſequence of his Majeſty's Commands; in Addition to what has been already communicated, I now lay before you the melancholy Account which I received on *Friday* laſt, by Expreſs, from Colonel *Waſhington*, of the Appearance of a *French* Army of upwards of One Thouſand Men, with eighteen Pieces of Artillery, before the Fort building by the *Virginians*, on the *Ohio*, near the Mouth of *Mohongialo*, and of the Surrender thereof, on the Seventeenth of laſt Month, to their ſuperior Force.

'I thought it neceſſary, after your Adjournment, to ſend an Expreſs to Governor *Dinwiddie*, in order to be particularly informed, whether the Forces, raiſed in his Government, were actually marched towards *Ohio*, and in what Number; and what Accounts he had of their Proceedings, or of thoſe of the *French*;—what Aſſiſtance he could depend on from the other Colonies, and, in general, whatever ſhould occur to him, neceſſary for my Information, with reſpect to this Affair, and to acquaint me how I might be the moſt uſeful to him; and I have the Satisfaction to communicate to you his Anſwer.

'When you take into Conſideration thoſe Parts of my Meſſages which relate to the Treaty at *Albany*, I muſt deſire you will weigh, with the utmoſt Attention, the ſeveral Matters recommended by Governor *De Lancey* in his Letter of the Nineteenth of *April*; and as they are of great Importance to the Intereſt of his Majeſty's Colonies in general, and of this in particular, I hope they will have their due Weight with you in your Deliberations and Advice.

'The Propoſals made by the Governors of *Boſton* and *New-York*, for an Union of the ſeveral Colonies in *Indian* Affairs, is ſo agreeable to my Sentiments, that I earneſtly recommend it to your Conſideration; and that you will enable me to inſtruct the Commiſſioners from this Province to concur with thoſe from the other Colonies, in Caſe a reaſonable Plan ſhall be offered them for that Purpoſe. This Method of acting in Concert, and by fair and equitable Quotas and Proportions of Expence, will, in the End, be much leſs chargeable, and greatly more beneficial to our real Intereſt, than the Practice now in Uſe of making frequent and diſtinct Preſents to the *Indians*, which have been found, by Experience, to contribute little or nothing to their real Strength or Security; but on the contrary, has adminiſtered Occaſions of Debaucheries and Contentions among themſelves, which have produced irreconcileable Animoſities in Families, and obliged them often to ſeparate from one another, to the great Weakening of our *Indian* Intereſt, and Advantage of our powerful and enterprizing Rivals.

'Not having of a long Time heard any Thing from the *Indians*, living on the Waters of the *Saſquehannah*, I thought it neceſſary to ſend Mr. *Weiſer* to them with a reſpectful Meſſage, conceived in general Terms, and with a View only to be informed in what Light the Hoſtilities of the *French* had been repreſented to them; and whether any, and what Meaſures had been propoſed to them in Relation thereto.

'Mr. *Weiſer's* Journey anſwered my Purpoſe, as you will ſee by his Letters, which he diſpatched to me by his Son, as ſoon as he returned to his own Home.

May 7, 1754. *JAMES HAMILTON.*"

GENTLEMEN,

A Message from the Governor to the Assembly.

'CONSIDERING the Royal Instruction laid before the Assembly the last Year, 'it must be apparent that I have, merely from a Desire to oblige you, consented to 'raise the Money intended for his Majesty's Use in the Manner by you proposed. And 'have prolonged the Currency of the Bills of Credit, to be issued in Virtue of the Bill 'now under Consideration, as far as I can think consistent with my own Safety.

'And as the Fund to be established upon the Foot of my proposed Amendment will 'be more than sufficient to repay the Sum granted by the Bill, I can see no Reason for 'extending the Act of Excise longer than four Years beyond the Date of its present 'Limitation; or for burthening the People unnecessarily with a Tax that possibly may 'not be wanted; and therefore find no Cause to recede from that Amendment.

'And as for the first, I am of Opinion it is so indispensibly necessary, that unless 'some such Provision be made, the whole Intent of the Grant to his Majesty may be 'defeated. But if, on further Consideration, the Method by me proposed shall not be 'approved by you, it will be very agreeable to me that Commissioners be named in the 'Bill, to act conjunctly with the Commander in Chief for the Time being, in disposing 'of the Money.

May 15, 1754. *JAMES HAMILTON.*"

The Secretary also laid before the House, two Accounts of *Thomas Jervis*, for his Trouble and Expences in going twice Express from this Government to *Virginia*; also one other Account of the said *Jervis* for the Keeping of *Andrew Montour's* Horses during his Stay in Town.

The Governor's Message of this Morning was again read, and after some Time spent in Consideration thereof, the Question was put, whether the Amendment proposed by the Governor to the Bill for striking *Thirty Thousand Pounds*, &c. in relation to the Term of Years therein mentioned for the Extension of the Excise Act, ought to be accepted by this House? *Past in the Negative unanimously.*

Ordered, That *Evan Morgan*, *Joseph Stretch*, *Benjamin Franklin*, *William Smith*, *Peter Dicks*, *Calvin Cooper*, *John Wright*, *Joseph Armstrong*, *Moses Starr* and *William Parsons* be a Committee to prepare a Draught of an Answer to the Governor's said Message, and report the same to the House this Afternoon.

Adjournment *Post Meridiem*

Then the House adjourned for Half an Hour.

The House met, *&c.*

The

1754. *May* 15. The Meſſage to the Governor being tranſcribed, was again read, and follows in theſe Words, *viz.*

May it pleaſe the GOVERNOR,

A Meſſage from the Aſſembly to the Governor.

THE Houſe are not inclined to enter into any Diſpute with the Governor on the Subject of his propoſed Amendments to the Money-Bill, as the Repreſentatives of the People have an undoubted Right to judge, and determine, not only of the Sum to be raiſed for the Uſe of the Crown, but of the Manner of raiſing it.

The Governor, in his Meſſage of the Nineteenth of *February*, was pleaſed to tell us, "That if the Houſe ſhould be of Opinion that there will be a Neceſſity to ſtrike a farther "Sum in Bills of Credit, to defray the Charges of raiſing Supplies for his Majeſty's "Service in this Time of imminent Danger, and would create a proper Fund or Funds "for ſinking the ſame in a few Years, he would concur with us in paſſing a Law for "that Purpoſe, thinking himſelf ſufficiently warranted ſo to do in Caſes of real Emer-"gency."

On this Aſſurance the Houſe have prepared a Bill, and preſented it to the Governor, to ſtrike the Sum of *Ten Thouſand Pounds*, to give the ſame to the King's Uſe, and to ſink it by an Extenſion of the Exciſe Act for a farther Term of ten Years. The Governor will be pleaſed to conſider, that his Predeceſſor, to whom the mentioned Inſtruction was given, did afterwards paſs an Act of the ſame Kind, extending the Exciſe Act ten Years (now near expired) for a Grant of *Five Thouſand Pounds* only; and we never heard that he incurred the Royal Diſpleaſure for ſo doing. As the Sum we grant is double, we had no Expectation that our propoſing the ſame Term would have been deemed extravagant. The Governor thinks four Years ſufficient; but as the Repreſentatives are beſt acquainted with the Circumſtances of the People, and muſt themſelves, as a Part of the People, bear a Share of all Burthens laid upon them, it ſeems not reaſonable to ſuppoſe they will lay ſuch Burthens unneceſſarily. They now offer *Ten Thouſand Pounds* to the Crown, and propoſe a Manner of raiſing it, that they judge moſt eaſy and convenient for the People they repreſent: And if the Governor thinks fit to refuſe it, meerly from an Opinion that a ſhorter Term for ſinking the Bills would be more eaſy for the People, we cannot but ſuppoſe, that ſince the Meſſages in which he ſo warmly recommended this Affair to us, he has, on farther Advices, or better Conſideration, changed his Sentiments of the Importance of the preſent Occaſion for Supplies, and doth not now think the Danger ſo imminent, or the Emergency ſo great or ſo real, as he then apprehended it to be.

We therefore beg Leave to acquaint the Governor, that if this Amendment regarding the Term is inſiſted on, it is needleſs to conſider the other relating to Commiſſioners, for the Bill cannot paſs this Houſe."

And the ſaid Meſſage being ſigned by the Speaker, by Order of the Houſe;

Ordered, That *Evan Morgan* and *Joſeph Stretch* wait upon the Governor, and deliver the ſame, with the Bill for ſtriking *Thirty Thouſand Pounds* in Bills of Credit, and for granting *Ten Thouſand Pounds* thereof to the King's Uſe, *&c.* and acquaint him, that this being an inconvenient Seaſon of the Year for the Members to be from their reſpective Homes, the Houſe deſire the Governor would be pleaſed to let them know his Reſult on the ſaid Bill as ſoon as poſſible.

Adjournment. Then the Houſe adjourned to Ten o'Clock To-morrow Morning.

May 16. The Gentlemen appointed to wait upon the Governor with the Meſſage of the Houſe, report, that they had delivered the ſame according to Order, and that the Governor was pleaſed to ſay, he would take it into Conſideration, and return an Anſwer as ſoon as he conveniently could,

The three Accounts of *Thomas Jervis*, which were Yeſterday Morning laid before the Houſe by the Secretary, were read, and referred to the Committee of Accounts.

An Order was drawn on the Truſtees of the General Loan-Office, for the Sum of *Five Hundred Pounds* (voted by this Houſe at their laſt Sitting, to be given as a Preſent to the *Indians* of the *Six Nations*, at the Treaty to be held at *Albany* on the Fourteenth of *June* next) made payable to the Speaker, and ſigned by the Clerk, by Order of the Houſe.

Reſolved, That the Commiſſioners, appointed by the Governor to deliver the ſaid Preſent, have Power to draw upon the Treaſurer of this Province for ſuch Sums of Money as ſhall be ſufficient to defray their neceſſary Expences to, at, and from *Albany*, and that the ſaid Treaſurer accept and pay all ſuch Orders on Demand.

Ordered, That the Clerk do furniſh the Treaſurer with a Copy of the foregoing Reſolve.

Adjournment. Then the Houſe adjourned to Three o'Clock, *P. M.*

Poſt Meridiem The Houſe being informed that there were ſome *French* Deſerters from *Canada*, now in Town, in a diſtreſſed Condition, and in Want of the Neceſſaries of Life;

Reſolved, That the Sum of *Ten Pounds* be paid by the Truſtees of the Loan-Office into

into the Hands of *Anthony Benezet*, to be by him laid out for their Relief in such Manner as he shall think most suitable, until they can find Employment at their respective Callings. 1754. *May* 16.

Then the House adjourned to Ten o'Clock To-morrow Morning. Adjournment *May* 17.

The House met, and adjourned to Three o' Clock, *P. M.* Adjournment *Post Meridiem*

The Governor, by the Secretary, sent down the Bill for striking the Sum of *Thirty Thousand Pounds*, &c. with a Message in Writing, which was read, and follows in these Words, *viz.*

GENTLEMEN,

A Message from the Governor to the Assembly.

'AS I am not less unwilling than yourselves to enter into Disputes of any Kind, I could have been well pleased to have been freed from the Necessity of animadverting upon the Contents of your Message on the Subject of the Bill for granting Money to the King's Use; but as that Message appears to contain a Position derogatory to the Rights of Government, I cannot, consistent with my own Judgment, and the Trust reposed in me, suffer it to pass without some Observation.

'You are pleased to say, that "the Representatives of the People have an undoubted "Right to judge and determine, not only of the Sum to be raised for the Use of the "Crown, but of the Manner of raising it." This, Gentlemen, is a Privilege which I neither did or ever shall deny to be inherent in you as an Assembly, while it is only understood to imply that no Money can be levied on the People without your Consent. But if you would infer from it, that I have no Right to exercise my Judgment, with respect to Money Bills, farther than either to approve or reject them as they are offered to me, I must beg Leave to differ from you in Opinion, both from the Reason of the Thing, and the Practice of my Predecessors upon several Occasions.

'The Governors of this Province are invested with one Half of the Legislative Powers; and being equally concerned, in Duty, with the Assembly, to consult the Ease, Freedom and Welfare of the People committed to their Care, must of Course be supposed to have a Right to interfere and rectify any Mistakes they apprehend likely to be committed by the other Branch of the Legislature, as well in regard to the Laying of Taxes, as to Matters of any other Kind, unless it can be proved they have renounced their Right thereto by some public Act, which I do not conceive to have been the Case here: For to what Purpose is a Governor appointed and invested with a Share in the Legislative Authority, if he hath no discretionary Power to object to what he thinks amiss in the Proceedings of an Assembly, and is only to be made use of as an Instrument to ratify their Transactions, though ever so inconsistent with his own Judgment, and the Good of the People?

'You must be sensible, Gentlemen, that I have neither objected to the Sum granted for the Use of the Crown, nor to the Manner of raising it as proposed by the Bill under Consideration; though I could heartily have wished that the Sum had been larger, and that it had been given more seasonably, as well as that some less exceptionable Method had been fallen on for raising it, than by compelling me do depart from the Letter of his Majesty's Instruction; which nothing less than my Concern for the King's Service, and the Preservation of the People under my Government, in this Time of imminent Danger, could have induced me to comply with: On which Accounts, I hope his Majesty, upon a fair and candid Representation of the Case, will most graciously be pleased to pardon me.

'My principal Objection, you well know, is only against the Extension of the Fund, whereby the Money is proposed to be repaid, to an unnecessary Length, by which a Tax is to be laid and continued upon the People, without the least apparent Necessity. Can you suppose, if there should be any future Occasion, that a Governor will refuse his Assent to a Bill for levying Money for the general Utility of the Province? Or have you, in the present Case, at all intimated to me any Services for which it is now wanted?

'It is true, you have been pleased to make a Grant to his Majesty of *Ten Thousand Pounds*, which, as it was the most that could be obtained, I am in Hopes will be graciously accepted by him, as a Mark of your Duty; and in Compliance to my Message of the Nineteenth of *February*, I have consented to establish a Fund, by which the same will be repaid in the easiest Manner at the End of Six Years, and leave a Surplus of several *Thousand Pounds* in your Hands, to be disposed of as you think fit: But I am sorry to find you are not satisfied with this, and that for the *Ten Thousand Pounds* now granted to his Majesty's Use, you are desirous of obtaining more than three times that Sum in Return, and urge, as a Precedent for my Behaviour, what was done by my Predecessor on a like Occasion.

'I have no Desire, Gentlemen, to detract from the Merit of your late Governor, of which I allow him to have had a great deal: He might possibly have Reasons to influence his Conduct, to which I am hitherto a Stranger; yet if one may judge from

1754. May 17.

'the Circumſtances of his not having communicated them to thoſe who, at that Time, 'had the greateſt Share of his Confidence, and of his having never tranſmitted that Act 'for the Royal Approbation, I am inclined to think they were ſuch as he himſelf was 'not very well pleaſed with. For my own Part, as I never made the Actions of another 'the Rule of my Conduct, farther then I thought them founded in Reaſon, and as at 'preſent I ſee none for altering my Opinion with regard to the propoſed Amendment, I 'ſhall not recede from it, but upon Condition that you enlarge the Sum given for his 'Majeſty's Uſe, in which Caſe I will agree to extend the Act in ſuch Manner as to ſink 'it in the ſame Proportions.

'But it is poſſible, Gentlemen, that more may be concealed under this Solicitude 'for a long Extenſion of the Exciſe than you have thought proper to reveal, otherwiſe 'I cannot account for your deſiring to extend it ſo much beyond the uſual Term, which 'in this Province never exceeded Five Years, till the late Governor thought fit to grant 'it for Ten, for no good Reaſon I have ever heard given, or believe poſſible to be given.

'It is well known, that by the Laws now in Force, the Public Money is ſolely in 'the Diſpoſal of the Aſſembly, without the Participation of the Governor; nevertheleſs, 'while theſe Acts, by which Money was raiſed, were of ſhort Duration, the Governor 'had now and then an Opportunity of obliging the Aſſembly in a very eſſential Man-'ner by a Renewal of thoſe Acts, and thereby of making himſelf acceptable to them; 'but to extend them to ſuch an unreaſonable Length of Time as you now deſire, might 'be to render him in a great Meaſure unneceſſary to them during the Continuance of 'thoſe Acts, but upon Terms very diſagreeable to himſelf, as well as injurious to his 'Conſtituents: To this Condition therefore I will not be the Means of reducing any 'Succeſſor of mine; and this Circumſtance is of no ſmall additional Weight with me 'to adhere to my Amendment.

'You will pleaſe to obſerve, Gentlemen, that the Queſtion betwixt you and me is 'not which of us is beſt acquainted with the Circumſtances of the People, but whether 'it be reaſonable to burden them with a Tax for a long Term of Time without any ap-'parent Neceſſity. If any ſuch had occurred to you, I cannot but think you would 'have made mention of it in your Meſſage; but as you have not been pleaſed to point it 'out to me, I muſt of Courſe conclude none ſuch has appeared to you.

'You are exceedingly miſtaken, Gentlemen, if you really do ſuppoſe me either to 'have changed my Sentiments with reſpect to *the Importance of the preſent Occaſion for* '*Supplies*, or that I am leſs apprehenſive of the Dangers to which we are at preſent ex-'poſed from the Invaſion of a Foreign Power, than when, by my ſeveral Meſſages, I 'repreſented them to you, and called upon you for ſuch Supplies as might enable me 'to reſiſt the Invaders, and repel Force by Force. On the contrary, I am fully ſenſible 'that the Danger is become more imminent, from the certain Account I have received 'of the Hoſtilities committed by them, and of their having made themſelves Maſters of 'a Fortreſs, which was building, by Order of the Governor of *Virginia*, on his Ma-'jeſty's Lands, and of their having driven away the *Engliſh* Garriſon. Of this you muſt 'likewiſe be ſenſible from the Accounts I communicated to you, if you do not wilfully 'oppoſe the Conviction of your own Senſes, and ſhut your Eyes to the great Dangers 'that threaten the Country of which you are the Repreſentatives, and which, by every 'Tie, both human and divine, you are bound to cheriſh and protect; to which End I 'once more call upon you, purſuant to his Majeſty's Orders, for ſuch Supplies as the 'preſent Emergency of Affairs requires.

'Upon the whole, Gentlemen, I have already gone further in my Condeſcenſions to 'pleaſe you, than I am warranted to do by the King's Inſtruction, unleſs you will make 'an Addition to the Sum mentioned in the Bill; and have, at my own Riſk, ex-'tended the Currency of the Money to be iſſued on this Occaſion, for a Year longer 'than the utmoſt Term allowed to the Eaſtern Governments by the late Act of Parlia-'ment.

'I well know the State of your public Funds, and that the Loan-Office itſelf, were 'the Money duly collected, is able to furniſh a much larger Sum than you have thought 'fit to grant to his Majeſty upon this important Occaſion, independent of the Intereſt 'hereafter to accrue; which, together with the Exciſe, make up a Revenue of more 'than *Six Thouſand Pounds* a Year. This Money belongs to the People, and, had you 'thought fit, might have been employed for the Service recommended to you, without 'laying any additional Tax upon them before it became neceſſary. I have nevertheleſs 'conſented to gratify you in extending the Exciſe for ſuch Time, as is more than ſuf-'ficient to repay the Sum granted to his Majeſty, without breaking in upon either of 'your preſent Funds, or the outſtanding Intereſt of the Loan-Office, which I cannot 'eſtimate, together with the broken Intereſt, at leſs than *Twelve Thouſand Pounds*. If 'then, conſidering the favourable State of your Finances, you ſhall decline to do what 'his Majeſty ſo juſtly expects from you, merely on Account of my refuſing wholly to 'diſregard his Majeſty's Inſtruction, which would juſtly ſubject me to his higheſt Diſ-

'pleaſure

1754. May 17.

‘ pleasure, and to join with you in laying a Tax upon the People without its appearing ‘ to me to be in the least necessary; I think I may more justly impute to you a wanton ‘ Disregard of his Majesty's Commands, and of the Security and Protection of your ‘ Constituents, than you can insinuate of me a Lukewarmness, with Regard to his Ma- ‘ jesty's Service, of which I have the greatest Detestation, and from which I hoped my ‘ Conduct through this whole Affair might have exempted me.

‘ Let me therefore, Gentlemen, recommend to your serious Attention a Review of ‘ your Conduct upon the present Occasion, and if you shall find that you have been too ‘ precipitate in the Resolution contained in your Message, let me intreat you to rectify ‘ it before it be too late; for, as I must be obliged soon to lay this whole Transaction ‘ before his Majesty, it would give me the greatest Pleasure that both you and I might ‘ receive his gracious Approbation of our Services. But if, contrary to my Hopes, you ‘ should still persist in refusing to accept of my Amendment, and the Bill should, by ‘ that Means, be lost, I cannot but apprehend some unhappy Consequences to the Pro- ‘ vince from your extraordinary Behaviour.

May 17, 1754. *JAMES HAMILTON.*”

And the foregoing Message being again read, and considered, was referred to farther Consideration To-morrow Morning.

Then the House adjourned to Ten o'Clock To-morrow Morning. Adjournment

The Governor's Message of Yesterday being again read, and considered; *May* 18.

Resolved, That the raising of Money for Support of Government and other public Uses by an Excise on Spirituous Liquors hath been practised in this Province, with very little Intermission, for more than thirty Years past, and hath not been found, *communibus annis*, to produce more Money than was necessary for those Uses.

Resolved, That the raising Money by such Excise has by Experience been found less burthensome to the People, than the Method of Poll and Pound Rates; and hence the Load of public Expence hath been more chearfully borne, Government more liberally supported, those who serve the Public better and more punctually paid, and greater Sums given from Time to Time to the King's Use, than could otherwise have well been raised.

Resolved, That if the Excise Act be extended but Four Years, and the Sum of *Ten Thousand Pounds* is to be sunk thereby in that Term, yearly Provincial Taxes by Poll and Pound Rates (always more grievous to the People) must probably in a short Time become necessary to defray the usual and contingent Expences of the Government.

Resolved, That if there really were, which is very uncertain, so great a Sum outstanding due to the Public, as, if collected, would be in the Disposition of the House, and sufficient to answer the present Emergency; yet, to inforce the Collection suddenly, by seizing and selling the Estates of the delinquent Borrowers, in this Time of Scarcity of Money, when so many Plantations being offered at once to Sale, could not probably find a sufficient Number of good Purchasers, and must consequently sell for much less than their real Value, would be cruel, oppressive and ruinous to the People.

Resolved, That the Right of Judging and Determining, not only of the Sum necessary to be raised for any public Service, but of the Time and Manner of raising it, and Term for paying it, is solely in the Representatives of the People; and that the Governors of this Province have not, nor ever had, nor can have, any Right to interfere therein, under Pretence of rectifying Mistakes, easing the People, or any other Pretence whatever.

Resolved, That a just, upright and prudent Administration of Government will always be the best and most effectual Means of obtaining and securing the Affections of the People; and that it is neither necessary nor expedient to deny the present Assembly the Exercise of their just Rights, that a future Governor may have an Opportunity of obliging a future Assembly by permitting it.

Resolved, That an Act of Parliament made expresly to remedy Disorders in the *Eastern* Governments, and in which this Province is neither named, nor intended, cannot by any Construction be supposed binding on the Governors or Assemblies of *Pennsylvania*.

Resolved, That to refuse a Grant of *Ten Thousand Pounds* to the King's Use at this critical Juncture, when the Service of the Crown, and the Welfare, present and future, of all the *British* Colonies, seem to the Governor so eminently to demand Supplies, merely from an Opinion in the Governor, that he can judge better than the People's Representatives what is most for their Ease, or that a future Governor may have an Opportunity of making himself acceptable, appears to this House to be sacrificing too much, to Considerations of uncertain and small Moment.

And the Governor, in his Message to this House of the First of *March* last, fully declaring how far, in his Opinion, the late Governor was, or could be bound by the Royal Instruction, directed to that Gentlemen in 1740 (certainly not more binding on himself) being pleased to say, “ That in the Year 1746 the late Go- “ vernor, by his Majesty's Order, called upon the Assembly for a sufficient Quan-

“ tity

" Inſtruction was not binding upon him, and that he acted in direct Oppoſition to
" it, ſince the very contrary was evident [*although*] he did, againſt the ſtrict
" Letter of the Inſtruction, give his Aſſent to a Bill for ſtriking *Five Thouſand*

" whereof the Evils and Inconveniences ſpecified in the Body of the Inſtruction

" SOLE End and Purpoſe of the Inſtruction:—That if again, on the other Hand, it
" be conſidered, that the Sum emitted in this Province, by Virtue of the Act of
" 1746, was VERY SMALL, and occaſioned by a very real Emergency:——That
" the ſame was appropriated ſolely to his Majeſty's Uſe; and that the whole of it
" was to be ſunk in a SHORT Space of Time by Taxes [i. e. by the Exciſe, ex-
" tended for Ten Years] and WITHOUT THERE BEING THE LEAST PROBA-
" BILITY OF ITS PRODUCING ANY OF THE INCONVENIENCES COMPLAINED
" OF; we muſt neceſſarily allow, that the late Governor (however he might diſre-
" gard the ſtrict Letter) never departed from the Spirit and Intention of the In-
" ſtruction; and therefore cannot properly be charged with having acted in direct
" Oppoſition to it: For it would be an Abſurdity too glaring to ſuppoſe that any
" Government would voluntarily tie up the Hands of its Subjects from ſerving it,
" by ſuch Means as they were able, in Caſes of great Emergency; and that this
" could never have been any Part of his Majeſty's Intention, or that of the Par-
" liament, in addreſſing him, was further evident from the late Act reſpecting the
" Four *Eaſtern* Governments; who, although prohibited on common and ordinary
" Occaſions, yet, in Caſes of real Emergency, are permitted to iſſue Bills of Credit,
" on Condition that ſufficient Funds be provided for ſinking the ſame in a SHORT
" Space of Time; WHICH WAS EXACTLY THE CASE WITH RESPECT TO
" THE SUM EMITTED BY THE GOVERNOR AND ASSEMBLY OF THIS PRO-
" VINCE:——That hoping he had inconteſtably proved, that the true and real In-
" tention of the Royal Inſtruction could have been no other than to guard againſt
" the Abuſes enumerated in the Body of it; and the Act for granting *Five Thou-*
" *ſand Pounds* to the King's Uſe, paſſed by the late Governor, in 1746, being of a
" SINGULAR and QUITE DIFFERENT NATURE from Acts paſſed upon ordinary
" Occaſions, could not therefore be comprehended within the Meaning of the ſaid
" Inſtruction:"——*And the Governor proceeding to aſk*, " Whether the Diſtinctions
" between an Act for emitting a large Sum of Money on a COMMON and ordinary
" Occaſion, the Intereſt of which the Country is to reap the whole Benefit of, to
" be current for a long Term of Time, without Diminution, and an Act DIRECTLY
" THE REVERSE of this in ALL RESPECTS, did never occur to them?——And
" if theſe Diſtinctions did occur to them,——with what Degree of Candour they
" could affect to conſider them as one and the ſame Caſe, and thence take Occaſion
" to charge him with having leſs Inclination to oblige the People than his Prede-
" ceſſor?" *And then being pleaſed to enquire, Whether the Houſe did* " ever offer
" him a Bill of any Thing like the Tenor of that of 1746, that he refuſed his Aſ-
" ſent to?" *Which, as he was* " perſuaded they would not ſay it, How was it poſ-
" ſible they ſhould know, that, upon a like Occaſion, he ſhould be leſs willing than
" his Predeceſſors to oblige them?"

Reſolved, That we have now offered the Governor a Bill for granting *Ten Thouſand Pounds* to the King's Uſe, to be ſunk by extending the Exciſe for Ten Years (a Bill of the like Tenor of that of 1746, for granting the Sum of *Five Thouſand Pounds* to the King's Uſe, to be ſunk by extending the Exciſe for Ten Years) to which he has been pleaſed to refuſe his Aſſent.

Reſolved, That as the Governor acknowledged the Term of Ten Years for extending the Exciſe to ſink the *Five Thouſand Pounds*, was " a ſhort Space of Time," and that " there was not the leaſt Probability of that Act's producing any of the Inconveniences " complained of:"——The ſame Term of Ten Years for extending the Exciſe to ſink *Ten Thouſand Pounds*, muſt, in Conſequence, be allowed a " ſhort Space of Time;" and the Bill he now refuſes being of the ſame Tenor, there cannot be " the leaſt Probability " of its producing the Inconveniences complained of; the preventing of which for the " future appears clearly [to the Governor] to have been the ſole End and Purpoſe of the " Royal Inſtruction."

Reſolved,

1754. May 18.

Resolved, That the Governor having, as he hoped, "incontestably proved, that the "true and real Intention of the Royal Instruction could have been no other than to "guard against the Abuses enumerated in the Body of it; and the Act for granting *Five* "*Thousand Pounds* for the King's Use, passed by the late Governor, in 1746, being of "a SINGULAR and QUITE DIFFERENT NATURE from Acts passed upon ordinary Oc-"casions, could not be comprehended within the Meaning of the said Instruction." The Bill now offered to the Governor for granting *Ten Thousand Pounds* for the King's Use, being also of a SINGULAR and QUITE DIFFERENT NATURE from Acts passed upon ordinary Occasions, and of the same Tenor with the Act passed in 1746, cannot be comprehended, by the Governor (unless he has very lately altered his Opinion) to be within the Meaning of the Royal Instruction; and therefore,

Resolved, That it is our Opinion, that if the Governor is restricted by any Instruction from passing this Bill, it must be by some Instruction which he has never been pleased to lay before this House,——and not the Royal Instruction, the Operation of which, against Bills of this Tenor, he hath so effectually invalidated.

Resolved, That this House will this Day adjourn to the Nineteenth Day of the Month called *August* next.

The Answer to the Governor's Messages, relating to the intended Treaty to be held at *Albany*, being transcribed, was again read, and follows in these Words, *viz.*

May it please the GOVERNOR,

An Answer from the Assembly to the Governor's Messages.

WE have deliberately considered the Governor's several Messages, together with the Letters he has been pleased to lay before us, relating to the ensuing Treaty, to be held at *Albany*, in which we thankfully observe the Care he has taken "to obtain "the best Intelligence he was able of what was proposed to be transacted at that Treaty "for the general Benefit and Advantage of these Colonies, and of every other Thing "relating thereto, which he conceived necessary for our Information." And as he has been pleased to request our Sentiments on the Instructions to be given the Gentlemen Commissioners on the Part of this Province, "to which he will pay the greatest Re-"gard," we can do no less than return him our grateful Acknowledgments for his Condescension and Justice; and would chearfully comply therewith at this Time; but when we consider that no Propositions for an Union of the Colonies, in *Indian* Affairs, can effectually answer the good Purposes, or be binding, farther than they are confirmed by Laws, enacted under the several Governments comprized in that Union; that we know not what Restrictions the Governor may lie under in passing our Acts; and that we have very little Reason to depend upon any Assistance in our *Indian* Expences, where, by a former Assembly, it has been respectfully addressed for, and where we think in Justice we have a Right to expect it; we are, under these Circumstances, at a Loss to advise him on the important Articles he has been pleased to propose to our Consideration: Nevertheless, as we have already declared our Satisfaction in the Gentlemen the Governor has been pleased to name for this Commission, so we confide in their Abilities and Prudence to answer the Ends proposed in the Letter from the Lords of Trade, of the Eighteenth of *September* last, by renewing at this Interview the Covenant-Chain with the *Six Nations*, and by frustrating, as far as lies in their Power, any Attempts which have been made to withdraw them from the *British* Interest: And for this Purpose, in Compliance with the said Letter from the Lords of Trade, we have now granted a Present to be made to those *Indians* on our Behalf; however inconvenient we may judge it to hold our Treaties at *Albany* on other Occasions."

And the Message being signed by the Speaker, by Order of the House;

Ordered, That *Joseph Fox* and *Joshua Morris* wait upon the Governor with the said Message, and acquaint him, that the House seeing no Prospect of being farther useful to the Public in the present Sitting, and their private Affairs, in this busy Season of the Year, requiring their Attendance at their respective Homes, are inclined to adjourn this Day to the Nineteenth Day of the Month called *August* next.

The Committee of Accounts reported on *Thomas Jervis's* Accounts, for his Trouble and Expences in going twice Express to *Virginia*, that it was their Opinion he ought to be allowed the Sum of *Thirty-three Pounds Five Shillings* and *One Penny*, in Discharge thereof; and that his other Account for keeping *Andrew Montour's* Horses, should be referred to the next Sitting of Assembly. The House agreeing to the Report of the Committee, an Order was drawn on the Treasurer, and signed by the Speaker, by Order of the House, for Payment of the said Sum of *Thirty-three Pounds Five Shillings* and *One Penny*.

Ordered, That the Trustees of the General Loan-Office do use their best Endeavours to collect, before the next Settlement of Accounts, as much of the outstanding Money due to the Province as they conveniently can.

The Gentlemen appointed to wait upon the Governor with the Message of the House, return and report, that they had delivered the same according to Order, and that the

1754. *May* 18. Governor was pleaſed to ſay, he had no Objection to the propoſed Time of Adjournment; but deſired that the Gentlemen would acquaint the Houſe, " that as ſome Parts of the " Minutes of Aſſembly of this Seſſion may be neceſſary to be mentioned in the Repre- " ſentation the Governor finds himſelf obliged to make to his Majeſty, in Anſwer to " his Royal Order relating to the Invaſion of his Dominions by the *French*, and their " *Indian* Allies; he deſires the Houſe will direct a Copy thereof to be delivered to him, " or permit a Perſon, to be by him appointed, to take the ſame from their Journal as " ſoon as conveniently may be."

Ordered, That the Minutes of this Sitting of Aſſembly be forthwith printed, and that the Governor have a Copy of them delivered to him as ſoon as finiſhed.

The Governor alſo ſent down by the Members who waited upon him with the Meſſage of the Houſe, a Letter he had juſt received from *Andrew Montour*, which was read.

Adjournment. Then the Houſe adjourned to the Nineteenth Day of the Month called *Auguſt* next.

Auguſt 6. *Poſt Meridiem*. THE Repreſentatives of this Province having been, by Virtue of the Governor's Writs to the Sheriffs of the ſeveral Counties for that Purpoſe directed, ſummoned to meet him this Day in Aſſembly, the Houſe accordingly met.

Ordered, That *Evan Morgan* and *Joſeph Trotter* wait upon the Governor and acquaint him, that the Houſe are met, and ready to receive any Thing he may have to lay before them, and deſire he would be pleaſed to furniſh them with a Copy of the Writs by which they were ſummoned.

Adjournment. Then the Houſe adjourned to Ten o'Clock To-morrow Morning.

Auguſt 7. The Gentlemen appointed to wait upon the Governor with the Meſſage of the Houſe, report, they had delivered the ſame, according to Order; and that the Governor was pleaſed to ſay, he ſhould be at the Council Chamber by Eleven o'Clock this Morning, when he would ſend a Meſſage to the Houſe to require their Attendance; and that the Houſe ſhould be furniſhed with a Copy of the Writs by which they were ſummoned.

A Meſſage from the Governor, by the Secretary;

S I R,

" The Governor requires the Attendance of the Houſe in the Council Chamber."

Then the Speaker, with the whole Houſe, waited upon the Governor; and being returned, the Speaker reſumed the Chair, and reported, that the Houſe had waited upon the Governor, who was pleaſed to make a Speech to this Houſe, a Copy of which he had delivered to the Speaker; and informed him, that the Papers referred to therein, ſhould be forthwith laid before the Houſe by the Secretary.

The Governors Speech was read, and follows in theſe Words, *viz.*

Mr. Speaker, and Gentlemen of the Aſſembly,

A Speech of the Governor to the Aſſembly. ' THE Importance of the ſeveral Matters I have now to lay before you, both to his ' Majeſty's Service and to the Safety and Protection of the Inhabitants of this Pro- ' vince, will, I am perſuaded, render any Apology for calling you together before the ' Time to which you ſtood adjourned, altogether unneceſſary.

' You will be pleaſed then to know, that I have lately received from the Commander ' in Chief of the Forces raiſed by *Virginia* for Defence of his Majeſty's Dominions, an ' Account of thoſe Forces having been attacked and entirely defeated by a ſuperior ' Body of *French* Troops, aſſiſted by a conſiderable Number of *Indians* under their ' Direction.

' This daring Inſult upon his Majeſty's Subjects within the undoubted Limits of his ' Dominions, in a Time of profound Peace, very clearly points out the manifold Ca- ' lamities we have Reaſon to apprehend on a Rupture between the two Crowns, from ' the Incurſions of that bold and enterprizing People, in Conjunction with barbarous ' Nations of Savages, if they be permitted to ſtrengthen themſelves ſo near to the in- ' habited Parts of theſe Provinces. One principal Motive therefore of my haſtening ' your Meeting was, that I might the ſooner have an Opportunity of recommending to ' you a chearful and vigorous Reſolution of diſlodging (with God's Aſſiſtance) from ' the Neighbourhood of our Settlements theſe Invaders of our Country; and that as little ' Time as poſſible might be loſt in making the neceſſary Preparations for that Purpoſe.

' This Meaſure therefore I now do in the moſt ſolemn Manner recommend to you; ' but as, on another Occaſion, you expreſſed a Deſire of acting in Concert with the Go- ' vernor of *Virginia*, to whom the King was pleaſed to commit the chief Direction of ' this Affair, and as I have not been informed by him, ſince this unfortunate Event, ' what his further Reſolutions are, with reſpect to the Expedition, I at preſent forbear, ' in regard to your Opinion, preſſing you to engage as Principals, until I ſhall be ac- ' quainted with his Determination upon that Head; which, in Conſequence of my ' earneſt Requeſt, may be every Day expected; and when received, ſhall immediately ' be communicated to you.

' In

1754. August 7.

'In the mean while it will be highly expedient, that, in order to save Time, you 'take into Consideration the most proper Ways and Means of raising a Supply for this 'Service; in the doing of which, I flatter myself, you will industriously avoid whatever 'may be likely to occasion any Difference in Opinion between you and me, to the De-'triment of the Common Cause, and Disappointment of his Majesty's just Expectations 'from us.

'The unhappy Issue of the late Action between us and the *French* has already begun 'to create an additional Charge to the Public, as will appear by the Papers I shall order 'to be laid before you.——By them you will be informed, that a Body of the *Six Na-*'*tions*, in our Alliance, with the *Half King*, and other considerable Men at their Head, 'have been obliged, from a Dread of the *French* Power, to remove with their Families 'from the Places of their usual Residence, and to take Refuge within our Province, 'where many others are soon expected to join them: And as they are by this Means 'deprived of the Benefit of Hunting, by which their Families were principally sup-'ported, they have acquainted me, that they expect their Brethren of *Pennsylvania* 'should provide for them, while their Men will be engaged in the War against the 'Common Enemy. And in Compliance with their Expectations, which did not ap-'pear unreasonable, I have ordered a Quantity of Provisions to be delivered to them; 'not doubting but you will very chearfully make Provision for defraying the Expence 'that has already arisen, and will hereafter arise upon the same Occasion: Since nothing 'can be more just than that, while the Men are prevented of the Means of subsisting 'their Families, by their Attachment to his Majesty's Interest, and are actually employed 'in promoting it without Pay or Reward, their Wives and Children, who are incapable 'of supporting themselves, should be maintained at the Public Expence.

'The People of *Cumberland*, and of the upper Parts of *Lancaster* County, are so ap-'prehensive of Danger at this critical Juncture, from the Nearness of the *French*, and 'Savages under their Influence, that the principal Inhabitants have, in the most earnest 'Manner, petitioned me to provide for their Protection; representing withal, that a 'great Number would be warm and active in Defence of themselves and their Country, 'were they enabled so to be, by being supplied with Arms and Ammunition, which 'many of them are unable to purchase at their own private Expence. The Substance 'of these several Petitions, which I shall likewise order to be laid before you, appears to 'me, Gentlemen, to be of the greatest Importance, and well worthy of your most se-'rious Attention. You may be assured, that nothing which depends on me shall be 'wanting towards affording them the Protection they desire; but you cannot at the 'same Time but be sensible how little it is in my Power to answer their Expectations 'without the Aid of your House. It becomes then my indispensable Duty, and I can-'not, on any Account whatever, excuse myself from pressing you to turn your Thoughts 'on the defenceless State of the Province in general, as well as of our Back Inhabitants 'in particular; and to provide such Means for the Security of the Whole, as shall be 'thought at once both reasonable and effectual to the Ends proposed; in which, as in 'every other Matter, consistent with my Honour, and the Trust reposed in me, I pro-'mise you my hearty Concurrence.

'It is with great Satisfaction, that I now communicate to you the Proceedings of the 'Commissioners at the late Treaty at *Albany*; as, on Perusal thereof, you will clearly 'perceive, that the Lands on the River *Ohio* do yet belong to the *Indians* of the *Six Na-*'*tions*, and have long since been by them put under the Protection of the Crown of '*England*.——That the Proceedings of the *French*, in erecting Forts on that River, 'and in the Countries adjacent, have never received the Countenance or Approbation 'of those Nations; but, on the contrary, are expressly declared by them to have been 'without their Privity or Consent.——That they are greatly alarmed at the rapid Progress 'of the *French*, and in severe Terms reproach us with supine Negligence, and the de-'fenceless State of our Possessions; and, in Effect, call upon us to fortify our Frontiers, 'as well for the Security of their Countries as of our own.——That, after a due and 'weighty Reflection on these several Matters, with many others of equal Importance, 'the Commissioners thought it necessary to consider of, and draw up, a Representation 'of the present State of the Colonies: And from thence, judging that no effectual Op-'position was like to be made to the destructive Measures of the *French*, but by an 'Union of them all for their mutual Defence, devised likewise a general Plan for that 'Purpose, to be offered to the Consideration of their respective Legislatures.

'And as both those Papers appear to me to contain Matters of the utmost Conse-'quence to the Welfare of the Colonies in general, and to have been digested and drawn 'up with great Clearness and Strength of Judgment, I cannot but express my Approba-'tion of them; and do therefore recommend them to you, as well worthy of your clo-'sest and most serious Attention."

The Governor, by his Secretary, sent down to the House one of the Writs by which the

Some of the foregoing Papers were read, and the Remainder referred to the Afternoon.

Poſt Meridiem A Petition from the Inhabitants of *Donnegall*, in *Lancaſter* County, was preſented to the Houſe and read, ſetting forth, that this Province is now in a diſtreſſed Condition, being invaded by a cruel and formidable Enemy, at a Time when the Inhabitants are neither provided with Arms or Ammunition, nor under any Kind of Diſcipline; the Petitioners therefore humbly pray, that this Houſe would, as being the Guardians of the People, take their preſent Circumſtances into Conſideration, and put thoſe of them who are willing to defend themſelves and Country into a proper Condition for Defence, and oblige ſuch who are principled againſt appearing in Arms to contribute towards enabling thoſe to do it who are not ſo principled, in ſuch Manner as to the Wiſdom of this Houſe ſhall ſeem moſt meet. *Ordered to lie on the Table.*

A Petition from a very conſiderable Number of the Inhabitants of the Townſhips of *Paxton, Hanover* and *Derry*, in the County of *Lancaſter*, with a Recommendation of the ſaid Petition, from the Grand Jury of the ſaid County; was preſented to the Houſe and read, ſetting forth, that the Petitioners being ſettled on and near the River *Saſquehannah*, apprehend themſelves in great Danger from the Neighbourhood of the *French* and *Indians* in their Alliance, as it is in their Power, at ſeveral Times in the Year, to tranſport themſelves, with Ammunition, and every other Neceſſary, down the ſaid River; that the late Conduct of the *French*, towards ſome of the neighbouring Provinces, makes the Petitioners dread a ſpeedy Viſit from them, as being not only as near to the *French* as the other Provinces, but far leſs capable of defending themſelves than they are, not having either Arms or Ammunition, or wherewithal to purchaſe them; that a great Number of the Inhabitants, in the Back Parts of this Province, are ready and willing to exert themſelves in the Defence of their Country, were they enabled ſo to do, although they are not of themſelves a ſufficient Number to withſtand the Enemy: The Petitioners therefore humbly pray that this Houſe would take the Premiſes into their moſt ſerious Conſideration, and do therein what the preſent Circumſtances of Affairs require.

Ordered to lie on the Table.

The Governor's Speech was again read, and conſidered, and the further Conſideration thereof referred to To-morrow Morning.

the Releaſe of *Alexander Magenty*, &c. reported, that they had examined them, and were of Opinion, that the ſeveral Sums, amounting in the Whole to *Seventy-two Pounds Five Shillings* and *One Penny Halfpenny*, ought to be allowed by this Houſe; to which the Houſe aſſented. 1754. *Auguſt* 8.

A Meſſage from the Governor, by the Secretary:

SIR,

"The Governor commands me to acquaint the Houſe, that Parties of *French* Deſerters, from the Forts on the River *Ohio*, are daily arriving in this City. And as many of the Inhabitants are afraid to employ them, not knowing their Characters or Deſigns, or that there may not be really ſufficient Employ for them, they are in Danger of being reduced to extreme Want; the Few who have hitherto in a great Meaſure ſupported them, not being able, or not inclining, to do it any longer: And therefore propoſes it to the Conſideration of the Houſe, whether it might not be for the Public Service, that ſome ſmall Reward ſhould be given them, as an Encouragement for others to deſert, or ſome Conſideration offered to ſuch as would employ them on reaſonable Terms."

The Houſe taking the foregoing Meſſage into Conſideration,

Reſolved, That the Sum of *Twenty Pounds* be paid out of the Provincial Treaſury into the Hands of *Anthony Benezet*, to be by him laid out for the Relief and Maintenance of ſuch *French* Deſerters as are now in Town, or may hereafter arrive, in ſuch Manner as he ſhall judge moſt ſuitable.

Sundry

Sundry Accounts from *Richard Patridge* and *Robert Charles*, Esquires, were laid before the House, and read, and committed to the Committee of Accounts. 1754. *August* 13.

The Speaker, in Behalf of the Superintendants of the State-house, desired the Opinion of the House whether they should send the old Bell to *England* in Part Pay for the new One they had purchased (as they had a Right to do by their Agreement) or keep them both for public Use.

Resolved, That the said Superintendants do pay for the new Bell, and keep the old One for such Uses as this House may hereafter appoint.

A Petition from *Robert Callender* and *Michael Teaff*, *Indian* Traders, was laid before the House and read, setting forth, that the Petitioners being at *Allegheney* about the Tenth of *May* last (the Time that the *French* came down the River *Ohio*) had there sundry Goods unsold; that the *Half King* and *Big Kettle*, two *Indian* Chiefs, requested the Petitioners, that as their Enemies the *French* were near at Hand, and the Ammunition and other Necessaries of the *Indians* were scarce, they would spare them a Part of those they had there for Sale, and charge it to their Brethren of *Pennsylvania*, and if they scrupled to pay them, they, the *Indians*, would pay; that upon these Considerations, the Petitioners did accordingly deliver to the said *Indians* sundry Goods (as particularized in an Account annexed to their Petition) to the Value of *Eighty-four Pounds*; the Petitioners therefore pray that this House would consider the Premises, and make an Allowance to them for the said Goods, as they are now deprived, by reason of the Encroachments of the *French*, of all Hopes of being paid by the *Indians*. And the Petition farther sets forth, that *Robert Callender*, one of the Petitioners, came down Express to his Honour the Governor, about two Years ago, to bring an Account of the Attack then made by the *French* and their *Indians*, on the *English* and *Indians* in the *Pict Town*, near the River *Ohio*; and had also been at a considerable Expence in sending an Express to the Governor with the News of the late Defeat of the *Virginia* Forces at Fort *Necessity*; and therefore praying that such Allowance may be made him for the said Services, as to the Wisdom of this House shall seem most proper. *August* 14. *Ordered to lie on the Table.*

Ordered, That *Griffith Owen* and *Joseph Armstrong* wait upon the Governor with the said Bill, and acquaint him, that the House were in Hopes this Bill could not fail to have received the Governor's Assent; but as he has objected to the inserting his Name in the Bill, for receiving or ordering the Disposal of the Money thereby granted, they have complied with his Request, and instead thereof have made it payable to the Lieutenant Governor of this Province for the Time being, in Conjunction with the other Gentlemen therein named, and request he would be pleased to pass it as it now stands, for the House cannot admit of any other Alteration in the Bill.

Then the House adjourned to Ten o'Clock To-morrow Morning. Adjournment

A Message

1754. *Auguſt* 16. A Meſſage from the Governor, by the Secretary:

SIR,

" The Governor promiſed himſelf from the Requeſt he made to the Houſe in his " Speech at the Opening of the Seſſion, that (conſidering the Importance of the Occa- " ſion) they would have fallen upon ſome Method of raiſing Money for the King's Uſe, " to which he might have had no material Objection; and could not therefore help " being extremely mortified at finding the Bill now preſented him for that Purpoſe, to " be not only formed on the ſaid Plan, but to be nearly of the ſame Tenor with that " to which he refuſed his Aſſent at their laſt Meeting. He has nevertheleſs complied " with the Proffer he then made them, and has agreed to extend the Fund they have " choſen to raiſe the Money upon, in the ſame Proportion as they have encreaſed the " Sum granted to his Majeſty. But the Houſe is peremptory, and will admit of no " Alteration in their Bill. All then that remains, after aſſuring them, that the Go- " vernor, leſt the King's Service ſhould ſuffer, has ſtrained his Powers even beyond " what he almoſt dares think conſiſtent with his Safety, is to ſubmit our reſpective Con- " duct to the Judgment of our Superiors. But he hopes this alſo may be rendered un- " neceſſary by the Arrival of the Gentleman that is to ſucced him in the Adminiſtration, " who may every Day be looked for among us; and who may poſſibly think himſelf " more at Liberty, with reſpect to the Matter in Controverſy, than the Governor can " preſume to do: In the mean while it is hoped no conſiderable Detriment may ariſe " to his Majeſty's Affairs in the ſhort Interval between this and the Time of his actual " Arrival.

" So much has already been ſaid upon this Subject on another Occaſion, that the Go- " vernor declines any farther Enlargement thereon, as well knowing, that public Di- " ſputes of this Nature frequently terminate in private Animoſities, which he is very de- " ſirous of avoiding, and therefore only expects from the Houſe that they will do him " the ſame Juſtice he is willing to do them, in ſuppoſing him to act from his Judgment, " when he tells them, that he cannot recede from his Amendments."

The Committee appointed to audit and ſettle the Public Accounts, made their Report in Writing, which was read, and ordered to lie on the Table for the Peruſal of the Members.

A Petition from *John Baſſonet* and *Peter White* was preſented to the Houſe and read, ſetting forth, that the Petitioners became bound with *John Hall*, late Collector of the Exciſe for the County of *Bucks*, for the Diſcharge of his Office in ſuch Manner as the Law requires; that the ſaid *Hall*, when indebted to the Province, on Account of his ſaid Office, became inſolvent; that the Provincial Treaſurer brought an Action againſt the Petitioners, and obtained a Judgment for a Sum exceeding *Eighty Pounds*; that the Coſts of Suit, and other Charges thereon, are very conſiderable; that the Petitioners can have no Relief without the Aid and Aſſiſtance of this Houſe; that their Circumſtances are ſuch, that their being obliged to diſcharge the Sum recovered againſt them will be of great Injury to their Families; they therefore humbly pray for ſuch Favour as to the Wiſdom of this Houſe ſhall ſeem meet.

The Houſe taking the ſaid Petition into Conſideration;

Ordered, That the ſame be rejected.

Adjournment. Then the Houſe adjourned to Three o'Clock, *P. M.*

Poſt Meridiem. The Petition of *Robert Callender* and *Michael Teaff* was again read, and conſidered, and referred to the Committee of Incidental Charges.

The Governor's Speech was again read, and conſidered; and, after ſome Time ſpent therein, referred to farther Conſideration.

Reſolved, That this Houſe will To-morrow adjourn to the Thirtieth Day of *September* next.

Ordered, That *Joſeph Hamton* and *Peter Worral* wait upon the Governor, and acquaint him, that the Houſe having near gone through the Buſineſs before them, propoſe to adjourn To-morrow to the Thirtieth Day of *September* next, if he hath no Objection thereto.

Adjournment. Then the Houſe adjourned to Ten o'Clock To-morrow Morning.

Auguſt 17. The Gentlemen appointed to wait upon the Governor with the Meſſage of the Houſe, report, that they had delivered the ſame according to Order; and that the Governor was pleaſed to ſay, he had no Objection to the propoſed Time of Adjournment.

The Part of the Governor's Speech, relating to the Plan of Union among the ſeveral *Britiſh* Colonies on this Continent, was read; and, after a conſiderable Debate whether the ſaid Plan ſhould be either recommended or referred to the Conſideration of the ſucceeding Aſſembly, the Queſtion was put, upon Motion made, that the ſaid Plan of Union be referred to the Conſideration of the next ſucceeding Aſſembly?

Paſt in the Negative?

Adjournment. Then the Houſe adjourned to Three o'Clock, *P. M.*

Ordered, That the said Balance be paid into the Hands of the Trustees of the Loan-Office, to be accounted for by them hereafter.

The Committee of Incidental Charges, to whom the Petition and Accounts of *Robert Callender* and *Michael Teaff* were referred, reported, that they were of Opinion, that the Articles therein contained, were not properly and sufficiently certified to this House, so as to entitle the Petitioners to the Allowances prayed for in their Petition;—to which the House agreed.

That the Speaker had then, in the Name and Behalf of the Houſe, claimed the uſual Privileges, *viz.*

That the better to diſcharge the Buſineſs of the Public, they may at all ſeaſonable Times have free Acceſs to the Governor.

That their Perſons and Eſtates may be protected from all Arreſts and Inſults during the Time of Privilege accuſtomed.

That it would pleaſe the Governor to take no Notice of any Report that may be made, touching any Matter or Thing that may be moved or debated in the Houſe, until the ſame ſhall have paſſed into a Reſolve, nor give the leaſt Credit to ſuch Report. And laſtly,

And likewiſe that the Governor acquainted the Houſe, that, by the Time they had taken their reſpective Qualifications, he ſhould have ſomething ready to communicate to them, and ſhould therefore again require their Attendance by the Secretary.

Then the Qualifications by Law appointed, were taken and ſubſcribed, firſt by the Speaker in the Chair, and then at the Table by all the reſt of the Members preſent, in their Order.

A Meſſage from the Governor, by the Secretary:

S I R,

"The Governor requires the Attendance of the Houſe in the Council Chamber im-

The Governor's Speech was read at the Table, by Order, and follows in theſe Words, *viz.*

Mr. Speaker, and Gentlemen of the Aſſembly,

A Speech of the Governor to the Aſſembly.

'ON Mr. *Hamilton's* Reſignation, the Honourable Proprietaries were pleaſed to appoint me to the Command of this Province: And as I am perſuaded they have 'nothing more at Heart than the Welfare and Proſperity of the People, I flatter myſelf, 'their Choice of me was from the Opinion they entertained, that I would, to the ut-'moſt of my Power, promote the general Happineſs; in which it ſhall be my earneſt 'Endeavour not to diſappoint them: I therefore take this early Opportunity of aſſuring 'you, that I ſhall, upon all Occaſions, be ſtudious to protect the People committed to 'my Charge in the Enjoyment of all their Civil and Religious Privileges, and at the ſame 'Time be careful to maintain the juſt Rights of Government, as equally conducive to 'the Public Good.

'The particular Matter I have at preſent to recommend to your Conſideration, is the 'State of the Frontiers of this and the neighbouring Governments, where you will find 'the *French* acting with a ſteady Uniformity and avowed Reſolution to make themſelves 'Maſters of this Country. Their Encroachments upon his Majeſty's Territories, and 'their hoſtile Proceedings in this Time of Peace, may ſhew us what we are to expect in 'Caſe of open War, if we ſuffer them to ſtrengthen themſelves in the Poſſeſſion of that 'Country they have ſo unjuſtly ſeized, and from whence they may not only annoy us, 'by the *Indians* in their Alliance, but can at any Time march a Body of Troops into 'this plentiful Province, ſituated in the Center of the *Britiſh* Dominions in *America*.

'I am ſure I need only mention to you the arbitrary and tyrannical Nature of their 'Government, and the deteſtable Principles of their Religion, to convince you of the 'unhappy Condition theſe Colonies will be reduced to, ſhould they ever become ſubject 'to the *French*. I do therefore, in his Majeſty's Name, earneſtly recommend it to you 'to exert yourſelves at this critical Juncture in Defence of your Country, while their 'Numbers are ſmall, and before they have eſtabliſhed themſelves in their preſent Situa-'tion; and ſhall only obſerve, that if this Opportunity be loſt, it is not likely we ſhall 'ever have another ſo favourable.

'If, when you ſhall think it a proper Seaſon to proceed to private Buſineſs, you ſhall 'find any Laws wanting for the better Government of the Province, I ſhall be ready

'to

1754. October 15.

"to enter upon the Consideration of what you shall propose, and give my Consent to "such as I shall judge reasonable, and for the Public Utility."

WE, the Repreſentatives of the Freemen of the Province of *Pennſylvania*, in General Aſſembly met, beg Leave to congratulate the Governor on his Acceſſion to this Government, and his ſafe Arrival in *Pennſylvania*.

It is very agreeable to us to find that the Choice of him was from an Opinion our honourable Proprietaries entertained, that he would, to the utmoſt of his Power, promote the general Happineſs of this Province; in which the Governor is pleaſed to aſſure us, it ſhall be his earneſt Endeavour not to diſappoint them; and that he will, on all Occaſions, be ſtudious to protect the People committed to his Charge in the Enjoyment of all their Civil and Religious Liberties. And we do, with the ſame Sincerity, promiſe to contribute every Thing in our Power to ſupport him in the Exertion of all the juſt Rights of Government conducive to theſe good Ends.

The Encroachments of the *French* on his Majeſty's Territories, and their hoſtile Proceedings in this Time of Peace, are truly alarming; and as they have been long ſince known in *Great Britain*, we were in Hopes, on the Governor's Arrival, to have received Inſtructions from the Crown, how to conduct ourſelves on this important Occaſion; but as we have not had any ſuch laid before us, the Royal Order ſent to the ſeveral Colonies by the Earl of *Holderneſſe*, in his Letter of the Twenty-eighth of *Auguſt*, 1753, appears to be the only Rule by which we can now act with Safety: And as we find our late Aſſembly did what was moſt conſiſtent with the Truſt repoſed in them to comply therewith, the Governor may likewiſe depend upon our doing whatever can be reaſonably expected from us for the Good of this Province, or the general Intereſt of the *Britiſh* Colonies on the Continent, whenever our Aſſiſtance can be applied to any valuable Purpoſe. But at preſent, as we know not where to direct our Aid, and as this has not been the uſual Time of doing Buſineſs, occaſioned by the Governor's being obliged to give his Attendance elſewhere, we are inclined, if he has no Objection, or any Thing farther to lay before us, to make a ſhort Adjournment; and if, during our Receſs, any Matters of Importance ſhould come to his Knowledge, we ſhall chearfully attend the Governor's Call of our Houſe, and contribute our Aſſiſtance for the Public Good."

And the ſaid Addreſs being ſigned by the Speaker, by Order of the Houſe;

Ordered, That *Mahlon Kirkbride* and *James Wright* wait upon the Governor, and deliver the ſame, with the Order of this Houſe for *Five Hundred Pounds*.

Then the Houſe adjourned to Three o'Clock, *P. M.* Adjournment *Poſt Meridiem*

The Gentlemen appointed to wait upon the Governor with the Addreſs of the Houſe, and the Order for *Five Hundred Pounds*, reported, that they had delivered the ſame, according to Order; and that the Governor was pleaſed to ſay, he thanked the Houſe for the Order; and would take their Addreſs into Conſideration, and return an Anſwer to the Houſe forthwith, if he found it required One.

The Committee of Accounts reported, that they had examined *Conrad Weiſer's* Account of Diſburſements for the Maintenance and Support of the *Indians* at *Aughwick*, and find, that, out of the *Three Hundred Pounds* put into his Hands for the Purpoſes aforeſaid, there is a Balance of *Six Pounds Twelve Shillings* and *Two-pence*, due from him to the Province.

The Houſe taking the Governor's verbal Meſſage of the Sixteenth Inſtant, with the

1754. several Letters from *Conrad Weiſer* and *George Croghan*, relating to *Indian* Affairs, into Conſideration;

October 18. *Reſolved*, That, until the next Sitting of Aſſembly, this Houſe will, out of the Provincial Treaſury, allow ſuch reaſonable Charges as neceſſarily ariſe upon making a ſuitable Proviſion towards the Maintenance of thoſe *Indians*, in our Alliance, as have taken Refuge within this Government.

Ordered, That Candles be brought in.

And they were brought in accordingly.

The Queſtion, *Whether the Speaker of this Houſe has a Right to give his Vote in the Caſe of* Spencer Trotter? was again debated; and, after ſome Time ſpent therein, was referred to further Conſideration.

Adjournment Then the Houſe adjourned to Ten o'Clock To-morrow Morning.

October 19. The Committee of Accounts reported on an Account of *Conrad Weiſer's*, amounting to *Nineteen Pounds Four Shillings*, for the Maintenance of ſome *Indians* who came down to his Houſe in *July* laſt, that they were of Opinion the ſaid Account ought to be allowed.

The Committee of Accounts alſo reported on *Anthony Benezet's* Account of Diſburſements for the Relief and Maintenance of ſuch *French* Deſerters as have for ſome Time paſt arrived in this City, that they were of Opinion the ſaid Account was juſt; by which it appears, that there is a Balance of *Three Pounds Sixteen Shillings* and *Eleven-pence Halfpenny* remaining in the ſaid *Benezet's* Hands, due to the Province, out of the Money formerly paid him for the Purpoſes aforeſaid.

The Houſe agreed to the two above Reports of the Committee of Accounts.

Reſolved, That the further Sum of *Twenty Pounds* be paid out of the Provincial Treaſury into the Hands of *Anthony Benezet*, to be by him laid out for the Relief and Maintenance of ſuch *French* Deſerters as are now in this City, or may hereafter arrive, in ſuch Manner as he ſhall judge moſt ſuitable.

Reſolved, That this Houſe will this Day adjourn to the Second Day of *December* next.

The Governor, by the Secretary, ſent down a written Meſſage to the Houſe, which was read, and is as follows, *viz.*

GENTLEMEN,

A Meſſage from the Governor to the Aſſembly. 'I VERY heartily thank you for your kind Addreſs. As I have nothing further to 'lay before you, I ſhall not object to your Propoſal of making a ſhort Adjournment.

Philadelphia,

October 19, 1754. *ROBERT HUNTER MORRIS.*"

Ordered, That *Hugh Evans* and *Joſeph Fox* wait upon the Governor, and acquaint him, that the Houſe is inclined to adjourn to the Second Day of *December* next, if he hath no Objection thereto.

The Committee of Accounts reported on an Account of *Conrad Weiſer's*, amounting to *Fifty-four Pounds*, for his and Son's Services, in attending the Commiſſioners to the *Carliſle* and *Albany* Treaties, and for ſending two Expreſſes to the Govornor, that they were of Opinion the ſame ought to be allowed;——to which Report the Houſe aſſented.

And an Order was accordingly drawn on the Treaſurer for Payment of the ſame, together with the Sum of *Nineteen Pounds Four Shillings*, allowed the ſaid *Weiſer* for the Maintenance of ſome *Indians* who came down to his Houſe in *July* laſt.

The Petition from *Lewis Evans* was again read, and conſidered; and, after ſome Time ſpent therein, it was

Reſolved, That the Sum of *Fifty Pounds* be paid out of the Provincial Treaſury to the ſaid *Evans*, towards the better enabling him to compleat and publiſh the Map mentioned in his ſaid Petition.

And an Order was accordingly drawn on the Treaſurer, and ſigned by the Speaker, by Order of the Houſe, for Payment of the ſame.

The Gentlemen appointed to wait upon the Governor with the Meſſage of the Houſe, return, and report, that they delivered the ſame, according to Order; and that the Governor was pleaſed to ſay, he had no Objection to the propoſed Time of Adjournment; but, if Occaſion required, he ſhould call the Houſe together ſooner.

Ordered, That the Queſtion concerning the Speaker's Right to a Vote in the Caſe of *Spencer Trotter*, be referred to the Conſideration of this Houſe at their next Sitting.

Adjournment Then the Houſe adjourned to the Second Day of *December* next.

December 2. THE Houſe met purſuant to their Adjournment.

Poſt Meridiem *Ordered*, That *Evan Morgan* and *Joſeph Stretch* wait upon the Governor, and acquaint him, that the Houſe are met according to their Adjournment, and deſire to know if he hath any Thing to lay before them.

Adjournment Then the Houſe adjourned to Ten o'Clock To-morrow Morning.

December 3. The Gentlemen appointed to wait upon the Governor with the Meſſage of the Houſe, report

report, that they had delivered the same, according to Order; and that the Governor was pleased to say, he should be at the Council Chamber about Eleven o'Clock this Morning, and would then send a Message to require the Attendance of the House. 1754. December 3.

The House being informed, that *Edward Warner*, chosen one of the Representatives of the County of *Philadelphia*, is deceased;

Ordered, That an Order issue, under the Hand of the Speaker, to the Secretary of the Province, requiring him to issue a Writ to the Sheriff of *Philadelphia*, for electing a new Member to serve in Assembly for the said County the present Year.

A Message from the Governor, by the Secretary:

S I R,

'The Governor requires the Attendance of the House immediately in the Council 'Chamber."

Then the Speaker, with the whole House, waited upon the Governor; and being returned, the Speaker resumed the Chair, and reported, that the House had waited upon the Governor, who was pleased to make a Speech to this House, a Copy of which he had delivered to the Speaker, and informed him, that the Papers therein referred to, should be laid before the House by the Secretary; and that whatever other Matters he might have to lay before the House, during this Sitting, he would communicate by Message.

The Governor's Speech was read, and it follows in these Words, *viz.*

Mr. Speaker, and Gentlemen of the Assembly,

A Speech of the Governor to the Assembly.

'AS you are now met for the Dispatch of Business, I think it my Duty to remind 'you of what I said at the Opening of the last Sitting, and to lay before you a Let- 'ter I have since received from Sir *Thomas Robinson*, one of his Majesty's principal Se- 'cretaries of State, signifying to me, " his Majesty's express Commands, that I should " not only act vigorously in Defence of the Government under my Care, but that I " should likewise be aiding and assisting his Majesty's other Colonies, to repel any " hostile Attempts made against them."

'At the Time of writing that Letter, on the Fifth of *July* last, his Majesty, and 'his Ministers, were only informed, that the *French* had drove some of the *Virginia* 'Troops from a Place on *Ohio*, at the Mouth of *Mohongialo*, and were erecting a Fort 'there; and you will observe, they think those Advantages, gained by the *French*, " might have been in a great Measure, if not totally, prevented, if every one of his " Majesty's Governments had exerted themselves according to the Directions in the Earl " of *Holderneſſe's* Letter of the Twenty-eighth of *August*."

'You are sensible, that many Things have happened since the Retreat from the Forks 'of *Mohongialo*, that have put our Affairs upon the Frontiers in a very bad Situation, 'much worse than his Majesty and his Ministers have any Knowledge of, or than they 'can possibly imagine; as they are well informed of the flourishing State of these Co- 'lonies, of the Numbers of Men they are capable of raising, and had great Reason to 'expect, that in a Matter, in which the Interest and Safety of the Colonies were so 'nearly concerned, they would have exerted themselves with uncommon Vigour.

'From the Letters and Intelligence I have ordered to be laid before you, it will ap- 'pear that the *French* have now, at their Fort at *Mohongialo*, above a Thousand regular 'Troops, besides *Indians*; that they are well supplied with Provisions, and that they 'have lately received an additional Number of Cannon; that their Upper Forts are also 'well garrisoned and provided, and that they are making a Settlement of Three Hun- 'dred Families in the Country of the *Twightwees*, at the South-west End of the Lake '*Erie*.

'From those Papers you will likewise be informed of the Use they have made of 'their last Year's Success among the *Indians* of the *Six Nations*, having prevailed with 'many of them to remove to *Canada*, who will either be neuter in the present Dispute, 'or take up Arms against us, while such few of the *Indians*, as still retain their Attach- 'ment to the *English*, dare not be active for us, till they see a Force in the Field su- 'perior to that of the *French*; and if that be not soon, they will certainly give up our 'Cause, and embrace the tempting Offers made them by the *French*.

'*Gentlemen*, It is now several Years since the *French* undertook this Expedition, and 'we have long had full Intelligence of their Designs, and of the Steps they have taken 'to carry them into Execution; their Progress indeed has been very surprizing, owing 'chiefly to the Inactivity of the *English* Colonies, who, I am sorry to say, have looked 'with too much Indifference upon an Affair that must end in their Ruin, if not timely 'prevented.

'When you have maturely considered the Conduct of the *French* upon the present 'Occasion, and observed the Steadiness with which they have pursued a well-laid Plan, 'you cannot doubt but very considerable Men have been concerned in the Formation of 'this Scheme, and that proper Persons are employed in the Execution of it; and as the 'Circumstances of these Colonies are by no Means unknown to the *French*, they are

'doubtless

1754. *December* 3.

'doubtleſs prepared to make a vigorous Defence, and will not eaſily give up what they 'have taken ſo much Pains, and been at ſuch Expence to gain; but rather will be in- 'duced to attack us, knowing our weak and defenceleſs State, and that we are, as it 'were, an open Door for the Conqueſt of the reſt of the Provinces. We muſt therefore 'reſolve to act with Vigour, or not at all; for, in my Opinion, we had better not at- 'tempt than be defeated.

'Theſe Encroachments of the *French* upon the Territories of the Crown of *Britain* in '*America* have turned the Eyes of *Europe* to this Quarter of the World, as it is un- 'certain what Effects they may produce; the Conduct therefore of theſe Colonies will 'be more than ever the Object of their Attention, and ours in particular, who are moſt 'immediately concerned; for whether the *French* Forts are within the particular Limits 'of this Province or not, I look upon to be very immaterial in the preſent Caſe, though 'in my Opinion they are clearly ſo; but be that as it may, our Situation at preſent is 'certainly very alarming.—The *French* on our Borders are numerous, ſtrongly fortified, 'well provided, and daily encreaſing——The ſmall Body of *Engliſh* Troops on the 'Frontiers, weakened by the Deſertion from the Independent Companies, and the 'Want of Diſcipline in the *New Levies*.—The *Six Nations* of *Indians*, formerly our 'firm Friends, divided among themſelves, many of them gone over to the *French*, and 'others wavering, and in Doubt whether to follow their Brethren, or continue with us. 'The neighbouring Provinces (except *Virginia*) though nearly intereſted in the Iſſue 'of the preſent Affair, either contributing nothing towards the Common Cauſe, or 'ſparingly; and though *Virginia* has indeed given *Thirty Thouſand Pounds*, yet it will 'avail but little, unleſs a conſiderable Body of Troops be ſent from this Province, and 'kept up till the Work is done.

'Permit me, therefore, *Gentlemen*, to preſs this Matter upon you; exert yourſelves 'upon the preſent Occaſion; diſſipate the Cloud that hangs over your Country, and 'ſave her from the threatened Deſtruction. His Majeſty, ever anxious for the Welfare 'of all his Subjects, excites and commands us——The Eyes of a *Britiſh* Parliament, of 'the People of our Mother Country, of the other *American* Colonies, and even of all '*Europe*, are upon us———And the Fate of this Country, the Happineſs or Miſery of 'your Poſterity, very much depend on your Reſolutions.

'I cannot therefore admit myſelf to doubt but you will enter ſeriouſly upon the Con- 'ſideration of this important Affair, and, by enabling me to carry the King's Commands 'into full Execution, convince his Majeſty of your Readineſs to pay Obedience to his 'Royal Orders, ſet a ſeaſonable and noble Example to the other Colonies, and ſhew 'your Conſtituents, that you have nothing more at Heart than to ſecure to them and 'their Poſterity the Continuance of the many invaluable Bleſſings they enjoy.

December 3, 1754."

Ordered, That *George Aſhbridge* have Leave to be abſent till next Week on urgent Buſineſs.

Adjournment

Then the Houſe adjourned to Three o'Clock, *P. M.*

8. *A Letter to the Secretary from* George Croghan, *with an Account of ſundry Diſburſements by him, for the Maintenance of the* Indians *at* Aughwick; *dated* October 16, 1754.

And the foregoing Papers being ſeverally read, the Letter from Sir *Thomas Robinſon* was ordered to be printed with the Minutes, and the others to lie on the Table for the Peruſal of the Members.

And the ſaid Letter from Sir *Thomas Robinſon* follows in theſe Words, *viz.*

S I R, *Whitehall, July* 5 1754.

A Letter from Sir *Thomas Robinſon.*

"YOUR Letter of the Twenty-fifth of *Novembe*r laſt, in Anſwer to the Earl of "*Holderneſſe's* of the Twenty-eighth of *Auguſt*, having been received and laid be- "fore the King, I am to acquaint you, that it is his Majeſty's expreſs Command, that "you ſhould, in Obedience thereto, not only act vigorouſly in the Defence of the Go-

'vernment

" Part of his Majeſty's Orders, which relate to a Concert with the other Colonies, which

" fence, ſince the Account received by you from Major *Waſhington*, with regard to the
" Hoſtilities committed by the *French* upon the River *Ohio*, which verify, in Fact,
" what was apprehended when the Earl of *Holderneſſe* wrote ſo fully to you in *Auguſt*

" rections, the Obſervance thereof, I am now, by the King's Command, to enforce
" to you in the ſtrongeſt Manner. I am

" *SIR*,

Your moſt obedient humble Servant,
THOMAS ROBINSON."

The Speaker laid before the Houſe a Letter from the Agent, dated *Auguſt* 30, 1754, which was read, and ordered to lie on the Table for the Peruſal of the Members.

Then the Houſe adjourned to Ten o'Clock To-morrow Morning. Adjournment

A Petition from *Samuel Preſton Moore*, of the City of *Philadelphia*, Practitioner in Phyſic, praying to be appointed Treaſurer of this Province, in the Room of *Michael Lightfoot*, Eſq; deceaſed, was preſented to the Houſe and read, and *Ordered to lie on the Table.* December 4.

The Governor, by the Secretary, ſent down a written Meſſage to the Houſe, which was read, and is as follows, *viz.*

GENTLEMEN,

' I HAVE ordered two Letters, which I received by Expreſs from Mr. *George Croghan*, the Perſon entruſted with the Care of the *Indians* at *Aughwick*, to be laid before you, by which you will be informed of the Propoſals made by the *French* to the *Indians* that removed from the *Ohio*, and of their Anſwer. A Meſſage from the Governor to the Aſſembly.

' Theſe People have been hitherto maintained by this Province, and I believe you will be of Opinion, that it is neceſſary to continue this Support at leaſt till the next Spring; and as ſome of the Chiefs are to ſet out for the great Council at *Onondago* upon the Return of this Expreſs, it may determine the Reſolution of that Council in Favour of the *Engliſh*, if I am enabled to aſſure thoſe Chiefs, before their Departure, that this Government will continue to maintain ſuch of their People as they leave behind them, and will take Meaſures to ſecure them againſt any ſudden Attack. As theſe People have always been very firmly attached to the *Engliſh* Intereſt, and, by their Anſwer to the *French* Meſſage, ſeem to give up all Thoughts of returning to *Ohio*, while it remains in their Hands, I muſt recommend it to you to make Proviſion for their Maintenance, and for ſetting up ſome Stocadoes round the Place they fix upon for their Winter Reſidence.

' I have detained the Expreſs till I could know your Reſolutions, and therefore hope you will give this Affair the neceſſary Diſpatch.

' That Part of Mr. *Croghan's* Letters relating to himſelf, will, I make no Doubt, be duly conſidered, and his Services rewarded in ſuch Manner as to give him perfect Satisfaction.

December 4, 1754. *ROBERT HUNTER MORRIS.*"

Ordered, That *George Croghan's* Accounts be referred to the Committee of Accounts, who are to report thereon to the Houſe.

The Governor's Speech was again read, and conſidered; and, after ſome Time ſpent therein, the ſame was referred to farther Conſideration.

Then the Houſe adjourned to Three o'Clock, *P. M.* Adjournment *Poſt Meridiem*

The Committee of Accounts reported on *George Croghan's* Accounts, for Diſburſements among the *Indians* at *Aughwick*, that they found a Balance of *Sixty-nine Pounds Nineteen Shillings*, due from the Province to the ſaid *Croghan*, which they were of Opinion ought to be allowed by the Houſe.——To which Report the Houſe agreed.

A Petition from *Jonathan Mifflin*, of the City of *Philadelphia*, Merchant, praying to be appointed Treaſurer of this Province; and promiſing to apply the whole Profits, ariſing to him from the ſaid Office, to the Uſe of the Province Hoſpital; was preſented to the Houſe and read, and *Ordered to lie on the Table.*

The Speaker informed the Houſe, " That, ſince the laſt Sitting, he had fully conſidered the Queſtion concerning the Speaker of this Houſe having a Right to give his Vote as circumſtanced in the Caſe of *Spencer Trotter*; and although by depriving himſelf of his Vote in this Caſe, he gave up more than a Speaker of the Houſe of Commons, in Proportion to the Number which compoſe that auguſt Body, and the Aſſemblies of this Province. Nevertheleſs, conſidering the Caſe in *Townſhend's* Collections, Page 321, *& ſeq.* ſo exactly agreeing with the Call of the Houſe for the Speaker's Vote in the Caſe of *Spencer Trotter*, he could not think it either ſafe or honourable to act in Oppoſition

1754. December 4. to it, and therefore was clearly of Opinion, *that he was forecloſed of his Voice by taking of that Place which it had pleaſed them to impoſe upon him, and that he was to be indifferent for both Parties.*"

The Petitions from *Samuel Preſton Moore* and *Jonathan Mifflin* were again read, and conſidered; and, after ſome Debate thereon, it was

A Petition from *Daniel Morris*, of the County of *Philadelphia*, was preſented to the Houſe and read, ſetting forth, that the Time limited for the preſent Officer for viewing and branding of Flour to continue in his ſaid Office expired in *Auguſt* laſt; that the Petitioner has had many Years Experience in the Quality of Flour, and conceives himſelf a competent Judge thereof; therefore humbly prays that this Houſe would nominate him to the beforementioned Office; or, if this Houſe ſhould think it more expedient to have two Perſons to execute the ſame, that *John Jones* may be appointed with the Petitioner. *Ordered to lie on the Table.*

A Petition from *Stephen Shewell*, of the City of *Philadelphia*, Biſcuit-Baker, was preſented to the Houſe and read, ſetting forth, that the Petitioner is informed, that a new Officer is now about to be nominated for examining and branding of Flour; the Petitioner therefore prays that this Houſe would be pleaſed to appoint him to the ſaid Office. *Ordered to lie on the Table.*

The Houſe proceeded upon the Conſideration of the Governor's Speech; and after ſome Debate, it was

Reſolved, That the Sum of *Twenty Thouſand Pounds* be at this Time given to the King's Uſe; and that the ſame be ſtruck in Paper Bills of Credit, and ſunk by an Extenſion of the Exciſe Act for the further Term of Ten Years.

Reſolved, That *Twenty Thouſand Pounds* be now alſo ſtruck for the Exchange of ſuch Bills of Credit now current by Law within this Province as are torn and ragged.

Ordered, That *Evan Morgan*, *William Callender*, *Mahlon Kirkbride*, *Joſeph Gibbons*, *James Wright*, *John Wright*, *John Smith*, *Moſes Starr* and *James Burnſide* be a Committee to prepare and bring in a Bill for the Purpoſes mentioned in the foregoing Reſolves.

Reſolved, That, till the next Sitting of Aſſembly, this Houſe will, out of the Provincial Treaſury, allow ſuch reaſonable Charges as neceſſarily ariſe upon making a ſuitable Proviſion towards the Maintenance of thoſe *Indians* in our Alliance, who have taken Refuge within this Government.

Adjournment. Then the Houſe adjourned to Ten o'Clock To-morrow Morning.

December 6. *Samuel Preſton Moore*, choſen Provincial Treaſurer on the Fourth Inſtant, attending, was called in, and acquainted therewith by the Speaker; and, after being referred to the Laws of this Province for Information in the Duty of his Office, he withdrew.

The Houſe taking into Conſideration the Governor's Meſſage of the Fourth Inſtant, relating to the *Indians* now at *Aughwick*;

Ordered, That a Draught of an Anſwer to the ſaid Meſſage be forthwith prepared at the Table; which being accordingly done, was read, agreed to, and ordered to be tranſcribed, that it may be ſent up to the Governor.

And the ſame being tranſcribed, was again read; and it follows in theſe Words, *viz.*

May it pleaſe the GOVERNOR,

Aſſembly's Anſwer to the Governor's Meſſage. WE have conſidered the Letters and Accounts laid before us by the Governor, relating to the *Indians* now at *Aughwick*, and are well ſatisfied with their Steadineſs in our Intereſt, and the Anſwer they have given to the Propoſals of the *French* to induce them to return to the *Ohio*.

We are confident the Treatment our *Indian* Allies have always received from this Province has great Weight with them, and that we have a large Share in their Affections, which we are willing to preſerve, by continuing to treat them with Juſtice, Humanity and Tenderneſs; we therefore, notwithſtanding the heavy Charge the Province has been

been at, and is like to be continued upon us, have unanimously resolved to defray such reasonable Charges as may accrue on the Support of those *Indians* till our next Meeting. As we apprehend the Governor will agree with us in the Necessity of regulating that Expence with all possible Oeconomy; and as *George Croghan* (whose Accounts we have allowed) seems resolved to remove from *Aughwick*, and the *Indians*, by that Means, will be left without any proper Person to take the necessary Care of providing for their Subsistance, we recommend it to the Governor's Consideration, whether it might not be more convenient for the *Indians* themselves, and less Expence to the Province, if they were invited to come nearer our Back Inhabitants, till, by Hunting, or otherwise, they may be able to subsist themselves with Safety."

1754. *December* 6.

December 6, 1754.

And the foregoing Message being signed by the Speaker, by Order of the House;

Ordered, That *Joseph Stretch* and *Joseph Fox* do wait upon the Governor and deliver the same.

Then the House adjourned to Three o'Clock, *P. M.*

Ordered, That *Evan Morgan*, *Joseph Stretch*, *Joseph Fox*, *Joshua Morris*, *Joseph Trotter*, *William Callender*, *Mahlon Kirkbride*, *Joseph Hamton*, *Thomas Cummings*, *Joseph Gibbons*, *James Wright*, *Peter Worral*, *John Wright*, *Joseph Armstrong*, *Moses Starr* and *James Burnside* be a Committee to inspect the Laws of this Province, and report which of them are expired, or near expiring, and ought to be re-enacted, with their Opinion what Amendments to them or others may be necessary; and likewise, that they examine the Votes of last Year, and bring forward such of the Bills then prepared, or ordered to be prepared, as they shall think necessary for the House to proceed upon at this Sitting.

Resolved, That the Sum of *One Hundred* and *Fifty Pounds* be now paid, out of the Provincial Treasury, into the Hands of the Honourable *Robert Hunter Morris*, Esq; Lieutenant-Governor of this Province, to be by him laid out towards defraying such reasonable Charges, as necessarily arise upon making a suitable Provision towards the Maintenance of those *Indians* in our Alliance, who have taken Refuge within this Government.

And an Order was accordingly drawn on the Treasurer, and signed by the Speaker, by Order of the House, for Payment of the same.

Then the House adjourned to next *Second-day*, at Three o'Clock, *P. M.*

Adjournment

The House met pursuant to their Adjournment.

December 9.

The Sheriff of the County of *Philadelphia* attending, was called in, and made a Return to the House, by which it appeared, that *James Pemberton* was chosen on the Seventh Instant a Representative to serve in Assembly for the said County, in the Room of *Edward Warner*, deceased.

Post Meridiem

Two Letters to the Governor from *George Croghan*, and a Copy of a Speech made by the *Indians* of the *Six Nations* residing at *Aughwick*, in Answer to a Message sent them from the Governor, were laid before the House by the Speaker; who informed the House, that they were just received by Express, and put into his Hands by the Secretary.

Then the House adjourned to Ten o'Clock To-morrow Morning.

Adjournment

GENTLEMEN,

A Meſſage from the Governor to the Aſſembly.

'A CONTAGIOUS Diſtemper was, this Summer, introduced into this City by the coming up of ſickly Veſſels, and landing diſtempered Perſons, and their infected Goods; and though every Thing the Government could legally do, was done, to prevent its Introduction or Spreading, yet the Meaſures taken did not prove effectual. The Diſorder, I am informed, was chiefly confined to the *Germans*, and thoſe who were obliged to be much with them, and is now abated.

'But Diſtempers of that Kind may hereafter be more univerſal, and more fatal, I therefore think this Matter worthy your Conſideration, and recommend it to you to reviſe the Laws now in being relating to ſickly Veſſels and Paſſengers, and to make Proviſion for preventing the ill Effects that may ariſe from ſuch for the future, and alſo more effectually to prevent the Spreading of any infectious Diſorder that may be introduced into this City and Province.

December 12, 1754. *ROBERT HUNTER MORRIS.*"

The Committee appointed to prepare a Draught of an Anſwer to the Governor's Speech, reported the ſame to the Houſe, and it was read, agreed to, with ſome Amendments, and ordered to be tranſcribed, that it may be ſent up to the Governor.

The Meſſage to the Governor being tranſcribed, was again read, and is as follows, *viz.*

May it pleaſe the GOVERNOR,

Aſſembly's Anſwer to the Governor's Speech.

WE have deliberately conſidered the Governor's Speech of the Third Inſtant, with the Letter from Sir *Thomas Robinſon*, one of his Majeſty's principal Secretaries of State, and the other Letters and Papers he has been pleaſed to lay before us. And as we account it our indiſpenſable Duty to do every Thing in our Power to comply with his Majeſty's Royal Orders, or that may contribute to the Welfare of the People we repreſent, we have chearfully, and almoſt unanimouſly, reſolved to grant *Twenty Thouſand Pounds* for the King's Uſe; for the Raiſing and Sinking of which Sum, we have prepared a Bill, which will be laid before the Governor, for his Concurrence, with all poſſible Diſpatch.

Though we hope the Numbers of the *French* and their *Indian* Allies, mentioned in *George Croghan's* Letters, are full large, yet the uncommon Efforts they have made towards

wards obtaining a Poſſeſſion on that Part of his Majeſty's Dominions, are truly alarming, and dangerous to the *Britiſh* Intereſt in *North-America:* And we have good Reaſon to believe, the Sums granted the King by our late Aſſembly, had the then Governor been pleaſed to paſs the Bills offered to him for that Purpoſe, " might, in a great Meaſure, if not totally, have prevented the bad Situation of our Affairs at preſent," and have placed our Duty to the beſt of Kings, as we deſire it always ſhould appear, among his moſt loving and loyal Subjects; and, for this Reaſon, it is with Concern we find, by the above-mentioned Letter from the Secretary of State, " That it was with great Surprize the King had obſerved, in our late Governor's Anſwer to the Earl of *Holderneſſe*, he had been totally ſilent on that Part of His Majeſty's Orders which relate to a Concert with the other Colonies." But as we have great Confidence in our Governor, that he will at all Times afford us all good Offices and Protection, and will be pleaſed to repreſent us, and our Affairs, in a favourable Light, as we hope he may do with great Juſtice: So, on our Part, we ſhall not fail to contribute every Thing in our Power to anſwer all reaſonable Expectations from ſo young a Colony, ſo far as is conſiſtent with our Civil and Religious Liberties; beyond which, under ſo good a King, we are well aſſured nothing further will be aſked or expected from us. And in Lieu of the Governor's Juſtice and Protection, it will give us particular Pleaſure to make his Adminiſtration in this Province eaſy to himſelf, and honourable to all." 1754 *December* 1

And the Meſſage being ſigned by the Speaker, by Order of the Houſe;

Ordered, That *Joſeph Armſtrong* and *James Burnſide* wait upon the Governor with the ſame.

A Petition from divers Inhabitants of the County of *Northampton* was preſented to the Houſe and read, ſetting forth, that the Stealing of Horſes is become very frequent in ſaid County, owing, as the Petitioners conceive, to the Smallneſs of the Puniſhment inflicted by Law for that Crime; the Petitioners therefore pray, that this Houſe would take the Premiſes into Conſideration, and paſs an Act to puniſh Horſe-ſtealers with Death.

Joſeph Trotter, one of the Members of this Houſe, repreſented to the Houſe, that he having acted as a Truſtee of the *Province Iſland* upwards of Twelve Years paſt, and being now, by Reaſon of his Age, become unable to execute the ſaid Truſt, he therefore moved to be diſcharged therefrom, and that another be appointed in his Place.—Which Motion was referred to further Conſideration.

Adjournment *December* 18. The Governor, by the Secretary, ſent down the Bill for granting *Twenty Thouſand Pounds* to the King's Uſe, *&c.* with a written Meſſage, together with ſundry Papers therein referred to, which were read; and the Meſſage is as follows, *viz.*

A Meſſage from the Governor to the Aſſembly.

GENTLEMEN,

'I HAVE taken your Bill into Conſideration, which, among other Things, propoſes the Emitting of *Twenty Thouſand Pounds* for the King's Uſe, in Paper Bills, to

1754. December 18.

'to be current for Twelve Years; to which I cannot by any Means agree, as I am forbid, by a Royal Instruction, to pass any Law for creating Money in Paper Bills, without a suspending Clause, that it shall not take Effect till his Majesty's Pleasure be known: And to shew you, Gentlemen, that I do not entirely rely upon my own Judgment as to the Validity of that Instruction, I herewith send you the Opinion of Sir *Dudley Ryder*, the late Attorney-General and present Chief Justice of *England*; by which you may see, that upon as favourable a State of the Case as could have been drawn up by your own House he is clearly of Opinion, that the Instruction is most certainly in Force, and binding upon me; however, as the Act of Parliament restraining the Four Eastern Governments from emitting Paper Currency, gives them a Power to strike Bills of Credit, in case of Emergency, I hope I shall be justified in thinking the Reason holds good as to us, who are in the greatest Danger, being already invaded by the *French*, and in immediate Expectation of Outrage from the *Indians* in their Alliance; I will therefore join with you in any Bill for striking what Sum you shall think our pressing Occasions demand, provided a Fund be established for sinking the same in five Years.

'I am exceedingly obliged to the House for their kind Sentiments with regard to me, and shall make it my peculiar Care so to act as to merit the Continuance of their good Opinion; and can truly say, it is no small Mortification to me to be obliged to differ in Opinion from the Representatives of the Province, who, I am convinced, act from upright Motives, and what they esteem to be its true Interest; but would willingly hope, when they come to reflect on the Obligations I am under to pay Obedience to his Majesty's Instructions, that they will not press me to disobey them; especially when they consider, that should I disregard my own Honour and Safety in passing a Bill circumstanced as this is, there is great Danger of its being disapproved by his Majesty, and what Loss and Confusion such an Event would cause in the Province, by the Paper Bills becoming of no Value, I need not particularly mention.

'You will observe, from Governor *Sharpe's* Letter, which I Yesterday received, and now lay before you, that the *French* and *Indians* upon the *Ohio* are much more numerous than we apprehended, making in the whole Two Thousand Men, besides what they have already on the Lake *Erie*; and as they have got together such a considerable Force at this inhospitable Season, we cannot make a Doubt but they will be much stronger in the Spring.

'On the Information mentioned in that Letter, we may likewise expect an Attack upon our Back Settlements, the *French* having sent a Detachment of the *Arundack Indians* upon that Service, and as we have no Force to resist them, they will be at Liberty to commit what Cruelties they please upon the defenceless People that inhabit the remote Parts of this Province.

'Be pleased therefore, Gentlemen, when you frame another Bill, to consider whether it would not be better, on all Accounts, to augment the Sum proposed to be given, since this will go but a very little Way towards expelling the *French* from our Borders and defending our Frontiers from the Incursions of their *Indians*.

December 18, 1754. *ROBERT HUNTER MORRIS.*"

And the State of the Case, and Sir *Dudley Ryder's* Opinion, referred to in the foregoing Message, are as follow, *viz.*

CASE.

State of the Case, *March* 4. 1680.

'KING *CHARLES* II, by Letters Patent, under the Great Seal of *England*, granted a Tract of Land, in *America*, unto WILLIAM PENN, Esq; his Heirs and Assigns, and made him and them the true and absolute Proprietaries thereof, saving always to the Crown, the Faith and Allegiance of the said WILLIAM PENN, his Heirs and Assigns, and of the Tenants and Inhabitants of the Premises, and saving also unto the Crown, *the Sovereignty* of the said Country.

'To hold to, and to the Use of, the said WILLIAM PENN, his Heirs and Assigns, for ever.

'To be held of his said Majesty, his Heirs and Successors, Kings of *England*, as of the Castle of *Windsor*, in free and common Soccage, by Fealty only, for all Services, and not *in Capite*, or by Knights Service.

'Rendering two Beaver Skins yearly, and the fifth Part of all Gold and Silver Ore.

'And his Majesty thereby erected the said Country into a Province, and Seigniory, and called it *Pennsylvania*.

'And thereby granted free, full and absolute Power unto the said WILLIAM PENN and his Heirs, "and to his and their Deputies and Lieutenants, for the good and happy Government of the said Country, to ordain, make, enact, and under his and their "Seals to publish, any Laws *whatsoever*, for the Raising of Money for the public Use "of the said Province, and for any other End, appertaining either to the public State,

" Peace

1754. December 18.

" Peace or Safety of the ſaid Country, or unto the private Utility of particular Perſons, according to their beſt Diſcretions, by and with the Advice, Aſſent and Approbation of the Freemen of the ſaid Country, or the greater Part of them, or of their Delegates or Deputies, whom, for the Enacting of the ſaid Laws, when and as often as Need ſhall require, We will, that the ſaid WILLIAM PENN, and his Heirs, ſhall aſſemble, in ſuch Sort and Form as to him and them ſhall ſeem beſt; and the ſaid Laws duly to execute unto and upon all People within the ſaid Country, and Limits thereof."

' Then, there follow other Powers, to appoint Judges, Magiſtrates, *&c.* And afterwards, the Charter contains, in ſundry different Parts, the other Clauſes, here following, *viz.*

" Which Laws, ſo as aforeſaid to be publiſhed, Our Will and Pleaſure is, and ſo We injoin, require and command, ſhall be moſt abſolute and available in Law, and that all the Liege People and Subjects of Us, Our Heirs and Succeſſors, do obſerve and keep the ſame inviolably in thoſe Parts, ſo far as they concern them, under the Pain therein expreſſed, or to be expreſſed: Provided, nevertheleſs, that the ſaid Laws be conſonant to Reaſon, and be not repugnant or contrary, but, as near as conveniently may be, agreeable to the Laws, Statutes and *Rights* of this our Kingdom of *England*.

" And Our further Will and Pleaſure is, that the Laws for regulating and governing of Property, within the ſaid Province, as well for the Deſcent and Enjoyment of Lands, as likewiſe for the Enjoyment and Succeſſion of Goods and Chattels; and likewiſe as to Felonies, ſhall be and continue the ſame, as they ſhall be, for the Time being, by the general Courſe of the Law, in Our Kingdom of *England*, *until* the ſaid Laws ſhall be altered by the ſaid WILLIAM PENN, his Heirs or Aſſigns, and by the Freemen of the ſaid Province, their Delegates or Deputies, or the greater Part of them.

" And, to the End the ſaid WILLIAM PENN, or his Heirs, or other the Planters, Owners or Inhabitants of the ſaid Province, may not, at any Time hereafter, by Miſconſtruction of the Powers aforeſaid, through Inadvertency, or Deſign, depart from the Faith and due Allegiance which, by the Laws of this our Kingdom of *England*, they, and all Our Subjects, in Our Dominions and Territories, always owe unto Us, Our Heirs and Succeſſors, by Colour of any Extent, or Largeneſs of Powers, hereby given, or pretended to be given, or by Force or Colour of any Laws, hereafter to be made, in the ſaid Province, by Virtue of any ſuch Powers, Our further Will and Pleaſure is, that a Tranſcript, or Duplicate, of all Laws, which ſhall be ſo as aforeſaid made and publiſhed within the ſaid Province, ſhall, within Five Years after the Making thereof, be tranſmitted and delivered to the Privy Council, for the Time being of Us, Our Heirs and Succeſſors; and if any of the ſaid Laws, within ſix Months, after that they ſhall be ſo tranſmitted and delivered, be declared by Us, Our Heirs or Succeſſors, in Our or their Privy Council, *inconſiſtent with the Sovereignty*, or lawful Prerogative of Us, our Heirs or Succeſſors, *or contrary to the Faith and Allegance* due, by the legal Government of this Realm, from the ſaid WILLIAM PENN, or his Heirs, or of the Planters, and Inhabitants of the ſaid Province; and that, thereupon, any of the ſaid Laws ſhall be adjudged and declared to be void, by Us, Our Heirs or Succeſſors, under Our or their Privy Seal, that then, and from thenceforth, ſuch Laws, concerning which ſuch Judgment and Declaration ſhall be made, ſhall become void; otherwiſe the ſaid Laws, ſo tranſmitted, ſhall remain and ſtand in full Force, according to the true Intent and Meaning thereof."

Seventh and Eighth of WILLIAM III, *Anno* 1695.

' The Act of Parliament for preventing Frauds and regulating Abuſes in the Plantation Trade, contains many Regulations, and amongſt others, the following.

' That all Governors, nominated and appointed by any Perſons, or Proprietaries, claiming any Right or Propriety in any Iſlands or Tracts of Land upon the Continent of *America*, by Charter or Letters Patent, who ſhall be entitled to make ſuch Nomination, ſhall be allowed and approved of, by His Majeſty, his Heirs and Succeſſors, and ſhall take the Oaths enjoined by that, or any other Act, to be taken by the Governors or Commanders in Chief in other his Majeſty's Colonies and Plantations, before their entering upon their reſpective Governments, under the like Penalty his Majeſty's Governors and Commanders in Chief were, by the ſaid Acts, liable to.

Sixth of ANN, *Anno* 1707.

' The Act of Parliament for aſcertaining the Rates of *Foreign Coins*, in her Majeſty's Plantations in *America*, recites, that for remedying the Inconveniencies which had ariſen from the different Rates at which the ſame Species of *Foreign Silver Coins* did paſs, in her Majeſty's ſeveral Colonies and Plantations in *America*, her Majeſty had iſſued her Proclamation of the Eighteenth of *June*, 1704, to ſettle and aſcertain the Currency of *Foreign Coigns*, in the Manner and Words there following.

' And

1754. *December* 18.

‘ And further recites, that, notwithstanding the said Proclamation, the same indirect ‘ Practices, as had been therein mentioned, were still carried on within some of the ‘ said Colonies or Plantations, and the Money thereby drawn from one Plantation to ‘ another in Prejudice to the Trade of her Majesty's Subjects.

‘ Wherefore, for the better enforcing the due Execution of the said Proclamation ‘ throughout all the said Colonies and Plantations, and for the more effectual remedying ‘ the said Inconveniencies thereby intended to be remedied;

‘ It was enacted, that if any Person, within any of the said Colonies or Plantations, ‘ as well those under Proprietaries and Charters, as under her Majesty's immediate ‘ Commission and Government, should, after the First of *May*, 1709, for the Discharge ‘ of any Contracts or Bargains, to be thereafter made, account, receive, take or pay ‘ any of the several Species of *Foreign Silver Coins*, mentioned in the said recited Pro- ‘ clamation, at any greater or higher Rate than at which the same was thereby regulated, ‘ settled, and allowed to be accounted, received, taken or paid, every such Person should ‘ suffer six Months Imprisonment without Bail or Mainprize, any Law, Custom or ‘ Usage, in any of the said Colonies or Plantations to the contrary notwithstanding; ‘ and should likewise forfeit *Ten Pounds* for every such Offence, one Moiety to the ‘ Crown, the other Moiety to such Person as should sue for the same, to be recovered ‘ in Manner therein mentioned.

‘ Under a Proviso and Declaration, that nothing in the recited Proclamation, or in ‘ that Act contained, should extend to compel any Person to receive any of the said ‘ Species of *Foreign Silver Coins* at the respective Rates in the said Proclamation men- ‘ tioned.

‘ And, under another Proviso and Declaration, that nothing in that Act contained ‘ should extend, or be construed to restrain her Majesty from regulating and settling ‘ the several Rates of the said Species of Foreign Silver Coins within any of the said Co- ‘ lonies or Plantations, in such other Manner, and according to such other Rates and ‘ Proportions, as her Majesty, by her Proclamation for that Purpose to be issued, ‘ should, from Time to Time, judge proper and necessary; or from giving her Royal ‘ Assent to any Law thereafter to be made in any of the said Colonies or Plantations, for ‘ settling and ascertaining the current Rates of such Coins within the said Colonies or ‘ Plantations; but that such further Regulations might be made, and such Assent given, ‘ in as full and ample Manner, to all Intents and Purposes, as the same might have ‘ been done in case that Act had not been made, and no otherwise, any Thing therein ‘ before contained to the contrary notwithstanding.

‘ It has been usual in sundry of the Colonies, on the Continent in *America*, to print ‘ and issue Paper Bills of Credit, and to oblige Persons (by Acts passed there) to receive ‘ such Bills in Payment, at the Rate or Sum mentioned in such Bills; and some such ‘ Bills have been issued by Acts of Assembly in *Pennsylvania*.

‘ In some Colonies, the Value of those Paper Bills of Credit (being payable at distant ‘ Times, and the Fund not regularly applied) has miserably sunk; but that has not ‘ been the Case in *Pennsylvania* in particular.

About 1740,

‘ Complaints were made to the House of Commons, of great Quantities of Paper ‘ Bills of Credit, or Paper Money, issued in *some* of the *American* Colonies (not in *Penn-* ‘ *sylvania* in particular) and of Mischiefs arising from the same; whereupon the House ‘ of Commons addrest the Crown, to issue Instructions, and the Lords Justices did issue ‘ circular Instructions to *all* the *American* Governors, as well those acting immediately ‘ under his Majesty, as those acting under Proprietaries.

‘ And the Instruction then sent to Colonel *Thomas* (who was then Deputy Governor ‘ of *Pennsylvania*) was in the following Words, *viz.*

By the Lords Justices, *Additional* Instruction *to* George Thomas, *Esq; Deputy-Governor of his Majesty's Province of* Pennsylvania, *in* America; Or, to the Commander in Chief of his Majesty's Province, for the Time being. *Given at* Whitehall, *the Twenty-first Day of* August, 1740, *in the Fourteenth Year in his Majesty's Reign.*

August 21 1740.

‘ WHEREAS an Act of Parliament was passed, in the Sixth Year of her late Ma- ‘ jesty Queen *ANNE*, entituled, *An Act for ascertaining the Rates of Foreign Coins,* ‘ *in her Majesty's Plantations in* America; and whereas Complaints have been made, ‘ that the said Act has not been observed, as it ought to have been, in many of his Ma- ‘ jesty's Colonies and Plantations in *America*; by Means whereof many indirect Practices ‘ have grown up, and *various and illegal Currencies have been introduced*, in several of the ‘ said Colonies and Plantations, *contrary to the true Intent and Meaning of the said Act*, ‘ and to the Prejudice of the Trade of his Majesty's Subjects. In Consequence of such ‘ Complaints, an humble Address was presented, the last Sessions, by the House of Com- ‘ mons, to his Majesty. “ That he would be graciously pleased to require and com- “ mand the respective Governors of his Colonies and Plantations in *America*, *effectually*

1754. December 18. " *to obſerve the ſaid Act of the Sixth of Queen* ANNE." It is, therefore, his Majeſty's ' Royal Will and Pleaſure, and you are, hereby, ſtrictly required and commanded to ' take the moſt effectual Care, for the future, that the ſaid Act be punctually, and *bona* ' *Fide*, obſerved, and put in Execution, according to the *true Intent* and Meaning thereof. ' And, to the End that his Majeſty's Commands herein may be fully made known to ' all his Subjects within your Government, and that none of them may pretend Igno- ' rance thereof, you are, hereby, further required and commanded to publiſh this ' Inſtruction, in ſuch Manner as may beſt anſwer his Majeſty's gracious Intentions ' herein ſignified.

' And whereas many and great Inconveniencies have ariſen in ſome of his Majeſty's ' Colonies and Plantations in *America*, by paſſing Laws, for ſtriking Bills of Credit, ' and iſſuing out the ſame, in Lieu of Money, making it obligatory on all Perſons to ' take ſuch Bills, in Payment of Debts, Dues and Demands; *whereby the good Intention* ' *of the aforementioned Act*, of the Sixth of her late Majeſty Queen *ANNE*, " For " aſcertaining the Rates of *Foreign Coins* in her Majeſty's Plantations in *America*," ' *has been fruſtrated*, and a great Diſcouragement has been brought on the Commerce ' of the Kingdom, by occaſioning a Confuſion in Dealings, and a Leſſening of Credit, ' in thoſe Parts. And whereas an humble Addreſs was preſented, the laſt Seſſion, by ' the Houſe of Commons to his Majeſty, to the Effect following, *viz.*

The Governor's Meſſage ſent down with the Bill for granting *Twenty Thouſand Pounds* to the King's Uſe, *&c.* was again read, and conſidered, together with the Papers therein referred to; and, after ſome Debate, it was

Ordered, That *Evan Morgan*, *William Callender*, *Mahlon Kirkbride*, *George Aſhbridge*, *Arthur Patterſon*, *Calvin Cooper*, *David M'Connaughy*, *John Smith*, *Moſes Starr* and *James Burnſide* be a Committee to prepare a Draught of an Anſwer to the ſaid Meſſage.

The Committee appointed to prepare a Draught of an Anſwer to the Governor's Meſſage of Yeſterday, reported the ſame to the Houſe; and it was read, Paragraph by Paragraph, agreed to, and ordered to be tranſcribed, that it may be ſent up to the Governor.

The Governor, by the Secretary, ſent down to the Houſe a Letter from Sir *Thomas Robinſon*, one of his Majeſty's principal Secretaries of State, with a Meſſage in Writing, which were read, and are as follow, *viz.*

GENTLE-

1754. *December* 19 A Meſſage from the Governor to the Aſſembly.

GENTLEMEN,

'THE Secretary will lay before you a Letter I received laſt Night from Sir *Thomas Robinſon*, one of his Majeſty's principal Secretaries of State, notifying to me his Majeſty's gracious Intention to ſend two Regiments of Foot from *Ireland*, to be compleated in *America*, and to raiſe two others in this Country, to be commanded by his Excellency Governor *Shirley* and Sir *William Pepperell*, for the Defence of his Majeſty's juſt Rights and Dominions.

'His Majeſty will appoint a General Officer of Rank and Capacity to take upon him the Command in Chief of all his Forces in *North America*, who will ſoon be here with a Deputy Quarter-Maſter General, and a Commiſſary of the Muſters, in order to prepare every Thing for the Arrival of the Forces.——His Majeſty has been alſo graciouſly pleaſed to order Arms, Cloathing, and other Neceſſaries, to be ſent hither upon the preſent important Occaſion; and likewiſe Ordnance Stores and Officers, and Attendants belonging thereto.

'Such Proofs of his Majeſty's gracious and paternal Regard and Affection for the Welfare and Security of his Subjects in *North America* cannot fail to excite the warmeſt Returns of Duty and Gratitude in the Breaſt of every Man that regards his Country, his Family or himſelf.—And it gives me particular Pleaſure that we are now ſitting in General Aſſembly, as we have thereby not only an early Opportunity of teſtifying the grateful Senſe we have of his Majeſty's Care and Protection, but of exerting ourſelves in the Service of our Country at this important Conjuncture, and ſetting a proper Example to the other Colonies.

'You will obſerve by the Secretary of State's Letter, that it is his Majeſty's Pleaſure we ſhould contribute as far as we can to the having about Three Thouſand Men in Readineſs to enliſt; that we ſhould provide a Quantity of freſh Proviſions for the Troops, and Neceſſaries for the Officers that may have Occaſion to travel by Land, that the Orders to be iſſued by the Commander in Chief for quartering the Soldiers, and impreſſing Carriages, ſhould be carried into exact Execution, and that all Neceſſaries ſhould be provided for ſuch Troops as ſhall arrive or be raiſed within this Government.

'His Majeſty expects, that as the ſeveral Articles above mentioned are of a local and peculiar Nature, and ariſing entirely within this Government, that the Charge thereof ſhould be defrayed by his Subjects within the ſame.

'You will alſo obſerve, Gentlemen, that it is his Majeſty's Pleaſure, that ſuch Articles of Expence as are of a more general Concern, ſhould be ſupplied from a common Fund, to be eſtabliſhed for the Benefit of all the Colonies in *North America* collectively; for which Purpoſe, he has ordered me to recommend it to you, in the ſtrongeſt Manner, forthwith to raiſe as large a Sum as can be afforded, as the Contribution of this Province towards ſuch common Fund, to be employed proviſionally for the general Service of *North America*, until a Plan of general Union of his Majeſty's Northern Colonies, for their common Defence, can be perfected.

'It is ſo much the Intereſt of the Colonies in general, and of this in particular, to exert themſelves upon the preſent Occaſion, to co-operate with his Majeſty in repelling this Invaſion, and to do what is ſo juſtly expected from us, that I cannot doubt but you will immediately proceed to the Conſideration of the ſeveral Matters mentioned in the Secretary of State's Letter, and by making an ample Proviſion for the preſent Exigency, enable me to comply with the Royal Pleaſure, and carry his Majeſty's Commands into a ſtrict and ſpeedy Execution.

'As it may be neceſſary in the Courſe of this Expedition to impreſs Tradeſmen, Horſes and Carriages, into his Majeſty's Service, and to ſeize Proviſions of all Sorts, and other Neceſſaries; you will conſider whether a Law will not be neceſſary to ſettle and eſtabliſh the Wages or Hire to be paid for ſuch Tradeſmen, Horſes and Carriages, as may be ſo impreſſed, and the Price of ſuch Proviſions and other Neceſſaries as may be ſeized upon the preſent Occaſion, that no Diſputes may ariſe between the Civil and Military Officers, and that all poſſible Aſſiſtance may be given to thoſe that ſhall be employed in the public Service, without Injury to private Perſons.

December 19, 1754. *ROBERT HUNTER MORRIS.*"

SIR, *Whitehall, October* 26, 1754.

Sir *Thomas Robinſon's* Letter to the Governor.

'HAVING informed you, in my Letter of *July* 5th, that the King had under his Royal Conſideration, the State of Affairs in *North America*; I am now to acquaint you, that amongſt other Meaſures that are thought proper for the Defence of his Majeſty's juſt Rights and Dominions in thoſe Parts, the King has not only been pleaſed to order two Regiments of Foot, conſiſting of Five Hundred Men each, beſides commiſſioned and non-commiſſioned Officers, commanded by Sir *Peter Halkett* and Colonel *Dunbar*, to repair to *Virginia*, and to be there augmented to the Number of

Seven

'Seven Hundred each; but likewiſe to ſend Orders to Governor *Shirley* and Sir *William* 1754.
'*Pepperell*, to raiſe two Regiments, whereof they are reſpectively appointed Colonels, *December* 19.
'of One Thouſand Men each; and alſo to ſign Commiſſions for a Number of Officers
'to ſerve in the ſaid two Regiments, and who will forthwith repair to *North-America*
'for that Purpoſe.

'Whereas there will be wanting a conſiderable Number of Men to make up the de-
'ſigned Complements of the ſaid Four Regiments, it is his Majeſty's Pleaſure, that you
'ſhould be taking the previous Steps towards contributing, as far as you can, to have
'about Three Thouſand Men in Readineſs to be enliſted; and it is his Majeſty's In-
'tention, that a General Officer of Rank and Capacity, to be appointed to command
'in Chief all the King's Forces in *North-America*, a Deputy Quarter-Maſter-General,
'and a Commiſſary of the Muſters, ſhall ſet out as ſoon as conveniently may be, in or-
'der to prepare every Thing for the Arrival of the Forces above-mentioned from *Europe*,
'and for the Raiſing of the others in *America*.

'You will receive from that General, and the other Officers juſt mentioned, a full
'and exact Account of the Arms, Cloathing, and other Neceſſaries, to be ſent upon
'this important Occaſion; as likewiſe of the Ordnance Stores, and of the Officers and
'Attendants belonging thereto; all which being ordered for this Service are ſuch
'Proofs of his Majeſty's Regard for the Security and Welfare of his Subjects, in thoſe
'Parts, as cannot fail to excite you to exert yourſelf, and thoſe under your Care, to
'take the moſt vigorous Steps to repel your common Danger; and to ſhew, that the
'King's Orders, which were ſent you laſt Year by the Earl of *Holderneſſe*, and were
'renewed to you in my Letter of the Fifth of *July*, have at laſt rouzed that Emulation
'and Spirit which every Man owes, at this Time, to his Majeſty, the Public, and
'himſelf. The King will not therefore imagine, that either you, or the reſt of his
'Governors, will ſuffer the leaſt Neglect or Delay in the Performance of the preſent Ser-
'vice, now ſtrongly recommended to you, particularly with Regard to the following
'Points, *viz.*

'That you ſhould carefully provide a ſufficient Quantity of freſh Victuals, at the Ex-
'pence of your Government, to be ready for the Uſe of the Troops, at their Arrival.

'That you ſhould likewiſe furniſh the Officers, who may have Occaſion to go from Place
'to Place, with all Neceſſaries for travelling by Land, in caſe there are no Means of going
'by Sea: And that you ſhould uſe your utmoſt Diligence and Authority, in procuring
'an exact Obſervance of ſuch Orders as ſhall be iſſued, from Time to Time, by the
'Commander in Chief, for quartering the Troops, impreſſing Carriages, and providing
'all Neceſſaries for ſuch Forces as ſhall arrive, or be raiſed within your Government.

'As the Articles above-mentioned are of a local and peculiar Nature, and ariſing entirely
'within your Government, it is almoſt needleſs for me to acquaint you, that his Ma-
'jeſty will expect, that the Charge thereof be defrayed by his Subjects belonging to the
'ſame. But, with regard to ſuch other Articles, which are of a more general Concern
'it is the King's Pleaſure, that the ſame ſhould be ſupplied by a common Fund, to be
'eſtabliſhed for the Benefit of all the Colonies collectively in *North-America*; for which
'Purpoſe you will uſe your utmoſt Endeavours to induce the Aſſembly of your Province
'to raiſe forthwith as large a Sum as can be afforded, as their Contribution to this
'common Fund, to be employed, proviſionally, for the general Service of *North-Ame-*
'*rica* (particularly for paying the Charge of levying the Troops to make up the Com-
'plement of the Regiments above-mentioned) until ſuch Time as a Plan of general
'Union of his Majeſty's Northern Colonies, for their common Defence, can be per-
'fected.

'You will carefully confer, or correſpond, as you ſhall have Opportunities, upon
'every Thing relative to the preſent Service, with the ſaid General, Sir *William Pepperell*,
'and Governor *Shirley*, or either of them; and as it is the King's Intention to give all
'proper Encouragement to ſuch Perſons who ſhall engage to ſerve upon this Occaſion,
'you will acquaint all ſuch Perſons, in the King's Name, that they will receive Arms
'and Cloathing from hence, and that they ſhall be ſent back (if deſired) to their re-
'ſpective Habitations, when the Service in *America* ſhall be over.

'As the ſeveral Governors in all the King's Provinces and Colonies in *North-America*
'will receive, by this Conveyance, a Letter to the ſame Effect with this which I now
'ſend you, they will be prepared at the ſame Time to obey his Majeſty's Commands.—
'And I am to direct you to correſpond with all, or either of them, occaſionally, as you
'ſhall find it expedient for the general Service. I am,

SIR,

Your moſt obedient humble Servant,

THOMAS ROBINSON."

And the Secretary, addreſſing himſelf to the Chair, ſaid,

SIR,

" The Governor further commands me to inform the Houſe, that *Scarroyady* and

1754. *December* 19. " two other *Indians* are come to Town from *Aughwick*, in their Way to *Onondago*, " charged with a Meſſage from the Weſtern *Indians* to that Council; and that he re- " commends it to the Houſe to join with him in ſuch a Meſſage, by theſe People, to the " *Six Nations*, as may engage them at this critical Time to adhere firmly to the Intereſt " of his Majeſty and his Subjects, againſt the Encroachments of the *French*."

Ordered, That Candles be brought in.

And they were brought in accordingly.

The foregoing Meſſage from the Governor, with the Letter from Sir *Thomas Robinſon*, were again read; and, after ſome Time ſpent in conſidering the ſame, they were referred to further Conſideration.

Adjournment *December* 20. Then the Houſe adjourned to Ten o'Clock To-morrow Morning.

The Anſwer to the Governor's Meſſage of the Eighteenth Inſtant, being tranſcribed, was again read, and follows in theſe Words, *viz.*

May it pleaſe the GOVERNOR,

Aſſembly's Anſwer to the Governor's Meſſage of the 18th Inſtant. WE obſerve, with great Concern, our Governor apprehends himſelf " forbid by a Royal Inſtruction" from giving his Aſſent to the Bill for granting *Twenty Thouſand Pounds* to the King's Uſe, without a ſuſpending Clauſe, that it ſhall not take Effect till his Majeſty's Pleaſure be known.

Such a ſuſpending Clauſe, we apprehend, would render that Grant entirely ineffectual as we are now circumſtanced, if we had no other Objection to it, and therefore can by no Means agree to inſert it in our Bill.

But the Governor is pleaſed to ſay, " as the Act of Parliament reſtraining the Four Eaſtern Governments from emitting Paper Currency, gives them a Power to ſtrike Bills of Credit in caſe of Emergency, he hopes he ſhall be juſtified in thinking the Reaſon holds good as to us, who are (as he thinks) in the greateſt Danger; and therefore he will join with us in any Bill for ſtriking what Sum we ſhall think our preſſing Occaſions demand, provided a Fund be eſtabliſhed for ſinking the ſame in five Years."

As the Governor does us the Juſtice to acknowledge, that he is convinced the Repreſentatives of the Province act from upright Motives, and what they eſteem to be its true Intereſt, he is alſo pleaſed to declare, " it is no ſmall Mortification to himſelf, to be " obliged to differ inOpinion from us, and hopes, when we reflect on the Obligations he " is under to pay Obedience to his Majeſty's Inſtructions, hat we will not preſs him to " diſobey them."

And, in order to ſhew us that he does not entirely rely upon his own Judgment, he has been pleaſed to lay before us the Opinion of Sir *Dudley Ryder*, the late Attorney General and preſent Chief Juſtice of *England*, on a State of the Caſe, as it regards the Force of Power of Royal Inſtructions upon the Governors of this Province.

We have the Misfortune to differ in Opinion from the Governor, after conſidering the Caſe maturely as it now lies before us; nevertheleſs, we do aſſure him, that though in a Matter of ſmall Importance we might not, perhaps, be very tenacious of our own Sentiments; yet, in this Caſe, our All is concerned, and if we ſhould not act becoming the Rights our Birth, as *Engliſhmen*, entitles us to, we might appear unworthy of the Regard we have already experienced, and have good Reaſon to hope for hereafter, from a *Britiſh* Parliament.

The Caſe, then, as ſtated to Sir *Dudley Ryder*, at that Time the King's Attorney General, after reciting the ſeveral Powers granted by our Charter, as well as the Acts of Parliament of the Seventh and Eighth of WILLIAM the Third, and the Sixth of Queen ANNE, and the Lords Juſtices Inſtructions to Colonel *Thomas*, in 1740, proceeds in the following Words; *that is to ſay*,

' Since the ſaid Inſtruction was given (to Colonel *Thomas*, but directed, as before ' ſtated) a new Lieutenant-Governor, Mr. *Hamilton*, has been appointed for *Pennſyl- ' vania*, by the Proprietaries, and approved by the Crown.

' The beforementioned particular additional Inſtruction has not been repeated to ' Mr. *Hamilton*, any otherwiſe than as he is become, now, the Lieutenant-Governor of ' *Pennſylvania*, for the Time being.

' But upon Mr. *Hamilton's* being approved for Lieutenant-Governor, the Crown iſſued ' its general Inſtructions, and, amongſt other Things, ordered, that he ſhould take a ' ſolemn Oath to do his utmoſt, that all the Clauſes, Matters and Things, contained in ' the ſaid Act of the Sixth of Queen *ANNE*, ſhould be punctually, and *bona Fide*, ob- ' ſerved, according to the true Intent and Meaning thereof. — Which Oath he accor- ' dingly took.

' Beſides this, on the Crown's approving Mr. *Hamilton*, it was, on the Part of the ' Crown, required of him, and his Sureties entered into a Bond to his Majeſty, in *Two* ' *Thouſand Pounds* Penalty, conditioned *(inter alia)* " That if the ſaid *James Hamilton* " ſhall, from Time to Time, and at all Times hereafter, ſo long as he ſhall continue

" Lieutenant-

1754. December 20.

" tions and Inſtructions, which now are, or ſhall at any Time be given, or ſent to him
" by his Majeſty, his Heirs and Succeſſors, or from any Perſon or Perſons now acting,
" or that hereafter ſhall act by Authority from his Majeſty, His Heirs and Succeſſors,
" and *purſuant to*, and for the putting in Execution, the ſeveral Acts of *Trade and Na-*
" *vigation*, relating to the Plantations, *viz.*

' *An Act* paſſed 12th *CHARLES* II. entituled, *An Act for the Encouraging and*
' *Encreaſing the Shipping and Navigation.*

' Here a great many Acts of Parliament are enumerated, and amongſt them,

' An Act paſſed in the Sixth Year of the ſaid Queen's Reign, entituled, *An Act for*
' *aſcertaining the Rates of Foreign Coins in her Majeſty's Plantations in* America.

" And all other Acts of Parliament now in Force, or that hereafter ſhall be made, re-
" lating to the Plantation Trade; and ſhall do and perform all ſuch Matters and Things,
" as the Governors of his Majeſty's Plantations, by any Act of Parliament made, or to
" be made, ſhall be obliged or enjoined to do and perform; and ſhall, before his
" entering on the ſaid Government, take the Oaths enjoined to be taken by the Gover-
" nors and Commanders in Chief of other his Majeſty's Colonies and Plantations, before
" their entering on their reſpective Governments, as directed by the Act of the Seventh
" and Eighth Years of the late King *WILLIAM*, herein before mentioned, *&c. &c.*
" Then to be void."

' Matters ſtanding thus, the People of *Pennſylvania* have applied to Mr. *Hamilton*,
' their Lieutenant-Governor, to paſs a Law, for enlarging, or adding more to, the Sum
' which they, at preſent, have ſtanding out in Paper Money, or Bills of Credit, there.

' He ſuppoſing that a ſmall Sum, to be added to their preſent Quantity, may not
' produce any great Inconveniences, would conſent to an Act for that Purpoſe, provided
' they inſert the *ſuſpending Clauſe*, that the Act ſhall have no Force, until confirmed by
' the Crown.

' But they inſiſt on paſſing the Act *without any ſuch ſuſpending Clauſe*.——Which
' he declines doing;

' As conceiving the Matter of *Money*, of *any* Sort or Kind, to be, in its Nature, Part
' of the *Prerogative* or *Sovereignty* of the Crown, and that he is bound by the Inſtruc-
' tion, which was given by the Lords Juſtices in 1740, to Colonel *Thomas*, or to the
' Commander in Chief in *Pennſylvania*, *for the Time being*, and by his before-mentioned
' Oath and Bond, and by the Duty of his Office, to obſerve that Inſtruction, and not
' to paſs any Act, whereby Bills of Credit may be iſſued, in Lieu of Money, *without*
' *inſerting the ſuſpending Clauſe*, and that it would be neither lawful, or ſafe, but an Of-
' fence in him, to paſs any ſuch Act, without that ſuſpending Clauſe.

' On the other Hand, the People inſiſt on the Powers, granted by the Charter, for paſ-
' ſing *all* Laws *whatſoever*, as giving very ample Authority to him to paſs the Law which
' they deſire; and that the Crown having granted away ſuch very full Powers, cannot
' even upon an Addreſs from the Houſe of Commons reſume them again, or add fur-
' ther Limitations or Reſtrictions, than what are contained in the Charter; and, there-
' fore, ſeem to think, that although his Majeſty might iſſue ſuch Inſtructions, to *his*
' *own* immediate Governors, where there are no Charters, yet, that in *Pennſylvania*,
' where ſuch a Charter ſubſiſts, ſuch Inſtruction had no Force, even upon Colonel
' *Thomas* himſelf (to whom the ſame was *immediately* directed) during *his* Government,
' and more clearly ſo, in the Caſe of the preſent Governor, Mr. *Hamilton*, to whom
' the ſame additional Inſtruction has not been given, any otherwiſe than as he is now
' become Governor of *Pennſylvania*, for the Time being.

' Mr. *Hamilton* is deſirous to oblige the People herein, if he may legally and ſafely
' do ſo.

And YOUR OPINION is deſired.

' *QUERE*. Whether Mr. *Hamilton*, Lieutenant-Governor of *Pennſylvania*, may
' legally and ſafely, and without committing any Offence, or Breach of his Oath or
' Bond, or of his Duty to the King, paſs, and give his Aſſent to an Act of Aſſembly,
' whereby Bills of Credit may be iſſued in *Pennſylvania*, in Lieu of Money, without
' the ſuſpending Clauſe, before-mentioned, being inſerted therein?

' *I am of Opinion it is by no Means ſafe, or adviſeable, or conſiſtent with his Duty, to*
' *paſs ſuch Bills, without a ſuſpending Clauſe.*

November 30, 1753. D. RYDER.'

It appears that the Caſe, thus ſtated to the Attorney General, regards only Emiſſions of Bills of Credit on *common* and *ordinary* Occaſions; and, in our Opinion, very little, if at all, affects the preſent Bill: And it is remarkable, that there is not the leaſt Notice taken of the Act for granting *Five Thouſand Pounds* for the Kings Uſe, which Governor *Thomas* paſſed without a ſuſpending Clauſe, by extending this very Exciſe Act for Ten Years; which we have now again extended for the ſame Term of Years only, and loaded it with a Grant of *Twenty Thouſand Pounds*.

As

1754. *December* 20.

As Colonel *Thomas* gave his Aſſent to that Act after the Receipt of the additional Inſtruction which the Governor has now ſent down with our Bill, and as we preſume he has no other or later Inſtructions from the Crown, though he has ſince received the Royal Approbation, we hope he will not think himſelf more reſtricted by it, than the Gentleman to whom it was immediately directed; who has never ſuffered in his Honour, that we know of, or incurred the King's Diſpleaſure for giving his Aſſent to that Bill, and at this Time holds a Government of great Importance under the immediate Powers of the Crown.

Governor *Hamilton*, we find, entered into Bonds and Penalties (among other Things) "that he ſhall from Time to Time, and at all Times hereafter, ſo long as he ſhall "continue Lieutenant-Governor of the ſaid Province, obſerve, perform and obey all "ſuch *Directions* and *Inſtructions*, which *now are*, or ſhall at *any Time* be given, or *ſent* "to him, by his Majeſty, his Heirs and Succeſſors, or from *any Perſon* or Perſons, now "acting, or that hereafter ſhall act, by Authority from his Majeſty, his Heirs and Suc-"ceſſors, *and purſuant to*, and for the putting in Execution the ſeveral Acts of *Trade and* "*Navigation* relating to the Plantations, &c." Which Bond or Bonds, of the like Tenor, we preſume our Governor may have entered into before he received the Royal Approbation, and yet our late Governor ſeems clearly, in his Reaſonings with former Aſſemblies, to have acknowledged he thought himſelf at Liberty to paſs Acts of the Tenor of our preſent Bill for granting Money for the King's Uſe; and never offered a ſuſpending Clauſe, notwithſtanding his Bonds to the Crown: But whether he might, or might not, be ſafe in paſſing a Bill of the Kind mentioned in his State of the Caſe, could regard himſelf only, and does, by no Means, determine the Rights we claim under the Royal Charter. And we have the Pleaſure to aſſure the Governor, we have been credibly informed, that the Board of Trade, about a Year ago, ſtated a Queſtion to the Attorney and Solicitor General, with Reſpect to the Validity of this Inſtruction, of a ſuſpending Clauſe, over Governments claiming particular Rights by Charter; to which they have not yet given any Anſwer, that we can learn. And we know, that notwithſtanding two Bills extending the Royal Inſtructions over Councils and Aſſemblies in *America* had been attempted in Parliament without Succeſs, and a third Bill was brought in with the ſame Clauſe, yet it could not obtain a Paſſage there. And we are informed, that a noble Friend to Liberty and the Rights of the *Britiſh* Subject, a Member of that Houſe, expoſed this third Attempt ſo fully, upon the ſecond Reading of the Bill, that the Clauſes on this Head objected to were dropt without Diviſion in the Committee. And until ſuch Acts of Parliament ſhall be obtained, which we have good Reaſon to hope will never be impoſed upon us, the Governor muſt agree with us, that it is our Duty to defend the Rights and Privileges we enjoy under the Royal Charter.

As in the preſent Caſe we are not bound by any Acts of Parliament, and are certainly clear of the Act limiting the Eaſtern Colonies, both as to the Force and the Intention of it, we hope the Governor, from his known Abilities and Good-will to the Proſperity of this Province, will immediately diſcern the Difference between this Bill and Acts of Aſſembly creating Bills of Credit on *common* and *ordinary* Occaſions. What Force Royal Inſtructions may have on Bills of Credit paſſed on common and ordinary Occaſions is not immediately before us, and may be conſidered at a proper Time. But we hope the Governor, notwithſtanding any penal Bond he may have entered into, will, on Reflection, think himſelf at Liberty, and find it conſiſtent with his Safety and Honour, to give his Aſſent to this Bill, which may, at this Time, be of ſuch great Service to the *Britiſh* Intereſt in *America*.

But if we ſhould unhappily ſtill differ in Opinion, notwithſtanding theſe Reaſons, and ſuch as have been offered by our former Aſſemblies, we muſt be obliged, as our laſt Reſource, to apply to the Crown for Redreſs, or to the Lords of Trade, or our Proprietaries, as the Caſe may require; in which, we doubt not, the Governor will favour us with his Aſſiſtance. And in order to furniſh ourſelves with every Thing neceſſary for our own Vindication, and that this Caſe may appear in its full Light, we entreat the Governor will be pleaſed to inform us, whether the Royal Inſtruction is the only Impediment; or whether he has any further Inſtructions from our Proprietaries, which influence him in refuſing his Aſſent to our Bill? And, if he has, that he would be pleaſed to lay thoſe Inſtructions before us for our Conſideration."

And the ſame being ſigned by the Speaker, by Order of the Houſe;

Ordered, That *William Callender* and *Arthur Patterſon* do carry it up to the Governor, together with the Bill for granting *Twenty Thouſand Pounds* to the King's Uſe, *&c.*

The Petition of *Callender* and *Teaff* was again read, and conſidered; and the Houſe being informed, that *Michael Teaff*, one of the Petitioners, was now in Town;

Ordered, That the ſaid *Teaff* do attend this Houſe this Afternoon.

Adjournment *Poſt Meridiem*

Then the Houſe adjourned to Three o'Clock, *P. M.*

The Gentlemen appointed to wait upon the Governor with the Meſſage of the Houſe, and

and the Bill for granting *Twenty Thouſand Pounds* to the King's Uſe, &c. report, that they had delivered the ſame according to Order. 1754. December 20.

The Secretary, by Order of the Governor, informed the Houſe, that *Scarroyady*, with his Son-in-law, were this Day before the Council, and acquainted them with the Purport of their Meſſage to the *Six Nations* at *Onondago*, which ſhould be communicated to the Houſe as ſoon as the Minutes of Council of this Day were compleated. — That the Governor was informed by *Scarroyady*, that his Son-in-law was charged with a Meſſage from the *Owendaets*, to enquire what their Brethren the *Engliſh* deſigned to do in regard to the late Encroachments of the *French*, and having heard ſince he came to Town, that the King of *England* intended to ſend over a Number of Troops to aſſiſt in repelling thoſe Invaders, he was willing, if the Governor thought proper, to return to his Nation, and acquaint them with the joyful News; the Governor therefore deſired the Opinion of the Houſe, whether it would be moſt adviſeable for *Scarroyady's* Son-in-law to return now to the *Ohio*, or go to *Onondago* with *Scarroyady*.——Alſo, that as *Scarroyady*, and the *Indians* accompanying him, were in Want of Shoes, and ſome Neceſſaries for their Journey, the Governor requeſted the Houſe would make Proviſion for the ſame.

The Houſe taking the foregoing Meſſage into Conſideration;

Reſolved, That it is the Opinion of this Houſe, that it would be moſt proper for *Scarroyady's* Son-in-law to return to the *Ohio* as ſoon as conveniently he can.

Reſolved, That this Houſe will allow the Charges of ſupplying *Scarroyady* and his Companions with Shoes, and ſuch other Neceſſaries as they may have Occaſion for, to enable them to proceed on their Journey.

The Houſe being informed that *Michael Teaff* was attending, according to Order, he was called in; and having anſwered ſuch Queſtions as were put to him by the Houſe, he was directed to withdraw.

Reſolved, That before this Houſe will make any Allowance for *Callender* and *Teaff's* Account, that the ſame ſhall be proved on Oath or Affirmation before ſome Magiſtrate of this Province.

Ordered, That the ſaid Account be referred to the Committee of Accounts, who are to examine ſuch Vouchers to the ſame, as may be produced by the ſaid *Callender* or *Teaff*, and report thereon to the Houſe.

The Governor's Meſſage of Yeſterday, with the Letter from Sir *Thomas Robinſon*, were again read, and conſidered; and, after ſome Time ſpent therein,

Ordered, That *Evan Morgan*, *Joſeph Stretch*, *William Callender*, *Mahlon Kirkbride* and *George Aſhbridge* be a Committee to prepare a Draught of an Anſwer to the ſaid Meſſage, and report the ſame to the Houſe.

Upon a Motion made, it was

Reſolved, That *Robert Charles*, Eſq; be Joint-Agent with *Richard Patridge*, Eſq; for this Province at the Court of *Great-Britain*, for the remaining Part of the current Year; and that their Salaries be equal.

Then the Houſe adjourned to Ten o'Clock To-morrow Morning. Adjournment

The Committee appointed to prepare a Draught of an Anſwer to the Governor's Meſſage of the Nineteenth Inſtant, reported the ſame to the Houſe, and it was read by Order, approved, and ordered to be tranſcribed, that it may be ſent up to the Governor. December 21.

Which being done, the ſame was again read, and follows in theſe Words, *viz.*

May it pleaſe the GOVERNOR,

THE undoubted Proofs his Majeſty has ever given of his gracious and paternal Affection for all his Subjects, however diſtant from his Royal Preſence, and the freſh Marks we have now before us of his Care and Regard for the Welfare and Security of his Subjects in *North-America*, excite in us the warmeſt Returns of Duty and Gratitude; and we hope we have fully teſtified, that we have nothing more at Heart in all our Deliberations, than to anſwer the reaſonable Expectations of the Crown from this young but loyal Colony. We have chearfully paſſed a Bill for granting *Twenty Thouſand Pounds* for the King's Uſe, which now lies before the Governor for his Approbation, and we hope will anſwer all the Purpoſes recommended to his Care by Sir *Thomas Robinſon's* Letter of the Twenty-ſixth of *October* laſt. And as we cannot preſume the Military Officers will or ought to have any Power of impreſſing Tradeſmen within this Province, ſo we think the other Parts of the Governor's Meſſage of the Nineteenth Inſtant, which relate to the Mode of ſettling the Value of ſuch Seizures or other Injuries private Perſons ſhall hereafter receive, may remain under our Conſideration without any conſiderable Inconvenience." Aſſembly's Anſwer to the Governor's Meſſage of the 19th Inſtant.

And the Meſſage being ſigned by the Speaker, by Order of the Houſe;

Ordered, That *Griffith Owen* and *David M'Connaughy* wait upon the Governor, and deliver the ſame.

1754. December 21. *Reſolved*, That *James Wright* and *John Wright* have Leave to be abſent the Remainder of this Sitting, on urgent Buſineſs.

The Gentlemen appointed to wait upon the Governor with the Meſſage of the Houſe, return and report, that they had delivered the ſame, according to Order.

The Committee of Accounts made a Report in Writing on *Callender* and *Teaff's* Account, which was read, and is as follows, *viz.*

YOUR Committee have examined and deliberated on the Matters and Things ſet forth in the Petition and Account annexed, referred to them, and are of Opinion, that allowing Accounts for Goods delivered by *Indian* Traders to any *Indians*, without immediate Directions from the Government, may prove a bad Precedent; nevertheleſs, as it appears to your Committee, that *Robert Callender* and *Michael Teaff* did deliver to the *Indians* ſome Goods, for which we do not find they have received any Pay, and it appears in ſome Meaſure the *Indians* were then in Neceſſity; your Committee therefore think it neceſſary to allow them *Forty Pounds* in full Diſcharge thereof. —— And we are of Opinion, the Expreſſes mentioned by *Robert Callender* ought to come recommended from the Governor.

All which we ſubmit to the Houſe.

EVAN MORGAN, WILLIAM CALLENDER,
JOSEPH FOX, JOSEPH HAMTON,
JOSEPH STRETCH, THOMAS CUMMINGS.
JAMES PEMBERTON,

And the ſaid Report being again read, and conſidered, together with *Teaff's* Qualification to the ſaid Account;

Reſolved, That the Sum of *Fifty-ſix Pounds* be allowed to the ſaid *Callender* and *Teaff*, in full for the Goods by them delivered to the *Half-King* and other *Indians*, in *May* laſt, as ſet forth in their Petition and Account exhibited to the Aſſembly on the Fourteenth of laſt *Auguſt*.

Adjournment. Then the Houſe adjourned to next *Second-day*, at Three o'Clock, *P. M.*

December 23. The Houſe met according to their Adjournment.

Poſt Meridiem A Petition from divers Inhabitants of the County and City of *Philadelphia* was preſented to the Houſe and read, ſetting forth, that the Petitioners underſtand that this Houſe have now under Conſideration a Law for the better removing the Dangers the Inhabitants of this Province are daily expoſed to from the infectious Diſorders which the Foreigners yearly imported labour under, and alſo for preventing for the future ſuch Hardſhips and Grievances as thoſe poor Strangers have hitherto ſuffered; the Petitioners therefore pray, that *Daniel Mackinet*, ſenior, may be appointed the Health Officer, for putting the ſaid Law in Execution, he being a Perſon in whom, the Petitioners apprehend, a ſpecial Confidence may be placed, as well for his known Integrity and Care, as Knowledge in the *German* and *Engliſh* Languages. *Ordered to lie on the Table.*

A Petition from *John Knowles*, of the City of *Philadelphia*, was preſented to the Houſe and read, ſetting forth, that the Petitioner is informed that this Houſe is now preparing an Act for the more effectual Prevention of Diſeaſes and infectious Diſtempers occaſioned by the Importation of Foreigners, *&c.* the Petitioner therefore prays, that he may be appointed the Health Officer for putting the ſaid Act in Execution.

Ordered to lie on the Table.

Adjournment. Then the Houſe adjourned to Ten o'Clock To-morrow Morning.

December 24. The Governor, by the Secretary, ſent down to the Houſe a written Meſſage, which was read, and is as follows, *viz.*

GENTLEMEN,

A Meſſage from the Governor to the Aſſembly.

'WHEN your Bill for ſtriking *Twenty Thouſand Pounds*, &c. was before me, I duly conſidered the dangerous Circumſtances in which the Province was involved; and the abſolute Neceſſity of ſpeedy Meaſures to remove the *French* from their Encroachments; and this induced me, inſtead of adding a Clauſe to ſuſpend the Force of the Act till his Majeſty's Pleaſure could be known, to ſend it back to you, that you might frame ſuch an One as I was at Liberty to give my Conſent to; and at the ſame Time to ſignify to you, that I would agree to the Striking any Sum the preſent Emergency might require, provided Funds were eſtabliſhed for ſinking the ſame in Five Years, that being the Term preſcribed by an Act of Parliament for regulating Paper Money in the Eaſtern Governments; and I thought the Reaſon of that Act extended here, though the Force of it did not; and I hoped that I ſhould be excuſed, if I ſo far relaxed the Inſtruction upon the preſent Occaſion, as to act agreeable to the Rule laid down by Parliament for the neighbouring Governments, and I am ſorry, for the Sake of the Public, to find by your Meſſage, that you have ſo far miſapprehended me, as to conceive that I intended to inſiſt on the ſuſpending Clauſe in this dangerous

' Situation

1754. December 24.

'Situation of Affairs, which the Words of my Message do in no wise import, and that 'upon the Whole, you refuse to accede to the reasonable Measures I proposed.

'The Case stated for Sir *Dudley Ryder's* Opinion, was drawn up with Intention to 'know how far that Instruction was binding upon the Lieutenant-Governor for the 'Time being, and not whether Colonel *Thomas* had acted right or wrong, in passing 'an Act for striking *Five Thousand Pounds*, without a suspending Clause, to which the 'Case stated neither could nor ought to have any Reference.

'It does not appear to me that the Opinion only regards common and ordinary Emis-'sions; the Instruction itself, you are sensible, is very general, and that all the late As-'semblies Objections are placed in the fairest and strongest Light in the State of the 'Case. Colonel *Thomas's* Conduct is no Rule to me, nor will mine be for any One that 'may succeed me; and if we judge from his not transmitting that Act to *England*, we 'may presume that he did not look upon that Particular as the most recommendatory 'Part of his Administration. It is true, he never was censured for it, and indeed, how 'could he, as the Transaction was never made known to his Majesty, or his Ministers? 'And he now enjoys a considerable Trust under the Crown. — But you must be con-'vinced, that what principally recommended him to his Majesty's Favour, was the warm 'Zeal he discovered for his Majesty's Service, a ready Obedience to his lawful Com-'mands, and an hearty Inclination to promote the public Service, by annoying his Ma-'jesty's Enemies, and endeavouring to provide for the Defence of that Part of his Ma-'jesty's Dominions then under his immediate Direction.

'As the Fact you mention relating to the Case laid by the Lords of Trade before the 'Attorney and Solicitor General, is not of public Notoriety, it is quite unknown to 'me; but should it be as you say, whenever they shall report their Opinion, and his 'Majesty shall think fit to issue different Instructions, I shall endeavour to pay the pro-'per Obedience to them; but while this Matter is only under the Consideration of the 'Attorney and Solicitor General, if in Truth it be so, I do not see that I can take any 'Notice of it.

'The Debates in Parliament, or whatever any noble Member was pleased to say on 'that Occasion, have, I think, little Connection with the Matter now before us. But 'you will please to remember, that though the Parliament did not agree to give a ge-'neral Sanction to all Instructions from his Majesty; yet this in particular was the Re-'sult of the humble Addresses of both Houses to his Majesty for that Purpose, and it 'cannot be doubted but they will support their own Act, if it should ever come before 'them.

'I must join with you in Opinion, that the only Method to have the Validity and 'Force of that Instruction finally and authoritatively determined, is by an Application 'to his Majesty, who can, if he pleases, withdraw or suspend the Force of it for any 'Time he thinks proper; and I will, as I think it my Duty at all Times, but more 'especially so at present, lay before his Majesty's Ministers this whole Affair, to whom 'you are at Liberty, and I am desirous you should apply. But while that Matter rests 'before his Majesty for his Determination, which cannot be immediately had, let us 'exert ourselves against the *French* Invaders, who have already possessed themselves of 'great Part of this Province, and not leave them at Liberty to make further Encroach-'ments, and their Savage Allies to make what Incursions, and commit what Cruelties, 'they please.

'As I was, in a great Measure, a Stranger to your Constitution, and was so highly 'to be entrusted by the Proprietaries, it seemed quite necessary that I should receive In-'structions from them; all which are so perfectly calculated to promote and secure the 'Prosperity and real Happiness of the Inhabitants of this Country, and so reasonable in 'themselves, that I can safely assure you, that nothing is required of me by them, that 'I should not think it my Duty to do if they had never been given me.

'And though I think it not quite decent, and I believe unprecedented, for a Gover-'nor to be called upon for a Sight of his Instructions, yet I shall communicate them to 'the House whenever the public Service shall require it; and accordingly I take this Op-'portunity to acquaint you, that I have it, among other Things, in Charge from the 'Proprietaries, to recommend to you, in the most pressing Manner, to provide at this 'Time for the Defence and Safety of the Province, not only by affording such Aids as 'his Majesty from Time to Time may require, but by establishing a regular Militia 'within this Province, and providing Arms and Stores of War, and building proper 'Magazines in the most convenient Places: All these Things they desire may be done 'in such Manner as to be least burthensome to the Inhabitants, and particularly so as 'not to oblige any Persons to bear Arms who are or may be conscientiously scrupulous 'against it.

'This, Gentlemen, in Pursuance of my Instructions from the Proprietaries, I now 'earnestly recommend to you to do with all imaginable Dispatch, as this Province never 'was in more imminent Danger than it is at present, having, as you know, a very large

'Body

1754. December 24.

'Body of *French* Troops in the Back Parts of it, assisted by great Numbers of *Indians* 'in their Alliance, and the Government without Men acquainted with military Disci- 'pline, Arms or Ammunition. And as his Majesty and his Ministers, as well as the 'Proprietaries, depend upon me to give them true and exact Accounts of the State and 'Circumstances of the Province committed to my Care, I must desire you will give me 'a clear and determinate Answer to this Point, that I may be able to lay the same before 'his Majesty in such a Manner as may make the Interposition of Parliament entirely 'unnecessary.

'Gentlemen, while I had your Message of the Twentieth Instant under my Con- 'sideration, and was preparing the foregoing Answer to it, I received your's of the 'Twenty-first, in Answer to mine of the Nineteenth, accompanying Sir *Thomas Ro-* '*binsons* Letter of the Twenty-sixth of *October* last; and am really concerned to find, 'that instead of providing for the Articles of Expence recommended to you by his Ma- 'jesty, in a Manner agreeable to his Royal Directions, you insist on my passing the Bill 'in the Shape you have sent it up which I before informed you I could by no Means 'do, as being contrary to his Majesty's Instruction, and now again assure you, that I 'will not assent to that or any other Bill for emitting Paper Money, but upon the Terms 'above-mentioned.

'And here, Gentlemen, I think it necessary to say, that there are some other Mat- 'ters in your Bill, which would have merited my further Consideration, but I was un- 'willing to mention any Thing that might impede his Majesty's Service.

'I cannot but observe by the Minutes of Council, that a Dispute subsisted between 'you and the late Governor upon this very Head, for a considerable Time, which might 'certainly have received his Majesty's Determination, had you applied for it; and am 'very sorry that such a Dispute should be revived in the very Beginning of my Admi- 'nistration, and at a Time when the common Safety requires that we should lay aside 'all other Considerations but our present imminent Danger, and rise up as one Man to 'drive the *French* from our Borders, and secure our Country against their Encroach- 'ments for the future.

'Was there no other Method of raising Money for the present Service, but that you 'have proposed and insisted upon, your Conduct might appear in a more favourable 'Light. But as you now have, or ought to have, by the Laws in Being, in Bank, be- 'tween *Fourteen Thousand* and *Fifteen Thousand Pounds*, and a Revenue of *Seven Thou-* '*sand Pounds* a Year; as this City and Province are in rich and flourishing Circumstances, 'and as the People are numerous, and burthened with none or very trifling Taxes, I 'cannot consent to pass the Bill you propose, it being a direct Breach of a Royal In- 'struction intended to enforce an Act of Parliament of the Sixth of Queen ANNE, which 'you know has been shamefully slighted and disregarded in this and the neighbouring 'Provinces.

'The Reason for my having recommended it to you to consider, whether a Law would 'not be necessary to settle and establish the Wages or Hire to be paid for such Trades- 'men, Horses and Carriages, as might be impressed for his Majesty's Service by mili- 'tary Men, was in Favour of Liberty, and intended to restrain them from impressing 'of Freeholders, and to prevent Disputes between the Owners of Carriages and other 'Necessaries; and that if the Exigency of Affairs should render it necessary to impress 'any, it might be only single Men, and such as have no Habitations or Settlements 'among us, whose Service may be wanted in the Course of this Expedition.

'Upon the Whole you will consider, Gentlemen, in what Light you will appear to 'his Majesty and a *British* Parliament, who are expending great Sums of Money for 'the Defence of these Colonies, while you, the very Province most concerned as being 'invaded, instead of contributing towards your own Defence, are entering into an ill 'timed Controversy concerning the Validity of Royal Instructions, which might have 'been determined long ago, and may be delayed to a more convenient Time, without 'any the least Injury to the Rights of the People.

'Let me therefore, Gentlemen, once more recommend the present unhappy Circum- 'stances of this Country to your most serious Consideration; and entreat you to lay aside '(for the present at least) every Thing that may admit of any Dispute, and enter hear- 'tily into such Measures as may best answer the public Expectations, and assist his Ma- 'jesty in the Measures he has concerted, and is carrying into Execution, for the Pre- 'servation of this Country.

December 24, 1754. *ROBERT HUNTER MORRIS.*"

And the said Message being again read, and considered, was, after some Time spent therein, referred to further Consideration.

Adjournment. Then the House adjourned to Three o'Clock, *P. M.*

Post Meridiem. The Governor's last Message being again read, and considered;

Ordered, That *Joseph Fox* and *James Burnside* wait upon the Governor, and acquaint him, that as it appears by his last Message, that he chooses not to pass the Bill,

now

now before him, for granting *Twenty Thousand Pounds* to the King's Use, the House desire he would be pleased to return it to them. 1754. *December* 24.

The Gentlemen appointed to wait upon the Governor with the Message of the House, return, and report, that they had delivered the same according to Order; and that the Governor was pleased to say, that he did not know it was customary to return the Bill, but had given it to the Secretary at the same Time with the Message, who, he expected, would have disposed of it as had been heretofore usual; that the Governor then sent for the Bill to the Secretary's, and having received it, delivered it to them, according to the Desire of the House.

Then the House adjourned to Three o'Clock To-morrow Afternoon. Adjournment

The Governor's Message of Yesterday was again read, and considered; and, after some Time spent therein, it was *December* 25. *Post Meridiem*

Ordered, That *Evan Morgan*, *William Callender*, *Mahlon Kirkbride*, *Joseph Gibbons*, *Arthur Patterson*, *David M'Connaughy*, *John Smith*, *Moses Starr* and *James Burnside* be a Committee to prepare a Draught of an Answer to the said Message, or to such Parts thereof as they shall think most necessary for the House to answer at this Time.

Ordered, That Candles be brought in.

And they were brought in accordingly.

The Committee to whom the Bill for preventing the Importation of *German* or other Passengers, or Servants, in too great Numbers, in any one Ship or Vessel; and for preventing the Spreading of contagious Distempers within this Province, was committed for Amendment, reported the same to the House, with sundry Alterations they had made therein.

A Petition from *Daniel Mackinet*, senior, of the City of *Philadelphia*, praying to be appointed the Health Officer, in the Bill now before the House for preventing the Spreading of infectious Distempers, *&c.* was presented to the House and read, and

Ordered to lie on the Table.

The Committee appointed to prepare a Draught of an Answer to the Governor's Message, reported, that they were of Opinion it was most immediately necessary for the House to answer that Part of the Governor's last Message which relates to Proprietary Instructions; and that the other Parts of the said Message might, without any Inconvenience, be postponed for future Consideration.

And the said Committee having prepared a Draught of an Answer to that Part of the Governor's last Message which relates to Proprietary Instructions, laid the same before the House; and it was read by Order, agreed to, and ordered to be transcribed, that it may be sent up to the Governor.

Then the House adjourned to Ten o'Clock To-morrow Morning. Adjournment

A Petition from *Charles Norris*, of the City of *Philadelphia*, was presented to the House and read, setting forth, that the Petitioner is informed that some of the Members of this House have lately represented the Necessity of having a Person to take Care of the Library belonging to the Assembly; the Petitioner therefore begs Leave to offer himself for that Service. *December* 26.

And the House taking the same into Consideration,

Resolved, That *Charles Norris* be Keeper of the Assembly Library, and that he observe such Directions therein as shall be hereafter given him by this House.

The Message to the Governor being transcribed, was again read, and follows in these Words, *viz.*

May it please the GOVERNOR,

BEFORE we enter upon the Consideration of the other Parts of the Governor's Message of the Twenty-fourth Instant, we must acknowledge ourselves engaged to return him our hearty Thanks for informing us, that, "as he was in a great Measure a "Stranger to our Constitution, and, to be so highly entrusted by the Proprietaries, it "seemed quite necessary that he should receive Instructions from them.—And notwith- "standing he may think it not quite decent, or may believe it unprecedented for a Go- "vernor to be called upon for a Sight of his Instructions, yet he will communicate them "to the House whenever the public Service shall require it." A Message from the Assembly to the Governor.

And in Return to this candid Declaration, and the Assurance he is pleased to give us, as well as the ready furnishing us with other Parts of those Instructions, we beg Leave to inform the Governor, that we not only apprehend it the undoubted Right of a *British* Parliament to address the Crown for such Information as they judge absolutely necessary to their Deliberations; but also, that the Proprietary Instructions to our former Governors, have been repeatedly laid before the Assemblies of this Province.

We find a saving Clause or Restriction in the Proprietary's Commission to Colonel *Evans* was laid before the Council, with a solemn Decision of that Council, of which WILLIAM PENN, the Younger, was the principal Member, "that the said saving "Clause was void in itself." And this Decision, with other Proprietary Instructions,

1754. December 26. were laid before the Aſſembly by Sir *William Keith*, in the Year 1724; whereupon that Houſe drew up "a Remonſtrance, by way of Addreſs, to the Honourable the Proprie-"tary Family, to ſhew wherein the ſaid Inſtructions were an Infringement upon the Pri-"vileges granted by Charter to the People of this Province." And again, in the Year 1738, Colonel *Thomas*, in his Meſſage to the Aſſembly, on a Bill then lying before him, for re-emitting and emitting *Eighty Thouſand Pounds* in Bills of Credit, after enumerateing, among other Things, ſuch Objections as ariſe from the Act of Parliament made in the ſixth Year of the late Queen ANNE, "for aſcertaining the Rates of *Foreign Coins* in "the Plantations of *America*," as well as the Letter from the Lords for Trade and Plantations to Governor *Gordon*, his immediate Predeceſſor, declares, with great Candour, "that the then Aſſembly might ſee that he did not induſtriouſly ſeek for Argu-"ments to diſappoint them of a Bill they had ſo much at Heart, he ſent them a Copy "of the Proprietaries Inſtruction to him on that Head." And the ſaid Inſtruction appears upon our Minutes of that Year.

This Inſtance of Colonel *Thomas's* Juſtice and Sincerity towards the Repreſentatives of the Province at that Time, produced the deſired Effect, as we hope it always may hereafter in like Caſes. And accordingly we find, after ſeveral Meſſages, and conferring with the then Governor on that Head, he paſſed the Bill, which has finally received the Royal Approbation, and gives the Sanction to the Paper Currency, now paſſing among us.

We therefore, under theſe Conſiderations, and for that we are of Opinion thoſe Proprietary Inſtructions, which the Governor is pleaſed to inform us our Proprietaries gave him on their appointing and entruſting him with this Government, are the principal, if not the ſole, Obſtructions to the Paſſing our Bill for granting *Twenty Thouſand Pounds* for the King's Uſe; and alſo, for that whatever Bills we might prepare for this, or any other Purpoſe, after all the Expence to the Country, and after all our Pains in framing them, would be liable to the ſame Difficulties, unleſs we could know what thoſe Proprietary Inſtructions are. We ſay, under theſe Conſiderations, and from the Regard our Governor is pleaſed to expreſs for our Charter, and our Liberties, we earneſtly requeſt he would now candidly communicate thoſe Inſtructions to us, as the Time when "the public Service requires it" in the moſt particular Manner: For, as we are now under an abſolute Neceſſity of addreſſing the Crown, in Support of our Civil and Religious Liberties, in which we have the Pleaſure of the Governor's Concurrence, and indeed his Deſire that we ſhould apply to his Majeſty on this Occaſion, we muſt, in Juſtice to ourſelves, and in Diſcharge of the Duty we owe to thoſe we repreſent, make thoſe Proprietary Inſtructions, and the Force and Validity of them, the great End of our humble Petition to the Crown at this Time, unleſs the Governor ſhall be pleaſed to convince us to the contrary."

And the Meſſage being ſigned by the Speaker, by Order of the Houſe;

Ordered, That *Derrick Hogeland* and *Moſes Starr* wait upon the Governor with the ſame.

An Account from *Michael Teaff*, amounting to *Sixty-four Pounds One Shilling* and *Six-pence*, for Diet and other Neceſſaries, ſupplied the *Half-King*, &c. was laid before the Houſe and read, and referred to the Committee of Accounts.

Adjournment. Then the Houſe adjourned to Three o'Clock, *P. M.*

December 27. The Committee of Accounts reported, that they had examined the Speaker's Account for Diſburſements for the Uſe of the Houſe, *&c.* and were of Opinion, that the ſame ought to be allowed; and that *Three Pounds Seventeen Shillings* and *a Penny* thereof ſhould be paid by the Superintendants of the State-houſe, and *Eight Pounds Three Shillings* and *Five-pence*, the Remainder of ſaid Account, by the Executors of the late Treaſurer, out of the Money in their Hands belonging to the Province. — To which the Houſe agreed.

The House met according to their Adjournment.

The Governor, by the Secretary, sent down to the House a Message, in Writing, and the Examinations of two *French* Deserters, taken before the Chief Justice, which were read; and the Message is as follows, *viz.*

GENTLEMEN,

A Message from the Governor to the Assembly.

'IN Answer to your Message of the Twenty-sixth Instant, I think it necessary to observe, that though the House of Commons have certainly a Right to address the Crown for Information, and though former Governors of this Province, when they thought it necessary, have laid particular Instructions before the Assemblies, yet it does not from thence appear, that you have a Right to have all the Governor's Instructions laid before you, whenever you think proper to demand them; and I am still of Opinion, that your Application for that Purpose is irregular and unprecedented.

'It is certainly true that I have Proprietary Instructions, as I am informed all Governors, from the first Settlement of the Province, have constantly had; and indeed it could not be otherwise, seeing the Proprietaries are answerable for the Conduct, and bound by the Acts, of their Governors. But I cannot think it at this Time for his Majesty's Service, or the Interest of this Province, to communicate them to you, further than I have already done; especially as you claim it as a Right, and seem industriously to seek for these Instructions, as a fresh Matter to dispute upon, when the Public Service requires that you should be otherwise employed; and as you express so great a Dislike to Proprietary Instructions, that in the very Message, wherein you desire they may be communicated to you, you declare you intend to make the Force and Validity of them the great End of your Petition to the Crown; and this without so much as knowing what those Instructions are, further than that the Proprietaries earnestly recommend it to you to provide for the Defence of the Province, in the Manner mentioned in my last Message.

'When your Bill for striking *Forty Thousand Pounds* was before me, I found it was contrary to the Royal Instruction, directed to the Lieutenant-Governor of this Province for the Time being, and, in the Opinion of Sir *Dudley Ryder*, in Force, and binding upon me; and without any further Examination I sent it back to you, with that Opinion, and by a Message informed you, that I could by no Means agree to it, as it was contrary to that Instruction; notwithstanding which, you are pleased to tell me, *that you are of Opinion the Proprietary Instructions are the principal, if not the sole, Obstruction to the Passing that Bill.* If this be really your Opinion, Gentlemen, I should be glad to know upon what Information you found it, and how you came so intimately acquainted with my private Sentiments, as to know, that when I said one Thing, I meant another.

'I was, and am, very desirous that you should apply to the Crown, to determine the Force of the Royal Instruction relating to Paper Money, as his Majesty may certainly withdraw the same whenever he pleases: But as I do not know, or believe that the Civil or Religious Liberties of the People of this Province are at all invaded by that Instruction, I could have no Intention to consent to an Application in Support of them. Any Application therefore of that Sort, Gentlemen, must be your own, in which I have not, nor do I desire to have, any the least Concern.

'An Invasion of the Civil and Religious Liberty of a People, which are in their Nature sacred, and ought to be so esteemed by all Governments, is among the worst of Crimes, and is greatly aggravated when done by One who is bound by Duty and Oath to preserve those Blessings, and to protect the People in the Enjoyment of them. His Sacred Majesty, who through the Course of a long and happy Reign has studied to preserve the Rights and Liberties of all his Subjects, and has always made the Laws and Constitution of his Kingdoms the Rule and Measure of his Government, I am sure, disdains a Thought of doing or approving any Thing that may be injurious to them; and I am satisfied a *British* Parliament will never esteem a Royal Instruction, issued at their own Request, and intended to enforce a good and wholesome Law, in the least destructive of the Civil or Religious Liberties of any Part of his Majesty's Subjects, whatever you the Representatives of *Pennsylvania* may do. And it gives me

'particular

1754. December 30.

'particular Concern, that you ſhould purpoſely enter into a Diſpute about that Inſtruction, and chooſe to expreſs and publiſh ſuch Sentiments of his Majeſty's Government, 'at a Time like this, when a *French* Army are fortifying themſelves in your Country; 'and I earneſtly recommend it to you to conſider, whether ſuch Expreſſions may not 'have a Tendency to alienate the Affections of the People of this Province from his Majeſty's Perſon and Government, and thereby greatly obſtruct the Meaſures he is taking, 'at a vaſt Expence, for the Preſervation and Protection of his Subjects upon this Continent.

'I have lately received Intelligence, that a Body of nigh Six Thouſand of the beſt 'Troops of *France*, ſelected, and ſent over upon this particular Service, are arrived at 'the Lower Fort upon the *Ohio*, and are employed in fortifying that Country. This 'muſt convince us that the Court of *France* has formed ſome grand Deſign with regard 'to this Continent; and as they have made their firſt Attack upon this Province, without Doubt on Account of its being the moſt plentiful and only defenceleſs Part of his 'Majeſty's Dominions; it behoves us, in a particular Manner, to exert ourſelves upon 'the preſent Occaſion: I muſt therefore, Gentlemen, once more intreat you to lay aſide 'every Thing that may admit of Diſpute between us till a more favourable Seaſon, and 'enter ſeriouſly into the Conſideration of the Danger to which your Country is expoſed; 'and not only grant the Supplies recommeded by the Crown, but enable me to raiſe a 'conſiderable Body of Men, to be employed in Conjunction with the Troops his Majeſty has deſtined for this Service; and by eſtabliſhing a regular Militia, and providing 'the neceſſary Stores of War, leave us no longer, for want of Diſcipline, an eaſy Prey 'to a much weaker Body of Men than are now encamped within a few Days March 'of this City.

The Bill for preventing the Importation of *German* or other Paſſengers, or Servants, in too great Numbers in any one Ship or Veſſel; and for preventing the Spreading of contagious Diſtempers within this Province, being tranſcribed, was read the third time;

And a Blank having been left in the ſaid Bill for the Name of the Perſon to be appointed Health Officer, the ſeveral Petitions for that Office were read; and, after ſome Time ſpent in Conſideration thereof, it was

Reſolved, That *Spencer Trotter* be appointed the Health Officer for this Province.

And his Name was inſerted in the Bill accordingly.

And a Clauſe being propoſed, by one of the Members, to be added to the ſaid Bill, by way of Rider, the ſame was read, conſidered, and ordered to be tranſcribed.

Adjournment. Then the Houſe adjourned to Ten o'Clock To-morrow Morning.

December 31. The Clauſe propoſed to be added, by way of Rider, to the Bill for preventing the Importation of *German* or other Paſſengers or Servants, in too great Numbers. *&c.* being tranſcribed, was again read, conſidered, agreed to, and ordered to be inſerted in the ſaid Bill: —— Which being accordingly done;

Reſolved, That the Bill do paſs.

Ordered, That *Joſeph Stretch* and *James Pemberton* carry up the ſaid Bill to the Governor for his Concurrence.

The Governor's two laſt Meſſages were again read; and the Houſe obſerving, that the Governor calls on them to ſhew upon what Information they found their Opinion, that he is reſtricted by Proprietary Inſtructions from paſſing the Bill for granting *Twenty Thouſand Pounds* to the King's Uſe (in which it is propoſed to extend the *Exciſe Act* for Ten Years, to raiſe a Fund for ſinking the ſame) it was therefore

Ordered, That the ſeveral Meſſages which paſſed between the late Governor and Aſſembly, in the Years 1750 and 1751, in relation to the Proprietaries bearing a proportionable Part of the Expences on *Indian* Affairs; and the Report of the Committee, in *June* 1751, appointed to ſearch the Records and Minutes of the Houſe to find in what Manner thoſe Expences had been uſually defrayed, *&c.* with the Reſolves of the Houſe upon the ſaid Report, be, this Afternoon, taken up and read, together with the Repreſentation from the Aſſembly to the Proprietaries in 1751, the Proprietaries Anſwer thereto, and the Report of a Committee of Aſſembly upon the ſaid Anſwer, in 1753.

The Gentlemen appointed to wait upon the Governor with the Bill for preventing the Importation of *German* or other Paſſengers, or Servants, in too great Numbers in any one Ship or Veſſel; and for preventing the Spreading of contagious Diſtempers within this Province, return, and report, that they had delivered the ſame, according to Order; and that the Governor was pleaſed to ſay, he would give it all the Diſpatch in his Power.

Adjournment. Then the Houſe adjourned to Three o'Clock, *P. M.*

Poſt Meridiem Purſuant to the Order of this Morning, the ſeveral Meſſages, Reports, *&c.* of the Aſſembly, in the Years 1750, 1751, and 1753, relating to the Proprietaries bearing a proportionable Part of the Expences on *Indian* Affairs, were taken up and read; and, after ſome Time ſpent in Conſideration thereof, it was

Ordered, That the Repreſentation from the Aſſembly to the Proprietaries in 1751, the

the Proprietaries Answer thereto, laid before the House in *May*, 1753, and the Report of the Committee of Assembly, at that Time, on the said Answer *(neither of which have as yet been made public)* be now printed with the Minutes of this Sitting. 1754. *December* 31.

And the said Representation, Answer and Report, do accordingly follow in these Words, *viz.*

To the Honourable THOMAS PENN *and* RICHARD PENN, *Proprietaries of the Province of* Pennsylvania, *&c.*

The REPRESENTATION *of the* General Assembly *of the said Province, met at* Philadelphia, *the Twenty-third Day of the* Sixth Month, 1751.

May it please the Proprietaries,

Representation from the Assembly to the Proprietaries, in *August*, 1751.

THE first Settlers of this Province unanimously concurred with your worthy Father to lay the Foundation of their Settlements, in doing Justice to the Native *Indians*, by coming among them as Friends, upon an equitable Purchase only: This soon appeared to be the best and safest Way to begin the Infant Settlement, by the Veneration and Love it procured from those People, who kindly supplied the Wants of many then destitute of the Necessaries of Life; and, as the Settlements encreased, retired to make Room for their new Guests, still preserving that Esteem and Veneration which had been so strongly impressed upon their Minds. By this voluntary Retreat, all were satisfied, for there was Room enough for all; and the good Faith so carefully kept with those who were neareſt, gave the more distant *Indian* Nations that favourable Opinion of us, which our continuing to act on the same Principles of Justice hath supported to this Day: They entered freely into our Alliance; they became the Guards of our Frontiers against the *French* and *French Indians*, by obliging them to observe a Neutrality towards us, as we experienced during the Course of the last War; and we have Reason to think we now share largely in their Affections. But this beneficial Friendship hath neither been procured nor continued without a very great Expence to the People of this Province, especially for some Years past, wherein we find the Assemblies (demonstrating that their Unwillingness to contribute to military Preparations, was neither from Want of Public Spirit, nor through unseasonable Parsimony, but from the Motives of Conscience only) opened their Hands liberally to all the Purposes of Peace, among those who could best, under God, preserve our distant Settlements against the Depredations of an active and powerful Enemy; without strictly enquiring at that Time, how far the People alone ought to bear the Burden of those Expences. But as that Burden became yearly more and more heavy, the Assemblies were naturally led to request the Assistance of the Proprietaries, and we hoped an Application so apparently reasonable might have their Approbation. We are therefore much concerned to receive an Answer so different from our Expectations, in which the Proprietaries are pleased to say, ‘ that they do not conceive ‘ themselves under any Obligation to contribute to *Indian* or any other public Expences, ‘ even though Taxes were laid on the People for the Charges of Government: But as ‘ there is not One Shilling levied on the People for that Service, there is the less Reason ‘ for asking any Thing of them. Notwithstanding which, they have charged themselves ‘ with paying to the Interpreter, much more than could be due to him on any Treaties ‘ for Land, and are at this Time at the Expence of maintaining his Son, with a Tutor, ‘ in the *Indian* Country, to learn their Language and Customs for the Service of the Province, as well as of sundry other Charges on *Indian* Affairs. That they have been at ‘ considerable Expence for the Service of the Province both in *England* and here; that ‘ they purchase the Land from the *Indians*, and pay them for it; and that they are under ‘ no greater Obligation to contribute to the public Charges than any other Chief Governor of any of the other Colonies.”

Upon which we beg Leave respectfully to represent to our Proprietaries, that the Preserving a good Understanding with the *Indians*, more particularly advances the Interest and Value of the Proprietary Estate than that of any other Estate in the Province, as it gives the Proprietaries an Opportunity of purchasing at a low Price, and selling at high Rates, great Tracts of Land on the Frontiers, which would otherwise be impracticable. That therefore, though they may conceive themselves under no Obligation by Law, they are under the much stronger Obligations of natural Equity and Justice, to contribute to the Expence of those *Indian* Treaties and Presents, by which that good Understanding, so beneficial to them, is maintained.—That although formal Taxes have not been laid in this Province during some Years past, for the Support of the Proprietaries Lieutenant-Governor, and defraying the Charges of *Indian* Treaties, yet the Interest of our Paper Money is a virtual Tax on the People, as it arises out of, and is paid by, their Labour, and our Excise is a real Tax, yielding about *Three Thousand Pounds per Annum*, which is principally expended in those Services, besides the Tax of Licences of various Kinds, amounting to considerable Sums yearly, which have been appropriated wholly to the

1754. December 31.

Support of the Governor. That the Aſſemblies of this Province have always paid the Accounts of our *Indian* Interpreter for his public Services to his full Satisfaction; and we believe future Aſſemblies will not fail to do, in that Reſpect, what may reaſonably be expected from them, when his Son ſhall be thought qualified to ſucceed him. Nor do we doubt their Diſcharging all juſt Debts for Expences properly chargeable to the Province, whether made here or in *England*, whenever the Accounts are exhibited. We are nevertheleſs thankful to our Proprietaries for their Care in our Affairs, and their Endeavours to provide a well qualified Succeſſor to our preſent Interpreter, as ſuch a One may be of Service to the Public, as well as to the private Intereſts of their Family.

We would farther entreat our Proprietaries to conſider, that their great Eſtate not lying in *Britain*, is happily exempt from the Burthens borne by their Fellow Subjects there, and cannot, by any Law of ours, now in Being, be taxed here. That therefore, as they are not obliged, on Account of that Eſtate, to bear any Part of the Charge of any War the *Britiſh* Nation may be involved in, they may with us more freely contribute to the Expence of preſerving Peace, eſpecially on the Borders of their own Lands, as the Value of thoſe Lands ſo much depends upon it.

We beg Leave further to obſerve to our Proprietaries, that the Act forbidding all others to purchaſe Lands of the Natives, eſtabliſhes a Monopoly ſolely in their Favour; that therefore they ought to bear the whole Charge of Treaties with the *Indians* for Land only, as they reap the whole Benefit. And that their paying for Land (bought, as we conceive, much the cheaper for the Provincial Preſents accompanying thoſe Treaties) which Land they ſell again to vaſt Advantage, is not a ſatisfactory Reaſon why they ſhould not bear a Part of the Charge of ſuch other Treaties, as tend to the common Welfare and Peace of the Province.

Upon the Whole, ſince the Proprietaries Intereſts are ſo conſtantly intermixed, more or leſs, with thoſe of the Province, in all Treaties with our *Indian* Allies; and ſince it appears that the Proprietaries think they already pay more than their Share, and the People (who have diſburſed near *Five Thouſand Pounds* within theſe Four Years on thoſe Occaſions) think they pay abundantly too much, we apprehend that the ſureſt Way to prevent Diſſatisfaction on all Sides, will be, to fix a certain Proportion of the Charge of all future Provincial Treaties with the *Indians*, to be paid by the Proprietaries and Province reſpectively; and this, we hope, they will on further Conſideration agree to, not only as it is in itſelf an equitable Propoſal, but as it may tend to preſerve that Union and Harmony between the Proprietaries and People, ſo evidently advantageous to both.

Signed, by Order of the Houſe, ISAAC NORRIS, *Speaker.*"

The PROPRIETARIES ANSWER to the *Repreſentation* of the HOUSE of REPRESENTATIVES.

Laid before the Houſe, May 23, 1753.

GENTLEMEN,

Proprietaries *Anſwer* to the Repreſentation of the Aſſembly; and the *Report* of a Committee of Aſſembly on ſaid Anſwer.

1. *THE true and real Intereſt of the People whom you repreſent is, as it ought to be, the principal Object of our Concern: We ſhall, on all Occaſions, ſhew them that we have it conſtantly in View: We will uſe our utmoſt Endeavours to procure it, at the Expence of our own private Fortunes, whenever it appears to us neceſſary; and, in conſidering the Matter of your Repreſentation, ſhall endeavour to act ſuch a Part as would be thought juſt, by Perſons wholly diſintereſted, both with regard to us and them.*

2. *That the Repreſentatives of the People are not ſo diſintereſted, ſeems moſt certain; wherefore, ſuppoſing they ſaw this Matter in a Light very different from that in which it appears to us, and that they were not actuated by any Inclination on the one Hand to oppoſe our Intereſt, or on the other to influence the weaker Part of the Electors by appearing zealous for theirs (which we would truſt and hope is the Caſe) yet we may continue to differ in Sentiments from them on the Neceſſity of the deſired Aſſiſtance,*

REPORT on the PROPRIETARIES *Anſwer*, &c.

In Obedience to the Order of the Houſe, your Committee have conſidered the Repreſentation *made by a former Aſſembly to the Proprietaries concerning* Indian *Affairs, with their* Anſwer *delivered to this Houſe; and ſince all further Application to the Proprietaries on the Subject of that Repreſentation is now forbidden, and they ſeem to require that their Anſwer ſhould be put on the Minutes of Aſſembly, we are of Opinion that the Repreſentation not hitherto made public ſhould accompany it, with ſuch of the following Remarks made on each Paragraph of the ſaid Anſwer as the Houſe ſhall think proper.*

1. ON the firſt Paragraph of the Anſwer, we ſhall juſt obſerve, that the Declaration it contains is a noble One, and worthy of the Rank our Proprietaries hold among us; we only wiſh that in the preſent Caſe they had thought fit to give a Proof of the Sincerity with which it is made, ſuch as would have been ſatisfactory to others, ſince our Aſſemblies are eſteemed intereſted Judges.

2. The Inſinuation in the ſecond Paragraph, as if the Aſſembly were actuated by any Inclination to oppoſe the Proprietary Intereſt, we look upon to be injurious; and as groundleſs as the other Suppoſition, that the Members might have in View their future Election, of which we ſhall take farther Notice when we come to the ſixth Paragraph, where it is again repeated. No Inſtance can be given of that Aſſembly's oppoſing, or attempting to oppoſe, the Proprietary Intereſt.

1754. December 31.

Assistance, without being liable to any Imputation of neglecting the Interest of the Province in the Opinion of the World.

Interest. It rather appears that they thought they were consulting those Interests *in the very Point in Question*, if it be consistent with the Proprietary Interest to have a good Understanding with the People; since the Representation expressly proposed a Method of preventing Misunderstandings for the future.

3. *After we had ordered our Governor to give you the Answer, which he did, to your former Application, we had no Reason to expect a Repetition of the Application directly to ourselves; as you might well suppose we had considered the Matter before we had returned our first Answer, and the Repeating the Requeſt could only produce the Repeating the Answer; the Occasion for which does not appear to us. It is possible, that one Purpose may be, in order to shew, more publicly, this Difference in Opinion between us and yourselves; and if that was ever intended, it will be convenient that we should set this Matter in a clear Light, (although it may make our Answer longer than we could wish) that the true State of the Matter may appear.*

3. In the third Paragraph the Representation is treated as a mere Repetition of a former Application, and therefore improper, as "re-"peating the Requeſt could only produce the "Repeating the Answer:" But the Representation appears to your Committee to contain, not only a Repetition of the Requeſt, but new Reasons in Support of it, and Answers to such as had been given for refusing it. And such a Repetition of an Application we think justifiable in all Cases; except where we can be sure that the first Thoughts of the Persons applied to, are infallibly right; or if wrong, that they are incapable of hearing Reason.

4. *We did not speak our own Sentiments only when we before said, we were under no greater Obligation to contribute to the public Charges than any Chief Governor of another Colony: That was the Opinion of the Lords of Trade, when, upon an Application made to the King, by many considerable Inhabitants of the Province, that he would be pleased to give some Orders for their Defence; the Counsel, employed by the Agent of the House of Representatives, insisted, that, if any such Preparations were necessary, the Proprietaries ought to be at the Expence of them: But their Lordships declared it their Opinion, that we were not obliged to be at any Expence of that Nature, more than any other Governor in Chief of the King's Colonies.*

4. With Regard to the Opinion said to be declared by the Lords of Trade, "that our "Proprietaries were no more obliged to con-"tribute to Public Charges than any other Go-"vernor in Chief of the King's Colonies;" your Committee presume to suppose their Lordships could only mean, that as Governor in Chief the Proprietaries were not obliged *by Law*; and not, that as Proprietaries they were not obliged *in Equity*. The latter is the Point at present in Dispute between the Proprietaries and People of *Pennsylvania*, though in this Paragraph evaded. The Assembly mention no other Obligation but such as in their Opinion arises from Reason and Justice; they humbly submit their Reasons to the Proprietaries Consideration, and from their Equity only, they hope a Compliance with the Requeſt. The Position understood as the Proprietaries would understand it, must as well hold good among the *Governed* as the *Governors* of the Colonies; for should the wealthiest Inhabitant say, he ought to pay no more towards public Charges than any other Inhabitant, he would be right, considering him merely as an Inhabitant; but as a Possessor of Property, he would be wrong; and therefore Laws are made, obliging such as would not otherwise be just, to pay in Proportion to their Substance.

5. *We are sensible that our honoured Father in the first Settlement of the Province, and at all Times after, was strictly careful to do Justice to the* Indians, *and purchased Land from them before it was settled; but, we believe, always at his own Charge; at least we do not find a single Instance of a Purchase having been made at the Expence of the People. So that what Share they had in such Purchases, we are at a Loss to know, other than the Benefits and Conveniences which arose from the mutual Exchange of friendly Offices with the Natives.*

5. The fifth Paragraph seems intended to combat an Assertion that the Purchases from the *Indians* were made with the People's Money. As we find no such Assertion in the Representation, we do not think it necessary at present to enquire how far, or in what Instances, the People have had a Share directly or indirectly in any such Purchases. The Representation only intimates, that the House conceived, Treaties for the Purchase of Land were made on more reasonable Terms to the Proprietaries for the Provincial Presents accompanying such Treaties: And that this was an additional Reason why the Proprietaries should bear a proportionable Part, at least, of the Expence of such Presents; since, besides their Share of "the common Benefits and "Conveniencies, which arise from the mutual Exchange of Friendly Offices with the *Indians*," they reap a particular Advantage to themselves, and that a very considerable One. This Reason we apprehend is not answered in the present Paragraph; it is only evaded, by changing the State of the Question. A Subtlety, in our Opinion, unworthy the Dignity of the Proprietaries and Chief Governors of a Province.

6. *Had the necessary public Charges amounted to more than the Revenue of the Province, and a general Tax been laid on the People to defray the same, there might then have been some Colour to desire that we should contribute; but as no such Tax has, for very many Years been, or need to be laid, and the Charge of Government amounts to little more than the one Half of the common and ordinary Revenue, the pressing thus unseasonbaly for our Contribution, appears, we conceive, as an Attempt to induce*

6. On the sixth Paragraph we would observe, that the Requeſt to the Proprietaries, that they would be pleased *to bear a Part* of *Indian* Expences, was founded on the supposed Equity of the Case; and that they would consent to *settle the Proportion* to be paid by them, was proposed as a Means of preventing Dissatisfactions between them and the People. To these Points, this Paragraph only answers, that the People *are able enough* to pay these Expences without the

Assistance

1754. December 31.

duce the weakeſt of the People to imagine yourſelves to have an uncommon Regard to their Intereſts, and to be therefore the moſt proper Perſons to be continued as their Repreſentatives; and the Matters which might the rather induce us ſo to think, are the ſole mn Repetition of this Requeſt, and treating it as if it was a Matter of great Value and Conſequence; the Time of making your laſt Repreſentation, juſt before an Election; and the printing the Report, and moſt extraordinary Reſolutions, which were the Foundation of ſuch your Repreſentation, in your Votes, long before your Addreſs could, by any Poſſibility, come to our Hands; which are ſuch Matters as could not eſcape our Obſervation, and which would almoſt perſuade us, that is was intended as an Addreſs to the People, rather than to us.

Aſſiſtance of the Proprietaries. This likewiſe ſeems to be ſtarting a new Queſtion, and one that is beſide the preſent Purpoſe: For though it were true that the People are *able to pay*, it does not follow that they ſhould therefore *pay unjuſtly*, nor is it likely that they will be *pleaſed* and *ſatisfied* with ſo doing, for ſuch a Reaſon. The Proprietaries are likewiſe *able to pay*, they have Revenue enough, but they do not think this a ſufficient Reaſon even to *pay a Part*, why then ſhould it be thought ſufficient to induce us to *pay the Whole?* The Charge contained in this Paragraph, "that the Application was only an "Attempt to induce the weakeſt of the People "to imagine the Houſe had an uncommon Re-"gard to their Intereſts, and were therefore the "moſt proper Perſons to be continued their Repreſentatives at the enſuing Election;" your Committee think an abſolute Miſtake, and unſupported by the leaſt Degree of Probability. For there had not been for ſome Years, nor was there expected to be, nor has there ſince been, any Conteſt at Elections between the Proprietary and popular Intereſts; nor if there had, would it have been neceſſary to take ſuch Meaſures, the Proprietaries having, of late Years, no formidable Share of the People's Love and Eſteem. Nor was the ſuppoſed Addreſs in Fact made to the People; for the Repreſentation has never yet been publiſhed; nor were the Votes containing thoſe Reſolutions publiſhed till after the Election was over. Nor is the Situation of an Aſſembly-man here ſo advantageous, as to make it worth his while to uſe Artifice for procuring a Re-election; for when the Smallneſs of the Allowance, the Expence of Living, the Time he is abſent from his own Affairs, and other Inconveniences, are conſidered, none will ſuppoſe he can be a Gainer by ſerving the Public in that Station.

7. *Wherefore, on this Occaſion, it is neceſſary that we ſhould inform the People, through yourſelves, their Repreſentatives, that as, by the Conſtitution, our Conſent is neceſſary to their Laws, at the ſame Time that they have an undoubted Right to ſuch as are neceſſary for the Defence and real Service of the Country; ſo it will tend the better to facilitate the ſeveral Matters which muſt be tranſacted with us, for their Repreſentatives to ſhew a Regard to us and our Intereſt: For, conſidering the Rank which the Crown has been pleaſed to give us in* Pennſylvania, *we ſhall expect from the People's Repreſentatives, on all Occaſions, a Treatment ſuitable thereto; and that, whilſt we deſire to govern the Province according to Law only, they ſhould be as careful to ſupport our Intereſts, as we ſhall always be to ſupport theirs.*

7. But whether Aſſembly-men may or may not expect any gainful Advantages from that Station, we find our Chief Governors informing us in pretty plain Terms in the ſeventh Paragraph, that they themſelves are not without ſuch Expectations from *theirs*. They tell us, "their "Conſent is *neceſſary* to our Laws, and that it "will tend the better to *facilitate* the Matters "which muſt be tranſacted with them, for the "Repreſentatives to ſhew a Regard to their "INTEREST." That is, as we underſtand it, though the Proprietaries have a Deputy here, ſupported by the Province, who is or ought to be fully impowered to paſs all Laws *neceſſary for the Service of the Country*, yet, before we can obtain ſuch Laws, we muſt *facilitate their Paſſage*, by paying Money for the Proprietaries which they ought to pay, or in ſome other Shape make it their *particular* INTEREST to paſs them. We hope, however, that if this Practice has ever been *begun*, it will never be *continued* in this Province; and that, ſince, as this very Paragraph allows, we have an undoubted Right to ſuch Laws, we ſhall be always able to obtain them from the Goodneſs of our Sovereign, without going to Market for them to a Subject.

Yet however eaſy it may be to underſtand that Part of this Paragraph which relates to the Proprietaries *Intereſt*, your Committee are at a Loſs to conceive why, in the other Part of it, the People are to be acquainted, "that the Crown has been pleaſed to give the Proprietaries a *Rank*, "and that they expect from the Repreſentatives a *Treatment* ſuitable thereto." We cannot find on peruſing the Repreſentation in Queſtion, that it contains any Treatment unſuitable to their Rank. The Reſolve of the Houſe was, that to prevent Diſſatisfactions on all Sides, they ſhould be requeſted, in the moſt *reaſonable* and *moſt reſpectful* Manner, to agree upon a Proportion of *Indian* Charges to be paid by them and the Province according to Juſtice: And it may be ſubmitted to the Judgment of all impartial Perſons, whether the Repreſentation drawn in Purſuance of the Reſolve, was not both *reaſonable* in itſelf, and *reſpectful* in the Manner. It was not, as the Proprietaries repreſent it, an Addreſs to the Public. It is not to this Day made public. It was a private Application to themſelves, tranſmitted to them through the Hands of their Governor. Their *true* INTEREST (which they will always find to conſiſt in juſt, equitable and generous Meaſures, and in ſecuring the Affections of their People) was conſulted in it; and one ſuitable Means propoſed to obtain that End.——As to *Rank*, the Proprietaries may remember, that the Crown has likewiſe been pleaſed to give the Aſſemblies of this Province a Rank; a Rank which they hold, *not by hereditary Deſcent*, but as they are the voluntary Choice of a free People, unbribed, and even unſolicited. But they are ſenſible that *true Reſpect* is not neceſſarily connected with *Rank*, and that it is only from a Courſe of Action ſuitable to that Rank they can hope to obtain it.

8. *We are truly concerned, that you lay us under the Neceſſity of acquainting the Public with the State of the Revenue of the Province; you have, in Part done it already, by acknowledging the Amount of the*

the Excise to be Three Thousand Pounds *a Year. The Interest of the Paper Money, as we conceive, is more than that Sum, which makes the common Revenue of the Province above* Six Thousand Pounds *a Year; the annual Expence of Government for a Series of Years (including* Indian *Charges) amounts to little more than Half that Sum: The Interest is paid by People who, no Doubt, find greater Advantage in the Use of the Money than the Interest they pay for it, otherwise they would not be so solicitous to be admitted to borrow as they always have been. That Interest Money therefore cannot, with any Propriety, be called a Tax laid on the Province, or a Burden on the Inhabitants. The Excise itself is not a general Tax, to which all the Inhabitants must contribute, as it is paid by such only who buy Wine and spirituous Liquors, under certain Quantities; so that many People pay nothing of that Tax. Of all this Revenue, about* Four Hundred Pounds *a Year has, on an Average for Twenty Years past, (and great Part of that Time during War) been expended in Presents to the* Indians, *and Charges on their Account; which we cannot conceive to be a large Sum, in Proportion to the Revenue of the Province, for so great and important a Service as that of keeping the United Nations of* Indians *in the Interest of* Great-Britain: *We believe every disinterested Person will think the Sum very small, and, from the Manner of its being raised, not at all burdensome to the People: Besides which, had not Half that Money been expended on those Accounts, it is most certain all the same Excise would have been paid.*

the Public with the State of the Revenue of the Province: As if the State of that Revenue had ever been a Secret; when it is well known, and the Proprietaries themselves know, that the Public Accounts are yearly settled, stated, printed, and published by the Assembly, and have been so for these Thirty Years past. Whatever private Reasons the Proprietaries may have to make a Secret of their Revenue, we know of none to make one of the Revenue of the Province, nor has it ever been attempted.——Their following Observations, concerning the Nature of our Taxes, and the Distinction between general and particular Taxes, seem to your Committee not so just and accurate as might be expected: For we cannot conceive, that the Willingness of People to subject themselves to the Payment of Interest or Excise, by taking Money on Loan, or consuming spirituous Liquors, makes either the one or the other less a Tax. The Manner of laying a Tax, the easy Method of levying it, and the Benefits arising from the Disposition of it, may all tend to induce People to pay it willingly; yet it is still a Tax. And indeed all Taxes ought, upon the whole, to produce greater Good to a People, than the Money kept in their Pockets could do: In such Case, Taxes are no Burdens; but otherwise they are. Taxes, seemingly particular, are also more general than they are often supposed to be: The labouring Man must live:——Excise the Materials of his Subsistence, and he generally finds Means to get more for his Labour.

After estimating our whole present Revenue, as if it had been the same for Twenty Years past, d would certainly continue, though the Proprietaries know it depends on temporary Acts near piring, the Renewal of which is at best dubious, they conclude that *Four Hundred Pounds* a Year *Indian* Expences is a small Sum, and that we are under no Necessity of being frugal, on this Acunt, of the public Money. This *Four Hundred* a Year is the Sum that they find has been paid an Average for Twenty Years past, and they take no Notice of its being a growing Charge, and t for the Four last Years before the Representation it amounted to near *Twelve Hundred* a Year, ich we conceive *disinterested Persons* will think a very large Sum: And although the same Excise ght have been raised, if not Half that Money had been expended, it does not seem to us to fol, that the Proprietaries ought not to have paid their just Proportion of it. If the Sum be small, ir Proportion of it must have been smaller: And the Money, so saved, might have been applied ome other Use, beneficial to the Public; or have remained ready in the Treasury for any Emercy.

. *The whole Sum paid in Twenty Years for* ian *Services, is not more than, on a common putation, our Family has paid in the same Time Duties and Excises here, for the Support of his esty's Government; and which we chose to men- in Answer to that Part of your Representa- wherein you, unadvisedly, publish to the World, our Estate, in* America, *is exempt from the lens borne by our Fellow Subjects in* Great- in; *such Matter might much more properly been avoided; and at the same Time that we you, that we do pay all other Taxes here, that nd only excepted, we must advise you to be very l, not to put People here in Mind of that single ption. Several Proposals have been made for Taxes on* North-America, *and it is most easy to foresee, that the self-same Act of Parliament that shall em on our, will also lay them on your Estates, and on those of your Constituents.*

9. On the Ninth Paragraph your Committee will only observe, that the People of *Pennsylvania* do likewise pay Duties and Excise for the Support of his Majesty's Government, and other Taxes, which, considering their Ability, are perhaps proportionably equal to those paid by the Proprietary Family, or any other Subjects in *England*. We pay indeed as much as an Infant Colony can well bear, and we hope and believe the Justice of a *British* Parliament will never burden us with more. The Proprietaries Exemption was not published till now at their own Instance. It was made use of as a private Motive to themselves only in the Representation.

. *We cannot allow that you have always paid Interpreter to his Satisfaction, because we know ve charged ourselves with Gratifications to when the Assembly has refused to pay him he thought his Services deserved; and we no Doubt he can remember such Instances: er, with respect to any Expences of that nd many others here, we entered into them any Expectation of being repaid, and should far beneath us to send the Accounts of them House of Representatives, as your Agent,*

10. On Enquiry, we have Reason to believe that the Interpreter's Bills of Charge against the Province, have always been allowed and paid; and where his Accounts have contained blank Articles for his Services, he has been asked what would satisfy him, and the same has been allowed. We suppose the Instances alluded to, wherein the Assembly did not fully satisfy him, must have been such as the Proprietaries were concerned in by the Purchase of Lands, and a Part might accordingly be left for them to pay. — We be-

employed by yourſelves, might do for the Expences incurred by him. What we might reaſonably expect, is, a thankful Acceptance of our Endeavours to ſerve the Public; and if you do not think proper to make even that Return, we ſhall, nevertheleſs, be fully ſatisfied with the Conſciouſneſs of having rendered the Province all the Services in our Power.

11. *We do not conceive that any Act of Aſſembly does, or can eſtabliſh, what you call a Monopoly in us for the Purchaſe of Lands: We derive no Right or Property from any ſuch Law. It is under the King's Royal Charter that we have the ſole Right to make ſuch Purchaſes; and it is under that ſame Charter that every Settler has a Right, through us, to the Eſtate he poſſeſſes in the Province. The Act itſelf, which you ſeem to allude to, acknowledges this Right to be ſo granted to us by the Charter, and is only declaratory thereof to the People, advertiſing them of a certain Truth, that they are liable, according to the Laws of* Great-Britain, *to Penalties for contravening ſuch Right.*

12. *Your Aſſertion that Treaties for Land are made at a leſs Expence to us, on Account of Provincial Preſents being given at the ſame Time, does not appear to us to be founded on Fact: The laſt Purchaſe was made on no other Account, but purely to ſave the Province the Expence of making another Preſent to ſome* Indians *who came down after the Time that the principal Deputation had received the Preſents intended for the Whole, and were on their Return back; and the Land was bought very dear on that Account. Other Treaties for Land have been made when Provincial Preſents have not been given; and we do not, or ever did, deſire, that the Inhabitants ſhould bear any Part of the Expence of* Indians *who come down ſolely at our Requeſt to conſent to the Sale of Lands, unleſs they ſtay on other public Buſineſs alſo; and whenever they have come down on both Accounts, we are ſenſible the Expence has beeen divided in a Manner very favourable to the Public.*

13. *We are far from deſiring to avoid contributing to any public Expence which it is reaſonable we ſhould bear a Part of, although our Eſtate is not, by Law, liable to be taxed. As we already have been, ſo we doubt not we always ſhall be, at a far greater Expence in attending the Affairs of the Province, than our Eſtate could be taxed at, if all the Eſtates in the Province were rated to the Public Charges, which would be the only fair Way of eſtabliſhing a Proportion. If we were willing to conſent to any ſuch Matter, the Value of our Eſtate, and of the Eſtates of all the Inhabitants, ought to be conſidered, and the whole Expence proportionably laid upon the whole Value; in which Caſe, you would find, that the Expence which we voluntarily ſubmit to, out of Affection to the Inhabitants, is much more than ſuch our Proportion ſo laid would amount to: Beſides theſe general Expences, the Firſt of us ſent Cannon, at his own Charge, to the Amount of above* Four Hundred Pounds Sterling, *for the Defence of our City of* Philadelphia, *neglected by a late Houſe of Repreſentatives; which, alone, is ſuch a Sum as the Proportion of a Tax on our Eſtate would not in many Years amount to. And, as this is the Caſe, we are not diſpoſed to enter into any Agreement with the Houſe of Repreſentatives for Payment of any particular Proportion of* Indian *or other public Expences, but ſhall leave it to them (to whom it of Right belongs) to provide for ſuch Expences, as they ſhall judge neceſſary for the Public Service.*

lieve our Aſſemblies always have been, and we hope always will be, ready to acknowledge gratefully any Services rendered to the Public by the Proprietaries; and not merely to acknowledge them, but to make adequate Returns.

11. Whether the Monopoly of Lands, in Favour of the Proprietary, was eſtabliſhed by the Royal Grant, or by Acts of Aſſembly, or by both, your Committee do not think it material at this Time to diſpute, ſince the Reaſoning in the Repreſentation remains the ſame, *viz.* That thoſe in whoſe Favour ſuch Monopoly was erected, ought at leaſt to bear a Part of the Expence neceſſary to ſecure them the full Benefit of it.

12. In the Twelfth Paragraph, three Things appear ſomewhat extraordinary to your Committee. 1. That the Proprietaries ſhould deny that Treaties for Land are made at leſs Expence an Account of Provincial Preſents accompanying them; which we think any diſintereſted Judge would at leaſt allow to be probable. 2. That they ſhould ſay the laſt Purchaſe was made on *no other Account*, but *purely* to ſave the Province the Expence of a Preſent; as if they had no Occaſion to purchaſe more Land of the *Indians*, or found no Advantage in it. 3. That to prove ſuch Purchaſes were not the cheaper on Account of Provincial Preſents accompanying them, they ſhould give an Inſtance in which, they themſelves ſay, the Purchaſe was the dearer for want of ſuch Preſents. If Purchaſes are dearer to the Proprietaries when no Provincial Preſents accompany them, does not this clearly confirm the Aſſertion of the Aſſembly, that they are the cheaper when there are ſuch Preſents? And does it not prove what the Proprietaries deny?

13. It appears by their Thirteenth Paragraph that the Proprietaries think the Part they voluntarily ſubmit to bear, and expect always to bear, of public Expences, is greater than their Proportion, equitably laid, would amount to. If this be ſo, and they are, as they ſay, "far from deſiring "to avoid contributing to any public Expence "which it is *reaſonable* they ſhould bear a Part "of, although their Eſtate is not by Law liable "to be taxed;" your Committee are at a Loſs to conceive, why they ſhould refuſe, "to enter "into any Agreement for the Payment of any "particular Proportion of *Indian* or other public "Expences," when ſuch Agreement might ſave them Money, and is propoſed to prevent Diſſatisfactions, and to preſerve Union and Harmony between them and the People; unleſs it be to ſhew their utter Contempt of ſuch Union and Harmony, and how much they are above valuing the People's Regard.

The Charge on former Aſſemblies, that they neglected the Defence of *the Proprietaries City*, your Committee cannot but think unkind, when it is known to the World, that they gave many *Thouſand Pounds* during the War to the King's Uſe, beſides paying near *Three Thouſand Pounds* at one Time, to make good the Damages done to the Maſters of Servants, by the irregular and oppreſſive Proceedings of the Proprietaries Lieutenant; and that their not providing Cannon to defend the City, was not from Neglect, but other Conſiderations ſet forth at large in the printed Proceedings of thoſe Times, needleſs now to

1754. December 31.

to be repeated. At the same Time it may be remembered, that though the Defence of the Proprietaries City, as they are pleased to term it, by Batteries of Cannon, was more their Interest (we will not say Duty) than any other Persons whatsoever, and they now represent it as a Thing so necessary; yet they themselves really neglected, and even discouraged, it; while some private Gentlemen gave Sums nearly equal to that they mention, and many contributed vastly more, considering their Circumstances, by which Means those Batteries were not only compleated in Season, but the Defence of both Town and Country in that Way provided for; whereas this boasted Assistance of *Four Hundred Pounds* worth of Cannon, was sent like *Venetian* Succours, after the Wars were over. Yet we doubt not, but the Proprietary who sent them has long since had the Thanks of those who received them, though we cannot learn that they ever were favoured with any from him, for what they did and expended in Defence of his Share of the Province Property.

14. *As you desire to appear willing, on your Parts, to ease your Constituents of a small Part of the* Indian *Expence, by throwing it upon us, we shall, on our Part, and hereby do, recommend it to you, to give them a real and far greater Relief, by taking off a large Share of that only Tax which is borne by them. As the general Expence amounts to little more than* Three Thousand Pounds *a Year, we conceive it may very well be provided for out of the Interest of the Paper Money, and one Half of the present Excise; especially if we shall be induced, from the State of your Trade (which we expect soon to receive) to consent to an Encrease of your Paper Currency. This would ease the Inhabitants of about* Fifteen Hundred Pounds *a Year, which would be felt by many of them, when they would not be sensible of the Trifle you propose we should contribute to the Public Expences. We have directed the Governor to consent to such a Law when you shall think fit to present it to him.*

15. *As we shall ever in the first Place endeavour to promote the real Interests of the good People of* Pennsylvania, *we make no Doubt of preserving an Union and Harmony between us and them, unless Men of warm or uneasy Spirits should unhappily procure themselves to be elected for Representatives, and should, for the Supporting of their own private Views, or Interests, influence their Brethren, otherwise honest and well-designing, to espouse their Cause; in such Case, indeed, Disputes may arise, wherein we shall engage with the utmost Reluctance; but even then, as we shall make the general Good the Rule of our Actions, we shall, on all such Occasions, if ever they should happen, steadily, and without wavering, pursue Measures the most likely to conduce to that good End.*

16. *The Representatives being annually chosen, we are aware that we are not writing now to the same Persons who sent the Representation to us; the Persons most forward to push on a Measure (which, from the Answer, we directed our* Governor *to give to the former Application he was desired to make to us, must be supposed disagreeable) may not now be in the House, but may be succeeded by more prudent Persons, returned for their* Places, *who would be careful not to press a Matter too far, in which the Rights of the People are not really concerned: However, the Answer we give must be to the Representation sent us. And we desire, in any Matter of the like Nature, that the House will be satisfied with such an Answer as the Governor may have Orders to give on our Behalf.*

THOMAS PENN,
RICHARD PENN."

14. The Fourteenth Paragraph of the Proprietaries Answer seems calculated merely for the same Design with which they charge the Representation, *viz.* to amuse the weaker Part of the People.——If they are really disposed to favour the Drinkers of spirituous Liquors, they may do it without a Law, by instructing their Lieutenants to abate Half the Licence Fees, which would enable the Retailers to sell proportionably cheaper; or to refuse Licences to more than Half the present Number of Public Houses, which might prevent the Ruin of many Families, and the great Increase of Idleness, Drunkenness and other Immoralities among us.

15. In Return to the good Resolutions expressed by the Proprietaries in their fifteenth Section, your Committee hope that future, as well as past Assemblies, will likewise endeavour to make the Public Good the Rule of their Actions, and upon all Occasions consult the *true* Interest and Honour of the Proprietary Family, whatever may be the Sentiments or Conduct of any of its particular Branches. To this End, we think the honest and free Remarks contained in this Report, may be more conducive than a Thousand flattering Addresses. And we hope, that when the Proprietaries shall think fit to reconsider this Matter, they will be persuaded, that agreeing to an equitable Proportion of Expence will be a good Means of taking away one Handle of Dissention from "Men of warm uneasy Spirits, if such "should ever unhappily procure themselves to "be elected."

16. Yet if the Proprietaries are really desirous of preserving an Union and Harmony between themselves and this People, we cannot but be surprized at their last Paragraph, whereby they endeavour to cut off the Assemblies Access to them, in Cases where the Answer received from their Deputies, may not be thought agreeable to the Public Good. No King of *England*, as we can remember, has ever taken on himself such State, as to refuse personal Applications from the meanest of his Subjects, where the Redress of a Grievance could not be obtained of his Officers. Even Sultans, Sophys, and other Eastern absolute Monarchs, will, it is said, sometimes sit whole Days to hear the Complaints and Petitions of their very Slaves; and are the Proprietaries of *Pennsylvania* become too great to be addressed by the Representatives of the Freemen of their Province? If they must not be reasoned with, because they have *given* Instructions, nor their Deputy because he has *received* them; our Meetings and Deliberations are henceforth useless; we have only to know their Will, and to obey.

To conclude: If this Province must be at more than *Two Thousand Pounds* a Year Expence, to support a Proprietary's Deputy, who shall not be at Liberty to use his own Judgment in passing Laws [as is intimated to us in the fourteenth Section of the Answer we have been considering] but the Assent must be obtained from Chief Governors, at Three Thousand Miles Distance, often ignorant or misinformed in our Affairs, and who will not be applied to or reasoned with when they have given Instructions, we cannot but esteem those Colonies that are under the immediate Care of the Crown in a much more eligible Situation: And our sincere Regard for the Memory of our first Proprietary, must make us apprehend for his Children, that if they follow the Advice of *Re-*

Reſolved, N. C. D. That it is the Opinion of this Houſe, that the late Governor, who was, we preſume, as much bound by the additional Inſtruction to Colonel *Thomas* in 1740, as our preſent Governor is or can be, has clearly admitted, in his Reaſonings with our laſt Aſſembly, "that it was an Abſurdity too glaring, to ſuppoſe that any Go-"vernment would voluntarily tie up the Hands of its Subjects from ſerving it, by ſuch "Means as they are able, in Caſes of great Emergency;" and that Colonel *Thomas*, in paſſing the Act for granting *Five Thouſand Pounds* to the King's Uſe in the Year 1746, by extending the Exciſe Act for Ten Years, was ſo far from acting contrary to the Inſtruction he had received from the Lords Juſtices in 1740, that "the very contrary was evi-"dent;" and that the ſaid Inſtruction was not binding upon him from paſſing a Bill, in Caſes of great Emergency, of the ſame Tenor with our Bill for granting *Twenty Thouſand Pounds* for the King's Uſe, which our Governor has now been pleaſed to refuſe his Aſſent to.

Reſolved. N, C. D. That it is the Opinion of this Houſe, that the Governor is undoubtedly bound by Proprietary Inſtructions; and that they may be, and we believe they really are, or ſome of them are, ſuch as, independent of the Royal Inſtruction, limit or reſtrain him from paſſing Acts, which by the Royal and Provincial Charters, we have an undoubted Right to offer, and by which he has, or ought to have, full Powers to give his Aſſent to, as Governor of this Province.

Reſolved, N. C. D. That it is the Opinion of this Houſe, that theſe Proprietary Inſtructions, or ſome one or more of them, is, or are, the principal, if not the ſole, Obſtruction to the Paſſing our Bill for granting *Twenty Thouſand Pounds* for the King's Uſe, in this Time of imminent Danger to the *Britiſh* Intereſt in *North-America*.

January 3. The Anſwer to the Governor's two laſt Meſſages being tranſcribed, was again read and is as follows, *viz.*

May it pleaſe the GOVERNOR,

Aſſembly's Anſwer to the Governor's two laſt Meſſages.

WHEN we review the Conduct of our Predeceſſors in the ſame important Stations we have now the Honour to bear, and their repeated Struggles for continuing to us the invaluable Bleſſings we enjoy under our Charters; when we conſider their conſtant Acknowledgments of the Royal Clemency and Goodneſs in granting them to us; their Gratitude to our worthy Founder and Proprietary for confirming thoſe Privileges, and the

the Succeſs which has attended their honeſt Endeavours; it animates us, under our moſt gracious King, of whoſe paternal Regard and Tenderneſs over us we have now the moſt engaging Inſtances, to purſue faithfully the Path they have trod before us, in which we hope, and have no Reaſon to doubt, the Iſſue of ſo juſt a Cauſe, whenever it ſhall come before his Majeſty, or be made the Subject of a Parliamentary Enquiry. And the Governor ſurely will likewiſe conſider how he may ſtand acquitted under ſuch Enquiries, when the Reaſon of his preſent Conduct ſhall be examined into before ſuch impartial Judges. 1755. *January* 3.

Upon conſidering the Governor's Promiſe, that he would lay before us his Proprietary Inſtructions, ſo far as they regarded our Bill for granting *Twenty Thouſand Pounds* for the King's Uſe, "whenever the Public Service ſhould require it;" and yet on our Addreſs, which we apprehend we have an undoubted Right to, that he would now lay them before us, "as a Time when the Public Service requires it in a particular Manner," his abſolute Refuſal of granting this our reaſonable Requeſt; and likewiſe upon re-conſidering the Repreſentation of the Aſſembly to our Proprietaries in 1751, and their Anſwer, together with the other Minutes and Papers relating thereto, as well as the ſeveral Arguments of the laſt Aſſembly with our late Governor, when a Bill of the ſame Tenor of our preſent Bill lay before him, we have come to the following unanimous Reſolutions, *viz.*

That it is the Opinion of this Houſe, that the late Governor, who was, we preſume, as much bound by the additional Inſtruction to Colonel *Thomas*, in 1740, as our preſent Governor is or can be, has clearly admitted, in his Reaſonings with our laſt Aſſembly, "that it was an Abſurdity too glaring, to ſuppoſe that any Government would voluntarily tie up the Hands of its Subjects from ſerving it by ſuch Means as they are able in Caſes of great Emergency;" and that Colonel *Thomas*, in paſſing the Act for granting *Five Thouſand Pounds* for the King's Uſe, in the Year 1746, by extending the Exciſe Act for Ten Years, was ſo far from acting contrary to the Inſtruction he had received from the Lords Juſtices in 1740, that "the very contrary was evident;" and that the ſaid Inſtruction was not binding upon him from paſſing a Bill in Caſes of great Emergency, of the ſame Tenor with our Bill for granting *Twenty Thouſand Pounds* for the King's Uſe, which our Governor has now been pleaſed to refuſe his Aſſent to.

That it is the Opinion of this Houſe, that the Governor is undoubtedly bound by Proprietary Inſtructions; and that they may be, and we believe they really are, or ſome of them are, ſuch as independant of the Royal Inſtruction, limit or reſtrain him from paſſing Acts, which, by the Royal and Provincial Charters, we have an undoubted Right to offer, and by which he has, or ought to have, full Powers to give his Aſſent to, as Governor of this Province.

That it is the Opinion of this Houſe, that theſe Proprietary Inſtructions, or ſome one or more of them, is, or are, the principal, if not the ſole Obſtruction to the Paſſing our Bill for granting *Twenty Thouſand Pounds* for the King's Uſe, in this Time of imminent Danger to the *Britiſh* Intereſt in *North-America*.

May it pleaſe the Governor,

Theſe Reſolutions, which are forced from us, we have entered into with the utmoſt Reluctancy; and in Support of them, or any other Part of our preſent Conduct, we conceive it our indiſpenſible Duty to conduct ourſelves preciſely within the Bounds of Sincerity and ſober Reaſon, and to avoid every Thing that is not in our Opinion neceſſary to our own juſt Vindication.

As the Subſtance of theſe Reſolves has already been laid before the Governor, it has been in his Power to exonerate thoſe Proprietary Inſtructions from any Miſapprehenſion of ours, and it is in his Power ſtill to do it, by laying them before us, as our former Governors have done in like Caſes; and whenever he ſhall be pleaſed to do ſo, it will give us great Pleaſure to retract the Whole, or any Part of thoſe Reſolves. But till then, we preſume the Governor muſt allow we have good Reaſon to ſay, that we are under a Neceſſity of making our humble Application to the Crown in Support of our Civil and Religious Liberties. For if ſuch Proprietary Inſtructions had not interfered, it was moſt natural, and would have been moſt agreeable to us, and accordingly, if the Caſe could admit it, we ſhould have requeſted the Governor's Aſſiſtance and Concurrence in an Addreſs to our Proprietaries, in Support of our Charter, as it regarded the Royal Inſtructions only. But under our preſent Circumſtances we apprehend theſe Proprietary Inſtructions are the principal, if not the ſole Reaſon that hinders the Paſſing our Bill, by which we were in Hopes of demonſtrating our Readineſs and Chearfulneſs in anſwering all the reaſonable Expectations of the Crown from his moſt loving and loyal Subjects of this Province. And therefore it is with extreme Concern we find our Governor, who is, or ought to be, ſet over us for our Protection, endeavouring to repreſent us in his Meſſage, of the Thirtieth of *December* laſt, in a Light we deteſt and abhor.

The Governor is but in the Beginning of his Adminiſtration, and if, when he received

1755. *January* 3. the Proprietaries Commiſſion, he was, "in a great Meaſure, a Stranger to our Conſtitu-"tion," we apprehend he ſtill continues a Stranger not only to our Conſtitution, but to the Inhabitants, if he does not certainly know, that the King has not a more loyal People among all his Subjects, than the Inhabitants are, and have ever been ſince the firſt Settlement of this Province; nevertheleſs, they are convinced they ought not to be governed by Proprietary Inſtructions in Oppoſition to their Charter, which is, in our Opinion, the Foundation and Sanction of our Civil and Religious Liberties; and eſpecially if theſe Inſtructions muſt be ſecreted from them, and by that Means the whole Country left without any known Rule of their Conduct. And it ſurprizes us extremely, that a Requeſt of this Houſe, reſpectfully addreſſed to the Governor, that he would be pleaſed to lay before us thoſe Inſtructions, or ſuch Part of them as might relate to the immediate Service of the Crown, and to the Preſervation of this his Majeſty's Colony, in in order that we might examine how far they interfered with that Allegiance the Proprietaries themſelves, and all of us, owe to the Crown, or with the Privileges granted by our Charters, ſhould be repreſented by our Governor as an Act that might have a Tendency to alienate the Affections of the People of this Province from his Majeſty's Perſon and Government, and thereby greatly obſtruct the Meaſures he is taking, at a vaſt Expence, for the Preſervation and Protection of his Subjects upon this Continent." That thus contending for the Rights granted us by the Royal Charter, which is the known Rule of our Conduct, ſhould have a Tendency of that Kind, under a King, who has been graciouſly pleaſed to declare, "That nothing in this World can give him ſo much Pleaſure as to ſee his Subjects a flouriſhing and happy People," is ſo foreign from our Thoughts, and we truſt will be ſo foreign to every impartial Conſtruction, that we may ſafely leave it without any further Remarks of our own. But if it ſhould have a Tendency to alienate the Affections of the People from being bound by private Proprietary Inſtructions, the Blame is not with us, who have never been conſulted upon them; and if we had been conſulted, ſhould have thought ourſelves obliged to declare, that we have a great Diſlike to Proprietary Inſtructions, and that ſo far as they are againſt the Prerogatives of the Crown, or an Infringement of our Charter, they are illegal, and "void in themſelves."

That "all Governors have conſtantly had Proprietary Inſtructions, from the firſt Settlement of this Province," we neither know, nor do we think it much concerns us, provided they relate to the Proprietary Property only: But this we do know, that occaſionally as they have interfered with the Paſſing of Acts, they have been repeatedly and unanimouſly reſolved by the Council and Repreſentatives of this Province "void in "themſelves," and "an Infringment upon the Privileges granted by Charter to the People of this Province." And our former Governor has declared, upon the Journals of our Houſe, and in a Letter to the Proprietary Family themſelves:

1. That ſome of the Inſtructions given to him conclude abſurdly, and therefore are impracticable.
2. That they are a poſitive Breach of the Charter of Privileges to the People. And,
3. That they are inconſiſtent with the legal Prerogative of the Crown ſettled by Act of Parliament.

And yet if ſuch Inſtructions as theſe muſt be binding in ſo high a Degree, as they appear to have been upon Colonel *Thomas*, when, in Support of his eighth Inſtruction laid before the Aſſembly in 1738, he declared, "that his Hands were tied up by that "Inſtruction, and no Conſideration in Life ſhould induce him to break it;" what muſt become of the Royal Prerogative, or the Rights of the People?

The Governor is pleaſed to ſay, "It is certainly true, that he has Proprietary In-"ſtructions, as he is informed all Governors, from the firſt Settlement of the Province, "have conſtantly had." Yet as Sir *William Keith* informs us, "that he was obliged, "in the Penalty of *One Thouſand Pounds Sterling*, for Reaſons beſt known to thoſe who "took ſuch Precautions as were never uſed before;" we may preſume, whatever Inſtructions had been given to former Governors, he was the Firſt who entered into penal Bonds for the true Performance of them. Here we think we may ſafely leave the Conſideration of Proprietary Inſtructions for the preſent, and we hope what we have ſaid on this Head will anſwer all the Objections ariſing from the Royal Inſtruction to Colonel *Thomas*, until the Governor may be pleaſed to convince us, that the Proprietary Inſtructions are not the principal or ſole Obſtruction to the Paſſing of our Bill.

In Anſwer to that Part of the Proprietary Inſtructions, the Governor has ſo chearfully laid before us, which we acknowledge to be an Act of Juſtice, for which we return him our Thanks, we beg Leave to ſay, that as it requires Money to be levied upon the People for providing Arms and Stores of War, and building Magazines, we are of Opinion it may be Time enough to deliberate upon it, when we are informed how far he is at Liberty by his Inſtructions to paſs our Bills; and whether himſelf, or the Repreſentatives of the People, are the proper Judges of the Manner of raiſing ſuch Monies. And when theſe our Civil and Religious Rights are ſecured, we cannot doubt all will riſe up as One

Man

Man in Behalf of our King, our Country and our Charters, according to our ſeveral Stations and Abilities. 1755. *January* 3.

We are really at a Loſs what to think of the Governor's Computation, either of our annual Revenues, or the Money due to the Province, which he is pleaſed to ſay, is between *Fourteen* and *Fifteen Thouſand Pounds*, beſides an Income of *Seven Thouſand Pounds per Annum*. This appears ſo extremely inaccurate, that we cannot imagine how that Computation ſhould ariſe; for on a bare Inſpection of our laſt Year's Accounts, there remained then outſtanding, on all the Mortgages, no more than *Eight Thouſand Four Hundred Sixty Pounds*, *Twelve Shillings* and *Three-pence*, and a Balance in the Truſtees Hands of *One Thouſand Two Hundred Fifty-five Pounds*, *Three Shillings* and *Five-pence*; and in the Hands of the Provincial Treaſurer, *Four Hundred Sixty-two Pounds*, *Ten Shillings* and *Ten-pence Three Farthings*; in the whole, *Ten Thouſand One Hundred Seventy-eight Pounds Six Shillings* and *Six-pence Three Farthings:* Out of which Sum, one Year's Intereſt ought to be deducted by the legal Allowance, which reduces the Whole to about *Seven Thouſand Pounds*, at that Settlement. Since which, it cannot be unknown to the Governor, what very large Sums we have paid for the Support of Government, and for *Indian* and other Expences, by which Means, our Treaſury and Loan-Office are almoſt quite exhauſted. But admitting the Governor's Computation in all its Extent, if *Twenty Thouſand Pounds*, as he is pleaſed to inform us, will go but a very little Way to raiſe and maintain ſuch Troops as he may think neceſſary, and without which we had better, in his Opinion, do nothing at all, how can the inconſiderable Sum we have any Power over, anſwer his Demands, though we ſhould ruin the Perſons now outſtanding in our Loan-Office, by the immediate Sale of their Lands? We are unwilling to make any further Remarks on this Head, which has, we find, been heretofore inſiſted upon by our late Governor, but carries with it, as we conceive, ſuch Appearances of Severity, without anſwering any good Purpoſe, that we think it our indiſpenſible Duty to oppoſe it, as far as in Juſtice we may; and now more eſpecially, when we have offered a Bill which would raiſe a generous Sum of Money immediately, for the Uſe of the Crown, in a Manner that would be moſt eaſy and moſt agreeable to us all. Whilſt we are upon this Article, as the Governor muſt be in a great Meaſure a Stranger to our Accounts, we take the Liberty to remark, that the Proprietary Patents make, as we are informed by the Truſtees, near one Half of the Mortgages now outſtanding. Theſe, after paying for their Lands out of the Money borrowed from the Province, are to improve them with the Remainder, if any; and as they muſt have Shelter for themſelves at leaſt, however mean, and ſome Land cleared for their Subſiſtence, it neceſſarily puts them in Arrears, let them be ever ſo honeſt and induſtrious; whilſt the Purchaſes of ſuch their Lands are conſtantly complied with on granting the Patents, the Bulk of which, we preſume, may have been remitted to *Great-Britain*, and makes a very ſenſible Diminution of the Silver and Gold current among us: So that all Ranks of People, however flouriſhing the Governor may be pleaſed to repreſent us, complain juſtly for Want of a due Medium to carry on our Trade: But as this Enquiry is not immediately before us, we ſhall at preſent leave it, and proceed to inform the Governor yet farther, that his Computation of our annual Income is alſo too high; for as our Exciſe, *communibus Annis*, yields about *Three Thouſand Pounds* (out of which *Five Hundred Pounds* is yearly applied towards ſinking the Sum of *Five Thouſand Pounds*, heretofore granted to the King's Uſe) the Intereſt payable into the Loan-Office is much about the ſame Sum: And his Error in the laſt Article, we preſume, might ariſe upon a Suppoſal that our whole Principal Sum of *Eighty Thouſand Pounds* was always yielding an Intereſt; but this has ever been found impracticable, as conſiderable Sums muſt be continually changing Hands, by Virtue of our re-emitting Acts. Beſides which, the Province has, out of that Principal Sum, lent conſiderable Parts of it, without yielding any Intereſt at all; and particularly a Debt from the City of *Philadelphia*, ſtill due upon the firſt and ſecond *Thirty Thouſand Pounds* Acts, long ſince expired. And until that is in our Hands, it would be unjuſt to compute an Intereſt ariſing from it, or upbraid us with it, as Money which ought to have been in our Hands by Law, whilſt ſome may think we have no Power to ſue for it by the Laws in being.

The Governor is pleaſed to ſay, "that he cannot conſent to paſs our Bill for granting *Twenty Thouſand Pounds* for the King's Uſe, it being a direct Breach of a Royal Inſtruction, intended to enforce an Act of Parliament of the Sixth of Queen ANNE, which we know has been ſhamefully ſlighted and diſregarded in this and the neighbouring Provinces."——The neighbouring Provinces muſt anſwer for themſelves; but ſo far as regards this Colony, we find, by the Votes of the Houſe, that whilſt Colonel *Thomas* had the Act before him, for emitting and re-emitting *Eighty Thouſand Pounds*, this very Act of the Sixth of Queen ANNE was conſidered, debated, and ſo fully explained, that although Exchange was then higher than at this Time, he (who was undoubtedly under the ſame Oaths and Bonds to obſerve the Acts of Trade with our preſent Governor) after mature Deliberation, gave his Aſſent to that Act on the Nineteenth

of

1755. *January* 3. of *May*, 1739; which, after having been recommended by the Merchants in *England* trading to this Province, as "an Act not only reaſonable, but likewiſe neceſſary for carrying on the Commerce of this Country," the King was pleaſed to confirm it in a full Council on the Twelfth Day of *May* following. What then the Governor does or can mean by ſaying, we know that this Province has ſhamefully ſlighted a Royal Inſtruction, intended to enforce an Act of the Sixth of Queen ANNE, is what we are intirely at a Loſs to imagine; neither can we conceive any good Reaſon, why our Governor ſhould chuſe to call our Bill for granting *Twenty Thouſand Pounds* for the King's Uſe, a Bill for ſtriking *Forty Thouſand Pounds*, without any further Explanation, though that Bill had been repeatedly under his Conſideration. It would be, perhaps, too unkind to ſuppoſe, as the Bill itſelf, and the Contents of it, would in all Probability be unknown to our Superiors, further than the Grant to the Crown, he could have the leaſt Intention to miſrepreſent the Purport of it, and for this Reaſon we leave it entirely to his own Reflection. The Title of that Bill is, *An Act for ſtriking* Forty Thouſand Pounds *in Bills of Credit, and for granting* Twenty Thouſand Pounds *thereof to the King's Uſe, and to provide a Fund for ſinking the ſame; and for applying the Remainder to the Exchange of torn and ragged Bills now current in this Province*; and the Governor well knows, it adds no more to our Paper Currency than the very *Twenty Thouſand Pounds* granted the King, and even that ſtruck for no other Reaſon than to anſwer the immediate Call of the Crown, and to make the Grant effectual.

The Governor has been pleaſed repeatedly to inform us, "That the *French* have al-"ready poſſeſſed themſelves of great Part of this Province, and that we are the very "Province invaded." And yet we find the *French* Forts, and their other Acquiſitions, on the *Ohio*, are conſtantly conſidered, and called in *Great-Britain* an Invaſion upon his Majeſty's Territory of *Virginia*. And we have now before us a Map, which we have good Reaſon to believe was made from Intelligences and Draughts, ſupplied by the Board of Trade, and by our Proprietaries; by which Map it appears that every Fort built by the *French*, either on *Buffalo* River, or on the *Ohio*, are beyond the Weſtern Boundaries of *Pennſylvania*; and we preſume the King may have granted large Tracts of Land to the Eaſtward of the Fort the *French* have built at the Forks of *Mohongahela*: But whether this Map prove true or otherwiſe, or whether our Weſtern Boundaries are rightly adjuſted by it, cannot immediately concern us, till they are undoubtedly aſcertained and agreed to; for till then the Earl of *Holderneſſe*, by his Letter of the Twenty-eighth of *Auguſt*, 1753, to which Sir *Thomas Robinſon's* two Letters expreſsly refer, has ſo minutely ſet down, and ſo carefully guarded the Terms upon which each Colony is to act in Regard to the *French* Encroachments, that we cannot think it would be prudent, or anſwer any good Purpoſe, to contravene them, whilſt the Crowns of *Great-Britain* and *France* continue in Amity with each other; and eſpecially as our King has now graciouſly interpoſed, and is certainly the moſt proper Judge of the Limits of his own Dominions in *America*. And therefore we think the Governor and ourſelves may ſafely leave it under that Direction, without engaging ourſelves in any Diſpute, which can or may ariſe concerning the Rights of the Crown, or the Property our Proprietaries may claim in thoſe Lands.

The Intelligence the Governor has lately received and laid before us, upon the Hearſay of One, and on the Depoſition of another *French* Deſerter, is unexpected, and indeed wonderful. It really appears ſo to us, that nigh Six Thouſand of the beſt Troops of *France* ſhould arrive, in Six Men of War, in the River St. *Lawrence*, and after aſcending that River and the Lakes, ſhould be now actually at the Lower Fort upon the *Ohio*; that they ſhould be able to carry with them a ſufficient Quantity of Proviſions and other Neceſſaries for ſo large a Body of Forces, to ſuſtain and accommodate them through the Winter in that uncultivated Country, and all this without the leaſt Account of their Embarkation in *Europe*, and without the leaſt Intelligence of their Paſſage or Arrival at the Place of their Deſtination, from any of the other Colonies, or from our own Back Settlements, from whence the Governor has been pleaſed to lay before us very late Letters and Accounts. It is true, theſe Depoſitions are made in a very critical Juncture, but they cannot have the ſame Force as they ought to carry with them, had the ſame Accounts been tranſmitted to us from *Oſwego*, near which they muſt neceſſarily have paſſed, and from whence we received very minute Accounts of the Paſſage of the *French* Forces, who firſt laid the Foundations of their Strength upon the *Ohio*. Nevertheleſs, as we have no Inclination nor any Intereſt in diſcrediting the Report, or diminiſhing the Numbers of the *French* there, which we acknowledge is abundantly too great, and has juſtly alarmed the *Britiſh* Nation, we ſhall leave the Arrival of theſe Forces, as well as Quality of them, upon their own Evidence.

We have now extended our Remarks upon the Governor's Meſſages to a much greater Length than we could have wiſhed or deſired, eſpecially as by thoſe Meſſages we find he is determined not to give his Aſſent to our Bill; and yet we entreat his Patience a little longer, to remark upon the Royal Inſtruction to Colonel *Thomas*, in 1740, and that

to

1755. *January* 3.

to Sir *William Keith*, in 1723. In respect to this last, our late Governor was pleased to inform us, "that he had caused the Minutes of Council, and all the Papers in that Office, to be very carefully inspected, without being able to discover the least Footsteps "of that, or any other Instruction to the like Purpose;" which appears truly surprizing to us, who had Reason to suppose that Sir *William Keith's* Message to the Assembly, on the Seventh of *May*, 1724, ought to appear upon the Minutes of Council; in which he says, "Herewith I send you the Perusal of an original Instruction, which I have received "from the Crown, in Relation to the Passing of private Acts of Assembly in this Province, by which I conceive is meant Acts relating to Privileges or Advantages granted "to particular Persons, and not to the Public in general; and I judge it will be proper "for you to cause a Copy of it to be entered upon your Journals, for your better Information in Cases of that Nature." And accordingly it is entered upon our Minutes of that Date. Now although we have Reason to think, from what has been remarked by our former Assemblies, that the Instruction to Colonel *Thomas*, in 1740, has, in a great Measure, if not wholly, answered all the Purposes for which it was issued; and because the same House of Commons, who had before addressed the Crown, though requested by the Board of Trade, that they would again interfere, that his Majesty would repeat his Orders to his Governors of Plantations for that Purpose, have never done it, that we can learn; and because now, through a Succession of two Governors, who have since received the Royal Approbation, upon their Appointment to the Government of this Province, no other or further Instructions have been given to either of them, but the Instruction of 1723, equally unlimited by Time, and equally binding on the Commander in Chief for the Time being, remains in its full Force, without any Act of Parliament, or any other Act of Government that we know of, either to abate its Operation, or to supply the End of it. Nevertheless, we are under a Necessity of informing the Governor, though with great Reluctance, that in the Year 1735, Governor *Gordon* passed an Act for vesting more effectually certain Lands in *George M'Call*, in direct Contradiction to that Instruction, without the least Mention of a suspending Clause.

As we have Reason to believe the Assembly was then acquainted with that Instruction, and as the Bill particularly related to our Honourable Proprietaries, our last Assembly, notwithstanding the indiscret Call upon them, contented themselves, from Motives of Prudence and Moderation, with barely pointing out this Transaction, in Hopes our honourable Proprietaries would see themselves at least equally concerned with the Representatives of the People both in Fact and Right, and thereby might be induced to join cordially with the People of this Province, in vindicating our Charter from the continual Infraction of such Instructions; which, if they must operate in the Manner the Governor is pleased to contend for, and our Proprietary Instructions must be binding upon us also, the Rights derived to us by the Royal Charter is a Name only, whilst the very Essence of it is effectually destroyed: Under the Sanction of which Charter, a sober industrious People, without any Charge to the Crown or the Proprietary, first settled this Wilderness, and by their Frugality, and the Equity of their Laws, laid the Foundation of a flourishing Colony, which already, within the ordinary Life of a Man, has made a considerable Addition to the Dominions of the Crown, by an Increase of dutiful and loyal Subjects, and bears no mean Rank in contributing to the Wealth and Trade of our Mother Country.

Whether the above Act for granting *Five Thousand Pounds* for the King's Use, or the Act for vesting Lands in *George M'Call*, were ever sent Home for the Royal Approbation, very little concerns us, as we presume the Transmitting our Acts is the immediate Duty of our Proprietaries, or their Lieutenants, in Pursuance of the Royal Charter, which we look upon as the anterior solemn Royal Instruction, for the Rule of their Conduct, as well as of our own.

Upon the Whole, from what we have said, we presume it evidently appears, that Proprietary Instructions and Restrictions upon their Governors, as they have occasionally been made a Part of the Public Records at different Times, have been judged and resolved by our Governor, Council, and the Representatives of the People, either

1. Inconsistent with the legal Prerogative of the Crown settled by Act of Parliament.
2. Or a positive Breach of the Charter of Privileges to the People.
3. Or absurd in their Conclusions, and therefore impracticable.
4. Or void in themselves.——Therefore,

Whenever the Governor shall be pleased to lay his Proprietary Instructions before us for our Examination, and if then they should appear to be of the same Kind as heretofore, his good Judgment should lead him to conclude, that such "Considerations in Life," as our Allegiance to the Crown, or the immediate Safety of the Colony, *&c.* are sufficient Inducements for him to disobey them, notwithstanding any Penal Bonds to the contrary, we shall chearfully continue to grant such further Sums of Money for the King's Use, as the Circumstances of the Country may bear, and in a Manner we judge least burthensome to the Inhabitants of this Province."

1755. *January* 3. And the foregoing Meſſage being ſigned by the Speaker, by Order of the Houſe;

Ordered, That *Joſeph Stretch* and *James Pemberton* wait upon the Governor with the ſame, and acquaint him, that the Houſe having near gone through the Buſineſs before them, deſire to know when they may expect his Reſult upon the Bill for preventing the Importation of *German* or other Paſſengers, or Servants, in too great Numbers in any one Ship or Veſſel; and for preventing the Spreading of contagious Diſtempers within this Province.

Adjournment Then the Houſe adjourned to Three o'Clock, *P. M.*

Poſt Meridiem The Gentlemen appointed to wait upon the Governor with the Meſſage of the Houſe, report, that they had delivered the ſame according to Order; and that the Governor was pleaſed to ſay, he had referred the Bill relating to the Importation of *Germans*, &c. to a Committee of the Council, who now had it under their Conſideration; and that he ſhould acquaint the Houſe with his Reſult upon the ſaid Bill as ſoon as conveniently he could.

The Committee of Accounts reported, that they had examined the Accounts of the late Treaſurer, exhibited by the Executors, and find that there is a Balance of *Twenty-ſix Pounds Two Shillings* and *Nine-pence Three Farthings*, due from the Eſtate of the ſaid Treaſurer to the Province.

Reſolved, That the Sum of *Ten Pounds* be now allowed to *Anthony Benezet*, in Conſideration of the Care and Trouble he has had in providing for the *French* Deſerters, who have for ſome Time paſt arrived in this City.

Ordered, That the Executors of the late Treaſurer do pay the Balance due from his Eſtate into the Hands of *Anthony Benezet*; *Ten Pounds* whereof to be kept by the ſaid *Benezet* in Purſuance of the foregoing Reſolve, and the Remainder to lie in his Hands for the further Maintenance of ſuch Deſerters as are already in this City, or that may hereafter arrive.

The Letter from Sir *Thomas Robinſon* to the Governor, of the Twenty-ſixth of *October* laſt, being again read, it was obſerved by the Houſe, that the following Points were therein particularly recommended to the Governor's Care, *viz.*

That he ſhould carefully provide a ſufficient Quantity of freſh Victuals, at the Expence of this Government, to be ready for the Uſe of his Majeſty's Troops at their Arrival; that he ſhould likewiſe furniſh the Officers, who may have Occaſion to go from Place to Place, with all Neceſſaries for travelling by Land, in caſe there are no Means of going by Sea; and that he ſhould uſe his utmoſt Diligence and Authority, in procuring an exact Obſervance of ſuch Orders, as ſhall be iſſued, from Time to Time, by the Commander in Chief, for quartering the Troops, impreſſing Carriages, and providing all Neceſſaries for ſuch Forces as ſhall arrive, or be raiſed, within his Government.

That with regard to ſuch other Articles, which are of a more general Concern, it is the King's Pleaſure, that he will uſe his utmoſt Endeavours to induce the Aſſembly of this Province, to raiſe, forthwith, as large a Sum as can be afforded, as their Contribution to a common Fund, to be employed, proviſionally, for the general Service of *North-America*.

Whereupon it was conſidered, that this Houſe, in Obedience to the Royal Orders, ſignified by the Earl of *Holderneſſe's* Letter of the Twenty-eighth of *Auguſt*, 1753, and by Sir *Thomas Robinſon's* ſeveral Letters of the Fifth of *July*, and Twenty-ſixth of *October* laſt, had preſented to the Governor a Bill for granting *Twenty Thouſand Pounds* to the King's Uſe, to which he was pleaſed to refuſe his Aſſent; influenced thereto, as this Houſe unanimouſly preſume, principally, if not ſolely, by Inſtructions from the Proprietaries. And although the Houſe are thereby hindered from making Proviſion for all the Purpoſes of the ſaid Royal Orders, in the Manner they could deſire (the Treaſury being now quite exhauſted by *Indian* and other heavy Expences, and large Sums paid out of the Loan-Office for Orders actually and uſually drawn upon the Treaſury, inſomuch that there is ſcarcely a Balance of *Five Hundred Pounds* now remaining in the Truſtees Hands) yet, nevertheleſs, they are deſirous to comply with the Expectations of the Crown, as far as, their preſent Circumſtances conſidered, they are able. It is, therefore,

Reſolved, *N. C. D.* That *Iſaac Norris*, Eſq; Speaker, and *Evan Morgan*, *Joſeph Fox*, *James Pemberton*, *James Wright*, *Joſeph Armſtrong* and *John Smith*, Gentlemen, Members of this Houſe, be, and they are hereby nominated and impowered to take up and borrow, on the Credit of this Houſe, any Sum not exceeding *Five Thouſand Pounds*, lawful Money of this Province; to be by them laid out for purchaſing freſh Victuals, and ſuch other Neceſſaries as they, or a Majority of them, ſhall think expedient, for the Uſe of the King's Troops at their Arrival: For all which Money, borrowed as aforeſaid, they, the above-named Gentlemen, or any four of them, ſhall give a Certificate or Certificates, as the Caſe may require, under their Hands, to the Perſon or Perſons lending the ſame, certifying that ſuch Money was taken up and borrowed for the King's Uſe, in the Manner, and for the Purpoſes directed by this Reſolve. And this Houſe will repay,

or

or take effectual Care to ſecure the Re-payment of all and every Sum or Sums of Money, ſo as aforeſaid borrowed, with Intereſt, if neceſſary. 1755.

Then the Houſe adjourned to Ten o'Clock To-morrow Morning. *January* 3. Adjournment *January* 4.

An Account from *Thomas Jervis*, of the City of *Philadelphia*, for the Maintenance of *Scarroyady*, two other *Indians*, and their Interpreter, amounting to *Ten Pounds Two Shillings* and *Ten-pence*, was laid before the Houſe, read, and referred to the Committee of Accounts.

The Letter to the Secretary from *George Croghan*, containing an Account amounting to *Forty-two Pounds*, paid by him to *Thomas Kenton*, for ſundry Goods delivered to the *Shawaneſe*, as a Preſent from this Government, was read; and the ſaid *Kenton* attending, was called in, and having anſwered ſuch Queſtions as were put to him by the Houſe, and produced a Note of Hand from the ſaid *Croghan*, for the before-mentioned Sum, he was directed to withdraw.

Ordered, That an Order be forthwith drawn on the Treaſurer, and ſigned by the Speaker, for Payment of the ſame.——Which was accordingly done.

And an Order was likewiſe drawn on the Treaſurer, and ſigned by the Speaker, by Order of the Houſe, for the Payment of *William Anderſon's* Account.

Upon a Motion made,

Reſolved, That a moſt humble Addreſs be made to the King to teſtify the Affection and Loyalty of the People of this Province, and to repreſent the Difficulties we labour under by Reaſon of Proprietary Inſtructions, &c.

Ordered, That *Joſeph Fox*, *James Pemberton*, *William Callender*, *Joſeph Hamton*, *Jonathan Ingham*, *George Aſhbridge*, *Joſeph Gibbons*, *Arthur Patterſon*, *Calvin Cooper*, *David M'Connaughy*, *Joſeph Armſtrong*, *Moſes Starr* and *James Burnſide* be a Committee to prepare a Draught of an Addreſs, purſuant to the ſaid Reſolution, and report the ſame to the Houſe.

Ordered, That *Peter Worral* have Leave to be abſent the Remainder of this Sitting, on urgent Buſineſs.

Then the Houſe adjourned to next *Second-day*, at Three o'Clock, *P. M.*

The Houſe met, and adjourned to Ten o'Clock To-morrow Morning. Adjournment *Jan.* 6. *P. M.*

The Committee appointed to prepare a Draught of an Addreſs to be preſented to the King, reported the ſame to the Houſe, and it was read, conſidered, and referred to farther Conſideration in the Afternoon. Adjournment *January* 7.

Ordered, That *William Callender* and *James Burnſide* wait upon the Governor, and acquaint him, that the Houſe having almoſt finiſhed the Buſineſs they propoſe to do at this Sitting, and being deſirous to have the Bill, now with the Governor, paſſed into a Law before they riſe, requeſt that he would as ſoon as poſſible let them know his Reſult thereupon.

The Gentlemen appointed to wait upon the Governor with the Meſſage of the Houſe return, and report, that they had delivered he ſame according to Order; and that the Governor was pleaſed to ſay, he ſhould this Afternoon ſend a Meſſage to the Houſe concerning the Bill now before him.

Then the Houſe adjourned to Three o'Clock, *P. M.* Adjournment *Poſt Meridiem*

The Governor, by the Secretary, ſent down to the Houſe two Meſſages in Writing, which were read, and are as follow, *viz.*

GENTLEMEN,

'HAVING conſidered your very long Meſſage of the Third Inſtant, I think it ne- A Meſſage from the Governor to the Aſſembly.
'ceſſary to make ſome Obſervations upon it; and though the very great Obſcurity,
'unneceſſary Repetitions, and unmeaning Paragraphs, in that Performance, may con-
'fuſe and divert ſome People here from the true Points in Difference between us, yet
'I am under no Apprehenſion but his Majeſty and his Miniſters will ſee your Conduct
'and mine in a true Light.

'You certainly do not underſtand, or do miſrepreſent, my laſt Meſſage, or you could
'never accuſe me of making a Promiſe, that I would lay before you the Proprietary In-
'ſtructions, "ſo far as they regarded the Bill for granting *Twenty Thouſand Pounds* to
"the King's Uſe," when I never ſo much as told you, that I had any ſuch; or charge
'me with repreſenting your Application for thoſe Inſtructions, "as having a Tendency
"to alienate the Affections of the People from his Majeſty's Perſon and Government;"
'neither the one or the other having any Foundation, there being nothing in my Meſ-
'ſages that, by the moſt ſtrained Conſtruction, can ſupport what you have ſaid. I thought
'the Expreſſions you had taken the Liberty to uſe, with reſpect to the Royal Inſtruction
'relating to Paper Money, might have a Tendency to alienate the Affections of the People,
'though never ſo well diſpoſed; as I very well know how fond they are of that Currency,
'and how much averſe to any Reſtraints upon that Head. And had I not good Reaſon to
'think ſo, when that Inſtruction has been repreſented as deſtructive of the Liberties of
'the People, and in the Meſſage, now under my Conſideration, is called an Infraction
'of the Royal Charter? When his Majeſty, the Father and Protector of his People, is

repreſented

1755. January 7.

'represented in this Light to the Inhabitants of a Province ſo remote from his Royal 'Perſon, muſt it not have a Tendency to leſſen their Affection? And is not that dan-'gerous at all Times, but more eſpecially ſo at this Juncture, when his Majeſty expects 'the Aſſiſtance of all his Subjects for their own Defence and Security? It is plain, from 'what you have ſaid relating to that Inſtruction, that you think yourſelves exempt from 'the Force of Royal Inſtructions, particularly thoſe relating to Paper Money: What 'can induce you to think, that the Words of the Royal Charter may be conſtrued in 'Favour of ſuch Exemption, I will not take upon me to ſay; but ſure I am, that the 'Crown of *England* can by no Means diveſt itſelf of a Juriſdiction over its Subjects, 'eſpecially in Matters relating to the Standard and Currency of Money, concerning 'which it has very large and peculiar Prerogatives, no Part of which are granted by the 'Royal Charter. You will therefore conſider how juſt your Claims of Independency 'upon this Head are, and how prudent it will be in you to inſiſt upon them.

'You are pleaſed to be very angry with your Proprietaries, for no other Reaſon, that 'I can find, but their having given me Inſtructions; and without knowing what thoſe 'Inſtructions are, you repreſent them as deſtructive of the Liberties and Privileges 'granted by Charter to the People of this Province. Such a Treatment of that Ho-'nourable Family, from whom the Inhabitants of this Province have derived ſo many 'Advantages, and who are promoting its Intereſt upon every Occaſion, is not only un-'grateful but unjuſt.

'The Proprietaries are too nearly intereſted in the Proſperity of this Country to do 'any Thing to its Prejudice; and I ſhould have imagined, that the People could not 'now ſtand in Need of any Proofs of the Proprietary Affection, or ſuſpect them of having 'any Deſigns to invade their juſt Rights or Privileges, which I am confident, to uſe 'your own Words, "they deteſt and abhor."

'Your Reſolves relating to the Proprietary Inſtructions, which you ſtill ſay are the prin-'cipal, if not the ſole, Obſtructions to the Paſſing the Bill you ſent me, are, in my Opi-'nion, very extraordinary, as I had told you, that I could not paſs that Bill, becauſe it 'was contrary to the King's Inſtruction; this Treatment from one Branch of a Legiſla-'ture to another, may be quite conſiſtent with the Privileges you claim, for any Thing 'I know, but I muſt take the Liberty to ſay, they are not conſiſtent with Decency, 'Prudence nor the public Good; and however you may diſbelieve me in other Things, 'I beg you will think me ſincere when I tell you, that I am determined not to lay the 'Proprietary Inſtructions before you at this Time farther than I have already done, not-'withſtanding any Thing you have ſaid to induce me to it; being ſenſible, that they 'are no way neceſſary, and that you are in a very improper Temper for the Conſideration 'of them, as you have, without knowing what they are, declared them deſtructive of 'your Liberties.

'The Proprietary Inſtructions, as I told you before, are calculated to promote the 'Happineſs and Proſperity of this Province, and have nothing in them inconſiſtent either 'with the Prerogatives of the Crown, or the Liberty of the People; and if thoſe In-'ſtructions had not been given me, I ſhould, nevertheleſs, have thought it my Duty to 'have refuſed my Aſſent to the Bill you ſent me for emitting Paper Money.

'There are Parts of that Bill that I had very material Objections to, but I waved 'them, on Account of the preſſing Neceſſity of the Times, not doubting but you would 'have offered ſuch an One as I could have paſſed, conſiſtent with the King's Inſtructions, 'as I then imagined you really intended to grant Supplies for the Safety and Defence of 'the Province, and thought we ſhould agree upon the Terms of raiſing Money for that 'Purpoſe; but your Behaviour ſince that Time has convinced me, and I am perſuaded will 'convince my Superiors, that you never had any Intentions of putting this Province into 'a Poſture of Defence, or of acting vigorouſly againſt the *French* upon your Borders.

'As you take upon you to inſinuate, that I am reſtrained, by Proprietary Inſtructions, 'from paſſing Bills for the Defence of the Country, I think it neceſſary expreſsly to deny 'that I am ſo reſtrained, and to tell you, that I am ready to paſs a Law for putting this 'Province into a Poſture of Defence, by eſtabliſhing a Militia, and making the neceſ-'ſary Proviſions: and that I will conſent to a Law for emitting any Sum in Paper Mo-'ney that the preſent Emergency may require; provided Funds are eſtabliſhed for ſink-'ing the ſame in Five Years.

'I ſaid, "the Act of the Sixth of Queen ANNE, for aſcertaining the Rates of fo-', reign Coins in *America*, was ſhamefully ſlighted and diſregarded in this Province," and 'I ſay ſo ſtill, notwithſtanding any Thing you have urged in your Meſſage to the con-'trary. It is known to you, and every One, that *Spaniſh* Pieces of Eight do now, and 'for a Number of Years have paſſed, and been current at *Seven Shillings* and *Six-pence*, 'when that Act requires, that they ſhould paſs for *Six Shillings* only, and that other 'Coins are current nearly in the ſame Proportion; from whence it appears, that though 'you call your Paper Bills Money according to Queen ANNE's Proclamation, it is really 'not ſo, but Twenty-five *per Cent* worſe; and as this is directly contrary to the expreſs

'Words,

1755. January 7.

'Words, and true Intent and Meaning of that Act, I was right in saying, "that the "Act itself, and the Royal Instruction to enforce it, had been shamefully slighted and "disregarded," as neither the one or the other have had the proper Obedience paid to 'them within this Province.

'I took my Calculation of the Revenue, and of the Money you have in Hand, from 'your own printed Minutes; and I have now re-examined the Accounts, and find, that 'you have a Revenue of *Seven Thousand Three Hundred* and *Eighty-one Pounds*, arising 'from the Interest of the Paper Money and the Excise, clear of the *Five Hundred Pounds* 'a Year, towards sinking *Five Thousand Pounds*, formerly given to the King's Use.— 'And that the Sums due, and which, by the Laws in being, should have been in Hand 'on the Fifteenth of *September* last, amount to at least *Fourteen Thousand Pounds*. I have 'ordered the Calculations, from which I have taken those Sums, to be laid before you, 'that, if I am wrong, you may point out wherein I am so. I did not mean to upbraid 'you on account of the Sum of *Three Hundred* and *Forty-three Pounds Ten Shillings*, due 'from the City of *Philadelphia*, the Interest whereof, was it to be paid, would only 'amount to *Seventeen Pounds Three Shillings* and *Six-pence*, which I find to be the only 'Sum lent out that does not bear an Interest, and is in itself so trifling, that I am sur-'prized to find it mentioned in such a Manner.

'Upon the whole, Gentlemen, I shall have no Reason to fear the Censure of his Ma-'jesty, or a *British* Parliament, or be ashamed of the Part I have acted, when the Pro-'ceedings of this Session come under their Consideration; since by them it will appear, 'that I have from Time to Time represented to you the Danger to which this Country 'stands exposed, the Progress the *French* have made, the Increase of their Numbers, 'and every Thing else that might induce you to act with Vigour; that I have laid his 'Majesty's Commands before you, and repeatedly called upon you to grant the Supplies 'expected from us by the Crown, and to put the Province into a Posture of Defence, 'and to avoid every Thing that might admit of Dispute.

'And from your several Messages it will fully appear, that instead of doing what the 'Safety of your Country, and his Majesty's Service required, you have industriously en-'gaged in a Contest about the Force of a Royal Instruction relating to Paper Money; 'have entered into unseasonable Resolutions with regard to Proprietary Instructions, with-'out knowing what they are; and because I do not communicate to you what you have 'no Right to demand, you are pleased to make that an Excuse for not putting this Pro-'vince into a Posture of Defence, and chuse to leave this rich and plentiful Country, 'situated in the Center of his Majesty's Dominions, naked and open to the Attacks of 'the *French*, without a Militia, or any one Thing necessary for its Security. It will 'also appear, that at this critical Juncture, when it is the Duty of every Man to exert 'himself to the utmost of his Abilities, you proposed only *Twenty Thousand Pounds* this 'Currency, which is not *Two-pence* in the Pound, upon the just and real Value of 'Estates in this Province; and this you call a generous Sum, though you must be sen-'sible, it is very insufficient to answer the present Exigency; and even this you refuse 'to give upon any Terms, but such as are directly contrary to a Royal Instruction, which 'you know is binding upon me, though there are many other Ways of raising Money, 'not liable to that Objection, and though I offered to consent to a Law for emitting 'any Sum in Paper Money, the present Emergency might require, provided Funds were 'established for sinking the same in Five Years.

'You will give me Leave to observe, that one Act of Duty and Loyalty to the Crown 'is worth a Thousand Expressions of that Sort, where a proper Behaviour is wanting; 'and you will therefore consider how far your Words and Actions agree, and in what 'Light your Conduct will appear to his Majesty, and his Ministers, who will enquire 'what you have done upon the present important Occasion, not what you have said.

A Meſſage from the Governor to the Aſſembly.

GENTLEMEN,

'YOUR Bill for preventing the Importation of *German* or other Paſſengers, *&c.* I 'referred to the Conſideration of ſuch of the Members of the Council as were 'Members of the Corporation, who have made ſundry Obſervations upon it which they 'have reported to me; and as the Bill is intended to preſerve the Health of this City 'and Province, I ſhall give it all the Attention in my Power, and make ſuch Altera-'tions in it as may beſt anſwer the End propoſed, without laying too great Reſtraints 'upon Trade.

'It would have been very agreeable to me to have gone through 'it,

1755. January 7.

'it, and send it you down now; but I find myself too much engaged, by Correspon-
'dences on his Majesty's Service, to finish it at present, and must therefore detain it, till
'I can give it the Attention a Bill of such Importance requires.

January 7, 1755. *ROBERT HUNTER MORRIS.*"

The Draught of an Address to the King being again read, and considered, was, with some few Amendments, unanimously agreed to, and two ingrossed Copies ordered to be made thereof.

Then the House adjourned to Ten o'Clock To-morrow Morning. Adjournment

The Governor's two Messages of Yesterday, were again read, and considered; and, after some Time spent therein, *January* 8.

Ordered, That *James Pemberton*, *William Callender*, *Mahlon Kirkbride*, *Joseph Gibbons*, *Calvin Cooper*, *David M'Connaughy*, *Joseph Armstrong* and *James Burnside* be a Committee to prepare Draughts of Answers to the same, and report them to the House.

Then the House adjourned to Three o'Clock, *P. M.* Adjournment

A Draught of an Answer to one of the Governor's last Messages was brought in by the Committee appointed to prepare the same, and read, agreed to, and ordered to be transcribed, that it may be sent up to the Governor. *Post Meridiem*

And the said Message being accordingly transcribed, was again read, and follows in these Words, *viz.*

May it please the GOVERNOR,

A Message from the Assembly to the Governor.

AS we consider our Bill for preventing the Importation of *German* or other Passengers, &c. to be of the utmost Importance to the Health and Lives of the Inhabitants of this Province, in order to clear ourselves from the Mischiefs which may ensue from the Postponing that Bill, we again earnestly solicit the Governor for his Assent to it at this Time.

The Bill itself was calculated to lay Restraints upon the Trade carried on by the Importers of such Passengers, *&c.* and we have, in all our Considerations upon it, endeavoured to make it answer those Purposes, without interfering with the other Branches of our Commerce, not subject to the same fatal Consequences; and if the Governor shall think fit to amend the Bill to answer these Ends, it will receive all the Dispatch in our Power, and a chearful Concurrence on our Part."

The foregoing Message being signed by the Speaker, by Order of the House,

Ordered, That *Thomas Cummings* and *Nathaniel Pennock* wait upon the Governor, and deliver the same.

Two engrossed Copies of the Address to the King being prepared, according to Order, were read, and signed by the Speaker, by Order of the House.

Ordered, That the Committee of Correspondence do transmit the same, by different Conveyances, to our Agents in *Great-Britain*, and direct them to take the proper Measures to have the said Address presented to the King as soon as conveniently may be.

The Gentlemen appointed to wait upon the Governor, with the Message of the House, return and report, that they had delivered the same, according to Order; and that the Governor was pleased to say, he would return an Answer to the House as soon as possible.

Then the House adjourned to Ten o'Clock To-morrow Morning. Adjournment

A Message from the Governor, by the Secretary: *January* 9.

SIR,

" The Governor informs the House, that some of the Chiefs of the *Six Nations* are " now in Town, on Proprietary Business; and, as they are Persons of Weight and In- " fluence, he thinks it may be of public Service for the Government to take Notice of " them at this critical Juncture; and therefore recommends this Matter to the Con- " sideration of the House."

A Draught of an Answer to the Governor's last Message relating to Proprietary Instructions, *&c.* was brought in by the Committee appointed to prepare the same, and read, agreed to, and ordered to be transcribed, that it may be sent up to the Governor.

Then the House adjourned to Three o'Clock, *P. M.* Adjournment

Upon a Motion made, *Post Meridiem*

Resolved, That the Sum of *One Hundred* and *Fifty Pounds Sterling* be now remitted to our Agents in *Great-Britain*, to lie in their Hands for the Service of the Province, and to be accounted for by them hereafter.

Then the House adjourned to Ten o'Clock To-morrow Morning. Adjournment

Resolved, That this House, as they see no Prospect of their being at present of any further Service to the Province, will this Day adjourn to the Twelfth Day of the Fifth Month, called *May*, next. *January* 10.

The Answer to the Governor's Message of the Seventh Instant, relating to Proprietary Instructions, *&c.* being transcribed, was again read, and is as follows, *viz.*

May

1755.

January 9. Assembly's Answer to the Governor's Message of the 7th Instant.

May it please the GOVERNOR,

THE long Absence from our Homes, the great Expence we must necessarily sit at, and the Uneasiness it gives us to be obliged to differ in Sentiments so widely from our Governor, without the least Prospect of Redress here, together with his present Indisposition to treat us with that Decency, we presume, on Reflection, he will acknowledge to be due to the Representatives of the People, will sufficiently excuse us from entering minutely into the Consideration of his last Message; especially as we hope we may safely leave it for the present, and as we have humbly addressed our gracious Sovereign on the Differences now unhappily subsisting between us.

The Governor has expressed his Satisfaction in leaving it to that Issue, and as we have no Doubt of the Justice of our Cause, we must, and do very chearfully, submit to it also; and by this Means, the Parts of his last Message, which immediately concern us at present, are reduced to a narrow Compass.

The Governor is pleased to say, he very well knows how fond the People are of a Paper Currency, and how much averse they are to any Restraints on that Head; but from whence this Knowledge should arise, is hard for us to conjecture. We certainly know the People have not petitioned our House, nor have we offered the Governor any Bill for that Purpose during his Administration, except the Bill for granting Money for the King's Use, and that only, as the best Method we could devise to make that Grant effectual; and we have Reason to believe, on turning to the Minutes of our late Assemblies, that when they did offer such Bills to our former Governor, they not only restrained themselves within a very moderate Sum, arising from minute Calculations of their Trade, but took great Care to preserve it from sinking in its Value, by issuing it on sufficient Securities, and such as had been usual, and, by long Experience, found effectually to answer that End; notwithstanding, the Governor has been pleased to repeat it, "that this Province has shamefully slighted and disregarded the Act of the Sixth of "Queen ANNE." That Act was considered when Colonel *Thomas* passed our present Paper Money Act, in 1739, and it was undoubtedly known to the Board of Trade when they recommended it to the Crown as a reasonable Act, upon which it obtained the Royal Sanction on the 12th of *May*, 1740. And under these Authorities it is declared, that "those Bills of Credit are lawful Money of *America*, according to an Act of Par-"liament made in the Sixth Year of the late Queen ANNE, for ascertaining the Rates "of Foreign Coins in the Plantations of *America*; and shall be the current Bills of this "Province, for the Payment and Discharge of all Manner of Debts, *&c.* as if the same "were tendered and paid at the Rates ascertained in the said Act of Parliament, and "should be so received by all Persons whatsoever." And as neither our Silver, or Exchange, make at this Time any Alteration in those Bills, except to their Advantage, being both rather lower than at the Passing and Confirmation of that Act, we account ourselves perfectly safe in saying, that we know not what the Governor can mean, by imputing to this Province a shameful Slight and Disregard of the Act of the Sixth of Queen ANNE; and we hope, on Reflection, he will allow it more reasonable for us to depend upon the Royal Decision in our Favour, than blindly to submit ourselves to the Computations of the Governor, in Opposition to it.

We are likewise under a Necessity of differing from him, in the State of the Public Money he has been pleased to send down with his last Message. As we apprehend the Governor himself must be pretty much a Stranger to our Accounts, we take the Liberty to assure him, that whoever made those Computations, has done them without Skill, or a sufficient Knowledge of our Laws; and that we find the Estimates we have already made, are right and just, and, as far as regards the annual Income, agreeable with the Proprietaries Answer to the Address of the Assembly in 1751. And as, by the Laws in being, we had not the Power over more than about *Seven Thousand Pounds* at the last Settlement, even that Sum is now greatly reduced, by the very heavy Charges of Government, borne and discharged by us since that Time.

The Governor is pleased to say, "You proposed only *Twenty Thousand Pounds*, this "Currency, which is not *Two-pence* in the *Pound*, upon the just and real Value of "Estates in this Province; and this you call a generous Sum, though you must be sen-"sible it must be very insufficient to answer the present Exigency." What the Governor may think sufficient, is as much a Mystery to us, as he may apprehend his Proprietary Instructions are; but, we presume, it may be sufficient for all the Purposes in Sir *Thomas Robinson's* last Letter, and as much or more than, we think, can be reasonably expected from us. How the Governor became so suddenly acquainted with the real Value of our Estates, is not easy to conceive; but we know from long Experience, haveing many of us received our Birth in this Province, that the Inhabitants are not generally wealthy or rich, though we believe them to be, in the Main, frugal and industrious, yet it is evident that their Lands are greatly encumbered with their Debts to the Public. From these Considerations, we are obliged to think the Governor's Estimation of our Wealth is undoubtedly too high, unless be includes the Value of the Proprietary Lands;

for,

for, by the Report of a Committee of Aſſembly in *Auguſt*, 1752, it appears, that the Taxables of this Province did not exceed Twenty-two Thouſand; and the Grant we have offered of *Twenty Thouſand Pounds*, from the beſt Calculations we can make, doth at leaſt amount to five times the Sum that hath ever been raiſed by a *Two-penny* Tax through this Province. As we think the Governor cannot be a competent Judge of the real Value of our Eſtates in this little Time of his Adminiſtration, and as we have now ſubmitted our Cauſe to higher Determination, we conceive ourſelves leſs concerned in his Computations of our Eſtates, whatever they may be. 1755. *January* 9.

The Governor is pleaſed to inform us, "that the Proprietaries are too nearly in-"tereſted in the Proſperity of this Country, to do any Thing to its Prejudice, and he ſhould "have imagined that the People could not now ſtand in Need of any Proofs of the Pro-"prietary Affection, or ſuſpect them of having any Deſigns to invade their juſt Rights "and Privileges, which, he is confident, they deteſt and abhor." We cannot ſuppoſe the Governor would mean they deteſt and abhor our juſt Rights and Privileges, and yet we are convinced the Clauſe in their Commiſſion to him, their Lieutenant, whereby they impower him to act as fully and amply, to all Intents, Conſtructions and Purpoſes, as they themſelves might or could do, were they perſonally preſent, "*You* (our Go-"vernor) *following and obſerving ſuch Orders, Inſtructions and Directions, as you now have,* "*or hereafter, from Time to Time, ſhall receive from us, or our Heirs,*" is not only re-pugnant to our juſt Rights and Privileges, but impracticable, againſt common Senſe, againſt Law, and void in itſelf; and yet if the Governor ſhould think his Hands are ſo tied up by theſe Inſtructions, that he is not at Liberty to act for the Public Good, we muſt conclude they are of dangerous Conſequence at all Times, and particularly in this Time of imminent Danger, not only to ourſelves, but to the *Britiſh* Intereſt in *North-America.*"

And the Meſſage being ſigned by the Speaker, by Order of the Houſe;

Ordered, That *Joſeph Trotter* and *William Smith* wait upon the Governor with the ſame; and acquaint him, that as the Houſe ſee no Proſpect of their being further ſer-viceable to the Province at this Time, they incline to adjourn to the Twelfth Day of the *Fifth Month*, called *May*, next, if he hath no Objection thereto.

The Houſe taking into Conſideration the verbal Meſſage of the Governor, relating to the *Indians* now in this City;

Reſolved, That, as this Province has of late expended very conſiderable Sums of Mo-ney, in making Preſents to the *Indians* in our Alliance, Part whereof thoſe *Indians*, now in this City, received at the late Treaty held at *Albany*; and as the ſaid *Indians* are now come down on Proprietary Buſineſs only, this Houſe do not think it neceſſary or rea-ſonable that a Provincial Preſent ſhould be made them at this Time.

The Gentlemen appointed to wait upon the Governor with the Meſſage of the Houſe, return and report, that they had delivered the ſame according to Order; and that the Governor was pleaſed to ſay, he would read the ſaid Meſſage, and if he found it re-quired an Anſwer, would ſend one to the Houſe immediately.

The Houſe taking into Conſideration the Motion of *Joſeph Trotter*, one of the Mem-bers of this Houſe, that another Perſon might be appointed Truſtee of the *Province Iſland* in his Stead;

Reſolved, That the Thanks of this Houſe be given, by the Speaker, to *Joſeph Trotter*, for his faithful and diligent Diſcharge of the aforeſaid Truſt —— Which was done ac-cordingly.

Reſolved, That *Joſeph Stretch* and *Charles Jones* be appointed, and they are hereby ap-pointed Truſtees of the *Province Iſland*, in the Room of *Joſeph Trotter*, who has now reſigned, and of *Edward Warner*, lately deceaſed.

The Governor, by the Secretary, ſent down a written Meſſage to the Houſe, which was read, and is as follows, *viz.*

GENTLEMEN,

'I AM very much ſurpriſed at your Propoſal to adjourn till *May*, as you have made no 'Proviſion for the Defence of the Province, or granted the Supplies expected by the 'Crown, and recommended by the Secretary of State's Letters: I muſt therefore object 'to the propoſed Adjournment, while Things remain in this Situation, and hope you 'will, in Conſideration of the Danger to which your Country ſtands expoſed, conti-'nue ſitting till you have granted the Supplies to the Crown, and effectually provided 'for the Defence of the People you repreſent; but if you are determined to riſe at this 'Time without doing any Thing, remember it is your own Act, and all the fatal Con-'ſequences that may attend your leaving the Province in this defenceleſs State, muſt lie 'at your Doors.

January 10, 1755. *ROBERT HUNTER MORRIS.*"

A Meſſage from the Go-vernor to the Aſſembly.

And the Houſe taking the foregoing Meſſage into Conſideration;

Reſolved, *N.C.D.* That the Governor has been reſpectfully and repeatedly ſolicited

1755. *January* 9. by this Houſe, to paſs a Bill preſented to him, for granting *Twenty Thouſand Pounds* for the King's Uſe, which, in our Opinion, would have anſwered the Expectations of the Crown from this Province, as ſignified by the Secretary of State's Letters, had the Governor been pleaſed to have given it his Aſſent; therefore whatever ill Conſequences enſue, from Supplies not having been granted at this critical Juncture, muſt lie at his Door.

A Meſſage from the Governor, by the Secretary:

S I R,

" I have the Governor's Orders to demand a Copy of the Minutes of this Sitting of " the Houſe, to be delivered him as ſoon as poſſible."

Ordered, That the Minutes of this and the laſt Sitting of Aſſembly be printed, with all convenient Speed; and that a Copy thereof be delivered to the Governor when finiſhed.

Reſolved, That this Houſe will adhere to their propoſed Time of Adjournment.

Then the Houſe accordingly adjourned to the Twelfth Day of the *Fifth Month*, called *May*, next.

Adjournment

March 17. *Poſt Meridiem* THE Repreſentatives of this Province having been, by Virtue of the Governor's Writs to the Sheriffs of the ſeveral Counties for that Purpoſe directed, ſummoned to meet him this Day in Aſſembly, the Houſe met accordingly.

Benjamin Franklin, returned a Repreſentative for the City of *Philadelphia*, appearing in the Houſe, took and ſubſcribed the Qualification by Law appointed to be taken by Members of Aſſembly, and then took his Seat in the Houſe accordingly.

Ordered, That *Joſeph Stretch* and *James Pemberton* wait upon the Governor, and acquaint him, that the Houſe are met in Purſuance of his Writs, and ready to receive any Thing he may have to lay before them; and deſire he would be pleaſed to furniſh them with a Copy of the Writs by which they were ſummoned.

Adjournment

Then the Houſe adjourned to Ten o'Clock To-morrow Morning.

March 18. The Gentlemen appointed to wait upon the Governor with the Meſſage of the Houſe, report, that they had delivered the ſame according to Order, and that the Governor was pleaſed to ſay, he would ſend a Meſſage to the Houſe this Morning, with a Copy of the Writs by which the Houſe were ſummoned.

Sundry Letters from *Richard Patridge*, Eſq; one of the Agents of this Province, were laid before the Houſe by the Committee of Correſpondence, and read, and ordered to lie on the Table for the Peruſal of the Members.

The Governor, by the Secretary, ſent down to the Houſe a Copy of one of the Writs by which the Houſe were ſummoned, alſo a Meſſage in Writing, together with a Letter from General *Braddock*, referred to therein, which were ſeverally read, and the Meſſage is as follows, *viz.*

GENTLEMEN,

A Meſſage from the Governor to the Aſſembly.

' I HAVE the Pleaſure to acquaint you, that Major General *Braddock*, who is ap-
' pointed by his Majeſty to command the Forces employed in *North-America*, is ar-
' rived in *Virginia*; and as the Seaſon for Action is approaching, I thought it neceſſary
' to ſummon you together, that any Thing the General had to propoſe, might be con-
' ſidered without Delay; and that the Men, Proviſions and Money, expected by his
' Majeſty from this Province, towards carrying into Execution the Meaſures concerted
' for the general Service of *America*, might be provided in Time.

' Sir *John St. Clair*, Quarter-maſter General of his Majeſty's Forces in *America*, has
' repreſented to me the Neceſſity of having Roads opened from the inhabited Parts of
' this Province Weſtward towards the *Ohio*, not only for the March of Troops, but to
' facilitate the Supply of Proviſions to ſuch Forces as may be employed on the Frontiers
' of this or the neighbouring Governments.—I have therefore iſſued a Commiſſion to a
' Number of Men acquainted with that Country, to reconnoitre and examine the ſame,
' and to mark out where ſuch Roads may moſt conveniently be made, and to make Re-
' port to me of their Proceedings, with an Eſtimate of the Expences that will attend
' the Opening and Clearing them; and I recommend it to you to make a ſuitable Pro-
' viſion for this neceſſary Service.

' It is ſaid, the large Supply of Proviſions that the *French* have received from theſe
' Colonies, has enabled them to ſupport the Forces employed in building Forts in his
' Majeſty's Territories, and will enable them, for ſome Time at leaſt, to maintain the
' Troops they have drawn together to defend them.—And though this Province has been
' hitherto very little concerned in that Supply, yet as it is neceſſary to prevent it for the
' future, I have iſſued Orders to the Officers of the Cuſtoms for that Purpoſe, and make
' no Doubt you will join with me in a Law effectually to hinder ſuch an unnatural
' Trade.

' The Eaſtern Governments, ever active in the Defence of their Country, and in main-

' taining

1755. *March* 18.

'taining his Majesty's just Rights and Dominions in *America*, are exerting themselves 'at this Juncture, and are very desirous that this Province should join in the Operations 'intended to frustrate the Schemes of the *French*, and to secure these Colonies against 'their future Encroachments; I therefore hope you will enable me to take such Part in 'the Measures proposed, as becomes the Honour and Interest of a Province circum-'stanced as we are.

'General *Braddock*, by his Letter of the Twenty-eighth of last Month, which will 'be laid before you, desires me to establish a Post between *Philadelphia* and *Winchester*, 'for the forwarding his Dispatches; this he thinks may be of great Importance, during 'the Operations of the Campaign, and you will be pleased to impower me to comply 'with his Request.

'His Majesty having, by one of his principal Secretaries of State, recommended it to 'the several Provinces, to establish a common Fund for the Benefit of all the Colonies 'collectively, General *Braddock* now desires, that the Quotas of the several Provinces, 'towards that common Fund, may be lodged in the Hands of a Treasurer, who may 'have Orders to answer his Demands; as this is intended to expedite Business, and the 'General is perfectly disinterested, and declares himself willing to give an Account of 'his Disbursements, I hope you will put it in my Power to return a satisfactory Answer 'to his Letter in that Particular.

'I heartily recommend to you Vigour, Unanimity and Dispatch in the Matters you 'will have under your Consideration, that the happy Opportunity the Colonies now 'have, by Means of his Majesty's paternal Care, and generous Assistance, of securing 'themselves for ever against the Attempts of the *French*, may not be lost.

March 18, 1755. *ROBERT HUNTER MORRIS.*"

Then the House adjourned to Three o'Clock, *P. M.*

Adjournment *Post Meridiem*

The Governor, by the Secretary, sent down to the House, the two following Mes-sages in Writing, *viz.*

GENTLEMEN,

A Message from the Governor to the Assembly.

'I OBSERVED by the printed Minutes of your Proceedings, that you have inserted 'at large Sir *Thomas Robinson's* Letters to me of *July* the Fifth and *October* the Twenty-'sixth last, without my Knowledge or Consent.

'The King's Commands signified by a Secretary of State may be very proper for the 'Consideration of the different Parts of the Legislature, but are not always to be com-'municated to the Public; I think it therefore necessary, Gentlemen, to caution you 'against the like Practice for the future, and expect that no Letters or Papers commu-'nicated by me shall be printed without my previous Approbation; and as it may be of 'dangerous Consequence to publish those Letters, I desire a Stop may be put to the 'Publication of that Part of your Minutes which contains them.

'I have Letters, and other Papers, that relate to his Majesty's Service, which I would 'willingly communicate to you, but I do not think it safe to do it, till I have proper 'Assurance from you, that the Contents of them shall remain secret.

March 18, 1755. *ROBERT HUNTER MORRIS.*"

GENTLEMEN,

A Message from the Governor to the Assembly.

'ON the Tenth of *January* last I demanded, by the Secretary, a Copy of the Mi-'nutes of your Proceedings, which you promised to send me, but not receiving 'them, I did, on the Twenty-ninth of the same Month, by Letter to the Speaker, again 'demand them, and have frequently, by the Secretary, reiterated my Request, but 'could not obtain a Sight of them till the Twelfth Instant, above two Months after 'your Rising, and then only a Part of them were sent me in Print, and I have not yet 'seen the Whole of them.

'The Keeping your Proceedings thus a Secret from me, I take to be a very uncon-'stitutional and extraordinary Measure, liable to a Construction that I do not chuse at 'present to put upon it; but only to acquaint you, that I expect you will order your 'Clerk to attend me every Night with the Minutes of the Day, that I may know what 'is done and doing in your House, and be able in Time to lay the same before his Ma-'jesty and his Ministers, who expect to be regularly informed of the Measures taking by 'the Legislatures of the Colonies.

March 18, 1755. *ROBERT HUNTER MORRIS.*"

And the two last Messages being read, and considered;

Ordered, That *Joseph Fox*, *Benjamin Franklin*, *Mahlon Kirkbride*, *Thomas Cummings*, *Calvin Cooper*, *John Smith*, *Moses Starr* and *James Burnside* be a Committee to prepare a Draught of an Answer to the said Messages, agreeable to the Sentiments of the House thereupon, and report the same to the House.

Then the House adjourned to Ten o'Clock To-morrow Morning.

Adjournment *March* 19.

The Committee appointed to prepare a Draught of an Answer to the Governor's two last

1755. *March* 19. laſt Meſſages, reported the ſame to the Houſe, and it was read, agreed to, and ordered to be tranſcribed, that it may be ſent up to the Governor.

And the ſaid Meſſage being accordingly tranſcribed, was again read, and is as follows, *viz.*

May it pleaſe the GOVERNOR,

Aſſembly's Anſwer to the Governor's two laſt Meſſages.

WE have conſidered the two laſt Meſſages ſent down by the Governor to the Houſe, and beg Leave to ſay, that we are humbly of Opinion, Letters from the Secretary of State, laid before the Houſe by the Governor, and containing the Commands of the Crown, ought generally to be inſerted in the Minutes of Aſſembly; as ſuch Letters are the Foundation of the Proceedings of the Houſe, and may be neceſſary for their Juſtification.

Sir *Thomas Robinſon's* Letters of *July* 5, and *October* 26, were ſent down to the Houſe without the leaſt Caution to keep the Contents a Secret. The latter, which is the moſt material, is a circular Letter, one to the ſame Effect being ſent by the ſame Conveyance to all the Provinces and Colonies in *North-America*, and, as we are informed, the Subſtance of it has been already printed in the Speeches of ſeveral Governors to their Aſſemblies. The Deſign therein mentioned, of ſending two Regiments to *America*, and raiſing two more in the Colonies, to join them in repelling the *French* Invaſions, was no Secret, being avowed in the *Engliſh* Prints, particularly in the *London Gazette*, publiſhed by Authority. And our Governor himſelf made very full and particular Abſtracts of thoſe Letters in his Meſſages to the Houſe, which were printed in the *Gazettes* here, during our laſt Seſſion, long before the Houſe adjourned, and no Objection was made to ſuch Publication at that Time that we have heard of. We are therefore ſurpriſed, that the Governor ſhould now take Exceptions at the Inſertion of thoſe Letters in our Minutes: And as he has not been pleaſed to point out a ſingle Inconvenience or dangerous Conſequence that may attend it, the Houſe is not inclined to expunge them.

We know not what Aſſurances of Secrecy the Governor expects from us, or what would be ſatisfactory; and therefore can only ſay, that whenever it ſhall appear to the Houſe to be neceſſary for the King's Service, or the Public Good, to keep ſecret any Matters laid before them by the Governor, we doubt not but that proper Meaſures will be taken for that Purpoſe.

When the Governor was pleaſed, "on the Tenth of *January*," to demand a Copy of the Minutes of that Sitting, the Houſe ordered them to be printed with all convenient Speed, and that a Copy ſhould be delivered to the Governor when finiſhed. They were accordingly put to the Preſs, as ſoon as they could well be tranſcribed and reviſed by the Committee for that Purpoſe appointed; and it ſeems the Governor has had a Copy of the greateſt Part of them, even before they were finiſhed. Ever ſince the Votes were firſt printed in this Province, now upwards of Thirty Years, it has been the conſtant Practice to appoint a Committee to reviſe the Minutes, which has been done after the Riſing of the Houſe; and before they were ſent to the Preſs. And till this was done, Copies were never delivered out, unleſs of particular Votes, on ſpecial Occaſions. The principal Matters they contain are generally to be found in the Governor's Speeches or Meſſages, and the Anſwers of the Houſe; and theſe, with ſuch Votes as are material, are for the moſt Part immediately printed in the News-Papers, and thereby made more public than otherwiſe they would ever be. The reſt is chiefly Matter of mere Form, Abſtracts of Petitions, and Things of ſmall Import, which very few, even of the People of this Province, think worth peruſing or enquiring after, much leſs are they worthy the Attention of " his Majeſty or his Miniſters." Therefore, and as it would be inconvenient to the Houſe to make up and perfect their Minutes daily, ſo as to ſend a Copy of them to the Governor; and as we ſee no public Service in ſuch a Practice, nor know of any Right in the Governor ſo peremptorily to demand it, we are not inclined to alter our ancient Cuſtom. It has been frequent not to print the Votes till the End of the Year, and that without the leaſt Deſign of keeping the Proceedings of the Houſe a Secret from our Governors. And we ſuppoſe ſcarce any Votes of the ſame Bulk and Quantity have ever been publiſhed much ſooner than theſe are like to be. When they appear, we conceive nothing will be found in them, that can give the leaſt Reaſon to ſuppoſe, they were affectedly delayed; or that the Governor's Charge againſt us, of taking a very extraordinary and unconſtitutional Meaſure to keep them a Secret from him, has any real Foundation. What the Conſtruction is, that the Governor thinks our Conduct in this Reſpect is liable to, we can neither know nor gueſs; but whatever it be, we had rather it had been ſpoken plainly than inſinuated; for ſo we might have had an Opportunity of ſaying what ſhould be proper in our Juſtification. However, as we are conſcious of the firmeſt Loyalty to the Crown, and moſt upright Intentions towards the People we repreſent, we are not very apprehenſive of any great Prejudice from ſuch Inſinuations. And when we reflect on the Weight and Importance of the Matters laid before us in the Governor's Meſſage of the Morning, in which he ſo earneſtly preſſes us to *Unanimity*

and

and *Dispatch*, we cannot but be surprised at receiving Messages of so different a Kind in the Afternoon, such as can only tend to produce *Division* and *Delay*, and to waste our Time in Disputes on Things of little or no Moment, when there is such Danger of losing the happy Opportunity mentioned by the Governor, and Unanimity between him and the House, on this Occasion, is so necessary to the Public Welfare. We would therefore humbly intreat the Governor, to suspend these irritating Accusations, and novel Demands, till a Season of more Leisure, and permit us to proceed, without any further Interruption of that Kind, on the Business for which he has been pleased to call us together, and the very important Matters he has recommended to our Consideration."

1755. *March* 19.

And the Message being signed by the Speaker, by Order of the House;

Ordered, That *Evan Morgan* and *James Burnside* do carry it up to the Governor.

Then the House adjourned to Three o'Clock, *P. M.*

Adjournment

The Gentlemen appointed to wait upon the Governor with the Message of the House, report, that they had delivered the same according to Order.

Post Meridiem

The Governor's Message of Yesterday Morning was again read, and considered; and, after some Time spent therein, was referred to farther Consideration.

An Account from the Governor, amounting to *One Hundred* and *Forty Pounds Two Shillings*, for sundry Disbursements by him paid on *Indian* Affairs, was laid before the House and read, and referred to the Committee of Accounts.

The Governor's Message of the 18th Instant, *A. M.* was again read, and considered; and, after some Time spent therein,

Ordered, That *Evan Morgan*, *Benjamin Franklin*, *Mahlon Kirkbride*, *Peter Worral*, *John Smith*, *Moses Starr* and *James Burnside* be a Committee to prepare a Draught of an Answer to the said Message, and report the same to the House.

Then the House adjourned to Three o'Clock, *P. M.*

Adjournment *Post Meridiem*

The Committee appointed to prepare a Draught of an Answer to the Governor's Message of the 18th Instant, *A. M.* reported the same to the House, and it was read, debated, and, with some few Amendments, agreed to, and ordered to be transcribed, that it may be sent up to the Governor.

And the same being accordingly transcribed, was again read, and is as follows, *viz.*

May it please the GOVERNOR,

Assembly's Answer to the Governor's Message of the 18th Instant, *A. M.*

THOUGH the Season of the Year, and the Badness of the Roads, have made it difficult for many of us to attend the Governor's Call of the House at this Time, yet considering the present Circumstances of Affairs, and the Matters of Importance he has been pleased to lay before us, we return him our Thanks for giving us this Opportunity of continuing to demonstrate our Loyalty to our King, our Regard to the *British* Interest in *America*, and our Care of the People we represent.

As we are resolved to contribute such Sums of Money as may be consistent with our Circumstances on the present Occasion, we shall immediately proceed to consider the best Methods of raising and discharging the same, and shall forthwith prepare a Bill for that Purpose to be laid before the Governor for his Assent.

The other Parts of his Message will also come under our Deliberation with all possible Dispatch, that nothing may be wanting on our Part which may contribute to the Prosperity or Honour of this Colony; and if the Governor has received any further Intelligence which may be of Service to us in the Course of our Business, we make no Doubt he will be pleased to communicate it to us for our Consideration.

The foregoing Message being signed by the Speaker, by Order of the House;

Ordered, That *Peter Dicks* and *John Smith* wait upon the Governor with the same.

Benjamin Franklin, one of the Members of this House, laid before the House a Letter he had received from the Governor, and desired the Directions of the House thereupon.

And the said Letter being read, was ordered to be inserted in the Minutes, and it accordingly follows in these Words, *viz.*

Gentlemen, *Wednesday*, *March* 19, 1755, Four o'Clock, *P. M.*

Governor's Letter to the Printers.

'OBSERVING by the Minutes of the Assembly which you sent me, that two Letters from Sir *Thomas Robinson*, one of his Majesty's principal Secretaries of State, to me, the one of *July* 5, and the other of *October* 26, 1754, are there printed at large; and as no Person or Body in this Province has any Right to make public his Majesty's Commands to me, signified by a Secretary of State, further than I shall think proper, and as I conceive it may be very prejudicial to his Majesty's Service to publish those

1755. March 20. ‘ Letters, I do therefore notify the ſame to you, and do hereby forbid you to publiſh ‘ the ſame.

I am, Gentlemen,
Your moſt humble Servant,

To Meſſieurs Franklin *and* Hall,

The Houſe taking the foregoing Letter into Conſideration,

Reſolved, That the Letters from Sir *Thomas Robinſon* of *July* 5, and *October* 26, were properly inſerted among the Votes and Proceedings of the laſt Sitting; and that the Houſe in their Meſſage to the Governor of the 19th Inſtant, have ſhewn, by ſufficient Reaſons, that the Expunging of thoſe Letters was both improper and unneceſſary.

Reſolved, That the Right of directing what ſhall, or ſhall not, be inſerted in the Minutes of this Houſe, is ſolely in the Houſe; and that the Governor hath not, nor can have, any Right to interfere therein.

Ordered, That the Printer to this Houſe proceed to publiſh the Minutes and Proceedings of the laſt Sitting of Aſſembly as they now ſtand.

Adjournment. Then the Houſe adjourned to Ten o'Clock To-morrow Morning.

March 21. The Gentlemen appointed to wait upon the Governor with the Meſſage of the Houſe, report, that they had delivered the ſame according to Order.

The Houſe reſumed the Conſideration of the Governor's Meſſage of the 18th Inſtant, *A. M.* and, after ſome Time ſpent therein, it was referred to farther Conſideration.

The Governor, by the Secretary, ſent down a written Meſſage to the Houſe, which was read, and ordered to be taken into Conſideration To-morrow Morning.

The ſaid Meſſage is as follows, *viz.*

GENTLEMEN,

A Meſſage from the Governor to the Aſſembly. ‘ GOVERNOR *Shirley*, for ſecuring the Colonies againſt the future Encroach- ‘ ments of the *French*, having, among other Meaſures, formed a Deſign to build ‘ a Fort near *Crown-Point*, within the Limits of his Majeſty's Territories; and his ‘ Council and Aſſembly having chearfully concurred with him in the Thing, he has ‘ ſent Commiſſioners to this and other Governments, to ſolicit them to join in the Un- ‘ dertaking, and ſome Time ago wrote me fully upon the Head.

'made Application to me. And I now send you a Copy of his Letter, as also of Go-
'vernor *Shirley's* Message to his Council and Assembly, their Resolutions upon it, and
'of his Letter to me upon this and other Affairs. And as you will see by those Papers
'what is expected from this Province, I heartily recommend it to you, to grant the ne-
'cessary Supplies for that important Service.

'I must desire you to keep this Affair secret; for as you have given me no Assurances
'of doing so, the bad Consequences of an untimely Discovery, may, though unjustly,
'be attributed to you.

March 24, 1755. "ROBERT HUNTER MORRIS."

And the Papers referred to in the foregoing Message, were likewise read, and are severally entituled as followeth, *viz.*

1. *A Letter from Governor* Shirley *to Governor* Morris; *dated* February 25, 1755.

Ordered, That the Clerk do take particular Care, that the foregoing Message and Papers be not seen by any but the Members of this House.

The Secretary informed the House, that *Scarroyady* was returned from the *Six Nations* with an Answer to the Message he had in Charge; but having quarrelled with his Interpreter, and left him behind, the Governor desired the Opinion of the House, whether it would not be proper to send for the Province Interpreter, as there was no one now in Town who could converse with the said *Scarroyady*.

The Secretary likewise informed the House, that he had the Governor's Orders to inspect the Journals of this Sitting of Assembly, and desired that the House would give an Answer in Writing to this Demand.

Then the Secretary was desired to withdraw for a While; which he accordingly did.

And the House taking the Governor's Message, relating to the Secretary's inspecting their Minutes, into Consideration,

Resolved, That this House will To-morrow Morning return the Governor an Answer thereto in Writing.

And the Secretary being called in, was informed of the said Resolution, by the Speaker, by Order of the House; and then withdrew.

The Governor, by the Secretary, sent down to the House a Message in Writing, with sundry Papers therein referred to, which were read, and the Message follows in these Words, *viz.*

GENTLEMEN,

A Message from the Governor to the Assembly.

'BY Express from *Maryland*, I have an Account of the safe Arrival of the Transports in *Virginia*, with the Troops and Train of Artillery, destined for *American* Service, upon which I heartily congratulate you.

'His Majesty's Care and Affection for his Subjects in *America* has induced him to 'send this large and seasonable Assistance for the Recovery of those Possessions that the '*French*, contrary to the Faith of Treaties, have seized; and we shall be greatly wanting to ourselves, if we neglect to make Use of this Opportunity to frustrate the Attempts of that perfidious People.

'To render effectual the Measures taken by his Majesty and our Mother Country upon 'this Occasion, it is expected that the Colonies shall raise an additional Number of Men 'to join those his Majesty has sent upon this Service; and that they should furnish Provisions, and all Necessaries, to the Forces employed for their Protection; as you will 'see by a Letter from the Earl of *Halifax*, and another from General *Braddock*, to me, 'which will be laid before you. And this is so reasonable in itself, that I cannot doubt 'of its being readily complied with by all the Provinces, in Proportion to their Abilities; and I hope, that as *Pennsylvania* is the most interested in the Event of this Expedition, you will exert yourselves as becomes the Representatives of a People actually 'invaded, and having their All depending upon the Success of the present Enterprise.

'I earnestly beseech you, Gentlemen, well to consider what may be the Consequence 'of your now refusing to grant the necessary Supplies, as we may be assured his Majesty

'will

1755. March 25.

'will not condeſcend repeatedly to recommend to you in vain the making Proviſion 'for your own Defence; but will, doubtleſs, upon your Refuſal, be enabled by his 'Parliament to oblige thoſe who reap the immediate Benefit of ſuch a chargeable Pro- 'tection to contribute their Proportion of it; and if by a Diſappointment in the Ar- 'ticles expected to be ſupplied by you, the great Expence that the Nation has been put 'to for the Security of theſe valuable Branches of the *Britiſh* Empire ſhould be rendered 'unavailable, you cannot but think you will juſtly draw upon you the Reſentment of 'his Majeſty, and a *Britiſh* Parliament.

March 25, 1755. *ROBERT HUNTER MORRIS.*"

The Papers ſent down to the Houſe, with the foregoing Meſſage, are entituled as followeth, *viz.*

2. *A Letter from General* Braddock *to the Governor*; *dated* Williamſburg, March 10, 1755.

The following Meſſage to the Governor, in Anſwer to his Meſſage of the 21ſt Inſtant, was delivered to the Secretary, by Order of the Houſe, *viz.*

May it pleaſe the GOVERNOR,

Aſſembly's Anſwer to the Governor's Meſſage of the 21ſt Inſtant.

WHEN the preſent Sitting is ended, the Minutes will be reviſed by the Committee appointed for that Purpoſe, and immediately printed, and when printed, a fair Copy will be preſented to the Governor, according to our long continued Cuſtom. Till then, we hope the Governor will excuſe us, if we do not permit any Perſon to inſpect them, or any Copy of them to be taken."

The Order of the Day being read, for the Houſe to reſolve itſelf into a Committee of the whole Houſe, to conſider of Ways and Means for raiſing a Sum of Money for the King's Uſe;

Reſolved, That the Speaker do now leave the Chair.

The Houſe accordingly reſolved itſelf into a Committee of the whole Houſe, to conſider of Ways and Means for raiſing a Sum of Money for the King's Uſe; and after ſome Time ſpent therein, the Speaker reſumed the Chair, and *Hugh Evans*, Chairman, reported, that the Committee had made ſome Progreſs in the Matters referred to them, but not having Time to go through the ſame, they had directed him to move for Leave to ſit again in the Afternoon.

Reſolved, That this Houſe will again reſolve itſelf into a Committee of the whole Houſe, to take into their further Conſideration Ways and Means for raiſing a Sum of Money for the King's Uſe, this Afternoon.

A Petition from a considerable Number of the Cordwainers of the City of *Philadelphia* was presented to the House and read, setting forth, that great Quantities of Leather being of late Years exported from this Province, it is now become very scarce; that the Tanners taking Advantage thereof, not only demand very high Prices for the Leather consumed here, but also raise it to such a Pitch in Lime (to open the Pores of the Hides to let in the Juice of the Bark, that it may tan quick) that it is generally unfit for Use, and makes unservicable Shoes, to the great Deceit and Injury of the Buyers; that the Tanners likewise neglect to scour the Skins from the Dirt and yellow Stuff of the Tan, and to clear the Sole-leather of the Flesh and Offals left by the Butchers on the Hides, by which Means the Hides weigh considerably more than they ought; that some of the Tanners also sell their Leather very damp, and the Butchers, by cutting and slashing the Hides and Skins, render them disadvantageous both to the Cordwainers and Wearers of the Shoes; that the Petitioners are often obliged to buy and work up such Leather, bad as it is, or let a Number of Hands be idle, to the Ruin of themselves and Families; that the Petitioners are informed, that several Gentlemen, justly dissatisfied with the Shoes made in *Philadelphia*, on Account of the Badness of the Leather, send to *Europe* for their Shoes, which Practice, if continued, will occasion the Cordwainers Trade to decline in the said City, and drive a Number of industrious Families out of the Province; that the Tanners frequently buy up the Leather that is sent hither from *Carolina* and elsewhere, and sell it again by Retail to the Cordwainers, by which Means they keep up the Price thereof: The Petitioners therefore pray, that this House would take the Premises into their Consideration, and grant them Leave to bring in a Bill to remedy the Evils complained of, or afford them such other Relief as shall be judged most proper. *March* 28.

Ordered, That the Clerk do make out a Copy of the said Petition, and deliver it to some of the Tanners of the City of *Philadelphia*, that they may have an Opportunity of answering the Matters contained therein, should they so incline.

The before-mentioned Meſſages and Papers were read, and the Meſſages follow in theſe Words, *viz.*

GENTLEMEN,

A Meſſage from the Governor to the Aſſembly.

'SCARROYADY coming to Town without an Interpreter, I ſent for Mr. *Weiſer*, 'and Yeſterday received from this Chief an Account of his Proceedings in the Diſ-'charge of the ſeveral Matters committed to his Care by the *Ohio Indians*, and the Go-'vernments of *Virginia*, *Maryland*, and this Province; which, together with what paſ-'ſed when he was laſt here in his Way to the *Six Nations*, will be laid before you by 'the Secretary.

'So much depends on the Diſpoſition and Meaſures of the *Indians* at this Time, that 'I muſt earneſtly recommend it to you to make Proviſion for the enſuing Treaty, as 'well as to enable me to take proper Notice of this Chief, who is ſo hearty in our In-'tereſt, and of the young Men he has brought along with him, in order to be employed 'in ſome Services, which, he ſays, are of Importance to the general Cauſe.

'It will readily occur to you, that the ſeveral Weſtern *Indians*, who wiſh well to the '*Engliſh* Intereſt, wait with Impatience for the Return of this Chief, and will form 'their Meaſures according to the Report which he ſhall make to them of our Treatment 'of them; for which Reaſon it will be of the laſt Conſequence, that this Chief, and 'theſe young Men, go from us well cloathed, and perfectly well pleaſed.

March 31, 1755. *ROBERT HUNTER MORRIS.*"

GENTLEMEN,

A Meſſage from the Governor to the Aſſembly.

'YOUR Bill for ſtriking *Twenty-five Thouſand Pounds*, being contrary to his Ma-'jeſty's Inſtructions relating to Paper-money, and of the ſame Nature with the 'Bill I refuſed my Aſſent to the laſt Sitting of Aſſembly, I cannot paſs it into a Law, 'without a Breach of Duty to the Crown; and I am concerned that you ſhould offer 'ſuch a Bill to me, when you had agreed to ſubmit the Diſpute between us, upon one 'of the like Kind, to his Majeſty.

'As this is a Time of imminent Danger, and the Forces raiſed and deſtined for the 'Service of the Colonies muſt wait the Supplies from this Province, I again intreat you 'to fall upon ſome other Method of raiſing Money, that we may not loſe this happy Op-'portunity of recovering his Majeſty's Dominions, now invaded by the Subjects of the '*French* King, and preventing their juſt Encroachments for the future.

'But if theſe repeated Recommendations of ſo reaſonable a Supply ſhall fail of the 'deſired Effect, and any ill Conſequences ſhould attend it, his Majeſty and his Mini-'ſters, a *Britiſh* Parliament, your own Conſtituents, and the neighbouring Governments, 'will be at no Loſs on whom to lay the Blame.

April 1, 1755. *ROBERT HUNTER MORRIS.*"

The Governor likewiſe ſent down to the Houſe the Bill to prevent the Exportation of Proviſions, and naval or warlike Stores, to the *French*, which, the Secretary acquainted the Houſe the Governor was ready to paſs into a Law, whenever the Houſe ſhall think fit to offer it to him for that Purpoſe; but he recommended it to the Houſe to conſider whether it would not be proper to leave out that Paragraph in the ſaid Bill which relates to Boats and ſmall Craft, and likewiſe to continue the Act in Force for a longer Term.

Adjournment. Then the Houſe adjourned to Three o'Clock, *P. M.*

Poſt Meridiem. The Houſe being informed that *Joſiah Quincy*, Eſq; Commiſſioner from the Government of *Maſſachuſetts-Bay*, was attending, and had ſomething to offer to the Houſe for their Conſideration, he was called in, and, with the Leave of the Houſe, read, and then delivered in at the Table, the following Memorial, *viz.*

A MEMO-

A MEMORIAL from JOSIAH QUINCY, *Esq; Commissioner from his Majesty's Province of* Massachusetts-Bay, *in* New-England. 1755. April 1.

To the Honourable HOUSE OF REPRESENTATIVES *of the Province of* Pennsylvania, *now sitting in Philadelphia.*

GENTLEMEN,

'I AM extremely sorry to find, that notwithstanding all the Motives and Arguments I was able to offer his Honour the Lieutenant-Governor, he did not see his Way 'clear to give his Consent to the Money Bill you have laid before him.

'The Chearfulness with which you therein granted *Ten Thousand Pounds*, for victualling the Forces, intended to march from *New-England* to secure his Majesty's Territories, leaves me no Room to doubt your Zeal for his Majesty's Service, or your 'hearty Concurrence with the Government I have the Honour to represent, in the Measures now proposed for our common Safety: And therefore, though you are unhappily disappointed in the Manner of your Grant, I flatter myself you will not fail to find 'some other Means of rendering it effectual.

'The Advantages which a speedy and vigorous Execution of those Measures promises 'to all the Colonies, and the Mischiefs which a Neglect of them will entail upon us 'and our Posterity, are clearly pointed out, and fully illustrated in the Papers which 'have been the Subject of your late Deliberations.

'In rendering this important Service to the Crown, to the *British* Nation, and to 'their Fellow Subjects in the other Governments, *New-England* offers to spend her 'Treasure as freely as her Blood, and were her Abilities equal to her Zeal, would as 'chearfully bear the whole Expence, as she undertakes the whole Hazard of the Enterprize. But the vast yearly Charge she is subjected to, by her Vicinity to the *French*, 'and the Necessity of defending so extensive a Frontier from the Incursions of those perfidious People, and their *Indians*, both in Time of Peace and War, has so exhausted 'her Finances, and burdened her with such a Load of Debt, that without the Assistance 'of the neighbouring more wealthy Colonies, she must drop the Design, however promising and glorious, as utterly impracticable.

'Happy will your Province be, Gentlemen, if you can still keep those dangerous 'People at a Distance from your Borders, by which you will be free from the many 'Mischiefs we have always suffered by their Neighbourhood.

'The Opportunity is now offered you, and, if embraced, will, by the Blessing of 'God, secure your future Peace and Prosperity. But whatever you do, should be determined instantly, for the Season flies, and a Delay may be as pernicious as a Refusal.

'I have just received Advice, that *Connecticut* has voted Fifteen Hundred Men, and 'that even the little Government of *Rhode-Island* has granted Four Hundred, the Expence of which will be more than is asked of you. *New-York* seems heartily disposed 'to do her Part; and there is Reason to think that your good Example may have an 'advantageous Influence on your Neighbours of *New-Jersey*.

'I need say no more to urge you to a speedy and effectual Resolution, but conclude, 'with the utmost Respect, *Gentlemen*,

Your most humble

Philadelphia, April, 1, 1755. *and obedient Servant,*

JOSIAH QUINCY."

Ordered, That *Joſeph Fox* and *William Callender* do provide *Scarroyady*, and the other *Indians* accompanying him, with ſuch Clothes and other Neceſſaries as they may have Occaſion for.

Then the Houſe adjourned to Three o'Clock, *P. M.* Adjournment *Poſt Meridiem*

Ordered, That *William Callender* and *George Aſhbridge* wait upon the Governor with the Bill for preventing the Importation of *German* or other Paſſengers, or Servants, in too great Numbers in any one Ship or Veſſel, *&c.* and acquaint him, that the Houſe have agreed to ſundry of his propoſed Amendments to the ſaid Bill, and deſire that he would be pleaſed to paſs the ſame as it now ſtands; and further, that they acquaint the Governor, that the Bill to prevent the Exportation of Proviſions, and naval or warlike Stores, to the *French*, is engroſſed, with the Alterations agreed on, and the Houſe requeſt he would be pleaſed to appoint one of his Council to join with a Member of the Houſe in comparing the ſaid engroſſed Bill with the Original.

The Committee of Accounts reported in Writing on *George Croghan's* Account as follows, *viz.*

WE, your Committee, have examined the within Account, and finding the Sums therein charged, for Purchaſe of Wheat and Flour, ſo large, without aſcertaining the Quantity of each Article, or the Number of *Indians* which have, from Time to Time, been ſettled at *Aughwick*; and on a Calculation of the Wheat at *Three Shillings* and *Six-pence* per Buſhel, and Indian Corn at *Two Shillings* per Buſhel, it will amount to near five Pounds of Flour for each Perſon, *per* Day, ſuppoſing the Number to be Two Hundred, computing five Months from the Twenty-fifth of *November* laſt, which we think a very high Charge. —— We are therefore of Opinion, that the ſaid *George Croghan* ought to furniſh us with an Account of the Number of *Indians* which have been at *Aughwick* from the Commencement of this Account; alſo the particular Account of the Quantity of Wheat and Corn purchaſed for them, with proper Vouchers

1755. *April* 4. for the ſame, before we allow this Account: And we are further of Opinion, that as the Seaſon is now advancing, it will be moſt proper for the *Indians* to remove to a Place called *French Town*, ſituate on a Branch of the River *Saſquehanna*, where they may be able to plant and hunt for themſelves, and if it ſhould be found neceſſary to furniſh them with future Aſſiſtance for their Subſiſtence, it may be done at a far leſs Expence to the Government. Which we ſubmit to the Houſe.

EVAN MORGAN, WILLIAM CALLENDER,
JOSEPH FOX, JOSEPH HAMTON,
JAMES PEMBERTON, JOSEPH STRETCH."

The 4th Day of the Fourth Month, *called* April, 1755.

The Gentlemen appointed to wait upon the Governor with the Bill for preventing the Importation of *German* or other Paſſengers, or Servants, in too great Numbers in any one Ship or Veſſel, *&c.* reported, that they had delivered the ſame according to Order, and that the Governor was pleaſed to ſay, he would appoint a Member of his Council, to join with a Member of the Houſe, in comparing the Bill for preventing the Exportation of Proviſions, *&c.* to the *French*, whenever the Houſe ſhould think proper.

A Petition from *Samuel Hazard*, of the City of *Philadelphia*, Merchant, was preſented to the Houſe and read, ſetting forth, that the Petitioner hath projected a Scheme for the Settlement of a New Colony to the Weſtward of this Province (a Copy of which is annexed to his Petition); that the Petitioner conceives ſuch a Settlement to be highly neceſſary for the Safety of this and all his Majeſty's Colonies in *North-America*, and would be of very great Advantage to the Trade of *Great-Britain*; and that as the carrying ſaid Scheme into Execution will unavoidably be attended with much Trouble, and a very great Expence, the Petitioner therefore prays, that this Houſe would be pleaſed to take the Premiſes into their Conſideration, and grant ſuch Aſſiſtance as to them ſhall ſeem meet.

Ordered to lie on the Table.

Ordered, That *Mahlon Kirkbride* be appointed to join with a Member of Council, to compare the Bill to prevent the Exportation of Proviſions, *&c.* to the *French*; and to wait upon the Governor, and deſire he would be pleaſed to appoint a Time to receive the Houſe, in order to enact the ſame into a Law.

Adjournment. Then the Houſe adjourned to Ten o'Clock To-morrow Morning.

April 5. *Mahlon Kirkbride* reported, that he had, with a Member of Council, compared the engroſſed Bill with the Original, and found them to agree; and that the Governor was pleaſed to ſay, that he will receive the Houſe at Eleven o'Clock in the Council Chamber, in order to paſs the ſaid Bill into a Law.

Ordered, That *Evan Morgan* and *James Pemberton* ſee the Great Seal affixed to the Law, after it ſhall be paſſed, and the ſame depoſited in the Rolls Office.

An Addreſs, ſigned by fourteen Tanners of the City of *Philadelphia*, and *Germantown*, in Anſwer to the Petition of the Cordwainers of the ſaid City, was preſented to the Houſe and read, and follows in theſe Words, *viz.*

To the Honourable HOUSE of REPRESENTATIVES *of the Province of* Pennſylvania,

The ADDRESS *of the Tanners of the City of* Philadelphia, *and* Germantown.

Humbly ſheweth,

Tanners Addreſs. WE the Subſcribers thankfully acknowledge the Regard you have ſhewn us, in favouring us with a Copy of a Petition from the Cordwainers of ſaid City; wherein they groundleſsly complain of the Exportation of Leather out of this Province, to the Impoveriſhing of ſaid City in that Commodity, muſt of Conſequence be a manifeſt Miſtake, which, upon Examination amongſt ourſelves, we do find that for ſeveral Years paſt there hath little or no great Quantity of Leather been exported by any of the Subſcribers, or ſold for Exportation, but the greateſt Part of it is generally ſold to the People in the Country. And as for demanding very high Prices for our Leather, we had no Intention, until they, by raiſing the Price of giving more for *Carolina* Leather than our own, equally good or better, together with their other Conduct, induced us to raiſe the Price. And that as for engroſſing the Leather from foreign Parts imported here, we are in a Meaſure clear, until applied to by the Owner or Owners thereof: And it is, and has been, our conſtant Care to import and purchaſe Hides imported from foreign Parts, to the Amount of ſeveral Thouſands, within this Twelvemonths paſt, by giving an encouraging Price, for the Benefit of the Cordwainers and Commonalty of the Province of *Pennſylvania*: And ſeveral of the Cordwainers, ſubſcribed to the Petition preſented to the Honourable Houſe, have been, to our certain Knowledge, ſo over-ſtocked with Leather, that they have expoſed it to public Sale from Day to Day: And as their aſſuming the Office of Dictators, charging us in the Manner they do, in over-liming our Hides and Skins, to open the Pores to let in the Juice of the Bark, being directly oppoſite to our Intereſt, the Leather thereby weighing ſo much the lighter; and accuſing us with not ſcouring the Leather from the Dirt and yellow Stuff of the Tan; we are well aſſured, if they were acquainted with the Currying Buſineſs, they would

would confeſs and ſay with us, if Leather were not well ſcoured on the Grain, it would not take the Blacking; and uſing the Knife on the Fleſh Side, muſt of Conſequence clear them of more Dregs of the Bark than any ſcouring whatever. And as to their complaining of the Butchers in ſlaughtering, by cutting the Hides, being very diſadvantageous to the Cordwainers and Wearers of Shoes, we, as well as they, would be very glad to have Redreſs. And they ſay in their Petition, ſome of the Tanners ſell their Leather damp, which we the Subſcribers deny, and Leave the ſame on them to make appear: And as to the Diſadvantage of the Public being ſerved with bad Shoes, it proceeds from the Cordwainers buying the moſt of their Leather from Foreigners, or out of the Country, ſome of which is tanned by ſuch as never ſerved their Times to the Buſineſs, and thereby prove deficient in their Performances, as well as ſewing them careleſsly, and with bad Thread, for we generally find the Deficiency in that Part: Therefore, may it pleaſe this Honourable Houſe to take the ſeveral Matters before-mentioned into your Conſideration, and we the Subſcribers hereunto ſubmit the Whole entirely to your Diſcretion, as you in your Wiſdom ſhall ſeem meet, *&c.* 1755. *April* 5.

The 3d Day of the Fourth Month, 1755.

Ordered to lie on the Table.

A Petition from *John Daviſon* was preſented to the Houſe and read, ſetting forth, that the Petitioner was, about four Months ago, employed by the Governor to go as an Interpreter with two *Indians* to the *Six Nations*, in which Journey he was obliged to part with his Clothes (the Money he was furniſhed with not being ſufficient to bear his Charges); the Petitioner therefore prays that this Houſe will be pleaſed to grant him Relief in the Premiſes, and likewiſe allow him ſome Money to bear his Expences home.

Ordered to lie on the Table.

A Meſſage from the Governor, by the Secretary:

Mr. SPEAKER,

The Governor is now ready to receive the Houſe in the Council Chamber.

Then the Speaker, with the whole Houſe, waited on the Governor; and being returned, the Speaker reſumed the Chair, and reported, that the Houſe had waited on the Governor with the Bill, entituled, *An Act to prevent the Exportation of Proviſions, naval or warlike Stores, from this Province to* Cape-Breton, *or to any other the Dominions of the* French *King, or Places at preſent in Poſſeſſion of any of his Subjects*; to which the Governor was pleaſed to give his Aſſent, by enacting the ſame into a Law.

The Governor's Meſſage of the Firſt Inſtant, relating to *Indian* Affairs, and *George Croghan's* Account for Diſburſements, *&c.* were again read, aud conſidered; and, after ſome Time ſpent therein,

Ordered, That *Evan Morgan, Joſeph Fox, Joſeph Stretch, James Pemberton, Benjamin Franklin, William Callender* and *Joſeph Hamton* be a Committee to prepare a Draught of an Anſwer to the ſaid Meſſage.

Reſolved, That the Sum of *Three Pounds* be allowed to *John Daviſon, Indian* Interpreter; and an Order was accordingly drawn on the Treaſurer, and ſigned by the Speaker, by Order of the Houſe, for Payment of the ſame.

Ordered, That *Calvin Cooper* and *Joſeph Armſtrong* have Leave to be abſent the Remainder of this Sitting, on urgent Buſineſs.

Ordered, That the Clerk do furniſh *Joſeph Armſtrong* with a Copy of *George Croghan's* Account, in order that the ſaid *Armſtrong* may make Enquiry concerning ſundry Charges contained therein, and inform the Houſe thereof.

Then the Houſe adjourned to next *Third-day*, at Three o'Clock, *P. M.*

Adjournment *April* 8.

The Houſe met according to their Adjournment. *Poſt Meridiem*

The Governor, by the Secretary, ſent down to the Houſe a Meſſage in Writing, which was read, and is as follows, *viz.*

GENTLEMEN,

A Meſſage from the Governor to the Aſſembly.

'I EXPECT Governor *Shirley* and Governor *De Lancey* in Town this Evening, in 'their Way to *Annapolis*, to meet General *Braddock*, Governor *Dinwiddie* and Gover-'nor *Sharpe*, whither I propoſe to accompany them. I imagine they will chuſe to go 'forward early To-morrow Morning, as the Affairs we are called together upon will 'admit of no Delay.

'I think it neceſſary to notify this to you, and recommend it to you to make a ſhort 'Adjournment, as it is very probable that I ſhall have ſeveral Matters to lay before you 'upon my Return.

April 8, 1755. *ROBERT HUNTER MORRIS.*"

The Secretary alſo laid before the Houſe a Letter to the Governor from one *Spangenberg*, at *Bethlehem*, in this Province; and addreſſing himſelf to the Chair, ſaid,

SIR,

1755. *April* 8.

SIR,

" The Governor commands me to inform the Houſe, that the *Indians* expreſs much " Diſſatisfaction, and ſay their young Men are aſhamed to go naked through their " Brethrens Country, and ſhow themſelves among their People at *Aughwick* without " Clothes. He further recommends it to the Houſe, to ſend a careful Man with them " at leaſt one Day's Journey; and that they give to *Scarroyady* a ſufficient Sum to defray " their Expences in their Journey to *Aughwick*."

Reſolved, That the Sum of *Fifty Pounds* be now allowed to *George Croghan*, in Part of his Account, for Diſburſements among the *Indians* at *Aughwick*.

The Committee appointed to prepare a Draught of a Meſſage to the Governor, reported the ſame to the Houſe, and it was read, agreed to, and ordered to be tranſcribed, that it may be ſent up to the Governor.

Adjournment *April* 9.

Then the Houſe adjourned to Ten o'Clock To-morrow Morning.

Benjamin Franklin, Poſt-maſter General, reported to the Houſe, that he had conſidered the Propoſal of maintaining a regular Poſt from this City to *Winchester*, and is willing to undertake the ſame, and keep an Account of the Expences attending the Maintaining ſuch Poſt, and the Produce from the Letters conveyed thereby, and exhibit the ſame Account to the Aſſembly at the End of the Year, if the Houſe ſhall think fit to agree to make good the Deficiency, in caſe the Produce ſhould not prove equal to the Expence.

And the Houſe taking the ſaid Propoſal from *Benjamin Franklin* into Conſideration, unanimouſly agreed thereto, and ordered that all Letters ſent by the ſaid Poſt to and from the Army ſhould paſs free of all Charge.

Reſolved, That this Houſe will this Day adjourn to the Twelfth Day of next Month.

The Draught of the Meſſage to the Governor being tranſcribed, was again read, and is as follows, *viz.*

May it pleaſe the GOVERNOR,

A Meſſage from the Aſſembly to the Governor.

AS the Seaſon of the Year is now favourable, and the Time when the *Indians* ought to plant their Corn, we hope the heavy Charges we have ſuſtained for ſupporting them through the Winter, are nearly over: Nevertheleſs, as we are unwilling to leave them entirely beyond our Notice, we are of Opinion, it may be adviſable to ſettle the *Indians* from *Aughwick*, and ſuch others as may continue to take Refuge among us, upon their own Lands at *French Town*, where there is, as our Interpreter informs us, a conſiderable Quantity of cleared Land, formerly an *Indian* Settlement.—Here they might plant their Corn, and hunt, towards their own Subſiſtence, and occaſionally apply to this Government for Help in Caſes of real Neceſſity. But as our Treaſury is exhauſted by the immediate Calls of the Crown, in Support of the *Britiſh* Intereſt in *North-America*, we are not able to aſſiſt them in the Manner we could wiſh and deſire; and what we can do muſt be conducted with Juſtice and Frugality.

The Governor has been pleaſed to recommend to us particularly " to make Proviſion " for the enſuing Treaty—and to enable him to take proper Notice of *Scarroyady*, and " the young Men he has brought along with him." We ſhall provide for this Chief, and the young Men, to their Satisfaction. But as this is the firſt time we have heard of the Treaty, and the Governor has not been pleaſed to lay before us the Neceſſity of ſuch a Treaty, or the Matters to be treated of when there, we preſume he will not expect any immediate Reſolves of this Houſe, till he ſhall be pleaſed to communicate ſuch further Information on that Head as he may judge neceſſary."

And the ſaid Meſſage being ſigned by the Speaker, by Order of the Houſe,

Ordered, That *Griffith Owen* and *Joſeph Gibbons* wait upon the Governor with the ſame, and acquaint him with the propoſed Time of Adjournment.

The Gentlemen appointed to wait upon the Governor with the Meſſage of the Houſe, return, and report, that they had delivered the ſame according to Order; and that the Governor was pleaſed to ſay, he thought the propoſed Time of Adjournment was rather too long; but that he ſhould, if he found it neceſſary, call the Houſe ſooner.

An Order was drawn on the Treaſurer, and ſigned by the Speaker, by Order of the Houſe, for Payment of *John Harris's* Account, amounting to *Eighteen Pounds Ten Shillings* and *Nine-pence*, allowed by the Houſe at their laſt Sitting.

The Committee appointed to furniſh *Scarroyady*, and the *Indians* accompanying him, with Clothes, and other Neceſſaries, are directed to employ *George Hutchinſon*, who is now in this City on a Meſſage from *George Croghan*, to conduct the ſaid *Indians* over the *North-Mountain*.

Then the Houſe adjourned to the Twelfth Day of the *Fifth Month*, called *May*, next.

Poſt Meridiem *Reſolved*, That this Houſe will To-morrow adjourn to the Firſt Day of *September* next.

The Meſſage to the Governor, being tranſcribed, was again read, and follows in theſe Words, *viz.*

May it pleaſe the GOVERNOR,

A Meſſage from the Aſſembly to the Governor. UPON the Governor's Meſſage of the Twelfth of *December* laſt, recommending to us a Reviſion of the Laws now in being, relating to ſickly Veſſels and Paſſengers, and that we would make proper Proviſion for preventing the ill Effects that might ariſe from ſuch for the future, and as far as in our Power prevent the Spreading of any infectious Diſorder that might be introduced into this City and Province; we immediately prepared and ſent up a Bill, which we preſume would, in a great Meaſure, have anſwered that good Purpoſe, and at the ſame Time have left open to the fair Trader all the valuable Advantages which could accrue to the Province from ſuch Importations.

The grievous Calamities we were then threatened with; the melancholy Spectacle of the

the Distress of so many of our Fellow-Creatures, perishing for Want of Change of Apparel, Room and other Necessaries, on board their Ships, and after their being landed among us; the extreme Danger the Benevolent and the Charitable exposed themselves to in approaching those unhappy Sufferers; together with the Governor's own Recommendation, gave us Reason to hope, that he might be at Liberty, and that his own Inclinations would have induced him to have passed such a Bill as might prevent the like for the future: But we are under the greatest Concern, to find ourselves disappointed in these our reasonable Expectations. 1755. *May* 15.

By our Charters, and the Laws of this Province, the whole Legislative Power is vested in the Governor and the Representatives of the People; and as we know of no other Negative upon our Bills but what the Governor himself has, we could wish he had been pleased to have exercised his own Judgment upon this our Bill, without referring the Consideration of it to a Committee of his Council, most of them such, as we are informed, who are, or have lately been, concerned in the Importations, the Abuses of which this Bill was designed to regulate and redress.

The *German* Importations were at first, and for a considerable Time, of such as were Families of Substance, and industrious sober People, who constantly brought with them their Chests of Apparel, and other Necessaries for so long a Voyage; but these we apprehend have, for some Time past, been shipped on board other Vessels, in order to leave more Room for crowding their unhappy Passengers in greater Numbers, and to secure the Freights of such as might perish during the Voyage, which Experience has convinced us must be the Case of very many, where such Numbers (as have been lately imported in each Vessel) are crowded together without Change of Raiment, or any other Means of keeping themselves sweet and clean. But this Provision the Governor has been pleased to throw out of our Bill; and yet we think it so essentially necessary, that the Want of it must necessarily poison the Air those unhappy Passengers breathe on Shipboard, and spread it wherever they land, to infect the Country which receives them; especially as the Governor has likewise altered the Provision we had made by the Advice of the Physicians, for accommodating them with more Room and Air upon their Arrival here.

We have Reason to believe, the Importations of *Germans* have been for some Time composed of a great Mixture of the Refuse of their People, and that the very Goals have contributed to the Supplies we are burdened with: But as there are many of more Substance and better Character, we thought it reasonable to hinder the Importer from obliging such as had no Connections with one another to become jointly bound for their respective Freights or Passages; but the Governor has thought fit to alter this also in such a Manner as to elude the good Purposes intended by the Act; by which Means, those who are of more Substance are involved in the Contracts and Debts of others, and the Merchant secured at the Expence of the Country, where they are necessitated, and do become very frequently common Beggars from Door to Door, to the great Injury of the Inhabitants, and the Increase and Propagation of the Distempers they have brought among us.

Many who have indented themselves for the Payment of their Passages, have frequently been afflicted with such secret and loathsome Diseases at the Time, as have rendered them altogether unfit for the Services they had contracted to perform, for which we had provided a Remedy by the Bill; but the Governor has thought fit to strike it out, and leave us exposed to this grievous Imposition without a Remedy.

As we are situated between two neighbouring Governments, not subject to our Laws, we had provided against landing such Importations as were designed for this Colony, either in *New-Jersey* or the Three Lower Counties, merely to elude the Force of our Law, and to introduce them from either of these into this Province; but the Governor has also rejected the Provision we had made on this Head, as we apprehend, to the utter Subversion of any Provision we can make to regulate this Trade.

From these, and many other Alterations which the Governor, after having had the Bill repeatedly under his Consideration, is pleased to adhere to, we are of Opinion, that should we assent to the Bill as it comes down from the Governor, we should be more exposed to the Abuses and Grievances it was intended to redress, than we are at present by the Laws now in being, if duly executed: We therefore are under the Necessity of leaving all the ill Consequences which may attend the Refusal of passing our Bill upon the Governor himself; and do earnestly recommend them to his most serious Consideration."

And the Message being signed by the Speaker, by Order of the House,

Ordered, That *Evan Morgan* and *Joseph Stretch* do wait upon the Governor, and deliver the same, and acquaint him, that the House is inclined to adjourn To-morrow to the First of *September* next, if the Governor hath no Objection to that Time.

The Gentlemen return, and report, that they delivered the Message of the House, and acquainted the Governor with the proposed Time of Adjournment, according to Order;

1755. *May* 15. Order; and that the Governor was pleaſed to ſay, he would conſider the Meſſage, and if any Thing therein, or any other Matter occurred that might require their longer Stay, he would acquaint the Houſe in the Morning.

Reſolved, That the Expence of making the new Roads, now cutting through *Cumberland* County to *Wills's-Creek* and *Mohongahela*, ſhall be defrayed by this Aſſembly.

Adjournment *May* 16. Then the Houſe adjourned to Ten o'Clock To-Morrow Morning.

An Account of *Thomas Jervis*, for Expences on *Indians*, and going Expreſs to *Carliſle*, was read, and referred to the Committee of Accounts.

The Governor ſent down a written Meſſage to the Houſe, which was read, and is as follows, *viz.*

GENTLEMEN,

A Meſſage from the Governor to the Aſſembly. 'WHEN I ſummoned you together on the Seventeenth of *March* laſt, I was in 'Hopes you would bring with you Inclinations to promote the Public Service, 'by granting the Supplies expected by the Crown, and by putting this Province into a 'Poſture of Defence; but I am ſorry to find, that neither the Danger to which this 'Country ſtands expoſed, nor his Majeſty's repeated and affectionate Calls, have had 'any Weight with you.

'The Bill you ſent me for ſtriking *Twenty-five Thouſand Pounds* was of a more ex'traordinary Nature than that I refuſed my Aſſent to in the Winter Seſſions, as it gave 'General *Braddock* a Power over no more than *Five Thouſand Pounds*, and ſubjected the 'remaining *Twenty Thouſand*, and all the Surplus of the Exciſe, for eleven Years to 'come, to the Diſpoſition of ſome of the Members of your Houſe, and to the Aſſembly 'for the Time being.

'The offering Money in a Way, and upon Terms that you very well knew I could 'not, conſiſtent with my Duty to the Crown, conſent to, is, in my Opinion, trifling 'with the King's Commands, and amounts to a Refuſal to give at all; and I am ſatis'fied will be ſeen in this Light by my Superiors; who, by your Bill abovementioned, 'which I ſhall lay before them, and by the Whole of your Conduct ſince you have been 'made acquainted with the Deſigns of the *French*, will be convinced, that your Re'ſolutions are, and have been, to take Advantage of your Country's Danger, to aggran'dize and render permanent your own Power and Authority, and to deſtroy that of the 'Crown. That it is for this Purpoſe, and to promote your Scheme of future Indepen'dency, you are graſping at the Diſpoſition of all Public Money, and at the Power of 'filling all the Offices of Government, eſpecially thoſe of the Revenue; and when his 'Majeſty and the Nation are at the Expence of ſending Troops for the Protection of 'theſe Colonies, you refuſe to furniſh them with Proviſions and neceſſary Carriages, 'though your Country is full of both; unleſs you can, at the ſame Time, encroach upon 'the Rights of the Crown, and encreaſe your own Power, already too great for a Branch 'of a ſubordinate dependant Government, ſo remote from the principal Seat of Power.

'You have, Gentlemen, by a Vote of your own Houſe, without the Conſent of the 'Government, empowered a Committee of your Members to borrow Money upon the 'Credit of the Aſſembly, and to diſpoſe of the ſame to certain Uſes in that Vote men'tioned.—You have alſo, by Votes and Reſolves of your own Houſe, created Bills or 'Notes of Credit, made payable to the Bearers thereof, to the Amount of *Fifteen Thou'ſand Pounds*, which you have iſſued in Lieu of Money, and they are now circulating 'in this Province, without the Approbation of the Government.—You have denied me 'Acceſs to your Journals, and refuſed me Copies of your Minutes. — And you have 'printed and publiſhed the Secretary of State's Letters to me, ſignifying his Majeſty's 'Commands, not only without my Conſent, but contrary to an Order I had iſſued to 'the Printers, expreſsly forbidding the Publication of thoſe Letters.

'Whether you have a Right to the Exerciſe of ſuch extraordinary Powers, his Ma'jeſty and his Miniſters will judge, before whom it is my Duty to lay your Proceedings 'as ſoon as I can come at them, and to whom they will appear the more dangerous, as 'neither they nor you can know but a future Aſſembly may uſe thoſe Powers againſt 'the Government by which they are protected.

'While I had any the moſt diſtant Hopes of your coming into Meaſures that might 'promote the Public Service at this critical Conjuncture, I ſuffered ſome Parts of your 'Conduct to remain unobſerved upon; but as I am now convinced, from the whole 'Tenor of your Behaviour, and from your Meſſage of Yeſterday, notifying your Inten'tions to adjourn till *September* next, without granting the neceſſary Supplies, that you 'have no Deſign to contribute any Thing towards the Defence of this Country, I thought 'it right to be no longer ſilent upon thoſe Heads.

'*Gentlemen*, when the Bill to prevent the Importation of the *Germans*, &c. was under 'my Conſideration, I took ſuch Advice upon it, and made ſuch Amendments to it, as 'I thought would beſt anſwer the Public Purpoſes, and put that Trade upon ſuch a 'Footing as to prevent the many Abuſes that had been practiſed in it, and at the ſame

1755. *May* 16.

'Time ſecure this City and Province againſt the coming in and ſpreading of infectious 'Diſtempers.—How far the Bill as propoſed by you, or amended by me, would, or 'would not, have anſwered thoſe Ends, was a Matter proper to be conſidered at a Con-'ference, which you might have deſired if you had thought proper, as it is the only 'Means of bringing a Bill to Perfection, when the Branches of the Legiſlature differ in 'Opinion concerning any Amendments propoſed to it; but inſtead thereof, you have 'ſent me a Meſſage filled with unjuſt Reflections upon the Amendments propoſed by 'me, and plainly deſigned to repreſent me, as having no Regard for the Health or 'Safety of the Inhabitants of this Country; in doing which, I cannot think you have 'paid a proper Regard to Truth.—However, as it is not my Intention to enter into a 'Controverſy with you upon that Bill, which might have been agreed upon between 'us, had the uſual Method of proceeding in ſuch Caſes been purſued by you, I ſhall 'ſay nothing more upon the Head, eſpecially as this Matter ſeems purpoſely choſen 'to lead me and the Public from conſidering that Part of your Conduct that muſt, in 'in its Conſequences, moſt nearly affect the Inhabitants of this Province.

May 16, 1755. *ROBERT HUNTER MORRIS.*"

And the Houſe taking the foregoing Meſſage into Conſideration,

Ordered, That *Evan Morgan*, *Benjamin Franklin*, *Mahlon Kirkbride*, *George Aſhbridge*, *Arthur Patterſon*, *John Wright* and *James Burnſide* be a Committee to prepare a Draught of an Anſwer to the ſame, and report it to the Houſe To-morrow Morning.

Then the Houſe adjourned to Ten o'Clock To-morrow Morning. Adjournment

The Committee appointed to prepare a Draught of an Anſwer to the Governor's Meſſage of Yeſterday, reported the ſame to the Houſe; and it was read, approved, and ordered to be tranſcribed againſt the Afternoon. *May* 17.

The Meſſage to the Governor being tranſcribed, it was again read, and follows in theſe Words, *viz.*

May it pleaſe the GOVERNOR,

A Meſſage to the Governor from the Aſſembly.

WHEN we met, in Obedience to the Governor's Summons, on the 17th of *March* laſt, we really brought with us the ſincereſt Inclinations to promote the Public Service, by granting the Supplies expected by the Crown; and we truſt it will appear to all who impartially examine the Proceedings of that Seſſion, that we did every Thing in our Power, as our Affairs were then circumſtanced; and conſequently that the Danger to which this Country ſtood expoſed, and his Majeſty's repeated and affectionate Calls, had great Weight with us, whatever they had with the Governor.

The Bill we ſent up, for ſtriking the Sum of *Twenty-five Thouſand Pounds*, and giving the ſame to the King's Uſe, and for providing a Fund to ſink it, had nothing extraordinary in its Nature, or differing from other Bills heretofore paſſed or preſented for like Purpoſes in this Province, excepting that the Sum given was extraordinary, compared with the Time propoſed for ſinking it; the Sum for the *Canada* Expedition, in the laſt War, being but *Five Thouſand Pounds*, to be ſunk in Ten Years, and this Sum, though five Times greater, was to be ſunk by the ſame Fund, in the ſame Number of Years. In the Bill *Five Thouſand Pounds* of the Sum was appropriated to pay for Proviſions bought and given for the Uſe of the Forces in *Virginia*, under General *Braddock*; *Ten Thouſand Pounds* more was given to buy Proviſions for the *New-England* Forces under his Command; *Five Thouſand Pounds* more was ſubjected to his Order, and to be diſpoſed of for the King's Service as he ſhould think fit; and the remaining *Five Thouſand Pounds* was appropriated for the Subſiſtence of *Indians* taking Refuge in this Province, Payment of Poſts or Expreſſes, Hire of Carriages, Clearing of Roads, and other neceſſary contingent Expences for the King's Service, as might be incumbent on this Government to diſcharge.—Thus the whole *Twenty-five Thouſand Pounds* was appropriated to the King's Service; and almoſt all of it to the immediate Uſe of General *Braddock*, or to ſuch Purpoſes as were by him eſpecially recommended in his Letters, laid before the Houſe by the Governor. The Members of the Houſe, mentioned by the Governor, were to have no Share in the Diſpoſition of it; it was diſpoſed of by the Bill, and they could only

1755. *May* 17.

have the Trouble of laying it out according to the Appropriation, and keeping the Accounts. This is Truth, and well known to the Governor, if he peruſed our Bill with any Degree of Attention: Yet how differently is it repreſented in the Governor's Meſſage! It is called only, "*A Bill for ſtriking Twenty-five Thouſand Pounds*;" which is but a Part of the Title, the Words, "*and for giving the ſame for the King's Uſe*," being (as it would ſeem) carefully omitted, leſt they might militate againſt the Aſſertion which immediately follows, that "*Twenty Thouſand Pounds* of it was ſubjected to the Diſpoſition of ſome Members of the Houſe, and of the Aſſembly for the Time being." Then it is ſaid, "It gave General *Braddock* a Power over no more than *Five Thouſand* "*Pounds*," becauſe it gave him a Power to draw for, and appropriate as he pleaſed, no more than that Sum, though all the *Twenty-five Thouſand Pounds* (except a ſmall Part for the Support of *Indian* Refugees, which is likewiſe for the King's Service) was appropriated for his, and his Army's Uſe, or Services by him required; and we cannot learn that any other Colony beſides, hath given, or offered to give, that Gentlemen a Power over as many Pence. Great Subtilty and Dexterity appear in this Manner of diſguiſing Truths, and changing Appearances, but we ſee in it very little Candour or Ingenuity.

In the next Paragraph of the Governor's Meſſage, there are many Aſſertions in which we think we are equally miſrepreſented; we are charged with "offering Money in a "Way and upon Terms which we knew the Governor could not, conſiſtent with his "Duty to the Crown, conſent to." We really thought, and ſtill think, it was inconſiſtent with his Duty to the Crown to refuſe it: If we are miſtaken, 'tis an Error in Judgment; we have appealed to our gracious King on this Head, and we hope for a favourable Determination.——We are charged with "trifling with the King's Commands, "and *refuſing to give at all*," though we have actually given great Sums in Obedience to thoſe Commands, and earneſtly endeavoured to give much greater, which the Governor refuſed, unleſs we would give in a Manner which we think inconſiſtent with our preſent juſt Liberties and Privileges, held under the Royal Charter.——We are charged with "reſolving to aggrandize our own Power, and deſtroy that of the Crown:" A Charge, as we conceive, utterly groundleſs, and for which we have never given the leaſt Foundation.——We are charged with a "Scheme of Independency." We have no ſuch Scheme, nor ever had; nor do we, as a Part of the Legiſlature, deſire any Independency but what the Conſtitution authorizes, which gives us a Right to judge for ourſelves and our Conſtituents of the Utility and Propriety of Laws, or Modes of Laws, about to be made; and does not yet, and we confide never will, oblige us to make Laws by Direction.——We are charged with graſping at the Diſpoſition of all public Money, and at the Power of filling all the Offices of Government; a Charge, as we conceive, equally groundleſs and invidious: We have, by Law, a Right to diſpoſe of ſome public Money, and we cannot be properly ſaid to *graſp at* what we are in Poſſeſſion of: That Part of the public Money which the Governor receives, ariſing by Licences, *&c.* great as it is, he diſpoſes of as he pleaſes, and we have never attempted to interfere in it; nor can one Inſtance be given of our attempting to fill any Office, which we are not by ſome expreſs Law impowered to fill.—But the heavieſt Charge of this Paragraph concludes it; the Governor is pleaſed to ſay, "When his Majeſty and the Nation are at the Ex"pence of ſending Troops for the Protection of theſe Colonies, *you refuſe to furniſh them* "*with Proviſions and neceſſary Carriages*, though your Country is full of both; unleſs "you can at the ſame Time encroach upon the Rights of the Crown." This Charge is really amazing! It requires, however, no other Anſwer, than a ſimple Relation of Fact. In the ſame Seſſion, and as ſoon as it appeared there was no Hope of obtaining the Bill for giving *Twenty Thouſand Pounds* to the King's Uſe, and many Weeks before the Forces arrived, we voted and gave *Five Thouſand Pounds* to purchaſe Proviſions and other Neceſſaries for thoſe Forces; theſe Proviſions were accordingly bought, and are ſent to *Virginia*, being the full Quantity required of us: We have ſince given *Ten Thouſand Pounds* to purchaſe Proviſions for the *New-England* Forces; it was given as ſoon as requeſted, and before the Troops were raiſed; thoſe Proviſions are moſt of them actually purchaſed, great Part ſent away, and all will probably be at the Place appointed before they are wanted.—We gave not a Pound of Proviſion leſs than was aſked of us, and all the Carriages required of us have been furniſhed.—This has been done with the greateſt Readineſs and Alacrity, and done, we conceive, without the leaſt Encroachment on the Rights of the Crown, unleſs "borrowing Money on our own Credit" (which we thought even every private Man had a Right to do, if he had any Credit) be indeed ſuch an Encroachment.

Indeed the next Paragraph begins with charging this upon us as a Crime, "You have, [the Governor is pleaſed to ſay] "by a Vote of your own Houſe, without the Conſent "of the Government, impowered a Committee of your Members to borrow Money "upon the Credit of the Aſſembly, and to diſpoſe of the ſame to *certain Uſes* in that "Vote mentioned." By this Caution in expreſſing the Uſes, a Stranger might imagine, that they were wicked, if not treaſonable Uſes; and that the Governor, out of mere

Tenderneſs

Tenderneſs for his People, forbore to explain them: But the Uſes mentioned in the Votes, are, *to purchaſe freſh Victuals, and other Neceſſaries, for the Uſe of the King's Troops at their Arrival*; and to *purchaſe and tranſport Proviſions, requeſted by the Government of the* Maſſachuſetts-Bay, *to victual the Forces about to march for ſecuring his Majeſty's Territories.* Theſe are the Uſes, in the Votes mentioned, and the only Uſes; and we can conceive no Reaſon for touching them ſo gently by the Name of *certain Uſes*, unleſs the Governor thought, that being more explicit on the Uſes, might ſeem to leſſen, in ſome Degree, the heinous Crime of *borrowing Money on our own Credit.* 1755. May 17.

The Governor is pleaſed to add, "You have alſo, by Votes and Reſolves of your own "Houſe, created Bills, or Notes of Credit, made payable to the Bearers thereof, to the "Amount of *Fifteen Thouſand Pounds*, which you have iſſued in Lieu of Money, and "they are now circulating in this Province, without the Approbation of the Govern-"ment." This Charge, we preſume, will, like the reſt, vaniſh on a little Explanation. By the Laws of this Province now in Force, and which have received the Royal Aſſent, the Diſpoſition of the Intereſt-Money, and Exciſe, is veſted in the Aſſembly for the Time being: Out of this Revenue the Aſſemblies have, from Time to Time, defrayed the Charges of Government. The conſtant Method of Payment was always this; when an Account againſt the Public was allowed, or any Expence for public Service agreed to, an Order iſſued, drawn on the Treaſurer, or Truſtees of the Loan-Office, and ſigned by the Speaker, or the Clerk, by Order of the Houſe. As theſe Orders were generally paid on Sight, they naturally obtained ſome Credit, and ſometimes paſſed through ſeveral Hands before Payment was demanded. ——— At the laſt Settlement of the Public Accounts, it appeared, that a conſiderable Sum of this Intereſt and Exciſe-Money, over which the Aſſembly alone had a legal Power, ought to be in the Hands of the Treaſurer and Truſtees. The Governor himſelf was pleaſed to point this Money out to us, to compute the Sum, and urge the Houſe to make Uſe of it, when in *January* laſt he refuſed their Bill for giving *Twenty-five Thouſand Pounds* to the King's Uſe. The Houſe alledged, and truly, that the Money was outſtanding in many Hands, and could not ſuddenly be collected, without diſtreſſing and ruining the People. However, on the Credit of this Fund, we voted the firſt *Five Thouſand Pounds* for Proviſions, and ordered the Money to be borrowed on Intereſt. And at the laſt Sitting, when the Governor refuſed to paſs our Bill for giving *Twenty-five Thouſand Pounds* to the King's Uſe, he may be pleaſed to remember, that he ſent us down a Meſſage, in which, after the Reaſon given for not paſſing the Bill, there are theſe Words: "As this is a Time of imminent Danger, and the Forces, raiſed and deſtined "for the Service of the Colonies, muſt wait the Supplies from this Province, I again "intreat you to fall upon *ſome other Method* of raiſing Money, that we may not loſe this "happy Opportunity of recovering his Majeſty's Dominions now invaded by the *French* "King." The Houſe accordingly fell on *this other Method*; they gave *Ten Thouſand Pounds* of the Money in their Power to the King's Uſe; they appointed a Committee to purchaſe the Proviſions required, and impowered them to draw for the Sum on the Treaſurer or Truſtees of the Loan-Office, as had been uſual; with this only Difference, that as former Draughts were payable on Sight, and therefore bore no Intereſt, theſe being payable in a Year, were to bear Intereſt; and in the mean Time the outſtanding Money was ordered to be got in, that the Draughts might be punctually diſcharged. Moneyed Men, knowing the Goodneſs of the Fund, and confiding in the Juſtice and Punctuality of the Aſſembly, which has always honourably diſcharged the Public Debts, have voluntarily furniſhed the Committee with Caſh for theſe Draughts, which they have laid by in their Cheſts to receive in Time the Intereſt. Thus the King's Forces have been expeditiouſly ſupplied, the People have Time to pay off their Debts to the Public, and no one is oppreſſed, diſtreſſed or injured; nor is any Encroachment made on the Powers of Government, or any Thing done that has not been uſual, or which the Aſſembly are not by Law impowered to do.—Yet this is what the Governor repreſents as "*creating* "*Bills of Credit, and iſſuing them in Lieu of Money, without the Approbation of the Go-*"*vernment*;" by which, Perſons unacquainted with the Fact, might underſtand we had been making Paper-Money, and iſſuing it on Loan, or in ſome other Manner, to produce an Advantage to ourſelves, and attempted to make it a legal Tender without the Governor's Aſſent, *&c.* all which is mere Miſrepreſentation or Miſapprehenſion, as will appear by the Reſolves themſelves, to which we beg Leave to refer. After this Explanation of our Conduct, we believe it will clearly appear, that the Governor's Inſinuation, as if we had uſed Powers dangerous to the Government, is as groundleſs as it is unkind.

The other Charges, of "denying the Governor Acceſs to our Journals, and printing "the Secretary of State's Letters," having been made and anſwered in former Meſſages between the Governor and the Houſe, we think it unneceſſary to take any further Notice of them here.——But we are ſurpriſed to find, that after having effectually given *Fifteen Thouſand Pounds*, in Proviſions and other Neceſſaries for the King's Forces, maintained

1755. *May* 17. maintained at ſo great an Expence our *Indian* Allies, eſtabliſhed a conſtant regular Poſt through Two Hundred Miles of Country, merely for the Service of the Army, and advanced a conſiderable Sum to make a long and chargeable Road through the Wilderneſs and Mountains to the *Ohio*, for the Uſe of the King's Forces, the whole Expence of which we have engaged to defray, we ſhould ſtill be flatly told by the Governor, "That "he is convinced, from the *whole Tenor of our Behaviour*, that we have no Deſign *to* "*contribute any Thing* towards the Defence of this Country."

The Governor is pleaſed further to cenſure us, for not deſiring a Conference on the Bill to prevent the Importation of *Germans*, or other Paſſengers, in too great Numbers in one Ship or Veſſel, and to prevent the ſpreading of contagious Diſtempers, *&c.* We own that it is ſometimes practiſed, when the Governor and Aſſembly differ in Judgment concerning a Bill, to requeſt a Conference, if there be any Hope by ſuch a Conference to obtain an Agreement; but we being, from many Circumſtances attending the Bill, without ſuch Hope at preſent, contented ourſelves with laying before the Governor, in a Meſſage, our Reaſons for not agreeing to his propoſed Amendments, and ſubmitted thoſe Reaſons to his Conſideration; the Bill may ſtill be reſumed, and a Conference entered into at a future Seſſion, if there ſhould be any Proſpect of Succeſs.——If our Proceeding was irregular, which we think it was not, the Governor may be pleaſed to remember, he himſelf ſet us a more irregular Example at our laſt Sitting, when we preſented him the Bill for granting *Twenty-five Thouſand Pounds* to the King's Uſe; for he neither propoſed any Amendment, nor deſired any Conference, nor would return us our Bill (when we expreſsly ſent for it to be re-conſidered) according to the conſtant Cuſtom in this Government, but only acquainted us, that "it being a Bill of a very extraordinary Nature, "he would ſend it Home to the Miniſtry," which we hope he has accordingly done, as we believe it will be found, however the Governor may have miſapprehended it, to have nothing extraordinary in its Nature, or inconſiſtent with our Duty to the Crown, or aſſuming more than our juſt Rights and Privileges.

On the Whole, while we find the Governor transforming our beſt Actions into Crimes, and endeavouring to render the Inhabitants of *Pennſylvania* odious to our gracious Sovereign and his Miniſters, to the *Britiſh* Nation, to all the neighbouring Colonies, and to the Army that is come to protect us, we cannot look upon him as a Friend to this Country. We are plain People, unpractiſed in the Sleights and Artifices of Controverſy, and have no Joy in Diſputation. We wiſh the Governor the ſame Diſpoſition; and when he ſhall, as we hope he will, on better Conſideration, alter his Conduct towards us, and thereby convince us that he means well to the Province, we may then be able to tranſact the Public Buſineſs together with Comfort both to him and ourſelves; of which till then we have ſmall Expectation."

And the Meſſage being ſigned by the Speaker, by Order of the Houſe,

Ordered, That *Joſeph Fox* and *William Callender* wait upon the Governor, and deliver the ſame.

Ordered, That the Minutes be, with all convenient Speed, reviſed and printed; and that the Meſſages of this Seſſion, and the laſt, be forthwith printed in the *Gazette*.

The Gentlemen return, and report, that they waited on the Governor, and delivered the Meſſage of the Houſe, according to Order.

Adjournment. Then the Houſe adjourned to the *Firſt Day* of *September* next.

June 13. *Poſt Meridiem*. THE Repreſentatives of this Province having been, by Virtue of the Governor's Writs to the Sheriffs of the ſeveral Counties for that Purpoſe directed, ſummoned to meet him this Day in Aſſembly, the Houſe met accordingly.
